Placer Mining

Deep snow in Lind Creek gulch.

About a mile up Lind Creek gulch, to the east of Anaconda, a dam has been built across the creek for the washing of gravel. This dam backs up a pond about four feet deep by 10 or 12 feet in length. It is to be hoped that the prospectors will make a lucky find.

It is reported that the snow in Lind Creek gulch is over two feet six in depth. The reason for this comparatively great depth is that the steep sides of the ravine prevent the sun from striking it.

Last night's Show.

"Why Smith left home" was greeted on Monday evening by a full house.

Miss Dupont, as the lady cook who instituted a general strike when her doings in the kitchen were questioned, made one of the best bits of the evening.

The play was funny from beginning to end and was fully as good as advertised to be.

Chinese New Year.

Chinese New Year, which began on the 15th and spent most of its vigor that week, still continues.

There seems to be a shortage of fire crackers, and, as every supper ends in voluntary contributions to a fund for "clacks" and the money must be sent to Victoria for more fireworks, new year's celebration is extended. Last night \$60.00 worth of crackers went off to give the devil a good scare, and next week a supper to be given will end in a \$100.00 explosion.

ABOUT TOWN

Mr. F. Keffer left town on Tuesday morning's stage on a business trip to Spokane.

The old barn on Butte Ave. belonging to Mr. N. Charboneau is being torn down for the lumber.

Mrs. Geo. H. Inkster, who paid a visit to her mother in Anaconda, left last

Friday for her home in Davenport.

Mr. and Mrs. Van Buskirk, who were paying a farewell visit to their friends in Greenwood, returned to Rossland on Tuesday.

A new bakery has been started by the Greenwood Fruit Co. They now furnish very fine bread and cake at reasonable prices.

"What," inquired the psychological student, "do you regard as the chief end of man?"

"Well," answered Mr. Blykins, "it depends on what you want the man for. If you want him to do brain work it's his head, but if you want him to run errands it's his feet."

MINING NOTES.

At the Providence the shaft is down about 280 feet and they will commence stopeing the rich ore out on the fourth level which will enable them to ship a carload per week to the Anaconda smelter.

The tunnel is progressing on the Dynamo, and the owners hope to soon strike the rich ore.

It is expected that Mr. W. L. Hogg will start development on the Arlington Burns.
