## Creek

### May Not Reach Low Water Mark.

It is likely that Boundary Creek will not reach low water mark at all this year below the B. C. Copper Co's pump house.

During high water Copper Creek formed two new channels. Both were cut deep into the soil and gravel. The first is now dry and the creek flows through the second. An immense quantity of large boulders were washed out and into Boundary Creek. These have so raised the level of the bed of the creek that low water mark may be considerably above that of last year. It will likely continue so for several years.

Some idea of the force of freshet may be gathered from the fact that several boulders probably weighing hundreds of pounds each, and that were deeply im-

bedded in gravel, have been washed out and are nowhere to be seen.

## At the Helen

### Development is Progressing.

At the Helen development work is steadily progressing. The shaft is being sunk on the ledge and is now down about 60 feet. The lead averages about ten inches in width, and is much richer than at the time of the big strike on the 8th of June.

Sinking has been in progress since June the 15th. It is expected that drifts will be run as soon as the hundred foot level is reached. About five tons of fine ore are sacked up and ready for shipment. This ore will all go over \$225.00 to the ton. The lead is widening and everything looks very promising.

## ABOUT TOWN

A celebration was held in Anaconda on the fourth.

The grass is already dry at Midway. This is unusually early.

Anaconda will likely see very active building operations this summer and fall.

Mr. Jas. Anderson of the Bank of P. N. A. has been in town for the past

week.

We are likely to have severe forest fires this season, as it promises to be very dry.

The News has increased its circulation to 130 copies. All the new subscribers are in Anaconda.

The circus at Grand Forks on Thursday was very well attended. It was the best show that has yet visited the Boundary.

## MINING NOTES.

The Silver Cloud, near the E. P. U., has been bo.uded to enteprising mining men. They are going on with deveiopment. It is a good prespect.

On the Mavis M. Kane and partners have a nice lead of rich silver gold ore.

**MINING NOTES.** From fifth page.

The Bonnie Belle, in Deadwood Camp, has been located by Mr. Caulfield and will be developed.

The Barbara is showing up well. It has a fine silver gold lead and will soon be added to the list of shippers.

Mr Haas, M. E. has returned to look after the numerous mining properties he is interested in. Of these the Spokane and the D. A. are likely to prove rich mines.

Mr. F. L. Underwood and Mr. W. H. Thomas of the B. C. Copper Co are expected in town shortly.

We have been having the regulation July weather.
