BIG STRIKE.

Just Made

By Diamond Drill in Primrose shaft.

A large body of magnetic iron ore has been struck on the Primrose, one the Mother Lode group, by the diamond drill. Several peices of the core are almost solid pyrites, and all very well mineralized.. The drill was started in from the bottom of the old shaft some time ago. Although a long distance has been passed through it still continues in ore at the present writing. This is one of the biggest finds of the season. Enormous quantities of ore are in sight in the Mother Lode quarries, and the new find furnishes large amounts of the necessary iron flux.

The addition to the residence of Mr. Caron, on the West Side, is being painted

Development

Progressing on the St. Lawrence.

The St. Lawrence is being worked by Mr. Chas. Peterson. It is on the lime kiln road and is situated a short distance above the meeting of this road and the old No. 7 trail.

The shaft is down about forty feet, and is in ore a good part of the way. The lead is well defined and is about eight inches thick on the average. The ore is a mixture of heavy iron pyrites and copper bearing pyrrhotite. It also contains pyrargyrite, or ruby silver. This contains nearly sixty per cent of silver. Several tons of select ore are on the dump.

A car of copper was shipped today from the local smelter.

ABOUT TOWN

It is getting hot.

Don't forget the circus at Grand Forks tomorrow.

Mr. F. Keffer left town on a business trip on Tuesday.

The Anaconda school picnic on the afternoon of the 24th was a great success.

Mr. Lucius A. Wing of Columbus, O.

hio, arrived in Anaconda on Saturday's stage.

A new residence is being constructed at Boundary Falls. Several other houses are being repaired and repainted.

Mr. Henry Johnson has bought a lot on Everett Ave. and is starting to build a cottage. This marks the beginning of active building operations for the summer in Anaconda.

MINING NOTES.

On the Mavis development work is progressing.

The Bay is improving with depth, and promises to make a shipper in the near future.

Development is being pushed on the Junebug, about a mile below here. It is a well situated prospect.

MINING NOTES. From fifth page.

The fortunate owners of the Dynamo intend to resume work in few months with the expectation of making a shipper.

On the Helen development work is going ahead. It is almost certain to make one of the leading silver-gold mines of the district.

School Meeting.

On Saturday the 25th the annual school meeting was held here in the Anaconda school house. Mr. Kay acted as chairman and Mr. McEwen as secretary. Mr. D. J. Sullivan, Esq., was reelected trustee. Miss Gibson gives good satisfaction as teacher. The meeting was very well attended and much interest was taken locally in the proceedings.

First Car of Copper.

The first car of blister copper was shipped from the B. C. Copper Co's smelter on Monday. The converter is

running well.

New Spur.

A new siding has been put in at the B. C. Copper Co's clay bank below Boundary Falls. A large amount of fine clay is stripped and ready for shipment. This clay works well for converter linings.
