LOCAL SMELTER

Briquetting Plant Starts Soon New Pump Station— Slag Railway.

At the B. C. Copper Co's smelter many new things are being done at present.

The new briquetting plant will start in about a week. The heavy machinery is all in place, the motor set up, and the bins, etc., finished. The work of lacing up belts is going on at present; and the framework for the bucket elevator that is to raise flue dust to the bin is nearly done.

On the slag railway the electric locomotive has been thoroughly tested. The wires are strung from about the middle of the main dump to No. 1 furnace. The new iron trestle between the hill on the west and the Copper Creek dump has been finished. The track

now extends a considerable distance along the this hill. It is intended to eventually run this dump to the end of the company's property here. As soon as the dump along the hill has been built out far enough the track will be straightened so as to avoid all curves. This will make track shifting much easier. Poles for the electric wires will be put the rest of the way around the dump soon.

The old pump station has been moved to the Copper Creek dump and connected up with the pond backed up there. In dry weather the water from the jackets will be run into this pond to cool. From there it will be pumped back into the tank.

'New Steel Ore Cars.

About half a dozen new all steel ore cars made their first appearance on the Boundary Falls smelter line last Friday. These are of the same capacity

ABOUT TOWN

The much delayed special edition of the Phoenix Pioneer will be out in about ten days.

Mr. Chas. J. Andren well known in Anaconda and Greenwood is now at Hadley, Ketchikan, Alaska.

The present January thaw is very pleasing to the Cascade power Co. and

to the towns that have been having a water famine, even if it does not look so nice to the skaters and to the curlers.

It is expected the proposed excursion to Spokane via Phoenix over the Great Northern will be on or shortly after February 15th. The round trip fare will in the neighborhood of six dollars.
