SUICIDE.

Harry Henning Dies By His Own Hand.

Cut His Throat With a Pocket Knife and Was Dead When Found.

Harry Henning, who was committed for trial on October 14th last for attempted murder, committed suicide this afternoon, between the hours of 4.30 and 6 o'clock. He had, by some means, procured a pocket knife—identified as the property of Constable Heal—and with this he cut his throat and bled to death. When found in his cell, at about 6 o'clock he was dead.

A Coroner's Jury was empanneled and an inquest was held at 8 p.m. this evening. The following is the personnel of the Jury is as follows: Dr. H. E. Young, Foreman, J. K. Shirley, J. Williams, E. P. Queen, J. D. Lumsden, E. L. Pillman, R. B. Dixon, L. Schulz, E. L. Burdette, A. S. Cross and J. Kirkland. After being duly sworn the Jury viewed the body, and upon the examination of Constables Heal, Owen and Lawrence, the inquest was adjourned till Monday at 7.30 p.m.

$5.50 PER TON.

The White Pass Company's Concession.

Offer to Ship Ore From Atlin to Tacoma Wharf for $5.50 per ton.

Dr. F. P. Scharschmidt, Supt. of the B. Y. N. Co., was a visitor to Atlin this week. A consultation was had with him by a deputation, representing the mining and business interests of the community, in the matter of transportation of ore from Atlin to the smelters of the Coast.

The rate previously existing has been $11.00 per ton to Tacoma. Very few of the quartz properties opened out could stand this rate, with mining, other local charges and treatment. As an inducement to owners of quartz properties, Supt. Scharschmidt was prepared to recommend to his Company a rate of $5.50 per ton, sacked, in car load lots, from Atlin to Tacoma wharf. The freight to be prepaid. As a further inducement Dr. Scharschmidt suggested that when any property was in a position to make regular shipments, the Company would be prepared to make an even better rate.

The reduction, as above stated, should be fully appreciated by everyone interested in quartz mining in the district. The disposition is here shown that the White Pass Company is not only willing but anxious to aid miners in the development of the country.

LONG LIVE THE KING.

Discovery's Recognition of the Coronation.

A Big Celebration Next Saturday —Sports of all Kinds the Order of the Day.

In honour of the King a day of merriment will be held in Discovery on Saturday next, 28th inst., at which the local sports and athletes will have ample opportunity to prove their strength and endurance. A splendid programme has been arranged and the Committee is sparing no effort for the success which the occasion deserves. A very big delegation from Atlin and from the creeks, it is expected, will be present, and as our Discovery friends have always shown themselves to be excellent hosts, a cordial welcome will doubtless be extended to all. The following is the detail of the day's events:

OFFICERS OF THE DAY.

President: Mr. F. T. Blunck.
Vice-President: Mr. G. A. Brackett.
Judges: Messrs. H. E. Ward, Geo. A. Kerr and R. A. Lambert.
Starters: Messrs. J. M. Rafner and R. A. Jackson.
Clerks of Course: Messrs. Walter Owen and W. J. Stockand.
Secy.-Treas.: H. E. Brown.
Time Keeper: Frank Breeze.

PROGRAMME OF SPORTS.

SATURDAY, JUNE 21, 1902.

The matter of hydraulic leaseholds in this district has occupied the attention from time to time of the the Government at Victoria during the present session, and the following letter, addressed to leaseholders by the Gold Commissioner, and bearing date of 15th inst, will doubtless be of interest to the miners of the district, as tending to show that the authorities do not altogether disregard the voice of the people:

SIR:— Please note that unless good and valid reasons be shewn to the contrary before the 25th day of June next, I shall report, under the provisions of Sections 92 and 99 of the "Placer Mining Act," to the Honourable the Minister of Mines, the fact of your having failed to comply with the conditions under which the under-mentioned Hydraulic Mining Lease was authorized to be issued to you.

The name and location of the lease was then specified, together with any delinquency in rentals or failure to do assessment work.

It is a well known fact that out of the several hundred leases which have been issued but upon very few has the effort been made to comply with the conditions of issuance. The Government is desirous of ascertaining, through the medium of this circular letter, where good faith has really been shown on the part of leaseholders, and exactly where leases were taken up for speculative purposes.

The outcome will no doubt be to clear from the books a number of leaseholders whose names should never have been there.

ERE another week's issue one of greatest historical events in our day will have been recorded in the annals of the British Empire: the Coronation of Edward VII., King of Great Britain and Ireland, Emperor of India and Ruler of the British Dependencies across the Seas. In London on Thursday and Friday of next week, a pageant, rivalling in splendour anything ever before seen, will be celebrated. Every civilized nation will be represented. The coronation ceremonies are to be after the model of that of King William III. and Queen Mary, in 1689, and will be the most "magnificent revival of archaic, but picturesque, mediaeval splendour the world has ever seen."

DISCOVERY will next Saturday be the scene of the double celebration, The Coronation and Dominion Day, and from all indications it will be an immense success.

PROFITABLE FLUME.

Miners on Spruce Making Money from Tailings.

Jottings From the Creek — Rains Cause Floods and Washouts —A Combination.

Early in the summer it was noted in these columns that a number of the miners on Spruce creek, between 100 and 110 below discovery on that creek, had combined to put in a flume to carry off the tailings from the claims upon which work was being done. Under the supervision of Muirhead Bros., owners of No. 101, a flume of about 400 feet was constructed, provided with riffles. A cleanup was made last week and the sum of $320 taken out, including a 4½ ounce nugget.

This is a pretty strong indication of the loss of gold by individual miners and the necessity of taking greater precautions for the future.

Muirhead & Co. are to be congratulated on their foresight, and the prospects for the season in this "side issue" look very good.

Mr. Marquis on 88 below on Spruce creek, on account of his recent accident, has retired from active work and has let his claim on a lay for the season.

The recent heavy rains have retarded the work of development on Spruce by freshets coming down.

DeWitt has got to work on his ground, above discovery. He expects the representative of Chicago capitalists in shortly to look over his property.

Satisfactory progress is reported from the Columbia Hydraulic Co.

The individual miners immediately below the Blue Canyon are making a drain ditch, some 1600 feet long, with the view of obtaining drainage to bedrock on each claim through which it will pass. This combination is certain to prove of immense benefit to the owners in the development of this valuable section of the creek.

Sluicing operations have commenced on the Blue Canyon property, under Jack Letherdale's supervision. Several men are employed.

Joined the Benedicts.

The Vancouver papers of 10th inst contain lengthy accounts of the wedding of Miss Marguerite Ethel, youngest daughter of Mr. and Mrs. Jonathan Miller, Vancouver, to Mr. A. C. Hirschfeld, Editor and Proprietor of the ATLIN CLAIM. The event took place in St. James Church, the Rev. H. G. Fiennes-Clinton, Rector, and J. Antle (Rector of Holy Trinity, Vancouver) officiating, on Tues., 10th inst, and was a brilliant social affair. After a reception at the home of the bride's parents, the happy couple left for San Francisco on their honeymoon. They will return to Atlin in a few weeks.

J. A. Fraser & Co.

Review, published in London, an Old Country view of the expulsion of Japanese laborers from Atlin is thus expressed:

"The recent action of the miners at the Atlin diggings in refusing to permit the employment of Japanese labor in that district appears to be regarded by the local press as a triumph for the working man and a benefit to the Province at large, and from this view we entirely differ. In a populous country, and one in which the natural resources are being largely developed, alien labour may be wisely prohibited, but in a sparsely populated, and almost wholly undeveloped country such as British Columbia, the white labourer is adversely affecting his future interests by his foolish policy. The greater the development of the natural wealth the greater will be the opportunities for self-advancement, and the higher will be the standard of comfort. Taking Atlin as an example, although our remarks will apply to the whole Province, we find a highly auriferous territory, the development of which would provide employment for at least ten times the present population. Such employment is not immediately open, because the necessary capital is not forthcoming, and not unless and until the capital at present invested in that district is returning satisfactory profits is there the least probability of further development on a large scale.

The cost of supplies of all kinds being high, the wages demanded by white labour is in proportion, and it has not yet been satisfactorily proved that the ground is rich enough to stand these heavy charges and return a satisfactory profit on the capital employed. It is therefore to the advantage of everyone concerned that unskilled labour should be obtained at a lower cost, and an attempt was made to introduce Japanese. These men would do the work requiring no experience or skill, which would allow the companies to open up their properties and afford employment to a number of skilled miners and white foremen to superintend the unskilled labourers. By preventing this the companies will have to employ white workmen at a far higher scale of wages, which will prevent them opening up their properties as economically as they would otherwise have been enabled to, and in the event of the result being discouraging, the work would doubtless be closed down, to the detriment of the whole district. Another point to be remembered is that Japanese or other aliens [who cannot read and write in English] are unable to stake claims in this district, and thus enter into unequal competition with the Canadian miners, whose additional skill and labour value should enable them to earn sufficient wages to employ Japanese themselves on their own claims.

Back numbers of the ATLIN CLAIM can always be had at the CLAIM office, price 15 cents.

Miss Tugwell, of Log Cabin, arrived on Tuesday's boat, on a visit to her friend Mrs. A. R. McDonald of Discovery.

GIANT POWDER—J. A. Fraser & Co. received yesterday morning a large consignment of Giant Powder, which will be sold in quantities to suit.

The raffle for a Ladies' Bicycle will take place this evening at 8.30, at Haddon & Sageman's Cicylery.

Divine Service will be held on Thursday morning next, 26th inst, in St. Martin's Church, at 11 o'clock, to commemorate the Coronation.

Don't forget the Grand Excursion to the Glacier on Dominion Day.

A Satisfactory Clean-up

We have been advised by Mr. Fetherstonhaugh, Manager for the Atlin Mining Co., on McKee, that the second partial cleanup resulted in a return of 126 ounces. This is the outcome of 56 hours piping, and was taken from the two upper boxes. Up to last Saturday the yield for little over 100 hours' piping is in the neighborhood of $6000. If this condition of affairs lasts throughout the season, we see big dividends ahead, as the best ground has not yet been touched.

Another Good Man Gone.

Mr. J. H. Gillard, who for the past two and a half years has been Manager of the local branch of the Bank of British North America, left on Thursday for Vancouver. During his long stay in Atlin, he has enjoyed the highest respect and esteem of all sections of the community. A great number of Mr. Gillard's friends were at the wharf to bid him good-bye and good luck. We wish him every prosperity in his new field, and feel assured that he will ever have a soft spot for Atlin.

The following passengers arrived by last Sunday's boat: H Fidlish, Gus Grindler, W Wilder, C S Baldwin, G Ekeltoff, A S Boe, John Caplice, S J Solomon, John Jocker, Geo Hageries, August Johnston, L H Griffith, J Gibson, J P Smith, Thos White, E H Grant, J H Brownlee, Mr Watson.

Mr. L. H. Griffith, a prominent member of the Sunrise Co. is paying the district a short visit.

Just arrived at Cross's: Stacks of Dry Goods and 20 tons of Groceries. Everything first class and at prices to suit the times.

J. H. Brownlee returned last Sunday. He has gone on a surveying trip to the south end of the lake.

Strawberries, Bananas, Oranges, Peaches, Cherries, Tomatoes, Plums. Also a new consignment of New Creamery Butter and some more of those strictly Fresh Eggs, direct from the ranches.

A. NICKERSON.

Mrs. Heal and Baby Heal are expected in by the next boat.

R. J. Skinner, of the Atlin-Willow Creek Co., came in this morning.
