ADVERTISE ATLIN.

An Excellent Opportunity at Little Cost.

The American and Canadian Institutes of Engineers will Hold Annual Session at Victoria.

The following despatch from Vancouver appeared in a recent issue of the Seattle P. I.; all interested in the welfare and promotion of the district can draw their own conclusions, and make up their minds to work in harmony towards inducing these important bodies to include Atlin in their itinerary:—"Arrangements are already being made by W. M. Brewer, of this city, for the holding of the annual meeting of the American Institute of Mining Engineers, which convenes in Victoria next August. Seattle, as well as Vancouver, will probably entertain the visitors in a body.

The Institute includes in its membership nearly all the important mining men of the United States and Canada, and a prominent member of its executive council is Mr. Edward Wheeler Parker, editor of the Engineering and Mining Journal, of New York, who has just been appointed by President Roosevelt as a member of the arbitration committee in the Eastern miners' strike.

While the itinerary of the visiting mining men next year has not yet been finally settled, it is expected that most of them will come via the Great Northern and Seattle, and will number in all about 300.

This is the first occasion on which they have met in Western Canada. Lieut. Gov. Sir Henri Joly has placed the parliament buildings at Victoria at their disposal and the sessions will be held there. A trip will be made to the Crofton and other smelters on the East coast of Vancouver Island and another excursion to Seattle and Tacoma, for the special purpose of visiting the smelter at the latter place. It is also probable if Mr. Brewer succeeds in making a favorable arrangement, that another excursion will take the visitors as far North at least as White Horse and perhaps right through to Dawson.

On the return East they will go through Kootenay and down to Spokane, going East again over one of the American lines. The Crow's Nest Pass coal fields will also be taken in on the way down through Kootenay.

Rod Tolmie, for many years secretary of the Mine Owners' Association of British Columbia, has been appointed deputy minister of mines, under Colonel Prior. He commences his duties on Monday.

There has never been a deputy minister before, captain Richardson secretary of the department, filling these duties.

TAKU ARM.

The Engineer Mine to be a Scene of Activity.

Superintendent Morgan of the Engineer Mining Company left Skagway on Friday of last week with a big shipment of mining machinery, including a stamp mill, which is to be installed on the property of that Company. Mr. Morgan took a full crew of men with him. Among them is M. B. Clemenger, of Skagway, who goes as engineer and general assistant.

The result of this season's development and prospect work has so thoroughly justified the installation of a stamp mill, that the Directors readily endorsed the suggestion of the management and the order for the machinery was rushed through before the close of navigation. It was placed upon the ground last Saturday and will be put together as soon as possible.

A number of men will be employed during the winter, and we are confident of hearing glowing accounts of the success of the undertaking. Some very rich ore has been exposed in the company's workings, and as soon as the proper treatment of the different grades of ore has been definitely determined—it is not all free milling—we may expect to hear of great activity on the property of the Engineer mine.

GOLD RUN.

Dr. W. G. Mitchell and associates have ordered a pumping and hoisting plant to be installed on the "Ophir" Group of Leases. It is their intention to complete the work commenced by E. W. Small in 1901 which it will be remembered had to be abandoned on account of excess of water.

The leaseholders will now pump out the shaft and crosscut the "Yellow Channel" in order to determine the width of the pay streak, which has not been definitely done, but which was proven by a cross cut to be not less than three hundred feet by Mr. Small before the water drove him out; arrangements have now been made to cross cut 500 feet South and 400 feet North, starting from the shaft sunk by Mr. Small. Charles Thompson and Thomas Blair will have charge of the plant whilst William Richards the well known underground man, will superintend the timbering and tunnelling.

The company look forward to a satisfactory issue of their development and are confident that a big plant will be put on the property in the early summer, either a dredge or a steam shovel.

SATURDAY, NOVEMBER 1, 1902.

It has been known for some time that Mr. W. M. Brewer M. E., British Columbia correspondent of the Engineering & Mining Journal of New York, has been persistently working, since the last annual Session of the American Institute of Mining Engineers in Mexico, with the view of having the 1903 session of that institution held in British Columbia; we are gratified to hear that his efforts have not proved unavailing, and that the City of Victoria will be the scene of the next annual conclave.

The American Institute of Mining Engineers is the most important association of the great mining industries of the continent, representing as it does, all the influential, practical, and experienced men in every branch and form of mining in Canada and the United States.

This Institute ranks in this country with that of the British Association of Great Britain.

The fact that the Executive Committee has decided to accept the hospitality of Victoria and of British Columbia for its 1903 session, is a direct recognition of the immense mining possibilities of the Province, and in this respect ought to be most thoroughly appreciated by all who have the interest of British Columbia at heart and more particularly by those who are identified with it in its most important industry, that of mining.

The itinerary of the Institute, at this early date, has not been completed, but it is said that White Horse and possibly Dawson will be included in the points visited.

Whether or not these places are included in the itinerary, it is a matter of the greatest moment to us in Atlin, that we move in every direction to make it a point, that Atlin is included in the list of visitations. Here is an opportunity for the Board of Trade to prove its usefulness. The Claim itself will leave no stone unturned to bring before the Executive Committee of the American Institute of Mining Engineers such claims upon its attention, that Atlin will not fail to be included among the sections visited.

Apart from our own resources or those of the Board of Trade, it should become a personal matter with every citizen in the district to exert his influence towards the desirable end we look for. An opportunity, such as never before has been offered, will then be given to show to the world, that Atlin has claims upon the great mining fraternity which are allowed by no other section of the Province.

Looking to that end, it is meet that all who have interests here should see to it, that the different properties are opened up and put in such shape that no hesitancy will be left in the minds of such visitors, that Atlin has claims deserving of recognition.

ATLIN LODGE, No. 15.

The Atlin Lodge No. 15 of the A. O. U. W. was opened by Deputy Grand Master Fetherstonhaugh on September 9th, 1901, and has since made a record for itself for progress.

The Lodge was instituted with sixteen charter members, renting a hall for the purpose. Today the strength of Atlin Lodge is shown by their erecting a handsome hall and lodge room, 18 x 40 with spacious ante-room and other necessary conveniences for entertainments, dances, public meetings, etc.

It will be elegantly furnished throughout, and is an acquisition to the city, filling as it does the long felt want of a suitable place to hold public entertainments of all kinds.

The brothers advanced all monies necessary to pay for building and furnishings so that the Lodge itself will not be in debt for one dollar; the plan adopted to raise the funds might well be considered by other lodges; each brother advancing sums from $10 to $50 which amounts are to be refunded by monthly drawings by the Lodge out of its regular fund.

Brother W. H. T. Olive, who was awarded the contract to erect the building, is pushing the work ahead and it is expected that the lodge will be ready for occupation soon.

Boulder Creek.

Societe Miniere's Manager Leaves for France.

Drifting commenced last week on the Societe Miniere's property on Boulder Creek and the first week's results were more than satisfactory.

The new flume is being built and is 4 feet square and will have steel rails on bottom, a large shipment of which arrived this week.

A very substantial building has been put up for accomodating the crew to be employed this winter.

Mr. Henry Maluin, the company's manager, leaves for Paris next Thursday; during his absence Mr. J. Fall will assume the entire management of the company's work and will represent all their interest in the country until Mr. Maluin's return next April.

Mr. Maluin is interested with Mr. Jamieson in a dredging lease on Otter Creek and is very confident of the successful operation of the whole of Otter Creek in the near future, after the consilidation of interests on that creek.

We are creditably informed that Mr. Maluin has bonded a very promising quartz property and that he intends to have development work started on same immediately on his return.

Sugar, 10 lbs. for $1.00.
All other Groceries, Provisions, etc., cut from 10 to 20 per cent. Dry Goods, Clothing, Boots and Shoes at half price.—M. FOLEY.

The population of Atlin is evidently not doomed to materially fall off in spite of the winter migration. Since our last issue we hear of two new arrivals, likely to stay awhile, too. Introductions may not be necessary till the 'christening', but they will be known for some time as "Baby" Olive and "Baby" Brook.

Christie's and Fancy Biscuits at E. L. Pillman & Co.

We are pleased to state that Mr. E. J. Thain, who has been confined to bed in the Atlin Hospital, is now able to make the rounds of the wards with the assistance of his "artificial" supports. The fracture in his leg has thoroughly mended, and it will be but a short time, till we see Mr. Thain among us again. Much credit is due to Dr. Young for the way he has handled this case.

For a good square meal go to the Pioneer Bakery and Restaurant.

J. M. Wood, late of Dawson, has taken charge of the Kootenay Restaurant and will continue to run it in up to date style; he is a first class chef and will be a drawing card.

For Oranges and the very finest butter go to McDonald's Grocery.

Remember that the season is drawing to a close. If you want to take presents home don't wait till the last moment; see our local jewellers, JULIUS EGGERT & SON, they make nugget souvenirs that are unexcelled.

There is more solid comfort in a cup of Blue Ribbon Tea than in a gallon of most beverages.

The Royal Hotel dining room is now under the management of Mr. Ashton, late chef of the "Gleaner".

He is well known as a caterer to the public taste, and sets up meals that are hard to beat.

Blue Ribbon Coffee is absolutely pure.—It is sold in all the stores in Atlin.

Go to The Royal for Fresh Oyster Cocktails.

Watch our Xmas Stock.
Dockrill and Bourne.

The Tax Sale has been cancelled by order of the Minister of Finance.

Fresh consignment of Fancy Groceries, at popular prices, at E. L. Pillman & Co.

Henry Maluin, Dr. Mitchell, C. W. Sawers, and C. Mason were amongst the passengers going out last Thursday.

Imported Cigars at Dockrill and Bourne's.

From a telegram received on Thursday, it was learned that the steamer "Gleaner" will make one more trip than originally intended; the last boat for the season will accordingly leave here on Saturday 8th inst.

Agen's specially selected fresh ranch eggs—McDonald's Grocery.

The Otter Creek Co.

The organizers of the Otter Creek Consolidated Company, had an important and satisfactory meeting on Wednesday evening last. The launching of the company is now awaiting the receipt of word from the Registrar of Joint Stock Companies in Victoria that the Company has been gazetted. The necessary local capital to enable the company to proceed with the installation of machinery has been underwritten and construction work is now proceeding under the supervision of the company's engineer, Mr. J. H. Brownlee.

The road construction between Wright Creek and the Otter Creek Consolidated Company's pressure box on Otter creek is nearly completed.

Hungerford, Foster and Carleson took out 16 oz. from No. 1 pit of the Otter Creek in cleaning out a slide. The result of this cleanup brings the yield of the ground up to $1.17 per yard. Mr. J. E. Moran, one of the locators of the Otter Creek consolidated leases has decided to take a well earned holiday, after two and a half years of continuous prospecting, and leaves for the East on the last boat. Archie Brownlee accompanies him as far as Seattle. After almost four years' continuous residence in the camp Archie will now have a chance to see what "civilization" feels like. He will return with his father in March.

Foster and his associates are now building comfortable winter quarters on the property of the Otter Creek Consolidated Company.

McDonald and his partner, laymen on the Otter Creek Consolidated Company's ground, were sluicing up to Saturday last.

Otter Creek Items.

The Canadian Bank of Commerce has shipped 147 ounces of nuggets and coarse gold won from No. 1 pit this summer.

This gold will probably go to the Prairie Province and to the Eastern States, and will help to advertise the camp.

Alfred Carmichael has completed the preliminary levelling and surveying for Mr. Brownlee, and is in town in the interest of himself and partner, in connection with the transfer of the Otter Creek Consolidated Leases to the Otter Creek Hydraulic Company. Carmichael and Moran are to be congratulated on the fair promise of the outcome of their years of prospecting and persistent effort. There are more to follow.

We understand that Mr. Brownlee has volunteered to furnish for exhibition purposes, at the meeting of the American Institute of Mining Engineers to be held in Victoria next summer, interesting mining and general maps of the Atlin Gold Fields.

This is a start in the right direction. There should also be an exhibit of minerals and other mining data.

Good News.

At last the Government has awakened to the fact that for the last four months the Atlin District has been without a MEDICAL HEALTH OFFICER. A telegram was received from Victoria on Wednesday by the Government Agent, notifying him that Dr. H. Young had been appointed to fill the vacancy caused by the resignation of Dr. Lazier. We extend our congratulations to Dr. Young and feel sure that his many friends will be pleased to learn that he is now likely to "bide a wee" with us.

The situation looked decidedly gloomy in the event of an epidemic, as Dr. Young had intended leaving Atlin for the winter, and we should have been left entirely without medical aid.

Mail Train Held Up.

A daring and successful hold-up was made at Drummond, Mont. by a lone robber. The engineer was shot and killed for refusing to obey the commands of the highwayman, and this effectively silenced the rest of the crew, who were threatened with similar treatment if they moved. All the registered mail was secured, and the man decamped with his booty.

NOTICE.

The Tax Sale advertised to be held on November 14th next is hereby cancelled by authority of the Honorable the Minister of Finance.

J. A. Fraser.
