THE ATLIN CLAIM.

VOL. 13. ATLIN, B. C., SATURDAY, NOVEMBER 25, 1905. NO. 332

TELEGRAPHIC.

CONDITIONS IN RUSSIA.

Saskatchewan Elections Will be Held Dec. 13th.

IRISH MARQUIS WILL SELL ESTATE.

Japan Will Borrow Many Millions--King Edward to Visit Spain--Store Burned--Clifford Sifton After Governorship -- Korean Emperor Got Mad--Turkey's Threat--Balfour to Resign.

[SPECIAL TO THE CLAIM.]

St. Petersburg, Nov. 23.—The present lull amongst the rioters and demonstrators in the western portion of Russia is giving the government a much needed breathing spell and practically all danger of the lately rumored necessity of having to deal with an armed uprising in Poland is over. The immediate question confronting the cabinet is the electoral law, and it is understood in official circles that Premier Witte and his colleagues have about arrived at a conclusion to base the outcome of the approaching elections on universal suffrage.

Regina, Sas., Nov. 23.—Writs have just been issued for the Saskatchewan elections. The nominations will take place on Dec. 4th and the elections will be held on Wednesday, Dec. 13th. Although a close and exciting contest is anticipated still it is confidently expected that the Haultain ticket will carry the day.

London, Nov. 23.—It has been made known in this city today that the Marquis of Downshire has finally agreed to sell all of his lands in County Down, Ireland, to the tenants. This estate is the largest in Ireland.

London, Nov. 23.—It is known in financial circles that the new Japanese loan for $125,000,000, which at present is being negotiated, will be allotted and issued on Nov. 28th. Of the new loan the Rothschilds of Paris will take sixty-two million dollars worth, London capitalists will take thirty-one million dollars worth, and the remaining thirty-two million will be divided between New York and German money-lenders.

Madrid, Nov. 23.—In Spanish official circles it is expected that King Edward of England will pay King Alfonso a visit in this city some time next May.

Van Anda, B. C., Nov. 23.—The store building with all its contents owned by Capt. Magnesens at this place was totally destroyed by fire yesterday afternoon. The loss is fully $10,000.

Winnipeg, Nov. 23.—It is reported in this city that the Hon. Clifford Sifton will shortly succeed the Hon. Mr. McMillan as Lieutenant Governor of Manitoba.

Seoul, Korea, Nov. 23.—A panic was created in Korean government circles today by the Emperor getting angry and issuing orders for all the government ministers to be assassinated because a majority of his cabinet had consented to sign the terms which the Japanese envoys demanded from Korea.

Madrid, Nov. 24.—Considerable comment has been caused in Spanish military circles by the minister of war, who yesterday asked the government for a sufficient appropriation to cover the purchase of two hundred new rapid fire field guns for the army.

Paris, Nov. 24.—The Sultan of Turkey's reply to the recent ultimatum of the powers, which demanded the institution and enforcement of the reforms promised in Macedonia, contains a warning to the effect that if the powers resort to a naval demonstration at Constantinople it may result in precipitating an internal uprising of Mussulmen against the Christians. This reply, which is considered as an intended threat on the part of the Sultan and his government, has given a serious turn to the original negotiations.

Tokio, Nov. 24.—The Marquis Ito was slightly injured while on the street here today by being struck with a stone, which was thrown from amongst a crowd of disorderly Koreans.

London, Nov. 24.—It is stated in well-informed political circles that parliament will dissolve at an early date and appeal to the country. Premier Balfour is expected to take an early opportunity to place his resignation in the hands of King Edward.

GENERAL NEWS.

The first number of the Alberta official Gazette appeared on Nov. 15.

R. F. Morris, general baggage agent of the C. P. Railway, died in Montreal last week.

King George and Prince and Princess Nicholas, of Greece, paid King Edward a visit last week.

From Halifax comes the news that a headless body was found on Round Island in Glace Bay, Cape Breton, on Nov. 16th.

A Christiana despatch states that, by an immense vote and majority, Prince Charles of Denmark has been elected King of Norway.

Hon. Raymond Prefontaine, Canadian minister of marine, will leave shortly for England to discuss plans for Canada's navy and militia.

The Canadian Pacific Railway company has agreed to pay the city of Winnipeg $25,000 per year for protection from fire of its property within that city.

Chief of Police MacFarlane of Paris, Ont., mysteriously disappeared last week. Not having turned in a considerable amount of taxes which had been collected by him is given as the reason.

Violet Peters, a six year-old Victoria child, was burned to death at her parents home in that city on Nov. 13th. Her nightgown caught fire as she was preparing for bed.

J. H. Rogers, agent of the White Pass company at Dawson, has been advised from the company's head office at Vancouver to prepare for an unprecedented rush of tourists next summer.

A Winnipeg despatch says that an oval automobile track 158 miles in circumference, touching that city and Portage la Prairie, will be built next year. It will cost $500,000, which will be supplied by Winnipeg capitalists.

At Skagway last week A. B. Seuta and Moses Rains, the two American soldiers who some time ago held-up and robbed a fisherman at the town of Haines, were sentenced to 11 and 10 years imprisonment respectively.

A Car Cross despatch to the Whitehorse Star says that after a prolonged illness Tagish Charlie, an Indian well-known throughout the Yukon and Atlin districts, died at that place on Sunday, Nov. 12th, from consumption.

A London despatch of Nov. 17th says:—King Edward tripped and fell while out with a shooting party in Windsor forest yesterday, severely spraining one of his ankles. He was removed to the castle but the shooting was continued.

A recent St. Petersburg despatch says that Poland has made a strong appeal not to be separated from Russia as she fears being gobbled up by Germany. In concluding the despatch states that a dictatorship for Russia is probable.

A Paris despatch says that reports which have been received there from the five French naval ports show that forty per cent. of the employees of the government arsenals quit work last week. Brest was the only place where any trouble occurred.

At Quebec last week the Bank of Montreal demanded the assignment of Carrier, Lane & Co., manufacturers of that city. The bank's claim amounts to over $150,000 and the total liabilities of the company are $1,000,000. The business was closed down and 600 employees were thrown out of work.

At Paris last week the government ministers sitting in council inflicted fifteen days imprisonment on General Brugere, commander of the French army, for having made public the details of a controversy between himself and General Percin, former chief of the staff under the previous minister of war.

Jacob Schiff, a prominent New York Jew, was a few days ago informed by Lord Rothschild, of London, that the condition of the Jewish people in Russia is much worse than previously reported. No less than 84 towns are in sore need of funds and the task of relieving them really seems too great with which to grapple.

It was given out at New York last Saturday that the police of that city were unable to secure even the slightest clue to the disappearance of John N. Tisdale, a prominent mining man who arrived there some time ago from Juneau, Alaska. He is believed to have been murdered, robbed and his remains either hidden away or cremated.

At Newcastle-on-Tyne last week Premier Balfour, in an address to the National Union Conservative association, urged the unions to get together and fight against unfair foreign competition and to re-adjust the fiscal policy of Britain in the interests of workingmen, thousands of whom he declared to be starving on account of the many cheap foreigners from continental Europe with whom English laborers cannot compete and live.

A Bombay despatch of Nov. 18th says: The Earl of Minto arrived here this morning and today assumed the duties of viceroy of India, vice Lord Curzon, resigned, who will leave for London tomorrow. At a banquet given last night to Lord Curzon he gave as his reasons and defence for resigning that he believed in the subordination of the military to the civil power and the necessity of consulting Indian authorities in matters pertaining to India's needs.

Mining Notes.

Nome's gold output for the season just closed was $4,500,000.

George Adams was in town this week and reports unusual activity on McKee creek. There are twenty-five men at work and they are all hustlers. By next week all preliminery work will have been finished and sluicing begun. Advantage has been taken of the mild weather and the prospects for the winter are good.

Aime Sylvester, a Glacier creek miner, left that creek for Dawson one day week before last but lost his way and after becoming exhausted from wandering around, lay for nearly two days in the snow before being accidentally found by Harvey Robe. He was then unconscious but, with the aid of the police, Robe took him back to a roadhouse on Glacier where he died in a few hours.

British Columbia has shown a steady increase in copper production, and the prospects are that it will continue, as preparations are rapidly being made to further increase operations. In 1900 the output was 9,997,080 pounds; 1901, 27,603,746 pounds; 1902, 29,636,057 pounds; 1903, 34,359,921 pounds, and in 1904, 35,710,123 pounds. The ores generally speaking are low in grade, the average recovery for the Boundary camp being 1.34 per cent.; the Rossland camp, 1.11 per cent., and for the coast district, 3.68 per cent.

MAIL.

On Sunday "Big Jack" arrived with twelve hundred pounds of mail, having come in by boat from Caribou. It is very fortunate for the camp that this trip was made as, owing to the scarcity of snow on the summit, the carriers have only been able to bring what they could pack on their backs and in spite of all their efforts mail was accumulating at Log Cabin at a rate that meant a delay during the whole winter. However, now that the arrearage has been cleaned up there is no doubt of the carriers ability to keep the mail moving and there will be some prospect of our Christmas mail reaching us during the holiday season.

ADVERTISING ATLIN.

In the October number of the B. C. Mining Exchange which has just reached us appears a long article on the work being carried on along Pine Creek, written by Mrs. Dr. Young. We quote the editorial from the Exchange acknowledging the article:

"This month we have the pleasure of presenting our readers with the promised continuation of the Atlin article, which appeared in our August issue, from the pen of Mrs. Rosalind Watson Young, wife of Dr. Young, member for Atlin in the local house. The present article, dealing as it does with operations on Pine Creek, and illustrated with photographs and a diagram, is of peculiar interest and value, both as a record of the past season's work, and as an indication of the extensive increase in development which may be looked for next year. In thanking Mrs. Young for her valuable contribution, the B. C. Mining Exchange wishes to express not merely its own, but its readers' and correspondents' appreciation of the good service—not to be estimated in dollars and cents—which this lady's public-spirited energy is doing for her husband's constituency; a constituency which, partly from its geographical remoteness and partly from other causes, has not infrequently received somewhat less than justice from the public and the press."

THE EDUCATION ACT.

In view of the changes in the Public Schools Act made at the last session of the Legislature, and which will come into operation at the beginning of next year, the Minister of Education has issued a circular "for the information of voters and guidance of trustees." The object of the circular is to explain fully the working of the Act and to call the attention of school trustees to the changes in school administration that particularly refer to the duties imposed on them.

The factious opposition to the Act that was attempted by a few persons for political purposes has died out from lack of popular support or sympathy and there is no doubt that there will be an earnest desire throughout the Province to make the operation of the Act as successful as possible.—News-Advertiser.

The appeal by the McKee creek companies from the decision of Judge Henderson last year in which he upheld the water rights of Gnaca & Co. vs. the McKee companies, and which was argued last April before the full court, was dismissed with costs by the full court last week. By this decision the amendment to the Water Clauses Act introduced by Dr. H. E. Young in 1903 applies to both leases and placer claims.

In the United States since 1885 there have been 131,955 murders and homicides and there have been 2,286 executions. In 1885 the number of murders was 1,808. In 1904 it had increased to 8,842. The number of executions in 1885 was 108. In 1904 the number was 116. This startling increase in the number of murders and homicides as compared with the number of executions shows plainly that the criminal laws of the United States are not being enforced as they ought to be.

LIQUOR LICENCE ACT.

Application for Transfer of Licence.

THE MINE BOARDING HOUSE.

As a usual rule, no feature or part of the mine is a greater source of annoyance and trouble than the boarding house, otherwise and more familiarly known to the crew as the "cook house," "cook shack" or "mulligan pen." We have frequently heard superintendents remark that they would rather manage a half dozen mines than one cook house. It is a trouble maker, that cook house. The meat is too tough or the beans are too salty; the coffee is too weak or too black; there is not enough grub cooked or there is a veritable flood of it. Sometimes things take a start and are running gloriously smooth, when the cook takes a sudden notion to leave, the notion coming just 15 minutes before meal time and with no other cook within 40 miles of camp.

So it goes, trouble, trouble always around the cook house. And yet the matter of decent board is an all-important one for the mine management. Unless the men are given wholesome food and plenty of it they will become discontented, grumpy and mean; mean, yes that is the word. Feed a man on poor "grub" for a month and you will have him in tune for most any kind of crime. He will not do one-half as much work as he would do were his stomach well cared for. It has been well said that the great majority of men have within them a hog asleep. It is a hungry hog, too; a particular breed of swine, in fact, one that will root the bottom out of the trough or all the boards off the fence if he is given corn when he wanted mash.

We have eaten at mines where bouquets were displayed on the cook house tables, with napkins and plated silverware, and, best of all, food that was fit for a king. Again we have sat down to a mine board where you had to keep your hands on the flapjacks and the cheese to keep the mice, that were gayly sporting to and fro across the table, from carrying them off. At this last-named place there was but little difference in the color of the coffee, the beans and the "spuds," and not very much difference in the taste of each. The men were discontented and quarrelsome, and it was a most unusual occurrence for a meal to pass without some one getting badly hurt by a broadside hurl of a "camp sinker" from across the table.

The writer has been told by mining superintendents of experience that they have had less trouble with Chinese cooks than any other nationality. A white man suits the men better, but is more difficult to get along with. This is especially true of the American, who treats all unkind remarks about his cooking as he would a personal affront.

Some mines manage their own cook houses, by placing them under the care of the superintendent. Others grant the privilege of operating a boarding house to a capable individual, and members of the crew are boarded, each man being responsible for his board. This plan takes the details of the institution from the superintendent's shoulders, and gives better satisfaction than to hire a cook and assistants and attempt to put the cook house in with the other details of management.

Lack of system is usually the cause of all cook house troubles, for if there is a place where system is absolutely demanded it is around the mess board and the kitchen, no matter whether it be a mine, a ship or a logging camp. There must be a capable head to the concern, one who knows how to buy, as well as one who can cook cleanly, wholesomely and well. The mine that can find such a man and put him at the head of the cook house has solved the problem of the "mulligan pen." If you find such a man and can get him once thoroughly installed, grapple him to the mess house post with "hoops of steel."—Mining World.

Messrs. Sinclair, Johnson-Woods and Taylor left yesterday to commence logging operations on the west shore of Atlin lake. The steamer Atlinto conveyed their outfit across the lake.

G. Stronnock, who has been in charge of the Tagish telegraph station for some time, came in on Sunday and has since left for his old post at the north end of Atlin lake, where he expects to remain all winter.

A turkey shoot will be held on Thursday, Nov. 30th, which is the American Thanksgiving day, at the Nugget hotel, Discovery, and the proprietors of that house have obtained a large number of the king of barnyard bipeds for the occasion.

It is an ill wind that blows no good to somebody and the local curlers are "laying" for the weather clerk on account of being unable to make ice and get "burlin' the stanes." Cheer up boys! Drink a pink lemonade (?) and then start digging the garden.

Messrs. W. P. Grant and G. T. Rant left at 4 p.m. Tuesday on a trip to Vancouver and Victoria. They travelled by the water route to Car Cross in a 16-foot canoe and a wire has been received stating that, although storm bound for 28 hours, they arrived at that place at 7 p.m. Thursday.

Stables & Lumsden carry a stock of good groceries.

Powder and Gelignite—60 and 75—always on hand at Regan's.

Fire Fund.

Tuesday evening the adjourned citizens meeting was held in the court house. The report of the committee showed that sixty-four dollars a month had been promised. This was not enough as it is estimated that at least eighty dollars a month would be required. After a lengthy discussion it was suggested that an increase to their subscriptions be asked for from the citizens, said increase to remain in effect until the end of March, 1906. It was thought that those returning to the camp in the spring would be able to take care of this increase. A hearty response was met with from those at the meeting but there is still a deficit of about five dollars a month. The committee volunteered to see some of the subscribers in an endeavor to raise this amount. We believe that they will have no difficulty in doing this. If we allow the fire department to become inactive it means that the insurance companies will withdraw entirely from the town, which is something we are sure our merchants do not wish. Previous to the meeting adjourning Mr. Geo. Findley was re-elected fire chief and nightwatchman for the ensuing term.

The Weather.

The lowest and highest temperatures and precipitation recorded for the week are as follows:

	Max.	Min.	Precipit'n
Nov. 17	34	22	.25 in.
18	31	24	—
19	29	25	.02
20	38	22	—
21	38	33	—
22	36	20	—
23	44	35	—

Now is the time to procure your Xmas Cards and Souvenir Postals at C. R. Bourne's.

Why use inferior gasoline when you can get 76 and 86 per cent. at Regan's. Atlin and Discovery.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse Schools of Telegraphy, in this issue and learn how easily a young man or lady may learn telegraphy and be assured a position.
