[SPECIAL TO THE CLAIM.]

Fires in the Blacktown quarter and in Bibiebat are still burning. It is reported that all the inhabitants of the Armenian village of Mankend have been massacred by Tartar nomads. are terror stricken and are leaving the affected district in hundreds.

New York, Sept. 14.—The elevated car which jumped the track and fell into the street below on Monday caused the deaths of ten people and serious injuries to 40 others.

Tokio, Sept. 14.—The news has been given out here today that Admiral Togo's flagship, the Mikasa, had a day or two ago caught fire, burned to a wreck and sank and that 599 officers and men had lost their lives. The vessel carried a crew of 935. Where the disaster occurred has not been made known. Admiral Togo was not aboard the ship at the time.

GENERAL NEWS.

A Tokio despatch of Sept. 8th says that because the peace treaty was signed in America the Japanese people blame the Americans for the nature of the terms decided upon. The result was that ten Christian churches were burned by the angry mobs and soldiers are guarding the American legation. The Harriman party of Americans while going to attend dinner with the Japanese minister of finance was set upon and stoned, and had to be escorted by soldiers when returning from the dinner. Mobilized soldiers have been called to the assistance of the Japanese police and Tokio has informed Washington that the American legation is in no danger. Martial law has been declared owing to the serious condition of affairs. The despatch concluded by stating that the Japanese government appears to be afraid to acquaint the people with the exact peace terms made with Russia.

A Tokio despatch of Monday, Sept. 11th, stated that every semblance of disorder in that city had disappeared. The police and soldiery have arrested and placed in prison 1,650 of the rioters. The chief of police of Tokio and the Japanese minister of home affairs have resigned their offices.

A Winnipeg despatch says that the price of the first three grades of flour has dropped 15 cents per sack.

The autumn maneuvers of the Austrian army corps at Galicia have been stopped on account of cholera.

The Canadian astronomical expedition which went to Labrador to view the total eclipse of the sun on August 29th was a failure owing to the cloudy weather.

Aeronaut Baldwin was blown to pieces at the Greenville, Ohio, fall fair last week while giving an exhibition of the use of a dynamite balloon for war purposes.

A wreck occurred on the C. P. R. on the night of Sept. 7th near Dugley, 47 miles east of Regina, when

an express train dashed into a silk train. One engineer was killed and an express messenger and a mail clerk were badly cut and bruised. The passengers were uninjured.

The Canadian government is estimating the cost of the proposed tunnel under the Northumberland strait to connect Prince Edward island with the mainland.

The Keewatin Flour Mill Co. has let a contract for the building of a flour mill with a capacity of 4,000 barrels per day. It will be the largest mill of the kind in Canada.

Battling Nelson defeated Jimmy Britt by landing a clean knockout in the 18th round of their fight at San Francisco on the afternoon of Sept. 9th. Graney was the referee.

It is understood in St. Petersburg official circles that General Linevitch will retain command of all Russian military and naval forces in the far east with the title of imperial lieutenant.

A Newcastle Pa., report states that two passenger trains collided near Wilmington Junction on Monday while running at a frightful speed. No statement was made of anybody being injured.

There is much comment in St. Petersburg on the new Anglo-Japanese treaty. It is claimed that the treaty upsets the balance of power in the far east, making Great Britain and Japan predominant.

A Christiania report states that Norwegian troops are concentrating on the Swedish frontier and that all the forts along the boundary line are being garrisoned. No explanation is given for the military demonstration.

The last battle of the war was fought on Sept. 1st, when the Japanese attacked and defeated the Russian forces after five hours fighting at Naibutu, on the west coast of Saghalien island. The Japanese casualties were light.

Hon. Frank Oliver at Windy Arm.

A recent Caribou despatch to the Whitehorse Star says: The Hon. Frank Oliver returned yesterday with Major Snyder and Mr. Courad from a visit to the Courad Bonanza mines on Windy Arm. Mr. Oliver expressed himself as greatly pleased with the development and progress that has been made and the wonderful showing of the mines and ore. He told the miners and prospectors that the government would give them every assistance toward developing the country and its resources. The minister created great enthusiasm and gained the confidence of the miners and prospectors by his straight-forward talk. The new strike of copper created much excitement and many claims were located. Miners who have seen it think it will make the greatest copper camp ever discovered as it seems to be a whole mountain of metallic copper.

The Iron Creek Strike

In the Teslin District as Seen by an Atlinite on Late Visit.

Mr. Wm. Brown, C. E., arrived in town this week from a visit to the scene of the recent new placer strike on Iron creek in the Teslin district. On his outward trip Mr. Brown travelled via Yukon and Hootalingua rivers, Teslin lake and Nisuln river, while on his return journey he came overland from Teslin to Surprise lake. He was accompanied by Mr. Brethour.

Mr. Brown says that Brewer, Anderson and Thompson, the discoverers of gold on Iron, and a few others are working on that creek and are getting fair returns. The discoverers informed him that, although they had worked on different creeks in that district for two years and had found fairly good prospects, at no time was it their intention or desire to create a stampede, and they asserted that the stampede which occurred in the latter part of June was caused by the news of the fact that they had found gold on the creek having become known to the people operating an hydraulic plant on Livingstone creek, and who apparently took it for granted that the ground had been proved to carry rich values, with the result that they suspended work for the time being and organized a staking stampede.

Discoveries and many other claims have also been staked on Sydney and Marble creeks, the latter and Iron creek being tributaries of Sydney creek. Although gold has been found on each of these creeks it has not as yet been proved to exist in paying quantities and the work being done is mostly of a developing nature and an endeavor to determine whether or not the ground will pay working.

Mr. Brown states that Jas. Simpson, Alex. Brown and Peter Anderson, who went overland to the Teslin lake district in July, have packed a winter's supply across country to Quiet lake, which is at the head of Livingstone creek. The party intends to prospect some ground which Alex. Brown was on a couple of years ago and when our informant left the Nisuln river they said that they would likely remain in and prospect the Quiet lake section until next March.

Row Arrivals.

Following is a list of those who have recently arrived per the Scotia: Sept. 13—W. J. Robinson, Father C. Eichelsbacher, H. Nicholson and P. Rocco.

The A. B. Danes at Discovery.

The complimentary dance in the A. B. hall at Discovery on Friday evening, Sept. 8th, under the auspices of Camp Discovery, No. 19, Arctic Brotherhood, was a very successful and well attended function. The hall was tastefully decorated and the words "No Boundary Line Here" were conspicuous as one of the maxims of the order. The floor was in excellent condition and the music, as furnished by the Spruce Creek orchestra and Mr. Billing, was of the best. The refreshments served, were dainty, refreshing and satisfying and, after dancing the "home waltz," everybody present voted the A. B.'s "jolly good fellows" and as prizes of entertainers. Atlin's quote, although driving slow, succeeded in reaching home just before daybreak.

Future dances given by No. 19 will certainly be looked forward to by all lovers of the mazy whirl.

Last week two ocean liners went ashore in the river St. Lawrence 30 miles below Montreal. It is feared that one of them, the Victorian of the Allan line, will be a total wreck. The passengers and mails were transferred in safety.
