BUILDING AND INDUSTRIAL NEWS

NEW CHURCH BUILDING BEING ERECTED ON GEORGIA STREET

Plans are now completed and work has been commenced on the construction of this fine new building, which will be situated between Georgia and Alberni Streets in the "1100" Block, and will have entrances on both streets. The building will be of brick construction, 131 feet by 66 feet, having a ground floor with a large auditorium above it. The auditorium will be 100 feet by 62 feet with a bowled floor. The semi-circular seating, lighted from each end with large cathedral glass windows, and by sky-lights in the roof. Accommodation is provided for nine hundred people. The roof over the auditorium will be supported by Howe trusses. The auditorium floor will be at an elevation of ten feet above Georgia Street, and will be entered from Georgia street by means of stair cases and from Alberni Street by ramps. The fronts of the building, piers, and interior of entrance vestibules will be of face brick with stone trimmings, the walls being of Denison interlocking tile. Ventilation will be provided by electric fans. On the ground floor will be located the cloak rooms, lavatories, school room, committee rooms, and heating equipment.

The design of the building is in the hands of the firm of Matheson & DeGuerre, Architects and Engineers. Tenders will be called for from time to time as the work proceeds, for the various trade, notice of which will appear in this paper. The contract for the excavation has been let to A. B. Campbell who has the work well under way. Tenders will be called for soon for the concrete work.

BUILDING PERMITS

- 9340—Loo G. Wing, alterations, 124 Pender E., \$300; G. Away, contr.
- 9356—W. J. Goard, bld. garage, 1456 8th W., \$50.
- 9358—A. S. Cox, bld. garage, 1601 Commercial Dr., \$75.
- 9359—Ellis Pepper, chimney & fire places, 2344 Prince Edward St., \$202; Mr. Hill, contr.

- 9361—James Mason, garage, 3330 3rd Ave. W.; \$75.

IMPROVEMENTS ARE MADE TO P. BURNS & CO. PLANT

Contractors Hodgson & King have been awarded a contract from P. Burns & Co. for the construction of new bull pens and the enlargement of their present power plant.

TENDERS FOR NEW CANNERY BUILDING ARE ASKED FOR

Architects Gardiner & Mercer, 827 Birks Building, are asking for tenders for the construction of a large cannery building, to be erected for Watson Bros., fish curers and smokers, on lot 47, Industrial Island.

The new plant will be a two story structure, 130x50 feet, while a feature of the building will be the smoke-house, which will consist of two three span kilns and three two span kilns,

and it is said will be the largest smoke house of its kind on the coast. The kilns are of brick and corrugated iron, while the ground floor will be of concrete and the building of mill construction with galvanized iron sheeting on the outside.

This is the first unit of the plant, and Messrs. Watson Bros. expect to add other branches to the business in the near future.

CONTRACT IS AWARDED FOR BRICK BUILDING

Architects Gardiner & Mercer, 827 Birks Bldg., have awarded a contract to Wallace & McGougan, 1007 Burrard Street, for the construction of a one-storey brick building to be erected on the southeast corner of Granville & Davie streets. The building will be occupied by the Davie Vulcanizing Co.

TRAIL NOTES.

Thus far this year—the first six months, the building permits have been much less than last year. For the month of June they were \$21,105 and for the year to date, the total of permit issued by H. Ferguson, the inspector, is \$28,790.

Moncreiff & Whittaker, who were awarded the contract for constructing the high school addition to the Central school building, began the work by starting excavations for the foundations for the two-story and basement brick structure.

Are You Looking for a FACTORY or WAREHOUSE

We have a splendid proposition to offer you. A three-story, mill constructed building, 30x120, and 70 feet variant land adjoining, located on the corner of Victoria Drive and Albert Street. This is a mortgage sale and the price and terms will suit you. Let us show you this.

THREE POINTS STUDIED

FOR TRUCK BUYING

"With the war developing new transportation problems, the discrimination of motor truck buyers is becoming more exacting," says W. L. Hughson of the KisseiKar.

"Realizing that their haulage and delivery requirements are more diversified, as well as intensified, the three truck essentials purchasers first make sure of to meet them are, abundant strength in all vital parts to stand up under the strain of continuous usage, unlimited power to insure uninterrupted performance and economy of operation in proportion to services rendered."
