9057—R. Chambers, bld. garage, 836 13th W., $150; C. F. Wills, contr.

Tenders will be called for immediately for the construction of the factory bldg. to be erected for the Canadian Metals Ltd. on the Southeast side of the Granville St. bridge, Industrial Island.

The building as planned by Col. T. H. Tracey, will be of one and two story construction, 126x104 feet in dimensions and will have corrugated iron exterior.

VANCOUVER—Damage amounting to $500 was done by fire in a suite at Stanley Court Wednesday morning.

VANCOUVER—Industrial Commissioner J. R. Davison is still gathering data to be utilized in connection with the establishment here of a woollen mill.

NANAIMO—Fire last night did $500 damage to the building and contents of the Pioneer Bottling Works, owned and operated by W. E. Rumming, on Wallace street. The fire originated in the boiler-room.

AGASSIZ—The Municipal Council has decided to construct a bridge over Cottonwood Slough, on the main road leading to the ferry landing. The cost is estimated at $2,000. The work will be done by day labor.

PORT HANEY—The Maple Ridge council will sell 80 acres of timber situated on a property belonging to them near the Lillooet river. They will call for tenders. It is reported that there is about 750,000 feet upon the acreage.

NEW WESTMINSTER—A fire which occured on Wednesday in the Morris Music House in the Guichon Block, Columbia street, did approximately $5,000 damage to stock and $300 to the building. The loss is partly covered by insurance.

PORT MOODY—The installation of the electric furnace in the Port Moody steel works has commenced. When in b'ast the furnace is expected to revolutionise the output. It does away with the tedious tying up of the scrap iron in separate small bundles, and treats the mass in cavernous basins, increasing the production by tons, at less cost.

VANCOUVER—The supplementary estimate of $17,000 for street improvements in Ward Seven was cut to $5,570 by the civic board of works yesterday. The macadamizing of Triumph street, from Nanaimo to Clinton streets, and the planking of Napier street, from Clinton to Kaslo, was passed on to the council with a recommendation that the work be given special consideration when departmental estimates are considered.

BUSINESS NOTES.

and other items of interest to the business man.

VICTORIA—Mr. Henry Hall, junior member for Victoria, will at the present session of the Legislature seek to secure some action by the House to the end that energetic steps may be taken to get along with the construction of the island railway undertakings of the Canadian Northern Pacific Railway.

NEW WESTMINSTER—Although the car shops at Port Mann are ready for operation, it was reported to the Board of Trade meeting last night, apparently there is no business in sight, and in fact there is a possibility that the plant may be moved back east. It was the view of the board that this would be a mistake, as cars can be more economically made here, where the lumber supply is available. Mr. W. G. McQuarrie, M.P. will be asked to take this up at Ottawa.

NEW WESTMINSTER—At a meeting of the Board of Trade on Tuesday evening the executive reported on steps taken to induce the Dominion Government to proceed with certain improvements to the Fraser river, notably the construction of a wing dam which is required as a protection to the Sandheads jetty. There is a danger, if this wing dam is not built, that the freshet will cut through the north jetty, and much of the work already done will be lost.

VICTORIA—Members of the Board of Trade council impressed upon Dr. S. F. Tolmie and Mr. J. C. McIntosh, the two Island members in the Federal House, the importance of continuing dredging operations in Victoria harbor. Mr. Joshua Kingham said that the order to dismantle the Mudlark at the end of the month should be forestalled, as the undertaking of keeping the seabed in front of the new piers at a level was just as essential as the maintenance of a regular floor in the Inner Harbor. Mr. B. Boggs, chairman of the board's harbors and navigation committee, said that s'i was rapidly piling up off the G.T.P. wharves and that the C.P.R. steamers were steadily churning up mud on all sides of the Harbor, so that there was constant need for a dredger.

SEATTLE—Sketches of the $100,000,000 land and water terminal for the Seattle waterfront prepared by Howells & Stokes, architects, 725 Henry Bldg., have been forwarded to Director-General McAdoo, in charge of railroads, by the Consolidated Americanadian Terminal Assn., 306 Transportation B'dg.

A year ago when the project was first considered the architects made a detailed study of conditions bearing on the proposed terminal. The new corporation mentioned has seen fit to interest itself in the venture and is meeting with every encouragement, according to reports.

The proposed location of the terminal is near the commercial center of Seattle and would involve the vacation of several streets by the city and co-operation of the various railroads.

A. P. Gillies, consulting engineer of the company, originally planned the project.

MINING.

It is said that a deal is pending for the taking over of the famous Voight copper properties in the Similkameen by the Consolidated Co., the title to the same now being examined.

This week there are 25 mines on the shipping list to the Consolidated smelter at Trail, ten of them being new for the year 1918. For the year to date the total ore and concentrates received is 61,393 tons.

The Consolidated company is making changes and repairs on its Molly Gibson mill, and shipments of concentrates have been resumed.

John Simpson reports that a shipment from Mrs. Jowett's property on Trout creek in the Kaslo district, returned $100 a ton net from 10 tons sent to the smelter.

THE MEDIUM.

Did you ever notice that 95 per cent. of the big successful firms are firms who advertise? They figure advertising as an investment not an expense. The secret of advertising is the selection of a medium which reaches those people who are or will be the most likely "purchasers o[f] product." If you are in the build[ing] supply or machinery line don't se[lect] a moving picture publication [in] which to do your advertising. Because of the fact that the RECORD is the only paper published in the province devoted exclusively to the contracting business it is read by practically every one you would like to sell your products to. Your ad. where they will see it will put a capital C on your case.

VANCOUVER—At least five wooden steamers for the Imperial Munitions Board will be launched this month, and March 14 is the probable date. The New Westminster yard and the Coquitlam plant expect to launch one each on that day and the Lyall yard will put the War Cariboo in the water about that time. The War Selkirk, at the Western Canada yard, is waiting for seacocks and other gear, but otherwise is ready for launching and the Victoria plants also have hulls about ready. March will probably be the record month for launchings. The Imperial Munitions Board logging camp at Jackson Bay was closed down for a few days owing to the bad weather, but has resumed. 1,500,000 feet of logs are ready to be towed to Vancouver.

1941—M. J. Halpin, 1424 13th Ave. W., Barr & Anderson.

(Continued from Page 2)

Six new 1918 shippers are on the Consolidated ore list for the week ending this month.

Granby's Grand Forks smelter is now operating three copper furnaces out of the battery of eight.

Three lead furnaces are now in blast at the Trail smelter, the third having been blown in last week.

The last week in February shows the largest ore shipping total for any seven days thus far this year—10,399 tons.

In January 27,404 tons of ore were shipped to the Trail smelter, and in February the total was 33,313 tons, the latter total being somewhere near the normal figures.

Tomorrow is the semi-monthly payday in Trail and Rossland, when some 1300 men will be paid in the former place and about 500 in the latter.

Ladysmith smelter, on Vancouver island, may again be operated, as it is proposed to bring ore by water from Mexico, the return cargo being lumber.

Steady shipments are being made from the Emerald mine on Iron mountain, in the Salmo District, to Trail smelter. One carload per week being shipped.

Granby's plans for coal development, coke ovens and by-products plant may be delayed by troubles in securing title to some of its lands on Vancouver island.

Eight tons of ore, which it is estimated will run 300 ounces in silver to the ton, are being shipped from the Aspen mine, near Salmo, to Trail smelter. The owners of the property are Mrs. Billings and Percy F. Horton.

PROPOSALS WANTED

TENDERS WANTED FOR HEATING AND VENTILATING EQUIPMENT

Parliament Buildings, Ottawa.

Sealed tenders will be received by the undersigned until noon, March 18, 1918, for heating and ventilating equipment required in the reconstruction of the above building.

All tenders to be based on the execution, erection and completion, together with the furnishings of all materials, tools, appliances, scaffolding, apparatus and labor required for the installation of the heating and ventilating equipment as called for in the plans and specifications.

All information can be obtained at the office of the general contractor, P. Lyall & Sons Construction Company, Limited, Ottawa. A set of plans and specifications may be had by depositing an accepted bank cheque for twenty-five ($25) dollars made payable to the Honourable the Minister of Public Works, which will be returned if the intending bidder submits a regular bid.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works for a sum not less than five per cent. (5%) of the amount of the tender, which will be forfeited if the parties tendering decline to enter into a contract when called upon to do so. If the tender is not accepted the cheque will be returned. If the tender is accepted an additional cheque for a sum equivalent to five per cent. (5%) of the amount of the tender must be deposited before the contract is signed. The total security will be forfeited if the contractor fails to complete the work contracted for.

Payments will be made monthly and will not exceed in the aggregate ninety per cent. (90%) of the value of the labor and materials furnished and set in place.

The lowest or any tender not necessarily accepted.

Envelopes containing tenders to be marked "Tenders for Heating and Ventilating Equipment," and addressed to the undersigned.

JOHN A. PEARSON, Architect.

J. O. MARCHAND, Associate.

Centre Blk., Parliament Bldgs., Ottawa.
