OFFICIAL ORGAN.
The British Columbia Record is the official organ of The Architectural Institute of British Columbia, federated with The Royal Architectural Institute of Canada, and The Engineering & Technical Institute of British Columbia, and as such is used by them as the medium through which to make their official announcements to the general public.
By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

GROWTH OF FOREST TREES.

Investigations carried out by the forestry officials of the Commission of Conservation show how extremely slow is the growth of our forests. This is a subject that vitally interests every lumberman in British Columbia, and in a secondary measure every builder and contractor throughout the Dominion.

It has been ascertained that a balsam with a diameter of four inches has taken on an average 55 years to grow. It would be 70 years old when 8 inches in diameter, and 80 years when it had reached 10 inches. These measurements were taken breast-high. And the balsam shows rapid growth by comparison with the more valuable spruce, which has but a diameter of 6 inches on attaining its century mark. The 12-inch log of the lumberman is rarely taken from a tree aged less than a couple of centuries. These foregoing measurements apply generally to Ontario and Quebec. In British Columbia with its moist climate the growth is fully 25 to 40 per cent. faster, depending on whether the tree grows close to the coast and at a lower level, or at a higher altitude in the mountains.

Such statistics should cause one to think furiously ere cutting down a single tree at any time. The Canadian, like his emblem, the beaver, is notoriously a tree-felling animal. Instead of invoking a blessing on the man who made two trees grow where there had been but one, he reserves his admiration for the axe that brings the greatest number of tops to the ground in the new eight-hour day. This was all very well when men were scarce and trees prodigiously abundant, but men having increased wondrously as mature trees become less numerous, it is high time that we learned to acquire something of the respect in which the European, especially the Frenchman and the German, regards a tree. Otherwise our descendants may have to import their timber from those who, while having an inferior stand to start with, yet manage it so well that generation after generation have enough for local use, and even a little for export.

BANK WILL OPEN BRANCH AT MILNER

MILNER—The Royal Bank of Canada is about to open a branch at Milner in the near future. A lease, securing one of the rooms in the Milner hall, has already been signed.

INVESTIGATING IRON DISTRICT REGION NORTHERN LILLOOET

One of the most remarkable iron bodies in America has been reported uncovered in the Northern Lillooet region, situated 50 miles from Shalaleh Station, on the Pacific Great Eastern Ry. It is claimed that over 18,000,000 tons of ore, the limonite running over 50 per cent. iron, according to numerous assays made by a prominent firm of London chemists. In addition to the above there is practically a mountain of hematite that can be mined at a very low cost. The value of the ore at the smelter is about $7 and the claim is made it can be mined and delivered at tidewater for about 50 cents per ton.

Prominent government and private engineers are now on the ground making surveys.

OPINIONS

Paint & Drug Reporter says:—There is no let up to the activity in the paint industry, and unless there should be conditions outside of the industry itself that would prove a check upon consumption, there promises to be a very good business for as far ahead as anyone is able to look.

MINING

A promising body of ore has been developed at the Paradise mine, on Toby Creek, near Windermere, B. C. During 1917 more than 2,000 tons of ore was shipped from this property to the Trail smelter.

Another big boost for the Lardeau country is the rich strike on Mrs. Jewett's property, near the famous Silver Bug property. Assay returns show six ounces of gold and about 60 ounces of silver to the ton.

That some bornite ore has been encountered in the shaft being sunk on the Mountain Chief copper property at Renata, and that shipments of ore to the smelter will commence in a few days, were announcements made last night by J. W. Evans, manager of the Mountain Chief Mining company, who is in the city, says the Nelson News.

The Index Mine, which is being developed by the Index Mining company, has the compressor building nearly finished and in shape to receive the machinery, which was taken up to the South Fork recently. The plant will be used to operate machine drills for the driving of the long tunnel which is being put in at a point close to the mine camp, and just below the South Fork road.

NEW EXPRESS RATES ARE NOW EFFECTIVE

New express rates ordered by the Board of Railway Commissioners became effective Sept. 1. The rate is increased on all packages 100 lbs. or over and on some of the smaller parcels it is reduced.

ARCHITECTURE

I have left the city with its grinding noise,
With its sordid sorows and its pinchbeck joys,
For the cleanly comfort of a prim abode
In a new-laid suburb on a two-track road,
Where the mastiff greets me with a "Woof, woof, woof"—
From a red-brick kennel with a gambrel roof,
Where the leghorns nestle in a chicken coop
With a dormer window and a high Dutch stoop.
Where the small pigs gambol and the large pigs grunt
In a sty of stucco with a Queen Anne front,
And the horse shall whinny and the cow shall low
In a new Greek stable with a portico.

—Arthur Guiterman.

ASKING TENDERS FOR COATING MARINE DRIVE

Tenders are being invited at the Engineers' Office, Municipal Hall, Hollyburn, for filling depressions and flush-coating Marine Drive, West Vancouver, from the eastern boundary of the municipality to end of the hard-surface at West Bay, D.L. 557, approximately 33,000 square yards of surface.

TAKING FIGURES FOR SCHOOL AT FERN RIDGE

Tenders are being received to Sep- of the Langley school board, for the tember 7th by J. M. Shales, secretary erection of a small one-room school and outbuildings at Fern Ridge, in Langley District, B. C. Plans and forms of tender may be seen at the municipal office, Murrayville, B. C.

WILL CALL TENDERS NEXT WEEK FOR PT. GREY HOMES

Mr. Frank McQueen, manager of the real estate department of Fauld's Financial Travel Bureau, Ltd., will be asking for tenders next week for the erection of five bungalows to be erected in Point Grey. This is in connection with Mr. McQueen's scheme in which he plans to erect 24 houses at 20th Avenue and West Boulevard.

INVITING TENDERS FOR WHARF AT NARAMATO

Tenders are being invited to September 22, 1919, by the Dominion Department of Public Works for the construction of a wharf at Naramato, District of Yale, B. C.

Plans and forms of contract can be seen and specifications and forms of tender obtained at this Department, at the office of the District Engineer, at Chase, B. C., and at the Post Offices, Vancouver, B. C., and Naramata, B. C.
