PREPARING PLANS FOR GORE AVE. PIER FOR TUGS TO COST ABOUT $25,000

Following a conference yesterday between Mayor Gale and Col. Kirkpatrick, chairman of the board of harbor commissioners, an agreement was tentatively arrived at whereby the city will make available at least a portion of the street end of Gore Avenue for the purpose of construction a tugboat terminal and pier there which will provide much needed accommodation for the mosquito fleet on Burrard Inlet as well as centralizing the berthing of that class of vessel.

Col. Kirkpatrick announced that as a result of the agreement arrived at between the city and the harbor board, instructions would be issued shortly to Mr. W. G. Swan, engineer

PLAN FINE DWELLING F. F. SUCKLING

Townley & Matheson Designing Stucco Colonial Home For Site on Magee Road

Architects Townley & Matheson, 325 Homer street, have been commissioned by Mr. Fred F. Suckling, of the firm of A. E. Suckling & Company, Ltd., to design a cosy residence which is to be erected soon on a site secured recently on Magee Road, Point Grey.

The new residence, which is to cost about $7,000, will be of frame and stucco construction in a striking Colonial design. It will be two stories in heighth with a full concrete basement and hot air heating for all of the six rooms. In interior layout the dwelling will have a number of up-to-date innovations which will make it notable even among the many handsome homes in the popular Point Grey district.

The architects expect to have the plans ready for tenders from a number of selected contractors in about ten days' time.

ASK TENDERS ON NORMAL SCHOOL FOR CALGARY

CALGARY—The public works department of Alberta is calling for tenders for the general contract in connection with the erection of a new Normal School and Institute of Technology which is to be constructed for the department of education on a site selected in this city. Tenders will be received up till noon on Monday, September 20.

Each tender must be accompanied by a check equal to five per cent. of the amount of the contract and the successful bidder will be required to put up a bond amounting to twenty per cent. of the contract. Plans and specifications will be issued to applicants at the office of the provincial architect, Parliament Buildings, Edmonton, upon payment of $25 for the complete set, which will be refunded upon return of the plans.

FOUR MORE NEW SOLDIER HOMES TO BE BUILT SOON

Four more grants for homes for soldiers to be built by the city under the provisions of the Soldier Housing Act, were passed by the city council at its meeting on Tuesday. This will comprise about the last of the $300,000 allocation which the city received from the provincial government for this purpose. Tenders are to be called shortly by City Building Inspector Bird for the erection of these new homes, the loans for which aggregate $13,800.

The quartette of returned citizens whose applications were approved by the city council on the recommendation of City Comptroller Pilkington together with the amounts are: Mr. A. W. Mahiney, $3,300; Mr. E. Mahy, $3,200; Mr. Martin Montgomery, $4,200; and Mr. A. A. Davidson, $3,100.

CONTRACT AWARDED FOR HANDSOME HOME

Seventeen-Room Residence to Cost $40,000 To Be Built For Mr. H. F. Bullen

VICTORIA, (Special)—By a contract just awarded to Mr. P. McKechnie, there is to be commenced at once the erection of one of the most notable additions to the many handsome homes which Victoria boasts. This new palatial dwelling is to contain seventeen rooms and will cost in the neighborhood of $40,000. It is to be erected for Mr. H. F. Bullen, the shipyard man, on St. Charles street, near Shasta street, in one of the finest residential sections of the city.

Building Inspector Barr issued the permit for this newest addition to the city's fine homes last Wednesday. The building is to be of substantial frame construction two and one-half stories in heighth, with the upper story finished in stucco. The dwelling was designed by Architect P. L. James. Contractor McKechnie intends to push the construction most energetically so as to have the frame up and the roof on if possible before the wet weather sets in. A number of sub-contracts for the usual trades are to be awarded shortly.

LAST CONTRACT IS LET FOR SOLDIER DWELLING

NEW WESTMINSTER — Reporting to the city council at its last meeting, Alderman Dodd announced that the contract had been awarded for the last of the homes for soldiers which the city would be able to erect out of the appropriation which it had received from the provincial government. This residence was for Mr. J. W. Crispen, and the lowest of a number of tenders received was one from Sloan & Harrison, Columbia street, for $3,800. The award of the contract was confirmed by the council and the contractors intend to start work at once on the dwelling.

With the exception of a few hundred dollars which will be retained as a special fund for repairs and incidentals, this exhausts all the funds which the Royal City has available for soldier housing.

GOOD PROGRESS IS MADE ON PACIFIC HIGHWAY

CLOVERDALE—Good progress is now being made by the contractors, Messrs. Sloan & Harrison, on the improvements and paving to the Pacific Highway covering that section from Cloverdale to Blaine. This section is now being oiled and surfaced with crushed rock. A double layer of this treatment is to be applied, and the surface rolled. Work is proceeding on the stretch indicated from each end. The improvement is progressing rapidly, and from the Blaine end has reached Ray Shepherd's house below the Brown hill, whilst from the Cloverdale end it is advanced beyond McLean's mill.

B.C. LUMBERMEN GET ORDER FOR 2,000,000 FT. OF TIES FOR OLD COUNTRY

Making the third big order for railroad ties which has been placed on the Pacific Coast this year, there was booked this week a contract to supply twenty million feet of railway ties from British Columbia mills intended for use on railways in the United Kingdom. The order was booked at the prevailing figure of $36 per thousand. The deal was closed by the Ocean Lumber Company, through its local representative, Mr. W. A. Everett, and will keep British Columbia mills busy on that class of timber for some time.

The entire twenty million feet will be shipped by chartered steamers

OFFICIAL ORGAN.
The British Columbia Record is the official organ of The Architectural Institutes of British Columbia, federated with The Royal Architectural Institute of Canada and as such is used by them as the medium through which to make their official announcements to the general public.

By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters, subject to editorial opinion.

TIME WASTED ON ESTIMATES THAT NEVER BRING A JOB OR ORDER.

The amount of time that is wasted every year by contractors, architects and dealers in building material supplies in furnishing estimates to persons who have no earthly intention of ever placing an order or awarding a contract as a result of these "estimates" they ask for so glibly, would be surprising if it was all totalled up. In the case of architects it is no doubt unavoidable to a certain degree, for it is to the architect that the prospective owner or home-builder goes first to ascertain the probable cost of the dwelling or building which he proposes to erect.

In the case of busy and hard-worked contractors however, the amount of valuable time that is wasted in the course of year making up estimates would often enable him to build several moderate priced homes. Often a contractor is inveigled into preparing a carefully made and closely cut estimate on some particular and unusual building job, or extensive contract for alterations or remodelling under the plea that he is one of a select few "selected contractors" who have been privileged to figure on the job. Very often the contractor finds out that there was practically a "selected contractor" who generally lands the job, despite the cut-to-the-bone estimates the other fellows put in.

Then, there is the "gimme an estimate" fiend who thinks that the building supply material dealers has nothing else to do but to figure out intricate quantities required in lumber and other materials, together with their cost. Occasionally, this ancient and altogether too prevalent trick is unwittingly exposed. A notable instance of this was given in a Penticton journal recently in the following innocent-looking paragraph:

"The municipal engineer was authorized at the council meeting Monday night to call for tenders for approximately 90,000 feet of lumber required in the construction of the superstructure that will carry the new metal flume the municipality proposes erecting this fall. Two or three bids will be sought at the coast beside those of the local dealers, more as a check on local prices than with any idea of dealing out of the district."

The verdant reporter who penned that last sentence inadvertently let the cat out of the bag. Please note the refreshing candor with which the statement is made that the bids on this big order of lumber to be sought from coast dealers "more as a check on local prices than with any idea of dealing out of the district."

The Penticton aldermen evidently think it is no trouble at all for coast lumber dealers to sit down and figure out this more or less intricate dimension order for 90,000 feet. They seem to think it is a delightful sort or pastime which the coast lumbermen would rather indulge in than play golf, and without the hope of getting an order, even if their bid is lower. There is altogether too much of this "free estimate on application" prevailing in business and building circles and the sooner the rule of payment for estimating is insisted upon the better it will be for those engaged in the building and allied trades.

(Continued from Page 1)

from British Columbia mills which will be kept busy for some time on this class of timber. It is probable that owing to the enormous demand for railway ties in the Old Country, due to stocks being depleted during the war years and lack of transportation preventing stocks being renewed, that this may be the last large contract for ties placed at that figure

WAR VETERANS BUILDING HOME

CALGARY, Alta.—The construction of the new club house of the Great War Veterans' association has commenced. It is one of the most expensive buildings started here for some time, costing $150,000, with an area of almost 10,000 square feet. It will be three stories high and luxuriously furnished.

FORD TO BUILD HUGE PLANT IN MONTREAL

MONTREAL—A five million dollar Ford automobile factory will shortly be established here in the eastern part of the city, application having been made by the Ford company to the harbor commission for wharfage facilities on the harbor front.

CONTRACTOR DECLARES POWER SAW SAVES TIME

SEATTLE—That the use of a small gasoline engine connected to a 20-inch circular saw which can be carried to any part of a building under construction has resulted in a substantial saving over the method usually employed by contractors of using a stationery saw is the statement of Contarctor John K. Coleman, 1531 Seventh Avenue West.

Contractor Coleman reports that the use of a portable as mentioned has saved from $25 to $35 per day in carpenters' time on jobs that he has had under way. A saw of this size permits of the cutting of stair forms and handling much other work that takes up the carpenters' time.

SHIPBUILDING NOTES

The "City of Vancouver" an 8800 ton dead weight, standard steel freighter, is to be launched at the Coughlan shipyards at 5 o'clock this (Friday) afternoon. Mrs. F. R. Humber will officiate as sponsor for the vessel, which is a sister ship to the Margaret Coughlan and is owned and will be operated by the Coughlan interests through a subsidary company. This ship, which marks the eighteenth steel vessel of 8800 tons which has been turned out by the Coughlan yards, has already been booked for a cargo for the United Kingdom.

MINING.

The dismantling of the converter building and the 40-ton crane commenced on Monday at the Greenwood smelter.

A new copper lead was struck on the Mountain Chief mine at Renata, last week. It is 1000 feet down the slope from the old workings.

ITEMS BELOW HAVE BEEN PUBLISHED PREVIOUSLY BUT ARE HELD FOR READY REFERENCE

BIDS ASKED ON NEW HOME IN VICTORIA SUBURBS

VICTORIA.—Bids are being invited from contractors by Architects Maclure & Lord, with offices in this city and Vancouver, on the construction of new home which they have just completed the plans for. The dwelling is to be erected for Mr. E. B. Malfall on the site secured at the corner of Beach Drive and Transit Road. It is to be a two-story frome structure with all modern conveniences.

Tenders are to close with Mr. Maclure, 404 Union Bank building, Victoria, on Tuesday September 14 at 3 p.m.

ASKS BIDS ON RENEWAL OF WHARF AT KINCOLITH

Tenders are being called by the Dominion department of public works for the renewal of the present wharf at Kincolith in the Skeena district. Tenders will be received up to noon of Wednesday, September 22, by Mr. R. C. Desrochers, secretary of the department at Ottawa.

Plans and specifications of what is required in the way of wharf renewal and repairs, together with forms of contract and tender can be obtained at the office of the district engineer at Prince Rupert, and at the post offices at Vancouver and Kincolith, B. C. Blue prints can be obtained from the department at Ottawa upon payment of $10 to ensure their return. The usual ten per cent. check must accompany all bids.

TENDERS INVITED FOR RECLAMATION WORK

Tenders are being invited by the Department of the Interior, Ottawa, up to September 27th for the construction of Drains, Waterhen Reclamation project.

Plans, specifications and form of contract can be seen at the office of the District Chief Engineer, Dominion Water Power Branch, 213 Hastings street east.

An accepted bank cheque drawn on a chartered bank of Canada for the sum of $10,000 and made payable to the order of the Minister of the Interior must accompany each tender.

A Chinese textile made of raw silk can be buried in the earth a year without deteriorating.

ARCHITECTS REGISTER AT ONCE.
Architects Act of B. C. 1920

To all Architects practicing in the Province of British Columbia. Take notice that the organization of the Council of the Architectural Institute has been completed and notice thereof has been published in the British Columbia Gazette in accordance with the Act. Now, therefor, it is necessary for all persons practicing Architecture to cause his or her name to be registered with the Secretary of the Institute, together with credentials satisfactory to the council of being competent and in practice and by paying to the secretary the fees made payable in that behalf.

Forms of application for registration can be obtained from the secretary.

All communications, requests for forms or information must be made in writing addressed to the secretary.

Absolutely no information will be given by telephone.

By order of the Council,
F. L. TOWNLEY,
Secretary.

12239—S. A. Denby, garage, 3321 6th Ave. W., $100.

(Continued from Page 1)

for the harbor board, to prepare plans and specifications for a specially designed tugboat pier at the foot of Gore Avenue. In accordance with the suggestions of leading tow-boat owners, the new pier will be about 600 feet in length, some 30 feet wide and built of piling, the deck being only about four feet above high water. This will obviate the construction of any very deep slips along the pier and provide berthing accommodation for about one hundred of the average small tugs which ply in these waters. The construction of such a pier will involve an outlay of between $25,000 and $30,000, and will also assure a considerable addition to the revenue of the harbor board.

SO. VANCOUVER PERMITS

3965—F. Benfield, 40th Ave., addition, $100.

AIR HARBOR COMPLETED

MORLEY, Alta.—The first air harbor in Alberta, which is located here, is almost completed. It will be the headquarters of a forest patrol staff and contain six machines. The work of fire fighting will be performed with bombs containing chemicals, which will be dropped from the planes. This town is in the heart of the district which suffered so heavily from forest fires last year.

NOTICE TO CONTRACTORS

Separate Sealed Tenders will be received by the undersigned up to 12 noon, Wednesday, September 15th, for the Plumbing and steam-heating trades for a School Building of twelve rooms and assembly hall at Cartier Street and 67th Avenue, Marpole, for the Board of School Trustees, Point Grey, B. C.

Contractor submitting tenders will be required to enclose a certified cheque for a sum equal to five per cent. of the amount of tender, which cheque will be forfeited should the Contractor fail to enter into a contract when called upon.

Successful contractors will be required to furnish approved Surety Bond to amount of Fifty per cent. of amount of contract.

Copies of plans and specifications and forms of tender may be obtained at the office of the Architects on the deposit of a sum of Ten Dollars, which will be refunded when plans and specifications are returned in good order.

The lowest or any tender not necessarily accepted.
