VOL. 1—NO. 40 | BELLA COOLA, B. C., SATURDAY, JUNE 21, 1913. | $1.00 a Year

Canadian Polar Expedition Leaves

Victoria, June 19.—The Canadian Polar exploration expedition which will spend three years in the Arctic regions under the direction of Vilhjalmar Stefansson, discoverer of the blonde Eskimos, set out from this port for the far north late on Wednesday in the old whaler Karluk, commanded by Captain Bartlett, with ten scientists and crew of fifteen.

Dr. Stefansson did not sail with the Karluk, remaining behind in order to complete a book he is writing. He will join his vessel at Nome on July 20.

The departure of the vessel was witnessed by large crowds, who bid the party farewell amid the blowing of whistles of the harbor. "Wish you successful voyage and safe return" was the tenor of the message signalled from the British warships Rainbow, Shearwater and Algerine.

King George to Visit Cruiser Australia

London, June 19.—The King will pay a strictly private visit to the battle cruiser Australia at Portsmouth on June 30, prior to the ship's departure for the Antipodes, the ship having been built in England to the order of the Commonwealth government.

Autralia has appointed Rear-Admiral Paley, who has commanded the second battle squadron of the second division since 1910, to command the Australian fleet.

This appointment may be regarded as marking the birth of the Australian fleet as a fighting force.

Suffragettes Resort to Hunger-Strike

London, June 19.—Six suffragette leaders, who were sentenced to terms of imprisonment for conspiracy, began a hunger strike immediately on reaching the jail, having declared when sentenced they would refuse to eat and so compel the authorities to release them.

Storm Sweeps Province of Quebec

Causes Damage to the Extent of $1,000,000

Quebec, June 18.—The first storm of the season which occurred yesterday took on the proportions of a hurricane, and during the thirty minutes that it lasted did damage to public and private property to the extent of three hundred thousand dollars, putting the telephone and telegraph services completely out of commission.

Montreal.—Despatches from all parts of the province indicate that the extent of the damage done by yesterday's storm is not less than one million dollars. From every direction come reports of houses and barns burned and destroyed. The telephone and telegraph wires are dragging on the ground, and on trees and house tops throughout the storm swept area.

Gay Scenes in German Capital

Berlin, June 19.—The Emperor's silver jubilee, which called to the streets of Berlin the greatest and gayest crowds that have ever visited the capital, reached a climax with visits from the allied sovereigns, and closed with a gala dinner followed by a picturesque torch-light procession.

Federal Force Wiped Out By Insurgents

Nogales, June 19.—Two hundred Mexican federal troops are reported dead in the dynamiting of a troop train near Guaymas by constitutionalists. Numbers of others were wounded. Gen. Gjeda's federals immediately began pursuit of the insurgents.

Two Hundred Executed

Peking, June 18.—Women of modern education were among the alleged anti-government conspirators who were placed under arrest at Tien Tsin and Peking in the last few weeks. It is reported that 200 conspirators already have been executed after summary examination.

It is difficult to say whether President Yuan Shi Kai is winning or losing in the political campaign now being waged for the presidency, but important movements of troops are continually being made.

Jottings from Rivers Inlet

The steamer Tees arriving on Tuesday brought a large number of Indians from the West Coast of Vancouver Island. They will be employed in fishing for the neighboring canneries.

A large number of independent licenses have been issued and preparations for a large pack are practically completed.

Provincial Constables A. W. Stone and F. A. Barber, along with Magistrate A. S. Hood, are stationed at Brunswick Cannery.

Constable A. W. Stone is at present visiting the various canneries including Bella Coola and Kimsquit for the purpose of issuing fishing licenses.

Parcel Post Next Year

Ottawa, June 19.—The post office department is proceeding with the new parcel post system with the idea of having same in force by January 1, 1914.

Trade Returns Best in Dominion's History

Ottawa, June 18.—The first official figures on imports and exports shows last year's trade to be the best in the history of the Dominion.

Wales Wants Single-Chamber Parliament

London, June 19.—The women of Wales will get the vote, if the bill prepared by Welsh radical members of the House of Commons, providing for home rule in that principality should become a law.

The measure represents a further extension of the policy of autonomous home government initiated in the Irish bill, and follows closely the lines of the Scottish home rule bill recently discussed in the Commons. According to the terms of the bill, there is to be a single-chamber parliament in Wales, subordinate to the imperial parliament, for whose eighty members women may vote on the same condition as men.

Jap Treaty Renewed

Madrid, June 10.—The commercial treaty replacing the recently expired treaty between Spain and Japan was ratified by the senate. It expressly stipulates that the Japanese may acquire land in Spain.

Ottawa, June 19.—The desirability of a revision of the Canadian tariff, it is said, is being recognized by the government, and the work will be taken up during the recess with an idea of bringing about a pretty general revision.

Will Erect Church

A public meeting was held at the Mackenzie School on Monday morning last, when the question of building a Church was taken up for consideration.

The committee elected at a previous meeting brought in the recommendation that the people in building a church should work in conjunction with the Methodist Church of Canada. This was finally decided upon, the Rev. T. Colwell being requested to open negotiations for the purchase of two town lots on which the church will be built.

A further meeting of the people will be held at a later date when plans of the proposed building and estimated cost will be submitted. The building will be erected by public subscription.

Shoots Grizzly In Wood-Shed

The news of a grizzly bear being killed in a wood-shed adjoining a ranch house comes from the Upper Bella Coola Valley.

Mr. Walter Ratcliff on returning home from work on his farm, came upon the huge brute as it was in the act of making a speedy exit from the wood-shed and succeeded in killing it with a shot in the head.

Seattle Prepares For Opening of Canal

Seattle, June 19.—The proposed improvements of the port of Seattle prepatory to the opening of the Panama Canal, were yesterday adopted by a vote of eight to one. A special election expenditure of three million dollars for construction of public terminals will include docks, warehouses and cold storage plants.

Munitions of War For An Irish Peer Seized

London, June 19.—The police raided a warehouse in London tonight and discovered between 3,000 and 4,000 rifles and a similar number of bayonets, packed in boxes ready for shipment. The raid was a sequel to the seizure of a consignment of rifles and bayonets on board a steamer arriving at Dublin, June 6, from Liverpool. This consignment was addressed to Baron Farnham, an Irish peer, at his country seat in County Cavan, and were traced to the same warehouse.

Jottings of Bella Coola and District

S.S. Camosun arrived on Saturday last with the following passengers for this port:

Mr. and Mrs. R. Walker, Mr. and Mrs. E. Alcon, Mrs. R. A. Teebay and Daughters, Messrs G. McMillan, B. Rolston, P. G. Koop, E. Williams, C. Garrett, C. Garrett, B. K. Garvice, J. Kester and W. Casebell.

The list of outgoing passengers by the Camosun included Mrs. Trent, Mr. C. Trent, Mrs. M. Smaby and children, and Dr. T. H. Jamieson.

Mr. Reginald Walker, heretofore known as one of Bella Coola's many bachelors, has now joined the ranks of the benedicts. Mr. Walker was married at Christ Church Cathedral, Victoria, a few days previous to returning to Bella Coola. The bride was given away by the Honorable and Reverend T. Heneage, Mr. Bert Rolston acting as groomsman; the Rev. A. J. Doull, Dean of Columbia officiated.

Mr. and Mrs. Walker have taken up residence at the Walker Ranch close to Hagensborg.

Mrs. Teebay, wife of R. A. Teebay, arrived with her three daughters and is at present visiting with Mrs. George Young, until such time as the handsome residence in course of construction for Mr. Teebay is completed.

Messrs G. McMillan and C. Garrett having chartered a local power boat left on Tuesday for a ten days trip down the Inlet.

Mr. E. Williams comes to relieve Mr. J. N. Cran the manager of the local branch of the Bank of B. N. A., who leaves by the next south bound steamer to spend his vacation in Vancouver.

Messrs P. G. Koop, H. Hewitt, E. R. A. Russell and W. Sutherland, left town on Monday afternoon for a bear hunt in the Noomamish Valley.

Under the guidance of Mr. Sutherland the party hunted the slides at the head of Noomamish River, but finding that the bears had left that part and that chances of sport were very slim, the party returned on Tuesday night.

Mr. Koop is the guest of Mr. H. Hewitt.

The C. P. R. steamer has given this port the go-bye for the last two weeks, and people are wondering if we are ever to be favored with another call from one of that company's ships.

The mysterious disappearance of several glass jars used in connection with the electrical apparatus in the local telegraph office and placed by the operator to soak in a pool adjoining the river has now been explained.

The culprits it is rumored are three young ladies, who after ascertaining that the jars were made of glass by the good old fashioned method of throwing a stone and smashing one, came to the conclusion that they would make admirable flower pots, so straightway fishing out those easily reached they took them to their respective homes, alas! only to find that they were guilty of a grave misdemeanor in endangering the efficiency of the local telegraph service.

After being duly admonished by a Justice of the Peace the ladies kindly consented to return the jars, and we understand proceedings will not be taken against them.

The road grader passed through town on Tuesday on its way to foreman Draney's road camp where it will be put to use.

We are pleased to announce the arrival of a baby boy on the evening of the 16th at the home of Mr. and Mrs. Thomas Draney.

Mrs. Draney and son are both doing well.

Fred and Charles Hendricks are out after bear. These boys chose the Necleetsconnay Valley as offering the best prospects of sport.

Messrs C. Rainsford and L. Calnan left town on Tuesday for a few days trip to the Upper Valley.

We wonder if Walter Ratcliff has a license to carry a gun, not that it was necessary when he shot the bear in his wood-shed, as being on his own land only a permit was required. It is only reasonable to suppose that he has such a permit, otherwise Walter would never have disturbed the bear.

M. W. Marvin of Constantia Ranch, Atnarko, arrived in town Thursday and is registered at the Grand View Hotel.

NOTICE

If not claimed within thirty (30) days from date hereof, and all expenses paid, the DARK ROAN HORSE (entire) 9 years old, now in my possession, will be sold according to law.

F. BROUGHTON, Provincial Constable.

"Salus populi suprema est lex."

SATURDAY, JUNE 21, 1913.

Look Before You Leap

Several prominent members of the local Conservative party have called on us recently with grievances loud and long regarding conditions in connection with the road work throughout the Valley.

The "Courier" is always ready and willing to voice a grievance when such can be shown to really exist, and there are few people of intelligence who will deny that in the question of roads Bella Coola has a righteous grievance.

There is now a move on foot to construct a new road from Hagensborg, eastward on the north side of the main river, to a point above the mouth of the Nootsatum River, when a crossing of the Bella Coola River will be made by the construction of a bridge of considerable dimensions.

This work is to be undertaken with a view of correcting a flagrant error of judgment on the part of the superintendent in the making of several miles of road and a bridge across the canyon on the Nootsatsum River at a cost of some ten thousand dollars.

This latter road is to be abandoned, having been found to be impossible for the better part of the year, the road-superintendent himself, together with his retinue, preferring to use a temporary bridge constructed by a number of settlers, which bridge bye-the-way, the road-superintendent refused to assist them to construct.

The cause of this culpable waste of money, lies in the fact that the road around the canyon was never properly located and surveyed. True, a pretence was made at locating a road which would have made the distance very little greater than by the route previously used, but a large gang had been at work for some time on the road to the canyon before it was discovered that the desired route from the canyon on the other side was not practicable, and then the road-superintendent evidently thought it was too late to turn back, and so rather than eat a small slice of humble pie, he proceeded with the work, with the result already mentioned.

° ° ° ° °

The point we want to bring out in connection with this projected new road is, that like the canyon roac, it has never been properly located and surveyed, and it seems to us that this work is to be undertaken in the same reckless spirit which has characterised so many of the road-superintendent's actions.

The country through which this road is to pass presents natural obstacles, and while we do not say that these obstacles are such that they cannot be overcome, we emphatically claim that it is clearly the duty of the road-superintendent to have the route of this road thoroughly cruised and surveyed by competent parties, and so avoid another fiasco like the canyon bridge.

° ° ° ° °

It strikes us that in an importmatter of this kind, it would not be at all undignified on the part of the road-superintendent to consult two or three of the settlers in that part, who have intimate knowledge of the country and after all are the people who have to use the road. Maybe these settlers having lived in the immediate locality for some twenty years know something about the projected route that would save the road boss considerable trouble in the future, besides possibly saving thousands of dollars from following the thousands already virtually thrown away.

° ° ° ° °

Nothing has yet been heard from Mr. Matson respecting the disposal of the forty-five thousand dollars which mysteriously disappeared in the Songhees Reserve deal.

The people of the Province have not forgotten this matter, although Mr. Matson's three newspapers seem to think that such is the case.

The people are still of the opinion that an explanation is due from the Government which is responsible for handing over public funds to a private individual without requiring a proper accounting.

There probably was an accounting, but not of a nature that would commend itself to an honest auditor of books.

Since Mr. Matson persists in his silence regarding what became of the money, it is up to the people to demand an explanation from Sir Richard McBride and Hon. W. J. Bowser.

Railroad Aid

A gift of $15,000,000 has been voted the Canadian Northern and a loan of a similar amount is to be made to the Grand Trunk Pacific. Why the former should receive a grant outright instead of a loan has not been clearly shown.

The contention of the Minister of Railways that the Canadian Northern has not been as liberally assisted as other roads is entirely fallaceous.

The four provinces west of the great lakes, are pledged up to the hilt on behalf of this road, British Columbia alone guaranteeing the bonds to the extent of $40,000,000. In fact, the aggregate guarantees of the Canadian Northern are considerably in excess of two hundred million dollars.

° ° ° ° °

The entire expenditure on the Grand Trunk Pacific up to December, 1912, was $127,219,863, which large sum did not come out of the Dominion treasury, though the Laurier government did guarantee the bonds of the company.

° ° ° ° °

It is quite reasonable to suppose that if some railway wanted to steal the Royal Mint or the Parliament buildings no obstacle would be placed in the way by the Tories.

° ° ° ° °

The Real Separatist

"Mr. Borden stated in Toronto that I was a sound imperialist. It is because I am an imperialist, because I am a good imperialist, that I cannot support this measure. Mr. Borden is a separatist. He stands convicted out of his own mouth. He is on record of having declared that the course of contribution, for which this measure calls, would cause friction. I want no friction. He declared that it would lead to separation. I want no separation. If what Mr. Borden at that time said was true, that the adoption of any such course as is called for in this bill would lead to friction and would lead to separation, then I want none of it."—Sir George Ross.

° ° ° ° °

Senator Riley says Mr. Borden will not go to the country on his contribution policy, because he knows the people of Canada do not approve of it. The Premier would be only too glad to take a chance if he thought the people were behind him.

The land in Bella Coola is flat, but hills are sometimes built to the lasting mortification of the poor settler. When you come to one of these hills just repeat these verses then pass on.

If the road is hard and rough,
Keep a-climin'.
If you're feelin' perty tough,
Keep a-climin'.
'Taint no use to sit and pout,
'Cause the other feller's stout,
Gittin' riffed won't help you out,
Keep a-climin'.
Don't get down into the rut,
Keep a-climin'.
Watch the road for some shorter cut,
Keep a-climin'.
Don't be gazin' at the groun',
With your face all in a frown,
Raise your head and look aroun',
But keep a-climin'.

° ° ° ° °

LOST, STOLEN OR STRAYED

TWO DUMP-CARTS

brought to Bella Coola two years ago by the Road Boss and used for about as many days, last heard of buried in snow at the Crossing. Anyone recovering said dump-carts and depositing same beside the unused but discarded road-roller will be doing a kindly act, as they may be seen where they are, and the boss might not like to answer any questions about them; but be sure to leave room in the same place for the road-grader.

° ° ° ° °

BELLA COOLA - - British Columbia

SYNOPSIS OF COAL MINING REGULATIONS

COAL MINING RIGHTS of the Dominion, in MANITOBA, SASKATCHEWAN and ALBERTA, the YUKON TERRITORY, the NORTH-WEST TERRITORIES and in a portion of the PROVINCE of BRITISH COLUMBIA, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—30690.

A SADDENING THOUGHT

Since its a trick no man can learn,
And every fellow dreads, [laws
When women make our country's
Who'll make our country's beds.

Denver Republican.

Never Been Broke?

With apologies to Mr. Flanaghan.

BY GRACE TRENT.

Never been broke? EVERYONE'S been broke!
When you say you haven't been, you—well, you tell a joke;
All of us a-workin' on the road fer pay
We didn't start fer no sech thing; it jest came out that way.
I was goin' on the trail, a couple hundred miles,
You was goin' a-grizzlyin', with interest an' SMILES;
My cash it got riled at me, an' said it wouldn't come
By telegraft or mail—so there!—it was thet mad an' glum;
Your dough—well, you know the best why it ain' jest HERE;
Or, maybe, 'tis—it's all your biz!—an' you want to keep it clear;
An' so, with locked-up pockets, tight lips, an' stern, calm brow,
You are a-workin' day by day beside me. Anyhow,
'Twas jest a josh, that bit of bosh; so do not let it rankle;
I didn't mean no harm—*be calm!*—a skeeter stung yer ankle?
O—sure. I only thought—perhaps—you was a-ogin' ter hit me;
An' (sence you won at puttin' shot) I was a-goin' to quit ye!
Please shake hands, now you understands, and cut out all yer rancor,
Besides, you see, a woman's free. You can't box, shoot ner spank her;
You havn't got a thing to say but go in peace, forgiven,
Or, I'll not speak ner bow, I vow, in Seattle or Hiven.

Automatic Phone Success

London, June 19—The publicity in the English press on the success of the Strowager Automatic telephone system in use by the province of Alberta has so impressed the British authorities that they have decided to extend the installation in England. Eight large cities will have the system installed shortly.

Youth Has Leg Bone His Spine

Los Angeles, June 19.—A section of bone from his substituted for a diseased of his spine, Frederick this city, aged seventeen ported to be on the road plete recovery from an that has afflicted him fro
