Surveyors Leave for Interior

Will complete 53rd Parallel of Latitude
R. P. Bishop, B. C. L. S., and party, left for the Interior on Saturday morning last to resume work on running out the 53rd parallel of latitude. Commencing at the termination of last year's work, 57th mile post in the neighborhood of Eliguk Lake, the party will continue west to the coast range.

Bishop will survey all land in the district that he considers suitable for settlement and tie up the surveys that are already made in the neighborhood.

The 53rd parallel of latitude forms the boundary between ranges 3 and 4 of the coast district and constitutes a base for all future surveys in the locality.

It is expected the party, which includes besides Mr. Bishop, Messrs B. Monckton, J. A. Rutherford, L. B. Bentley, K. C. Bate, G. B. Shaw, W. Armstrong, O. Hamilton, R. Berry, C. Marshall, B. Church, J. Lomas and E. Hill, will reach here on the return journey towards the end of October next.

Date Set for Driving Last Spike in G. T. P.

Will Operate from Montreal to Pacific Coast Before Canal Opens

Montreal, May 21.—That the last spike will be driven in the transcontinental line at a point 375 miles east of Prince Rupert in October, 1914, and that through trains will run from Montreal to the Pacific coast early in 1915, just in time to share in the increase of traffic consequent on the opening of the Panama canal, was the announcement made by Mr. E. J. Dalrymple, vice-president of the Grand Trunk Pacific, who, with Mr. G. T. Bell, assistant passenger traffic manager, has just returned from a trip over the completed portions of the system from Lake Superior to the coast.

Estimate of Dead in Recent Strife Appalling

London, May 21.—Official figures of the Bulgarian losses in the war, published at Sofia, give the following estimate:
Killed, 330 officers, 29,711 men; wounded, 950 officers, 52,550 men; missing, 3,193. A conference of the Austrian and Hungarian ministers has been held to arrange for further demobilization now that Balkan peace is assured.

Application Refused In Ocean Falls Suit

Vancouver, May 20.—Mr. Justice Murphy has dismissed the petition for a winding-up order made on behalf of certain creditors of the Ocean Falls Company. The application was opposed by debenture holders.

His lordship in delivering judgment said:

"It has not been shown that the order will have anything to operate upon. I understand all the company's property is in the hands of a receiver for the debenture holders.
"The petition is dismissed without costs."

Large Increase in Traffic

Freight on Cariboo Road This Spring Larger Than During Gold Rush

Ashcroft, May 22.—Old-timers here are commenting on the return of good times in this district. Many old-timers here and further up the road have stubbornly held out for several years that sooner or later the interior of British Columbia along the famous old Cariboo highway would come into its own and be recognized as the best part of British Columbia; especially that portion known as the Nechaco valley, near Fort Fraser.

Expects to Reach Coal This Summer

Queen Charlotte, May 21.—According to W. L. Barton, the diamond drill expert, who with his family left for Queenstown, Graham Island, and who was in charge of the prospecting work of the coal areas of the Graham Island Collieries, Ltd., last season, says, the outlook is very bright and that this year a vigorous effort will be made to prove their coal measures that lay in the Yakon river district. Mr. Barton declares that with the additional drill machinery he has with him he confidently expects to reach coal this season.

Extreme Penalty to Be Carried Out

Nanaimo, May 21. Henry Wagner found guilty of the murder of Provincial Constable Westaway at Union Bay on March 4, will be hung on August 28.

Turkish Commander Assassinated at Tirana

Defender of Scutari Victim of Vendetta

Vienna, May 21.—Esaad Pasha the commander of the Turkish forces during the siege of Scutari was murdered yesterday at Tirana, where he had marched, after the evacuation of Scutari, with a force of several thousand troops and formed a provisional government over Albania.

It is considered probable that the murder may have been the result of a blood vendetta by relatives of the late General Hassam Riza Pasha, who preceded Esaad Pasha as commander of the forces at Scutari.

Envoys Meet in London

London, May 21.—The envoys of the Balkan States, now in London, met privately yesterday for the purpose of preparing a request to the Powers to modify the peace proposals made on behalf of Turkey.

Chinese Immigration Increases

Head Tax Proves Signal Failure

Ottawa, May 21.—The Chinese immigration to Canada during the last fiscal year was greater than ever. The total number of Chinese in the Dominion at present time exceeds thirty thousand, of whom twenty thousand reside in British Columbia. Upwards of one and a half million dollars collected in head tax goes to the government of British Columbia, the Dominion government netting a like amount.

It has long been urged by the province of British Columbia that the head tax on Chinese entering the country was not proving an effectual bar, and the truth of this oft-repeated statement is being proven more plainly year by year.

London, May 21.—According to to-night's bulletin, H. R. H. the Duchess of Connaught passed a good day and made satisfactory progress.

The New Westminster Bank Robbery

\$100,000 Stolen Money Exchanged

Chicago, May 21.—One hundred thousand dollars of Canadian money which was stolen from the New Westminster Branch of the Bank of Montreal has been exchanged for United States money by custom keepers. The proprietor of a certain saloon has been arrested and three others are under close scrutiny.

Two persons were arrested last week for having received stolen money; three of the men who are alleged to have tunneled into the vault of the bank are in prison awaiting trial, the fourth member of the gang is still at large and is supposed to be hiding in the city.

King Peter to Abdicate

Belgrade, Serbia, May 21.—Reports from Switzerland state that there is little doubt that King Peter will abdicate the throne at no distant date.

Miners Still on Strike at Nanaimo

Financial Support Promised the Men

Nanaimo, May 21.—The United Mine Workers of America have promised financial support to the local miners and are willing to continue same for indefinite period. The report to the effect that coal operators in Washington offered one million dollars to the Union if they would consent to close down all the mines on Vancouver Island is emphatically denied.

The miners remain quiet on the whole. Many of the single men are leaving for England and the majority of the married men are sending their families away, camping out themselves. In some cases several families are living in one house in order to save rent.

Berlin, May 21.—In storming a native village in Kamerun, a German colony in West Equatorial Africa, the Germans lost two killed.

Jottings of Bella Coola and District

S.S. Princess Beatrice arrived on Friday last bringing Messrs Guy McMillan, H. B. Gordon, R. P. Bishop, B. C. L. S., and party.

Messrs McMillan and Gordon are spending the week down the Inlet in company with the brothers Hendricks, Vincent Clayton and F. E. Bean.

Included in the freight of the Princess Beatrice were a number of thoroughbred fowls, for the government's poultry breeding station at Aytoun ranch.

The following persons were included in the passenger list of S.S. Camosun arriving Saturday morning: Messrs M. P. McDonald, D. M. Brennan, J. Dave, J. McKinley, A. J. Carpenter, O. K. Shires, G. F. Allen and H. Hughes.

Mr. Brennan, who is well-known as one of the early settlers in the now famous Ootsa Lake country, is in town and after spending Empire day with us will pull out for his home ranch.

The Camosun was in port the better part of Saturday. After discharging her usual large consignment of freight at the government wharf she proceeded to the Cannery to load some two thousand cases of salmon which were left over from last year.

Mr. C. A. Rainsford entertained a party aboard his yacht Verada on Sunday last. A most enjoyable cruise down the inlet

being favored by the best of weather.

A magnificent collection of prizes which are to be competed for today have been displayed in A. C. Christenson's store window during the week and have attracted considerable attention. The prizes for the sports meeting this year, represent a very considerable amount of money, a large increase over any amount expended for a like purpose in years past. This is certainly evidence that Bella Coola is determined that the Empire celebration in this part shall soon be recognized as one of the events of the year on the northern coast.

Mr. G. Wallace, who will be remembered by many people hereabouts as having accompanied the late Mr. E. P. Colley's survey party, has been appointed inspector of preemptions for the Cariboo land district.

The Right Man in the Right Place

It is gratifying to know that Mr. John Lunos, who has so ably filled the post of fire warden in this district for some time past, has lately received his reappointment for this year. Mr. Lunos has always shown a strict attention to his duties,

which, combined with absolute fairness and impartiality has gained for him the whole-hearted respect of this community.

We understand that the title of fire warden has been abolished and that Mr. Lunos' position this year carries the title of forest guardian.

Local Musician's Brilliant Debut

A correspondent in Minneapolis who has recently had the pleasure of hearing Mr. O. A. Urseth, Bella Coola's brilliant young violinist, on several occasions writes:

"Mr. Urseth, whose wonderful mastery of the violin has been one of the features of the past season in Minneapolis, has been chosen to accompany an all-star party who, under a well-known management, will make a concert tour of the North West.

"The remarkable degree of passion which he displays together with his clear and smooth tone has occasioned considerable comment, and with the experience that he is rapidly attaining he can be depended upon to fulfill the highest expectation of his many ardent admirers."

It will thus be seen that Mr. Urseth is already fulfilling the "Courier's" prediction of a marked success in the very near future, and we join his many friends in hoping that his projected tour will be a prosperous one, and that it will result in a high appreciation of his talents by the music-lovers of the North West.

Shushartie Bay

The much needed road work is proceeding apace, Mr. T. F.

Clulow and a force of some twenty-six men being engaged on the new section of road from the wharf with excellent results.

Every call of S. S. Camosun brings new settlers and our notary public Mr. D. Paterson is kept busy signing up applications for preemptions, etc.

Mr. T. E. Bromm has leased the boarding and rooming department of the Shushartie Bay Hotel, which enables Mr. Skinner and his assistants to devote more time to the ever increasing business of the general store.

Two survey parties are at work in the vicinity, surveying preemptions for new settlers.

Messrs Brown & Sons, of the Shushartie Bay saw mill, have installed new engines in their tug-boat in order to cope with the large amount of toilage. The same firm is also building a large scow for the delivery of lumber in the vicinity and every preparation is being made to meet the increasing demand.

The great need throughout the district is good roads, and it is gratifying to know that under foreman Clulow such rapid and satisfactory progress is being made, that what is undoubtedly one of the choicest parts of Vancouver Island will soon be opened up to the farmer; then real developments can commence.

SATURDAY, MAY 24, 1913.

A Word of Welcome

Today, Bella Coola offers a hearty welcome to all visitors and we trust that the occasion may result in many people carrying away a more thorough knowledge and higher appreciation of all that our beautiful valley has to offer.

The 24th May has always been kept in Bella Coola as the day of the year, when no matter what country we were born in or what our native language may be, we feel proud to gather together as fellow citizens of the greatest empire that the world has ever known.

Let us bear in mind, while we celebrate this day, that we are taking part in a great Imperial movement, first instituted in honor of the birth of the noblest queen that ever graced a throne.

Let us take pride in our British citizenship, which affords us liberty and security in the highest sense and rejoice accordingly.

Two Irishmen, meeting one day, were discussing local news. "Do you know Jim Skelly?" asked Pat.

"Faith" said Mike, "an' I do." "Well," said Pat, "he has had his appendix taken away from him." "Ye don't say so?" said Mike. "Well, it serves him right. He should have had it in his wife's name."

A Scotchman, wishing to know his fate at once, telegraphed a proposal of marriage to the lady of his choice. After spending the entire day at the telegraph office he was finally rewarded late in the evening by an affirmative answer.

"If I were you," suggested the operator when he delivered the message, "I'd think twice before I'd marry a girl that kept me waiting all day for my answer."

"Na, na," retorted the Scot. "The lass who waits for the night rates is the lass for me."

Mrs. Jimmy Beau—"My good man, do you ever reflect that our days are numbered?"

Kinhardly Waddle—Yes, mum; sometimes I get 30 an' costs an' sometimes as high as 60."

TO THE HEAD OF THE CLASS

"What is the definition of a kiss?" asked the teacher of a girl at class.

"I should say it was a noun—both common and proper."

Empire Day

BY SPHINX

On the twenty-fourth May, British citizens throughout the world, meet to celebrate the existence of the greatest empire, that this, or any other age has seen.

This festival was originally instituted to mark the birthday of Queen Victoria, but has since taken on a wider significance.

Various devices are in use by which the day is made notable in different localities. One of the most novel of these is the scheme originated by the Daily Mail, the well-known London paper, by which a chain of bonfires is to be lighted at a large number of points throughout the empire on this date.

Here in Bella Coola, we mark the occasion by holding our annual sports.

Throughout the empire, wherever British troops are quartered, ceremonial parades are held, the day being otherwise observed as a holiday.

In India, the mingling of native troops in their picturesque uniforms with the British forces, affords a very striking picture.

In South Africa, the natives flock in from outside points to the parade ground and form a motley and admiring audience.

All of these incidents, in their varying ways, serve to remind us that we are all a part of one homogeneous whole; each and everyone of us should therefore see to it, that he or she does his part to maintain the magnificent heritage that is ours today.

There are many ways of showing patriotism, but one of the best is the fulfilling of the duties of a British citizen to the best of one's power.

Apart from the national aspect of the day the occasion has also its personal note. Old friends take the opportunity of renewing past acquaintanceship and of recalling old times. Lonely individuals take the chance of mixing with their fellows and of storing up memories of a good time to take back with them to the wilds.

Wherever we may be and however we may spend it, the keynote should be one of happiness and of determination to maintain to the full the integrity of the Empire.

BELLA COOLA

BY ANON.

Now would I picture to you, using care, A northern valley, mountain-girt and fair; A gem of Nature on Columbia's coast, Of whom her residents may proudly boast; To pride of place she justly may lay claim, And Bella Coola, is the valley's name.

*Follow a fjord, the peer of Norway's pride, Until you come where river meets with tide; Already far from wild Pacific's swell, Is reached but now, the vale of which I tell; Then, safe ashore, your course still eastward hold, And as you journey, beauties new unfold.

On either hand are mountains, capped with snow, While verdant forests clad the slopes below; Among the higher peaks the glacier gleams, And silver threads denote the tumbling streams: There, through the bottom lands, the river winds, Bearing the silt, the glacier slowly grinds.

The river banks with forest growth are clad, A tangled mass of colors, running mad; And here, a giant spruce may stand alone, While there, a gnarled old cottonwood has grown; Majestic cedars, these, and many a kind Too numerous to mention, there you'll find.

And here and there, if you will closely scan, Are signs that show the handiwork of man: The hard won clearing, fruit of settler's toil, There stands his home and there he tills the soil; And then comes his reward, for he can grow The finest crops that Nature can bestow.

And faring on, you further may descry Fresh views, that cannot fail to charm the eye; A galaxy of beauties wide in range, For ever varying, as the Season's change; Yet, since you see but poorly through my eyes, Go, see them for yourself, I would advise.

WHY YOU SWING YOUR ARMS

If you watch people walk you will note that nearly all of them move their arms. If they walk slowly the movement of their arms is scarcely perceptible; if they walk rapidly their arms generally swing vigorously.

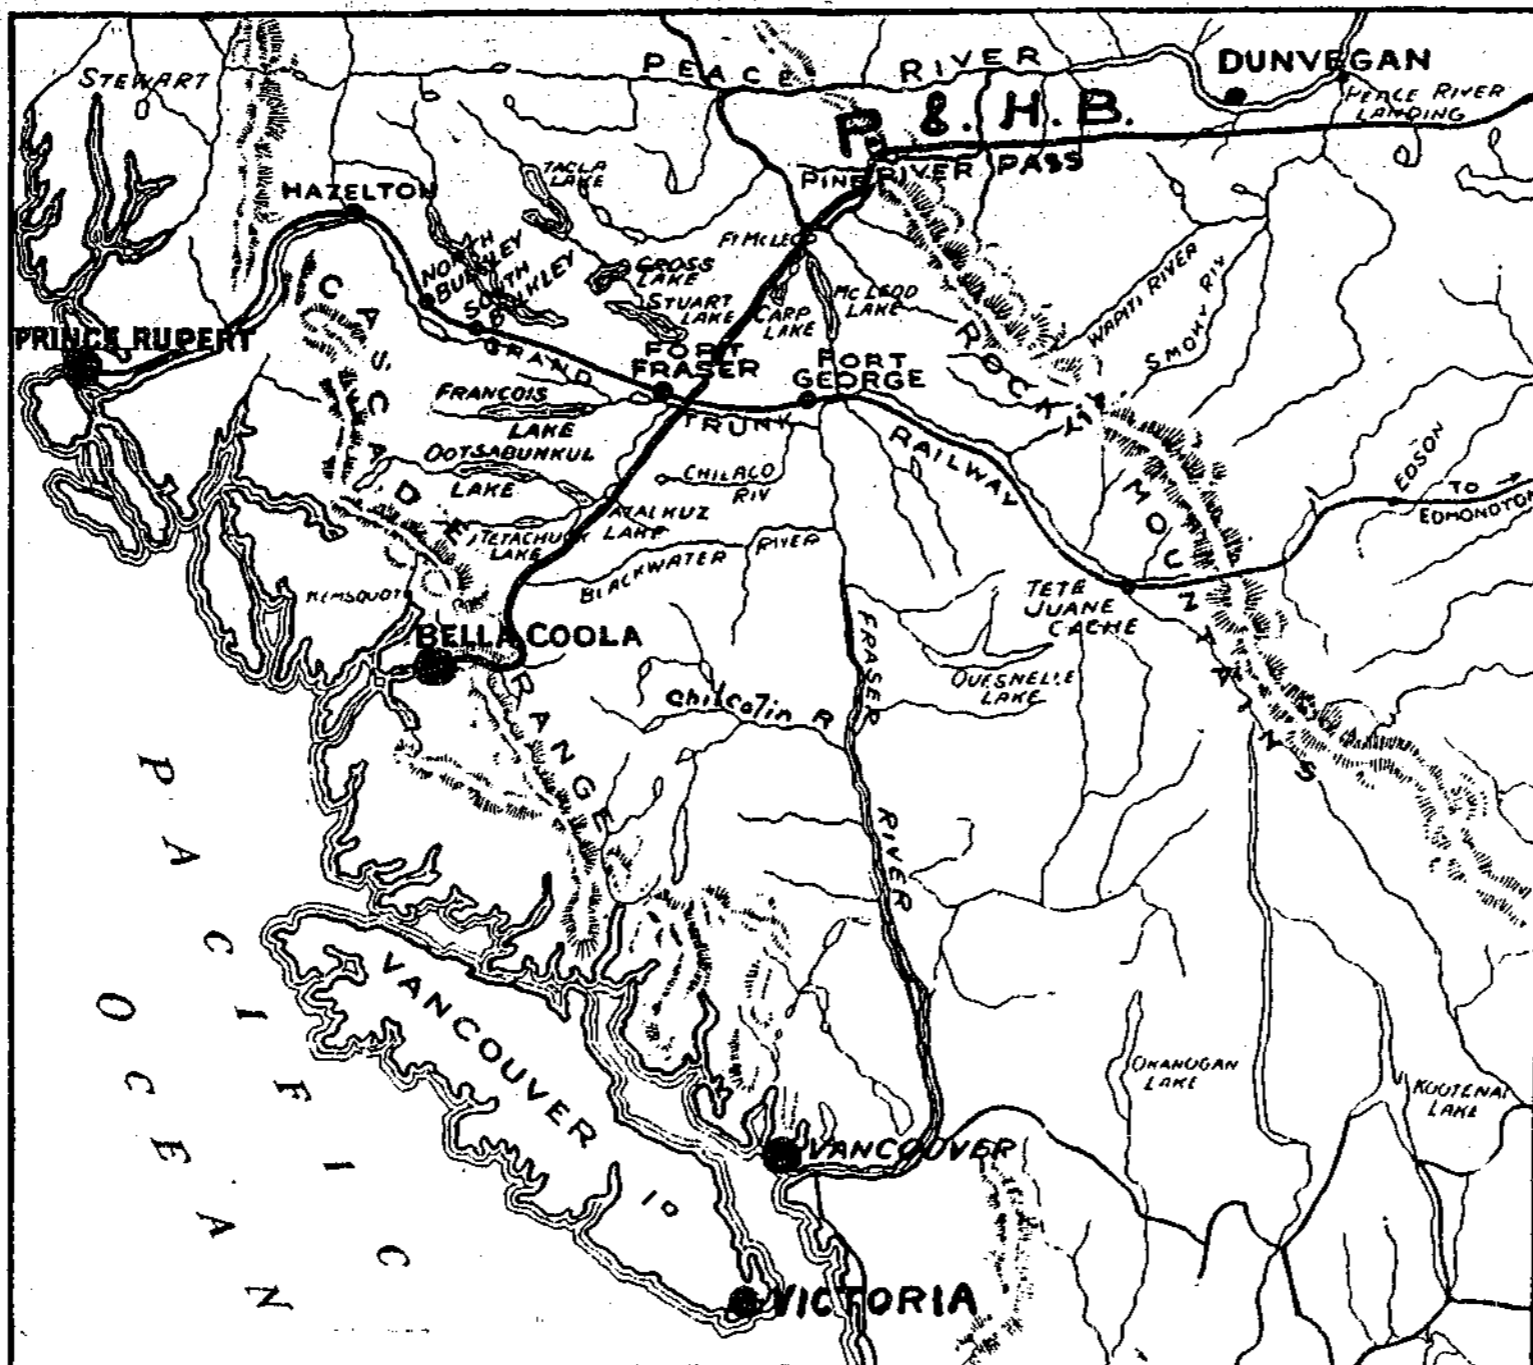

Most people believe this swinging of the arms as they walk is merely a natural swaying motion caused by the movement of the body, just as the tassel of an umbrella will swing when one is walking with it, but this is by no means the reason. The swinging of the arms is natural enough, but the nature of it dates away back to those unknown days when man was a quadruped.

Of course when man was a four-footed animal he walked with his "arms" as well as his legs, and even today, after the thousands upon thousands of

generations that have passed since he assumed an upright position, every time he takes a step his arm moves a trifle, involuntarily, as though desirous of taking in its turn, just as it did when man, then four-footed, pranced up and down the earth.

Many people can move their ears a trifle, many can move their scalps, and there is an abundance of hair scattered about our arms and legs, now useless, but still the remnants of the abundant coating of hair that once kept our anthropoid ancestors warm.

By keeping our minds upon it, we can hold our arms nearly motionless when walking, but let us hurry along, thinking of something else and our arms still swing, proclaiming our descent from ancestors who walked on four limbs that kept time together

SYNOPSIS OF COAL MINING REGULATIONS

COAL MINING RIGHTS of the Dominion, in the PROVINCES of ALBERTA, SASKATCHEWAN and MANITOBA, and in the TERRITORIES of the NORTH-WEST TERRITORY, the NORTH-WEST TERRITORY, the PROVINCE of ALBERTA, and the PROVINCE of MANITOBA, may be leased for a term of years at an annual rental of \$1 an acre, or more than 2,500 acres will be leased for a term of years at an annual rental of \$1 an acre.

Application for a lease must be made by the person to the Agent or Sub-Agent in the district in which the rights applied for are situated.

The territory the land must be described by sections, or legal subdivisions of sections, and the surveyed territory the tract applied for shall be staked out by the applicant.

Application must be accompanied by a plan of the land which will be refunded if the rights applied for are not available, but not otherwise.

Application shall be paid on the merchantable output at the rate of five cents per ton, and the person operating the mine shall furnish the Agent with sworn returns accounting for the quantity of coal mined and pay full value of the coal.

If the coal mining rights are to be operated, such returns should be furnished at least once a year.

The lessee may be permitted to purchase any available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent in the Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Unauthorized publication of this advertisement will not be paid for.—30690.
