The Imperial Hotel

IS THE BEST HOTEL IN GREENWOOD. A New Building, well furnished. First-class Service in all departments. Choice, Wines, Liquors and Cigars. Headquarters for Mining and Commercial Men.

Copper Street, Greenwood.

ADVERTISING GREENWOOD.

Mr. W. G. Gaunce, who spent several months in the district last fall, has returned from the coast. Mr. Gaunce was for two years connected with the Washington State Immigration association, during which time he prepared and circulated a vast amount of literature calling attention to the advantages which the state offered for settlers. During his visit to the coast he did good service to Boundary Creek by calling attention to the resources of the district. The Spokesman-Review, the Seattle Times, Vancouver World and other newspapers of large circulation contain interesting interviews with Mr. Gaunce. The Ranch and Range, a farmer's paper with a large circulation, contains a carefully prepared article drawing attention to the large and profitable market for farm produce that is sure to be opened up in this district.

Mr. Gaunce is so well satisfied with the future of the city and district that he has decided to settle here and is opening a real estate and mining office on Copper street.

Smelter at Cascade.

Wednesday evening, W. H. Aldridge, manager of the Trail smelter, arrived in Cascade. He was accompanied by L. E. Campbell, manager of the West Kootenay Light and Power company at Rossland, better known as the Bonnington Falls concern, and by C. A. Stoess, a surveyor who has had many years' experience in railway and general engineering. Mr. Aldridge came by appointment to confer with the owners of the Cascade townsite relative to the erection of a large smelting plant near this city, which is to be utilized in the treatment of Boundary, Christina Lake and Burnt Basin ores. All day Thursday was spent in looking over the immense power at the falls and in tramping over the site selected for the smelter, about one and one-half miles south of the city, on a high bluff above the Kettle river. — Cascade Record.

New Catholic Church at Grand Forks.

The new Roman Catholic church in Grand Forks was opened by the Rev. Father Palmer on New Year's Day. The new building stands on the elevated ground, exactly half way between the lower and upper towns. The site, which is certainly the best in the whole neighborhood, was generously given by ex-Mayor Manley. The church is 75 feet long by 25 feet wide and will accommodate about four hundred people. From its position it commands all points of the two townsites and is the noblest and most conspicuous building in the district.

BOUNDARY CREEK TIMES

A Weekly Paper published in the interests of the Boundary Creek Mining District.

Vol. V. GREENWOOD, B.C., SATURDAY, JANUARY 14, 1899. 123 No. 19

PROVINCIAL PARLIAMENT.

VICTORIA, Jan. 9.—The Semlin government met the legislature on Thursday, January 5, and still lives. Many were the prognostications made regarding the early defeat of the Semlin-Martin combination. Some figured that it would be impossible to elect a speaker; others claimed that there would be no majority after the speaker was elected. The speaker has been elected and the government has a majority of four—a sufficient number in a house of thirty-eight. Alex. Henderson, who defeated "Winchester" Brown in New Westminster, sits and votes on the government side of the house, looking quite at home, and the government appear to have forgotten that Henderson defeated one of Mr. Semlin's best fighters. W. G. Neilson, M. P. P. for North East Kootenay, dropped dead at Almonte, Ont., on Thursday last. The desertion of Henderson and the death of Neilson leave Mr. Semlin with a majority of four.

The election of a speaker created no fight nor discussion. J. M. Kellie, who was supposed to be an applicant for the position, moved that Thos. Forster, member for Delta, be speaker. Hon. Col. Baker, a member of the Turner government, seconded the motion. There was no opposition, and it is now Mr. Speaker Forster.

The speech from the throne foreshadows some important legislation. Some of the election promises are not forgotten, for the mortgage tax is to be repealed and working miners will not be required to have free miners' certificates.

Probably the most important legislation outlined, is that which will prevent aliens from holding placer claims. The intention is to create a trading monopoly for the coast merchants in the Atlin Lake district. The speech politely says so, because it states that the object of the bill is to conserve the natural wealth in these gold fields for the benefit of Canadian miners and Canadian traders. It is rather a moot question whether it is in the public interest to inaugurate a policy of excluding a mining class from a country with a population of less than five million and room for sixty million people. There are members on both sides of the house in favor of the measure and it will likely pass.

The legislature will be asked to pass a measure to put the civic finances of New Westminster on a stable basis. It will be remembered that the Royal City was almost completely destroyed by fire.

The Torrens' system of land registration is to be introduced. Certain changes are to be made in the land act. A bill is to be introduced to prevent the employment of Japanese underground.

A bill will be introduced to provide for boiler inspection.

A bill will be introduced to afford prospectors the same freedom on railway lands as crown lands.

The Supreme Court act, the Provincial Elections act and the Liquor License act are all to be amended.

The fun is likely to begin on Monday. Mr. Turner has given notice that on Monday he will move "that the course adopted by his honor, the lieutenant-governor, in dismissing his late ministry was at variance with the constitutional principles upon which responsible government should be conducted."

Colonel Baker gave a foretaste of the style of argument to be pursued in his speech discussing the address on Friday. Ralph Smith moved and Mr. Munro seconded the reply to the speech from the throne. Colonel Baker, in reply, said among other things that the government was a gubernatorial monstrosity—the creation of one man in contempt of the will of the people. He sneered at Mr. Henderson's going over to the government, and wondered if the explanation for his conduct could be found in the promised assistance to the city of New Westminster.

❋ ❋ ❋

A BIG MINING DEAL.

ONE of the most important deals in connection with Boundary Creek mining properties was transacted last week in Toronto, when Byron E. Walker, manager Canadian Bank of Commerce, Hon. Senator Cox and Robert Jaffray became associated with Mackenzie, Mann & Co. in in the ownership of big Greenwood camp properties. The mines included in the deal are the Brooklyn, Stemwinder, Rawhide, Montezuma and Standard. W. T. Smith, who has a quarter interest in some of the properties, left Spokane for Toronto this week. His visit is in connection with the recent transaction as well as other mining deals he is putting through. Joe. Boss has been in Toronto with Dan. Mann for some time before the Toronto capitalists invested in the properties.

It is stated that the owners do not intend organizing a company for some time, but will develop the properties as a close corporation.

The Brooklyn is being vigorously prospected. A large shaft house—the neatest in the district—has been erected. Two large boilers and a hoisting engine have been installed and sinking is being carried on night and day. The ledge outcrops on the surface over one hundred feet in width. The ore on the dump is similar to that taken out of the Ironsides shaft between the 50 and 75-foot levels. The Rawhide is being developed by a crosscut tunnel now in over 250 feet. It has about 400 feet to run. The Stemwinder, Montezuma and Standard show big Greenwood camp ledges.

The new owners are among the most enterprising and wealthiest men of Toronto. The intention is to get a big compressor plant to work the group of properties.

❋ ❋ ❋

SKYLARK CAMP.

THANKS to the enterprise of H. H. Shallenberger, Skylark camp properties are coming to the front. He recently organized in Spokane the Greenwood Crescent Gold Mining and Milling company with the following directors: Charles Sweeny, W. B. Heyburn, H. H. Shallenberger, J. F. Young, G. S. Allison, J. A. Odell and F. B. Grunnell. The capital is 1,000,000 shares of 10 cents each. The company's stock was a favorite as soon as placed on the market. All the first block was sold and double prices are being offered for remaining shares.

Mr. Shallenberger has also purchased the Lake claim from W. A. Corbett. It is the intention to incorporate a company to take over the property. The Lake is near the Last Chance mine. The Boundary Creek Mining company, the owners of the latter property, intend installing machinery early next spring. The Lake adjoins the Last Chance on the north.

Hal. Cole is negotiating for the sale of the Defiance, another Skylark camp property. The Defiance lies north of the Lake and adjoins the San Bernard, and is considered one of the promising properties of the camp. Indications point to a strong movement in Skylark camp properties during the coming season, and a large amount of development work will be done.

MERCHANTS

BARRETT BLOCK,

COPPER STREET, GREENWOOD, B. C.

Mr. Heywood, formerly customs broker, has been appointed temporary assistant in the Grand Forks customs office. Mr. Rankin, late of Rankin & Campbell, has established himself as customs broker at that point.

For a few days last week, during the cold snap, there was an immense sheet of clear ice on Christina lake, fully twelve miles by two miles in extent, but the only man who profited by it was Charles Sanders, who owns a pre-emption at the head of the lake, and took advantage of it to make a trip to the outside world. The lake is very dangerous for those who do not know it thoroughly, there being a great many springs, and consequently air holes in the ice.

Those who have not actually seen the work of building the railway through the McRae Creek pass and along the North Fork of the Kettle river, can scarcely realize the difficulties which modern engineering skill can overcome—and yet the construction of the line from Robson to Boundary creek attracts little comment outside of the local press. It is a strange fact, but the praises of this feat of engineering will probably not be loudly sung until construction days are a thing of the past.

KIMBERLEY CAMP.

Kimberley camp, about eight miles up Boundary creek from Greenwood, is rapidly coming to the front. There are large bodies of ore, generally low grade but easily worked, and with proper mining facilities will yield a handsome profit. It is reported that the Atlantic, a claim owned by Geo. Henderson and Robert Murray, was bonded this week for $40,000. Both owners are out of the city, so that particulars could not be learned, but it is reported that all the papers have been signed and the deal closed.

The Atlantic has been developed to a considerable extent and a large body of ore has been opened up.

The claim in Kimberley camp that has attracted the greatest attention of mining men is the Dromard. It lies north of the Atlantic and was located in August last. Since that date the property has been worked continuously. A tunnel has been run and the ledge is 16½ feet in width. Mining men who have examined the Dromard claim that the ore is free milling, and that it can be worked very cheaply, as it is situated on Boundary creek, where there is a splendid water power. Numerous assays have been made of the ore of the Dromard. The ledge goes from $2.80 to $9.60 in gold. The property is so situated that a great depth can be attained simply by continuing the tunnel. The ore is easily worked and experienced mining men are strongly of the opinion that with the best facilities the ore can be mined and milled for less than $2 per ton. The ledge can be traced on the surface over 4,000 feet and varies in width from 16½ to 50 feet. Development work will be continued, and from present indications it looks as if the Dromard was likely to prove a permanent and dividend-paying mine.

Court of Revision.

C. A. R. Lambly, assessor, and F. McGowen, judge of the court of revision, passed through Greenwood on Sunday, en route to Grand Forks, where a court of revision was held Monday morning. Several minor appeals were disposed of. They returned on Monday and held court at Midway on Tuesday, the only appeal being from Mr. Moody, owner of a townsite at Christina lake.

The Greenwood Club.

The Greenwood club elected officers last week as follows: President, C. Scott Galloway; vice-president, F. J. Finucane; secretary, W. L. Leonard; treasurer, J. W. Smith; committee, A. M. Whiteside, J. W. Smith, A. S. Black, J. E. Leckie, Geo. A. Guess and D. A. Cameron. On Saturday evening a smoking concert was given in the club rooms, when a splendid programme of song was rendered. The club has well-furnished rooms in the Barrett block, and has a membership of over fifty.

H. T. Wilgress, C. P. R. right-of-way agent, is again in Greenwood after a three weeks' business trip to to the coast. He reports that the difficulty regarding the subsidy for the road from the Summit has been satisfactorily settled.

A GLOWING DESCRIPTION.

P. A. O'Farrell, writing to the Toronto Globe, has this to say concerning the Old Ironsides and Knob Hill mines:

"More than a year ago I made a prolonged sojourn in the Kettle River country, and I then became profoundly impressed with its magnitude and possibilities. I examined the Republic and then declared it among the greatest gold mines of the world. I made similar predictions about Ironsides, Knob Hill, Lone Star and Washington, Stemwinder, Brooklyn and others. Well, the Republic has already filled the mining world with astonishment, and Knob Hill and Ironsides will amaze the world to-morrow. I say to-morrow, for even its principal stockholders do not yet realize the value of these properties. In a recent letter I stated that though the owners claimed the ore will average $20 a ton, I could not believe it possible of mining more than $10. The ore body was so vast, so immense, that I did not believe that nature could have ever placed such stupendous treasure all in one place. Fancy a dyke of solid mineral 300 feet wide, which will run 5 per cent, copper and three-fourths of an ounce in gold. An experienced mining man would laugh at such a suggestion. He will tell you that such a mine is contrary to the laws of nature and all that kind of thing. Nevertheless, the Knob Hill and Ironsides vein is 300 feet wide, 1,000 feet in length and already explored to 450 feet deep. And it will produce $20 in gold and copper for every ton of ore mined. Knob Hill and Ironsides doubly discounts the great Anaconda itself. The ore is twice as valuable and the ore body twice as large. Anaconda pays $3,000,000 yearly in dividends. What are not these mines capable of doing? Three years ago Marcus Daly, the principal owner and manager of the Anaconda, told me that he had spent hundreds of thousands hunting for another copper mine like the Anaconda, and the hunt was vain. He told me then from his experience of mining no such mine would ever be found again as the Anaconda, and yet Knob Hill and Ironsides and their extensions will cast it completely in the shade. They will quarry and not mine these Greenwood properties when they are ready, as they quarry out the most famous copper mine on earth, the Rio Tinto. But the Rio Tinto is nothing beside Knob Hill and Ironsides. If there were not a particle of gold in the ore Knob Hill would be richer than Rio Tinto, for it contains twice the copper values. But Knob Hill and Ironsides are not only the greatest copper mines, but they are also the greatest gold mines on earth. * * * The smelter site for the Knob Hill has been selected, and it ought to be in operation by July 1. I am told that the Canadian Pacific will build their own smelters, however, and in that case the Knob Hill smelter will be at the mercy of rivals. This is a point worth considering for those who are putting their money in smelters in the Kettle River country. F. A. Heinze had a smelter at Trail. It was run by H. C. Bellinger, and no better team than Heinze and Bellinger could be got to handle a commercial enterprise. But Heinze was at the mercy of one railroad, and he was forced to sell and to sacrifice."

[Mr. O'Farrell is in error when he states that the smelter site for the Knob Hill has been selected. In a recent letter received in Greenwood, Mr. Graves states that the site would not be selected until his arrival in the district.—ED.]

THE RESULT.

The municipal fight is over and the electors have decided that Mr. Thos. Hardy shall be mayor for the ensuing year. The electors, in our humble opinion, have left the best man for the position at home. Mr. Smailes has nothing to regret. He fought a gentlemanly campaign and is left free to attend to his business affairs. The loss is on the side of the city. The question of who shall be chief magistrate rests however with the majority of the electors, and it is to be hoped that the victors and the vanquished will work for the best interests of the city.

Unfortunately many complications are likely to arise because of the result in the aldermanic contest. Two of the candidates, Dr. Jakes and J. W. Nelson, did not possess the necessary property qualifications to be placed in nomination. The electors were so informed, but those who elected Mr. Hardy also chose to elect unqualified candidates, simply because they were on Mr. Hardy's ticket. If these two elected take their seats, not only are they liable to heavy penalties themselves, but they are likely to endanger the legality of any transactions of the council.

It is of the utmost importance that this matter should be cleared up before they take the oath of office and their seats at the council board. We regret that the municipal act is so rigid as to disqualify Dr. Jakes and Mr. Nelson. Both, and Dr. Jakes particularly, would make good aldermen, but Mr. Thos. McDonnell withdrew when he learned that his property had not been registered in time, and we think that Messrs. Jakes and Nelson would have acted in the best interests of the city by following his example.

THE MUNICIPAL CONTEST.

The hot municipal campaign which was carried on for three or four weeks, came to a close on Wednesday night with a crowded meeting in Rendell's hall. Mr. Thos. Miller was again chairman. The candidates and others addressed the electors.

Early Thursday morning teams were out and committee men were busy taking voters to the polls. The court house was altogether too small for the mayoralty and two ward elections to be held there, consequently there was a good deal of delay in polling votes particularly between 1 and 2 o'clock, when the majority of the ladies turned out to vote. At 4 o'clock almost every voter in the city had cast his ballot. When the votes for mayor were counted, it was found that Thos. Hardy had 81 votes, Ralph Smailes 60 and four spoiled ballots, making a total of 145. by far the largest vote ever cast in the city.

In the North ward there were numerous combinations voted, and the result was in doubt until the ballots were counted. Fifty-nine votes were polled in this ward. Mr. Naden headed the list with 37, Mr. Phelan ran an even race with Dr. Jakes until the last, when the doctor secured the third place by two votes. Mr. Galloway was second on the list with 32 votes.

The South ward vote was a surprise in many ways. As was expected J. Sutherland headed the poll with 81 votes out of a possible 107. As in the North ward, there were here some wonderful combinations of votes which naturally affected the result. While Mr. Barrett received the least votes he also received more plumpers than any other candidate. There were two spoilt ballots in this ward.

A noticeable feature of the campaign was the fact that every lady on the voters' list exercised her franchise. The following shows the result:

FOR MAYOR.

	Votes.
HARDY, T.,	81
SMAILES, R.,	60

FOR ALDERMEN.

NORTH WARD.	Votes.
Naden, George R.	37
Galloway, Charles Scott	32
Jakes, Robert Wallace	28
Phelan, Michael J.	26

SOUTH WARD.	Votes.
Sutherland, James	81
Campbell, Alexander B.	66
Nelson, J. William	58
Barrett, L. S. Moulton	47

IN OTHER PLACES.

It was difficult to secure definite information concerning the contests in other cities. L. A. Manley is reported elected mayor of Grand Forks. Mayor Wallace of Rossland was defeated by A. S. Goodeve, and John Houston, Nelson's mayor since incorporation, was defeated by Geo. Neelands.

The C. P. R. intend making a town out of Cascade. Not only will a large smelter be erected at that point, but also extensive work shops. The latter will be a necessity owing to the amount of traffic that will necessarily converge at that point. Work on the construction of the smelter will, however, not begin until construction trains can be run as far as Cascade.

The postoffice of Upper Grand Forks has been re-named Columbia, the name by which the new C. P. R. town at that point will be called. At the present time temporary bridges are being constructed at the old Johnson ferry and near Columbia, and a wagon road made along the C. P. R. right of way on the south side of the river, in order to divert through traffic from the old town of Grand Forks to Columbia. These will be replaced later on by permanent bridges, paralleling the railway bridges to be constructed at these points.

Old settlers in the Christina Lake country are wondering if the present government will treat them as they were treated by the Turner administration. The custom of the latter was to collect taxes of every kind with great regularity, but no money ever being expended in return. Every trail and bridge in the district was made by prospectors and settlers. Just why Christina has had such a hard deal it is rather hard to understand.

THE HOLIDAY NUMBER.

The exchanges have given the special holiday number of THE BOUNDARY CREEK TIMES many flattering notices, for which we desire to express our very great appreciation. Here are some of the nice things that have been said concerning the issue:

The Boundary Creek Times has just issued a very creditable holiday number which reflects credit on the office.—Vancouver News-Advertiser.

The Boundary Creek Times, published at Greenwood, B. C., has issued a very creditable (illustrated) holiday edition—the work of getting up and printing the same being, on its face, no holiday task.—New Westminster Columbian.

The Boundary Creek Times, published at Greenwood, has issued a splendid holiday number which is replete with interesting information of the town and tributary mines. It is copiously illustrated with half tones. The press work and general make-up reflects great credit on the office in which it is published.—Nelson Miner.

The Boundary Creek Times of Greenwood, B. C., has issued a magnificent holiday number. The Times is a sample of fine art printing in every issue, but in the holiday number it excels itself. Greenwood is the most successful of the new mining towns of British Columbia, and its success is not a little due to the excellent work of the Times.—Calgary Herald.

The Boundary Creek Times has issued a special holiday number that is a credit to British Columbia journalism. It is one of the very best special numbers we ever saw come from a country office, and it would be a creditable performance for any city office in Canada. The special is embellished with a number of fine photo-engravings, showing the pretty little city of Greenwood nestling among the mountains from several points of view; some of the leading merchants ot the place, stores, hotels and other large buildings; views of some of the neighboring mines and their machinery. The descriptive articles are well written, interesting and cannot fail to attract wide attention. We offer hearty congratulations to Editor Ross and his colleagues upon this really meritorious piece of work.—Victoria Times.

The Christmas edition of the Boundary Creek Times, published at Greenwood, B. C., is one of the most creditable publications, everything considered, which has so far reached us this year. It is published by the Boundary Creek Printing and Publishing company, on a good quality of paper, and is handsomely illustrated with views of Greenwood and some of the business establishments thereof, as well as the mines adjacent to Greenwood, the Bank of British North America, the Canadian Bank of Commerce, the Roman Catholic church, the Kettle river near Midway, and has descriptive articles upon the Boundary Creek Mining district, the City of Greenwood, the ores of the Boundary Creek, building in Greenwood, which, according to the Times, amounted to $69,200 for the current year, Mother Lode mine, the Banner properties, the question of a smelter for Boundary, and the work which is being carried out upon the various mines in that section of the province, which is now coming so rapidly to the front and attracting such general attention everywhere. In every respect it is an exceedingly creditable number, and will repay a thorough perusal.—Vancouver World.

M. E. Miller has returned from a business trip to Spokane.

THE CITY COUNCIL.

The city council met on Monday evening last with Alderman Paton in the chair and the following aldermen present: Barrett, Galloway, Kerr and Phelan. Several accounts were passed and W. L. Leonard was appointed to audit the accounts for the year. A special meeting was held Wednesday evening.

GREENWOOD AND DISTRICT.

R. Evans arrived from Cascade on Wednesday.

William Barton has been appointed teacher of the Rock mountain, assisted, school.

A quadrille club has been formed at Phœnix and dances are given every Monday evening.

D. McDuff of Greenwood has purchased a half interest in the St. Louis hotel at Camp McKinney.

Hardie's Vaudeville company played in Rendell's hall on Monday night, and appear again on Saturday night.

R. M. McEntire left Tuesday morning for Camp McKinney, to superintend improvements now being done on the townsite of McKinney.

The new hotel at the Ironsides is nearing completion and will be opened in the early spring. It will be one of neatest hotel edifices in the district. When opened, Messrs. Wynkoop & Stephens will be in charge.

J. J. Caulfield, formerly in business in Greenwood, but now a resident of East Kootenay, arrived in the city Wednesday evening and will remain here some time looking after his mining interests in the district.

Frank George, superintendent of the King Solomon mine, was in the city this week. He is waiting for the plant which is now on the way from Bossburg. As soon as this is installed, work will be resumed on the property.

1898. THE WHITE FRONT 1899.

GREENWOOD AND DISTRICT.

Dr. Oppenheimer has been ill for nearly a week.

Mrs. J. W. Nelson is seriously ill with pneumonia.

C. W. Winter, a banker from Colville, is visiting with A. H. Speary of this city.

W. G. McKenzie, Wood, Vallence & Co's representative, paid Greenwood a visit this week.

Chas. Van Ness died at Grand Forks Thursday evening. Mr. Van Ness was a well-known hotel man.

Mr. H. Mortimer-Lamb, editor of the Mining Record at Victoria, has purchased a quarter interest in the Gladstone, a very promising claim in South Greenwood camp.

Miss Fredericka Kreuger, daughter of Mr. T. Kruger of Osoyoos, and Mr. Duncan Carmichael were married New Year's Day at Osoyoos by Rev. Mr. Campbell of Camp McKinney.

J. L. Parker, the well-known Rossland mining engineer, was in the city a few days this week. Mr. Parker and his associates are heavily interested near Ymir. He intends returning to the district shortly for the purpose of making investments.

W. J. Harris, one of the original owners of the Le Roi mine, has been in the district for several days. Mr. Harris says he is only looking after a few "wild-cats" he has in the district. It is quite possible that Mr. Harris is searching for another Le Roi in Boundary creek.

Some very good ore, carrying a high percentage of copper, is being taken out of the Bank of England claim in Greenwood camp. Water has recently been coming into the shaft and has stopped work on the property for the present. The Bank of England adjoins the Rawhide.

The sudden change from 30 below zero to 30 above is responsible for a good deal of sickness in the city. Police Magistrate Hallett has been confined to the house for a week. A. M. Whiteside has bronchial troubles and A. Ferguson is on the sick list. Some of the municipal campaigners are not feeling too well, but their indisposition cannot be charged to the weather.

J. M. Mitchell, a well-known resident of Anaconda and Midway, died at Anaconda on Tuesday last. Deceased was a plasterer by trade. For some time he resided at Fairhaven, Wash. He has a sister in Minneapolis. Mr. Mitchell was a member of the I. O. O. F. The members of the local lodge had charge of the funeral, which took place on Friday morning and was largely attended. The remains were interred in the Greenwood cemetery.

One of the remarkable features of Greenwood camp is the extraordinary way in which "outside" properties are turning out. A few years back, outside of some dozen claims, any location was considered to be a wildcat. How many veins there are in Greenwood camp remains to be proven, also their value and extent, but work on comparatively recent located outside claims goes to prove that the extent of area of pay ore is much larger than was ever imagined in the early days. Those who within the last year or two staked vacant ground are now "strictly in it."

Corporation of the City of Greenwood.

THE ELECTIONS.

A well-attended meeting, called by Mr. Thos. Hardy, candidate for mayor, was held in Rendell's hall on Saturday evening. Mr. Thos. Miller was voted to the chair. The candidates for mayor and aldermen and C. J. McArthur addressed the meeting.

On Monday at 12 noon, Returning Officer Taylor was at the court house ready to receive nominations.

Candidates were nominated as follows:

FOR MAYOR.

Thomas Hardy, nominated by A. O. Beath, E. Weeks and others.

Ralph Smailes, nominated by James Sutherland, C. W. H. Sansom, W. R. McMann and others.

FOR ALDERMEN—NORTH WARD.

Charles Scott Galloway, nominated by Geo. R. Naden, R. F. Coates and others.

R. W. Jakes, M. D., nominated by W. S. Asquith, W. S. Keith and others.

Geo. R. Naden, nominated by D. C. McRae, Evan Parry and others.

M. J. Phelan, nominated by W. J. Harber, Duncan Currie and others.

SOUTH WARD.

L. S. Moulton Barrett, nominated by Geo. R. Naden, Thos. McDonnell and others.

J. W. Nelson, nominated by Thos. Hardy, W. O. Robins and others.

A. B. Campbell, nominated by G. H. Cropley, Thos. Hardy and others.

James Sutherland, nominated by A. Leamy, W. O. Robins and others.

Thos. McDonnell found that his property had not been registered for the six months required by law and consequently could not allow his name to be placed in nomination.

A New Freight Route.

H. E. McDonnell, the C. P. R. freight agent, was in Greenwood this week enquiring into difficulties regarding Penticton freight. He states that the C. P. R. are making arrangements to haul eastern freight for Boundary Creek across the Crow's Nest railway to Brooklyn and from there by teams to Greenwood and other Boundary Creek points. The change is likely to expedite the arrival of goods into the district.

Thomas Wilson of Kamloops has been appointed teacher of Anarchist mountain school.
