# BOUNDARY CREEK TIMES

A Weekly Paper published in the interests ot the Boundary Creek Mining District.

Vol. II. GREENWOOD CITY, B.C., SATURDAY, JULY 17, 1897. No. 19.

## HEINZE SHOULD BUILD.

THE Victoria Colonist appears to have now no other source of inspiration than exploit the fame and advance the interest of F. August Heinze. During the recent session of the legislature when Heinze and his railway were under consideration it attempted by the virulence of its personal attacks to deter representatives of the people from the course which their judgment dictated in calling attention to the close relationship between Mr. Heinze and the lieutenant-governor. Under the guise of educating the people up to the necessity for the immediate construction of a road from Penticton to Boundary Creek it is now conducting an active campaign in Mr. Heinze's interests.

Everyone is impressed with the necessity for the early construction of a road to connect the Boundary Creek district with at least one railway system, but it is difficult to understand what good can be accomplished by shouting that something should immediately be done to assist Mr. Heinze to build the road. The dominion parliament has been prorogued for a year and nothing can be gained in that quarter. Mr. Heinze under no circumstance ought to get further aid from the provincial house.

If the Colonist is not attempting to give public opinion a wrong bias, if it is honestly striving to secure the early construction of a railway into Boundary Creek, if it is not attempting to boom the interests of an individual rather than the interests of Boundary Creek district in particular or the province in general, its ability and its influence should be devoted to educating public opinion into demanding that Mr. Heinze should carry out his professions if not his contracts and at once commence construction of the road. Surely it will not be conducive to the early and speedy construction of a railway by Mr. Heinze if he becomes impressed with the idea that because he is armed with a commission in the shape of a provincial railway charter he is the sole arbiter of the railway situation, and that the resources of the district must remain undeveloped, the enormous wealth of its mines must remain unproduced while he goes begging in aid of further subsidies. If the Colonist or any other provincial paper wishes to do Boundary Creek and the province a service, they will cease advancing the interest of those who are in the railway business for the land grants and the fat subsidies that can be secured. Let them rather tell those speculators that the people have already given them the right to build a railway into one of the richest districts under heaven; that if they avail themselves of this right they will by the levying of reasonable rates be enabled to make a large profit from the trade of the district.

The truth is that through the granting of large subsidies to hungry speculators the construction of railways has degenerated from being a business enterprise to a legalized scheme to bleed the public. Take the same Mr. F. August Heinze, for instance. If he had been successful in securing the dominion government subsidy he applied for, he and his associates could have made from two to three millions of dollars before even a rail was laid, and it is because Mr. Heinze is anxious to bring about such a result that Boundary Creek district must go another year without a railway. Mr. Heinze wishes to repeat the history of the C. P. R. on a small scale. In that case a syndicate got land grants and cash subsidies from the dominion government, and before they had constructed ten miles of railway the Stephens and the McIntyres and the Smiths were millionaires.

As the TIMES has already pointed out Mr. Heinze has received flattering inducements to build the road, provided he were satisfied to secure returns for capital invested from the profits that are sure to come from operating the road. In fact, Mr. Heinze at first considered that a bare charter granting the right to build a road into such a rich country was in itself a very great advantage, but he afterwards learned that by making governors directors, and barristers closely related to the government his solicitors, and by carrying out all the other blandishments of a professional lobbyist he could get more. The more he succeeded in getting the more he wanted; and now he regrets that he is unable to build the road into Penticton because he failed to secure a dominion subsidy.

A cash subsidy of $4,000 a mile for 110 miles of railway and a land grant for the balance should offer sufficient inducement to construct a railway that will not cost upwards of probably $20,000 per mile, and if the Colonist would cease clamoring for Mr. Heinze, if public opinion were strongly expressed in the direction that Mr. Heinze had secured enough, we are convinced that he would discover that his hunger for subsidies has become appeased and that he would at once begin to build the road.

Let us suppose that the provincial government had nothing to do with railways or railway subsides (and under the circumstances we are sorry that it ever granted a subsidy to a railway company); then if Mr. Heinze went to Ottawa and asked for a cash subsidy of $12,000 or $14,000 a mile and a land grant to build a road from Penticton to Trail, it is hardly probable that his request would have been favorably considered. The construction of a railway is a public undertaking, and when a private individual receives assistance to enable him to construct, it makes but little difference whether that assistance comes from the provincial or dominion government—the people are those who pay.

We are firmly convinced that the wealth of Boundary Creek will induce the early construction of a railway and we therefore believe that it would not be in the public interest that Heinze or any other railway promoter should be granted any further aid. If those organs which are shouting for further aid to the Columbia & Western railway were possessed of the facuity for conceiving any public affair apart from the interests which they represent, they would cease their high-sounding platitudes which are intended to deceive the public and probably deceive themselves. They should divorce themselves from those who are retarding the development of the country by being dissatisfied with the privileges which have been extended to them and by neglecting to carry out their promises until they make another attempt to get their hands into the pockets of the people.

It is simply a travesty on the acts of the legislature that Mr. Heinze should be so impressed with the value of the assistance that he has already received, that he is willing to place his company under bonds to the extent of $50,000 to carry out his contract, and that then an attempt should be made to secure him still further favors. He has failed to avail himself of the only way of benefitting the public by speedily constructing a road into Boundary Creek district, and is therefore entitled to no further public favors.

❋ ❋ ❋

## BETTER MAIL SERVICE.

It is to be hoped that Mr. Hewitt Bostock, M.P., who has assiduously been calling the attention of the government to the needs of the vast district which he represents, will further his efforts by pointing out the necessity for a daily mail to Greenwood. At present the Marcus stage runs daily to Greenwood, and there is no good reason why it should carry mail one day and leave it the next.

## POPULATION FIGURES.

The figures in Williams' provincial directory show that the white population of the mainland has doubled during the last four years. According to the directory the white population on the mainland is 78,850, while that on Vancouver and adjacent islands is 38,500, making a total of 117,350. This is exclusive of Indians, whose total is about 25,000. While the figures are not likely to be absolutely correct, they are sufficiently close to show the great necessity for a redistribution of provincial seats in the near future. The increase of population in East Yale has probably been as large as that of any other district in the province, yet at the last provincial election East Yale had only one member and 1,022 votes, while Lillooet had two members for 319 votes, and Esquimalt two members for 451 votes. It is useless carrying the comparison further. Unless the government wishes to perpetuate a system of gerrymander it will introduce a redistribution bill at the next session, and such a bill must contain a provision to grant a member to the southern portion of East Yale district.

## THE COLUMBIA AND WESTERN.

Mr. F. August Heinze was in Spokane a few days ago on his way to Trail. In the course of an interview with a representative of the Spokesman-Review, he stated:

"I can tell you nothing about the railroad question that you have not already told your readers. I feel now as I have felt all along, that we were entitled to the subsidy. We have spent vast sums of money in that section to develop the territory, while the Canadian Pacific has spent nothing."

"What are your plans for the future? Will the road be built to Penticton, anyhow?"

"That question I am unable to answer just now. It depends on several things, and for that reason it is impossible to say at present just what will be done. It is possible that something may be done, but there is nothing certain about it."

"Have you any hope or assurance that the government will allow a subsidy at its next regular session?"

"No. There is no hope from that source. If certain things can be accomplished we may be able to go ahead, but it is difficult to tell anything about it yet."

## ALIEN LABOR LAW.

As a great many men will be employed on the construction of the Crow's Nest Pass railway, the dominion government have decided to protect the Canadian laborers by putting the Alien Labor Law in force in Manitoba, the Northwest and British Columbia. The act can be put in operation by the minister of justice appointing agents to administer the act. These agents will be appointed at Winnipeg, Lethbridge and Rossland, and probably at other points in the west. M. J. Haney, who has charge of the work of constructing the Crow's Nest Pass railway has also declared his intention of employing only Canadian labor.

R. R. Hedley, the well known smelter man of Nelson, is again visiting Greenwood.

## GREENWOOD AND VICINITY.

Geo. McKague has purchased a lot east of W. B. Paton's residence and will commence building at once.

Mr. Gordon, a mining engineer from London, arrived in Greenwood yesterday, and will spend some time examining properties in the district.

Neil Lamont, an experienced tinsmith and plumber, arrived on Tuesday from Brandon, Man., and is now employed with Russell & Co.

The members of the local lodge of the Independent Order of Foresters are requested to attend the regular meeting on Thursday evening, as business of importance comes up for discussion.

Mr. Robert Wood left the coast for home several days ago, but will remain for some time at Kamloops, Armstrong and Camp McKinney. He expects to reach Greenwood on Wednesday next.

Cameron and McKenzie's new hotel on Copper street will be completed in about a week. A large addition has been built to the rear of the main building, giving plenty of room for a first-class hotel.

A public meeting was held at Midway on Monday evening when townsite improvements were discussed with Captain Adams. The townsite company are contemplating making several improvements this summer.

A lawn tennis club has been organized in Greenwood. The members are hard at work constructing a court opposite Mr. Sutherland's residence, and they expect to have everything in readiness to begin playing in about two weeks.

The clearing of Government street through the valley is about completed. The work already done in this part of the townsite has made it a very desirable looking place for residences, and in all probability several will be built there this summer.

The committee who have charge of the work of collecting private subscriptions to augment the government appropriation for the Long Lake road have met with gratifying success, almost sufficient money having been promised to ensure the construction of the road to Long lake.

While people are dying by hundreds in the east from the excessive heat, residents of Greenwood are enjoying cool days and refreshing showers. If one lived in Chicago with the thermometer at over 100 in the shade one would wish he were living in Greenwood where the mercury ranges from 65 to 70.

Hon. G. B. Martin, chief commissioner of lands and works, is making his first trip through the province since he first took office. He will visit his own district and Kootenay and will then come in by the way of Christina Lake to Boundary Creek. As chief commissioner of lands and works he will find many matters in Boundary Creek district that require the attention of the government.

On Tuesday next Mr. I. A. Dinsmore, deputy sheriff, will sell opposite the post-office, J. Dufour's interests in the Boston, Dora, and Gold Block claims in Kimberly camp, the Bond, American Eagle, Winnie F. and J.C. claims in Skylark camp, and the L.A.F. in Long Lake camp, in order to satisfy a judgment for $117.83 obtained by Lequime Bros. against J. Dufour.

Mr. H. A. Guess, M.A., of Guess Bros., chemists and assayers, left on Wednesday for Keewatin, where he takes charge of the chemical department in the reduction works of an Ottawa company of which Hon. George E. Foster, ex-minister of finance, is president. Mr. Guess was recommended for the position by the professor of the college from which he graduated. Mr. Guess' many Greenwood friends will be pleased to learn that the position is a very important one, and carries with it a large salary.

The Greenwood City Waterworks Co. will hold its annual meeting shortly. The company have already posted their notices in accordance with their act of incorporation and the Water Clauses act. Owing to the delay with respect to incorporation, the company have as yet done nothing towards furnishing Greenwood with a system of waterworks. Under its act of incorporation the municipality has the power to take over the waterworks at actual cost, hence the company are awaiting the decision of the city fathers when the town is incorporated.

## MINING NOTES.

The work on No. 7 mine in Central camp has been suspended on account of water.

Patsy Clark has a large force of men at work on the claim which he recently purchased in Eureka camp.

Judgment was given in the Jack of Spades case at Vancouver last week. It is understood that since the judgment was delivered Mr. Gire has offered Mr. Wood a good figure for his interest in the property.

J. H. Hall, a prominent smelter man of Butte, has spent the past week examining the mines in the vicinity of Greenwood. His object in coming here was to enquire into the possibilities for the erection of a smelter in the vicinity.

It is gratifying to see that Spokane capitalists who are interested in claims in Boundary Creek district have men at work developing the same. The American owners have shown considerable activity during the past week, and appear to have the necessary courage to expend their money in developing claims.

A report comes from Camp McKinney that another rich strike has been made on the Minnehaha. In fact Major Megraw, the manager, sent a dispatch to Mr. H. Kiteley, Toronto, the secretary of the company, to the effect that the ledge in the Minnehaha was struck in the cross-cut at the 65-foot level. Assays from it showed $108 in gold and $2 in silver.

The Boundary Creek Mining company have put a large number of men to work on the Last Chance mine in Skylark camp. It is understood that the work on this property will be continued all summer. Considerable work has already been carried out on this mine, and the result has been most encouraging to the company. Application has already been made for a crown grant for the Last Chance.

Eureka camp on the reservation is now experiencing a genuine mining boom. Miners and prospectors are flocking there from all quarters. One day this week nearly sixty prospectors passed through Grand Forks and all were bound for Eureka. It is reported that a wagon road is to be built through the reservation from Marcus so as to avoid using the road in Canadian territory.

Owns the "Golden Crown" mineral claim and has a bond on the "Calumet," situated in Wellington camp, Yale District, B.C.

### A GOLDEN TREASURE.

Like the young men who followed Horace Greeley's advice and went West, Mr. David Bryant has "struck it rich" by doing likewise. Copper camp, with its Mother Lode and its King Solomon was considered to be the western limit of the rich mineral belt in the vicinity of Greenwood, but Mr. Bryant, believing that gold is where one finds it, ventured beyond the western purlieu of Copper camp. The result was most gratifying. The Aberdeen, located some time ago by himself and two others, has shown up well under development work; and now Mr. Bryant has been developing the Golden Treasure, which is likely to prove indeed a golden treasure. Three distinct leads have been uncovered, all carrying copper, gold and silver. Assays for gold have yielded $12.35 to the ton, while the quartz is very rich in copper. The ledges are over twelve feet wide and are well defined. The Golden Treasure is near the Aberdeen and is about four miles from Copper camp. Mr. Bryant also located a big iron cap about a mile from the Golden Treasure.

### Pretty Marriage Ceremony.

Mr. George McKague and bride arrived on Sunday from Penticton, where they remained for two days. The Vernon News contains the following report of the marriage:

"A very pretty marriage ceremony took place on Wednesday morning in the Methodist church, when Miss Ada Mohr, eldest daughter of Charles Mohr of this city, and Mr. George McKague of Greenwood, were united in the bonds of matrimony by Rev. S. J. Thompson. A large number of the friends of the young couple were present. The church was beautifully decorated with a profusion of flowers, and the contracting parties stood under an arch formed of evergreen and cut flowers which made a most pleasing effect. The bride, who was attired in a handsome traveling costume, carried a splendid bouquet. The bridesmaid was her sister, Miss Lina Mohr, and the groom was supported by H. C. Cooper. The bridal party left by the morning train for Greenwood, their future home. Among other valuable and useful presents the bride was presented with a handsome parlor lamp and a silver butter dish in grateful recognition of her services in the choir and Sunday school."

## BOUNDARY MINES COMPANY.

Mr. F. Keffer, manager of the Boundary Mines company, writes to the TIMES to state that the Boundary Mines company did not transfer their properties to himself in order to evade payment of the new joint stock company's free miners' certificate. The money for the said certificate was deposited with the recorder at the close of June, but owing to the absence of official notification that the company had been registered under the provisions of the New Companies' act (although application had been made at Victoria for said registration) the free miners' certificate could not be legally issued by the local office. The reason for the transfer of the claims is therefore obvious.

We are pleased to publish Mr. Keffer's reason for the transfer. The transfer having been made when other companies were doing likewise to avoid the Companies' license the public would naturally infer that the Boundary Mines company had similar reasons for the transfer of the claims. Mr. Keffer clearly explains the matter, however.

## Brandon and Golden Crown.

Walter L. Orde, secretary-treasurer of the Brandon and Golden Crown company, paid a flying visit to the company's property this week. He arrived in Greenwood on Sunday and returned to Rossland on Monday. This was Mr. Orde's first visit to the Golden Crown, and needless to say he was highly elated at the result from the work already accomplished Mr. Orde was accompanied by Mr. Hover of San Francisco, who is visiting different districts with a view to investment, his brother being a well known millionaire of California. Mr. Orde's visit was necessarily a very hurried one, but Hon. T. M. Daley, the president, and some of the directors will come in here in about two weeks and will remain some time.

## A Veteran Prospector.

While the miners and prospectors of the different districts of British Columbia are composed of representatives of almost every nation and every class, Boundary Creek has the honor of having in it a prospector who belongs to those who endured the vicissitudes of the gold excitement of 1858 and the majority of whom have now crossed the Great Divide. Andrew Waddell, a native of Goderich, Ont., crossed the continent in 1858, and experienced all the ups and downs of "the days of old and the days of gold," both in California and on the Fraser river. He returned to his old home, lived in Manitoba, and came to Rossland about a year ago. He reached Boundary Creek about a month ago, and in company with W. T. Hayes and F. R. Pretty, both from Goderich, spent the time since then in prospecting on Pass creek. They located two claims, the Waknapital and the Morning Glory, and upon these sufficient work has been done to justify the assumption that they will both turn out paying mines. Messrs. Waddell, Hayes and Pretty intend spending the entire summer prospecting in Boundary Creek district. Mr. Waddell, despite his years, is yet hale and hearty and looks as if he were still capable of doing considerable searching for the yellow metal.

## GREENWOOD NOTES.

J. C. Coupil a painter, fell from a building on Monday and had his shoulder dislocated.

John Gulley, a brother of Thomas Gulley, arrived in Greenwood from Toronto on Tuesday, and will reside here in the future. Mr. Gulley made a trip through Kootenay en route.

Congratulations are in order to Mr. and Mrs. R. Smailes on the arrival of a little son. "Smailes junior" is no ordinary youngster, for he goes the proverbial ten pounds and one better.

Mr. Walter L. D'Aeth has awarded to S. L. Graham the contract for erection of a large one and a half story residence on Silver street, work on which has already begun. In all probability Mr. D'Aeth will erect a store on Government street near the townsite office this summer.

The Greenwood brewery will be in operation within a week. Messrs. Leibes & Forsechner, the proprietors, have everything in readiness and are waiting for their license. Both proprietors are experienced brewers and are confident that they can supply a delectable fluid to satisfy the thirst of the most fastidious beer drinkers.

Mr. George Rankin, the contractor for the tunnel on the Sunset, narrowly escaped being killed on Tuesday morning. He was working at the head of the tunnel, which is in nearly 150 feet, when he was caught by falling rock. Mr. Rankin jumped outward to escape but the mass of rock caught him by both legs and pinned him to the bottom of the tunnel. Mr. Bond, who was working near him, succeeded in extricating him, and it was found that although badly bruised no bones were broken.

JOHN A. CORYELL, A.M., B.C.A.

### Exhibit of Minerals.

F. J. Watson, principal of the Okanagan Mission school, and an extensive fruit-grower, is taking advantage of the summer vacation to visit the Boundary Creek and Kettle river districts. Mr. Watson is also one of the directors of the Okanagan Agricultural and Trades Association, who are preparing to hold their second annual exhibition in September. The directors are anxious that there should be sent from this district an exhibit of minerals from the different camps, and Mr. Watson has succeeded in inducing Messrs. Filley & Ogden to take charge of the exhibit from Grand Forks, while Mr. C. S. Galloway will arrange and take charge of the exhibits from the camps surrounding Greenwood. The success of the mineral exhibit will necessarily depend largely upon the interest by owners of mines and claims in the district. They should take sufficient interest in advertising the district to send in specimens from the properties. The Vernon exhibition will be held a few days after the Okanagan one and the exhibit could be forwarded there. Exhibits should be sent from the mines as early as possible, and may be sent to the TIMES office or to Mr. Galloway. If sufficient interest is taken in the matter and exhibits forwarded that will accurately represent the wealth of Boundary Creek district, the advertisement will pay for any trouble or expense.

### Courtroom and Jail.

Mr. F. H. Lawder, the provincial police officer, has received the plans and specifications for the courtroom and jail to be erected for the provincial government at Greenwood. The plans show a neat frame building 20x36, with a 12-foot ceiling. A veranda runs along the front of the building. The jail will contain two cells and an officers' room. Mr. Lawder also received plans and specifications for the government buildings at Grand Forks.

### MINING NOTES.

Mr. J. A. Monteith has been appointed manager for the Stratheyre company of Fairview.

Mr. J. A. Coryell, P.L.S., has completed the survey of the Sunset and Crown Silver claims, and application will be made for crown grants for the claims.

The Smuggler company of Fairview, after putting 50 tons of ore through the Stratheyre mill had a cleanup, and the result was a gold brick of 40 ounces. The concentrates, which are very rich, will be sent to the Everett smelter.

F. C. Innes, who is interested in the Gold Drop mine in Greenwood camp, returned from Kootenay on Saturday and spent some time on the property. Mr. Innes stated that the owners of the Gold Drop had decided to do but little work on the mine this summer.

F. W. Hankey and L. Irvine Baldwin of Conconnully, Wash., returned home Tuesday evening after a two weeks' visit in Greenwood. During that time they visited many of the mines, and were very favorably impressed with the mineral richness of Boundary Creek district.

Mr. Reuger expects the winch for the Skylark mine to arrive shortly when the work of pumping out water will be resumed. A promising lead has been discovered on the Denver, belonging to the same company, and considerable development work will be carried out on the claim this summer.

### Centre of a Good Camp.

Mr. W. A. Carlyle, the provincial mineralogist, arrived in Rossland last week, and in conversation with a representative of the Rossland Miner gave a resume of his field work since he left Victoria. Speaking of Boundary Creek district, he ventured the rather flattering opinion that Greenwood is the central point of what is going to be a good camp. Regarding the mines in Boundary Creek and surrounding districts Mr. Carlyle said:

"I went from Fairview to Camp McKinney, where I saw the Cariboo mine. It has a shaft down 170 feet and in the bottom they are finding the best ore ever taken from the mine. The underground workings extend 700 feet on a solid ore shoot, which the surface workings indicate to be 1,200 feet long. The vein is from 4 to 6 feet wide, and the company claims to be saving from $15 to $16 on the plates. There are other quartz veins at Camp McKinney, but I could not learn that there was anything else there carrying the values of the Cariboo.

"I went to Midway for a short time and then to Greenwood, where I spent three weeks visiting all the surrounding camps. At Long Lake camp Leslie Hill is doing some fine prospecting work in the Jewel. He has a vein of quartz which runs high in gold. Greenwood is the central point of what is going to be a good camp. There has not been a great deal of work done, but some large ore bodies have been found, though as a rule they are of low grade.

"I went down to Grand Forks and out to see the Volcanic, PathFinder and other properties on the North Fork of Kettle river. The Volcanic is a problem. The surface showing is enormous, but it remains to be seen how much solid ore can be found and how much it is worth. The Pathfinder looks well.

"Taking the Boundary country altogether it is certainly one of great possibilities. I would be glad to see more active work done there--more real earnest mining. They will tell you they are waiting for a railroad, but it should not be forgotten that the best way to get a railroad is to show up enough ore to justify its construction."

### Real Estate Changes Hands.

Messrs. Nelson & Tynan, the proprietors of the Pioneer hotel, have purchased from Messrs. Sansom & Holbrook the lot adjoining the hotel, the consideration being $800. The lot has a 25-foot frontage on Government street and is 100 feet deep. Upon it has been erected a substantial foundation and floor for a building. This gives Messrs. Nelson & Tynan a frontage of 75 ft. on Government street, and they have so much confidence in the speedy growth of Greenwood and their business is increasing to such an extent that they intend in the near future to erect a three-story hotel. The purchase price shows that Greenwood real estate is not depreciating in value.

Messrs. Dier and Davidson of Fairview have purchased the Stemwinder claim in Fairview camp from Messrs. Sheean and Watkins. There were last week no less than fifteen teams hauling machinery from Penticton to Fairview for Messrs. Dier and Davidson.

### Greenwood Defeated.

On Monday afternoon a team representing the Nelson (Wash.) baseball club met and defeated the Greenwood team. The Nelson nine were an aggregation of good ball-players—tall, athletic and well trained, and more than a match for the Greenwood boys, the majority of whom are, or were, good players, but lack the necessary training for good team work. Mr. R. Ratcliffe of Greenwood made a fair referee whose general decisions gave satisfaction to both sides. The visitors went to bat in the first inning, Medill pitching a swift and difficult ball for the home team. M. E. Miller, too, who was catcher for the Greenwood team, played an almost errorless game, but lack of training told and Medill threw wild in the last four or five innings. He was relieved once by Coryell, who threw a swift but rather wild ball. On the other hand, Campbell pitched strong throughout the nine innings, his delivery being speedy and his curves difficult to find. Donagh, the catcher, also materially helped to keep down the score of the home team. But the chief strength of the Nelson team lay in the strength of its field, Capsey and Welsher catching some difficult balls on very rough ground. At the end of the fourth inning the score was even, but then the Greenwood team went to pieces and the match closed with a score of 35 to 17 in favor of the visitors. The big score was because of the rough ground, as it was almost impossible to field a ball among stumps and rocks.

Greenwood has the material for a good baseball nine, but they cannot expect to win matches without practice.

The teams were as follows:

| GREENWOOD. | SCORE. | NELSON. |
|---|---|---|
| Miller, M. C. | c. | Donagh. |
| Medill, W. R. | p. | Campbell. |
| Sterrett, J. | 2nd b. | W. Cole. |
| Smith, F. B. | r. f. | Welsher. |
| Mitchell, | l. f. | Clyde. |
| Coryell, F. | c. f. | Capsey. |
| Miller, G. | s. s. | Maher. |
| Campbell, L. | 3rd b. | Price. |
| Miller, F. | 1st b. | G. Cole. |

George B. McAuley, of the Cariboo mine, Camp McKinney, has left for an extended trip to New York and Toronto.

## Notice to Contractors

SEPARATE Sealed Tenders, endorsed "Tender Government Offices, Grand Forks," or "Tender Lock-Up, Greenwood," as the case may be, will be received at the Government Office, Vernon, by the undersigned up to 12 o'clock, noon, of Friday. the 6th day of August, 1897, for the erection of

### Provincial Government Offices at Grand Forks

and

### Lock-Up at Greenwood.

Each tender for the offices at Grand Forks must be accompanied by an accepted bank cheque for $200, and each tender for the lock-up at Greenwood by an accepted bank cheque for $100.

Such cheques will be returned to unsuccessful competitors, but will be forfeited by any bidder who may fail to execute a contract if called upon to do so, and will be returned to the contractor upon furnishing approved security for the due completion of the work.

When more convenient cash may be sent instead of marked cheques.

The lowest or any tender not necessarily accepted.

Plans and specifications may be seen and form of tender obtained at the Government Office, Midway; Provincial Police Office, Greenwood; Mining Recorder's Office, Grand Forks, or at the office of the undersigned.

### CLAIM JUMPING.

Other claims beside the Volcanic were jumped on the supposition that the companies owning them had neglected to take out their Companies' licenses. The Elsie May claim on the North Fork was relocated by Robert Moll of Carson. Neil McCallum of Grand Forks, who is heavily interested in the Elsie May company maintains the license was taken out, but Mr. Moll says he will fight the case.

Messrs. Keough and son also relocated the R. Bell in Summit camp. They are the original locators of this promising property and are heavily interested in the R. Bell company, who owned the claim. Messrs. Keough and son probably relocated the claim to protect the company.

### MR. CORBIN'S PLANS.

It is reported that Mr. Corbin has made arrangements in the east by which his railroads are merged under the control of one company, with only one mortgage, and sufficient money in the treasury to undertake the work of constructing a road through the reservation and up into Boundary Creek district. As has been pointed out, his opportunity to secure and control the trade of this rich district now presents itself, and he is shrewd enough to seize it—if he can finance the money. If he does so he will find that the people of this district will give him a hearty welcome. The majority of the people in the district are not swayed by the sentimental bugaboo about diverting trade through wrong channels. Business exigencies recognize no international boundary line. If Mr. Corbin builds he is entitled to the trade, and he will secure it.

### Knob Hill and Old Ironsides.

The companies which Mr. J. P. Graves of Spokane organized in the east to develop the Knob Hill and Old Ironsides in Greenwood camp have already commenced work on these valuable properties. Mr. Henry White has charge of the work in the Old Ironsides and has several men at work. The water has all been taken out of the shaft and a partition has been put in to improve the ventilation. Machinery for forcing the bad air out of the mine has also arrived from Spokane. The work on the Knob Hill is under superintendency of J. F. Hemenway. He has also several men at work. It is understood that considerable work will be carried out this summer in both properties.

### Mr. Alfred Woodhouse.

Mr. Alfred Woodhouse, M.I.M.M., of London, arrived from Rossland on Wednesday and will spend another week in further examining properties in Boundary Creek district. Mr. Woodhouse stated to a TIMES representative that his opinion of the district could be best guaged by the lengthy report which he sent his principals in England. That report included his views on the different districts which he had visited, and he was so much impressed with the importance of Boundary Creek district that he devoted to it as much space as was given to the Slocan district. The ores generally are smelting and concentrating, and the first requisite is the erection of smelters and concentrators near the mines. There is no good reason why these should not be erected before a railway is constructed into the district. Greater difficulties have been surmounted elsewhere than are to be found here. No district offers greater inducements for a smelter than does Boundary Creek, the wonderful variety of ores making the smelting problem an easy one.

Mr. Woodhouse was one of the speakers at the banquet given in Rossland on Saturday evening in honor of Lieutenant-Governor Dewdney, Lieutenant-Governor McIntosh of the Northwest territories, and W. A. Carlyle, the provincial mineralogist. The banquet was a decided success. Other speakers besides the guests of the evening and Mr. Woodhouse were Mayor Scott, General Warren and Dr. Bowes.

### HASTEN INCORPORATION.

The question of incorporation has been referred to in THE TIMES more than once, but we are forced to confess that we find the executive hide of the government tougher than we had expected. We were foolish enough to think that judicious prodding would induce them to do something in the matter of granting Greenwood its letters patent, but residents of Greenwood are pursuing the even tenor of their way without the guidance of His Worship the Mayor and a board of Aldermen. It is now nearly three months since application was made for incorporation, and that ought to be sufficient for even the Turner government to deal with the matter.

### THE PENTICTON ROAD.

At the annual meeting of the Victoria board of trade Premier Turner in referring to the annual report said that he had noticed an expresssion to the effect that the provincial government should urge upon the dominion government the construction of the Penticton road this summer, and he would state that the provincial government is now corresponding with the dominion government on this very subject, and also with reference to constructing the road to the coast. He felt pretty sure, however, that the domion government will not deal with more than the Penticton road this year.

### THE SMUGGLER COMPANY.

Mr. Alexander H. Dixon, treasurer of the Smuggler Gold Mining and Milling company, has returned to Toronto from Fairview, where he had charge of the company's interests since first of February last, and in an interview with a representative of the Toronto Globe he spoke most enthusiastically not only of the mines in which he is interested, but of the mines of British Columbia considered as a whole. In Mr. Dixon's opinion a great deal of eastern money which has been poured into the Trail Creek and Slocan districts could have been invested with more immediate results in Boundary Creek, Fairview and other districts further west. The Smuggler company have purchased the Skylark, a fractional claim adjoining. The company has also purchased an engine and boiler from Goldie & McCulloch of Galt for the Stratheyre mill, which has been leased.

It is possible that the alluvial deposits which have been washed down by Boundary Creek, Kettle river and its other tributaries to form the Kettle river valley, are rich in gold, and that placer diggings along Kettle river may yet become as famous as those of Cariboo or Omineca. Several placer claims have already been located along the Kettle river, and the washing therefrom has given very gratifying results. The gold is coarse and plentiful.

### A BIG DEAL.

A story comes from Rossland which is on a par with many of the railway rumors that have been floating around for the past few weeks. The new story is to the effect that there is a big deal on foot there which, if consummated, will prove a great factor in developing the Boundary Creek district, including Cascade City, Grand Forks, Greenwood, Fairview and other camps. One of the big railway corporations is of course behind the deal, and they have made an offer to the owners of the townsite and water-power at Cascade City to purchase the absolute right to the magnificent water power at that point. It is stated that should the company secure the power it will build a railway and "establish car shops and terminal facilities at Cascade City and develop the water power to such a degree as to furnish ample power to the mines of that whole district, and light and heat to the many camps in that country."

We publish the story because it may bring hope to the despondent, but to us it has a fishy aroma. In the first place the absolute right to the magnificent water-power at Cascade City, and all other provincial water-powers, is vested in the Crown and cannot be sold by the owners of Cascade City to anyone. In the second place, the Cascade Power & Light Co., incorporated during the last session of the legislature, were granted a prior right to the use of 150,000 inches of water from the Cascade falls. Dr. Jones, the principal shareholder in the Cascade Company, passed through Greenwood a few weeks ago and he then took the first steps towards surveying the company's property and beginning operations.

### Back From Butte.

Mr. W. T. Smith, of the Republic Mining company, returned on Thursday from a trip to Butte and Kaslo. While in Butte he interviewed the members of the Parrot company, with whom he is associated, and they decided to secure crown grants for all their properties in the district. Mr. Smith also saw Mr. Corbin in Spokane, and the latter expressed his intention of coming into Boundary Creek just as soon as he could make arrangements to do so. Mr. Smith states that Boundary Creek district is attracting much attention on the outside, and the only thing that keeps miners from more extensively developing their properties and capitalists from making further investments is the lack of railway connection.

### Prairie Schooners.

The days for prairie schooners have not ended yet. On Saturday the citizens of Greenwood were rather surprised to see two of these useful though slow vehicles passing through the town. The occupants were from Butte city, and they drove all the way. The party included three ladies and seven or eight men. At the head is Mr. McDonald, who was in here last year and located some claims on Pass creek. The immediate object of making the trip by wagon from Butte is to do the assessment work on these claims, but the whole party will probably settle down here. All the men are practical miners.

W. R. Megaw, of Vernon, passed through Greenwood on Thursday last on his way home from Carson, B. C.

# BOUNDARY CREEK MINING & MILLING CO., LTD. LY.

*CAPITAL $1,500,000,*

*In 1,500,000 shares of $1 each, of which 700,000 are Treasury Stock.*

**Directors:**

*G. ARTHUR RENDELL*.....*President.*
*S. S. FOWLER, A.B.,E.M.*.....*Vice-President.*
*D. A. HOLBROOK*.....*Manager.*
*THOS. McDONNELL*
*C. AE. SHAW, C.E., P.L.S.*

**Bankers:**

*BANK OF MONTREAL, VERNON, B.C.*

THE COMPANY'S mineral claims now number 14, of which 12 adjoin and form a compact group situate in PROVIDENCE CAMP, BOUNDARY CREEK. Development work is in progress on three of these, viz. the D. A., G. A. R., and O. B. claims, each giving promise of good results.

THE COMPANY lately acquired MR. THOS. MCDONNELL'S pre-emption of 320 acres and adjacent lands, upon which are excellent mill-sites and which give access to an abundant supply of water for power purposes. Forty acres of the pre-emption have been sub-divided into town lots, and the new townsite thus established has been named

## BOUNDARY CREEK CITY,

which is most favorably situated at the junction of Boundary and Eholt creeks, and at a convenient distance from several important mining camps. These town lots are being offered at reasonable prices and upon easy terms of payment. Plans, prices and full particulars, are now obtainable at the Company's

## HEAD OFFICE - - - GREENWOOD CITY, B.C.

Correspondence Invited

*E. JACOBS, Secretary and Treasurer.*
