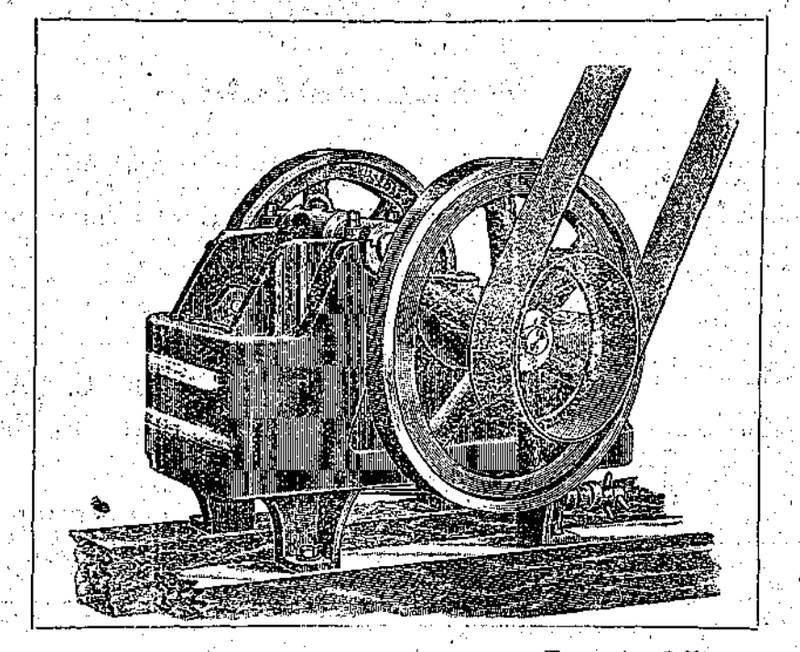
## The Wm. Hamilton Manufacturing Co. Ltd.

BUILDERS OF

MODERN MACHINERY MINING

Contractors for the design and construction of complete Stamp Mills, Concentration, Chlorination, Cyanide and Smelter Equipments.

Sole Agents for British Columbia for John Bertram & Sons' Iron Working Machinery, MacGregor, Gourlay Co.'s Wood-Working Machinery.



Sole Agents for British Columbia for R. Hoe & Co.'s Celebrated Inserted Tooth Saws, M. Beatty & Sons' Dredging Machinery.

Head Office and Works:
PETERBORO, ONT.

Branch Offices:
Vancouver, B. C., Rossland, B. C.,
And Greenwood, B.C. HARRY HOWSON, Agent.

Put up in 400 Barrels and 200 lbs. Sacks.

PORTLAND CEMENT.

Agents for British Columbia
BOYD BURNS & Co. Vancouver, B.C
Wholesale Dealers in Plumbing and Engineering Supplies

Manufactured by the B. C. Portland Cement Co. at Vancouver and guaranteed equal to any imported cement in the country

Used Largely by C.P.R. and by Contractors Generally.

The Imperial Hotel

IS THE BEST HOTEL IN GREENWOOD. A New Building, well furnished. First-class Service in all departments. Choice, Wines, Liquors and Cigars. Headquarters for Mining and Commercial Men.

Copper Street, Greenwood.

## MEN FROM THE EAST

### VISIT THE BOUNDARY CREEK

**District.—Rufus Pope, M. P., and Some of His Associates Examine Their Extensive Mining Interests in This District.—Will Start Work on the War Eagle and Buckhorn Claims.**

Rufus Pope, M. P., J. R. Allen of Ottawa, W. T. McDonald of Spokane, W. F. Noble of Nelson, and P. Joyce of Rossland, are a party of mining men who arrived in the city on Sunday. Mr. Pope is a prominent leader of the Conservative party. He has been interested in Boundary Creek mines for several years, but this is his first visit to the district. He was one of the promoters of the Knob Hill and Old Ironsides companies. Mr. Pope and his associates now own the War Eagle in Greenwood Camp and the Buckhorn in Deadwood Camp. Both properties were visited, and work on a large scale will be started immediately. Peter Joyce has been appointed superintendent of both properties. Mr. Joyce had charge of the Centre Star from the time it was a mere prospect until it developed into a two-million-dollar mine. W. F. Noble will have charge of the business affairs of the two companies. They will make their headquarters at Greenwood. Mr. Allen is an Ottawa capitalist who is traveling with Mr. Pope. He is anxious to invest in Boundary Creek mining properties, and in company with Mr. McDonald visited several claims in the district. The party return to the East today. Mr. Pope has been most successful in connection with his mining ventures. In addition to his Boundary Creek investments, he secured interests in Kootenay that turned out remarkably well.

MINING ITEMS.

J. S. Paterson has just returned from the Similkameen country, (says the Rossland Miner), and brings an interesting story of the mining developments taking place in that famed district. He says Copper Mountain is a veritable hive of industry, hundreds of prospectors are at work in the vicinity doing assessment work and locating new properties, and beside the prospectors there is a considerable force of miners engaged in opening up properties recently acquired by Dr. Deeks of Montreal, and others. The Similkameen Copper company is actively pushing work on the Virginia and Norway. On the Virginia very little work will be required to open up an exceedingly valuable mine. Mr. Paterson severely scores the government for its persistent neglect of this district. The government office at Granite Creek collects about $20,000 per year revenue there. The greater portion of this amount is derived from Copper Mountain, and up to date the government has spent $300 in constructing abridge across the river No trails or roads have been built into the district by the government. Strong pressure is being brought to bear on the government to construct the wagon road from Princeton to Keremeos, a distance of 45 miles. This would shorten the freight haul from the C. P. R. by 40 miles. The road can be easily and cheaply constructed, and the government will do well to attend to the matter at once. Mr. Paterson tells a story about the surprising richness of the ore on Copper Mountain, and predicts a great future for the district.

The Boundary Creek Copper Mines, limited, is a company recently organized for the purpose of developing the Dominion and No. 2 claims in West Copper camp. The officers of the company are: President, A. T. Kendrick, Greenwood; vice-president, John W. McRae, Ottawa; secretary, W. L. Germaine, Greenwood; directors, John A. Finch, Spokane, Hector McRae, Rossland, Harold Selous, Nelson, and Clive Pringle, Greenwood. The capitalization is $250,000, divided into 1,000,000 25c. shares. The Dominion and No. 2 claims are situated about fifteen miles from the city. They have large surface showings, and the ledges give good values in gold and copper. Two men are now working on the properties. The company intend putting a large force to work shortly. D. J. McDonald, the well-known mining man, will examine the properties and outline the development work.

C. D. Porter, B. L. Short and J. Hamilton were among the many mining men who visited the district during the week. Mr. Porter is ore buyer for the Kansas City Smelting & Refining company. He is here to enquire into the possible output of the district as soon as the railway is completed and also to look after some mining properties in which he is interested. Mr. Hamilton was in the district several years ago. He had charge of the work on the Winnipeg when it was under bond to Marcus Daly. The party accompanied by Rufus Pope, M. P., J. R. Allan, E. A. Bielenburg and J. C. Haas visited the Lily K. mine at the head of Pass creek on Thursday. They also visited other properties in the district.

Martin J. Grevy, president of the Lemon Gold Mining company, and A. Paterson, superintendent for the company, were in the city from Omaha Camp, near Camp McKinney. Since Mr. Grevy's previous visit to the city, a large amount of surface work has been done on the Lemon and adjoining properties owned by the company. The work of sinking the shaft was delayed by the non-arrival of the Cameron pump, ordered some time ago. Mr. Grevy left for Omaha. He will return in about three weeks.

Alex. Sharpe, who was superintendent of the Columbia & Kootenay mine for several years, has been appointed superintendent of the Boundary Creek Mining & Milling company's properties. Mr. Sharpe arrived in the city on Wednesday, and went out to the properties on Thursday. He will work a large force of men during the summer. Work will be started on the Gold Bug.

Harry Shallenberger has several men at work on the properties of the Greenwood Crescent company in Skylark camp. While excavating for a blacksmith shop the other day another ledge was uncovered. The ore gives very high values in gold and silver. The Greenwood Crescent company intend doing a large amount of work this summer.

A contract for a 40 foot shaft on the Bullion has been completed. The Bullion is in Greenwood camp immediately north of the Brooklyn. The showing is a good one. The Bullion is owned by Randolph and A. K. Stuart. W. G. McMynn and F. M. Kerby.

Capt. Ralston was in the city last week. He is developing his properties on Eagle Mountain above Wellington Camp. The captain has some fine showings on his claims.

E. Thursby Pelham has returned from a ten day trip to Republic where he has extensive mining interests.

Jay P. Graves is in Grand Forks ing after the erection of the big smelter at that point.

R. C. Johnson and party have left on a prospecting tour up the Main Kettle River.

WALL PAPER.

We have just received a large shipment replete in various shades and tints, in Ingrains gilt, etc., etc.

FLAGS

Union Jacks, Stars and Stripes, Red Ensign, White Ensign, Canadian, Cuban, Phillipino, Royal Standard, Irish and Scotch, in a variety of sizes.

## THE GREAT HOPES MINE.

**Work is to be Started in a Short Time on this Property, Situated in Deadwood Camp.**

The Great Hopes Gold Mining company, limited, a company which was incorporated four or five years ago under a State of Washington charter, and which is controlled by Peter Larson, the well-known railway contractor, T. Greenough of Helena, one of the proprietors of the famous Morning mine, and several friends, who live in Portland and in New York city, has decided to resume work upon its properties in the Boundary country. Operations will be commenced in a few weeks. The property is situated in Deadwood camp, and was one of the first locations made there. It has been worked years ago as a free-milling proposition. The ore was reduced in an arastra, but as it became base with depth, this method of reduction was abandoned, and the property shut down to await the advent of transportation. As facilities for getting the ore to the smelter will soon be furnished by the Canadian Pacific Railway, it is thought that the present is an opportune time to resume operations. It has been decided to change the corporation from American to Canadian. The owners are all wealthy men, and they no doubt in a short time will place the Great Hopes on the list of shippers. Mr. Greenough will visit the Boundary Creek country next month, when he will lay out the work.

## RURAL HOTELS.

**A Large Number of Licenses have been Granted by the Commissioners.**

The following licenses were granted by the license commissioners at the session held recently in Cascade:—

Mrs. Emily Dowding, Lancashire House, Midway, 12 months.

Thos. J. Gormon, Cove Hotel, English Point, 6 months.

McQuaig & Larson, Riverside Hotel, Rock Creek, 12.

McAuley & Keightly, Midway Hotel, Midway, 12.

Harry Nash, Phœnix Hotel, Phœnix, 12.

Snodgrass & Kelly, Palace Hotel, Anaconda, 12.

Nicholas Tholl, Anaconda Hotel, Anaconda, 12.

Thomas Wake, Boundary Falls Hotel, Boundary Falls, 12.

John Albi, Commercial Hotel, Midway, 6.

Neil Hardy, Lime Creek Hotel, Lime Creek, 6.

John McLaren, Grand Prairie Hotel, Carson, 12.

McOrmond & Miller, Victoria Hotel, Gladstone, 6.

O'Donnell & Kerr, McRae Hotel, Gladstone, 6.

Thomas Flynn, Burnt Basin Hotel, Gladstone, 6.

Oscar Stenstrom, Scandia House, Cascade, 6.

Uno Oleson, Brittania Hotel, Cascade, 6.

C. J. Eckstorm, R.R. Headquarters Hotel, Cascade, 6.

George Devon, Roma Hotel, Cascade, 6.

C. A. May, Montana Hotel, Cascade, 6.

C. H. Thomas, Cascade Hotel, Cascade, 6.

Wm. Graham, Ferry House, Edwards Ferry, 6.

Elie Lavally, Christina Hotel, Christina, 6.

E. P. Butler, Klondyke Hotel, Trail, 6.

Blake & Hector, Victoria Hotel, Trail, 6.

Dawson & Craddock, St. Elmo Hotel, Trail, 6.

A. D. McLennan, Windsor Hotel, Trail, 6.

J. C. McDonald, Trail Hotel, Trail, 6.

The following applications for licenses were deferred to the next meeting of the board on account of various irregularities in papers, etc.:—

Peter Arena, International Hotel, Midway.

Wm. C. Hayward, Hotel Summit, Summit Camp.

John A. Munson, Columbia Hotel, Niagara.

John Coutts, Scandia House, Niagara.

Gust. Wassholm, Windsor Hotel, Niagara.

John S. Wisner, Wisner's Hotel, Niagara.

Jos. W. Shaw, Niagara Hotel, Niagara.

Adelard Roy, International Hotel, Cascade.

Chas. N. Owens, Oakland Hotel, Midway.

Mary A. Meakin, Meakin Hotel, Trail.

The next meeting of the board will be held on Friday, June 30, which is the last day on which applications can be considered without a called meeting of the board, at the expense of the applicant.

Sultana, ½ interest, E McEwen to J McIntosh
Boston Boy, ¼ interest, J Lucy to J H Morrison

## MYERS CREEK.

Robert Donegan has returned from Meyers creek. He and J. W. Jobe bonded two claims on the American side of the line to an eastern syndicate for $20,000. The claims are known as the C. O. D. and J. I. C. Both claims have strong ledges of concentrating ore. Assays as high as $29 in gold and eight ounces in silver have been secured from the C. O. D. Mr. Donegan reports a great deal of activity in connection with Meyers' Creek Mining properties. The Crystal Butte Mining company have a saw mill erected which is kept busy sawing lumber for the big concentrator the company are erecting. W. D. Glaze of Midway has a contract for building a road from the mill to the mine. The Mountain Dew owned by Allison is looking well. He ran a tunnel 230 feet on the ore body. The tunnel cut three chutes of pay ore. The ledge is from three to six feet wide. Other properties in the camp are being developed.

# GREENWOOD

GREENWOOD is the financial and commercial centre of Boundary Creek district. It is the supply point for the mining camps. From the city, roads lead to the

## MINERAL ACT, 1896.

**CERTIFICATE OF IMPROVEMENTS.**

**NOTICE.**

PIONEER and REVENUE Mineral Claims, situate in the Kettle River mining division of Yale district. Where located: In Deadwood Camp, ½ mile west of the Morrison mineral claim.

TAKE NOTICE that I, John Howard Macfarlane, free miner's certificate No. 19,622A, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

AND FURTHER take notice that action under Section 37 must be commenced before the issuance of such certificate of improvements.

Dated the 9th day of June, 1899.

# THE GOLDEN EAGLE

*ON NORTH FORK KETTLE RIVER*

**There is a Mining Property of Great Promise.—The Development Work on This and Other Properties in the Vicinity.—Law's Delays.**

Now that there is a strong probability that the litigation which so seriously retarded the development of the Volcanic, Seattle, and other North Fork properties, will be speedily settled, more attention is being directed towards the many promising mining claims in that camp. Arrangements are being made to work the Volcanic on a large scale. Other properties in the immediate vicinity have been developed with most encouraging results. Prominent among these is the Golden Eagle, a claim owned by L. S. Moulton-Barrett of Greenwood. Development work under the direction of Mr. Fox was vigorously prosecuted the winter months, until now the claim is attracting much attention from mining men who appreciate a valuable property when they see it. A correspondent writes that the Golden Eagle mine is situated on the southeast side of Volcanic mountain, and has been developed to the 100-foot level, with numerous crosscuts, drifts, and winzes. As the work progressed, the ore got richer and more extensive with depth, until at the 75-foot level the vein filling became solid ore, carrying as high as 20 per cent metallic copper. The most interesting and important feature of this discovery is that the strike of the vein is almost directly through the center of Volcanic mountain. The Golden Eagle people are now drifting along the lead in that direction, and although they have gone a considerable distance, have found no signs of the ore chute coming to an end; on the contrary, it steadily continues to improve.

The same writer says that the Volcanic law-suit is chiefly responsible for the delay that has occurred in the development of the North Fork country. But the success that has lately attended the development of the Golden Eagle, Laskey, Junction City, Seattle, Pathfinder, Diamond Hitch, and other properties in that section, has brought about the desired result. The owners of scores of promising mineral claims in the valley of the North Fork of the Kettle River are encouraged, and have been aroused to action by the phenomenal success of their more enterprising neighbors, and although the extensive development of the Volcanic and Wolverine must be considered an important factor in the magnitude of North Fork mining operations, the assured mines that exist there are sufficient to place Volcanic camp in the very foremost rank in the matter of ore production.

### ANOTHER RESIGNATION.

**Ald. Cropley Resigns His Seat in The South Ward.**

The regular meeting of the city council was held on Monday evening. Mayor Hardy was in the chair, and Ald. Galloway, Sutherland, and Cameron were present. Ald. Cropley, for business reasons, tendered his resignation as alderman in the south ward. The resignation was accepted. A. C. Sutton, barrister of Grand Forks, notified the council that action would be started on behalf of George Fould for damages. Fould fell into the excavation for the Guess building. Mr. Sutton's letter was referred to the city solicitor. Rev. Mr. Trotter invited the council to participate in the ceremonies connected with the laying of the corner stone. The invitation was accepted. A rate by-law was considered in committee. The ordinary rate is 14 mills with 1-7 off for payment before a certain date, and 11 mills will be required to meet interest and sinking fund on the loans. The clerk was instructed to invite the mayors and aldermen of Grand Forks and Columbia to attend the celebration. Ald. Sutherland was granted permission to repair fence around meadow on Hall's pre-emption. The foregoing was crowded out last week.

### HOG CHOLERA.

TO THE EDITOR:—If any of your readers are interested in the production of pork, and wish to procure information on "hog cholera" and "swine plague," two diseases that have proven to be so disastrous among some of the local herds of hogs, will be supplied with a "Farmers Bulletin" on the subject by applying and enclosing a stamp to me. Hog cholera is an extremely contagious and infectious disease. The pathogenic agent is a bacillus which can be conveyed in various different ways. The disease is propagated by direct contamination by intermediary objects, and particularly by ingestion of infected excrements. Feeding pigs with the swills from towns where the sanitary conditions are neglected is very favorable towards the dissemination of the germs and perpetuation of this disease. They (hog cholera and swine plague) are, however, preventable diseases, therefore persons who intend engaging in hog-raising would benefit greatly by becoming acquainted with the nature of these diseases, the various ways of propagation, and the modes of prevention."

Midway, B. C., May 20th, 1899.

To THE EDITOR,
Boundary Creek Times,
Greenwood, B. C.

Dear Sir:

I have recently learned since my partial recovery from illness of long duration that during the recent visit of Mr. Leonard Norris, assistant commissioner of Land and Works, several land cases in regard to the town of Beaverton or the pre-emption of W. T. Thompson were tried.

I never heard of them!! They were never tried!! simple for the reason that they never existed, Then why? Because the title to Beaverton is perfect.

Who owns Beaverton? The trading men in Greenwood mostly! Bankers. the townsite owners of Greenwood, your leading brokers, assayers, merchants, mining men, and citizens.

Why do they own property in Beaverton? Because they know a good thing when they see it. That is what is building Greenwood city up so fast, and besides they have been on the ground and have seen it themselves.

Beaverton is the terminus of the West Fork branch of the Canadian Pacific Railway. there are no other branches in that part of the country.

Why is Beaverton going to be prosperous and a large and thriving centre? Because it is the key to the entire mining district, and running right up to, in fact right into the town, are some of the largest and richest surface showings of mineral on the continent. Ask such experienced men in these matters as Robt. Wood, George Guess, C. Scott Galloway, J. C. Haas, James Sutherland, C. Æ. Shaw, or in fact anyone who has been at Beaverton what he thinks of it?

Yours truly,
W. T. THOMPSON.

## THE TWIN GATEWAY CITIES.

"FIGHTING Joe" Martin dearly loves a fight. His rather prominent nose scents trouble from afar. Not satisfied with keeping his colleagues and half Vancouver in hot water over Deadman Island, he was affected by the aroma arising from the contest between Columbia and Grand Forks. Fighting "Joe" saw visions of a glorious time so he left Deadman Island and Ludgate and his dear friend Carter-Cotton and came to Columbia. The attorney-general wanted no better sport than besting the citizens of the lower town. Grand Forksites were so elated at the seizure of the furniture in the Columbia hotel that they went up in a body to take the hotel away or at least as much of it as could conveniently moved. But Peter McCallum's scotch blood was up and fortified with his brand new commission from the Semlin government he did his duty as a justice of the peace and a loyal citizen by reading the Riot Act for the benefit of the mob from Grand Forks. Then Chas. Hay, mayor, appeared upon the scene and informed the intruders that he was running the town and that they would be shot down a la mill men Deadman Island, unless they went down to their own frog pond. The bold front of the Columbians rather disconcerted the people from Grand Forks. They returned to their homes and were preparing another invasion when they were simply terror stricken by the appearance of fighting Joe. He sized up the situation in no time and decided that there would be more fun coming to him if he allied himself with the Columbians. So Joe took charge of forces in the upper town. He gives no quarter and asks for none. He is now carrying the scalps of one or two Grand Forks people on his belt and more will follow. It is stated that J. K. Johnson, the police magistrate will lose his commission and several arrests will be made.

It is unfortunate that the people of Greenwood are such law abiding citizens. We are too quiet for Joe and consequently he does not travel this way.

## LESSONS FROM THE FIRE.

LAST Sunday morning's fire should prove a blessing in disguise. Everyone sympathizes with those who lost heavily but at the same time the people should learn the lessons that the experience has taught. The Volunteer Fire department did good work. The boys did not shirk their duty and to them must be given the credit for preventing the fire from spreading. While the fire department is entitled to every encomium it would be foolishness to lose sight of the fact that the department as at present constituted and the apparatus at its disposal are both inadequate to meet the conditions in the city. We are strongly opposed to running a fire department on a cheap John system. In the city there is over $2,000,000 worth of property with absolutely no protection save that furnished by a few men who have volunteered their services. The public interests demands that the business interests of the city should have more protection. The fire department should be under the control of an experienced fire chief, paid to give his time and attention to the work of training the men and keeping the apparatus in shape. Such an officer is a necessity. Then more apparatus should be purchased for the department. Another 1000 feet of hose should be secured, so that more than one stream can be used on a burning building.

The city council should erect a fire hall at the very earliest possible date. Some of the men should sleep in the hall. This is important. Sunday morning the members of the volunteer department were at their homes and the first to reach the carts were those who did not know the position of the hydrant or wrenches. The result was delay in turning on the water.

Residents and business men should exercise greater care in connection with their premises. Shavings, paper, etc., are left in the most convenient places to be ignited by a match, a burning cigar or cigarette. A little more care exercised would lessen the chance of a fire starting.

## THE WEST FORK ROAD.

ALTHOUGH good progress has been made on the construction of the West Fork road, and the money subscribed by the citizens of Greenwood has been judiciously spent, it is found that the funds available are not sufficient to make as good a road as the importance of the district that is to be brought into close contact with Greenwood demands. There is nothing that will promote the interests of a city more than to make a rich mining district tributary to it. The trade of the West Fork country is well worth getting. The surest way to secure the trade is by making it convenient for prospectors and others to reach the district from the city. The West Fork road ought to be built out of the public funds. But as time is an important factor in connection with its construction, the citizens of Greenwood subscribed liberally in order to secure the necessary money. More funds are needed, and it is hoped that those who have not subscribed will do so in order that another rich mining district may be made tributary to Greenwood.

## A BOARD OF TRADE.

It is useless attempting to carry on the business of a large city unless the citizens appreciate their public duties and take an active interest in all public matter that have a tendency to promote the city's best interests. The recent meeting of the Mining and Commercial association at which important matters were discussed, was but slimly attended. Greenwood is the only city of any importance in the province without a Board of Trade. A committee has been appointed to take active steps towards the organization of a Board. The success of the committee must necessarily depend upon the interest taken by the business men. Twenty active aggressive business men, pushing Greenwood to the front and keeping her there and losing no opportunity to promote her best interests can incalculably benefit the city. The twenty men—yes one hundred men—are available. All that is required is organization and a keener appreciation of the duties of a loyal citizen.

## COMPLETION OF THE RAILWAY.

The contractors of the Columbia & Western Railway are not now so sanguine about completing the railway to Greenwood by September 1 as they were a few weeks ago. The work is being delayed by heavy slides in the MacRae Pass, and it is probable that it will be October 1 before an engine is seen in Greenwood. The contractors are just as anxious as the people about having the road completed at the time just stated. It is scarcely possible, on account of the delays, that they will be successful in completing the contract by September 1.

THE STING of defeat has been softened for more than one Conservative leader by fortunate mining investments in British Columbia. Among them is Rufus Pope, M.P. He is a keen politician, but he can take a lot of satisfaction out of the fact that his investin Boundary Creek have turned out well. A good big bank account has ever greater attractions than success in political life.

SIR CHARLES HIBBERT TUPPER filled several pages of Hansard with the ressurrection of the Judge Spinks investigation: Sir Hibbert was sat upon at the end of his long-worded address. His loquacity cost the country upwards of $2,000, as it costs money to waste the time of parliament.

IT IS HOPED that every business man will take a keen interest in decorating his premises for the celebration.

GREENWOOD is going to have the biggest celebration in the Boundary Creek country.

# A SERIOUS FIRE.

## TWO HOTELS CONSUMED

**The Clarendon and International Completely Destroyed.—Luckenbel's Assay Office also Consumed.—The Whole City had a Narrow Escape.—Good Work by the Volunteer Fire Department.**

A fire which seriously threatened the total destruction of the business portion of the city started underneath the Clarenden hotel building at an early hour on Sunday morning. Night Watchman McKenzie turned in the alarm at 2:30 o'clock. At that time the fire was working along the walls of the building and shortly afterwards they broke out and the entire building was a mass of flames. The volunteer fire department assisted by others were soon on the ground. A line of hose was run from the hydrant above Government street and a stream of water was kept continuously on the flames. The fire had too much headway however and was only stopped by the vacant lot between the International and the Arlington hotel. Between the International hotel and the Clarendon was a small frame building owned by W. M. Miller and used as an assay office by J. C. Luckenbel. It was soon a mass of flames and served as a connecting link between the Clarendon and the International. An alarm was raised that dynamite was stored in the assay office and the large crowd soon moved back to a safe distance. The alarm was groundless as no powder was stored in the assay office. The Clarendon building burned quickly and the firemen turned their attention to saving the International but with one stream of water this was impossible. The suggestion was offered that the International hotel building should be blown up with a view to keeping the fire from spreading but the suggestion was not adopted.

By the time the International was burning, the street had become blocked with people. There was an anxious look on most of the faces because it was felt that the vacant lot between the International and the Arlington would not stop the progress of the flames. Had the Arlington caught the business portion of the town was doomed. From the Arlington to Greenwood street, there is no vacent space save where the Guess building is being erected. Merchants were busy removing goods from their stores, feeling certain that the flames could not be checked. To show that there was great danger it is only necessary to state that the heat was so great that A. H. Sperry & Co's store, across the street from the Clarendon, caught fire but the hose was temporarily turned on and the blaze was quenched. Wet tents kept on the roof prevented this building catching a second time.

The volunteer fire department did good work on the International building. They persistently fought the flames. They were handicapped by having only one stream but this they used with good effect on the side of the building nearest the Arlington. This side of the building is still standing—strong evidence of the merits of a good force of water well applied.

The origin of the fire is a matter of doubt. The Clarendon Cafe had been closed at eleven o'clock Saturday night and there was no fire in the range. The fire started underneath the building. It may possibly have been the work of an incendiary. The losses are heavy. E. Escalet, the caterer, is probably the heaviest loser. He had built up a large business, and was getting well established when everything was wiped out. He and his family had barely time to escape with their lives, and lost all their personal effects. Escalet's loss in connection with the cafe is about $2,500, and he carried no insurance. The Clarendon Hotel company, at the head of which is D. W. Morgan of Rossland, are also heavy losers. They had the place elaborately fitted up, and carried a large stock of the very best liquors and cigars. The day before the fire a carload of supplies arrived, and was stored in the building only to be consumed. Their loss is about $7,000. They carried only $2,500 insurance with the Imperial company—Porter & Cunningham, agents. The Clarendon building was owned by T. Walsh. It was built this year at a cost of $4,000, and was insured for $2,000 with the Imperial company. Wm. Miller had no insurance on his building, which was worth about $300. J. C. Luckenbel's loss is about $600. His insurance was $250 with the National Insurance company of Ireland—Mowat & Palmer, agents. The International Hotel building and the furniture was owned by Louis Bosshart. The hotel was one of the oldest in the city. It cost more than it could be replaced for today. The building was insured for $4,000, the Phœnix of London—Bealey Investment company, agents—holding $2,000 and the Imperial company $2,000. O. F. Mickle, the lessee of the hotel, carried $2,000 insurance on his stock. Sperry's loss is about $150, covered by insurance. D. W. Morgan arrived in the city on Thursday. He takes his loss philosophically, and states that he will start again as soon as suitable premises can be secured. Escalet will also begin business again. Guests in the hotels were also losers. Harry Needham, who was away to Vancouver, had a room at the Clarendon, and his clothes were destroyed. Other guests also lost some personal effects.

W. Clark, of Butte, returned from a trip to the West Fork on Wednesday, only to find that all his clothing, jewelry, and papers had been destroyed by the fire. He had a room in the Clarendon Hotel. His loss amounts to several hundred dollars. Insurance adjusters are expected in the city shortly to make arrangements for the payment of the amounts to which the losers are entitled. The fire was not without its amusing incidents. Many of the spectators looked exceedingly picturesque in their hastily-donned garments. The efforts to save household effects were sometimes ludicrous in the extreme. Bedclothes and other apparel were carefully carried down the stairs, while the beds, crockery, and glassware were thrown through the windows, to be broken on the street below. Some of the firemen narrowly escaped injury. They were standing on the International Hotel veranda when it gave way. Fortunately they escaped without serious injury. Thos. Walsh lost all his papers and personal effects. A gold watch belonging to Mr. Walsh was afterwards found in the ruins. There was scarcely any of it left save the hands. They pointed to ten minutes to three o'clock. The ruins of the watch have been secured by D. W. Morgan as a memento of the fire.

### DEATH OF W. T. THOMPSON.

**A Well-known Business Man Suddenly Dies at Beaver Creek.**

W. T. Thompson, of Midway, died suddenly at Beaver Creek on Friday last. The deceased and Mrs. Thompson left Midway for Beaverton on Thursday. They camped near Rock Creek on Thursday evening, and on Friday morning proceeded towards Beaverton. Shortly before reaching there Mr. Thompson became suddenly ill, and could not proceed further. Mrs. Thompson went on to Beaverton for assistance. Mr. Currie went down the trail, and found Mr. Thompson unconscious. He soon passed away. It was impossible to bring the remains out over the trail, so they were interred at Beaverton. Mr. Thompson was well known throughout the district. He was in business at Rock Creek and Fairview. During the last few years he has been living at Midway. He was interested in the new townsite of Beaverton, in the West Fork of the Kettle River district. The deceased had been seriously ill during the winter months with pneumonia. He never fully recovered, and the trip was taken to the West Fork country with the hope that the change might be beneficial. He leaves a wife, but no family.

A. L. McEwen came in from the Similkameen country on Sunday. Mr. McEwen left Col. Ray at Keremeos. He left on Sunday for Rossland, but expects to return to the Similkameen district in a few days. Mr. McEwen was pleased with the mining prospects of the Similkameen, but had not sufficient time to make a thorough examination. He expects to spend several weeks in the district.

THE CELLAR . . .

SINKS, Garbage Boxes and Cesspools need attention now. Sometimes sickness in the summer months is due to lack of disinfectants. Be on the safe side—use CREOLIN now.

CREOLIN is a prompt, reliable and safe disinfectant. It is not poisonous, and that is one of the reasons why it is in such demand. Death through carbolic acid is frequent.

IN addition to its use as a general disinfectant, Creolin is an agreeable deodorizer for the sick room, an effective home remedy for burns, cuts and other harts; and a useful application in treating skin blemishes and parasitic diseases of animals.

THREE table spoonfuls of Creolin mixed with a gallon of water makes a good disinfectant

# WE CAN CONVINCE YOU

THAT

# THE TOWN OF RENDELL

.....OFFERS A SAFE, SURE AND RELIABLE SPECULATION.....

There is no surer thing on earth than that Rendell is located in the most natural position to command the trade of the rich mining section of the West Fork country. Located at the confluence of Beaver Creek and West Fork of Kettle river at the Junction of the two railways and main line of the C. P. R. nothing can change its natural location. **TO THE MANY BUYERS** Eager to get in on the ground floor of Rendell we beg to say lots will be on the market as soon as the survey is completed. We prefer to complete the survey in preference to selling paper lots. In the meantime don't be decoyed.

SMAILES & BELL.

## VOLCANIC ACTIONS STOPPED.

**R. A. Brown Has Secured Full Control Of All His Properties.**

"Volcanic" (R. A.) Brown, of Grand Forks, is in the city. He has been attending court at Nelson, where suits were pending involving some of his valuable mineral property. Some years ago Mr. Brown conveyed the celebrated Volcanic claim to the Olive Mining company, having a capital of $20,000,000. Notwithstanding that it had millions of shares in the treasury, it got into debt, and not having the cash to liquidate the same it closed down, and the property was seized under executions and the Volcanic sold last fall. Everybody thought that Mr. Brown would lose the property, most of which he had acquired 10 years ago. Mr. Brown, however, was on the watch, and discovering that the assessment work recorded last year was wholly inadequate, he had the claims relocated, and acquired them from the new locators, and promptly applied for certificates of improvements. No less than eight locations were entered to contest his rights. Most of the parties were present this week at Nelson, and on the eve of trial a settlement was made whereby Mr. Brown becomes the owner of all three properties, and the other parties will receive a portion of their claims against the company. Mr. Brown feels quite elated over the matter, and is well satisfied with the terms of settlement. Attorney-General Martin and Smith Curtis acted for Mr. Brown.

He proposes as soon as he gets his certificates of improvements to begin work on the Volcanic and Iron Cap. The ore body on these is from 400 to 1,000 feet wide, running to the top of the Volcanic, which is elevated 1,500 feet above the river. The ore body is decomposed iron and oxides on the surface, and is so large that it can easily be seen from points of vantage 10 miles away. About $25,000 has been spent in development. There is a tunnel in 481 feet, giving a depth of about 700 feet, and the breast of it is supposed now to be near the ore body. It will further on give a depth of about 1,200 feet. The people of Grand Forks look forward to the opening up of the immense ore bodies of these claims as a big advertisement for their city and district. The ore on the surface is low grade, assaying in gold and copper from $5 to $12, but it is confidently believed that exploration will demonstrate rich ore chutes. Assays as high as $82 in gold and 12 per cent copper have been got from select samples. The adjoining Golden Eagle company, whose vein is said to run towards the Volcanic is now showing plenty of high grade ore, with averages of $50 and $60.

The Volcanic has an iron cap from 200 to 500 feet wide, with assays up to $10 in gold and 12 per cent copper. A shaft 40 feet deep has been sunk, showing considerable ore all the way and an improvement as depth is gained.

Mr. Brown expects before the snow flies to have large forces at work on all his properties.—Rossland Miner.

## NEW YORK INTERESTED.

Wall-street capitalists are at last waking up to the great mineral wealth of Canada. Messrs. M. Guggenheim's Sons have just incorporated the Guggenheim Exploration company, for the purpose of mining in British Columbia and Colorado. The capital of the organization is $6,000,000, divided into 60,000 shares of $100 each, and the stock has been taken up by New York capitalists.

The New York city press has also become aware of the existence of mineral wealth in Canada's western province. The New York Commercial of the 7th inst printed the following:—

"C. D. Porter, orebuyer for the Kansas City Smelting & Refining company, Washington, who is on a visit to this city, says that British Columbia is the greatest mining country known today. A few years ago he could have bought mines at Rossland, which are now selling at $2,000,000, and others that he could have bought for $700,000 or $800,000 are now selling for $4,000,000 or $5,000,000 and are paying handsome profits, and will continue to do so at these prices for years to come. West of Rossland, in the Boundary Creek district, he believes there is the greatest copper district in America. The ledges are immense, and the ore is self-fluxing, the formation being such that they will go to unlimited depths.

"When the Crow's Nest Pass road reaches this country, and the leading mines—owned by the British Columbia Copper Company, Limited, and McKenzie & Mann—get their smelters erected, they will have what might be called a regular manufacturing business, the output of which will exceed the Rand of South Africa. English capital is just waking up to the fact that British Columbia has the greatest mineral country known. In the last six months $10,000,000 has been invested in this northern country. Mr. Porter believes that the opening of the Crow's Nest Pass railroad, which passes through an immense deposit of coal, will give the mines coke at so low a cost that the ores can be treated at a nominal figure. All the mines, both in Rossland and Boundary Creek, have shown steady improvement as they acquired depth. The Le Roi mine of Rossland, which is now down 900 feet, has the largest and highest grade ore body yet explored. In the Boundary Creek district the Mother Lode, which is owned by the British Columbia Copper Company, Limited, has the deepest workings, and has shown steady improvement. He believes, however, that the Boundary Creek country has much larger bodies of ore, and carries a higher grade of copper than the Rossland mines."

# THE JEWEL MINE

## WELL-DEVELOPED PROPERTY

**Containing Veins of Exceptionally High Values. Arrangements Being Made for the Installation of a Cyanide Plant—An Expert's Opinion of the Property.**

Among the properties in the Boundary creek upon which a large amount of work has been done during the last few months is the Jewel mine in Long Lake camp. The Jewel is one of the oldest locations in the district. It is situated in Long Lake camp near the lake and within eight miles of Greenwood. A good wagon road connects the property with the city. The Jewel was bonded by Mr. Leslie Hill, M. E., for the Prospecting Syndicate of B. C. A considerable amount of work was carried out on the property and the first steam plant ever brought to the district was installed thereon. Mr. Hill's other engagements prevented his giving the necessary time to the development of the property so he mapped out the plan of development and the mine was placed in charge of Mr. Gilbert Mahon. In the meantime another company was organized in London, to confine its attention to the development of the Jewel mine. This company is registered as the Jewel Development syndicate. Mr. Mahon took charge of the property in November last year and since then 520 feet has been added to the work of the property. There is now over 1000 feet of underground work.

The Jewel ledge occurs in a granit formation. It is in some places altered and cut by dykes having a distinctly porphyritic structure. About 20 feet north of the south line of the claim the formation is considerably disturbed for a distance of about 200 feet and the ledge has not been exposed by the surface work in this area. North of the Jewel on the Enterprise the ledge has been uncovered in several places. It is similar in many respects to the Jewel ledge but it differs slightly in dip and strike. In all probability it is the Jewel ledge and as depth is attained it will probably be found that the variations are local. The ledge is a regular fissure vein, averaging four feet in width, carrying a thin clay gangue. The ore carries quantities of galena, zinc blende, iron pyrities and occasionally ruby silver, tellurium, and tellurides of gold and silver and some free gold.

The main shaft is 7x3½ in the clear. It is well timbered and lagged. The shaft is 248 feet in depth and runs on an incline of 45 degrees. The development work includes 600 feet of drifts and crosscuts and 160 feet of raises and winzes. This work has thoroughly exposed the vein and blocked out the ore to the depth of the shaft and for more than 100 feet on each side. There is 500 tons of ore on the dump and a conservative estimate of the ore blocked out and in sight would be 11,000 tons. Exceedingly high assays have been secured. The mine has been throughly sampled and a careful record kept of the values at all points. The average for the entire mine is $13.36 in gold and silver. Experts who have examined the property state that the ore can be mined and treated by the cyanide process for $5 a ton leaving $8 a ton profit.

The company intend installing a 50 ton cyanide plant at Long Lake at an early date. The distance from the present shaft to the mill site is about 2000 feet. It is the intention of the company to sink another shaft at the upper end of the property, run a gravity tramway from the shaft to the mill a distance of 400 feet.

Mr. D. J. McDonald until recently superintendent of the Columbia & Kootenay spent several days at the Jewel last week. He made a thorough examination, sampled the ore in all the workings and made recommendations regarding future development. The statements given above are fully corroborated by Mr. McDonald's report.

Goupil & Holden, signwriters, painters, paperhangers, etc., etc., etc.

The Canadian Pacific inaugurated its fast train service from Montreal to Vancouver, and also a daily service on the Crow's Nest Railway, on the 18th of June. The train on the main line covers the distance between Montreal and Vancouver (2,906 miles) in 100 hours. In order that there may be only a few stops on the part of the through, or Imperial, train there will be local trains in the more thickly populated sections through which the main line is constructed.

CERTIFICATE OF THE REGISTRATION

— OF AN —

Extra - Provincial Company

"COMPANIES ACT, 1897."

"Waterloo No. 2 Gold Mining Company."

REGISTERED THE 11TH DAY OF APRIL, A.D. 1899

I HEREBY CERTIFY that I have this day registered the "Waterloo No. 2 Gold Mining Company" as an Extra-Provincial Company under the "Companies Act 1897" to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the city of Spokane, State of Washington.

The amount of the capital of the company is $50,000, divided into 1,000,000 shares of five cents each.

The head office of the company in this Province is situate at Greenwood, and D. C. Cameron, cashier, Canadian Bank of Commerce, whose address is Greenwood aforesaid, is the attorney for the company.

The time of the existence of the company is 50 years.

The object for which the company has been established are:

To work, operate, buy, sell, lease, locate, acquire, procure, hold and deal in generally mines, metals, mineral claims of every kind and description within the United States of America and British Columbia; to carry on and conduct a general *mining, smelting, milling*, and reduction business; to purchase, acquire, hold, erect, and operate electric light and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to buy, bond, lease, locate, and hold ditches, flumes, and water rights; to construct, lease, buy, sell, and operate railroads, ferries, tramways, or other means of transporation, for transporting ore, mining and other materials: to own, bond, buy, sell, lease, locate timber and timber claims; to do and conduct a general mercantile business; and finally to do anything consistent, proper, and requisite for the carrying out of the objects and purposes aforesaid in their fullest and broadest sense, within the territory aforesaid.

Given under my hand and Seal of Office at Victoria, Province of British Columbia, this eleventh day of April, one thousand eight hundred and ninety-nine.

[L.S.] S. Y. WOOTTON,
17-5 Registrar of Joint Stock Companies.

NOTICE.

NOTICE is hereby given that the undersigned intends to apply to the board of license commissioners of the City of Greenwood, at their next sitting, for a license to sell liquor by retail on the premises to be known as the B. C. Hotel, situate on lots 8 and 9 in block 16, in said City of Greenwood.
JOHN KEOUGH.
Greenwood, B. C., May 11th, 1899. 13-5

NOTICE

NOTIE is hereby given that the undersigned intends to apply to the board of license commissioners of the City of Greenwood, at their next sitting, 30 days after the date hereof, for a license to sell liquor by retail on the premises to be known as the Gambrinus hotel, situate on lots 15 and 16, in block 11, Silver street, in the City of Greenwood.
LOUIS FORSCHNER.
Dated 11th April, 1899. 12-4

NOTICE.

NOTICE is hereby given that the undersigned intends to apply to the board of license commissioners of the City of Greenwood at their next sitting, for a license to sell liquor by retail in the hotel building now being erected by me on lots 9, 10, 11 and 12 in block4, at the corner of Government and Deadwood streets in said City of Greenwood. Known as the Leland House.
J. W. POWELL.
Greenwood, B. C. May 11th, 1899. 14-5

NOTICE.

IS hereby given that I will apply to the Board of License Commissioners for the City of Greenwood at their next sitting, held after the expiration of thirty days from date of this notice, for a license to sell by retail spirituous and fermented liquors on the premises known as the "Queen's Hotel," situate on Lot 5, Block 14, Copper street, in the said City of Greenwood
DAVID MANCHESTER.
Dated the 4th day of March, 1899.

NOTICE.

NOTICE is hereby given that I will on Wednesday the 8th day of March next present, apply to the Board of License Commissioners for the City of Greenwood for a license to sell by retail spirituous and fermented liquors on the premises to be known as the "Miner's Hotel" situate on Lots 3 and 4, Block 5, Copper street, in the said City of Greenwood.
WALTER WATERLAND.
Dated the 8th day of February, 1899.

NOTICE.

TAKE NOTICE that, sixty days from the date hereof, I, Otto Dillier, intend to apply to the chief commissioner of lands and works for the following described tract of land, viz.: Commencing at the north east corner of the Twin Mineral claim in Skylark camp, Kettle Kiver Mining division of Yale district, B. C., thence running 20 chains east, thence 20 chains north, thence 20 chains east, thence 40 chains south, thence 40 chains west, thence 20 chains north to the point of commencement.
OTTO DILLIER.
Dated at Greenwood City, April 10, 1899. 12-4

APPLICATION FOR LIQUOR LICENSE.

NOTICE is hereby given, that the undersigned intend to apply to the Board of License Commissioners of the City of Greenwood, at their next sitting, for a license to sell liquor by retail on the premises known as the Alberta Hotel, situate on lot 4, block 12, Silver street, in the City of Greenwood, B.C.

Dated this 29th day of April, 1899.
J. D. RENEAULT.
my3 CHARLES GAUVREAU.

NOTICE.

NOTICE is hereby given that I intend to apply to the board of licence commissioners of the City of Greenwood at their first meeting after the expiration of thirty days, for a license to sell liquor by retail on the premises known as the Log Cabin Road House, situate on Government street, near the city limits.
J. J. MILLER.

TAKE NOTICE that I, Isaac H. Hallett, as agent for the Combination Mining and Milling company (foreign), free miner's certificate No. 14354 A, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements for the purpose of obtaining a crown grant to the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 12th day of April, 1899. 19-4

# RENDELL & CO., GREENWOOD

## GREENWOOD AND DISTRICT.

P. Walsh has returned from Spokane.

Louis Bosshart has returned from Spokane.

Evelyn Smith left on Thursday for Vancouver.

Rev. R. H. Balderston will preach in Rendell's hall on Sunday morning at 11 o'clock.

A. M. Whiteside, the well-known barrister, left for New Westminster and the coast on Tuesday last.

R. M. McEntire has returned from Spokane, accompanied by Mrs. McEntire and family, who will spend the summer here.

R. J. Bealey, of the Bealey Investment and Trust company, has returned to the city after spending several weeks in Denver.

J. D. Craig, a graduate of Queen's university, Kingston, has arrived in the city and will spend the summer with Guess Bros., assayers.

M. E. Miller is away on a business trip to Spokane and Walla Walla. During his absence he will purchase the material for the grand pyrotechnical display the evening of July 4th.

The sitting of the board of license commissioners was further adjourned on Wednesday owing to the absence of Ald. Sutherland in Spokane. The meeting will be held on Monday next.

J. G. Sullivan assistant to Chief Engineer Tye passed through Greenwood last week en route to Penticton where he will meet Mr. Odell's who has charge of a survey party in that vicinity.

The fire department was kept busy on Sunday last. A second fire started in a house across the creek. An alarm was turned in but before the department reached the building the fire was put out after destroying lace curtains and bedroom furniture.

R. Roberts, the well-known mining engineer, was in from Rossland the other day.

E. W. Matthews, representing R. G. Dunn & Co's mercantile agency, was in the city this week.

M. Oppenheimer of Spokane representing the Travellers Assurance Company is spending some time in the district. He is a cousin of Dr. Oppenheimer of this city.

E. Bullock-Webster, J. P., of Keremeos was in the city last week en route to Toronto where he expects to sell some Similkameen mining properties controlled by him.

W. L. Bowen and a party of surveyors were in Midway the other day, after having completed the preliminary survey for a railway between Republic and the International boundary line. Judging from the activity displayed by the Great Northern people in connectwith this route, it is quite probable that they are deterimined to tap the Boundary creek district at an early date.

Thos. Wilson a member of the provincial board of Horticulture was in the city this week. He is making a tour of inspection in the Southern portion of Yale. Mr. Wilson spent several days on Grand Prairie. He was manager of Lord Aberdeen's fruit ranch for several years and is considered to be one of the best authorities on fruit growing in the province.

Hector McRae, Rossland, and L. W. Harris and A. E. Baker, London, were in the city for several days last week. Messrs. Baker and Harris are members of the syndicate which acquired control of the Boundary Creek Mining and Milling company's properties. In company with J. E. Leckie they went over the properties and were well satisfied with the showing. The syndicate have decided to begin continuous development immediately.

J. W. Stewart, manager for Mann, Foley Bros. & Larsen, came over the road this week.

Dr. Dalton, the medical superintendent for Mann, Foley Bros., & Larsen, was in the city this week.

F. C. Bailey of Spokane is working two properties in Providence camp. Mr. Bailey is accompanied by Mrs. Baily. They will spend the greater part of the summer in the district.

Rev. Mr. Dunn arrived in Greenwood on Friday to take charge of the Presbyterian congregation here. Mr. Dunn was stationed at Fernie for several months.

R. W. Deans has opened a mining office in the West Fork district. He will do general notarial work, and furnish abstracts of mining records for that section.

Harry Nash, of Phœnix, appeared before James Kerr, J. P., for stealing lumber from J. Moran. The trial arose because of a dispute between the parties, and after hearing the evidence, the magistrate dismissed the case.

James Hunter, president, and C. S. Slawson, vice-president, of the Hunter-Kendrick company, were in the city for several days this week. They are well satisfied with the business transacted by their company in Greenwood.

S. A. Easton, superintendent of the Summit-Republic mine, Republic camp has been appointend superintendent of the Gold Drop mine in Greenwood camp. Mr. Easton will divide his time between the two properties.

W. S. Deacon of the legal firm of McNeill & Deacon, Rossland was in the city this week. He is representing Mr. Bradshaw in the civil action for damages against W. J. Porter. J. R. Brown has been appointed a commissioner to take evidence of witnesses here. Mr. Porter was examined before Mr. Brown on Thursday. H. C. Shaw represents Mr. Porter in the suit.

## THE CELEBRATION.

### Everything Points to a Most Successful Carnival of Sports.

The residents of Greenwood and the many visitors who are expected will get all that is coming to them in the shape of enjoyment during the two days' celebration to be held in Greenwood on July 3rd and 4th. The committee have succeeded in perfecting such arrangements as will insure a successful carnival of sports.

There are at least three local teams in training for the big drilling contest. The veterans will be there and as they are all determined to win, the keenest contest ever witnessed in the district may be expected.

Leckie's racer "55" is in the city and will be worked on the track until the day of the races. Other well known horses are expected. There will be several entries from the gentlemen owning horses in the city. The novelty races are also attracting attention and are sure to afford plenty of enjoyment.

Tell it not in Gath, proclaim it not in the streets of Askelon. Manager Keith had his invincible nine on the field one day last week. They were practicing when a stranger on the grand stand stated that he could pick up a team from the spectators that could beat the Greenwood nine. The challenge was accepted. The scrub team won. The result was an eye opener and since then the baseball enthusiasts have been actively engaged in getting their team into better shape.

The lacrosse boys are practising daily and will be able to give a good account of themselves.

The decoration committee are securing large quantities of flags and buntings. They ask the co-operation of all the people. With an organized effort they hope to give the city a perfect holiday appearance.

We are sorry to learn that there wil be no cricket match in Greenwood on Dominion Day. It was proposed to make a pitch in the centre of the base ball ground and cover it with cocoanut matting, but the idea has fallen through on account of the inability of the Midway club to get together a team to play the Greenwood eleven. It is a matter of much regret that an oppertunity for the people of Greenwood to see the king of games will not be afforded. Could the idea have been carried out the celebration would have been complete in all branches.
