BOUNDARY CREEK TIMES

A Weekly Paper published in the interests ot the Boundary Creek Mining District.

Vol. II. GREENWOOD CITY, B.C., SATURDAY, MARCH 29, 1897. No. 3.

TOPICS FOR THE WEEK.

TORONTO, apparently, is the mining brokers' Mecca, and probably more wild-cat schemes are successfully floated there than in any other Canadian city. The columns of the local daily papers are well crammed with advertisements of an alluring and seductive nature, by which the gullible small investor is led into spending his meagre savings in the purchase of what, in the majority of instances, proves to be absolutely worthless mining stock. One Toronto newspaper has hit on the novel plan of increasing its circulation by an offer of 30 mining shares to be presented to each subscriber on payment of $3.00, which includes a subscription for a year to the journal in question.

❋ ❋ ❋

The Gold Hills Exploration & Development Co., of Toronto, has been recently incorporated with a proposed capital stock of $2,000,000. Hon. J. D. Edgar, Q.C., speaker of the House of Commons of Canada, heads the list of provisional directors, and an Acting Premier of a province has also lent his name to the scheme. From this one learns that the practice of a man using the influence of his official position to further a private enterprise, is not alone peculiar to B.C. However, the company's advertisement which, it is needless to say, appears in a Toronto newspaper, after assuring the investor that he is promised no enormous dividends [good point this], still the probability of large returns compared with the possibility of only a small loss at the worst, must commend the company's plan to him, goes on to say that "the management has SECURED the following interests in British Columbia and Ontario :"

1.—Options on three promising locations near Rossland.

2.—Two locations in Rainy River district, one of which will be examined minutely in the spring, whilst the other is under negotiation.

3.—Two properties in the wonderful Slocan (silver) District, one in the Whitewater Basin, being under option held by us, the other in which an interest is being negotiated for at present.

4.—Locations in Jackfish Bay, having an area of about 500 acres, which will be carefully examined by our experts with a view to purchase.

5.—A location in Boundary Creek district, which is well mineralized and which will be reported on early in spring. In the event of good reports, work thereon will be pushed rapidly, and if thought advisable by the management purchase will be proceeded with ; besides several other partially developed properties in the Lake of the Woods, Trail Creek, Slocan and Boundary districts are receiving our attention.

There is a slight "ambiguity" about No. 2,—possibly the company actually own one of the two locations in the Rainy River district. If not, then the company's plan, which will commend itself to anyone, is to take up certain options with money obtained from the sale of "a limited number of shares now offered to the public at 10c. per share in blocks of not less than 100 shares." This may be perfectly legitimate enterprise, but to the ordinary man it seems to be a sort of "heads I win, tails you lose" speculation for the promoters.

❋ ❋ ❋

A resident of Greenwood who recently returned from the Coast states that little or nothing is heard of the Boundary Creek district among those who in the Coast cities are taking an active interest in the mineral resources of the various parts of the province. Whilst it may be that the gentleman responsible for the statement was not fully informed upon this subject, the fact that in the circles in which he moved this section, with its extensive area of mineral country and the great possibilites suggested by the numerous and important discoveries already made, there was no mention made of Boundary, indicates the necessity for continued judicious and persistent effort to disseminate information relative to the discoveries already made and the wide field still unexplored and awaiting the attention of prospectors. Much has doubtless already been done, and is still being done, but whilst so many sections of the province are claiming the attention of the prospector and investor, it is imperative that every legitimate means to advertise the Boundary Creek district, big with promise as it certainly is, be taken advantage of. An instance of the importance of keeping the claims of the district well before the public has just come under our notice. Some Texas men, attracted by newspaper references to the Rossland mines, left their distant home for the Kootenay, but upon reaching Spokane they were informed of the inducements offered by this section, so they decided to come here instead of carrying out their original intention. A result will be that others from that quarter will now be informed of the many chances of success obtaining here. This may be only a very small gain, but it is one drop in the river of increase which is desired by all who have the best interests of the district at heart. So, notwithstanding that much has been already done, there must be effort renewed again and again —not boom methods with their inevitable reaction of disappointment and disaster, but the broadcast dissemination of plain unvarnised facts, which are of themselves ample to convince all unprejudiced enquirers that there does indeed appear to be a big and prosperous future before the Boundary Creek district, in which Greenwood will ere long be a large and important centre.

❋ ❋ ❋

The following clipping from the Spokane Chronicle goes to show that Heinze's Columbia & Western project has not altogether fallen into "innocuous desuetude :"

A mortgage for $1,500,000 has been filed in the county auditor's office at Butte on all the property of the Montana Ore Purchasing Co., including its smelters, claims, leases, etc., in favor of Richard Lacy, of New York. The Montana Ore Purchasing Co. is practically owned by F. Aug. Heinze and his brother, A. P. Heinze. The mortgage was authorised at a meeting of the company held at its New York office on March 8th. The filing of this mortgage undoubtedly has a great significance regarding Mr. Heinze's future in British Columbia. Last winter when he failed to raise the money in England for the extension of his Columbia & Western railroad, Mr. Heinze announced confidently that the road would be built just the same. A few days ago he again announced that he would commence building his road from Robson to Penticton as soon as the weather became settled. From the fact that he has just mortgaged his Butte property for the enormous sum of $1,500,000, it may safely be gathered that Heinze intends to put up the money himself. If this latter surmise be true it certainly shows a wonderful faith on the part of Mr. Heinze in the future development of British Columbia.

❋ ❋ ❋

Rather undue importance was attached in certain quarters to the results obtained from a test made some weeks ago with the object of determining whether or not the low-grade ore from the Le Roi mine at Rossland would give profitable returns from milling and concentrating treatment. In this test only 10½ tons were treated ; and taking into consideration that the ore was of low grade and the well-established fact that plates long in use themselves carry values, the result of this experiment cannot be regarded as conclusive. We are glad to note that a second test has been carried out —this time of 50 tons of ore, an adequate quantity to demonstrate the question ; and although no detailed information concerning the results has been received, we are told "the showing is remarkably good and far ahead of the first." If this statement is correct it means a great deal, not only to Rossland but to Boundary, and large quantities of ore in both camps, similar to that treated, will become commercially valuable which otherwise would not have been the case. Mining itself, too, will in many cases be less expensive when there is comparatively little waste rock tohandle.

Freighting from Penticton.

Word has been received that Mr. J. M. Bassett intends to put five four-horse teams on the Penticton road at once, and possibly ten teams later on in the year. The charge for freighting from Okanagan Falls to Greenwood will be 1½c. per pound the year round.

Colorado Prospectors Bound for Boundary.

Among the arrivals on Sunday's stage was Mr. C. A. Sivingo, a Mexican mining man, who was induced to visit the district by the enthusiastic reports of the mineral wealth of Boundary which he had heard in his far-off native land. Mr. Sivingo says that a number of Colorado and some Mexican miners intend prospecting here this summer.

Snow on the Greenwood Road.

Mr. S. Martin, engaged by the Boundary Creek Mining & Commercial Association to make the road from Greenwood through Greenwood and Wellington camps passable, completed his work on Saturday last. Teamsters, however, complain that the road is still far from being in good condition. Mr. McKee, leaving Greenwood on Monday with a load of meat for Grand Forks, after completely tiring out one of his horses, only succeeded in reaching the Snowshoe boarding-house before nightfall. On Tuesday Mr. Comstock had the greatest difficulty in driving a light two-horse cutter over the road. Mr. Martin says that the snow was fully six feet deep across the road in places.

A Capable Correspondent.

Mr. E. Jacobs, who for thirteen months (to June, 1896) was the New Westminster representative of the "News-Advertiser" and who thereafter until a few weeks ago, was on the staff of the same newspaper at its head office in Vancouver, arrived in Greenwood on the 20th inst., having come in from the coast via Seattle and Spokane. Mr. Jacobs, having found it necessary for health considerations to give up the night work, a position on a morning paper necessarily involves, decided to seek occupation in one of the provincial mining districts, and after considering the advantages the several mining divisions offer, concluded that the Boundary Creek district is at present a most favorable field for those prepared to await the development of its mineral resources. As Mr. Jacobs had charge of the mining column of the "News-Advertiser," he is familiar with the method of reporting mining intelligence in such a way as to make it readable. Having, too, a reputation for carefulness and being rather inclined to be conservative in his statements, it is to be expected that the news of this section he will, in the capacity of correspondent, send out to several coast, eastern and American newspapers, be both reliable and interesting.

TO ALL WHOM IT MAY CONCERN.

THE undersigned hereby gives notice that he has withdrawn from the general merchanise business carried on under the firm name of Rendell & Co., and has now no interest therein.

Dated at Greenwood, B.C., this 15th day of March, 1897. J. POWELL.

MINING NOTES.

The main shaft on the Marguerite has been put down 32 feet and is now being timbered.

Messrs. Castleman and Smith are doing assessment work on the Alice Maud, in Smith's camp. The claim is looking well.

A fine body of red oxide of iron and copper ore has been exposed by recent surface crosscutting on the Harqua Hala, in Copper camp.

Assays made in Vancouver of ore from the Oro Fino group of claims at Fairview, ran respectively $215.91, $310.80, $355 and $804.90.

The Lalla Rookh, at Christina lake has been purchased by the Gault Mining Company, the price paid, it is reported, running into six figures.

Machinery for the R. Bell has been shipped from Salt Lake and will be installed at the mine directly the new road into Summit camp from the North Fork is built.

The Maple Leaf, in Camp McKinney, was sold last week by Mr. Lynch, through Mr. Geo. B. McAuley, to a Vancouver syndicate, Mr. Lynch realizing $9,000 on the sale.

A correspondent to an English paper from South Africa claims to have established a record in shaft-sinking by drilling through 141 feet of rock in the space of a month. The somewhat trivial detail concerning the hardness of the rock is not stated.

Remarkably fine copper ore, so rich that it is almost malleable, was discovered a short time ago on the Josie, in Summit camp, by the upturning of a tree. The Josie was twice staked as a wild-cat, that is to say without mineral being found in place.

Mr. W. T. Thompson bonded this week a group of claims in Skylark camp, including the Lead King, Salamander and Comstock, from Messrs. Haas, Dillier and Black, for an English syndicate. A substantial sum was paid to the owners in consideration of the bond.

The first allotment of 35,000 Brandon & Golden Crown treasury stock shares at 10c. has been sold, and a second block will shortly be put on the market at an increased price. Mr. A. Kelly, one of the directors of the company, sold 25,000 shares in Brandon, Manitoba, in a few days.

Mr. S. S. Fowler, consulting engineer for the British Canadian Gold Fields syndicate, is negotiating for a number of Boundary Creek properties, through Mr. W. T. Thompson. Mr. Fowler is expected to arrive in the camp in the course of a few days. The British Canadian Gold Fields Co. have already large interests in the district.

One of the best developed prospects in Pass Creek camp is the No. 3, upon which the owners, Messrs. Smith and Estops, have been working since November last. In one place the claim is opened up with two open cuts about 30 feet long and from 8 to 12 feet deep. Here a well defined ledge of decomposed magnetic iron, six feet wide, was struck. Another ledge was also disclosed and found to be four feet wide; the ore, pyrrhotite with copper pyrites, upon comparison resembled very closely specimens from the Rossland Le Roi. The assay value of this ore is very much above the average.

SUBSCRIPTION, $2.00 PER YEAR, IN ADVANCE.

SATURDAY, MARCH 27, 1897.

GREENWOOD NOTES AND GOSSIP.

Mrs. I. A. Dinsmore and Mrs. Wright of Grand Forks, are the guest of Mrs. Hart this week.

School was again closed this week, the number of children on the sick list rendering the step advisable.

Mr. Russell, of Russell & Co., left this week for the East on the firm's business, and will be away about three weeks.

Several patients are being treated at the hospital, suffering from la grippe. One of the latest victims to the malady is Mr. A. Leamy, who was taken ill on Wednesday.

Steady progress is being made by the Oddfellows' lodge in Greenwood, new members being initiated at each meeting. Quite a number of applications are yet on file.

The Greenwood City Mercantile Co. are shipping to San Francisco a large parcel of pelts, chiefly martens'. The skins are in beautiful condition. Most of the animals were trapped at Pass creek.

The wife of Mr. W. W. Lamb died at Vancouver last week. Mr. Lamb, who is a nephew of Mr. Robt. Wood, recently stayed several weeks in Greenwood, and had fully intended to become a permanent resident.

Directly upon Mr. Wood's return from Victoria, the land owned jointly by him and Mr. Sutherland adjoining the original townsite, will be surveyed and lots put on the market,—as suggested by THE TIMES a few weeks ago.

A man by the name of McKague was shot and wounded in the side at Fairview this week by his wife, from whom he had separated. The dispute arose over the insistence of McKague to have the charge of one of the children of the marriage.

Mr. T. Miller, who is at present engaged superintending the work of excavation for the Midway irrigation ditch, met with an accident on Tuesday. Whilst carrying a theodolite his foot slipped and in his endeavor to save the instrument from damage he fell, breaking the little finger of his right hand in the fall. Dr. Jakes attended to the injury and Mr. Miller hopes to soon again have the full use of his hand.

Mr. Robt. Wood is now the sole applicant for the private bill incorporating the Greenwood City Water Works Company, the Vancouver applicants having withdrawn their names. Mr. Wood has written to the private bills committee to say that should Greenwood be incorporated as a municipality within the next few months he will be prepared to turn the water rights and works over to the town at cost.

The building, erstwhile an opera house, but purchased by the proprietors of THE TIMES and used for the last seven months as a printing office, on Government street, was sold on Tuesday at a good figure to Mr. T. A. Garland. THE TIMES will shortly be published from new offices, specially fitted up with conveniences, on Long Lake street, the plans of the building, which is to be two storeys high, having already been drawn and accepted.

Greenwood is being besieged by contractors and builders, several representatives of this trade arriving this week from Rossland alone.

During the past two weeks surveyors have been subdividing the townsite of Nelson, on the Colville reservation into lots. There will in all probability be a big rush to the reservation camps this spring.

The foundation of Mr. Paton's new house on Greenwood street has been already laid. Several carpenters are engaged upon the building which, it is hoped will be ready for occupancy in about three weeks time.

Mr. Ferguson, of Surrey, and a well-known writer and authority on Chinese questions, is visiting Greenwood in the capacity of an investor. Writing under the nom-de-plume of "Fungus," Mr. Ferguson frequently contributes articles to the New Westminster Columbian.

Mr. Robt. Wood having completely recovered his health, left the hospital at Victoria last week and is now on his way home. He is expected to arrive in Greenwood on to-morrow's stage, but may possibly spend a few days with his nephew, Mr. Hugh Wood, at Armstrong before returning.

Mr. Donald Graham, M.P.P. writes to THE TIMES explaining that "the conditions imposed by private acts are that cities shall have power to expropriate water works at any time, by paying a certain bonus for the same; but in case they should instead elect to put in water works themselves, (instead of buying out works already constructed) they have perfect liberty to do so, of course not interfering with the rights of any existing company."

MINING NOTES.

Jim Dale starts work next week on the Combination in Smith's camp.

Mr. Hugh Wood, of Armstrong, has purchased the Climax at Camp McKinney.

Application will be made next week for crown grants to the Jewel and Denero Grande.

The assessment work was completed this week on the Great Hesper, the tunnel being in between thirty and forty feet through well mineralized rock.

The D.A., owned by the Boundary Creek M. & M. Co., continues to improve. The tunnel is now in about 50 feet, and the vein has considerably widened.

Mr. S. Taylor has taken some capital photographs of the steam hoist at work on the Jewel, in Long Lake camp. These views will probably be reproduced in THE TIMES shortly.

Work will be started next week on the Highland Chief, one of the properties of the Highland Chief Consolidated. An attempt was made without success to force a road through the deep snow this week to the Snowdrop with the intention of developing this claim simultaneously with the other.

"Boundary Creek" shares are quoted on the Spokane Stock Exchange at 3c. This stock is issued by the company owning the Last Chance in Skylark camp, and must not be confounded with the Boundary Creek M. & M. Co.'s stock which sells at 10c. and in all likelihood will be worth a great deal more before long.

MINING NOTES.

Mr. D. A. Holbrook put two men to work on the Granite Falls, Eholt creek, on Wednesday.

Mr. W. T. Smith has decided to await more favorable weather before sinking on the Republic.

The Mountain Sheep at McKinney has been bonded, and a contract let for sufficient work to be done to entitle the owner to a crown grant.

The new dies and heels for the Cariboo mill, Camp McKinney, are anxiously expected, and if they were not received at the camp before Wednesday it would be necessary to close down the mill.

There is a fine showing of ore, the ledge being nearly four feet wide, at the bottom of the shaft on the Last Chance, Smith's camp. The shaft takes in a part of the footwall, which is very soft.

The tunnel on the Clifton is in 75 feet. The ore at this distance is not as rich as expected, but as soon as possible the surface will be prospected to find the most likely spot at which to open the lead.

The Tidal Wave Mining Company have decided to put no stock on the market until their properties have been to a certain extent proved by development work. If the prospects then are fair the stock will be sold at its full par value of $1.00 per share. The company is incorporated with a capital stock of $750,000.

Mr. Keffer, manager of the Boundary Mines Co., proposes shortly to make a mill test of Mother Lode ore, with a view to ascertaining whether it can be concentrated—as is the case with the Le Roi ore at Rossland. In the event of the experiment proving that this method of treatment is feasible, it will be impossible to attach too much importance to what may be deduced from the results.

It has been decided not to increase the force working on the Canadian, in Skylark camp, for the present. Five miners and a blacksmith are now employed and good progress is being made in the shaft. There has been no material change in the ore in values or appearance, although an assay obtained last week ran rather higher than former tests made. Assays of surface rock returned $30 in gold and over 300 ozs. of silver to the ton.

W. Shaw is prosecuting development work on the Ontario, adjoining the R. Bell, in Summit camp. There are two leads on the property, one being an extension from the R. Bell. A shaft was commenced on this lead, but at a depth of a few feet a fault was encountered and the work was temporarily abandoned. The other lead is now being prospected. Later on a tunnel will be driven in the hillside to tap the R. Bell lead, which it is expected will be struck at a distance of between 30 and 40 feet from the mouth of the proposed tunnel.

Business Changes.

Mr. T. M. Gulley this week took over the whole of Mr. Paton's stock of furniture and the store on Copper street, intending at once to largely add to the present stock by purchasing the better class of furniture from well-known manufacturers and employing a thoroughly competent cabinet-maker and upholsterer in the shop to fill orders for home-made articles. Mr. Paton has bought a lot at the corner of Greenwood and Summit streets and intends building at once.

As will be seen by advertisement in this issue, a change has also been made in the butcher business hitherto carried on at Greenwood, Grand Forks and Midway by Kerr Bros. Mr. J. P. Flood who has been managing the Greenwood branch, has purchased Mr. R. D. Kerr's interest, the firm now being styled Kerr & Flood.

MINERAL ACT, 1896.

Certificate of Improvements.

NOTICE.

HELEN mineral claim, situate in the Kettle River mining division of Yale district. Where located: Skylark camp.

Take notice that we, M. J. M. Wood, free miner's certificate, No. 87,573; G. T. Hodgson, free miner's certificate, No. 87,489; H. B. Merriman, free miner's certificate, No. 80,439; W. J. Lindsay, free miner's certificate, No. 74,655; J. M. Fitzpatrick, free miner's certificate, No. 55,418; T. M. Daly, free miner's certificate, No. 87,447, and Robert Smyth, free miner's certificate, No. 79,399, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 16th day of March, 1897. 28

Notice to Taxpayers.

Assessment Act & Provincial Revenue Tax.

Rock Creek Division of Yale District.

NOTICE is hereby given, in accordance with the Statutes that Provincial Revenue Tax and all taxes levied under the "Assessment Act," are now due for the year 1897. All of the above named taxes collectible within the Rock Creek division of Yale district are payable at my office at Osoyoos, B.C.

Provincial Revenue Tax, $3.00 per capita.

Assessed taxes are collectible at the following rates, viz.:

If paid on or before June 30th, 1897,—

Three-fifths of one per cent. on real property.

Two and one-half per cent. on the assessed value of wild land.

One-half of one per cent. on personal property.

On so much of the income of any person as exceeds one thousand dollars, the following rates, viz.: Upon such excess when the same is not more than ten thousand dollars, One per cent; when such excess is over ten thousand dollars and not more than twenty thousand dollars, One and one-quarter of one per cent.; when such excess is over twenty thousand dollars, One and one-half of one per cent.

If paid on or after 1st July, 1897:

Four-fifths of one per cent. on real property.

Three per cent. on the assessed value of wild land.

Three-quarters of one per cent. on personal property.

On so much of the income of any person as exceeds one thousand dollars, the following rates, viz.: Upon such excess when the same is not more than ten thousand dollars, One and one quarter of one per cent.; when such excess is over ten thousand dollars and not more than twenty thousand dollars, One and one-half of one per cent.; when such excess is over twenty thousand dollars, One and three-quarters of one per cent.

MINERAL ACT, 1896.

Certificate of Improvements.

NOTICE.

MONARCH Mineral Claim, situate in the Kettle River mining division of Yale district. Where located: Greenwood camp.

Take notice that I, Thomas Humphrey, free miner's certificate No. 702,52, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 23rd day of February, 1897. 26

Dissolution of Partnership.

NOTICE is hereby given that the partnership heretofore existing between the undersigned, R. D. Kerr and James Kerr, has this day been dissolved by mutual consent. All debts owing to the said partnership must be paid forthwith to James Kerr and J. P. Flood, who will settle all claims against the same and continue the business under the firm name of Kerr & Flood.

Dated this 1st day of March, 1897.

R. D. KERR.
JAMES KERR.

GREENWOOD NOTES AND GOSSIP.

Mr. A. Leamy has signified his intention of practising law in Greenwood.

Several fine suites of furniture have been ordered for the Pioneer hotel, and are now on the road.

Dan Stewart, a well-known local miner, was admitted to the hospital on Sunday last, suffering from lock-jaw.

Mr. Joe Thurber, who justly enjoys a reputation as a competent hotel manager, has assumed the management of the Lancashire House at Midway.

Harry Rose has given notice that the freight rate between Penticton and Greenwood will be 2½ cents per pound "while the mud lasts," probably till the end of June.

Rev. T. Paton, of Grand Forks, will be in Greenwood next Sunday to dispense communion and to administer the rite of baptism. Service will be held at the usual hour, 7.30 p.m.

Mr. and Mrs. D. W. Holbrook, formerly of South Dakota, arrived in Greenwood last Friday and have decided to become permanent residents of the town. Mr. Holbrook is a brother of the Boundary Creek M. & M. Co.'s manager.

Mr. F. Aug. Heinze, in spite of the $500,000 suit that is hanging over his head, announces that he will extend his railway at once from the Columbia river at Robson to Penticton and thence in all probability to tide water.—Spokane Chronicle.

The deer in the vicinity of Pass creek are exceedingly tame. The other day a man on the way to Greenwood from the camp met three deer on the trail and tried to drive them off with a stick. They trotted away for a short distance and then one of the animals returned to the path and following its assailant gently started to nibble at his coat-sleeve.

Mr. Andrew Leamy returned to Greenwood from New Westminster on Sunday and reports that things are very slow at the coast. Boundary Creek, he said, might as well be as far off as Timbuctoo for all the interest taken in its development by the people of New Westminster or Vancouver at the present time. Mr. Leamy, however, succeeded during his absence in incorporating a company to purchase and operate a group of four claims in Skylark camp, the Contact, Ossian Wave, Tidal Wave and Vernon; and enough capital has been raised to enable the properties to be well developed. The services of a competent mining engineer have been engaged to superintend the development work, which is to be started shortly.

Mr. James Punch, at one time a member of the provincial legislature, is visiting the district as the representative of a Nova Scotia syndicate having large interests in Boundary. The syndicate own, among other claims, the Spotted Horse and the Boundary Falls, No. 2. Work is to be started at once on the Boundary Falls. Mr. Punch is a mining man of experience.

CROWN GRANTS.—When applying for crown grants, request that the advertising thereof be published in THE BOUNDARY CREEK TIMES,—the mining paper of the district.

We wish to notify our Patrons and the Public generally that we are receiving New Goods every day, and we are now carrying a full and complete stock of

Greenwood and Fisherman Creek Road.

Mr. W. T. Smith has written a sensible letter to the Province pointing out the necessity of a road being built, as already suggested to the Government, from Greenwood to the mouth of Fisherman creek, connecting with the existing North Fork road. "As a matter of fact," Mr. Smith writes, "the construction of this road means everything to the mine-owners of Summit camp, as well as opening up more fully Providence, Long Lake and Kimberly camps. To instance what a direct bearing this road would have upon the immediate development of Summit camp, I would say that Messrs. Farrel and Migeon who are the owners of several properties, desire to take in machinery to develop their claims, and are only awaiting a means of ingress. It is too much to expect that the miners should build their own roads—it generally requires all their means to keep up their mining work; and after contributing their quota towards sustaining the Government, they naturally expect some assistance from it."

Reported Sale of the Cariboo.

A report comes from Toronto that a British company, with a Col. North at its head, after failing in an endeavor to secure the famous War Eagle mine, turned its attention to the Cariboo, in Camp McKinney. Negotiations have been going on for some time, and, according to the information received an arrangement has been agreed upon whereby the English company have a bond on the Cariboo for $560,000, which is equivalent to 70 cents per share for the stock. Shares are now quoted on the Spokane Stock Exchange at 49c. The same syndicate are also negotiating for the Minnehaha.

Interviewed in Spokane regarding the above, Mr. Geo. B. McAuley said "there is not a word of truth in the statement; the mine is not under bond to Col. North, nor to anyone else." Mr. James Monaghan also said, "If the property has been bonded I know nothing of it." On the other hand, Mr. Graham, a nephew of Mr. Monaghan, recently stated to a TIMES representative when in Greenwood, "that negotiations were in progress for the sale of the mine to an English syndicate."

ANACONDA NOTES.

A good many complaints have been made of the annoyance caused by the presence of sawdust in the water of Lind creek. The water from this creek is used exclusively for domestic purposes, and it is stated that water after standing for a short time becomes coated with a resinous film. The sanitary inspector should at once restrict the owners of the sawmill above the town from throwing refuse into this creek.

Several residents of Anaconda are suffering from la grippe. Mr. Miller, secretary of the Commercial Club, has a very bad attack of the prevailing sickness, and Mr. George Rankin is also badly "under the weather"; Mrs. Tillman also has been seriously ill for several days.

At the meeting of the Club on Wednesday several communications were read by Mr. Keffer, who acted as secretary, from correspondents enquiring about different Boundary Creek mining properties. A Spokane restaurant keeper wrote stating he proposed to establish a restaurant and bakery at either Anaconda or Greenwood, and asking what the prospects are at the present time for businesses of this kind.

On Monday night a fairly large and thoroughly appreciative audience attended in Wilson's hall the concert given by "Professors" Voorhees and Davis, a pair of itinerant musicians. The banjo and guitar duets were well worth listening to, in fact the entertainment as a whole was distinctly better than might be expected. The technique of Davis, the banjoist, was really wonderful, and no one would believe that the banjo, an instrument generally associated with comic songs and breakdowns, was capable of giving effect to the beauty and pathos of the Miserere, from El Trovatore, as under the hands of the skilful performer was the case the other night.

As a fitting "wind-up" of the social gayities of the winter season the "hard times" dance, under the auspices of the Commercial Club, which took place last night, was most enjoyable. The dance was well attended.

Mr. L. D. Kean, a former partner of Mr. D. A. Holbrook, arrived on yesterday's stage, having been recently in the Kruger and Palmer mountain camps, where he bought twelve claims. Mr. Kane is on the look out for promising investments in Boundary.

The shaft on the Rob Roy, in Central camp, has been sunk to a depth of 50 feet. For the last few feet the rock proved very hard.

The winter which has been unusually long and severe can, with the advent of the warm chinook winds and rain showers of the past few days, be considered a thing of the past. Despite the "demned, moist, unpleasant" state of the roads from the rapidly melting snow, the first premonitions of springtime are most welcome. The weather has a great deal to do with local business prosperity, as every store-keeper in Boundary knows. When the snow leaves the hills there will be a rush of prospectors, all needing supplies, into the district. Probably more development work will be done in the camp this year than during the previous three years of its history.

TO RENT.

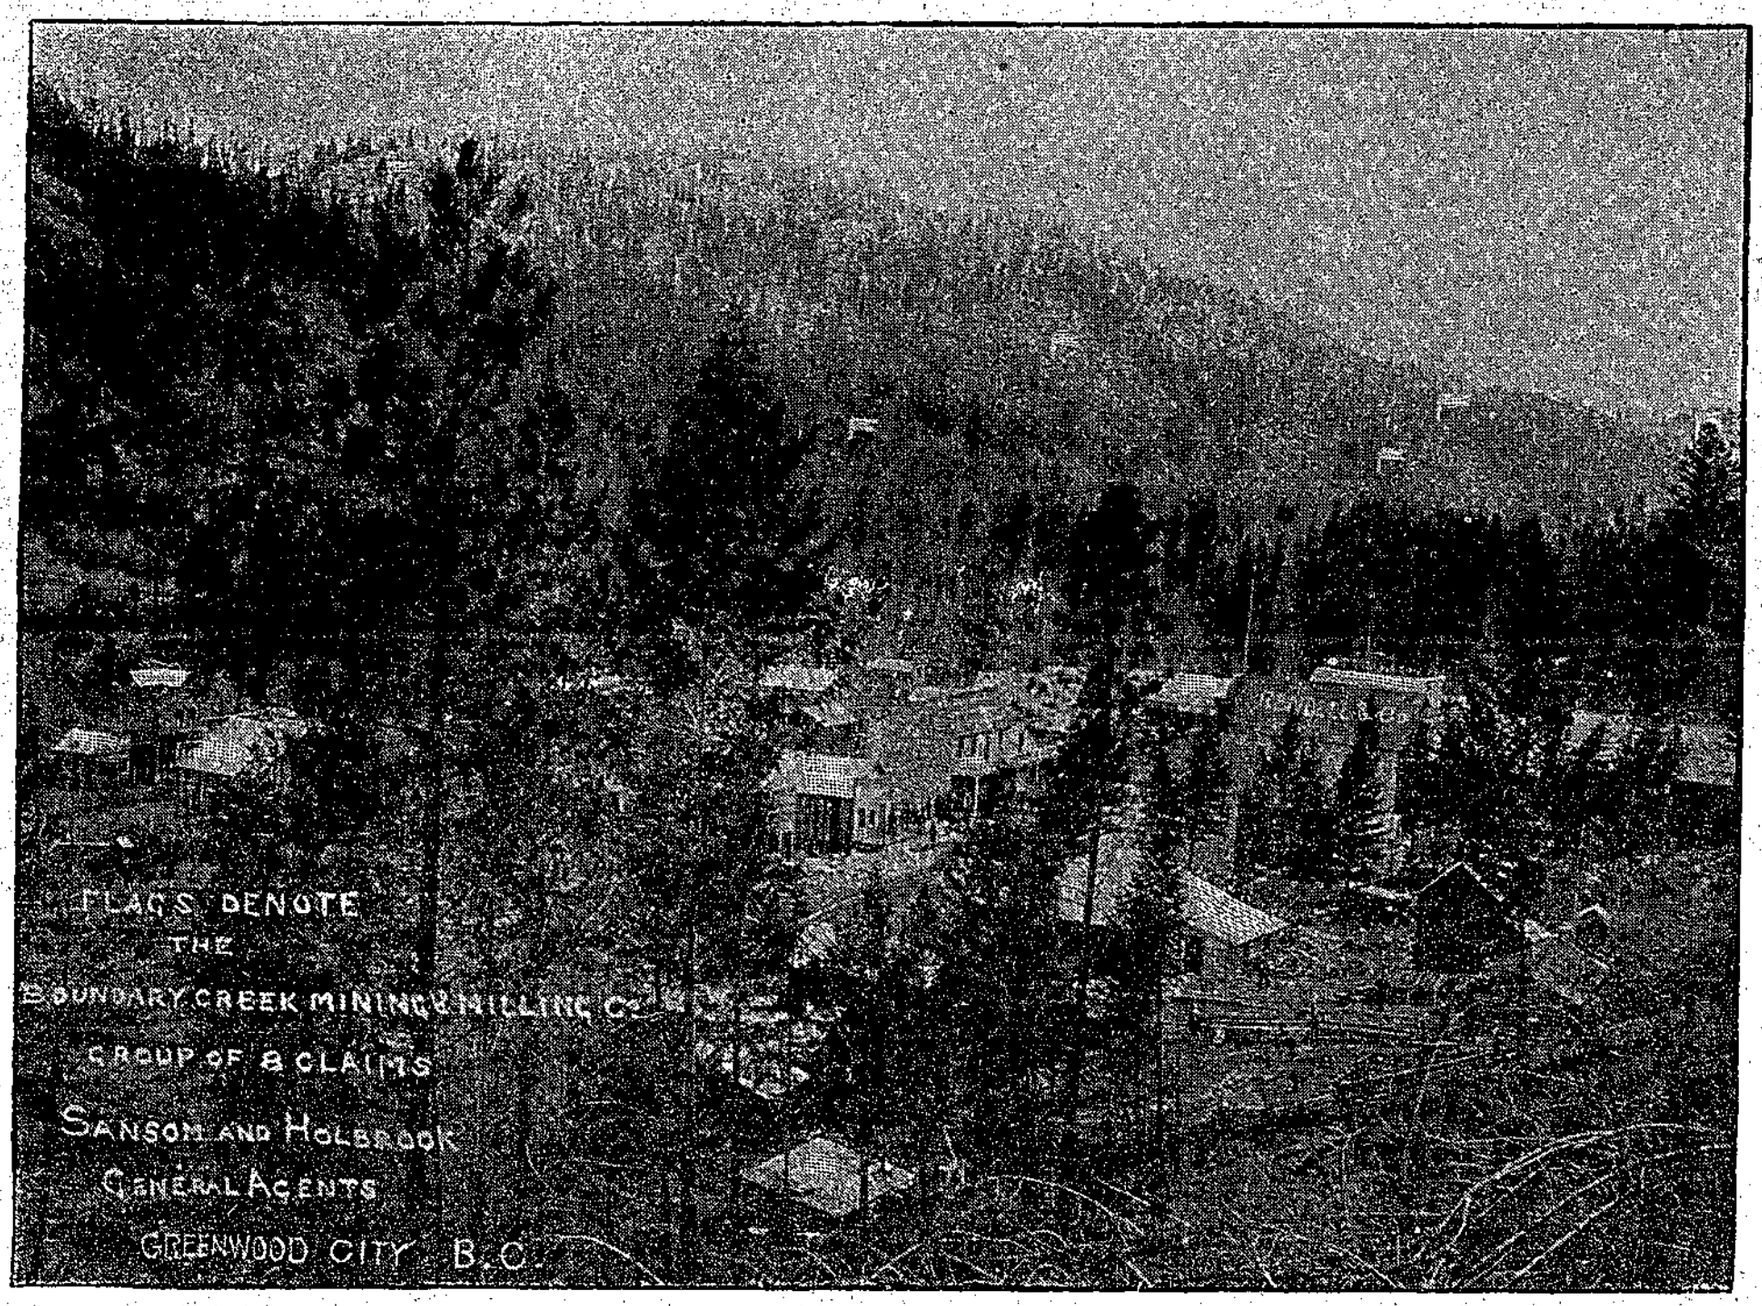
BANK OF MONTREAL, VERNON, B.C.

Capitalization, 1,500,000 Shares. *Treasury, 700,000 Shares.*
Par value, $1.00. Fully paid and non-assessable.

Incorporated October 21st, 1896, under the British Columbia "Companies Act" and amending Acts.

The Company's properties are fully paid for.



Flags denote the Company's group of Ten Claims.

THE PROPERTIES of the Company consist of Ten claims lying in a group and named as follows: The "Fred D.," "S. H. B.," "Big Ledge," "D. A.," "O. B.," "S. F.," "G. A. R.," "J. A. C.," "P. H.," and "C. S. & H.," fully shown and explained in the Map Plan. They are, with the exception of two, all full claims, 1,500 feet by 1,500 feet in size, giving a surface area of about 400 acres. Lying as they do on a steep sloping hill, they offer unusually good facilities for drainage and for rapid and economical development by main working tunnels driven in from the base of the hill. These are some of the first principal locations made on Boundary Creek.

Active development work has been going on since the incorporation of the Company, October 21st, 1896.

HEAD OFFICE - - - GREENWOOD CITY, B.C.

Attention is particularly called to the large amount [700,000 shares] of stock put into the Treasury, and that all the properties are fully paid for.
