Hunter-Kendrick
COMPANY, LTD.

SHORT TALKS
On Fall Necessities

MEN'S UNDERWEAR

YOU GENTLEMEN who have been buying underwear every fall should be good judges of it. Step in and examine the TIGER Elastic Ribbed—it sells itself. Strictly all wool of highest grade, unshrinkable and pleasant to wear.

PENMAN'S Celebrated English Underwear. Finest lambs wool, unshrinkable and of best wearing qualities, an elegant line of medium priced goods

Also, woolen and union good of all weights and prices.

SUSPENDERS

The ROUGHRIDER Suspender is fast coming to the front. It sells for 50c—equals the President (which sells for 75c) and is Union made. Equalizes the strain no matter what position the body is in.

BOY'S CLOTHING

NO MONEY in cheap, shoddy clothes for boys—nor in paying fancy prices for so-called "good goods." The idea is to find serviceable, all wool suits, made to fit and look neat, at popular prices. We will be pleased to show you our new line of BOYS TWO AND THREE PIECE SUITS, and odd nickers. They are the ones.

TRUNKS

A recent purchase of a carload of trunks for our various stores places us in a position to sell trunks, grips, suit cases, telescopes, etc., at prices to please everybody. Large assortment to pick from.

THE BIG STORE

Piccadilly Restaurant

A New Restaurant Run on to the Live and Let Live Plan.

Where Meals can be secured at all hours, well served and at moderate prices.

OPEN DAY AND NIGHT.

Wood & Mosher, Proprietors

CAMPAIGN IS OPENED

W. A. Galliher Welcomed by Greenwood Audience.

A POWERFUL SPEECH

Record of Great Liberal Party Eloquently Discussed.

The first gun in the short political campaign was fired last evening when W. A. Galliher M. P., the popular member for Yale-Cariboo addressed a large audience at the Auditorium. He not only extolled the record of the Liberal party in federal affairs but denounced the conduct of conservatives who so badly mismanaged affairs in this province. He urged upon liberals particularly and good citizens generally to loyally stand behind Mr. Brown in the struggle for sound and progressive government.

The meeting was opened by C. Scott Galloway who presided, The Auditorium was well filled and a number of ladies were present and took a keen interest in the discussion, Mr. Galloway explained the absence of Mr Brown. He said Mr. Galliher was going to speak in a number of constituencies and that was the only might he could give Greenwood before his Mr. Galliher's return from Ottawa.

Mr. Brown had arranged to hold a meeting in Rock Creek and as Mr. Brown is a gentlemen who always kept his engagements he went their to hold the meeting. Mr. Brown would however address the Greenwood electors at an early date. The chairman then invited representatives of the conservatives and socialists to come forward and address the meeting. R. B. Ker, lawyer of Phoenix came forward in the interests of Mr. Mills but no one appeared to defend the conservatives. Mr. Galloway then called upon Duncan Ross to address the meeting.

Mr. Ross referred to the treachery of Premier McBride since the time he assumed office until the shortening of the date of the election. He pointed out that the old gang were lined up behind McBride, and if good sound pregressive government was desired it could be secured only through the liberals. He could not believe that the Boundary creek district rich in mineral resources and depending so much on progressive government would return a man who is after the impossible. Socialism would never be attained on this side of heaven. It was beautiful theory but the people were dealing with serious practical matters. Mr. Kerr immediately committed the previous speaker to hades and said that earth already was a hell. He then spoke for nearly an hour, his arguments being along the usual lines adopted by socialistic speakers. He quoted extensively American statistics to prove that the laboring men in Canada were not receiving what they produced and criticized the report of the labor commission. He claimed that Mr. Hawthornwaite the only socialist member had taken up three fifths of the time of the legislature.

Mr. Galliher was loudly applauded upon rising to address the meeting. He availed himself of the first opportunity to thank the people of Greenwood for supporting him in the Federal election of 1900 and urged them to loyally support to Mr. Brown in this contest. Mr. Brown was thoroughly honest thorougly capable, and could be depended upon to do what was right in the interests of the people (loud applause). He recalled Mr. Ker's specious arguments and clearly showed thet the Liberal government has placed legislature in the statute booksthat insured a fair days pay for a fair day's work. Mr. Ker boasted of the rapid development made by socialism but in no country in the world was there a socialistic form of government and it was not at all likely there ever would be one. It was not to Mr. Hawthornwaite's credit that he took up so much of the time of the legislature. Mr. Ker referred to the prosperous condition of our grand fathers but would any one say that the condition of laboring men in Canada today was not away ahead of their condition 50 years ago. He referred to the labor legislation passed by the Liberals and stougly defended the Grand Trunk Pacific scheme. He contrasted the scheme with that suggested by Hon. Mr. Borden leader of the Conservatives and pointed out that British Columbia would reap the greatest benefit from the construction of this great transcontinental road. In a stirring oration he urged the electors of Greenwood to do their share in getting the province out of the rut by returning Mr. Brown at the head of the poll.

Mr. Galliher was loudly applauded on resuming his seat seat after a powerful one hour and half speech. The meet- then dispersed.

Mr. Galliher addressed a meeting at Boundary Falls this afternoon and will also speak at Midway this evening.

When you do not relish your food and feel dull and stupid after eating, all you need is a dose of Chamberlain's Stomach an Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by J. L. White Greenwood and A. F. Thomas Midway.

200 suits of $1.50 to $3.00 mens underwear to be sold at $1.00 a suit at Hunter-Kendrick.

A Conservative Commission

In 1886 the Conservative Government of the day appointed a commission to deal with the subject of the relation of labor and capital.

That commission took about three years to prepare a report, which cost the country over $81,000.

The chief reccommendation contained in the report was that a bureau of labor for the Dominion was urgently needed. An act was passed establishing a Department of Labor just previous to the election of 1899, but after the return of the Conservative party to power in that year, nothing ever was heard of the Act, and no department of of Labor was established. The present Liberal government at Ottawa has been adversely criticised because of the cost of the Chinese Commission, and an attempt has been made to make cheap political capital out of the sums paid to the members of the Commission for their services. The time and money this commission cost were time and money well spent. The Commission accomplished something definite and the result of its labors is the Act increasing the per capita tax on Chinese to $500, which means their exclusion from Canada.

Compare the cost and the fruitful result of this Liberal Commission with the cost and barren result of the Conservative Labor Commission. In view of the experience with Commissions, the Conservatives should be the very last, as they are the least entitled, to utter one word in disparagement of any Royal Commission or Commissioners. Their own record forbids it.

The Conservatives has not been fortunate with their Commissions. They never seem to accomplish anything beyond paying salaries and expense bills.

Prior to the election of 1896 the Conservative party appointed a Commissioner to investigate the alleged existence of the sweating system in Canada. This commission reported that there did not appear to be any sweating system in the Dominion.

When the Liberal government assumed power in 1896 they at once directed their attention to the condition of labor in the Dominion.

They had every evidevce to believe that notwithstanding the report of the commissioner appointed under the previous Conservative administration, that the sweating system has gainhd a very strong foothold in the Dominion.

The present Minister of Labor appointed a special commissioner to investigate this matter, and he reported to the Government that in practically all of the clothing contracts which had been executed for the Conservative Government during the preceding 10 years a syrtem of sub-contracting had prevailed which had resulted in sweating in its extreme forms.

It was this report which led the Government to adopt its anti-sweating regulations and fair wages policy, which it has since carried out.

The Department of Labor was established by the Liberals in 1900 without any special recomendation from a commission, and has incrdased in importance ever since.

The total cost of the department, including the salaries of its officers, printing binding and distributing of the Labor Gazette, the travelling expenses of the fair wage officers, expenser of the conciliator engaged in the settlement of strikes and all other departmental expenses have come to about what the Conservative Government paid for its barren commission on capital and labor, which extended its work over a similar period of time, and from which there have been absolutely no results.

Good Lord Good Devil.

Dr. Spankie the conservative candidate cannot trust his leader. In an address printed at Timothy Eatons's or somewhere else outside the district, he states that he "shall insist in every instance in holding the party true to its professions and he will "condemn any legislation even if brought forward by my own party, which I believe wrong in principle and injurious in effects." It is well that Dr. Spankie should take this wise precaution when the men behind McBride are considered, but it is this "good lord good devil policy" which has created chaos in the past. If the good doctor is so fearful that the conservatives will bring forward legislation wrong in principle and injurious in effects he should support J. R. Brown, the candidate of a party who will not be guilty of the confirmed habits of the conservatives.

Were Appreciative

Numbers of members of the British Commercial party before leaving the city expressed their regret that no opportunity had presented itself to allow of their publicly thanking the Greenwood Board of Trade and all others who had done so much to make their visit a pleasant one, for the kindness and attention shown them. They desired that the Times assure the citizens of Greenwood that the efforts put forth for their entertainment were fully atp preciated. To Mayor Smalles, and Messrs Allison, Myers-Gray, Gaunce, and Jacobs they were especially grateful these gentlemen having been a great pains to promote their comfort and to show them whatever could be seen during the short time available for sight seeing. To Messrs. Kefler and Holman, at the Mother Lode mine, to McIntosh at the Providence mine, for their kind attention; to the Greenwood Club for courtesies extended, and to the railway officials and train crews they were also grateful, they left the Boundary with nothing but the livliest appreciation of the industrial importance of the district and the hospitable disposition of its people.

Dysentry causes the death of more people than small pox and yellow fever combined. In an army it is dreaded more than a battle. It requires prompt and effective treatment. Chamberlain's Colic. Cholera and Diarrhoea Remedy has been used in nine epidemics of dysentery in the United States with perfect success, and has cured the most malignant cases, both of children and adults, under the most trying conditions. Every household should have a bottle at hand Get it today. It may save a life. Sold by J. L. White Greenwood, and A. F. Thomas Midway.

Mining Association.

Have you joined the Provincia Mining Association? If not, why not? Not interested in mining? Want the other fellow to do the lifting?

Don't care whether or no the mining laws are revised?

Don't care whether or not the costs of Crown Grants are reduced?

Don't believe that an effort should be made to protect the man in his rights who negleets taking out the license.

Of course you think the laws are wrong in many instances, and the administration of them is worse sometimes, but maybe you have an idea that your share in the reform is just to be a critic. Do you?

The Proper Treatment for a Sprained Ankle

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by J. L. White Greenwood, and A. F Thomas Midway.

Billiard and pool table for sale or rent a. Second Hand White's.

COMMERCE DELEGATES

Visitors See Mines and Smelters.

WILL RESULT IN GREAT GOOD

Much Impressed With Gold and Silver Bearing Quartz.

Greenwood has been honored this week by a visit from the most representative body of British Empire commercial interests, that has ever visited British Columbia. Over 100 of the delegates to the meeting of the Empire Chamber of Commerce, recently convened at Moutreal, spent Tuesday and Wednesday in the city. A committee from the Board of Trade met the visitors at Phoenix and escorted them to Greenwood. A special train had been arranged for, to carry the guests to the Mother Lode mine and local smelters, while carriages conveyed them to some of the newer mines, notably the Elkhorn and Providence. With true British instinct the visitors showed far more interest in gold than copper, and though scarcely moved by great mountains of copper ore were visibly affected by the sight of quartz having gold, and silver-bearing quartz, particularly the former.

From the great commercial centres, from the great seaports, from the manufacturing cities of the Empire they came, and with the buisiness acumen of men of large interests strove to learn something of the ways, the hopes, the resources of this new corner of a great Empire.

London and Liverpool, Manchester and Montreal, Portsmouth and Plymouth, Bradford and Brisbal, Belfast and Blackpurn, Shieffield and Swansea, Walverhampton and Wisbeck, Canterbury and Cardiff, Leads and Lorton, Huddensfield and Heckmoudith, Nottingham and Newport, Dover and Dudley, Torquay and Trinidad, each had their representatives in Greenwood. The men from Edinburgh and Galasshiels, were greeted by many local Scots and not a few glasses were drained over the diseovery of mutual acquaintances 'at home'. Several Americans happened to be in town at the time and the Board of Trade register bears the signature of men from New York, Toledo and Chicago.

The Board of Trade had assembled a representative collection of local ores in its room on Copper street, where the Secretary endeavored to explain the resources of the neighborhood. There were to be seen great samples of copper ore from the Mother Lode, Sunset, King Solomon, Big copyer, Morrison, and Oro Denoro; massive specimens of run of the mine from the Elkhorn Providence, Defience, Waterloo, Crescent running in values from $100 to $1000 to the ton; with free gold samples from the Providence, Gold Finch and E. P. U. One rare specimen of telluride worth $3000 to the ton, taken from the E. P. U. attracted much attention.

The visitors were very kindly entertained at the Club and spoke in the highest terms of their reception in the camp.

The weather was perfect and the bright sunshine and fresh crisp air were fully enjoyed.

Most of the visitor were extremely non-committal and appeared to be apprehensive that somebody would try to unload a gold brick on them. Frequent references could be heard to Whittaker Wright and the unhappy light in which he placed British Columbia before the British investor.

This however only gave the party addressed the opportunity to explain that if British manipulators had mucited their friends, British Columbia was in no sense to blame. Taken all in all the visit was a timely one and cannot be otherwise than productive of great good ultimately to the Boundary.

FRIDAY, SEPTEMBER 18 1903.

THE ELECTORS DUTY.

Tomorrow three candidates will be nominated for the Greenwood electoral riding; J. R. Brown representing the Liberal party, Dr. J. E. Spankie, the Conservatives and Ernest Mills the Socialists. The electors will have two weeks to decide whom to vote for. Mr. Brown is a worthy representative of a party which has demonstrated its ability to give this fair Dominion and the majority of provinces good government. He has a thorough knowledge of political affairs and is sound in his views on all questions affecting the interests of the masses.

Dr. Spankie is a successful physician and a good fellow. His busy occupation in a field far removed from politics has not given the opportunity to carefully study those questions which so seriously effect the progress and development of this province.

The conservative candidate is a good doctor but a poor politician. His friends would be doing him a service by giving him an opportunity to attend strictly to his practice and leave politics alone.

Ernest Mills represents a party which is at least as old as the French Revolution, but which has more recently interjected itself into the political affairs of this country. Their policy is destructive not constructive. Their desire is not to remove the chaos which has injured this province but to increase it.

The Socialist candidates cannot hope to win in more than two constituencies. Surely Greenwood so vitally interested in sound and stable government and a renewal of confidence is not going to be one of them.

If the electors of Greenwood are interested in the development of this district, if they are anxious for the return of better times, if they desire honest and progressive government, there is only one course to take. Their votes should be given to John R. Brown, the Liberal candidate.

McBRIDE'S TACTICS.

Hon Richard McBride in hastening the date of the election one month, has strikingly demonstrated that he cannot be trusted in the administration of public affairs. A man who is loyal to the best interests of the province must be loyal to his friends and to his home town. Mr. McBride thought it a good political move to hold the elections on October 3rd and forthwith the order was made. Mr. McBride was raised in the city of New Westminister and his past career has been closely identified with the interests of that town. For many years the enterprising citizens of New Westmenister have bent all their energies toward making the Royal City Fair a success. They succeeded so well that the fair was attended by citizens from parts of the province. This year the banner day of the fair was to be October 3rd. The holding of the election on that day necessarily means that the people will be at home polling their votes, and consequently the big fair will be ruined. Mr. McBride knew this but he was quite prepared to sacrifice his own town to gain a political advantage. We are not particularly interested in the New Westminister fair but we are anxious that the premier of this province should be a man who can be trusted. A man who knives his friends and sacrifices his birth place and home town is too dangerous an individual to have charge of the provincial government. It is such an indication of his character as will defeat him on October 3rd.

LIBERAL MANIFESTO.

Vancouver, Sept. 4.—The following manifesto has been issued to the electors by the executive of the British Columbia Liberal Association:—

The liberal platform, as adopted at the provincial liberal convention held at Vancouver on February 7th, 1902, is as follows:

1. The immediate redistribution of the constituencies of the province on the basis of population but allowing a smaller unit of population per seat for the outlying districts.

2. Government ownership, Dominion, provincial and municipal, of public services of utilities i ssound and shoudl be carried out in British Columbia.

3. Should it be advisable at any time to grant aid to a railway company such shall be in cash and not in land and no bonus of any kind shall be given without definite and effective means being taken to safeguard the interests of the province in the management of the road, control of the freight and passenger rates, and provision made against such railway having any liability against it except for actual cost.

4. Immediate construction of the Coast-Kootenay railway; the Cariboo railway; a railway from Alberni to a point on the east coast of the island; a road in the northern part of the province from the coast to the eastern boundary with an extension to the northern boundary; the railway from Vernon to Midway by north fork of Kettle river; with necessary branch lines, ferries and connections.

5. The enforcement of the act now in force compelling the scaling of logs by government scalers.

6. That such legislation should be enacted as will result in making the lands included in the various dyking areas available for cultivation as quickly as possible and secure prompt payments of assessments when due.

7. That the government should keep in touch with the conditions in connection with mining, protecting said industry against combines and trusts and if necessary for the purpose build and operate smelters and refineries. No reasonable change should be made in the mining laws without full notice to all parties interested, giving full opportunity for discussion and criticism.

8. As the province can only advance by the settlement within its borders of thrifty and prosperous citizens, and as Orientals never become citizens in any proper sense of the word, we declare it to be the duty of the government to discourage Oriental immigration and employment by every means within its power, and we appeal to our fellow liberals throughout the Dominion to aid us in our efforts to protect ourselves against the ruinous competition of men having a standard of decency and comfort immensely below that of civilized peoples, and who shirk every duty and obligation of citenship which the law will allow them to escape.

9. The government ought to prevent the waste and suffering caused by strikes and lock-outs, and an earnest effort ought to be made to provide some means of preventing such strikes and lockouts, and we approve the adoption of compulsory arbitration.

10. The fiscal system of the province stands in need of revision. Taxation should bear upon privilege rather than upon industry, and no addition should be made to the debt of the province except for public works properly chargeable to capital.

11. The retaining of the resources of the province as an asset for the benefit of the people and taking effective measures to prevent the alienation of the public domain except for actual bona fide business or industrial purposes, putting an end to the practice of speculating in connection with the same.

12. The construction and maintenance of roads throughout the province to aid in the development of the mining and agricultural districts.

The first plank of the above platform refers to a subject which, though not a live issue now, was so when the platform was adopted. In this matter the rights of the people have been substantially secured by the efforts of a handful of liberal members who, holding the balance of power during the session of 1902, compelled an unwilling administration to pass the present Redistribution Act.

The executive of the British Columbia Liberal Association desire to call your attention to the following:

The province is on the eve of a general election, and for the first time in

NOTICE.

OLD GUARD Mineral Claim, situate in the Kettle River Mining Division of Yale District. Where located: In White's Camp.

TAKE NOTICE that I, John P. McLeod executor of the estate of Alex. Wallace, deceased, Free Miner's Certificate No. B54954, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 28th day of January, 1903.

July 22 J. P. McLeod.

LIBERAL MANIFESTO.

(Continued from page 2.)

its history the contest is to be conducted upon party lines.

Hitherto contests in the province have been carried on between aggregations bound together rather by interest than principle, by private arrangement rather than by public considerations. In the past the dominant influences in the several governments of the province have been conservative. The Prior, Dunsmuir, Turner and previous governments have been almost entirely composed of conservative, supported in the house by conservatives. The present government of which the Honorable Richard McBride is premier is the natural seccessor in tradition and policy of that mischievous series of personal governments which has made this province, although the richest of of any in natural resources, the least prosperous in the Dominion. With our vast mineral and other resources the progress of our development hos been slow and entirely unsatisfactory. Unwise legislation, principally in the interest of speculation, not of industry, is responsible to a very large extent for this condition of affairs. The public assets, valuable franchises and monopolies, have been given away to favorite persons and corporations, instead of being utilized for the benefit of the people at large, and this has been going on for so long a time that the province now finds itself compelled to **exact from** industry that revenue which had our affairs been wisely conducted could easily have been obtained from our squandered heritage.

The last conservative government, owing to its maladministration of the public affairs of the province, was, through the efforts principally of a small band of liberals, dismissed from office, and accident and the introduction of party lines has placed another conservative government in power, and has placed at the head of that government a man who was not only an ardent supporter of past conservative administrations, but was himself a member of one of them, and shared fully in the responsibility of an attempt on the part of that government to give away to a railway corporation, in direct defiance of the instructions of the legislature as expressed by statute, two large blocks of enormously valuable coal and oil lands in Kootenay.

It is the aim of the liberal party to place in the field at the coming election men pledged to remedy the evils from which we have so long suffered.

Among the matters requiring immediate attention are the following:—

CIVIL SERVICE REFORM.—(a) By taking care that the staff of officials shall not be maintained beyond the actual requirments of the service; (b) by making good conduct and efficiency the conditions of tenure of office; (c) fitness not favoritism, to govern appointments.

FISCAL REFORM.—(a) By keeping expenditure within revenue, borrowing money if at all only for works properly chargeable to capital; (b) wise and provident administration of the natural riches of the province, so as to bring into the treasury that revenue which should be derived from our great and varied resources; we declare our conviction that the proper taxes, rents, and royalties, can and ought to be, levied and collected in such a way as to encourage industry and at the same time provide sufficient revenue and enable the government to repeal in whole or in part certain taxes which now hamper industry, arrest development, and create dissatisfaction among the people.

(c) In this connection the taxation of mines will receive that consideration which the importance of the mining industry to the province demands. It is not claimed by those engaged in mining that their property should be exempt from taxation, but they do claim that the present system of levying taxes is unfair, and tends to discourage the investment of capital and the employment of labor in mining enterprise, thus not only retarding the development of our mineral resources, but also impeding the prosperity of the mining community and preventing the enlargement of sources of revenue to the province itself. The present system imposes a tax on wages as well as on profits, and should be readjusted so as to bear on profit only.

REFORM IN LAND ADMINISTRATION.—(a) We denounce absolutely the conservative policy of land grants by way of bonus to railways, and also the reservation of large tracts of land which has obtained in the past.

(b) We declare it to be our policy to hold the public lands in trust for the promotion of settlement and encouragement of industry. In the case agricultural lands, we favor free homesteads under conditions which shall effectually secure the land to actual settlers.

(c) Full and exact information as to all public lands fit for settlement should be obtained by the government, and made available at every government office for the information of the people.

THE FARMING INDUSTRY—(a) Recognizing the importance of agriculture in the province, we are in favor of placing the agricultural department of the government on a thoroughly practical and efficient basis.

b) The bad management and inefficiency of the government have imposed upon the owners of the dyked lands a much heavier burden than they should have been called upon to bear. We would enact the legislation making the lands included in the various dyking areas available for cultivation as quickly as possible. This whole question call your prompt attention and settlement upon a basis which shall be at once just to the owners of these lands and fair to to the taxpayers of the province as a whole.

(c) In the interest of agricultue in what is commonly known as the dry belt, the question of the proper utilization of the water supply for irrigation purposes demand and receive prompt attention from the government.

ROADS.—The present lack of system of constructing and maintaining roads and trails is productive of a serious waste of public, and in this connection more can be done to open up new districts, where roads are needed, and at less cost than what has been done in the past, under the wasteful and corrupt system which has been so long in vogue.

PUBLIC HEALTH.—The Health Act should be amended so as to meet the growing requirements of unincorporated districts in respect of sanitation and isolation, as to which do adequate provision is now found in the statutes.

PROVINCIAL RIGHTS.—Regardless of all question of party affiliation, the rights of the province under the constitution should be jealovsly guarded. While, from the point of view of Dominion politics, we heartily support the government now in power at Ottawa, we shall at the same time insist most firmly upon the protection of our people by the exclusion of Oriental labor, and we shall also insist upon the right of the province to make such provisions as it shall see fit in all contracts grants and leases under provincial control. We shall also strenuously press upon the Dominion government a readjustment of our financial relations and we claim the full enjoyment of all rights given us by the letter and spirit of the constitution.

In conclusion, we appeal to all patriotic voters in British Columbia to seize the opportunity now presented to them to rid the province of that incubus which has been so disastrous to its progress, and to secure sane, progressive, and stable government by placing the liberals in power at Victoria.

Stuart Hendrson, President.
T. S. Baxter, secretary.

LOCAL EXTRACT

Mrs. E W. Bishop returned on Wednesday last from a three months visit east.

Mr. T. B. Winnet left yesterday for the East where his father is dangerously ill.

Mr. A. Tufts of St. John, N. B., who has been making an extended trip of the west, was in the city Wednesday. He was shown around some of the mines and was much impressed with the extent of work being carried on.

Ainslee McGraw deputy mining recorder for Beaverdell who has been in town on government road business left Wednesday for the West Fork where he will superintend the construction of the wagon road.

Mark F. Madden president of the Providence Mining Company and C J. McArthur have returned from a trip up the West Fork. They intend to take a trip into the Similkameen to expert some properties near Hedley city.

Clement Vasher foreman of the Sally mine in the West Fork country is building a trail up to the mine, and work in the mine itself will resume almost immediately. Ore will be raw hided down to Beaverdell and shipped from there by teams to Midway.

A. H. Lawder has returned from a trip to Dayton Camp near Camp McKinney. W. Yorkin and C. Hamilton are busy developing the Dayton and will ship a carload of rich free gold ore to the Boundary Falls smelter in a few days. The Dayton looking exceptionally well.

Rev. J. F. Betts of Grand Forks will be thepreacher for next Sunday in the Methodist church. The occasion will be the Harvest Home and church anniversery services united. The decorating committee are determined that if possible the decorations this year shall for variety, beauty and arrangement exceed those of former years. On Monday evening an excellent programme will be rendered and refreshments served. Admission fee on Monday night 25 cents.

A somewhat serious wreck occurred Tuesday on the C. P. R. A train loan of ore on its way to the Boundary Falls smelter left the rails on the sharp curve in the rock cut opposite the smelter office. Nine cars in all left the rails and it is peculiar that not one was overturned, most of them being replaced without unloading. The road-bed for two or three hundred feet presented a scene of wildest confusion of twisted rails and broken ties. A wrecking crew from Eholt along with the extra repair gang worked all night and had things in running order on Wednesday morning.

W. H. Ramto of Beaverdell is in the city on mining in connection with the Rambler mine. It is understood that F. J. Finucane who owns a quarter interest in the mine, has made overtures to J. W. Nelson and Mr. Ramto to take over their interests in the property and resume work at an early date. Mr. Nelson is now at Spokane, conferring with Mr. Finucane regarding that proposal. It is to be hoped that a satisfactory arrangement will be made as it means much for that section of the country.

It is an ill wind that profits nobody. For years the West Fork country has been at a standstill, because the government refused to complete the wagon road leading into that district. Now in order to improve the chances of the conservative candidate in that locality it has been deemed expedient to resume work. Findlay Macdonald left Tuesday with a camp outfit and supplies for Bull Creek the present terminus of the road. It is to be hoped that the work will be finished before the winter sets in, so that the Rambler, Butcher Boy, Sally and other claims can ship the ore that has for years been sacked ready for shipment.

Challenge

To the Editor of the Greenwood Times,

Dear Sir:- Geo. Johns who won the drilling contest in Greenwood during the late celebration, has been making remarks regarding my drilling that I think calls for some reply. Now, if Johns is the driller he claims to be, he can prove it by accepting the following proposition: I will drill him for five, ten or fifteen minutes, which ever he chooses; steel and hammers to be regulation size and weight, contest to take place in Greenwood on the same rock as was used celebration day, for $50.00. Money to be posted in Times office by Sept. 24th and contest to take place not later than Sept. 30th. Money to be forfeited in case he does not make his bet good.

Trusting to hear from Johns at an early date. I am,

Yours, etc.,

Sam Shovel.

They Make You Feel Good.

The pleasant purgative effect experience by all who use Chamberlain's Stomach and Liver Tablets, add the healthy condition of the body and mind which they create makes one feel joyful. For sale by J. L. White Greenwood and A. F. Thomas Midway.

Spokane Interstate Fair

The Stevens County Fair is to be held from September 28 to October 1, at Colville, the county seat. G. B. Ide, secretary and manager of the fair says it will be first class in every particular. At it close it is the intention to ship the entire exhibit to the Spokane Interstate Fair and have it put up in one location, where it where it will make a big advertisement for the resources of the country. The Spokane fair opens October 5, which gives Stevens county ample time to ship the exhibit and put it up, This undoubtedly will be one of the finest exhibits made at the fair, for no country is supplied with a greater variety of resources. The exhibit will include all manner of farm products, including fruits, vegetables and grains, marble of the finest quality and mineral and lumber. As far as known at the present time this is the only lumber exhibit that will be made at the fair.

Be Quick.

Not a minute should be lost after a child shows symptoms of cholera infantum. The first unusual looseness of the bowels should be sufficient warning. If immediate and proper treatment is given, serious consequences will be averted. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the sole reliance of thousands of mothers and by its aid they have often saved their children's lives. Every household should have a bottle at hand. Get it to-day. It may save a life. For sale by J. L. White, Greenwood, and A. F. Thomas Midway.
