FROM THE WEST

Percy F. Godenrath Returns From Similkameen.

THE NEW COAL MEASURES

Development Work Carried on During Summer.

Percy F. Godenrath returned to from the Similkameen district on Monday last and left for Spokane to be absent about 10 days. Speaking of the trip he said : "It is nearly a year since I was last in the Similkameen and during that period much has been done to demonstrate the fact that valuable seams of coal underlay what is described as the Princeton coal basin. This basin, according to William Blackmore M. E., who is consulting engineer for the Ashnola Coal Company, is roughly nine miles in length by from seven to eight miles in width. It contains both lignitic and bituminous seams of coal. During the summer three different companies have been exploiting the coal measures at depth by the aid of bore drills. The Ashnola Coal Company's drill was sunk to a depth of 1,000 feet, on land adjoining the Vermilion Forks Mining & Development Company. At a depth of 700 feet the drill passed through a six foot seam which is believed to be bituminous. With a six inch shale parting, a second seam was encountered four feet in thickness, making practically a ten foot seam. These are the upper seams in a series which consists of three zones and it is estimated that the whole of the coal bearing strata will be passed through at a depth of 1,500 feet. This fully demonstrates the predictions made by Mr. Blackmore, last fall, and also establishes the fact that whether or not coking coal is found, the coal will make a high grade steam and domestic fuel

"From Mr. Earnest Waterman, manager of the Vermilion Forks Mining & Develapment Company, an English company, I received considerable data, regarding the operation of his company's bore-drilling. This company has two coal leases one for 312 acres, immediately adjoining the townsite of Princeton and another for 640 acres. The bore operations have been confined to the townsite, and two holes have been sunk respectively 280 and 303 feet, and a third is being put down. On the first, at a depth of seventy feet a seam 18 feet five and one half inches was passed through, as also two other seams four and six feet in thickness. Below the larger seam no other coal was struck. In the second hole at a depth of 202 feet a five foot seam was passed through. The third hole at the time I left Princeton was down 110 feet and in sandstone. The analysis of the sample of coal taken fram the second showed 47 per cent carbon, and when one considers that the coal is more or less mixed in with the sandstone drillings the per centage is good. Samplings of the coal taken fpom the pit give as high as 53 per cent carbon. In fact it is a high grade steam and domestic coal.

The third drill was in charge of Alexander Sharp, M. E., representing the Holt syndicate. Absolutely no information was obtainable in camp regarding what was encountered, beyond the fact that several seams of coal were penetrated. The information I obtained, while not authentic, stated that the bore was sunk 823 feet. Certain it is that Mr. Sharpe expressed himself as pleased with the results obtained,

"The Osoyoos & Similkameen Coal & Exploration Company which I represent has acquired 10 coal claims, in different sections of the basin. After title has been obtained the ground will be surveyed. We have some splendid showings of coal."

Do you use Blue Ribbon Tea ?

Canada's Share in the Fair

Will be Represented in all Important Departments.

WORLD'S FAIR, ST. LOUIS, Oct., 20—President Francis has assigned to Canada a commanding site for its building at the World's Fair. It will be near the Administration Building and near one of the main entrances. Mr. William Hutchinson, the Canadian Commiisioner accompanied by W. H. Hay, chief decorator and superintendent of installation, has been here to receive the allotment. The Dominion will not only have a special pavilion of its own, but will also be represented in the principal departments. The exhibits from that country will be representative of agriculture, horticulture, mines and minerals, forestry, live stock and manufactures.

Canada's pavilion will be a rendezvous for Canadian visitors, and will be tastefully decorated of trophies made up of fruits, cereals and grasses. While in the city Commissioner Hutchinson conferred with President Francis and other officials of the Exposition. He will now make estimates of the space required in the exhibit buildings. The commissioner has available for his purposes about $125,000, and he has also the machinery of an established and permanent exposition bureau which forms a part of the department of agriculture.

Mining Notes.

A rate of $2.50 a ton has been made by the Kettle Valley lines for trial shipments of ore from the Republic mines to the smelters at Trail and Nelson.

Immense deposits of high grade iron ore have been discovered in the Cascade mountains in the state of Washington by prospectors from Everett.

Mining in Sumpter, Ore., is enjoying a mild boom caused by a rich discovery having lately been made on the Cracker-Oregon properties.

C. W. H. Sansom will start work in a few days upon the Gold Finch. This property was bonded and leased a few months ago by Jas. Sutherland and Phil McDonald of Greenwood and several cars of high grade ore were extracted and shipped to the Trail smelter, netting the operators a handsome profit. Now that Mr. Sansom has got the property back in his own hands he will do some mining on his own account.

Several large nuggets have been picked up on Dragon Creek about 15 miles from Barkerville. One of the nuggets was worth $110. The property is owned and operated by Tacoma capitalists.

A trial shipment of 165 tons of ore from the Iron Mask mine at Kamloops to a Boundary smelter yielded a net profit of $20.00 per ton.

It is announced that a new company has been formed for the purpose of acquiring the Rathmullen group in Summit camp.

The Cariboo Gold Mining company of Camp McKinney will declare a dividend of two and a half per cent on the capital stock next month.

Slocan Star Fatality.

The Slocan Star mine has had its first fatal accident. On Thursday evening David Kerr, the son of a P. E. I. doctor, who has been an employee at the Slocan Star for several years was crushed to death by the fall of about a ton of rock in the tunnel connecting the above property with the Silversmith.

Kerr was clearing the track of muck preparatory to running out his car when the mass of rock fell striking him on the back and head killing him instantly.

THANKSGIVING

How the Day Was Spent in Greenwood.

A SHOOTING TOURNAMENT

Delightful at Home Given by Local Oddfellows.

Thanksgiving Day was generally observed in Greenwood. All places of business were closed and many took advantage of the glorious weather to spend a day in the open air.

In the afternoon a shooting tournament was held at the athletic grounds. There was a large attendance of spectators, who thoroughly enjoyed the efforts made to hit the bull'seye. In fact it appeared as if some of the contestants were shooting under a misapprehension. They evidently considered that the object of the contest was to avoid piercing the bit of canvas placed against the hill. From this point of view they succeeded admirably. On the other hand some exceptional scores were made, when it is considered that it was the first shoot ever held in Greenwood, and that the rifles were of every age and make.

There were two contests, both 200 yards. In the first each contestant was given five trials, the possible score being 25. There were twenty entries. W. H. Webb and G. E. Richardson tied for first place with a score of 17. The first six were as follows :

W. H. Webb	17
G. E. Richardson	17
A. Logan	14
C. E. Merritt	13
A. D. Hallett	13
W. G. McMynn	11

Webb and Richardson in shooting off the tie again tied, but finally Webb hit the bull'seye while Richardson got an inner.

In the second contest the contestants had three shots, with a possible score of 15. A. Wilmot was the victor, the highest scores following :

A. Wilmot	11
G. E. Richardson	10
A. Logan	9
J. G. Martin	9
A. D. Hallett	8
F. W. McLaine	8
J. R. Porter	8

The most exciting contest was that between W. M. Law and J. L. White. It was decided that they shoot until one or the other hit the target, when the fortunate one should be declared the victor. After several rounds of ammunition had been used, the scorer announced that Mr. Law was the better shot, as he had succeeded in making an outer. Mr. White states that he has evidence that the scorer had become tired and that he made this announcement simply to end the contest. It is likely that this charge against the scorer will be investigated further.

Those taking part thoroughly enjoyed the outing, and judging by the large number of entries and the interest shown by the spectators, there is no good reason why a strong rifle association should not be organized here.

In the evening the Oddfellows were at home in their comfortable lodge room to about one hundred members and their friends. Cards and various other games were played, an interesting programme of songs, music and speeches was carried out, and tasty refreshments served. Everyone was made to feel at home and the committee in charge, Messrs. Holmes, Mortimer and McKenzie, were congratulated on all sides for the success of the affair.

At the various homes the day was quietly spent. Mrs. Caulfield gave an afternoon at her cosy residence on Kimberley avenue, which was attended by a large number of ladies. Turkeys and other good things were plentiful at homes and hotels. While there is no boom in Greenwood, it is something to be thankful for that there is no distress, but that all have plenty.

Blessing of the Bell.

Interesting Service in Sacred Heart.

His Lordship Bishop A. Dontenwill of New Westminister, owing to the train being delayed, missed the boat at Arrowhead, Friday morning and consequently cannot reach here for Sunday. The interesting and impressive service of blessing the bell is therefore delayed until the following Sunday when at ten a. m. the service will begin His Lordship will be assisted by Rev. Father Bedard O. M. I.

The new bell which is to be blessed on Sunday at the Sacred Heart Church was purchased from "The C. S. Bell Co., "Hillsboro, Ohio, U. S. A. It is made of an alloy of Cast Steel and Crystal Metal peculiar to that firm, and is the best of its class; it is 34 inches in diameter and weight 487 lbs. complete, except ropes, the bell and mountings weigh 764 lbs.

LOCAL AND PERSONAL.

E. J. Wilson has returned from a visit to Spokane.

Thos. Parker, inspector of weights and measures, is here on official business.

Blake Wilson of P. Burns & Co. and F. B. Black the firm's auditor was here this week.

R. L. Cawston came over from Keremeos this week with a bunch of cattle for P. Burns & Co.

Born—At Greenwood, B. C., on Saturday, the 11th inst., to Mr. and Mrs. Thos. McDonnell, a son.

Mrs. A. E. Godenrath came over from Grand Forks to meet her son Percy, and will remain here for some time.

The old court house is being moved to the new government site. Smith Bros. have the contract.

Thos. McDonnell is wearing a broad smile these days. There is a recent arrival at his house. It is a boy.

R. L. Ford, agent for the Chicago, Milwaukee and St. Paul, with headquarters at Spokane, was in the city this week.

Jas. Anderson manager of the Bank of B. N. A. Rossland is here spending his holidays and seeing his numerous old time friends.

The Clarendon after being renovated and refitted throughout has been reopened with Fred. Munn in charge. The bar fixtures and decorations are tasty and everything attracts the thirsty.

Are you using "Blue Ribbon Ceylon tea" ?

I. Ostroski of the Greenwood Trading Company was called to Spokane last week by the serious illness and subsequent death of his wife. Mrs. Ostroski had been ill for a long time and lived in Spokane to secure medical treatment. The interment took place at Spokane. Besides the bereaved husband she left two sons who are going to school in Vancouver.

For sale the finest 6 foot show cases in the land. 2nd Hand A. L. White & Co.

W. A. Keith of the firm of Keith & Ketchum eame down from Beaverdell on Tuesday. He reports times very quiet up the West Fork. Only about 15 men are at work on the properties around Beaverdell and there is no one left at Carmi and not a single miner is working between West Bridge and Beaver Creek. This state of affairs he of course lays to the non-completion of the West Fork wagon road, as all the properties in the district upon which development work has been done are looking well, and several of them are in a position to begin shipments as soon as there are any transportation facilities to the Boundary reduction works. Mr. Keith returned to Beaverdell on Wednesday.

A GREAT CROP

An Exceptional Harvest on Anarchist Mountain.

R. C. SIDLEY, J. P., WAS HERE

He Explains Matters in Connection With the Waterloo.

R. G. Sidley, J. P., Anarchist Mountain, was in the city this week. Mr. Sidley reports an exceptional harvest this year. The yield was prolific, and the splendid weather permitted harvesting the crop in the very best shape. Mr. Sidley himself has tons of grain, but he is in the same predicament as other farmers in that vicinity—without a market. They are anxiously awaiting the advent of a railway, when the Anarchist Mountain district will become one of the most important agricultural sections of the province. The acreage is there, the soil is rich and seemingly inexhaustible, and the climate perfect.

In the meantime the farmers are feeding the most of the grain, and selling cattle and hogs. The long haul on wagons would eat up the sale price for grain at the nearest market—Greenwood.

Mr. Sidley's name has been connected with the alleged jumping of the Waterloo claim in Camp McKinney. The facts are that Mr. Bennett, who re-staked the Waterloo, held a claim near the Waterloo in conjunction with Mr. Sidley. This claim ran out, and Bennett re-located at midnight in another's name. At three o'clock the following morning the then foreman of the Waterloo jumped Bennett's claim and adversed his record. He went to Mr. Sidley for advice, and as the latter is a Justice of the Peace and well versed in the mining law, he pointed out that as the Waterloo company had allowed its free miner's license to lapse, the Waterloo claim was vacant and open for re-location. Bennett promptly relocated the claim, and now negotiations are under way for a cessation of hostilities.

Neck broke, eyes out, house upside down. "Old Cap" will clean your chimney etc. etc. Leave word at Queen's Hotel or O. I. C. New & second hand store.

Old Timer is Back.

Charles M. Rendell one of the pioneers of the Boundary returned this week from Newfoundland where he resided for the last four years. Mr. Rendell was accompanied Mrs. Rendell and they will reside here in the future, probably at Eholt. Mr. Rendell came to Kettle River about 15 years ago and engaged in mining and ranch- until 1898 when he returned to his old home in Newfoundland. Having once breathed the free and bracing air of the west he couldn't remain among the fish and fog and decided to come back for good. All the old timers were glad to see his genial countenance and hope that he may get fame and fortune here He is a brother of Geo. Arther Rendell of Rendell & Co.

"Hello, Bill," answer to the call "advertise." Note us, the O. I. C. New & Second Hand Store, A. L. White & Co. opposite A. H. Sperry Co.

Ralph W. Trotter Coming.

Rev. Ralph W. Trotter, of Columbia, will give an address at the first public meeting of Greenwood Socialist League No. 50, at the City Hall on Friday evening, Nov. 7. A good musical programme will be provided. A special invitation is extended to the ladies. Everybody welcome.

FRIDAY, OCTOBER 17, 1902.

AN OPEN LETTER.

TO THE HONORABLE W. C. WELLS,
Chief Commissioner
of Lands and Works.

Greeting: You occupy an important position in the government of this province. When you took charge of the Lands and Works department you inaugurated certain reforms that indicated a better condition of affairs and the hope that the spending department of the government would be exploited in the interests of the people and with the view of developing the natural resources of the province. But like most men who abandon principle for expediency and endorse any leader or any policy to retain position, you have proved a disappointment. The Lands and Works department has retrograded to the position which it so long and so consistently occupied and through it, it is apparently impossible for the people to secure any measure of justice.

In nothing have you more griveously disappointed than in the matter of the West Fork road. This is no new subject. Your attention has been directed to this important public work by delegation after delegation, by petition after petition, by representatives in the legislature, by your colleagues in the cabinet and by the public press who have made the most of the scandal attached to the miserable fiasco. You have invariably promised to do something, but nothing has been done. You are aware that many people went into the West Fork country and invested their money there believing that the word of a man occupying the prominent position which you hold was worthy of some credence. These men after wasting three hard years have left, execrating the government and conditions in the province. Two years ago you promised that the road would be completed regardless of cost; one year ago you promised that it would be completed next summer; this summer you promised to complete this fall; this fall you promised to send in your superintendent. It is now within six weeks of certain winter and not even the last of these promises has been fulfilled. Your colleague, the minister of mines, during his visit here was so impressed with the urgency of this work that he wired you to do something immediately and you did nothing.

You are not even keeping faith with the legislature which voted supply. If you turn to page 267 of the statutes of British Columbia, 1902, you will there find in an act for granting certain sums of money for the public service of the province of British Columbia that while other large constituencies received only $14,500 for roads, streets, bridges and wharves, East Yale received $27,250. The reason you offered for this large appropriation was that money was needed for the completion of the West Fork road. When it was suggested to you that a special vote should be made for this purpose and the East Yale vote reduced to that of similar constituencies you replied that such a course was not necessary but that the West Fork road could be built with the extra money in the East Yale appropriation.

The reason for this unusual proceeding is now apparent. The East Yale district was subdivided by the redistribution bill. A new constituency was created south of Penticton and Mr. Price Ellison was left in peaceful possession of the rich agricultural Okanagan valley. You and Mr Ellison are evidently labouring under the impression that the new district south of Penticton is entitled to no public money for public works. While the farmers of the Okanagan are enjoying a plethora road work and a saturnalia on public funds, it is impossible to secure the expenditure of a dollar in necessary public works in the unfortunate, newly created district in the south. Is the whole of the $27,250 going to be expended in the vicinity of Vernon where Mr. Ellison resides. That can certainly be done as the vote is a general one, but it is not keeping faith with the legislature.

It is said that you are never happy unless following an ignis fatuus and that one E. H. Thurston, a gentleman of England, is it in this case. Some time ago Mr. Thurston offered to build a cheap road up the West Fork and you have been kicking yourself that you did not accept this offer. You hope that he may yet make a similar offer which you are willing to accept so that you can get out of the scrape as cheaply as possible. But things have changed with Mr. Thurston. When he made that offer he was anxious to get a road to haul out Carmi ore. Since then he has offered to buy adjoining properties but thought the price asked too high. He is wealthy and has wealthy associates. The longer the construction of the West Fork road is delayed the easier it will be to get valuable mining properties at less than they are worth. Mr. Thurston and his friends, having been delayed at the outset, can now afford to wait one, two or three years if need be. A London club is much more comfortable than a West Fork shack.

Providence may intervene to help you out. With an exceptional fall winter may be delayed until December. Prompt action and placing the work in charge of the right man will complete the road in five weeks. Leave your be-stockinged engineer at home and send a practical road man up there. He can do the work before the snow flies.

This appeal is just as likely to fail as have all others made to you in this connection. There is only one other power left to move you—the silent yet potent ballot.

Hon. Col. Prior strenuously objects to recent resurrection of the Messiah of the Provincial Conservatives.

Premier Dunsmuir, instead of trying to satisfy some of the political rumors that were circulated during his absence from the province, is quietly exploring some of his vast dominions in the centre of Vancouver island.

For Sale.

RUSSELL--LAW--CAULFIELD CO.

LIMITED.

Fast Steamers to Canada.

Dominion and the Empire Soon to Have Joint Service.

Boston, Oct. 11.—Sir Frederic Borden, Canadian minister of Militia, who is a visitor in this city, in an interview today made known the fact that the Canadian and British governments had decided to jointly establish a fast steamship service between Halifax and Liverpool with an annual subsidy of $1,135,000 for three years.

It is practically decided, Sir Frederic said, to establish without delay a service beginning with 20 knot boats to be accorded a subsidy of $750,000 a year from the Canadian government and $375,000 additional from the British government. He could not say yet whether the Canadian Pacific company or syndicate of steamship companies comprising the Allans, Elder, Dempster and other lines would get the contract

The steamers will make their terminus, in the winter at least, at Halifax. The terminus in the United Kingdom will probably be Liverpool.

Touching the subject of reciprocity with the United States, the minister said that the Canadians had made advancements at various times in the last 20 years, but he declared that they had met such cold receptions at Washington that they latterly have become convinced that the government there was not disposed to make a fair agreement, and Canada therefore turned her alsewhere with splendid results.

MORTGAGE SALE.

To Edward Nash and William H. Asquith, both formerly of the City of Greenwood, British Columbia, Painters, and to the Consolidated Stationery Company, Limited.

I, George R. Naden, of the City of Greenwood, in British Columbia, Broker, hereby give you notice that I demand payment of the sum of Two Hundred and Eighty-five .....Dollars. being principal and interest due and payable to me upon a certain mortgage, made by you, the said Edward Nash and William H. Asquith, to me, dated the 27th day of February, 1901, and registered at the Land Registry Office at Kamloops on the 6th day of March, 1901, in Charge Book, Vol. II, Folio 721, as No. 20151.

The lands included in the above mortgage are:

All those certain parcels or tracts of land situate in the District of Yale, in said Province of British Columbia, and being more particularly described as follows:

All that piece of land situate in the Osoyoos Division of Yale District and described as Lot fourteen (14) in Block thirty-two (32) in the Town of Midway, as the same is shown on the map or plan of said Town deposited in the Land Registry Office at Kamloops and numbered three 3).

Also all that piece of land situate, lying, and being composed of Lot twenty-three (23) in Block "J," according to a map or plan deposited in the Land Registry Office at Kamloops and numbered forty-six (46), of the subdivision of part of the "Mammont" Mineral Claim, being Lot 879, in Group 1, on the official survey of the said Osoyoos Division.

And also that piece of land situated in said City of Greenwood, and being composed of Lot eighteen [18] in Block "N," according to the plan of the subdivision of said "Mammont" Mineral Claim, deposited in the Land Registry Office at Kamloops and numbered forty-six [46.]

And take notice that unless payment of the said mortgage money and interests and costs be made within three weeks from the first publication hereof, I will proceed, with or without any consent or concurrence on your part and without any further notice to you, to enter into possession of the said premises, and to sell and absolutely dispose of the said lands and premises, either by public auction or private sale, as I, the said George R. Naden, may deem proper, either for cash or upon such terms of credit as I may think proper, and to convey and assure the same when so sold unto the purchasers thereof, as I shall direct or appoint.

Dated at Greenwood, B. C., this 10th day of October, A. D. 1902.

GEORGE R. NADEN,
Mortgagee.

HALLETT & SHAW,
Solicitors for Mortgagee.

Under and by virtue of the powers contained in the above recited mortgage, which will be produced at the time of sale, the above mentioned and described lands and premises will be offered for sale by Public Auction at the Post Office in the City of Greenwood in British Columbia on Monday the Third day of November, 1902, at the hour of Twelve o'clock noon.

On one of the lots in Greenwood, are a house and paint shop and a two room shack, and on the lot in Midway a shack.

Dated this 14th day of October, 1902.

GEO. R. NADEN,
MORTAGEE.

For terms and conditions of sale, apply to Hallett & Shaw, Solicitors for Mortgagee, Greenwood, B. C.

MUNICIPAL NOTICE TO TAXPAYERS

Public Notice is hereby given that all taxes due the Corporation of the City of Greenwood, must be paid to the undersigned on or before

October 31st, 1902

to entitle the taxpayer to a rebate of of ONE-SIXTH on the general tax for the year 1902.

Householders are notified that before they can make the necessary declaration entitling them to be placed on the municipal voters' list for 1903, the road tax for the current year must be paid on or before Nov. 1st, 1902.

G. B. TAYLOR, Collector.

Greenwood, B. C., September 8th, 1902.

The Spokane Fair.

Postmaster Frith, Chief of Police Hallett and Geo. Miller returned on Sunday from Spokane where they had been attending the Interstate Fair. They report the fruit and stock exhibit as good but the other exhibits were far below their expectations.

The racing was pronounced first class. W. A. Clark, Jr. of Montana had a fine string of horses at the park.

Financially the exhibition has been a success and as an annual affair is welcomed by the people of the mining towns of British Columbia as an opportunity of taking a short vacation in the outer and larger world.

On the return from Curlew the stage upset, but fortunately no one was seriously injured.

$75—$150—$200—Pianos for sale or rent. A. L. White New and 2nd hand store opposite A. H. Sperry Co.

High Values

Secretary Gaunce of the Board of Trade is collecting ore for the immigration office at Winnepeg, the chief of which asked for a collection through A. J. McMillan some time ago. Samples were secured from the surrounding mines, including the Providence. An assay as secured of a sample taken from the Providence dump. The return was 836 ounces silver and $6 in gold.

NOTICE.

LOTS 1 and 2, Block 4, Map 34, a valuable business site, situated on Government Street, Greenwood, near the Armstrong Hotel, will be sold by Public Auction to the highest bidder, for cash, on Thursday, October 30th, at 11 o'clock a. m. The sale will take place upon the premises. Intending purchasers will satisfy themselves as to title. The documents of title may be seen at the office of

ARTHUR M. WHITESIDE,
Barrister-at-law.
Rendell Building, Greenwood, B. C.

COURT HOUSE, GREENWOOD

SEALED TENDERS, properly endorsed, will be received by the undersigned up to and including the 16th instant for the erection and completion of a Court House at Greenwood, B. C.

The drawings, specifications and conditions of tendering and contract may be seen at the Public Works Engineer's office, Lands and Works Department, Victoria, B. C.; at the Government Agents' offices at Nelson and Greenwood, B. C., and the office of George D. Curtis, Esq., architect, Grand Forks, B. C., on and after the 4th inst.

Each tender must be accompanied by an accepted bank cheque or certificate of deposit, made payable to the undersigned, for the sum of one thousand ($1,000) dollars, as security for the due fulfilment of the contract, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied and signed with the actual signature of the tenderers.

The lowest or any tender not necessarily accepted.

THE EDITOR'S EASY CHAIR.

Ottawa, Oct. 11.—In view of the row raised by the salmon canners of British Columbia, against the introduction of black bass to waters west of the Rockies, the Department of Marine and Fisheries has decided not to stock any of the British Columbia mountain lakes.

As the bass had already been removed from the Government ponds near Belleville, and all arrangements made for their shipment west before the canners' complaint was received, it was decided to place the fish in the lakes in Alberta lying between Calgary and Edmonton. The special car conveying the black bass will leave Ottawa today for Calgary.

The above despatch will not prove interesting reading to the people of the interior. After long and continued effort they succeeded in arranging with the Department of Marine and Fisheries for the transplanting of black bass to some of the interior lakes. As these lakes find an outlet in the Columbia river, and as the salmon in the Columbia do not rise above the Dalles, it is difficult to understand why the salmon canners interfered. The stocking of these interior lakes would not have interfered with their business in any way. In any case they should not, like the coal baron of Pennsylvania, have assumed that they are possessed of divine rights and every whim of theirs must be obeyed.

It is said that black bass are voracious, but in this respect they are not in it with the salmon canners.

The people of Greenwood and Cascade went to considerable expense in arranging for the shipment. They sent men to Revelstoke to meet the fish and all are greatly disappointed. The department we think exercised undue haste in listening to the complaints of people. who were not interested in the matter. As was stated it is difficult to understand why B. C. canners should be so anxious about black bass who if they started seaward would reach the ocean only by the way of Astoria, Ore. Possibly the canners, like the rogues, all stand together and they were looking after the interests of their American brethren.

Newspapers have a nasty habit of never reaching the persons to whom they are addressed. It is difficult to say where the fault lies. A number of reasons could be suggested but the indignant subscriber in nearly every instance blames the poor publishers. Every week brings one or more protests. The language is sometimes moderate--sometimes it isn't. It is not often however that we are blessed with an effusion similar to that received from an esteemed subscriber in Liverpool, England. The mail service must have been treating him in a shameful way before he could be induced to pen the following to the editor of the Times:

DEAR SIR: Reading the cheerful and seductive remarks burst upon an admiring world from your Editor's Easy Chair on the 5th of September, we feel that what has at long been a profound mystery to us has at last come to the light of day, as in one of the "big commercial centres of Great Britain" it has puzzled us to account for its non-appearance on many occasions during the year. Now we understand that our copy is somettmes borrowed (and not returned) and sometimes stolen by an admiring but under-scrupulous non-subscribing public. As we greatly appreciate the news, the wit, and the humor, of your honored publication we should rejoice greatly if all the inhabitants of the Boundary district would become subscribers to the Greenwood Times, so that temptation might be for ever removed from those who steal and those who borrow but return not again, and we be left in peaceful and regular possession of our literary food.

Yours admiringly
and respectfully,

C. & W. Land Reserve.

By a curious anomaly governments by their passivity ignore the very functions for which they exist. A concrete illustration is the failure of the Dunsmuir administration to the reserve on certain government lands in the Boundary district, thus retarding, or more strictly speaking, obstructing the development of vast resources only awaiting the application of capital and labor to be converted into tangible wealth. Some years ago this entire district was blanketed with an official reserve in order to enable the C. P. R. to select land it was entitled to under a clause in the charter of the Columbia & Western railway. The C. P. R. having made its selections, and the balance remaining vested in the government no reason exists why this governmental interdiction should not be abolished with all possible speed. As long as this reserve is maintained prospectors are debarred from making locations for coal or pretroleum. The executive promised nearly a year ago to abolish the reserve and we are credibly informed actually prepared the official advertisements. but for some mysterious reason never published them in the Official Gazette or the district press, an act of precedure required by law. Only one sentiment prevails in the Boundary respecting the duty of the government in regard to the matter. The feeling is a good deal stronger than the politicians imagine and unless relief is granted forthwith it will assume proportions that can not much longer be unheeded at Victoria. If the government styles itself "a business-man's administration" it should get a move on and not belie its boasted pretentions. Coal and pretroleum are known to exist in the region embraced in the government reserve but so long as the reserve continues, pioneers who spy out our natural riches are debarred from the fruits of their toil. The question is a still broader one for every resident of the Boundary wants the development of the country to proceed apace. If the government realizes its duty to the district it will lose no time in complying with the unanimous wishes of the people. Hard workins and honest prospectors under existing conditions are not unlike the coral insects: "They toil, but they enter not in."—Grand Forks Gazette.

Information Wanted.

Information is wanted of the address of FRANK KERNOHAN, formerly of Edmonton, N. W. T., who about two years ago was a resident of the City of Greenwood, B. C. A small legacy has been left in his favour.

HOUSE-KEEPERS ATTENTION!

W. H. Covert begs to announce that on or about October 15th, he will be able to supply all the Boundary market with delicious home grown prunes from his own orchards. These prunes will not be picked green as are prunes shipped from a distance but will be allowed to ripen on the trees, thus securing a delicious flavor. The price will be cheaper and quality better. There will be enough for everybody and housekeepers and others are strongly advised to wait for the home grown product.

COURT OF ASSIZE

To be Held in Greenwood on October 27.

ARE NO CRIMINAL CASES

Some Interesting Civil Suits Will Be Tried.

In that learned, legal language, which is always so unique and expensive, a sitting of the Supreme Court as a Court of Assize, Nisi Prius, Oyer and Terminer, and general gaol delivery, will be held in Greenwood on the 27th inst. Owing to the criminal cases originating in this district having been tried at Nelson, there will be none here unless some citizen is good enough to take the rather unusual proceeding of seriously offending the law. It has not yet been announced who is coming here to preside, but as the Chief Justice is taking the interior circuit, it is likely he will decide to come in here.

There will be some interesting civil suits. Among these will be that of the Greenwood Electric Company, Ltd., vs. the Waterous Engine Company, Ltd., for damages for breach of warranty of an engine. The plaintiffs allege that a McEwen Simple Engine 18x18, purchased by Duncan McIntosh as trustee for them in November of 1899 and received in the following January, was not properly constructed, was defective mechanically, and consequently was not first class machinery according to warranty. They accordingly claim (a) cost of removing defective parts of engine and replacing same with properly constructed machinery, $945, and (b) for loss of fuel caused by said defective construction, 438 tons per annum, or in two years and a half 1,095 tons at $5.65 per ton—$6,186.75; total $7,131.75. Defendants deny warranty as alleged or otherwise, or that plaintiffs have suffered alleged or any damage by reason of any act or fault of defendants, and make counter claim for $341.75 for repairs made on two occasions to engine at plaintiff's request.

Another action pending, one, however, that in the absence of the defendant from the province is not likely to come before the court just yet, is that of S. F. Parrish vs. R. Wallace Jakes, to obtain specific performance of an agreement re a one-half interest in the Bell mineral claim. This claim is reported to be one of the most promising of a number situate on Wallace mountain, near Beaverdell, West Fork of Kettle river. The half interest that is the cause of this action was, a couple of years ago, willed to Dr. Jakes by Alex. Wallace, an old time prospector in the Boundary, who died in Dr. Jakes' hospital about the time mentioned. This interest was sold to Mr. Parrish, who requires completion of the transaction.

$75—$150—$200—Pianos for sale or rent. A. J. White New and 2nd hand store opposite A. H. Sperry Co.

A new bridge is being erected across the Kettle River at Nelson, Wash., and will be completed by the first of the year. The new structure is a Howe truss with a 90 foot span and is being built far enough above high water mark to avoid any danger of being washed out during the spring floods. The bridge will cost $3,500.

Help! Help! fix up this D--- old stove, "Nit" says I, "Trade it of to 2nd Hand White or get 'Old Cap' to set it up."

FOUND—A bunch of keys. Owner can get same at Boundary Creek Times Office.
