FOWLER STRUCK IT

A Vein of Five Hundred Dollar Ore Uncovered

ON THE DEFIANCE CLAIM

The Veteran High-Grade Miner Is Again Successful.

Four inches of five hundred dollar ore and the vein widening. The property is the Defiance and the discoverer William Fowler, the father of successful high-grade mining in this district. The veteran mining man came in from camp Wednesday morning and in his pocket was a little sack of ore. "I have got it," he said, but the canny Scotchman didn't enthuse. He considered the strike the logical result of the work he started on the Defiance a short time ago. But Louis Bosshart supplied the enthusiasm. When he saw the ore he shouted "You have got it, Fowler. That's the stuff we got on the Defiance nine years ago. That's the richest ore in Boundary district. Have you got the vein? That's it. Lucky boy."

No wonder that Louis Bosshart should enthuse. He was one of the men who made locations along Providence creek in '94 and '95 who got high values, but who like the rest abandoned the high-grade narrow veins for the big copper ledges.

The Defiance is situated on the Providence mine. Nine years ago Howard C. Walters and his associates shipped ore from several of the high-grade claims to the Tacoma smelter, including ore from the Defiance, which was the richest of the shipment. The claim passed into the hands of Hal J. Cole of Spokane and Steele of Palouse. When Mr. Fowler sold the Providence he went to work to secure a working bond on the Defiance. He succeeded in getting a twelve months' lease and bond. A neat and comfortable camp was established, and with seven men Mr. Fowler began his trick of following the vein. This week he got it. There is four inches of solid ore and the vein is widening. The ore assays nearly 900 ounces in silver and an ounce and a half in gold. Mr. Fowler's judgment proved as errorless as it generally does in connection with a high grade mine. The rich vein was encountered where he expected it, and a new mine has been added to the growing list of high-grade shippers.

The Fremont, an adjoining property, owned by C. Scott Galloway, and recently leased by Alex Robinson and his associates, is also looking well. A rich vein has been uncovered, and although no values have been given out, the ore looks as if it would run high.

A BIG CELEBRATION

Miners' Union Arranging to Celebrate Their Anniversary

The members of the Greenwood Miners' Union are arranging to hold a celebration here on August 19. That date is the anniversary of the organization of the union in this district, and it was decided at a recent meeting of the union to commemorate the event by an annual celebration. It is believed the movement will meet with popular support not only because there is and should be in Greenwood the most friendly feeling towards the men in the mines and smelters, but also because there is likely to be no other celebration here this year. Midway celebrates Victoria day, Grand Forks takes Dominion day, and Labor day has by consent been given to Phoenix. Under these circumstances the movement inaugurated by the Miners' Union should be a popular one.

George F. Dougherty, secretary of the Greenwood Union, interviewed the city council Monday evening and asked for their assistance in making the celebration a success. The council heartily endorsed the movement and promised such financial assistance as the present state of the city finances would allow. The nature of the celebration has not been fully determined, but will include hose races in which several teams from surrounding mines will compete and a variety of miners' sports. It is also probable that a noted lecturer will come here and deliver an address on that day.

GRAND FORKS FAIR

Some Fast Horse Racing and Athletic Sports on Dominion Day

The Grand Forks Driving Park Association has perfected arrangements for a big two day celebration on July 1 and 2. The principal feature will be horse racing on their splendid half-mile track, which is in first-class condition for fast racing. New interest has been added to the Grand Forks meet, by the presentation of a $500 cup by Joseph Seagram, the millionaire distiller and lover of fast horses. To this cup has been added a purse of $300 by the association, and the race is open to all horses three years old and upwards. Horses from all parts of British Columbia, Washington, Montana and othern western states have already been entered and an exciting meet is fully assured.

Athletic sports have not been overlooked and substantial purses are offered for the various events on the program. Special rates have been arranged for on all railway lines. Greenwood is sure to send a large delegation to the Gateway city.

Cleansing the City

The city council at its regular meeting Monday evening decided to dismiss the city scavenger for a violation of the health bylaw, and appointed Crabb & Williamson to do the work, the change to take effect on June 30th. The council considered a report from sanitary inspector Currie, in which he made certain recommendations after examining the source of Greenwood's water supply and the alleys in the city. The city solicitor was instructed to take immediate action against all and sundry persons who have been in the habit of polluting the waters of Twin creek, officer Currie to assist in securing evidence. In accordance with these instructions solicitor Gray laid certain information before stipendiary magistrate McMynn and the cases will be heard at an early date.

For confectionery and other toothsome articles go to the South End Grocery. W. S. GRAHAM.

McDonald Replies.

The Butte Reveille, a "Heinze labor organ", in an editorial accused Dan McDonald, president of the American Labor Union, with being in league with the Amalgamated Copper company. Upon reading the article, in Denver, Colorado. McDonald sent the following telegram to the Reville: "Your statements regarding me in the Reveille are deliberate, premeditated, vicious, infamous, malicious falsehoods, and you are a liar and you know that I know that you are a liar."

THE BOARD OF TRADE

Visit of Members Chambers of Commerce Arranged

MR. EHRLICH IS PRESIDENT

Mr. Mytton Retiring President Complimented on His Good Work.

The regular meeting of the Greenwood Board of Trade was held Wednesday afternoon with President Mytton in the chair. Geo. F. Dougherty, secretary of the Greenwood Miners' Union was present and asked for the co-operation of the board in making the celebration a success. This was unanimously given by the board and the opinion was freely expressed that the celebration would be of great advantage to the city. Mr. Dougherty was also elected a member of the board.

A further letter was received from the secretary of the Montreal Board of Trade in reference to the visit in September of the members of the Chambers of Commerce for the Empire. The visitors will come to Greenwood in two parties of fifty each the first reaching here on September 14th, returning on the 15th and the other party coming and going on the days following. Mr. E. Jacobs secretary of the Greenwood Board was instructed to wire that the Greenwood Board would take charge of the visitors here and show them the mines and smelters and other points of interest in the vicinity.

Messrs. Jacobs, Gaunce and Whiteside were appointed a committee to arrange for the transportation of the visitors to the various mines and smelters.

It was reported to the board that some of the merchants were violating the implied agreement to close at seven o'clock in the evening. Messrs. Ehrlich, Dougherty and Elkins were appointed a committee to secure signatures to a petition asking that an early closing by-law be passed.

President Mytton annound that he would be leaving the city in a few days and expressed his regret at having to serve his connection with the city of Greenwood in whose future he had unbounded confidence.

J. R. Brown proposed a vote of thanks to the retiring president. He felt sure he was expressing the views of every member of the board when he stated that there was genuine regret because of Mytton's departure. All appreciated his worth as a citizen, his usefulness as member and president of the Board and his efforts in upbuilding the city. W. G. Gaunce seconded the motion in a few appropriate words of commendation and the resolution was carried with hearty applause. Mr. Mytton felicitously acknowledged the vote of thanks.

Julius Ehrlich manager for P. Burns & Co., was unanimously elected president and the Board then adjourned.

After Dunsmuir

At the 12th annual convention of the Western Federation of Miners held at Denver, they decided to continue the Vancouver Island coal strike to a finish, and active measures were taken. At present the collieries at Cumberland are in a very dangerous condition owing to the lack of competent men to keep them in repair. Chinamen are getting out the coal, which has resulted in many important matters being left undone. Dunsmuir cannot see that his friends, the Chinks, are ruining his mine, but he'll wake up some morning, have to employ competent miners and recognize the miners' union.

Phoenix Liberals

Phoenix Liberals reorganized at a large and representative meeting held on Thursday evening. The following officers were elected: President, Wm. Delahay; 1st vice-president, W. M. Roy; 2nd vice-president, J. B. Boyle; 3rd vice-president, John McRae; secretary-treasurer, E. H. Mortimer; executive committee, the above and A. J. Macdonald, J. E. Mills, M. Palorcia, C W. Greer and T. J. Hardy. Meetings of the association will be held the second and fourth Thursday of each month.

Tenders Wanted

For hauling ore from Morrison mine to nearest point on railroad. For particulars apply at office of B. C. Copper company, limited.

1t F. KEFFER, Manager.

R. H. Anderson, superintendent of the Denoro Mines, Ltd., has a crew of men doing railway work. They are also quarrying ore. Two spurs from the C. P. R. will be built into the mine. The grade for these spurs is now being made in solid ore. The spurs will run into open quarries on the Denoro from which unlimited quantities of shipping ore can be taken.

S. H. C. Miner at the head of the big Granby syndicate and H. N. Galer assistant manager were in the city this week and visited the mines and smelters in the vicinity. Mr. Miner is as confident as ever regarding the properties in which he is interested particularly and the district generally. He is also confident that his company will settle the coke situation as soon as they can develop their coal properties in Alberta.

J. L. Savage, a Northport business man, who with G. Arthur Rendell and Phil Austin is interested in two promising claims adjoining the Big Copper in Copper camp, arrived in the city this week and went up to the properties. He intends putting men to work. Mr. Savage a dozen years ago was an U. S. federal officer and made trips through the Boundary before there was a wagon road here. When here previous to the present visit, he camped at the mouth of Twin creek and was surprised to find a flourishing city on the site.

THE BEES ARE BUZZING

Political Aspirants Numerous in Greenwood.

PROSPECTIVE CANDIDATES

Liberals Are Arranging to Hold a Convention.

Political bees are beginning to buzz in Greenwood and the said bees show a decided partiality for the head gear of certain prominent citizens. Both the Liberal and Conservative parties have several members who are willing to sacrifice themselves in the interests of this great and glorious province. While some are quite willing to make the run if nominated by a convention of the party to which they are proud to acknowledged allegiance there are other whose names have been mentioned who do not feel called upon to endure the agonies of public life.

Among the candidates mentioned are the following: Liberals: J. R. Brown, T. J. Hardy, W. S. Keith, S. Barry Yuill, K. A. Nicholson and James McNichol; Conservatives: Duncan McIntosh, H. C. Shaw, W. G. Gaunce, G. Arthur Rendell, James Kerr, Mayor Smailes and Dr. J. E. Spankie. Whether the labor men, The Provincial Progressive party or the socialists will put candidates in the field has not yet been determined.

The Greenwood Liberal association at its regular meeting on Wednesday evening took preliminary steps towards calling a convention for the selection of a candidate. The secretary was asked to write the Midway and Eholt Liberal associations asking for suggestions as to the best time and place for holding a convention and suggestions as to the basis of representation at the convention. The suggestions received will be considered at a meeting held Wednesday the 24th inst., when in all probability arrangements will be made for calling a convention at an early date.

A large number of members were added to the association. With a good candidate the Liberals will carry the constituency by a large majority.

The Only System

Chimmy—Wot is de best way to teach a girl to swim? Johnny—Yell, yer want to take her gently by de hand, lead her gently down to de water, put yer arm gently 'round her waist, and—— Chimmy—Oh, cut it out! It's my sister! Johnny—Oh! Push her off de bridge!

TOO GREAT A RISK.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, aften before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the liues of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by J. L. White, Greenwood, and A. F. Thomas, Midway.

At a meeting of the Nelson Liberals Wednesday night, no nomination was made for the provincial house. Dr. Hall who would have been the unanimous choice found that for business and personal reasons he could not be the candidate and a committee of twenty were appointed to select the candidate.

Do you feel like a "dead one?" If so, you ought to call in at once and get an ice cream soda at White's.

CROW'S NEST CHARTER

Owing to the sudden prorogation of the legislature Mr. Smith Curtis' resolution dealing with the coke situation was not reached. Since then Mr. Curtis has secured a promise from the new government that steps will be taken immediately with a view to securing adequate relief for the smelters of the Boundary and Kootenay. The greatest credit should be given to Mr. Curtis for his action. He is probably the most abused man in the house, at the same time, he is one of the few legislators with sufficient courage to move in matters of this kind, and sufficient knowledge and ability to point out the proper remedy.

It should not have been necessary for Curtis to call attention to the government's duty through a resolution in the legislature. When the Crow's Nest Coal company secured a charter for the Crow's Nest Southern railway in 1901, the company entered into an agreement with the province of British Columbia that if carried out would force the company to supply the British Columbia smelters with an adequate supply of fuel. The agreement follows:

An agreement made and entered into this day of A. D 190 , between the Crow's Nest Pass Coal company, hereinafter called "the company," of the one part, and His Majesty the King, represented herein by the chief commissioner of lands and works for the province of British Columbia, of the other part:

Whereas, the company are engaged in the production of coal and the manufacture of coke in the province of British Columbia and the supply thereof in said province:

And whereas it is desirable to secure for the smelters and refineries in the counties of Yale and Kootenay, in the said province, an adequate and sufficient supply of coal and coke:

Now, therefore, this agreement witnesseth, that the parties hereto mutually covenant and agree as follows, that is to say:

1. If at any time hereafter it shall appear to the Lieutenant-Governor-in-Council that there is reason to believe that a supply of coal and coke for use in the counties of Yale and Kootenay is not furnished by the company at all times, now or hereafter, in sufficient quantities to the smelters and refineries in said counties, the Lieutenant-Governor-in-Council may by order in council refer such question to arbitration under the provisions of the "Arbitration Act" and amending acts.

2. The Lieutenant-Governor-in-Council and the company shall each appoint an arbitrator, and the two arbitrators so appointed shall select a third, and the decision of the board of arbitration shall be final, and the terms and conditions of their award shall be assumed and carried out by the company until such time as the same may be superseded by any other award made hereunder, and so from time to time as occasion may require or the Lieutenant-Governor-in-Council may deem necessary. The company shall appoint their arbitrator within forty-eight hours of being notified by the Lieutenant-Governor-in-Council so to do, and the arbitrators shall thereafter appoint a third arbitrator within the like time; and the board of arbitration shall sit forthwith after appointment and continue in session de die in diem until until the matters hereunder referred to them shall have been finally heard and determined.

3. The costs of the arbitration shall be paid and borne as the arbitrators may determine.

4. Pending the award, that is between the date of the appointment of an arbitrator by the Lieutenant-Governor-in-Council and the performance of the conditions of any award made hereunder, the company shall furnish to the smelters and refineries in Yale and Kootenay, as aforesaid, a supply of coal and coke satisfactory to the Lieutenant Governor-in-Council, failing which the company shall pay to the Lieutenant-Governor-in-Council, as liquidated damages, the sum of two dollars per ton in respect of the shortage.

In witness whereof the company has caused its common seal to be affixed to these presents the day and year first above written.

The common seal of the Crow's Nest Coal company was affixed hereto in the presence of

Patience has ceased to be a virtue. No one was anxious to deal harshly with the company after the very serious accident which affected its output last year, but the situation is now so critical and the conditions are becoming more aggravated instead of improved, that the agreement should be rigorously enforced. The mining industry is of much greater importance than the further exploitation of the present methods of the Crow's Nest Pass Coal company.

John Keen, who edits the Kaslo Kootenaian on the quiet, declares through the editorial columns of that sheet that Hon. R. F. Green is a hobo, and that Kaslo will not take kindly to being represented by a politician of that type when there are such able men as John Keen. John ought to put his leading articles in the joke column. It is not likely that either Green or Keen will represent Kaslo district in the legislature next session, but Arthur W. Goodenough, the Liberal standard bearer.

Joe Seagram, the booze manufacturer and horseman of Waterloo, Ontario, has donated a $500 cup to the Grand Forks Race Track Association for competition at their meeting on July 1 and 2. Joe won't be anything loser, as there will be four times that amount of his whisky drunk during the race meet.

SOME DENTAL HINTS

Careful cleansing of the teeth is the foundation of all care of the mouth.

Rational care of the teeth and mouth seeks to free the cavity of the mouth of all foreign substance.

Tartar must be removed from time to time. Loose roots and stumps must be extracted. Decayed teeth must be filled, or treated and filled; or extracted.

Artificial substitutes must be inserted in place of natural teeth which have been lost.

The sooner a diseased tooth is treated the more rapidly, painlessly, and cheaper can it be filled For this reason teeth should be thoroughly examined at least twice a year.

It is money well spent to have diseased roots and such as are still firmly implanted filled, and, where necessary, provided with artificial crowns.

The Assessment Act

Editor Boundary Creek Times:

The executive committee of the Provincial Mining association of British Columbia wish that the utmost publicity be given to the following extracts from the act just passed amending the assessment act. Particular reference is to the date (June 30) when time for filing affidavits of work expires, and to the provisions for exemption from taxation where work is done upon one or more of a group:

Assessment Act Amendment Act, 1903.

Section 6 (*amending old section 19*)—Provided, however, that if the owner of any such claim shall establish, to the satisfaction of the assessor, that the sum of $200 has been expended upon such a claim in mining development during the year preceding the date when the tax becomes payable then the tax shall not be levied in respect thereof; and in order to entitle the owner to benefit by the provision he must produce to the assessor a detailed statement showing the nature of the work performed and the amount expended upon said claim, duly sworn to as true and correct, before the assessor or a justice of the peace, and this statement must be filed with the assessor on or before the said 30th day day of June in each and every year in which he claims exemption from the tax:

Provided, further, that any owner of adjoining crown-granted mineral or placer claims not exceeding eight in number of such claims, shall be allowed to perform in development work during the year preceding the date when the tax becomes payable, upon any one or more of such adjoining claims the full value, at the rate of $200 per claim, to entitle all of such claims to exemption in lieu of the tax, but subject, however, to said owner producing to the assessor a detailed statement showing the nature of the work performed and the amount expended, duly sworn to as true and correct, before the assessor or a justice of the peace, which statement shall be filed with the assessor on or before the said 30th day of June in each and every year. Yours faithfully,

A. L. BELYEA, Secretary.

An Aggravating Cough Cured.

A customer of ours who had been suffering from a severe cough for six months, bought two bottles of Chamberlain's Cough Remedy from us and was entirely cured by one and a half bottles of it. It gives perfect satisfaction with our trade.—HAYNES-PARKER & Co., Sineville, Ala. For sale by J. L. White, Greenwood, and A. F. Thomas, Midway.

If it's a bilious attack, take Chamberlain's Stomach and Liver Tablets and a quick recovery is certain. For sale by J. L. White, Greenwood, and A. F. Thomas, Midway.

SEVEN CENT COPPER

Can Be Mined at a Profit in Boundary District

SO SAYS JOHN STANTON

A Great Copper Expert Who Visited Granby Mines

John Stanton of New York, who has been connected with the copper industry for fifty years, and who is considered one of the best copper experts in the world, was among the prominent visitors who examined the Granby mines last week. In an interview he had a hopeful view of the mining out look for the district. He said in part as follows:

"There is no question as to the immense quantity of ore in sight in the Granby mines, and I am free to admit that I came west prepared to discount a great deal of what I heard. How deep this deposit extends nobody knows. It is purely conjectural. However, there is every reason to believe that the depth should be commensurate with the length and width of this well defined lode. All the reports I had received respecting the size of the ore body and its self-fluxing character have been confirmed by personal examination.

"I was really surprised to see so intelligent and up to date a company in operation in yobr province. I refer especially to the mining methods as well as the organization, the mining and smelting plants and the system of book-keeping. I have visited a great many mining camps during the past half century and nowhere have I seen superior methods in vogue. I was not prepared to see such a state of affairs in existence outside of the United States. I have not a single criticism to offer. Both Mr. Williams and Mr. Hodges have solved the mining and metallurgical problems. respectively, in an eminently satisfactory manner.

"The Granby ore body is the largest sulphide ore deposit I have ever examined, and my mining experience has extended to every variety of copper ore. It is analagous to the famous Rio Tinto of Spain. The Granby ore is lower in copper but carries larger values in gold and silver. It is larger than the famous Tennessee deposit. Hitherto sulphide ore bodies from 40 to 80 feet wide have been considered large, but the one at Phoenix eclipses anything I ever inspected. I don't know of its equal on the continent. The millions of tons of ore in sight and the size of the stopes proved a veritable revelation to me.

"The cheapness with which the surface quarrying operations are being conducted as appealed to us as business men. Mining has to be adapted to conditions and in this instance Mr. Williams has certainly gone about it in the right way. Some people may say that the cost of extracting ore is bound to increase after the company shall have quarried out the ore body to a level plane and resorted to deep shaft mining. Well, all I can reply is that this consideration, in view of the enormous tonnage in sight, [illegible] give the management any concern for many decades. The trees over my grave will have attained full size before the Granby company has to undertake to solve any serious or expensive mining problem.

"So far as I am concerned, the smelter at Grand Forks is up to date in every respect. Mr. Hodges is deserving of every credit for the low cost at which he is treating the ore. I am not exactly an authority on this subject, and shall defer to Messrs. Luther and Herreshoff, who are recognized as the best experts in that line in the United States.

"British Columbia has yet hardly assumed the position in the mining world to which it is entitled. I hope and believe that the Granby company will be the lever that will attract capital for the development of your enormous mineral resources. My only regret is that time will not permit me to see more of the province. Some people are kind enough to credit me with having a large following which invests upon my opinion and advice. On my return I shall not hesitate to say that the copper-gold ore bodies of the Boundary are among the largest in the world, and that mining is already being conducted at a very handsome profit. As soon as the real state of affairs is appreciated in the east, capital will turn this way seeking investment."

Respecting the outlook for copper, Mr. Stanton, who is a recognized authority, had this to say:

"Experience has shown that when the price is down consumption increases very largely and new uses for the metal

W. F. Brace, single comb Brown Leghorns' specialist, won at the recent show held in Madison Square Gardens (one of the hottest shows ever held in New York), six prizes. I have some fine birds hatched from eggs from the same matings, from which I will sell a few settings at $1.50 per 13. First come, first served. Can also spare a few thoroughbred Mammoth Pekin duck eggs, at $1.50 per dozen. Imported stock. J. J. BANNERMAN, Boundary Falls.

SEVEN CENT COPPER

are found. In time consumption tells upon and overtakes production. This tends to establish a balance between supply and demand. The two, with varying differences, run in parallel lines. The two, with varying differences, run in parallel lines. The producer has had the best of it this year. Copper has advanced from 11½ cents in January, to 15 cents, the current priee. I don't look for higher prices, but see nothing indicating a decline in the near future, though there may be some slight fluctuations. I don't pretend to look further ahead than anybody else. Nobody can predict conditions six months ahead. A few years ago the United Metals Selling company had a surplus of copper ag re gating between two and three hundred million pounds. Fifteen months later that surplus had been absorbed whilst production had increased meantime ten per cent.

"I believe the Granby can operate at a profit no matter to what figure copper might fall. With that corporation it is only a question of increasing or diminishing profit. I think the Granby with the advantage of gold and silver in its ores, can produce copper at a price that would put less favored mines out of business. Certain Michigan mines now operating would be compelled to close down if copper fell below 12 cents. The Granby has not yet begun to extract ore on a large scale. When the capacity of the smelter is increased copper will be produced at a much lower figure. I think I am well within the mark when I state that it is practicable for the Granby to produce and market the metal at a cost of seven cents a pound, and possibly lower. There are few mines that could do likewise."

We are still doing business at the South End Grocery. W. S. GRAHAM.

THE BEST LINAMENT.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbage," says Mrs. Ann Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by J. L. White, Greenwood, and A. F. Thomas, Midway.

Copper Street,

FRIENDS AT THE COAST

E. Jacobs Meets Several Old-Time Greenwoodites

AND OTHERS INTERESTED

During His Visit to the Coast—Prospectors Going to Atlin.

Whilst on the coast E. Jacobs, who lately returned from a fortnight's visit to Victoria, Vancouver and New Westminster, saw a number of former residents of Greenwood who are now living in one or other of the cities mentioned. At Victoria he met Tom Pascoe and Sam Bond several times, and the following week saw them in Vancouver on the eve of starting for Atlin, their intention being to stay in that land of gold until they "struck it," at least that's what Tom said. John T. Bell was another Boundary man. From him the whereabouts of Mrs. Smailes and family was ascertained, and shortly afterwards they were visited at their home in Victoria. Mrs. Smailes looked to be in excellent health and she said that the climate of Victoria agrees well with the children as well as herself. Her daughter Hilda is now quite a big girl, whilst Ralph has grown almost out of remembrance and has, as well, become quite a creditable player on the piano for one so young. One younger boy was seen, and he too was the picture of good health. Since then Mr. Jacobs has been informed that Mr. Bell has been married to Miss Gibb who, it will be remembered, was a visitor at the Smailes' home in Greenwood for about a year. A. Mortimer Lamb, managing editor of the B C. Mining Record, and R. E Gosnell, provincial statistician and secretary to the premier, appeared to be flourishing far more at their respective posts in the capital than when they were "up against it" as hard-worked newspaper men in Greenwood. Among others, never, resident in the Boundary, yet interested in its progress were Smith Curtis, M. P P, the member for the Rossland riding, which at present includes the Boundary district; W. T. Oliver, now manager of the Bank of British North America at Victoria, but at one time in charge of that bank's Rossland branch, when he was an occasional and welcome visitor to Greenwood; W. R. Robertson, provincial mineralogist; D. R. Ker, of the Brackman-Ker Milling company, and others, all interested in hearing of the welfare of the mining and smelting industries, and especially of the revived interest in the high-grade gold and silver quartz properties around Greenwood.

At Vancouver P. P. Sharpe was seen "doing the block," A. Lukov was busy displaying his goods at the Canada Clothing Co's store on Cordova street, F. M. McLeod, one of Greenwood's former legal lights, wanted to know all about the commercial and financial centre of the Boundary district; and Harry Hemlow was keen to know what the chances are of selling the Spotted Horse from which some of the prettiest looking ore obtainable near Greenwood is to be seen, or the Boundary Falls claim, with its eight feet of quartz. Campbell Sweeny, manager of the Bank of Montreal; Wm. Godfrey, manager of the Bank of British North America; R. Marpole, general superintendent of the Canadian Pacific, and E. J. Coyle, assistant general passenger agent; and ever so many more were much interested to learn of the city of the Boundary at which they had spent busy and pleasant times whenever they visited it as from time to time they had done. Mr. and Mrs. E. Renwick Smith (the latter a sister of Angus and Randolph Stuart) were also visited in their pretty home in the West End of Vancouver, and J. C. Shaw, principal of the Vancouver college, was another with whom a pleasant hour was spent.

On the New Westminister electric tram car W. Sprott was seen, and from him it was learned that after his mining partner got killed when on the way to their mineral claim, out beyond the big Britannia (since sold for a high price) he became disheartened and let his title lapse. Every other man (and woman too, for that matter) spoken to in the Royal City wanted to know how Westminister's contingent of legal lights now practising in Greenwood were getting on, and not a few showed a genuine interest in the condition of the district and the welfare of its people generally. So many questions were asked that finally every familiar face seen by Mr. Jacobs seemed to be surmounting a note of interrogation, yet was the questioning of a kindly nature. An interesting chat was had in particular with John S Clute, the genial and sociable Inspector of Customs, who after a preliminary enquiry "How's Mac?" seemed to have a directory of the leading men of Greenwood and neighborhood learned off by heart; and by the way he also made enquiries after several of the ladies whose hospitality he had enjoyed in their cosy homes in Greenwood. Altogether a pleasant time was spent, and it was with a sigh of regret the Boundary man turned his back upon the beautiful and comparatively busy cities that adorn the British Columbia lower coast.

NOTHING LIKE EXPERIENCE.

"One truth learned by actual experience does more good than ten experienoes one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe atttack of that disease, feel that he is about to die, use this remedy, and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by J. L. White, Greenwood and A. F. Thomas, Midway.

J. L. WHITE

Druggist - - Greenwood

J. B. Deschamp, the Rossland millman, spent Sunday in the city.

The assessment work done on the Rendell block the past week adds quite an attractive appearance to the building.

William Simpson and W. Green, who have been doing assessment work near Aspen Grove, Similkameen, for the past month, returned to Greenwood Monday night.

H. B. Munro left on Monday to attend the annual meeting of the provincial grand lodge, I. O. O. F., at Vancouver, as representative of Boundary Valley lodge, Greenwood.

Methodist church—Rev. J. D. P. Knox pastor. Services at 11 a. m. and 7:30 p.m. Morning class at 10 o'clock; Sunday school at 2:30. Gladys Harvey will render a solo in the evening.

A meeting of the Greenwood branch of the Provincial Mining Associati n will be held in the city hall tomorrow (Saturday) evening at 8 o'clock. The object of the meeting is organization.

Everybody is cordially invited to attend the pavilion dance at the Hotel Winnipeg, Grand Forks, on the evening July 1, Dominion day. Galliher's orchestra of Spokane will furnish the music. Tickets $1.

The fourth Church of England synod for the diocese of Kootenay, was held at Nelson this week. Among those in attendance from this district were Rev. W. A. Robins, A. E. Aschcroft of Greenwood, and G. Arthur Rendell of Eholt.

A meeting of the board of license commissioners for Boundary Creek license district will be held at Black's hotel, Phoenix, next Monday at 4 o'clock. The commissioners are E. Jacobs, Greenwood, chairman; H. B. Cannon, Grand Forks, and W. B. Townsend, J. P., Rossland.

Sister Aloysius, sister in charge of the Sisters' Hospital, Greenwood, has gone to the coast, where she accompanies sister Augustine and Bernardette, recent arrivals from Jersey City, New Jersey, who visited Greenwood, Rossland and Nelson prior to taking up their work at St. Joseph's hospital, New Washington. Sister Aloysius is expected to return to Greenwood next Thursday.

Phoenix and Greenwood baseball nines played ball, or rather played at it, on the former camp's ping pong diamond, last Sunday. The game was equal to any played 100 years ago—the score being 19 to 17 in favor of Phoenix. During the progress of the game Norman McLeod of Greenwood got hit on the nose with a ball, which caused a bad fracture. This was the most exciting feature of the game.

The transposition of two figures in the returns from the Providence mine, given in the Boundary Creek Times last week, made a considerable difference in the total returns. The value of the third last, which was printed $1564.58, should have read $5164.58, a difference of $3600. This difference, together with the returns from the last car not mentioned last week, brings the grand total up to over $50,000.

J. W. Ellis of the Times went over to Grand Forks this week to attend a meeting of the Greenwood Typographical Union. Officers were elected as follows: President, J. L. Meikle of the Gazette, Grand Forks; vice-president, H. S. Turner, Phoenix Pioneer; secretary-treasurer, Gus A. Evans, Columbia Sun; executive committee, W. B. Wilcox, Phoenix Pioneer; Lee Tutt, Grand Forks Gazette, and Frank Sherwood of Danville. The next meeting of the union will be held the first Sunday in August at Phoenix.

W. H. Thomas, managing director of the B. Copper company, left Monday on his return to New York, after a stay at the company's local works of two months. He takes with him a cheering report of the progress and position of the company's mine and smelter, the former looking better than at any previous stage of its development, and being equal to maintaining a larger output than ever before, and the latter keeping up its excellent record both in regard to quantity of ore treated and low smelting costs. Mr. Thomas is well satisfied that with copper at present prices and a sufficiency of coke and coal available, the company's local officials, Frederic Keefer, general manager, and J. E. McAllister, smelter superintendent, will soon place the enterprise in a position to pay dividends.

GREATLY ALARMED

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four of five years with a continuous cough whe says. "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by J. L. White, Greenwood, and A. F. Thomas, Midway.
