THE BAND CONCERT.

The concert given by the Greenwood Citizens' Band in the Auditorium on Wednesday evening was a great success, whether gauged by numbers present or by the programme given. The hall was filled by a appreciative audience which appeared to enjoy the excellent bill of fare. The programme was varied, embracing music by the band, vocal and instrumental solos, recitations, tableaux and an address, and there wasn't a bad piece on the list. The boys have every reason to be proud of their entertainment and its reception by their friends. The concert was followed by a social dance.

PRESS NOTES ON MR. ROSS.

Mr. Ross has almost completed his tour of the Okanagan district and is everywhere meeting with signal success and hearty support, the electors recognising that the immediate prosperity and rapid progress of B. C. depend upon the carrying out of the G. T. P. contract.

Duncan Ross held a successful meeting at Vernon last week. Jas Murphy M.P.P., was one of the speakers in the Liberal interest, The next night a Liberal meeting was held at Armstrong at which Senator Bostock and Duncan Ross spoke.

Duncan Ross the Liberal candidate addressed a large and enthusiastic meeting of the electors of Summerland on the 15th inst. In the course of his speech Mr. Ross touched upon the financial success and prosperity of Canada under liberal rule as proved by figures open to everyone. Naturally the chief point of Mr. Ross' speech was upon the importance to the general well-being and prosperity of the Dominion, of the Grand Trunk Pacific. He showed how the Liberal scheme was not only based upon sound business principles, but was the only possible one, and the utterance of Mr. Borden he showed to be mere glittering soap bubbles. J. M. Robinson replied briefly for the Conservative interest.

CARD OF THANKS.

The Greenwood Citizens' Band desires to extend the hearty thanks of their organization to all those who assissted in making their entertainment of Wednesday evening so pronounced a success.

PROVIDENCE AFFAIRS

Are Amicably Arranged by the Shareholders

AT THE ANNUAL MEETING

Held on Tuesday and Wednesday of This Week.

The second annual meeting of the Providence Mining Company was held in the offices of the company on Tuesday and Wednesday of this week. The interest taken in the company's affairs was very marked. Every share of stock was represented in person or by proxy. The affairs of the past year were very carefully gone into, and the reports of the directors and auditor carefully examined. Any information sought for was cheerfully furnished by the retiring secretary. The meeting was harmonious throughout. The arrival of Messrs Fitzgerald and Rudolph of Chicago in time for the annual meeting was very opportune. Both are men of large business affairs in Chicago, are even minded and honorable, and disposed to treat all interested equitably. J. J. Caulfield was chairman of the meeting.

In the matter of election of directors Messrs. Russell, Peet and McIntosh were retired by lot, and Messrs. Heeney, Scully and McDonald elected in their stead. Messrs. Law and Caulfield asked to be allowed to resign from the board. This was allowed and Messrs. Fuller and Peet were elected in their stead. The board as constituted for the ensuing year is as follows: Messrs. Fitzgerald, Heeney, Rudolph, Madden and Scully of Chicago; Peet of Phoenix; Macdonald of Nelson, and Fuller of Greenwood. In every instance of election the choice was unanimous. At a meeting of the directors held on Wednesday afternoon Mr. H. V. Fuller was elected secretary-treasurer for the ensuing year.

We are very glad for Greenwood's sake that the issue of the meeting was one that augurs well for the future of the mine and the camp. Efforts will be made to make the Providence a bigger dividend payer than ever. The Company enters on the new year under happy auspices and we doubt not its career will be closely watched both at home and abroad.

Duncan McIntosh, manager of the company's mining affairs for the past two years, resigned some weeks ago, in order to devote his entire time to the E. P. U. in which he and his friends are interested. His resignation was accepted but he was requested to continue in office until a suitable successor could be secured. Mr. Mark F. Madden of Chicago remains president of the company.

LAST DAY OF COURT.

The attention of Chief Justice Hunter on Tuesday, the last day of the sittings of the Supreme Court here, was taken up with matters of a minor nature. The two most important items before the court were the cases of A. Sloan and Clyde Westlake.

Sloan was sometime ago convicted under the Bushfires Act for setting fires and was sentenced by the police magistrate of Fernie to pay a fine of $100 or to imprisonment for 30 days. Mr H. C. Shaw applied for a writ of certiorari, Mr. J. P. Myers-Gray opposing. The writ was granted and the conviction quashed.

In the Westlake case Mr. Shaw applied for a writ of Habeas Corpus, Westlake having been convicted by the police magistrate of Fernie for assault with intent to do grievous bodily harm and sentenced to six months imprisonment. The writ was granted and the conviction quashed.

SKYLARK CLAIM

Which Sent Out Very Rich Ore in Early Days.

IS NOW BEING WORKED

By a Syndicate of Phoenix People—Extensive Development Planned.

Superintendent Wm. Rowe has a small crew of men at work on the Skylark claim in Skylark camp. The syndicate having the claim under bond includes Messrs. Hodges, Smith, Boucher, Macey and Wright.

The Skylark claim had about thirty thousand dollars expended on it in the early days. The owners at that time paid $15,000 for the claim, and under the management of Mr. Reuger expended as much on the property. In those days mine working was very expensive and the Skylark was worked in a very expensive way, machinery and supplies being transported from Butte, Montana. There was no railway nearer than Marcus and it was a most expensive matter to bring supplies in or to carry ore out.

The Skylark is about one and a half miles easterly from Greenwood. It is in a most picturesque spot of probably the most beautiful camp in the district when character of natural scenery and surroundings is considered. An abundance of good wood and water are features of the claim and the camp. On the claim is a vein having a northerly and southerly trend, with an easterly dip, of high-grade silver-gold ore, varying from 3 to 18 inches, and giving assays in carload lots up to 300 ounces of silver and $20 per gold per ton. The property is developed by an incline shaft 100 feet deep, about 200 feet of drifting and some surface cuts. The Skylark was located in July, 1893, and bonded to the Spokane and Great Northern company, who went to work shortly afterwards and during the winter of 1893-94 shipped about 100 tons to the smelters, the first class ore running 150 to 300 ounces in silver and $15 to $30 in gold; the second class 90 to 150 ounces in silver and up to $15 gold per ton. Ore that at that time would scarcely pay to ship would be bonanza stuff today with railways and smelters so close at hand.

Superintendent Rowe is getting things in shape for the winter's work. He has installed a steam hoist, is cleaning up shafts and crosscuts, strengthening the timbers and putting matters generally into good working condition.

There is a second shaft on the property sunk, however, only a short distance and about 200 feet south of the main working shaft. Both shafts are on the lead and the vein is now being uncovered between the two. The vein runs rich and strong and some very fine ore is being taken out of this surface cut. It is believed that owing to decreased cost of marketing ore the waste dump of the Skylark will pay to ship.

Some months since a celebrated mining engineer visiting Greenwood remarked: "If I were looking for a mine I would buy the Skylark." Its present operators think his judgment was good and they expect to make a mine of it.

RAILWAY COMMISSION.

The people of the state of Washington are making a brave fight for a legislature that will pass a railway commission bill. Just now those who favor a commission are pointing to the admirable work such a commission is doing in Canada. In this our big, prosperous neighbor to the south are admitting that the people of Canada are better protected than they are.

TUNNEL AND STOPE

W. M. Law has bought out James Fisher's interest in the Little Chief. This property adjoins the Dever which adjoins the Skylark. The Little Chief lies in direct line for the Skylark lead and Messrs. Macey, Law and Hanna its present owners, think they have a bonanza.

Arrangements are progressing favorably for resumption of work on the Gold Bug, on a fairly large scale.

That is fine ore the owners are getting out of the Bay.

Manager McIntosh is now sinking on the E. P. J.

Walter Forster has just completed assessment work on the Crescent. group.

The Skylark has the ear marks of a great big thing.

Sutherland and McDonald keep busy on the Elkhorn.

The Silver King and Silver Cloud shafts are close neighbors, not more than twenty feet apart.

The Carmi is rapidly forging to the front as a producing property.

The Maori group continues to look well.

Mr. H. V. Fuller who is already interested in the Providence, Gold Bug and Bay properties, has made another investment. He appears to like the north end section, and has acquired the Coronation claim. The Coronation embraces the late A. Ferguson's garden plot, and runs easterly and northerly to the Providence ground. The former owner always contended that one lead of the Providence ran into the Coronation and Mr Fuller may think the same way. The sale was made by Mr. Paterson as executor of the estate of the deceased.

CITY HORSE SOLD.

The city has sold its big horse to Mr. Genelle. The team was broken some months ago by the death of the other.

Mr. A. M. Brydges, superintendent of agencies for the Great West Life, is in town for a few days. Since leaving here two months ago Mr. Brydges has visited Nelson, Fernie, Cranbrook, Calgary, Revelstoke, Edmonton and other towns of the Northwest in the interests of his company. He reports business good everywhere in the Northwest.

NOTICE OF FORFEITURE.

TO DAVID BEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district.

You are hereby notified that I have expended the sum of $1000 for surveying the above mentioned claim and $2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, $51.25, together with all costs of advertising, your interests in said mineral claim shall become invested in me, [your co-owner] upon filing in the proper office in that behalf e affidavit required by section 4, of the Mineral Act Amendment Act, 1900."

a ted this 9th day of June, 1904.

ROBERT WOOD.

NOTICE OF ASSIGNMENT.

NOTICE is hereby given that Agnes Ethel Wilson, of the City of Greenwood, in the Province of British Columbia, Tailoress, has, by Deed of Assignment bearing date the 26th day of September, 1904, A.D., assigned all her real and personal property credits and effects, which might be seized and sold under execution, to James Stuart Birnie, accountant, of the said City of Greenwood, in trust for the purpose of paying and satisfying rateably and proportionately and without preference or priority all the creditors of the said Agnes Ethel Wilson.

All creditors are required to file with the said assignee full particulars of all their claims duly proved as required by the provisions of the "Creditors Trust Deeds Act, 1902" and amendments thereto, and the nature of the securities, if any, held by them, on or before the 13th day of November, A.D. 1904, after which date the assignee will proceed to distribute the assets among the parties entitled thereto, having regard only to the claims of which he shall then have notice.

A meeting of the creditors of the said Agnes Ethel Wilson will be held in the office of Arthur M. Whiteside, Barrister, Greenwood, B.C., on Thursday the 13th day of October, A.D. 1904, at the hour of three o'clock in the afternoon.

Dated the 27th day of September, A.D. 1904.

C. P. WALKER'S COMEDIANS.

They Are Returning to Play "Brown's in Town," the Funniest of the Farces.

Theatrical advance notices are usually taken with a grain of salt, and little wonder, for some of the poorest shows we have been inflicted with have been most profuse in their promises. But there is one manager who through his confirmed habit of "making good" has secured the confidence of our theatre patrons. This manager is C. P. Walker, who for several season's with high grade organizations has done much to raise the standard of theatricals in this western country. Mr. Walker now announces another fine attraction, this time that particularly amusing comedy "Brown's in Town," one of the most pronounced comedy hits of recent years. The clever farce will be produced by Walker's Comedians, who return to us on Tuesday, Nov. 1. The well known manager has for this new production greatly strengthened his company and he assures his partons a performance which in point of real merit and irresistable humor will meet with their unanimous approval.

WRITINGS OF BRET HARTE.

Some of Bret Harte's best known poems are "Plain Language From Truthful James," "John Burns of Gettysburg," "The Angelus," "Cicely, "Seventy-Nine" and "Jim." His best known novel is entitled "The Luck of Roaring Camp." Another of his stories is "Tennessee's Partner."

"JIM."

Say there! P'r'aps
Some of you chaps
Might know Jim Wild?
Well—no offence:
Thar ain't no sense
In gittin' riled!

Jim was my chum
Up on the Bar:
That's why I come
Down from up yar,
Lookin' for Jim.
Thank ye, sir! You
Ain't of that crew—
Blest if you are!

Money?—Not much:
That ain't my kind:
I ain't no such.
Rum?—I don't mind,
Seein' it's you.

Well, this yer Jim,
Did you know him?—
Jess 'bout your size:
Same kind of eyes?—
Well, that is strange
Why, it's two year
Since he came here,
Sick, for a change.

Wall, here's to us;
Eh?
The h— you say!
Dead?—
That little cuss!

What makes you star—
You over thar?
Can't a man drop
's glass in your shop
But you must rar'?
It wouldn't take
D— much to break
You and your bar.

Dead?
Poor—little Jim!
Why, thar was me,
Jones and Bob Lee,
Harry and Ben,—
No-account men,
Then to take him!

Wall, thar—Good-bye—
No more, sir,—I—
Eh!
What's that you say?—
Why, dern it!—sho!—
No? Yes! By Jo!
Sold!
Sold! Why, you limb,
You ornery,
Derned old
Long-legged Jim!

Dated the 25th day of October, 1904.

Greenwood, Oct, 27, 1904 Registry. — T. HUNTER. C. J,

Entered October 27th, 1904.
W. G. M. R.

Canada's increase in trade since 1896 has been greater that that of any other country in the world. Here are some of the figures:

Canada, increase per cent	97 3-5
Japan, increase per cent	97 1-5
United States, inccrease per cent	47 1-5
Germany, increase per cent	38 2-3
Great Britain, increase per cent	26 1-3
France, increase per cent	22

Our trade increase in the corresponding period of the Tory regime was only 18¾ per cent.

THE RUSSIAN INCIDENT.

It is only natural that a wave of indignation should have swept over, not only England, but the civilized world, when the word was sent out a few days ago that the Russian Baltic fleet sweeping the seas for something it could fight, turned its guns on a helpless fleet of fishermen off the coast of England in the waters of the North sea.

The affair is a most distressing one and can only be explained in one of the following ways: Either the fleet didn't want tc go to the east and committed this assault in order to be run in and kept away from the scene of war, or it mistook the fleet for an enemy's torpedo flotilla, or somebody was drunk or insane and didn't realize what he was doing.

The first explanation suggests cowardice, the second suggests bad judgment, the third suggests incapacity and want of discipline. We leave out of consideration the thought that mere wanton, devilish disregard of life and international rights instigated so foul a deed. It ought not be enough that Russia apologize to England, punish the offenders, and make reward for damage to life and property.

Something ought to be done to run in this mad-dog fleet and prevent it from repeating its offence. When a man insane or drunk runs amuck with revolver or knife he is promptly taken care of, and the nations who have shipping on the seas ought to exercise police control on these men who are running amuck with machine guns and cannon. Toleration in events like these may be dignified but it is not demanded by any laws of self-respect or self-interest.

THE MANKILLER.

A great mankiller is abroad. He counts his victims by the thousands yearly and yet people are just beginning to awaken to his dread presence. He numbers most of his dead in the United States. That mankiller is the railroad. In this day of rush and haste, this day when too little regard is had to human life by the great corporations the monster is getting in his deadly work. The yearly total of his victims is on the constant increase despite the fact that modern safety appliances are multiplying. It must be that official carelessness multiplies too or such conditions could not exist.

In the last ten years nearly 80,000 people have been killed in railroad accidents in the United States alone, the numbers yearly growing from 6136 in 1895 to 9984 in 1904. In addition to this number nearly 80,000 were injured in railway wrecks in the United States alone the present year. These facts are gleaned from collections issued by the Interstate Commerce Commission and are startling in their terrible suggestions. An officer of the Commission recently stated:

"The increase of fatalities annually is regular, growing with the extension of the railroads and population. We have received reports from England which are as remarkable as the killings here. Approximately, the English average less than 50,000 miles of track to our 200,000, yet they do greater per mile business than we do. They haul more passengers than we do, yet there was not one passenger killed last year."

WEALTH OF FREE CHURCH

On August first last the House of Lords passed judgment in the case of the twenty-four Free Church ministers who had opposed the union of their church with the United Presbyterian Church. This handful of men dissenting from the action of their denomination claimed that the immense wealth of the property of the body which they represented, amounting $55,000,000, belonged of right to the remnant remaining true to its creed.

On October 22nd inst. the Court of Sessions was appealed to, asking that the judgment of the House of Lords be applied immediately. Although the United Presbyterians dissented from the prayer of the Free Churchers, the Court of Sessions by a majority of 3 to 1 decided in favor of the minority, and thus that body, composed of a small membership, and represented by little over a score of ministers become possessed of property of such enormous value.

LATEST WAR NEWS.

It looks now as if the Japs and Russians were lining up for another big battle. The Shakhe river will be the scene of the next engagement. For many miles along its north bank the Russians occupy entrenched positions while the Japs are fortifying their line of battle for an equal length along the south side of the river. Each side is industriously engaged in preparations to make the next meeting of the armies as expensive as possible to the other.

General Kuropatkin has been made commander-in-chief of the Russian forces at last. With the hand of Alexieff, his alleged nightmare, removed he will now be expected to make a better showing.

Another fierce Japanese assault is expected to be presently made on Port Arthur.

It has been the Russian boast ever since February last that they would beat the Japs in the "long run." Well they have had several "long runs" and that whipping still appears in the future. It may be that the longest run has not yet come. It would be very hard to have it a run into Siberia and winter coming on.

We are glad to note that the angel of peace has hovered down over the affairs of the Providence mine. May it rest there.

The fuel merchant who has said nothing but kept sawiug wood all summer will now have his innings. The frosty nights admonish us that winter is on the wing, his flight directed our way.

Bright sunny days, and cool, crisp nights so characteristic of the Boundary autumn have been delighting us these many weeks.

REPORTED DEAL AT CASCADE.

Credence has for some time been given to the report that the Canadian Pacific Railway had purchased the great water power at Cascade. To this has been added a more recent one that the company plans to erect a great smelting plant at that point. If this be true, what may it mean? Is it that the ores of the LeRoi of Rossland and of the Snowshoe of Phoenix will there meet, and jointly be treated to mutual advantage? It would appear that negotiations are now in progress for the amalgamation of these two great properties and it may be that the C. P. R. is going to solve the question by a cheap rate to a central point where the facilities of cheap power may be had. We trust for the sake of Cascade that the reports may bothbe true.

The Words of a Patriot.

"When the day comes that I shall be laid in my grave, be that near or far, everyone will have to admit that the life which will have been closed was a life devoted to the best interests of Canada. Everybody will have to admit, who thinks without passion or prejudice, that I fought an honest battle in everything, and that I never appealed to the feelings or prejudices of the my own countrymen, or to any creed, but that I fought simply on the principles of the great party of reform. I am of French blood, but I do not remember that there ever was a day in my life when I did not proclaim myself a liberal of the English school, a liberal of the school of Fox and of Bright. I do know what made me so. Yes, I know, God made me so. He gave me these views, and I endeavor to carry them out. I have been eight years in office and I am proud to say after these eight years of office the man does not live that can stand before me and say that I have ever stirred up any prejudice. On the contrary, the language that I used here I use in my own province, and I ask them as I ask you, my friends, to forget those days which should be forgotten, that are past, and stand up for Canada, Canada first and Canada always."—Sir Wilfrid Laurier at Lucknow, Ont., October 17th, 1904.

To The Electors of Yale-Cariboo

As the Liberal candidate in this electoral district, I respectfully solicit your votes and influence.

No attempt will be made to discuss the general issues of the campaign in this address. Since receiving the Liberal nomination in January last, I have visited many parts of the riding and made myself thoroughly acquainted with its requirements. This work will be continued until election day but owing to the large extent of territory to be covered it is a physical impossibility to visit all sections or personally interview all the electors. I therefore avail myself of this opportunity to ask for your suffrage.

Permit me to direct your attention to some matters of local importance. Yale-Cariboo fully warrants the expen diture of public money in its development. The government has already done much in this direction. It has granted aid to several lines of railway; government owned telegraph and telephone lines have been constructed; the necessary money has been voted to secure telephonic communication through the rich Nicola and Similkameen districts, and telegraphic communication between Vernon and Kelowna. In order that the practically inexhaustible mineral, timber and agricultural resources of the district may be fully developed, this policy of governmental aid must be continued.

portant that Yale-Cariboo shall return as its member one who can direct the attention of the governmen to matters of vital importance to the district and who will support the government in its aggressive policy of development. It is particularly important that the electors of this riding should show their appreciation of the government's broad, statesmanlike plan of constructing another transcontinental railway which will be the chief factor in opening up the northern portion of the riding. Branch lines to connect with the southern transcontinental lines will surely follow and the whole interior of the province will be opened up.

Briefly, my policy, so far as Yale-Cariboo is concerned, is a policy of development of all its important sections. With a leader whose record fills with pride all people of this country, irrespective of party affiliations, supporting a government whose eight years of wise, progressive administration has placed Canada in a proud position among the nations of the world, and at the same time has more closely connected the ties which bind us to the mother country, and fully endorsing a policy which means so much to the western portion of the Dominion, and more particularly to the District of Yale-Cariboo, I await with confidence, your verdict.

Yours very sincerely,

DUNCAN ROSS.

DENORO DISCOVERY

Made Recently by Construction Work on

LINE OF GREAT NORTHERN

Proves a Very Valuable Thing for the Property.

The old tradition that railway building never had exposed any considerable mineral veins, died out when the Boundary was reached. Several ore bodies have been opened by the Canadian Pacific in the Boundary and more recently by the Great Northern. The latest exposure of a large body of ore by railway construction is that on the Denoro by the Great Northern. When the Canadian Pacific was built across the Denoro claim five years ago a fine body of ore was uncovered. But the Great Northern building across the property, possibly 100 feet lower down the mountain, has exposed a body of ore, compared with which the former find was a trifling matter. At present the lead as exposed shows at least 100 feet wide, and it is believed that the vein is considerably wider. The ore body has been partly exploited by open cuts, and the quality of ore tested. This finding would indicate that the heart of the hill is one body of ore. Some time ago a tunnel was started to tap this presumed body, but when it became evident to the management the Great Northern would prospect the property, work on the tunnel was abandoned. If the body of ore continues, as is believed, from the upper workings down to the railway lead, the company has hundreds of thousands of tons of ore ready for the cheapest kind of mining and shipping.

The Denoro ore, like its twin the Emma, is a very desirable one, not only because self-fluxing but because it is highly valuable for mixing with the more refractory ones. In fact the ore frequently not only does not cost anything for smelting but commands a bonus. We look to see the Denoro become one of the great mines of the Boundary.

GETTING EASY.

The concert Wednesday evening must have netted the band boys a neat sum. A member of the band remarked today that when they received the $150 still due from the Grand Forks people for music furnished at the carnival, they would be out of debt.

TENDERS WANTED.

Bids for hauling Providence ore for six months and 260 ricks of two foot wood. The lowest or any tender not necessarily accepted. Further particulars at Providence Mine office.

PROVIDENCE MINING CO., Ltd.

Webb's Chocolates, purest and best always fresh at Smith & McRae's.

ABOUT PUBLIC MEN.

Hon. A. G. Blair must enjoy the guessing now going on as to his contemplated plans. The guesses include private law business, solicitor for a large railway corporation, manager of a great milling enterprise, chief spirit in a syndicate of newspapers. The hope of the conservatives that he was to re-enter politics as opponent of the government appears to have been abandoned.

The Hon. G. E. Foster denies the view held by his friends that he is cold, all the same iceberg. He claims he is a volcano in active eruption. The exercise the late finance minister has had to keep in parliament would warm up a pretty cold thing any way. He ran in Kings county and then ran out, he ran in York and was then run out, he tried to run in St. John and was distanced, he ran in North Ontario and was outrun, and now he is getting hot running in North Toronto. It does look as if the volcano would be cold again after November 3rd next. There is one thing about the Hon. G. E. Foster, however, he never gets cold feet, he doesn't catch on to the warmth of public sentiment against him in time.

H.B.K. BRAND

BIG SHIRT

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 39½ to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39½ to 42 yards of material per dozen.

Sold at all dealers but only with this brand:—

FUNNIEST OF COMEDIES

"Brown's in Town" to be Played Here by Walker's Comedies.

Mr. C. P. Walker, to whom our theatre patrons are indebted for numerous high grade dramatic performances is sending us now that funniest of all the comedies, "Brown's in Town." It is to be given here on Tuesday, Nov. 1 and the producing company is the popular organization known as Walker's Comedians. "Brown's in Town" is one of the most remarkable laughing hits of recent years—as all who pay any attention to theatricals are quite well aware. It had long and highly successful runs in all the metropolitan centres and made famous its clever author, Mark E. Swan. For this production Mr. Walker has considerably strengthened his company, Mr. George Berry, a comedian of high standing, being one of the recent acquisitions. The enterprising manager gives assurances of the best comedy performance yet, and promises his patrons an evening of continuous laughter.

PARTING REFERENCE.

In a neat little five minutes' speech at the Oddfellow gathering last evening Rev. Mr. Robins made reference to his intended early departure from Greenwood. He was candid enough to say that although he was going to scenes of greater historic interest, to places of great wealth and population, and ultimately to the old home land, he would not forget the little town in the mountains he was about to leave. He knew that like many who had written him from far separated places of the earth, he would often wish he were back in the glorious west, the land of breadth, the land of men. In all things there were compensations, and this great, isolated wild west, denied the comforts and delights of older civilizations, has characteristics of candor and frankness and manliness wanting in them. He who makes an even trade of the spirit of the west for that of the east loses in the exchange.

THE NEW VERSION.

The old version of the three R's was

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date. Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

STOOKE BROS

Having something else in view offer their well known

STOCK RANCH For Sale

706 Acres

150 acres suitable for cultivation balance pastures and range.

100 foot hay and cattle sheds. First class fencing.

Extensive Hog pasture—creek running thro—well fenced—pig proof.

Young Orchard just coming into bearing stock at option of purchaser.

50 acres Timothy-Clover-Brome Grass.

Barns all floored—chicken and root houses.

Current prices paid ranchers for dressed meats, etc. Pork 8 to 10c. Beef 8 to 10c. Eggs 35 to 60c dozen. Butter 35c lb. Oats 50c bushel, wheat $1.00 bushel.

There's Money in Ranching at the above prices—you can't get away from it. There is no section so well adapted to stock raising or fruit growing (as Boundary Creek) that produces so little of what it consumes. Market at your door. The Freight is yours.

The Boundary for the rancher is an empire of its own.

Our market is protected on the East by the C. P. R., on the south by the Custom House, on the West and North by Land limited and undeveloped.

ORDER OF THREE LINKS

Enjoys a Memorable Occasion, Guests of

DISTRICT DEPUTY HOLMES

On Thursday Evening at the Lodge Room of the Local Society.

Thursday evening was a red-letter occasion for Greenwood Oddfellowship in fact for Oddfellowship in the Boundary. The event referred to was one that will be long remembered by all who had the good fortune to participate. Oddfellows gathered one hundred strong, guest of the District Deputy. They came from Myers creek, they came from Phoenix, they came from Grand Forks on his invitation to spend a pleasant and profitable evening in the spacious hall of the local lodge. Some months since Mr. Fred. B. Holmes, probably the most indefatigable exponent of Oddfellowship in Boundary, was made District Deputy of the order. He conceived the idea that an evening might be profitably spent by the four lodges above enumerated in a grand union gathering, each lodge to exemplify one of the beautiful degrees of the body. The Myers Creek Lodge was unable to get its scattered team for drill work and hence was obliged to forego that pleasure although it sent up a very fine contingent.

Much of the charm of lodge work consists in the proper presentation of the ritual and the larger lodges devote much attention to the drill of a team that may so go through the work as to bring out most effectively the sublime teachings of the same. As a result competition drills not only afford pleasure to the brethren looking on, but they incite other lodges to raise the standard of their work.

The initiatory degree was exemplified by the Phoenix Lodge, the first degree by Greenwood, and the second by Grand Forks. The universal verdict was that the Grand Forks team carried off the palm, the effect of the team's work being heightened by its beautiful regalia. The lodge work went through without a hitch and at 11:30 the entire party joined by a few invited non Oddfellow guests repaired to the city hall, guests of Bro. Holmes, at a most sumptuous banquet prepared and presided over by a committee of ladies of St. Judes' Episcopal church. And such a supper! Four long tables qualified to accommodate over a hundred people at once groaned beneath the good things spead thereon. Nothing that the most fastidious taste could desire was wanting. The tables were decorated with chrysanthenums and carnations, and reflected great credit on the committee in charge. The service was quick, quiet and effective and no confusion or bustle marred the delight of the hour.

Supper over the company repaired again to the lodge room now thrown open to the public where two very delightful hours were spent in music and speeches. An orchestra from the Greenwood Citizens' band furnished some very choice selections.

The beautiful tenets of the order were very much in evidence, FRIENDSHIP in the gathering, LOVE for the good things spread, and TRUTH in the after speeches in recital of the order's mission.

Many very complimentary references were made by the speakers to their host, none more complimentary than those uttered by his closest associates in lodge work.

TOWN TOPICS

For square meals and square prices try the Pioneer hotel, Greenwood.

Mr. H. V. Fuller has been made secretary-treasurer of the Providence Mining company.

Tell your friends to stop at the Pioneer hotel, Greenwood. They will all be satisfied.

Joseph Bauer has bought out the Vendome hotel in Anaconda, and assumed management on the 24th inst.

For house furnishings in all lines, "old and new," see A. L. White, the O I C store.

John Peet a large shareholder in the Providence Mining Company and in the firm of Russell-Law-Caulfield company has been in town several days this week.

For Sale or Rent—Sewing machines, typewritters, bob stays, guns, wagons, house furniture "or any old thing."—A. L. White & Co.'s New and 2nd Hand Store.

Now is your time to make a selection of a lot or two on which to build yourself a happy home. Prices and terms will be right.—Apply to Ralph Smailes agent for the Greenwood Townsite Co.

Gorman West was born in eastern Canada, dragged up in the lumbering woods of Michigan and Wisconsin, chased across the plains by the Indians, crossed the Rocky mountains and is now running the dining room at the Pioneer hotel, Greenwood, B.C.

Miss M. Jamieson, who has been laboring most successfully for 15 years in the foreign mission field of India, will give an address in the Presbyterian church on Tuesday evening, Nov. 1st. at 8 p.m.. Miss Jamieson is a pleasing speaker and and is deserving of a large audience. Collection at the close of the service.

The patronage of Greenwood and Phoenix business men is wanted at the Pioneer hotel, Greenwood.

John H. McFarlane who has been on the bounday line survey party in Alaska, returned to town on Monday. He talks very entertaining of his experiences in the north. The party is disbanded for the winter but will resume work in the early spring.

For Sale—Furniture and bedding of a nine room lodging house, large cooking stove, tables, house plants, also 40 white Leghorn hens and pullets, apply to Mrs. V. Dynes, Gold st. Convenient to smelter.

Capt. McMann, Mrs. McMand and F. K. McMann left today for the east after having spent several years in Greenwood. Mrs. McMann plans to spend the winter with friends in Michigan, but father and son will proceed direct to their old New Brunswick home. We are sorry to lose such estimable people.

Get fat by eating at the Gem restaurant. Good cooking and quick service day and night.

Among the recent arrivals in town are Messrs. Fitzgerald and Rudolph of Chicago. Both are very pleasant, affable gentlemen, men of large business interests at home. They are both interested in the Providence Mining company. They are spending a few days in camp enjoying the delightful weather and looking into the mining outlook of the Boundary.

A. L. White & Co. are closing out their new funiture at "special prices." See the ad.

John Crawford returned to town on Monday last accompanied by his bride. We extend congratulations to the newly wedded pair and wish for them many years years of happy, prosperous life. Mr. Crawford has been made master-mechanic of the Montreal & Boston Consolidated company's mines and will live at Phoenix. We regret his removal from Greenwood where he is so well known and so universally respected.
