Boundary Creek Times.

Vol. 7. GREENWOOD, B. C. FRIDAY, NOVEMBER 28, 1902. No. 14.

A BIG AMALGAMATION

New York Reports That all the Big Properties in the Boundary are to be Merged into one Company—The Arlington Burns Group—Mining News.

The amalgamation of some of the big mines and smelting industries of Boundary district has again been revived. Whether it is more than mere rumor this time, time alone can determine. Certainly there have been something doing in New York where men sell and buy stocks a million dollars' worth at a time. The newspapers of Gotham have got hold of the rumors and have cooked them and served them in all sorts of fancy dishes. The New York World in its financial column, deals with the matter in this modest way:

"Reports are current in copper mining circles that a consolidation is contemplated of the producing mines and smelters in the Boundary Creek District of British Columbia. It is understood that the plan under consideration will include the British Columbia Copper Company, the Montreal and Boston Copper Company and the Granby Smelter. In this connection it is stated that C. A. Starbuck, President of New York Air Brake Company, owns a controlling interest in the British Columbia Copper Company. He is said to have purchased the stock in the company formerly owned by J. F. Underwood and the late J. F. Tichenor. When asked concerning this report yesterday, Mr. Starbuck refused to either confirm or deny it. G. H. Munroe, the local representative of the Montreal and Boston Copper Company, was equally uncommunicative. Certain it is that there have recently been some considerable transfers of the stocks of both of these corporations."

It may be stated that negotiations looking to such an amalgamation are being carried on at the present time. Mr. Starbuck is a large shareholder in the Granby Mining & Smelting Company as well. Should these negotiations be successful all the present smelters would be utilized and another large smelter erected at the mouth of Eholt Creek. In any case, the Dominion Copper Company has decided to begin work at an early date whether there is an amalgamation or not. Should the amalgamation suggested from New Yord not be carried out, there are others proposed which may meet with greater success. The amalgamation of the Montreal & Boston and Dominion Copper companies has been discussed and negotiations in this direction have not been broken off by any means.

H. H. Shallenberger, the well known mining man this week secured from the trustees of the Bielenberg estate, an option on the Arlington-Burns group of mineral claims in South Deadwood camp. Mr. Shallenberger left on Wednesday for the east. He will visit St. Paul, St. Louis, Duluth, Chicago and other centres with a view to interesting capital to develop the properties.

The Arlington-Burns is one of the most promising group of claims in the district. They were located by the late "Count" Bielenberg whose good luck and good judgment in mining matters, combined to make him the possessor of valuable mining properties. About three years ago the "Count" as he was familarly known, went to New York and succeeded in interesting capital in the company which he had organized. He made arrangements to dispose of a large block of stock and the Arlington-Burns group would doubtless have been developed but, shortly after returning here, Mr. Bielenberg contracted an illness which terminated in his death. This of course put an end to negotiations for the sale of stock and the properties have not been developed since then.

The Arlington-Burnr group adjoins the Buckhorn group and comprises, the Arlington, Burns, Blue Bell, Buckhorn No. 2, and Burns Fraction. Mr. Bielenberg did considerable development work on the property including 10 shafts ranging from 17 to 40 feet in depth and 900 feet of opdn cuts. The work discloses an ore body 200 feet in length and 600 feet wide on surface. An ore body which runs from the Buckhorn across the Arlington and Burns has been uncovered for a width of 212 feet by crosscuts and shafts. These ore bodies were sampled by J. C. Haas M. E., and values from $15.45 gold and 20 1-5 per cent copper down to 1 1-3 per cent copper and 65 cents in copper were secured.

Mr. Shallenberger is one of the pioneers of the Boundary. He has been developing the Cresent and other properties in the district. He is conservative and reliable and with an option on one of the most promising group of claims in the district he should have no difficulty in securing capital to develop the same.

The Cresent mineral claim, owned by the Greenwood Cresent Gold Mining and Milling Company, of Spokane, has had considerable work done on it during the last few months. H. H. Shallenberger has a lease of the property and an option on a controlling interest of the stock. The company sunk a prospect shaft to a depth of about 30 feet some time ago between croppings that appeared to indicate the occurrence of two veins running parallel at about 90 feet apart. A cross-cut cut one of these at the 80 foot level at about 60 feet from the shaft. A crosscut started in the other direction on the 50 foot level should encounter the other vein at about 30 feet from the shaft. A drift run 75 feet on the lead already cut shows it to be a big vein with a quartz gangue, having a paystreak of about twelve inches of good ore. Some 80 feet ahead of this drift, which runs into the hill and so gives greater depth as it gets farther in, there is what on the surface appears to be a big cross lead of arsenical ore into which several stringers of good ore appear to run from the direction of the shaft. About 200 feet in the opposite direction another prospect shaft has been sunk 18 feet on what is thought to be the second of the parallel veins above mentioned. Near this an open cut has been run into the hill, cutting the ore, which has been followed some 25 feet and now has a face 20 feet. A shaft is to be sunk on this 20 feet, giving a depth of 70 feet from the surface. This ore shoot is up two feet in width, averaging about 16 inches, of which from 4 to 10 inches is pay ore giving good values in gold and silver with grey copper occurring in it as well. A third prospect shaft, sunk 22 feet distant about 200 feet in an opposite direction to that of the first named shaft, shows another cross lead, about two feet in width and having stringers of high grade silver ore. Mr. Shallenberger is pushing development, confident that the Cresent will justify the expenditure.

The Cresent was located in 1893 and is now Crown-granted. It is situate in Skylark camp, is about two miles from Greenwood, and adjoins the Lake group upon which last year a shaft was sunk 165 feet and a crosscut run 75 feet. Both properties give promise of turning out well after sufficient development work shall have been done to open up the ore veins already discovered on them.

F. L. Underwood the vice-president of the B. C. Copper company and W. B. Thomas, the company's consulting engineer arrived in the city from New York on Wednesday evening and will remain here about ten days inspecting the company's mines and smelter. Mr. Underwood with his late partner Mr. Tichenor were the organizers of the company which developed the Mother Lode. He was always confident that the mine would turn out all right and though he might have sold his stock at a large figure, he retained a heavy interest. He can now assure himself that his judgment was not in error and that the big mine will soon be paying regular dividends. Mr. Underwood did not care to discuss the various rumors of an amalgamation of the big Boundary properties.

LOCAL AND PERSONAL.

C. A. E. Shaw has gone to Keremeos, under instructions from the provincial survey department, to correct errors in surveys in the Similkameen made by other surveyors. He will probably be away from Greenwood about a month.

Mrs. J. H. Mathot of this city received the sad news this week that her sister had died in Toronto. The deseased was a sister in St. Joseph's Convent in the Queen city and was about 27 years of age.

The Annual ball given by the Greenwood Miners' Union was a great success. Seventy couples were present in the Auditorium and danced until long after midnight. The Auditorium was tastefully decorated for the occasion; the music was excellent and an appetizing supper was served by the ladies of St. Jude's church. The committee in charge were warmly congatulated upon the success of the ball.

Charles Dagman, a young man employed in the sample mill at the B. C. Copper Company's smelter, Greenwood had a narrow escape from death. With two other men he was engaged in emptying ore from a number of railway dump cars into the smelter ore bins. When releasing the lever of one car he did not take the customary precautions for his own safety, with the result that he lost his balance and stepped on the ore just as it commenced to fall through into the bin below. About half the contents of a 30-ton car of ore fell on him, causing numerous cuts and contusions about his face and body. Fortunately the ore had been passed through a rock crusher at the mine previous to being loaded on the car, otherwise had it been large lumps, as is often the case in shipping ore not crushed, the heavy rocks, falling 10 or 12 feet on him, must have nearly pounded the life out of him. He was taken to the Greenwood hospital, where he rallied from the severe shock his system had sustained, is now doing well, no serious internal injury having been received.

RAILWAYS GROWING.

Some Big Movements in Transportation Circles--Grand Trunk to Build to Coast—V. V. & E. Engineers are Engineers are in the Field.

There have been but few new developments in the railway situation during the week. Surveyors are at work between Curlew and Midway and another party is in the vicinity of Myers Creek. They are cross-sectioning preparatory to building the road. When active construction will begin it is difficult to say but, all indications point to the early commencement and rapid completion of the road from Curlew to Greenwood.

Pat Welch whose firm built the greater portion of the Columbia and Western railway and also had heavy contracts on the V. V. & E. from Marcus to Republic, arrived in Greenwood on Saturday and left for Spokane on Monday. Mr. Welch drove from here to Curlew and also from Midway westward towards Myers Creek. He said he was looking round but he knew nothing definite regarding the intentions of the V. V. & E. His partner J. W Stewart was then in St. Paul in consulation with Mr. Stephens and other officials of the Great Northern company and he would know in a few days what would be done.

A gentleman heavily interested in the Boundary had a lengthy interview with J. J. Hill in New York a short time ago. The latter intimated that he was much impressed with the importance of the Boundary and the large volume of transportation business that the district would afford. He added that Boundary system of his road would be constructed as quickly as possible and that this work would be completed before the line was extended westward.

It looks as if B. C. was going to get many railways. The Grand Trunk officials have announced that their road will be continued to the coast. The C. P. R. will not oppose the extension judging from the remarks of Sir Thos. Shaughnessy. In an interview he said:

"Our Grand Trunk friends are undertaking a very big contract. There is nothing in the announcement that need cause the Canadian Pacific the slightest concern. In this vast country of ours there is room for a great many miles of railway. Twenty years ago, when the Canadian Pacific enterprise was inaugurated, the entire country from Pembroke to the Pacific coast, a distance of upwards of 2500 miles, was a bleak, barren waste, practically uninhabited. Today the Canadian Pacific operates in that territory over 6000 miles of railway on the main line and branches, and this mileage is increased year by year. The construction of a line north of us will involve years of labor and millions upon millions of capital. A gratifying feature of the announcement is the absence of any reference to government bonuses or subventions. The Grand Trunk company has declared its determination to build, so that any aid towards the enterprise from either the Dominion or provincial governments is not asked for or required, and this is just as it should be, as Mr. Hayes says the conditions have changed enormously since the pioneer road was constructed, and circumstances that made government co-operation absolutely essential to the carrying out of the original Canadiad Pacific enterprise no longer exist."

McKenzie and Mann are still after a bonus and land grant for the Canadian Northern and McLean Bros have announced that they have raised the necessary funds to build the Coast-Kootenay road.

Suitably Aknowedged.

Shortly after Miss Moffat had left the local service of the Vernon & Nelson Telephone company and proceeded to the coast a number of residents in Greenwood and vicinity decided to ask her acceptance of a small token of their appreciation of her courtesy and attention to duty whilst connected with the Greenwood Telephone exchange. This took the shape of a bank draft, the proceeds of which the recipient was requested to apply in purchasing some memento of her business association with Greenwood, or in any other manner most pleasing to herself. Last week E. Jacobs received from Miss Moffatt the following aknowledgment: "Whilst on a visit to Vancouver several days ago I received your letter with the accompanying bank draft the amount of which you informed me was contributed by some of my Greenwood friends. Please convey to them my earnest appreciation of their kindness, and assure them that I value much the generous sentiment that prompted them in this thoughtful act. I thank them for their liberality and wish them prosperous times in the near future. With kindly remembrances to all, I am, Yours very sincerely, Lavinia Clarke Moffatt."

Miss Moffatt is entering one of the hospitals at Seattle to take the usual course to enable her to qualify as a trained nurse.

Ladies Doll Show.

The ladies of the Presbyterian church are holding a doll sale on Saturday 6th December in the dining room of the B. C. Hotel which Mrs. Douglas has kindly lent for the occasion. There will be on sale dolls of all colors and nationalities from the pale Caucasian to the deep tinted visages from India's coral atrand.

There will also be served a supper to satisfy the most fastidious taste for which a small charge will be made, and some singing and recitations by the best local talent. This a splendid opportunity for securing appropriate gifts for the youngsters at reasonable figures.

Prior's Cabinet.

The Men chosan to Fill The Vacancies.

Below is given Prior's complete cabinet.

Premier and Minister of Mines, Hon. E. G. Prior.

Chief Commissioner of Lands and Works, Hon. W. C. Wells.

Minister of Finance and Agriculture Hon. J. D. Prentice.

Attorney-General Hon D. M. Eberts.

Provincial Secretary and Minister of Education, Hon. Dennis Murphy.

President of the Council, Hon. W. W. B. McInnis.

All members of the curling club and those who intend joining are requested to meet at the fire department city hall, on Monday evening next. New officers will be elected and other important business transacted.

W. H Van Wart who spent last summer in Alaska is looking over the district. He will probably decide to remain here.

For Rent—A comfortable five-roomed house on Kimberley Ave. furnished, good well water. Apply The Mart.

FRIDAY NOVEMBER 28 1902.

THE NEW GOVERNMENT.

While it may be admitted that Col. Prior has organized a government as stable and as competent as any which could be selected from the present legislature, his government cannot in any way be considered a satisfactory one. The trouble is that British Columbia politicians make expediency their watchword and are always prepared to abandon principle for office. A glaring example of this is to be found in the course of Dennis Murphy M. P. P., who has accepted the position of provincial secretary in Col. Prior's cabinet. Mr. Murphy was one of the strongest opponents of the policy which the government adopted to secure Col. Prior's election in Victoria. On the platform, on the floor of the legislature, he used all his Irish wit and native ingenuity to find terms strong enough to characterize a government which abandoned all its principles and its pelicy of no land grants to railways in order to bribe the electors os the city of Victoria. He denounced in the strongest possible terms the intention of the government to give away enormous areas of public lands in order that Col, Prior could win Victoria and save the government. The first announcement Col. Prior made after being sworn in as premier is that the policy adopted by the government at the time of his election is to be vigorously carried out. To enable to carry out this policy he has chosen as one of his colleagues Dennis Murphy M. P. P. of Ashcroft.

Mr. Murphy cannot be blamed much for his action. It is not so much the fault of the man as the system. In a legisloture where it is apparently impossible to divide the members into two distinct parties, and equally impossible to unite those who are not ready to abandon everything for office, there is neither encouragement nor hope for the member who believes that principle should stand for something in a British Columbia legislature. Col. Prior possesses some political shrewdness acquired by long training and he should heve no difficulty in keeping control of the house during the next two years. One recalcitrant can be appeased with an office, another with a large appropriation and a third with a little social attention. A leader possessed of some tact and little principle should have no difficulty in securing and maintaining a majority in the present legislature.

GRAND TRUNK EXTENSION.

The Grand Trunk is practically the oldest railway in Canada. As early as 1852 it began construction in the province of Ontario. Its line ran from Portland, Maine, through Ontario and Quebec and on to Chicago. For years the management with its head office in London, England, was conservative, even non-progressive. While it secured connections with other large centres it never attempted to extend its system on a large scale. New men have taken charge of the affiairs of the company and they have announced that the Grand Trunk will be extended to the Pacific coast. The road will be continued from North Bay to Winnipeg, north of C. P. R. line and westward, the extension will follow the original C. P. R. survey coming into B. C. through the Yellowhead pass and finding a Pacific terminus at Bute Inlet or Fort Simpson. No application will be made to either federal or provincial governments for subsidies.

Last session the government of British Columbia were determined to grant a subsidy for a Coast-Kootenay railway in the face of a definite announcement from Mr. Hill that he was prepared to build a road to the coast without a subsidy. They even went further. They placed every obstacles in the way of Mr. Hill because he was foolish enough to want to build railways in this province without a subsidy. The new premier has promulgated a railway policy which includes aid in the shape of a cash subsidy and an enormous land grant to the Canadian Northern. It is difficult to see how the people will endorse such a policy in the face of the announcement by the Grand Trunk.

The truth is that railway companies are getting down to business. Instead of making a side issue of railways and the securing of land grants and cash subsidies their main object, they have decided that the transportation business is sufficiently important to demand their full attention. If the people of B. C. will only stiffen up their back bones and stand pat against the alienation of the public domain and the plundering of the provincial treasury they can get all the railwa s they want without money and without price.

It is evident that the present premier had a prior right to the position.

David McEwen Eberts is no greater attorney-general than has been.

The provincial secretary's name is Dennis.

Mr. Debs ! If the progressive party is a bottle of mixed pickles what would you call the present provincial government?

Sauvity and curly locks have not the same attraction as a five thousand dollar job.

THE EDITOR'S EASY CHAIR.

The responsibilities of an editor of a great family journal like the Boundary Creek Times are heavy. Not only is he responsible for his own effusions; it matters not whether he feels at peace with the world or has a bad seige of indigestion, he must also assume responsibility for the work of his numerous correspondents. The difficulties never presented themselves in such a forcible way until this week when a "Hot Air" journalist walked over the mountains and wished to write something at so much per. Now our sympathy goes out for the newspaper man in distress but our early Scottish training precludes helping the needy without getting something in return. We told the Hot Air journalist to put on the brakes and keep down to the facts He doubtless did the very best he could but his announcement, surmises, deductions and absolute certainties were so startling that we felt tempted to throw the whole thing in the wastepaper basket. But the journalist had to live and we had to get something for our money, so we compromised by deciding to publish an expurgated version which is given below. He announced authoratively that active and continuous railway construction will be commenced at Curlew by next week.

That Pat Welsh was here here to figure on the work from Curlew to Greenwood.

That the line will be built from Greenwood to Phoenix as quickly as possible.

That Jim Hill is not going to ask the city for a bonus.

That Mr. Underwood is here to arrange the details of the amalgamation of the B. C. Copper Company, the Granby Company, the Montreal & Boston Company and the Dominion Copper Company.

That the big reduction works of the big company will be at Greenwood.

That a tunnel will be run between Greenwood and Phoenix, so that Phoenix ores can be hauled to the Greenwood smelters.

That Jim Hill intends making Greenwood a Great Northern town.

That all signs, railway, mining, Smelting, point to Greenwood as the largest city in the province.

That Grand Forks is going to return the Mother Lode and Sunset mines.

James Proudfoot, of the Glasgow Herald in one of his first letters regarding this province enthused over its wonderful pocsibilities. In one of his entertaining articles he says:

"Notwithstanding the apathy of the British capitalist and a plethora of labour legislation, industrial progress has recently been rapid. The prospector has been wonderfully fortunate in his tedious and laborious search for outcrops, and the mining camp has followed closely upon his discoveries. Then comes the smelter—only in a few places as yet—with its furnaces and its fumes, and civilisation and science claim a devastating triumph over pristine nature. These are the conditions which the traveller finds today throughout the length and breadth of British Columbia. The mineral mountain and the primeval forest are being slowly but surely convertd into dollars. Nature unadorned, and therefore in her loveliest garb, is being ruthlessly sacrificed in the march of industry and commerce. In its obvious aspects the change is not wholly pleasant, but in a utilitarian age it is inevitable, and regrets at the destruction of the beautiful in nature can in the circumstances be only unavailing. The diamond drill of the miner and the axe of the ogger must continue to transform the face of the earth. Industrial enterprise has no sense of the sublime; dollars, and dollars only, are the measure and the limit of its existence; and so it comes about that in British Columbia man's chief end has come to be to burrow wealth from the bowels of the earth, to trawl it from the rivers, to fell it in the forest."

Death of Mr. Hanly.

A Well Known Mining Man Dies in Mexico.

Big Jack Hanly is dead. A great many residents of Greenwood will remember the big manager of the R. Bell mine in Summit Camp. After leaving here he went to Mexico where he died suddenly last week. The Spokesman-Review speaking of his death, gives the following particulars by Mr. Dennis

"He follows in the wake of Professor Clarence King, who died about a year ago and who, with Mr. Hanly, made the development of the Old Dominion mine in Stevens county a study when Mr. Hanly was my superintendent for six years.

"While he was a large, seemingly robust man weighing about 260 pounds, he has been for two or three years past in failing health which caused his removal from this section to California and Mexico.

"No mining man was better known in mining circles than Mr. Hanly. He was a part of the history of the mining development in the northwest, and was one of the first in the Colville district and in the Coeur d'Alenes. He superintended the first development of the Hunter-Yolanda mines under the ownership of Dennis Ryan of St. Paul, as well as other properties. He was then a member of the legislature of Idaho.

"After quitting active work at the Old Dominion mine he, associated with Jay P. Graves, developed the R. Bell Property in the Boundary Creek district of British Columbia, and with myself the Insurgent mine in Republic camp. Failing health took him to Mexico, where in association with Valentine Peyton, Colonel W. W. D. Turner and others he was developing an extensive gold mine. There he died."

"His first education in mining was in the Calumet & Hecla mines of Michigan and later in the Comstock mines of Nevada, where he first made the acquaintence of Clarance King, a friendship which lasted through life.

Although in physique a very large man, the largest part of him was his heart, which ever beat in kindness for those whom he loved. There was not a dishonerable trait in his character. I have known the man on more than one occasion to give to a friend his last dollar, and in his behalf even to go hungry. A miner in good standing had his friendship always and his financial aid. He was about 50 years of age, a good Catholic and was married, his wife and family living upon an orange plantation at Mesa, Grande, San Diego county, California. No doubt they are left in comfortable circumstances."

WHEN OUGHT WE TO GO TO A DENTIST?

Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give the teeth no attention till pain compels them.

The stupidity and shortsightedness of either policy is evident.

Everyone who thinks a moment on the subject knows that food cannot be masticated satisfactorily if one or more teeth are tender, inflamed, decayed, or otherwise out of working order; and if this be the case, the mouth requires immediate attention.

The City Council

Business Transacted at Regular Meeting Mondapy Night.

At the regular meeting o. the council held on Monday evening Mayor Naden and all the aldermen except ald. Caulfield who is absent in the east were present. It was decided to use steel pipe along Long Lake street from Greenwood stre to the new school. The wire wound pipe will be used along Church Street. It was found that certain improvements would have to be made on the pipe and the change was made in order to give the contractors Messrs Stack and Oliver more time to make these improvements.

By-laws were introduced to fix the grades on Long Lake, Kimberley ave. and Church street, to amend the water regulations by-law and to provide for the municipal elections 1903.

R. E. Gosnell secretary of the bureau of Provincial information wrote asking for views of Greenwood which are to be used by Hon. J. H. Turner in a course of lectures to be given by him in England during the winter. The mayor and city clerk were authorized to forward the required views.

The following resolution was passed by the council. The necessity of the resolution is set forth in the preamble,

Whereas a considerable portion of the land comprised within the corporate limits of the City of Greenwood consists of Crown Granted Mineral Claims of which the surface rights have also been granted to the mineral claim owners.

And Whereas the said mineral claims are subject to the tax on unworked crown granted mineral claims under the Mineral Act.

And Whereas by reason of the subdivision of the said claims into town lots and the sale of these lots to a large number of individual owners the owners of the said mineral claims have no real interest in paying said tax and preserving the said mineral rights

And Whereas by reason of the number of separate owners and the fact that each share is so small it is impossible to conveniently collect the said tax from the property owners but nevertheless considerable expense and hardship would accrue to them by reason of either the cancelling of the said mineral rights, or the sale of the same for the unpaid taxes

Resolved that this Council respectfully recommend to the Provincial Government that it pass legislation exempting Crown Granted Claims to which the surface rights has been granted and which have been subdivided into lots and a plan of same registered, and are situated within the Corporate limits of a Municipality from the provisions of section 145 of the Mineral Act and a copy of this resolution be forward to the Hon. the Attorney-General and the member for the district

Elect Officers.

At the regular meeting of Boundary Valley Lodge I. O. O. F. held on Tuesday evening last the following officers were elected for the ensuing term:

D. Bannerman N. G.; J. L. White V. G.; F. B. Holmes Rec. Sec.; G. B. Taylor Fin. Sec.; and W. A. Frith treasurer. The other officers will be appointed on the night of installation.

James D. Sword and H. H. Shallenberger W. T. Smith and George R Naden went up the West Fork to look at some mining properties last week.

Jas. Dale has returned to Greenwood after spending a few days at Carmi.

Mark F. Madden of Madden Bros. Chicago who are heavily interested in the Providence is expected here by tomorrow's train.

Going to Edmonton.

A. Fisher returned on Saturday from Edmonton and other Northwest points. He reports that the prospects there are bright. Settlers are pouring into the country and the old timers are prosperous. Mr. Fisher decided to start a large brewing and malting establishment at Edmonton. While there he purchased the old electric light station site from the municipality and several adjoining lots from private persons. These give an excellent site near the river for the brewing. Mr. Fisher has two experienced brewers associated with him in the enterprise. He leaves in a short time accompanied by Mrs. Fisher and Miss Fisher. They were among the first residents of Greenwood and their departure from the city will be generally regretted.

St. Jude's Church Fair

The ladies of St. Jude's church held a very successful sale of work in the Auditorium on Wednesday last. In the afternoon many articles fancy and useful were sold at good figures. An entertaining programme was carried out in the afternoon and evening. The most interesting feature was the cake walk by at least a score of small children. They were carefully drilled by Mrs. H. Walker Harris. The little tots were liberally applauded by the delighted spectators.

The programme included instrumental and vocal selections and a collection of wax figures exhibited by a very ancient and picturesque Mrs. Jarley. Financially the fair was a success.

Dr. A. O. McRae and H. C. Shaw have returned from a hunting trip up the West Fork. The deer in the vicinity of Westbridge is not of the domesticated variety that is so plentiful at Beaverdell, consequently they had not that abundance of success which crowned the efforts of Messrs. Keith & Johnson at the latter place a few weeks ago.

One hundred tons of high grade ore from the Lone Pine mine, Republic, was received at the Sunset smelter this week.

C. S. Riley and A. McAllister both connected with the big Sanford clothing concern of Hamilton and Winnipeg were among this week's visitors to the city.

Anson J. Burnside who succeeded Mr. Foster as accountant in the Canadian Bank of Commerce, reached here on Saturday last.

A. G. McKinney representing the Gutta Percha & Rubber Company was here on Saturday last.

Death of W. E. Medill

Well Known Resident of Anaconda Passes Away After a Brief Illness.

William E. Medill manager of the Snowflake Lime Compaby died at his residence in Anaconda on Saturday last after a brief illness. Early last week Mr. Medill was about as usual. A decayed tooth began to ulcerate and the abscess expanded down the neck making breathing difficult. Three physicians were called in and they decided an operation was necessary. The operation was performed and the pus removed but the shock and subsequent complications proved fatal; death came Saturday afternoon. The funeral took place on Monday afternoon from the family residence. The services at the house and grave were conducted by Rev. Mr. Thomson of Midway. The pall bearers were Messrs. Archibald, Russell, Sorenson, Dynes, Monroe and Peterson. Mr. Medill came to Greenwood about six years ago from Naniamo B. C. He was a plasterer and stonemason and had many contracts in the building line in the city. Besides the bereaved widow, he leaves a family, two sons and two daughters. He was 54 years of age and was born near Preston Ont.

A. W. Young has returned from Victoria where he took part in the amateur boxing tournament held under the auspices of the Victoria Athletic Club. "Red" put up a good fight but the cup went to his opponent. He was well pleased with his trip and treatment received from the officers of the Association.

Smith & McRae are showing an excellent line of Xmas cards—with a view and a verse that is simply O. K.

MINERAL ACT.
Certificate of Improvements.

NOTICE.

AMANDA Mineral Claim, situate in the Kettle River Mining Division of Yale District. Where located: In Long Lake camp.

TAKE NOTICE that I, C. Æ. Shaw agent for James Hunter, Free Miner's Certificate No. B56922 intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.
