We announce with great pleasure that we are the exclusive agents of this famous make of fine shoes and have in stock a variety of the best styles.

RENDELL & CO.

Agents for Mason & Risch pianos.

HEALTH IN THE CAMP

Many Notables Here on Pleasure Bent.

GREAT NORTHERN R'Y MEN

Greenwood is Becoming a Noted Resort.

The number of men connected with the Great Northern Railway that have been in Greenwood recently is surprising. From all reports they have come for mountain air and suphur fumes. Within the last two weeks a dozen of them have dropped into town and dropped out again, silent doubtless because seeking health. Sickness makes some men querulous, some silent. The Great Northern people were all affected in the sameway. They knew nothing or if they did they didn't want to talk.

First came Contractor Shields but he passed quietly on his way. Then came Supt. Morgan of the S. F. & N., accompanied by H. A. Jackson and J. C. Eden. Great Northern officials all, but they were simply refugees from the cares that pressed them elsewhere. Then came Chief Engineer Kennedy last Saturday but he knew nothing but what was on the blue print and that he kept folded close and in his pocket.

Wednesday of this week saw Louis D. Hill and party in the camp but they saw few people and about all they said was to ask a few questions.

And last, but not least, friend Desbrisay, right of way man for the Great Northern, has come and gone many times of late but he just knows nothing about his company's plans.

In his article "Fenzied Finance" in Everybody's Magazine for August, Mr. Lawson speaks of the law of silence that controls the officers and employees of the Standard Oil concern but if the Great Northern officials cannot give Standard Oil people lessons in mysterious silence, the latter are first-class mutes.

We have alway maintained that Greenwood and Boundary Creek had a very fine climate, but we little dreamed that its repute would reach so far, so soon. But the climate and scenery will have their effect. And so the sick and tired (and they who keep you sick and tired waiting) from Spokane and Seattle and St. Paul have been with us again and again of late, but they have gone again. Not an uninteresting looking lot either.

CHICAGO CAPITALISTS.

Mark F. Madden, president of the Providence Mining company, arrived in Greenwood on Thursday's Canadian Pacific train. Mr. Madden is making his regular trip into Boundary looking after his mining interests here. He is accompadied by Mr. J. B Heeney and Mr. M. S. Hyland both capitalists of Chicago Mr. Heeney is a stockholder in the Providence but had never seen the property, his investments having been made on Mr. Madden's recommendation. Mr. Heeney is president of the E. Baggot company, the largest plumbing establishment on earth. Both gentlemen are much pleased with the appearance of the Providence and the camp generally. They report a delightful trip across country and are enjoying the cool salubrity of Boundary creek evenings and nights. They count the change from hot pavements and warm nights a veritable benediction and expect to realize largely by their rest. Although ostensibly sight seeing these shrewd men are not likely to leave Greenwood without making further investments, but whether visitor or investor they are heartily welcome not only because the guests of Mr. Madden but because of their many pleasing personal qualities.

FATAL ACCIDENT.

A most distressing accident occurred near Phoenix on Tuesday evening last. Preparations had been made to explode a large amount of powder on a piece of rock work in the contract of Burns and Jordan on the V. V. & E. railway. The powder had failed to explode and Oscar Turnquist had been sent to investigate. Reports differ as to the exact conditions of the affair but from accredited testimony it would appear as if Turnquist dropped a long steel bar into the hole resulting in the ignition of the powder. The breast of the rock was blown out, and Turnquist disembowelled and his body blown to a distance of 400 feet. This is the first serious accident on the work.

UNION MEAT COMPANY.

The Union Meat company is resuming business at the old stand on Copper street under the management of Mr. J. P. Flood. Arrangements have been completed for a permanent supply of first class meats, fresh and dried, and the proprietor trusts for a share of the public patronage.

THE BOUNTY.

J. W. Nelson who has just returned from a trip up West Fork, reports work progressing on the Bounty and Standard with very flattering prospects. The Bounty never looked so well as at present. Conditions are favorable for an early deal on this high grade claim.

If you want good home made bread go to F. Jaynes bakery, opposite court house.

BOUNDARY PAY ROLL

Wages Now Being Earned in the Boundary.

$170,000 A MONTH

Prosperous Times in Sight for the Boundary.

The Boundary pay roll is very large at present and yet money appears to be very scarce. Within a very small strip of country of which Greenwood, Phoenix, Grand Forks and Midway are the business centres a large amount of money is being daily earned. In this small area there are at present employed approximately: 1400 railway workers, averaging at least $60 per month; 100 railway operators, averaging $100 per month; 700 mine and smelter men averaging $100 per month; a total pay roll of nearly $170,000 per month.

A large part of this money goes into the regular channels of trade, some is sent abroad, and considerable is banked. Money ought to loosen up a little in the Boundary soon. The mines and smelters have been paying out large sums steadily for some time now. The Montreal and Boston Consolidated will within the next two or three months, to all appearances, have a monthly pay roll of $20,000 say, all of which will go into the currents of trade. The inflow of money from railway building during the next six months added to the steady monthly roll of mines, smelters and railway operating, ought to make an appreciable difference in the money in sight, and ought to offer a guarantee that times will be good in the Boundary the coming autumn and winter.

We shall so expect. With mother earth yielding up thousands of dollars daily the money current must perceptibly grow. The evolution of course comes slowly if steadily, but the quick turning loose of a million more or less for railway building in this district cannot do otherwise than make the money market easy while it adds to the facilities of doing the staple business of the country more cheaply.

HIGH GRADE DISTRICT

The Camp Rapidly Changing its Reputation.

SOME VALUABLE ONES

A Distinction Will Be Necessary Hereafter.

It looks now as if Greenwood particularly was rapidly losing its reputation for being a low grade camp. The Boundary is known far and wide as a low grade district, but Greenwood keeps butting in and knocking the old name over. True the big ones are all about us, the great big low grade mines with ore enough in sight to keep thousands of men busy for a generation. But the little ones, those of high grade ore, keep showing up so steadily and so persistently all about Greenwood that the repute of the camp as "low grade" is fast being gratified.

The fact that the 750,000 tons of quarried ore yielded and smelted in the Boundary during 1903 averaged $5 to the ton justifies the term "low grade". But with this true the profits were larger than in the Rossland and other camps of higher grade, due to the excessively cheap cost of mining and smelting. But these great deposits of low grade ore which doubtless will alway remain the backbone of the mining industry here, cannot longer dominate the reputation of the camp.

The high grade ones are coming in so fast and so surely that cognizance must hereafter be taken of them. Within two years the complexion of things has changed, happily changed. The Providence started the music and has kept it up, and at the 300 foot level has better ore and more of it than ever.

The Elkhorn followed after and has not repented. The E.P.U. group set a lively pace for value at the start and has kept it up. The Helen and Barbara are content to make records away above the $100 mark. The Silver Cloud is crowding the $180 line if numerous assays are to be believed. The Bay's ledge, and it is a fine, large one, touches the $120 mark and shows lots of free gold. The Mavis, promises to justify her right to be in the company of the Bay and Silver Cloud and Skylark and is yielding $100 ore to the bondholders.

Thus these claims promise to rapidly change the old familiar term of "low grade". But what a magnificent combination is afforded. Individuals and small companies may operate the high grade mines profitably, the millionaire aggregations may increase their millions out of the low grade ones.

Big profits in one instance and big pay rolls in the other, are thus secured to the camp. But what about the name? If we say "low grade" we must qualify, if we say "high grade" we must qualify. So we suggest the euphonious "high-low" as being the correct thing.

For inasmuch as these high grade ones are closer to the town, crowding the corporation limits on the north, the east and the south, than the others they have the right to the first part of the combined name—and so "high-low" goes.

MEAT SUPPLY.

An anonymous correspondence post marked Vancouver, arraigning the meat supply of the province, has been received at this office. A correspondent whose convictions on a question are not sufficiently strong to justify the signature of his name cannot expect a newspaper to vary its rules and assume a responsibility he evidently declines to take. The Times cannot publish a reflection of this character without the name of the complaining witness.

FRIDAY, AUGUST 5 1904

OFFICIOUS OFFICIALS

The Times hastens to congratulate Mr. J. B. McKilligin surveyor of taxes for British Columbia upon the strenuous efforts which he is making to earn his official salary- Everyone will recognize the fact, even the overburdened rancher that the new assessment is so perfect in all its details and the incidence of taxation is so equitably adjusted that there is little scope for the display of genius on the part of the surveyor of taxes. It is not surprising therefore that this very active gentleman should take up the cudgels in defense of the much abused Canadian Pacific Railway company and use his official position to protect that overtaxed institution against the assessors of those municipalities which have been specially legislated against by an all wise provincial government.

It would be unkind to suggest that the municipal act provides a remedy for alleged grievances against the work of the assessor. The C. P. R has just as much right to appeal against the finding of the assessor as the most humble tax payer and if the railway company cannot get redress from a court of revision, it can appeal to a higher court. Of course it is much simpler to have the surveyor of taxes butt in and tell the assessor that "you must do this or do that and certain assessments against the C. P. R. must be cancelled." In fear and trembling we respectfully beg to point out to that distinguished personage, the surveyor of taxes, that he should acquaint himself with the provisions of the Municipal Clauses Act and he would then discover that the assessor has no authority to cancel any assessment. The assessment roll was returned to the municipal council, passed upon by a court of revision after those taxed had been given the statutory time to appeal if they so desired. That assessment was then final and the assessor has no authority to mutilate it even at the suggestion of the surveyor of taxes.

The Times has been laboriug under the misapprehension that the surveyor of taxes was a provincial officer, and that the young and struggling municipalities which were denied the right to tax railways, although that privilege is extended to the older and larger municipalities at least would not be subjected to interference from provincial officers. However since Mr. McKilligin thinks he is in duty bound to instruct officers of the municipality of the City of Greenwood on the question of C. P. R. taxation, it might be just as well to add that the C. P. R. right of way has not been taxed, that the municipal officers of the City of Greenwood are too well acquainted with the provisions of a railway assessment act which viciously discriminates against the smaller municipalities, and that in any event, the C. P. R. failed to take advantage of the right of appeal and cannot now succeed in escaping the small amount of taxation it is asked to pay although backed up by a provincial officer who is more ornamental than useful.

If Mr. McKilligan is anxious to serve the public we would draw his attention to a letter written by one John Oliver, farmer and member of the legislature. Possibly Mr. McKilligin may have heard of the gentleman before, we would direct his attention more particularly to the following portion of Mr. Oliver's letter:

"If you take the case of a man producing hay or grain, or both, for market you will find that on 160 acres of land, which with its improvements is valued at $12,000, the farmer will require at least $1,000 worth of stock and implements. His average annual sales, even in the good times which we have enjoyed for several years past will be from two to four thousand dollars, or an average of three thousand. His case would stand thus:

Assessment on land and improvements, $12,000; assessment on stock and implements, $1,000; assessment on gross value of produce, $3,000. Total assessment, $16,000. Taxation at one per cent, $160.

Of the $3.000 received from the sale of products from $1,300 to $1,800 will be required to pay for labor, wear and tear of implements, twine, wire, sacks, etc.

If you place his net income at $1,500 (a high average under the circumstances) you will find that you are taxing him at the rate of 10.66 per cent. on his gross output. Are you prepared to accept the odium of this (supposed to be legalized) robbery?

If you take the case of a man engaged in stock raising you will find that even if his expenses are smaller than those of the man engaged in raising hay or grains, his assessment on account of stock is much higher and the taxation imposed will work out in a similar ratio.

If you take the dairy man, whilst his gross returns will be much larger, his assessment on account of stock will be much larger and his expenses on account of labor so much more that when his products are assessed he will be no better position than the others mentioned.

Compare the burden sought to be placed upon the agriculturist with those imposed upon other classes and you will find it substantially as follows.

A farmer taxed 5.33 per cent. on his net income, with no deductions whatever.

Taxation on the income of other individual is 150 per cent., and the following deductions are allowed:

1. Amount exempt under the statuto, $1,000.

2. Outgoings or necessary expenses actually incurred and paid out in the production of the income by the taxpayer.

3. Interest on borrowed capital, from which borrowed capital an income is derived, if such interest is paid to the lender, who is an actual resident of the province, or if such interest is paid to a company doing business in the province, and which pays taxes in the province, but not otherwise.

4. Losses and bad debts arrising out of the business from which an income is derived, irrecovertable and actually written off during the year, but not otherwise.

5. For premiums of life insurance on the life of the taxpayer, if paid, not to exceed one-sixth of the annual income of to taxpayer. Received therefore to be produced to the assessor on demand.

6. For municipal taxes and rates paid on real property, from which an income is derived, but not otherwise.

7. For repairs actually expending during the year on real property from which an income is derived, but not otherwise.

7. For repairs actually expending during the year on real property from which an income is derived but not otherwise.

8. For all incomes derived from shares, or dividends, from companies or corporations are assessed and taxed under the headings in this act of "Taxation on Mines and Minerals," and "Taxation of Corporations"; or where the real and personal property and income of such companies are assessed and taxed under this act, but not otherwise.

Or in other words, a farmer on a gross income of $3,000 or on a net income of $1,500 is required to pay $160 annually. Other classes on the same amount of net income are required to pay $7.50 annually.

Banks on the same amount of net income are required to pay $37.50, Other corporations on the same amount of gross income are required to pay $30 annually.

Thus, a farmer pays over four times as much as a bank, over 21 times as much as a financier, lawyer or doctor, and 5 times as much as corporations, other than banks."

ENTRAPPED.

It looks now as if, possibly Kuropatkin, great general and fighter, had delayed seeking escape from the torrid climate of Liaoyang and vicinity too long. Even St. Petersburg fears that unless he has withdrawn a large part of his army Mukden-ward already, he may find it impossible to extricate his forces without great loss, by a foe he has professed to despise. Kuropatkin holds the record as a back down any way.

For sale, National Cash Register, $75.00; Imperial Cash Register $25.00. One safe, weighs 1250 lbs, $85.00. One safe 1600 lbs. $115.00. One pool table $125.00. Slot machines galore and anything you want, A. L. White &

INTERESTING FACTS ABOUT YALE.

A perusal of the report of the Minister of Mines of British Columbia for the year 1903 disclosed some interesting facts regarding the mining industry.

(a) One third of all the claims crown granted in British Columbia during the year were in the Yale district.

(b) Over one fourth of the year's mineral production (exclusive of coal) was yielded by Yale.

(c) Not one of the thirty fine illustrations in the book illustrating things of interest in the mining world is taken from Yale.

(d) The county of Yale alone produced more value in minerals, exclusive of coal and nickel, during 1903, than all the provinces of Canada combined, if British Columbia and the Yukon be excepted.

Get your pies at the Vienna Bakery (Saturday).

CHOICE FRUIT.

Some very fine strawberries are coming to town from the ranch of Lafayette Spencer on the old Anaconda road. The fruit is among the choicest of the season and the entire crop is being handled by Galloway Bros., grocers on Copper street.

Cookies two dozen for 25 cents at the Vienna Bakery.

..THIRD ANNUAL..

Race Meeting and Summer Fair

Under the auspices of the Grand Forks Driving Park and Athletic Association

GRAND FORKS

C. P. R. TAXES

Provinaial Officer Instructs Municipal Assessor.

The following letter was read at the last meeting of the city council and referred to the city solicitor:

Surveyor of Tazes and Inspector of Revenue.

VICTORIA, B. C., 23rd July, 1904.

G. B. TAYLOR, ESQ.,

Assessor and Collector Municipality of Greenwood.

Greenwood, B. C.

SIR: Mr. N. S. Dunlop, tax commissioner of the Canadian Pacific Railwag company, has called my attention to a demand made by you for taxes on Lot 1, Block L, and Block H, map No 46, Greenwood, for the years 1901, 1902, 190s and 1904, and has requested me to explain to you that your municipality has no legal right to assess and tax the said property, as it is part of the right of way of the company.

The municipality of Greenwood was incorporated on 12th August, 1897. The Municipal Clauses Act, Section 116, subsection "a", prohibits all municipalities which are incorporated after the 21st February, 1895, from assessing the land occupied and claimed by a railway company as the railroad right of way, or occupied for railroad station. engine houses, freight sheds, railroad buildings, sidings, or any of the perscnalty property of the company, including its rolling stock or equipment.

I have also to refer you to the railway Assessment Acts of the province which contain a similar prohibition.

If you refer the question to your city solicitor I am sure he will advise you to cancel the assessment

I have been obliged to explain this question fully to several municipalities, and have given them the reasons for fixing the date 21st February, 1895, mentioned in the acts, as well as to explain why the prohibition did not extend to all municipalities, and wny the Crown alone had the right to tax under the Railway Assessment Act, but I need not trouble you with these explanations, but if your solicitor ihould wish to have any information that I able to give I shall be glad to supply it.

I trust you will at once cancel the assessmedt and notify Mr. N. S. Dunlop, tax commissioner C. P. R. Co., Montreal, that you have done so.

I have the honor to be Sir,
Your obedient servant,
JOHN B. McKILLIGIN,
Surveyor of Taxes and
Inspector of Revenue.

The floss and felt mattresses are guaranteed to excel all others. "No exceptions." New and just arrived; see A. L. White & Co.

When Your Appetite Fails

And it makes you dizzy to even think of eating. You need Ferrozone the greatest of appetizing tonics. It builds up the whole body, the taste becomes aware of new flavors in food you never noticed before. A relish and after-satisfaction in eating is another result from Ferrozone which improves the digestion and converts everything eaten into nourishment for the blood, and brain and nerves. Just one Ferrozone tablets after meals, easy to take and plesant. Try Ferrozone. Price 50c. at druggists. For sale at Tomas Drug Co.

THE ELECTRIC.

Mr. George William Cornist has secured a bond on the Electric mineral claim in Long Lake camp from the Vancouver and Boundary Creek Developing and Mining company and will begin operations at once. The Electric adjoins the Roderic Dhu on the southeast and is presumed to be the same lead that has run so high on its neighbor. Assays from the Electric ledge, a foot in width, are very satisfactory and Mr. Cornish believes he has the makings of a mine.

NOTICE.

Notice is hereby given that the undersigned will not be responsible for any bills contracted by Frank Miller, a minor, who left his home on the 19th instant.

JUDGE MILLER.

Anaconda, B.C., July 22nd, 1904.

NOTICE

In the matter of the "Lang Registry Act" and in the matter of the title to Lots 13 and 14, Block 21, Midway, 3, in the Osoyoos Division of Yale District.

Whereas the certificate of title number. 3659a, to the above hereditaments has been lost or destroyed, and application has been made to me for a duplicate thereof.

Notice is hereby given that a duplicate certificate of title to above hereditaments will be issued at the expiration of one month from the date hereof, unless in the meantime valid objection to the contrary is made to me in writing.

W. H. EDMUNDS.
District Registrar.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims. except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged. the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

NOTICE OF FORFEITURE.

TO DAVID HEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district.

You are hereby notified that I have expended the sum of $1000 for surveying the above mentioned claim and $2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, $51.25, together with all costs of advertising, your interests in said mineral claim shall become invested in me, [your co-owner] upon filing in the proper office in that behalf the affidavit required by section 4, of the Mineral Act Amendment Act, 1900."

Dated this 9th day of June, 1904.

ASPEN GROVE NOTES

(Similkameen Star.

The Portland, with Jack Murray in charge and Tink French at the lever, are engaged in bailing out the water in the shaft. A. W. Wright and the auditor are here at present and are making an examination of the property. It is not yet definitely known if develofment work will begin now.

Messrs. Murray and Larsen are doing development work on their property at Fish Lake and Mr. McDonald, having completed his yearly mineral work has started for the valley to engage in haying.

Mr. Eastwood, of Copper Standard fame, has been engaged by Mr. Pooley to do his butchering while the said Mr. Pooley is searching for a partner-for-life.

Haying is in full swing in Nicola valley and men are scarce. A small raise in daily wages might be of benefit to the farmers in saving much good hay.

Dad Allan and Messrs. Lowe and Augstett are still pegging away, when the mosquitoes are willing, and are having splendid results. The boys are stayers and are entitled to a big stake.

Mr. Smith, of the Big Sioux, is some where in California looking for a lost mine. With his usual good luck and sharp penetration he will, no doubt, find it.

The mosquitoes here are wonderfully active and more plentiful than ever.

All the Aspen Grove properties are looking well and everybody is enthusiastic about the future of the camp.

Mr. Poulton, who has completed his contract on the Maggie and Little Giant, is off for the lower regions(I mean the valley) to engage in haying.

Messrs. Willarson and Johnson are getting in double shifts on the Hit or Miss with good results. OBSERVER.

HEDLEY PARAGRAPHS

(Similkameen Star)

We regret having to report the total destruction by fire of the Hedley brewery on Monday, 18th inst. The fire, which originated in the boiler room, broke out a few minutes after 1 p. m. and as the building was situated some little distance from any others and no means being at hand to speedily give the alarm, when help arrived it was apparent at a glance that there was no chance of saving the building—a light frame one. All that the many willing hands could do was to use the few minutes, e'er the building was wrappeb in flames, in saving a few kegs and barrels of the stock on hand, also a couple of pieces of machinery from the soda water works. The loss is estimated at $5,000. No insurance

Messrs. Cahill and Yates have sold the Climax and IXL mineral claim to the Daly Reduction Co., the consideration, we learn, being in the neighborhood of $12,000. It may interest some to know that the claims are situate near the switchback on the company,s electric tramway.

The electric and gravity tramway appear to be working smoothly and regularly. The stamp mill is now working steadily and running night and day. Good progress is being made installing the machinery of the new 40-drill compressor—when it is completed it will supply all power needed at the mine and intermediate points.

The new hotel is rapidly nearing completion. It is equipped with a hot and cold water system, lavatories, bath rooms and every modern convenience usually found in first class hotels.

An addition is being made to the Grand Union hotel which will greatly improve looks and facilities of that well known hostelry.

Preparations are being made in various part of the town to erect new buildings, principally residences, and no doubt before winter many comfortable homes will be erected to accommodate our ever increasing population.

It is reported that the Daly Reduction Co., is endeavoring to secure the output of the Kingston mine and parties are now in the east to negotiate with the largest shareholders to that effect.

The Great Mining District of The Boundary

Is Dependent on the Surrounding Ranches For Its Supplies

I have for sale some of the finest Ranches and Fruit Lands in the District. These can be purchased for cash or on easy terms. Improved Land and Young Orchards which can be bought cheap NOW will soon be worth considerable money and bring in large incomes to there lucky owners.

BIG

STREET CARNIVAL

A big street Carnival will be held during the race Meet at Grand Forks, B. C., August 24th, 25th, 26th and 27th, 1904. The most novel attraction ever held in the Boundary country. Four days of general entertainment and merrymaking in which the whole Boundary country is cordially invited to participate. An interesting feature will be

The Coronation of The Queen

who will be elected by popular vote. Candidates are entered from Rossland, Nelson, Greenwood, Phoenix, Republic, Northport and Gaand Forks, and a close and spirited contest is looked for. On the day of election the carnival directors will present the successful candidate with a purse of $250 for preporatory expenses of coronation. There will be a

ROCK DRILLING CONTEST

for a valuable prize $200, in which the best drilling team in the surrounding country will meet in competition. Another feature will be

GRAND MIDWAY PLAISANCE

which will be stocked with novelties of every description. The gala attraction will be a Mardi Gras Gight when everyone is invited to mask from 7 to 11:30 p. m.. For further particulars see posters.

Wise and Otherwise

Mrs. T. R. Morrow of Rossland is a guest of Miss Gibson.

Try our Boston brown bread.—Vienna Bakery

Alex McRae a brother of D. C. McRae of this city will open a stationery store in lower town, Phoenix.

Mrs. E. G. Warren left on Tuesday on a visit to her sister Mrs. A. W. Strickland, New Denver.

Peter Lover is acting superintendent of the Mother Lode mine in the absence of Carl Holman.

Whipped cream puffs at Vienna bakery (Saturday).

Miss Gilchrist of Nelson has been spending the past two weeks visiting Miss McMillan at Deadwood.

Mrs. William Barker of Nelson is visiting her two sisters, Mrs. Hancock and Mrs. Rowe, of this city this week.

Rev. Father O'Neil, who is to supply Rev. Father Bedard, during the latter's vacation east, arrived on Monday last.

Mrs. C. H. Fair and son Worthington left on Tuesday on a four months trip to Minneapolis and their old home at Collingwood, Ont.

In another column will be found the Grand Forks Carnival Company's ad. It explains all that will happen in the smelter town on the three big days billed for.

It is reported that Fred Kiser is giving up the hotel business in Poplar and will return to the Boundary. Mr. Kiser may open up the Clarendon hotel in this city.

J. Moran of Poplar, was in the city this week for a couple of days shaking hands telling of Poplar Creek and settling up some business, mainly for which he came over for.

Mrs. Tales, who has been ailing for some time, underwent an operation at the Sacred Heart hospital on Monday last. Dr. Spankie performed the operation and the patient is now recovering as fast as could be hoped for.

A big drove of hogs from the ranch of R. G. Sidley, J. P., Anarshist mountain, arrived here this week for P. Burns & Co. Mr. Sidley raises a large number of hogs and supplies P. Burns & Co., with about 500 head a year.

Both Chesaw and Phoenix are preparing to celebrate Labor Day, next month. Committees have been appointed and are now hard at work maping out the programme for the days sport. What about it ye Greenwoodites are we going to sit idly by and let this day which we have in the past celebrated be taken from us by our neighbors?

John McRae of the well known stationery firm of McRae Bros. and Smith, Phoenix, and Miss L. Oxley of the same city were married Tuesday afternoon by Rev. Mr. McCall pastor of the Presbyterian church in the smelter town. The happy couple left on Tuesday's train on a honeymoon trip to Banff.

Thos. G. Edwards, an old timer in the Boundary but of late has been residing in Rossland, is in the city. Mr. Edwards is waiting for his partner who is in the Kootenays when they will do assessments on their properties in Wellington camp.

Mr. Richard Cawston who has driven thousands of head of cattle out of the Similkameen in the last quarter of a century, renounced ranching last autumn and went east. He grew tired of the cent belt however and has returned to the Boundary and embarked in mining.

Duncan Ross left on Wednesday for a three weeks' trip into a distant part of the electoral field. The weather is favorable for the editor joining in a red hot campaign away up in the Lillooet direction, say.

J. W. Mellor was in town Tuesday en route to England. We trust that a trip across the Atlantic will restore him to better health.

Messrs. Mayor Naden and his chief Constable Currie made a quick trip into the Okanagan the first of the week looking for a desirable team for the city. They report good horses scarce and prices very high. The weather was hot and the roads very dusty.

George Findlay who has been working a gang of men on the road between Eholt and Summit city is inquiring into the feasibility of the road to Skylark camp as urged by the Greenwood Board of Trade, There is revenue up there for the government at once if a small expenditure can be secured for opening a passible road for a very short distance.

The "Kelowna Clairon" and Okanagan Advocate, is a new arrival among our exchanges. It is a five colum eight page paper published by R. H. Spedding at Kelowna, B. C. Ably edited and for typographical neatness it takes its place among the leaders in the weeklies in the interior. That it is appreciated by the business men and the people of Kelowna is very much in evidence by the many columns of bright ads.

THE EAGLE.

The Eagle in Summit camp showed some fine ore last autumn and is now being unwatered for further development.

THE MOTHER LODE.

A large body of magnetic iron has been opened up in one of the glory holes of the Mother Lode within the last week.

THE MOUNTAIN ROSE.

This claim adjoins the Denoro on the north and is being exploited by Mr. J. J. Campbell of Nelson. A car of ore from the property came to the Greenwood smelter Tuesday.

THE GEM.

Messrs. Benerman and Wood are loading a car of high grade ore from the Gem in Long Lake camp The ore is being shipped from the Burns' siding about four miles north of town, to the B. C. company's smelter.

THE EMMA.

About 30 men are employed on the banner claim of Summit camp. The ore is being shipped to the local smelter. About 600 feet of diamond drill work has just been completed on the claim. The machine drills are at present being driven by compressed air, the Denoro plant being utilized for the purpose.

THE DENORO.

Only a few men are engaged on the Denoro at present. The Great Northern is doing some heavy rock work on the claim and it is expected that some important developments will ensue. This makes cheap mining.

THE LEAD KING.

The B. C. Copper company, which has the Lead King under bond, is shipping a car of ore from there to the company's smelter. The claim is just east of Anaconda in the vicinity of the Arlington and Johannesburg.

THE LULU.

The Lulu, just below Anaconda, owned by W. S. McDonald is looking well. The lead at the bottom of the shaft is two feet wide showing well in galena. A constract has been let for considerable work on the property.

THE WELLINGTON.

Messrs. Findlay and Henderson are reported to have bonded the Wellington claim on Wallace Mountain, near Beaverdell, owned by Ralph Smailes and the Cropley brothers. The Wellington has a fine showing on it with considerable development.

STAMP MILL.

Some Ohio people have bought for cash the Harry Lily claims just south of the boundary line on Myers creek and are preparing to erect a stamp mill on the property. The surface showings are very fine panning rich in gold.

LONELY OLD MEN.

The abomination of desolation spoken of by Daniel the prophet, is exemplified in Greenwood these fine evenings. Wandering over the hill sides and through the valley with faces sad and step so listless may be seen Mayor Naden, W. G. Gaunce, H. McCutcheon, Charles Fair, E. G. Warren and several others whose wives luxuriate elsewhere while the faithful ones stay home and rustle life's necessaries. Some time the down trodden husband may have his day.

New York Life Insurance Co.

Is a Mutual Co., and paid and loaned to policy holders in 1903

$50,000,000.

In September 1903, I handed to A. Lusk of Camp McKinney, B.C., policy No. 3463824, amount $2000. On July 11th, 1904—ten days after Mr. Lusk's decease—his beneficiary received a check from the company for $2000 in full settlement of claim.

The New York Life Insurance Co., fulfils its obligations and it does so without delay.
