TUNNEL AND STOPE

Mining News of the Week in a Condensed Form

MORRISON DEAL HANGS FIRE

Barbara Bonded—E. P. U. Ships High Grade Ore—Strike on Blue Jay.

The Morrison Mines, Limited, have met with a temporary check in the transfer of their property to the Montreal & Boston Copper company. Last week in Spokane A. H. Kenyon filed an injunction suit to restain the Morrison company from selling the property to Andrew Laidlaw. Mr. Kenyon alleges that the trustees of the company have consumated a deal to sell the property to Mr. Laidlaw for $24,196,76, whereas its real value is in the region of $150,000, and that if the Laidlaw deal goes through the shareholders will lose a large amount of money to which they are entitled. John Hunner, F. H. Oliver, F. R. Fisk, E. K. Ewin and E. B. Hyde, trustees of the company are joined as defendauts in the suit. Judge Belt granted a temporary restraining order with the proviso that it should become effective when Mr. Kenyon filed a bond for $5,000. As nothing has been heard of the bond since it is safe to predict that the deal will go on.

The Dominion Copper Company has named a price for their Phoenix properties on a cash basis and if that is acceptable to the Montreal & Boston people we may look for a resumption of work at these properties and at the Boundary Falls smelter at an early date.

The unprecedented depth of snow in Rossland has had the effect of shutting off shipments by waggon from small mines adjacent to Rossland. The ore from these properties are used for fluxing purposes by the Northport smelter and in consequence of this lack of fluxing material the smelter has had to temporarily close, with the further result that 180 men have been laid off at the Le Roi mine pending the resumption of work at the smelter. In reply to inquiries acting manager McKenzie stated that work would be resumed with a full crew as soon as the smelter started up. It is generally supposed things will be running in their usual way within two weeks time.

Mike Kane was in town on Monday from Phoenix. Mike was exhibiting some fine specimens of Galena ore from his Blue Jay property, located about a mile from Greenwood on the Phoenix wagon road. A lead was uncovered last week which in width measures from 12 to 15 inches of very fine looking ore. There are two men working on the property.

The local men holding the bond on the Roderick Dhu are resuming work this week, Owing to the depth of snow and the difficulty of getting in supplies work had to be suspended during the winter months. It is the intention of the owners to push operations vigorously and shipments will be made as soon as the condition of the roads will permit.

The Sally mine at Beaverdell has reduced its force as the roads are now impassable for the ore teams. The ore shipped has been exceptionally high grade and has demonstrated that even with a fifty mile haul to Midway the mine can be profitably worked.

Another marvellously rich placer country has been discovered. It is on the Nahaani river, near the junction of Laird and Dease rivers, in northeastern British Columbia. Nuggets are reported as plentiful there as potatoes in Ireland. A mad rush is on to the new gold field.

Geo. R. Naden has turned over the Barbara on a lease and bond to some local men. Considerable work was done on the property last year, and while the boys did not strike it as rich as the Elkhorn the indications are sufficiently tempting to induce another trial this year with a better prospect of success.

Work at the Oro Denoro has been temporarily suspended while machinery is being installed. A number of the men who have been employed there are spending their short holiday in this city. They will return to the mine on Friday.

Geo. Collins, manager of the Athelton announces that operations will be resumed at the mine in two weeks. By that time the snow will be gone to such an exent that hauling will be possible from the mine to the Winnipeg spur.

A shipment of twenty-four tons of ore was made from the E. P. U. to the local smelter this week. The character of ore which is being extracted from this property at present exceeds in values any former shipments.

Work is being pushed forward on the Eureka mineral claim, adjoining the Gold Finch. Up to the present about $1000 has been spent, principally in tunnel work. The claim is owned by local men.

Messrs. Smith of Anaconda, and Gaunce & Wickwire of Greenwood, who have a bond on the Trilby claim, adjoining the E. P. U. property, are preparing to resume work.

The contractors on the Don Pedro are now down about 90 feet. The ore continues exceptionally high grade and choice samples discount anything yet found in the camp.

Diamond drilling on the Volcanic mine on the north fork of the Kettle river, has been discontinued for a short time on account of water.

The Helen, situated just below Anaconda, an old time shipper, is enlarging its crew and preparing to make further shipments.

Fred Curts, foreman of the Oro Denoro mine, has resigned his position and is moving to Rossland.

The Senator mine in Summit camp will resume shipments to the Granby smelter next week.

WORK STARTS.

The West Fork Road Will Be Completed.

Major Megraw, notary public and mining recorder at Beaverdell, was in the city on official business the latter part of last week and returned to Midway on Saturday.

The Major, when asked about the West Fork road and country in general, said: "Money is available now for the completion of the West Fork road to Beaverdell and Carmi. Work will be commenced just as soon as the snow is off the ground. E. C. Bates, road superintendent of Fairview, will have charge of the work.

Wedding Bells.

Mr. D. O'Connor, the genial blacksmith at the Mother Lode mine, and Miss Minnie Wills, a well known Greenwood young lady, were united in marriage on Monday, at the Imperial hotel. The bride, who looked very charming, was attended by Miss Eva Scott of Deadwood, while Mr. Milton Lehner of the Mother Lode staff supported the groom, Rev. Father Bedard tying the nuptial knot. Only the immediate friends of the contracting parties were present. The nappy couple took the afternoon train for Spokane and the coast cities where the honeymoon will be spent, followed by the best wishes of a host of friends in which The Times heartily joins.

BOARD OF TRADE

Annual Meeting Held Last Wednesday.

YEAR'S WORK SATISFACTORY

The Secretary's Report Showed The Board to be in Good Condition.

The annual meeting of the Greenwood Board of Trade was held in the office of Geo. R. Naden on Wednesday afternoon last at 4 o'clock. Quite a number was present although not so many as last year when so many matters that it was thought the Board might successfully take up were being discussed. The new members were doubtless surprised to find that many of their propositions were impractable and that many others had been already considered by the Board.

The secretary's report covered the year's work very fully and showed the membership of the Board and its individual standing. Several members have left the Board during the year, some by resignations and some by removal from the city.

The membership of the Board is about 50, nearly all of whom are paid up to the end of the year.

The officers elected for the ensuing year were as follows: L. H. deVeber, Presidend; T. M. Gully, Vice-President; W. G. Gaunce, Secretary-Treasurer. Messrs. White, McLean, Naden, Logan and Grey were elected an advisory council.

While there appears to the public little work for the Board of Trade to do, the things that require its attention are many, and the work of a nature that no person and no other body would or could discharge.

Emergencies, public matters arise frequently for local action and no body can discharge it save a Board of Trade.

The Board felt that several people and firms who were deported delinquent should not be so, but the gratification was general that so many public spirited citizens lived in so small a town and that the Board was out of debt.

Mr. Gaunce who had been acting as temporary secretary for the last seven months, and who previous to April last had been secretary for three years asked to be relieved, but the Board thought otherwise and insisted on re-election by acclamination.

William Fowler, of Providence fame, will shortly resume operations on the Defiance.

Chocolates, Jujubes and all kinds of fresh candies a specialty at Galloway Bros.

Forty-six applications to be placed on the voters' list have been received by the collector of votes for this district. The majority of those applying are miners, with a fair sprinkling of other trades and professions. As the lists closed on March 28th any who had the misfortune to overlook the notice will have to wait over until next September to have their names placed on the list.

J. P. McLeod, who has been seriously ill of pneumonia for nearly three weeks, is making rapid strides towards recovery. It will be some time yet before he is able to resume his duties at his office.

Wm. Powers, of sawmill fame, who has been in Greenwood this week, closed a deal yesterday by which he takes over the ranch of Frank Donald, three miles from Rock Creek. Mr. Powers intends putting in extensive irrigation works and going into farming on a large scale.

F. W. McLaine, the broker and real estate agent, is offering another block of stock in the International Coal and Coke Co. This stock is the best buy on the market to day. See him.

"We live to eat, and eat to Live" is an old axiom but in order to live you must get the best to eat.

UNION LABEL TYPOGRAPHICAL GREENWOOD

FRIDAY, APRIL 8, 1904

Last year at the meeting in Montreal of the Chambers of Commerce of the British Empire, a resolution was adopted favoring the entrance of Newfoundland into the Dominion confederation. The Imperial authorities forwarded a copy of this resolution to the government of the ancient colony, and the matter came up last week for discussion in the legislature. Premier Bond announced that the time was inopportune to open negotiations with a view of entering the confederation, and that he found no desire on the part of the people of New Foundland to cast in their lot with Canada. In view of this declaration the matter for the present at least may as well be dropped.

England andFrance have at last come to an agreement over the French shore difficulty in New Foundland. For years this has been a bone of contention that at times caused anxiety in official circles. Under the present arrangement France surrenders her sovereignty over New Foundland and receives an indemnity, part of which goes to the French property holders along the surrendered shore and the balance to the French government for surrendering its sovereignty. The amount total and also the division is to be left to the judgement of the Hague tribunal. In addition to this France is permitted practically a free hand in Morrocco, and improved facilities in reaching Lake Tchal and other points in French Central Afraca.

There are also rumors that the United States government is sounding the French government as to the purchase of two islands in the Gulf of St. Pierre and Imquelon. Eastern Canadian papers are up in arms and insist on Great Britain securing these at any cost, as well as to take the precaution of removing any doubt as to the legality of British ownership of Hudson Bay and surrounding territory.

The Montreal Family Herald and Weekly Star newspaper is undertaking a huge advertising campaign for the purpose of placing before the world in general and intending immigrants in United States and Great Britain in particular, the great natural resources of the province of British Columbia and its quaifications as a desirable place of settlement. Its scheme has been endorsed and is being supported by the Federal government as well as by the local government at Victoria, and railway companies who will profit by any result achieved are making liberal contributions. Mr. Williams, the manager of the big Montreal newspaper, is at present on the coast personally superintending the preparations for the work. It is not unlikely that this gentleman, or someone representing him, will be in Greenwood at an early date, and it is therefore in order for the people of this locality to see that the Boundary country secures the prominence that its position deserves.

It may be worth noting that the circulation of the Family Herald and Weekly Star in Canada is 150,000, with a foreign circulation of 3400; while that of the Minneapolis Journal which is co-operating with the Star, is 85,000. It is safe to say that this is the biggest advertising scheme concerning this country ever attempted, and must, if properly carried out, result in immense good to the province at large. There is no place in Canada whose resources will furnish more interesting reading than the Boundary; its inexhaustibie bodies of low grade ore, its high grade properties paying from the grass roots, its timber and agricultural resources. The importance of this matter cannot be over estimated and we urge that steps be taken by the Board of Trade to have the Boundary properiy represented. This is a work in which all should assist, but in order that it may be successfully carried carried out it should be under the control of some competent man who shall be well paid for his services, and we therefore suggest that the city council appropriate a sufficient amount to insure for the Boundary the advertising its resources merit.

PREEMPTION NOTICE.

R. F. Green, chief commissioner of lands and works, recently issued a notice to delinquent pre-emptors of long standing that has been greatly misunderstood in some quarters. The notice, as generally understood, was a demand for all money due on pre-emptions, and that failure to pay the amount by April 15th would result in cancellation of the grant. This, however is not the case. It appears that in 1899 Mr. Carter-Cotton issued a notice to delinquent pre-emptors to pay the amounts due on their land. Mr. Green's notice calls the attention of pre-emptors to the Carter-Cotton order, with a further statement that all those who failed to comply with that order will have their grants cancelled unless they contribute by April 15th, 1904. So that the parties affected by Commissioner Green's notice are only those whose payments were overdue as far back as June 22nd, 1899.

The following are the two notices that have caused the turmoil:

"Notice to Pre-Emptors of Crown Lands—Attention is hereby directed to the notice signed by the chief commissioner of lands and works, and dated 22nd of June, 1890, in which all pre-emptors or purchasers of crown lands upon which the purchase money remaining unpaid on such lands is overdue, are called upon to make full payment of such balances with interest thereon if any is due.

And further notice is hereby given to all persons who have failed to comply with the requirements of said notice that if such overdue balances of purchase money are not paid on or before the 15th day of April next, the records or agreements covering such land will be cancelled.

R. F. Green, chief commissioner of lands and works, Victoria, B. C., 25th February, 1904."

The Carter-Cotton notice is as follows:

"Notice to Pre-Emptors of land—Notice is hereby given that all pre emptors or purchasers of crown lands from whom the purchase money remaining unpaid on such land is overdue, are required to make full payment with interest thereon, if any is due, within ten months of the date of this notice, failing with their records or agreements concerning such lands are liable to cancellation, as provided by section 38 of the Land Act.

F. Carter-Cotton, chief commissioner of lands and works, lands and works department, Victoria, B. C., 22nd January, 1899 "

SCHOOL BOARD MEETS.

Our Educational Fathers Met on Saturday Evening.

The regular monthly meeting of the School Board was held in the council chambers Saturday evening, April 2nd. In the absence of Mr. Smailes Sydney M. Johnson occupied the chair. Messrs. McArthur, Taylor and Johnson were present.

The case of Trustees vs. McNeil again came up and on motion was dropped.

The following accounts were ordered paid:

McLeod & Brown	$27.55
W. P. Turney	25.80
Mr. Maynard	3.00
Coles & Frith	2.20

The question of additional blackboards for room 2 in the school came up. They were ordered to be put in.

The following motion was then duly moved and seconded: "That the Truant officer be instructed to confer with Mr. Clark on the first and third Mondays of each month as to children who are absenting themselves from school and to enquire into any cases that come under his notice on the streets, and that the secretary notify Mr. Clark of this motion."

The secretary was notified to write Mr. Bishop and ask him to give Mr. McArthur the cost of completing toilets, also cost of disconnecting the same in the fall.

The Board then adjourned to meet on Saturday, May 7th.

CHESAW JUBLIANT.

Rich Strike on the Ben Harrison Mine Near City.

The Myers Creek News of April 2nd gives the following account of the rich strike recently made on the Ben Harrison property near that city: "The news was circulated Thursday morning that a very rich strike had been made on the Ben Harrison mine, this time in the east drift, and in a short time the whole camp was in a high state of excitement, and many immediately hastened to the mine to see for themselves even the editor had to suspend work and go up to the mine and take a peep. On arriving at the mine we found on the dump several tons of ore taken from the strike just made, and on visiting the tunnel we found the whole face of the east drift a solid mass of ore, consisting of sand carbonates and copper ore, some of which is coated a beautiful blue with the azureite of copper. The ore just discovered will, it is said by expert mining men, run high in gold, silver, copper and lead. Assays will be made at once to ascertain the different values in the ore in the new strike.

Wall papers, cheaper than Kalsomine at Smith & McRae's.

BASEBALL CLUB.

Enthusiastic Organization Meeting—Officers Elected.

A large and representative gathering of the young men of Greenwood met Thursday night in the Board of Trade rooms, Windsor hotel, to discuss the formation of a baseball club for the coming season. Alex. Robinson was voted to the chair and the meeting got down to business in short order in a way that would have been an eye-opener to some of the business men whom it was expected would be present.

In order to bring on a discussion of the subject a resoltuion was moved by Mr. Thomas, seconded by Mr. Dill, that a club be formed. This opinion appeared to be so unanimous that discussion was unnecessary, and the meeting proceeded at once to elect officers for the club.

The following gentlemen were put up for nomination and unanimously elected as officers of the club for the coming season: President, E. G. Warren; Vice President, Julius Ehrlich; Sec'y-Treas., A. E. Thomas. While Postmaster Frith was elected manager by a standing vote.

The matter of club fees brought on a lively disscussion as to the best method of financing the scheme. It was the general opinion that the fee of last year was too high, and that a lower fee would induce more to come in and give the club more material for choice in matches. Eventually on a motion by Mr. Thomas a suggestion made by Mr. Falconer was adopted, that membership cards be printed and issued to anyone upon payment of $1. As Mr. Falconer is on The Times staff his eye to business was promptly commended. The fee as eventually decided upon was: Ordinary members, $1.00; honorary members, $5.00; life members, $20.00. It may be added that life members are assured of a marble monument.

On the manager's motion a committee of three was appointed to act in conjunction with the executive as a managing committee, Messrs. Dill, McBain and Redcliffe being selected. The committee was instructed by the meeting to interview the council regarding assistance in renovating the grounds and the use and repair of the grand stand, which is at present unsafe and unfit for any purpose except firewood.

Attempts will be made to secure permanent recreation grounds and have them fenced, so that the club can secure fiancial assistance through admission fees.

The secretary was instructed to open a membership list, with the gratifying result that twenty-seven immediately enrolled. The managing committee will institute a vigorous canvas for members and present appearances indicates a prosperous season in Greenwood for the diamond game.

The meeting dispersed with a hearty vote of thanks to Ernie Cartier for the use of the rooms.

At the regular monthly meeting of the Curling club held last Tuesday evening it was decided to hold a dance as the culminating feature of what has been a successful and enjoyable season among the burlers o' the stanes.

Clara Mathes and her new company will begin a short engagement at Greenwood on April 14th. All the plays will be new to the city and all are recent successes. Bright specialties between the acts make the the performances continuous. Clara Mathes is just finishing a tour of the coast and comes with the highest recommendations from the syndicate theatres where she last appeared, even in Lent the company has done an S. R. O. business. Popular prices, a clever star and company, and a list of the best plays produced from the original versions leased by Miss Mathes, should crowd the house for the entire engagement.

The cup donated by Mr. E. G. Warren to the Greenwood Curling club has arrived and is on exhibition at the store of A. Logan & Co.

WANTED.—Stoves and Furniture Highest cash prices paid, H. F. Clint, Copper street

James Breen is Talking Again

The Spokesman-Review of Saturdays issue of April 2nd, published the following interview with James Breen:

"The Dominion Copper company has named a price for which it will sell its properties in the Boundary district of British Columbia to the Montreal & Boston Consolidated company," said James Breen of the Dominion company yesterday.

"Reports, however, of a consolidation of the two properties are erroneus. If the Montreal & Boston Consolidated company can raise the money to buy the Dominion group, all well and good. But we are not ready to take shares in the new company in payment.

"The Dominion Copper company is controlled by three interests— Mackenzie & Mann, Senator George Cox and myself. We have about seven eighths of all the shares.

"We think we have about as good a grade of ore as there is in the Boundary district. In 1901 we planned to build a smelter, but we dropped that idea, for I did not believe that the Vancouver, Victoria & Eastern railway would build then into Phoenix camp. Without a rival line we should be at the mercy of the Canadian Pacific and I did not care to take any chances of building a smelter on such a basis. The test of time has proven that I was right in doubting that the Hill roads would be constructed then into Phoenix. It is not built yet, though right of way has been purchased. The Hill road purchased right of way near Phoenix from us for $25,000 last fall. In case the road is constructed the Dominion company plans to build a smelter next year. It would have an initial capacity of 500 tons a day.

"There is no truth to the report that I was considering a plan to take the mauagement of the Montreal & Boston Consolidated smelter ot Boundary Falls, B. C. I am in no way connected with that project.

"Steel was laid on the Canadian Pacific's spur to the Dominion group, with the view of shipping about 10,000 tons of ore on the dump. However, if the smelter is built, we may decide not to ship, but to treat the dump ourselves."

TO DAVID BEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district.

You are hereby notified that I have expended the sum of $100 for surveying the above mentioned claim and $2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, $51.25, together with all costs of advertising, your interests in said mineral claim shall become invested in me (your co-owner) upon filing in the proper office in that behalf the affidavit required by section 4 of the Mineral Act Amendment Act, 1900."

Dated this 25th day of January, 1904.

p22 ROBERT WOOD.

LOCAL EXTRACT

Mr. and Mrs. Elkins left for San Francisco on Monday.

Monday being a holiday no meeting of the city council was held.

Born, to Mr. and Mrs. Sid Oliver, on March 31st, a son.

Mr. and Mrs. Dill have moved into the Wilson house on Kimberly avenue.

Mr. R. R. Maitland, a prominent Vancouverite, was in the city this week.

Editor Wilcox and family, of Phoenix, is visiting at the coast cities this week.

Attention of all K of P's is called to the lodges ad in another column. Third rank work on April 12th.

Sam McLellan, formerly of this city but now of Rossland, was renewing old acquaintances here this week.

FOR RENT.—One three roomed and one two roomed cottages on Church street. For particulars apply to Fred Munn, city.

Alex Currie, driver of the city fire team, was suffering last week with a severe cold necessitating nim from attending to his regular duties. Jack McBain was supplying for Mr. Currie during his illness.

Cranbrook, "The King of the Kootenays," is beginning to put on style. She will ask the province for permission to become a city. Well, Cranbrook is big enough, old enough, and beautiful enough to paddle her own canoe.—Nelson Tribune.

The city is repairing the road going up to the Mother Lode mine. There will be very little work done this year on our roads, as the city fathers are directing the whole of their attention to the installing of the water mains from Anaconda, supplying the city with abundance of pure water.

Colonel Lowery is going to move the Ledge from New Denver and locate it at either Kuskonook or Rossland. The colonel says the chief industry of New Denver is scenery, and while an editor can live on almost anything, he cannot get fat on a combination of views.

The big store of the Hunter-Kendrick Co. has been undergoing its spring cleaning. First the carpenters were displaying their art in the way of enlarging, then came the painters and decorators who put the finishing touches on, and now the big store presents a model of artistic neatness.

In the absence of the editor-in-chief, the acting management of The Times will do its best in giving its readers all the mining and local news. As to educating and moulding public opinion on the political issues of the day we will leave that to our neighbors and esteemed contemporaries, the Anaconda News and Phoenix Pioneer.

Chas. Dunn, the popular tonsorial artist, of the firm of Dunn & Hemmerle, is reported to be spending a few days this week at Fernie. Some of Chas. friends think different, but we will not publish the opinions of his friends. This is spring time and a man's mind at this time of the year soares high.

The weather on Sunday was not favorable to a display of Easter millinery. A cold wind with occasional showers of rain made such a thing impossible. But it in no way interfered with the church attendance which was much larger than usual. In all the churches the altars were profusely decorated with flowers and the sermons were appropriate to the occasion.

A serious accident happened at the Mother Lode smelter on Saturday last. There was a break in No. 1 furnace letting the matte run out in the pit where one of the slag cars come in. After checking the flow of hot metal a stream of cold water was turned on the matte which had run in the pit, causing an explosion. At the time the explosion occurred fourteen or fifteen men were standing close by. Marvellous to relate the only damage done was to A. Lind who was severely burned down one side of the face and neck. The accident caused a delay of about two hours.

The Masonic ball on Monday evening was largely attended and was a great success in every way. The committee who had charge of the arrangements can congratulate themselves upon the result. The hall was appropriately decorated. About sixty couples were in attendance. The floor was good, the lunch tasty and the music excellent. The latter was provided by Mr. and Mrs. Bush, of Midway, assisted by Messrs. Webb and Harris of Greenwood.

Charles McMicheal, son of S. W. McMicheal chief inspector of customs, who has long been employed on the Cariboo mine staff in Camp McKinney, left on Wednesday for Rossland, there being no immediate prospects of the mine resuming operations.

John Bannerman, who owns and has been for some years operating the ranch next to Mr. Castleman, near Boundary Falls, has disposed of his property to P. Burns & Co. The ranch lies adjacent to the slaughter house of Burns & Co. and is necessary to them as a range for the cattle shipped here to market. Mr. Bannerman will remain here until he disposes of the balance of his property and will then likely remove to the coast. Notice his ad.

Among the new ads in The Times this week is that of the Windsor hotel. Out of seventeen hotels which Greenwood supports only four of them show public enterprise enough to put their card in the paper. Why not help make The Times a credit to your town, make it a medium through which to improve your business. Show the outside world that you are in business. It costs money to run a newspaper. Every cent spent in advertising is judiciously used. Now to be honest with yourself, you would not like to see your town paper like some other towns send out—a sickly, pinch faced, half starved rag. Be mutual, help your paper and it will do its best to further your interests and promote the general welfare of the city.

A supper and concert were given by the Ladies Aid of the Methodist church on Monday evening. The church was prettily decorated for the occasion and an enjoyable evening was spent by everyone. It would be difficult to decide from the attendance which is the most popular in Greenwood Presbyterian beans or Methodist beefsteak pie The concert following the supper was largely attended. The choir rendered a number of choruscs. Solos were contributed by Rev. Mr. Green of Phoenix, by Miss Green and by Miss Gaunce, who all good naturedly responded to encores. Mr. Johns of Deadwood gave a pleasing cornet solo. After paying all expenses the sum of $55 was left to add to the church fund, and the ladies feel that their efforts were rewarded.

$800.000.00

Eight hundred thousand dollars, that is the figure that the Ocean Accident and Guarantee Corporation of London, England has paid out in Cunada alone for Sickness and Accident within the last seven years.

Why not insure in a Accident and Sick Company that has already proved its capability to meot all and every claim against it and has a world wide fame for its speedy adjustment of its losses. One whose capital alone is $5,000,000, and whose policy holders extend to the ends of the earth.

How many of us are there that will go through life without once meeting with some Accident or sickness. Insure today and feel content with the knowledge that come what may you will have always a few dollars to start life afresh.

TO BOARDING HOUSE KEEPERS.

You cannot overlook this sale as it offers to you greater inducements than have ever been offered in Greenwood heretofor.

The small grocerman throughout the country can here replemish his stock at less than 10 per cent for what it will cost them to lay them down. It is your benefit and my loss.

THE GROCER.
GREENWOOD, B. C.

TOPICS OF THE TOWN AMD COUNTRY.

The citizens are warned against the lighting of fires in the alleways, streets or vacant lots within the city limits that will cause a danger to nearby buildings, except on the common dump opposite the Miners hotel. The penalty for not observing this law is $50.

R. Meyerhoff's stage, which has formerly run from Greenwood to Camp McKinney, now makes Midway its terminus, the change taking effect April 1st. McKenzie's stage, running between Greenwood and Beaverdell, is now making two trips a week.

Just arrived a choice assortment of bananas, lemons and oranges at Galloway Bros.

The Times has issued a neat April blotter for distribution. If you have not received one call us up on phone 29 or call at our office and get them.

Frank Donald of Rock Creek was in town Tuesday.

James McNichol, the Midway merchant, spent Monday in town.

The business men of Chesaw have started a movement to build a packing house in that city.

Harry Allen left on Wednesday to accept a position at Cascade in the lumber mills there.

Mrs. A. Blonquist, from Grand Forks, is visiting Mrs. Fred Munn on Church street this week.

Major Megraw, formerly connected with the Vernon news and later with the Midway Advance, is said to be making arrangements to start a paper at Hedley city in the next few months.

A. E. Thomas left on Thursday for Greenwood where he will exchange places with H. E. Eldridge, of the Thomas Drug Co., who will now have charge of the firm's store at Midway.—Midway Advance.

Arthur Black and Charles Rathwell, who have been connected with the Great Northern surveying parties for two years, left Tuesday for Edmonton to accept positions on the Grand Trunk Pacific survey staff.

Jerry Powers, who was arrested two weeks ago at Phoenix on a charge of robbery alleged to have been committed at Camp McKinney some months ago, was released from custody Tuesday. Constable Cunningham took him to Camp McKinney where an examination before Magistrate Sidley failed to produce any evidence connecting him with the crime. The charge against him was therefore dismissed.

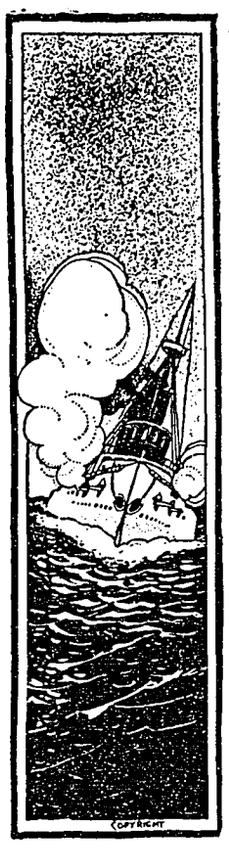
George Redpath, the nine year old son of station agent Redpath, who has been seriously ill for two weeks with appendicitis, is rapidly improving. The trouble was aggravated by the presence of an abscess requiring a delicate operation, which was sccceasfully performed by Dr. Spankie, assisted by Dr. Oppenheimer, and Dr. Gordon of Phoenix. Considering the nature of the trouble and the severe operation, his rapid improvement is considered most remarkable.

The ladies of the Presbyterian church gave a New England supper and concert in the Auditorium on Saturday evening. From 5:30 until 8 o'clock the tables were well patronized, and the demand for beans would have convinced even a New Englander that Boston is not the only place on earth that knows how to cook beans—or to eat them, by-the-way. The concert after the supper was well attended. Rev. Mr. McKee acted as chairman. Instrumental duets by Mrs. McCutcheon and Miss Frezee, and Mrs. McCutcheon and Mrs. Currie White were much appreciated. Mr. Gaunce contributed a short speech and scored a success as a humorist. Solos were rendered by Madames McCutcheon and McKee and Miss Gaunce, and Messrs. Whiteside and Dalgleish. Miss Gaunce is a very welcome acquisition to the musical coterie of Greenwood and her singing is a vocal treat. The ladies of the Presbyterian church are to be congratulated on the success attending their supper and concert as a substantial sum was raised to assist them in their church work.

Thos. McAuley of Midway, well known as an old time hotel keeper, is moving to Beaverdell where he will take charge of the big hotel at that point. We wish him success in his new venture.

A Chance of a Lifetime.

I have just sold my ranch, and have for sale a number of my choice laying hens, thoroughbred Brown Leghorns and Barred Rocks, also Pekin ducks and turkeys. They are going quickly, get in line while they last. Shall also sell my implements and live stock, (Horses and milch cows.) J. J. Bannerman, Boundary Falls.



"The Fellows with a reasonable price.

A Terrible Charge

Don't be charged with allowing disease germs to flourish, when a few "bits" worth of

CHLORINATED LIME . . . . . .

will put them out of business.

The Old Saw

Prevention better than cure cuts here.
