RENDELL & CO.

MEETING OF THE UNION.

The Greenwood Typographical union held its monthly meeting in Grand Forks last Sunday. Five members went from Greenwood and Phoenix, some of them loaded with grievances and other things. The party consisted of Ellis, Falconer, Elliott, Wilcox and Hilliard, all chaperoned by the staid and reliable Hemmerle. The day was a perfect one for an outing and the drive over the hill was fully enjoyed. Some of the members of the party got exhiliarated with the atmosphere of the higher altitude going over, and by the time Grand Forks was reached were too light-headed and light hearted for serious work. A short stay at the Forks reversed things and when the return trip was undertaken a general sadness pervaded the company. Men unused to travel should take the trips involving such climatic changes accompanied by all kinds of modern remedies for keeping heart and brain steady. The old prescriptions of Doctor Usher, Walker and others are now acknowledged to be valueless, and McCreath's Iron Brew is suggested as a substitute.

Peck McSwayne blew into the Forks the day before to attend the meeting and renew old acquaintances but our boys were sorry to miss him in some unaccountable way. Whose fault it was as yet remains unproven.

The business of the meeting was attended to with great despatch so intent was everone on the main issues of the day. The local delegation lost its chaperon in the Forks and he returned Monday by rail.

Band Concert October 26.

SERIOUS ACCIDENT.

Another serious accident occurred at the B C. Copper company's smelter on Monday evening last It would appear that one of the employees, John Ingalls, having occasion to go outside the building fell into an excavation that has been made. No light appears to have been present as a warning to the passer-by. Ingalls fell about 10 or 12 feet and suffered severe injuries to his back particularly. He lay unconscious in the trench for a time.

It is impossible that large industrial works of the character of a mine or smelter be carried on without occasional accident to those employed, but it ought to be incumbent on the management to take means to safe guard life.

THE HILL JUST EAST

Of Town is Proving a Big Surprise.

MANY CLAIMS WORKING

Up There at Present With Good Results.

For some months after the Providence and Elkhorn became known as high grade properties of great value the search for others of the same character was confined to the same belt of hills. Little or no attention was given to the hills just east of the town and south of Twin creek, although only about a mile south of the Providence camp. In the olden days one claim on the hill had shipped some good ore but for several years it had been idle and report said that the lead was lost. That claim was the Skylark. Of course there were old mining men who had worked in the mines of Colorado, Utah, Nevada and elsewhere who talked the east hill most enthusiastically, but little was done in the way of development for some time. The Gold Finch had been imperfectly prospected and although some good ore was shipped the bond was never taken up.

Later the E. P. U. was exploited by Mr. D. McVicar with most gratifying results, culminating in a recent sale to a strong syndicate of Dakota and local men.

The last six months have wrought wonderful changes on the east hill. Today the following claims are being worked there: The E. P. U., Helen, Barbara, Silver Cloud, Silver King, Bay, Mavis and Syklark.

The record these claims are making is stirring up interest in the hill north of Twin Creek, with the result that the Last Chance and Strathmore are being prospected and developed, and the Canadian is under bond. In their near neighborhood are the Crescent with some good ore on the dumps, and the Don Pedro with a very promising vein. And thus the east hill grows to be of even more local interest than the north belt where the Elkhorn is making a good record, and the Providence is handing out its monthly dividends.

BRITISH COLUMBIA AT THE FAIR.

A telegram from H. B. Munroe to the Times reads as follows: "Won on minerals 2 grand prizes, 25 gold medals, 31 silver medals and 14 bronze medals, out of total of 85 entries. British Columbia is O. K." In the absence of fuller information it would appear from the above that out of a total of 85 competitions in the mineral department at the fair, general and special, this province captured 72 prizes, of which 2 were grand prizes and 25 gold medals. In this connection we desire to testify to the valuable services Greenwood's representative, H. B. Munroe, has rendered at the fair, judging from reports we have had from returned visitors, and from letters written us from St. Louis.

Moreov r let it be said that while Mr. Munroe has generally represented the province he has not failed to keep the Boundary to the front. We shall be mistaken if we do not later reap returns from the missionary work done in St. Louis by Mr. Munroe.

Band Concert October 26.

HEADQUARTERS.

The local political parties are getting the harness on. Headquarters have been opened by the Liberals in the rooms formerly occupied by the Bank of B. N. A., and the Socialists in the Clarendon block. The Conservatives will probably make their home in their former headquarters on Copper St.

COPPER FIGURES

As Given by the Mining World of Chicago.

THROWS A BRIGHT LIGHT

On the Progress of British Columbia in the Last Nine Years.

The Mining World of Chicago in its October issue gives a table of ore production for years 1895 to 1903 inclusive. A comparison of the figures affords pride to the British Columbian, not so much for the actual output as for the rate of progress being made. In the item of copper production particularly the growth has been phenominal. As we who live in the Boundary particularly know, the growth has just begun. A dozen years will cover the history of the output here, but the next dozen years will magnify the record of the past by doubtless ten fold. The larger part of that increase will take place in Southern British Columbia, much of it in the Boundary. The large concerns are now here at work with possibilities and opportunities for indefinite expansion. All these too are at present in the hands of Americans, who have done and are doing for the country what the Canadians could not, and the English would not.

The progress of the output of copper during the years just named in the following states has been as follows, the gain being expressed in percentages. In 1903 the output over that of 1895 was as follows: Colorado, 130 p.c.; Michigan, 150 p.c.; Arizona, 315 p.c.; Utah, 1800 p.c.; British Columbia, 3500 p.c.

AT HIS OLD HOME.

The St. John Telegraph has the following reference to one of our former citizens:—

"C. E. Merritt, son of W. Hawksley Merritt, is home from Greenwood, B. C., where he has been residing for the past five years in the employ of the British Columbia Copper Co. He speaks in very favorable terms of the industry, the town, the people and province. There are many maritime province people in Greenwood and among them a couple of St. John men besides Mr. Merritt. They are Messrs. Kenneth and Walter Frith. The former is postmaster and the latter is in the stationery business.

"Mr. Hallett, a former Sussex lawyer is a magistrate in Greenwood, and there is also in the town Frank Ketchum, whose home was formerly in this province.

"Greenwood is in what is called the Boundary country. It is close to the border of the state of Washington, and has about 1000 population. Mining is the great industry. Good wages are paid not only in the mines but in other lines as well. A clerk receives from $75 to $125 monthly. The lowest wages is $2.50 a day.

"Living expenses are not high," said Mr. Merritt, "board is reasonable. A man could save money but there is not much money saved in Greenwood. The people spend freely. There are no coppers. The smallest coin is a quarter, sport is general, horseback riding and racing meet the popular taste, also curling and skating."

Mr. Merritt will be in St. John for a couple of months.

GONE EAST.

Jack Crawford, well and popularly known, went east on Saturday last. Report makes his destination Montreal, his return in about ten days from date and his travelling companion west a very near friend. But we must not tell any more just now.

"MY FRIEND FROM INDIA."

Walker's Comedians Coming to Give Us an Evening of Laughter.

An attraction which should please our theatre patrons—particularly those who are fond of a hearty laugh—is "My Friend From India," a world famous comedy which is to be presented at the Greenwood Auditorium on Thursday, October 20. The organization presenting this hilarious mirth producer is known as Walker's Comedians, so called because the director of its destines is Mr. C. P. Walker, the well-known theatre manager, and also that it may be distinguished from the inferior companies with which this boundless west has been sorely afflicted. Mr. Walker sent us last year "What Happened to Jones," "Why Smith Left Home" and other high grade comedy performances which more than fulfilled his promises. "My Friend India" needs no recommendation to those familiar with plays and players, and Mr. Walker's word that it will be given by an unusually strong company will be accepted by the public with which he has always kept faith. There is surely an evening of wholesome fun coming to us on the date mentioned.

ODDFELLOWSHIP.

Oddfellowship in the Boundary, Tuesday, October 27th, will witness one of the biggest meetings of the kind ever held in the Boundary country. The D. D. G. M., Fred B. Holmes, has issued an invitation to all the Oddfellows of Grand Forks, Phoenix, Eholt, Boundary Falls and Greenwood to meet here in the I. O. O. F. hall. During the evening degrees will be conferred by the different lodges and the balance of the evening spent in social exercises. The Ladies Aid of the English church will serve a knife and fork supper in the city hall, and the event promises to be in every way a success. It is to be hoped all members of the order reading this notice, whether visiting the district or otherwise, will consider it a personal invitation and try to be present.

THE PROVIDENCE AGAIN.

The Rossland Miner of Thursday has the following: "W. A. Macdonald, K. C., representing the Chicago interests in the Providence Mining compeny, of Greenwood, appeared in the supreme court yesterday before Mr. Justice Irving to ask for further protection of those interests.

The plaintiffs in this action have made grave allegations against certain Greenwood men who are on the Providence directorate. They contend that the funds of the company have been misappropriated, and allege forgery and the stuffing of the pay roll. They also object to a recent deal made by the defendants, in which a piece of neighboring ground known as the Diamond Fraction was sold to the Providence company for 1600 treasury shares. This has resulted in the control of the company passing from Chiago to Greenwood.

Messrs. Madden and Heeney, representing the Chicago interests, were in court yesterday watching the proceedings. They came here with the avowed determination to see justice done to their associates.

As a result of Mr. Macdonald's representations yesterday, Mr Justice Irving ordered that all the facts of the case be presented to the chief justice at the opening of the supreme court at Greenwood on the 17th prox."

Inasmuch as this matter is to come before the court in Greenwood next week, comment is unnecessary. We trust to be able to report the case fully in next week's issue.

STRIKE ON THE STRATHMORE.

C. Scott Galloway who is in charge of the Strathmore was showing some ore today from the south drift on the property. The ore carries free gold and native silver and assays about $100 to the ton. The Strathmore has recently been floated as a stock company and the shares are held largely by local people and Grand Forks and Eholt investors. In early days a good deal of rich ore was shipped from this claim so that it is not surprising to find it showing up so well under present development. Where the ore was found is at a depth of about 50 feet and Mr. Galloway expects to be able to stope out a car or two of ore from this level. The Strathmore lies about 1500 feet south of the Providence.

VALUABLE INFORMATION.

We are in receipt of official bulletin No. 19 on mining in British Columbia, issued by the Bureau of Provincial Information. The publication is a most creditable one from every viewpoint and far and away the best yet issued by the government. While much of the matter and many of the views have appeared before in some form or other, the pamphlet needs *no* criticism except words of commendation. The illustrations are particularly fine and the letter press good while the general scope of the pamphlet is broad enough to cover all localities and all branches of the industry. Bulletin No. 19 has merits which would justify the publication of a much larger issue than 15,000 copies, and we regret that it has been limited to that number. There is nothing of boom about it but a cold statement of facts based on the very best available authorities.

OUR PREMIER.

The following words from Sir Wilfrid Laurier are as beautiful as they are patriotic. To the end end portrayed in his picture he has been bending all his energies, and the result of his words will be the counterpart of his words:

"Thank Providence that we live in a country of absolute freedom and liberty. Let us always bear in mind our duties, for duty is always inherent in right. Our fathers had to labor to secure these rights Now let us fulfil our part. When visiting England at the Queen's Jubilee, I had the privilege of visiting one of those marvels of Gothic architecture which the hand of genius, guided by unerring faith, had made a harmonious whole, in which granite, marble, oak and other materials blended. This cathedral is the image of the nation that I hope to see Canada become. As long as I live, as long as I have the power to labor in the service of my country, I shall repel the idea of changing the nature of its different elements. I want the marble to remain the marble; I want the granite to remain the granite; I want the oak to remain the oak; I want the sturdy Scotchman to remain the Scotchman; I want the brainy Englishman to remain the Englishman; I want the warm-hearted Irishman to remain the Irishman; I want to take all these elements and build a nation that will be foremost amongst the great Powers of the world."

NOTICE.

Providence Mining Company, Limited, Non-Personal Liability.

NOTICE is hereby given that the Transfer Books and Register of Members of the Providence Mining Company, Limited, Non-Personal Liability, will be closed from the 17th of October to the 25th of October, 1904, both days inclusive.

Dated this 14th day of October, 1904.

H.B.K. BRAND

BIG SHIRT

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 39½ to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39½ to 42 yards of material per dozen.

Sold at all dealers but only with this brand:—

NOTICE OF ASSIGNMENT.

NOTICE is hereby given that Agnes Ethel Wilson, of the City of Greenwood, in the Province of British Columbia, Tailoress, has, by Deed of Assignment bearing date the 26th day of September, 1904, A.D., assigned all her real and personal property credits and effects, which might be seized and sold under execution, to James Stuart Birnie, accountant, of the said City of Greenwood, in trust for the purpose of paying and satisfying rateably and proportionately and without preference or priority all the creditors of the said Agnes Ethel Wilson.

All creditors are required to file with the said assignee full particulars of all their claims duly proved as required by the provisions of the "Creditors Trust Deeds Act, 1902" and amendments thereto, and the nature of the securities, if any, held by them, on or before the 13th day of November, A.D. 1904, after which date the assignee will proceed to distribute the assets among the parties entitled thereto, having regard only to the claims of which he shall then have notice.

A meeting of the creditors of the said Agnes Ethel Wilson will be held in the office of Arthur M. Whiteside, Barrister, Greenwood, B.C., on Thursday the 13th day of October, A.D. 1904, at the hour of three o'clock in the afternoon.

Dated the 27th day of September, A.D. 1904.

BETTER TERMS.

The Hon. L. J. Tweedie, premier of New Brunswick, at the close of an address at Vancouver last week, took occasion to say that on the authority of Sir Wilfrid Laurier, the Dominion of Canada would grant better terms to the provinces of the Dominion. We are not concerned with the rights of the other provinces at this moment, but we are pleased to have the statement from so authoritative a source. British Columbia relations with the Dominion have long needed readjustment and we are glad to know that the government of the day sees its way now clear to harmonize the inconsistencies that have so long obtained. If the other provinces deserve better terms much more so does this sea of mountains, so large, so sparsely settled and so remote from federal headquarters. British Columbia with its great stretch of sea coast, its ranges of mountains and its immense territory is an expensive country to open, an expensive country to settle, an expensive country to govern. We are sure the province asks no favors because it is a younger son of the family with curtailed privileges, but it does ask for the share that belongs to it.

HOW THE PARTIES STAND.

These are the days when people are recalling the standing of the parties in the Dominion house of commons. For the information of those who do not know the exact composition of the house when dissolved recently we submit the following table:

	Lib.	Cons.	Ind.	Vacant
Ontario	37	53	1	1
Quebec	55	7	1	2
N. Scotia	15	5	....	....
N. Brunswick	8	6	....	....
P. E. Island.	3	2	....	....
Manitoba	2	3	1	1
N. W. T.	4	....	..	....
B. C.	4	1	1	
Yukon	1	....	....	....
	129	77	4	4

Owing to the redistribution of seats based on the last census the new house will have the following change in representation:

Quebec will retain the original number 65, Ontario will have 86 seats instead of 92, Nova Scotia 18 instead of 20, New Brunswick 14 instead of 13, and Prince Edward Island 4 instead of 5. The ten seats so obtained go to the West. Manitoba gets 10 instead of 7, the Territories 10 instead of 4, and British Columbia 7 instead of 6.

The results of the approaching election remain to be seen, but nobody appears able to detect where any change can come to materially alter the relative positions of the two parties.

YALE-CARIBOO.

This constituency is an important one from its size and constantly increasing population; its mining prospects, which are not yet fully developed; its timber ranges the value of which is constantly increasing; its mild and genial climate, with its tens of thousands of fertile land suitable for agricultural and pastoral pursuits. as well as the unexampled fruit growing capabilities mark it as being in a few short years the ideal home of a thickly settled and prosperous community. This is no dream or far-fetched prediction, but a bold statement of what within the next decade will be an accomplished fact. Each elector can do a little towards the attainment of this desirable end, the first and foremost of present duties being to cast our votes for good and honest government, without which no nation can be expected to prospecr.

That government is the one which Sir Wilfrid Laurier is chief, and his representative in that constituency is Duncan Ross the coming M. P. for Yale-Cariboo.—Okanagan Herald.

PEACE AND WAR.

The discussion and resolutions of the recent Peace Congress at Boston appear out of joint with the war spirit of the age and the history the world has been making of late. Ever since the czar's dream of universal peace was heralded to the world the nations appear to have been disquieted. Ships and armament have been constructed as never before.

The United States have had war, serious war, east and west; Great Britain has called her sons from every colony to battle in Africa; Russia and Japan are at this moment engaged in one of the bloodiest wars of the centuries.

Peace sounds well and could it be equitably secured, would mean much for the world, but with human and national greed remaining as now war now and then appears inevitable.

Peace congresses grow out of the purer, better life of the people, but the business temper of a nation will still build and equip arsenals and launch ever enlarging warships with their death-dealing equipment.

A GOOD SIGN.

Large areas of land in the Okanagan are being cut up into small holdings. The excellent climate, the mild winters and the choice fruit of the Okanagan are fast converting the ranges into orchards. At Peachland the Lambly ranch of 400 acres has been subdivided into 70 tracts and these are being rapidly sold. Large numbers of people wearied of the cold of Manitoba and the Northwest find the Okanagan the paradise of which they haddream ed but never believed existed.

An option has recently been acquired on the Ellis range for a syndicate of eastern people with the view of subdividing it into small tracts. The figures named in the consideration run well up into the hundreds of thousands, but once subdivided into small holdings the tract will realize several millions. British Columbia fruit stands well in England and this year captured the popular heart at the Winnipeg fair and the Okanagan is pre-eminently the fruit section of the province.

FACTS FOR ELECTORS.

Never were manufacturers so busy.

Never did workingmen get better wages.

Never were workingmen so much in demand.

Never did Canada loom so largely in the eyes of the world.

Never were the farmers so well to do, so happy and so comfortable.

The last seven years under Liberal rule have been marked by unprecedented progress and prosperity.

Greater progress has been made during the last eight years than during the eighteen years of Conservative administration.

NUGGETS FROM THE INDEPENDENT

The labor vote. as a transferable quantity in a national election, is a myth. It is governed by general party sentiment and not by walking delegates.

The province cannot go ahead until its fiscal relations with Ottawa are improved. Our political relations are a little too intimate. This is the season that the province gets the worst of it.

The idea that workingmen, and particularly organized laborers, can be compelled by labor leaders to vote for this or that party is utterly erroneous, and nobody knows this better than the labor leaders themselves.

This notion that the labor vote can be transferred, like an old hat, from candidate to candidate or from party to party by dickering with leaders is as false as it is dishonorable. It is as reliable and staple as is the vote of any class in the conutry. It is customary, just before elections, for labor leaders to put themselves forward as controlling the labor vote. and to be ready to bargain for its delivery; but they are never able to "deliver the goods." There is no vote in the country that is less deliverable, and who ever tries to bargain for or to deliver it is either a fool or a rogue.

THE PUBLIC DEBT.

In the last budget speech, Finance Minister Fielding estimated the public debt per head of the population at $46.31 on the 30th of June, 1904, as compared with $50.61 on the 30th June, 1896, the last year of Conservative rule.

REAL TERMS OF THE RAILWAY CONTRACT

"The people of Canada have provided nine-tenths of the capital, yet they do not participate in the profits, control the rates, or have have any voice in the road's management."—Mail and Empire report of Mr. Borden's speech.

There are four statements here and they are all untrue. The people of Canada do not provide nine-tenth of the capital to build the National Transcontinental Railway; they do participate in the profits; they do control the rates; they do have a voice in the management of the road.

The people of Canada provide all the capital for the eastern division of the railway—from Winnipeg to Moncton—but that is little, if anything, more than half the capital required for the whole line. This is absolutely all the capital they provide, and they will own the division they build; the rest of the capital is furnished by the Grand Trunk Pacific Railway Company, which constructs and owns the western division.

The people of Canada do participate in the profits of the whole line to the amount of three per cent. on the cost of construction of the eastern half of it, whatever that may be.

The people of Canada have a very effective control over rates, not merely through the Railway Commission, with its as yet undetermined but undoubtedly great powers, but also through Parliament, which has absolute jurisdiction over the carrying out of the contract.

The people of Canada have a good deal to say about the management of the road. They fix the standard of efficiency which has to be lived up to in the construction of the western division; they fix the minimum of rolling stock to be assigned to the eastern division; they have secured running rights for the Government railway and other railways over the Transcontinental line; and through the Railway Act they exercise a very potent control over aspects of the management too numerous to be here specified.—Toronto Globe.

To The Electors of Yale-Cariboo:

As the Liberal candidate in this electoral district, I respectfully solicit your votes and influence.

No attempt will be made to discuss the general issues of the campaign in this address. Since receiving the Liberal nomination in January last, I have visited many parts of the riding and made myself thoroughly acquaint ed with its requirements. This work will be continued until election day but owing to the large extent of territory to be covered it is a physical impossibility to visit all sections or personally interview all the electors. I therefore avail myself of this opportuni.y to ask for your suffrage.

Permit me to direct your attention to some matters of local importance. Yale-Cariboo fully warrants the expen diture of public money in its development. The government has already done much in this direction. It has granted aid to several lines of railway; government owned telegraph and telephone lines have been constructed; the necessary money has been voted to secure telephonic communication through the rich Nicola and Similkameen districts, and telegraphic communication between Vernon and Kelowna. In order that the practically inexhaustible mineral. timber and agricultural resources of the district may be fully developed, this policy of governmental aid must be continued. It is important that Yale-Cariboo shall return as its member one who can direct the attention of the government to matters of vital importance to the district and who will support the government in its aggressive policy of development. It is particularly important that the electors of this riding should show their appreciation of the government's broad, statesmanlike plan of constructing another transcon tinental railway which will be the chief factor in opening up the northern portion of the riding. Branch lines to connect with the southern transcontinental lines will surely follow and the whole interior of the province will be opened up.

Briefly, my policy, so far as Yale-Cariboo is concerned, is a policy of development of all its important sections. With a leader whose record fills with pride all people of this country, irrespective of party affiliations; supporting a government whose eight years of wise, progressive administration has placed Canada in a proud position among the nations of the world, and at the same time has more closely connected the ties which bind us to the mother country, and fully endorsing a policy which means so much to the western portion of the Dominion, and more particularly to the District of Yale-Cariboo, I await with confidence, your verdict.

Yours very sincerely,

DUNCAN ROSS.

Greenwood, Oct. 6th, 1904.

STEWART SUPPORTS

Laurier Government and Liberal Candidates

FOR GALLIHER AND ROSS

Believes They Will Be Returned by Large Majorities.

J. W. Stewart, the well known railway contractor who is building the Great Northern railway into Phoenix and whose company has other large railway contracts in different parts of the Dominion, has given an interview to the press which is of particular interest to the electors of Yale-Cariboo and Kootenay. Mr. Stewart is at present in Winnipeg and he, in common with a large number of successful business men who heretofore have taken no active interest in politics, has expressed his intention of fighting this time for Laurier, progress and development. The telegraphed interview says:—

"Mr. J. W. Stewart, a prominent railway contractor, has just announced himself as an enthusiastic supporter of the Laurier government, and as one who will exert every legitimate influence in his power to ensure the success of all the Liberal candidates in Manitoba, the Northwest and British Columbia. He is the leading member of the firm of J. W. Stewart & Co., with a monthly pay roll at present exceeding seven thousand names. An idea of the magnitude of the operations of the company may be gained from a recital of the list of railway contracts it is now engaged in carrying out: C. P. R. line, Toronto to Sudbury, Ontario, 220 miles; reducing the grades between Fort William and Winnipeg; Arcola branch of the C. P. R., 113 miles; Pheasant Hills extension of the C. P. R., 60 miles; Moose Jaw, Swift Current, C. P. R. cut-off, 100 miles; Lacombe extension of C. P. R., 25 miles; Wetaskiwin extension of the C. P. R., 25 miles; Clanwilliam cut-off, C. P. R., west of Revelstoke, B. C.; Great Northern railway, extension from Morrissey to Fernie, B. C; Great Northern extension from Grand Forks to Phoenix, B C., 25 miles.

It was his appreciation of the possibilities of the Canadian west, combined with devotion to duty, that ensured him a successful career from the very outset. A civil engineer by profession, the early eighties saw him on the C. P. R. surveys between Winnipeg and the coast. He has traversed on foot the entire distance between those two points, gaining by personal experience an unsurpassed knowledge of the resources of Western Canada. At the age of 20 years Mr. Stewart was in the Rockies directing the work of construction under Mr. James Ross, the well known contractor who built the principal sections of the C. P. R. between Winnipeg and the Selkirks. Later he successfully engaged in railway construction contracts on his own account both in Canada and the United States. His firm built most of the C. P. R. lines and branches in southern British Columbia and has now two thousand men at work constructing the Great Northern railway extension from Grand Forks to Phoenix. Although a Liberal by conviction Mr. Stewart has hitherto never taken any active part in politics. His decision to enter the fray, as he explains himself, was largely prompted by patriotic motives. The prosperity that has prevailed under the Liberal regime, the absolute necessity of the continuance of a well directed immigration policy, the security of capital under existing conditions, and the railway policy of the government, are the principal factors that have resulted in Mr. Stewart's publicly championing the Liberal cause. The Conservatives in his opinion, should be given their quietus if ony for their reactionary attitude towards the Canadian west, and their visionary and unpractical policy of state owned transcontinental railway.

"The Laurier government will be returned to power by a larger majority than ever," said Mr. Stewart last night. "I speak especially from a knowledge of Manitobe, the Northwest and British Columbia. The people have too much common sense to exchange a stable, progressive government for the uncertainties of Conservative rule under small minded leaders who cannot even agree among themselves in regard to half the vital issues of the day. Since Sir Wilfrid Laurier assumed power, Canada has entered upon a new phase of life and national development that is attracting world-wide attention. The average citizen does not have to read blue books and statistics to see that good times prevail. Prosperity is here. It is a vital, dominant fact, and the enormous expansion of trade and industry, so apparent from the Atlantic to the Pacific, has been largely due to the business-like tariff and immigration policy of the Laurier government. The influx of settlers into the west is one of the greatest phenomena of the twentieth century. It is a movement that has no bounds. I believe that the influx each succeeding year will increase at a cumulative rate if the direction of national affairs remains in the hands of the Liberals.

"The west has especial reason to feel proud of its cabinet minister, Hon. Clifford Sifton, who as minister of the interior has promulgated and carried out an immigration programme that is worthy of all admiration and praise. I do not even know him personally, but I must admit as a Canadian that I have followed his career with unbounded admiration. It would be well for the Dominion if it possessed a few more men of the force and breadth of vision of Mr. Sifton. By his untiring efforts the minister of the interior has rendered not only the west but all Canada a service of priceless value.

"The liberals should be continued in office," added Mr. Stewart, "if only for their statesmanlike transcontinental railway policy. The bargain is a first-class one in every respect and will ensure the opening of regions abounding in varied resources, equal if not superior to those existing in the sections tributary to the main line of the C. P. R. This is not merely hearsay because I speak from a personal knowledge of a large portion of the western section of the proposed route. I know the great grain belt it will traverse, and in British Columbia am familiar with the Lillooet and Cariboo districts, whose resources can scarcely be enumerated. I refer to scores of fertile agricultural valleys, rich grazing lands, vast timber reserves, and a mining region possessing lode and placer gold mines, coal, copper, iron, asbestos

STEWART TALKS

Continued from page 5

mica, phosphate and cinnibar in enormous abundance. I have personally visited most of the regions I have just described in outline. The building of the Grand Trunk Pacific, apart from affording employment to thousands of men, will open up for settlement a country whose superior does not lie out of doors,"

Mr. Stewart takes a special interest in the contest in British Columbia, mainly on account of the warm friendship existing between himself and several of the liberal candidates.

"I feel confident the liberals will have a walk-over in British Columbia" resumed Mr. Stewart. "The conservatives out west are divided on the railway question, many of them being strongly in favor of the liberal policy. This is especially apparent in Yale-Cariboo. The people in the northern part of Cariboo are eagerly awaiting the commencement of operations, and are almost a unit for the government, fearing that a conservative victory would rob them of the railway, or result in a postponement of construction for many years.

"I am heartily supporting my old friend W. A. Galliher, the liberal candidate in Kootenay. Mr. Galliher has done splendid service at Ottawa and there is no question of his re-election by a majority of over one thousand. He is popular with all classes. To him is largely due the credit of impressing upon the government the wisdom of granting a bonus to the silver-lead industry. The transformation effected by that legislation has had a magical effect in stimulating the output and in giving employment to hundreds of miners. The Canadian silver lead industry is now on a firm basis, having been freed from the domination of the American lead trust, which until the passage of the lead bounty, tyrannically regulated the output of the Canadian mine owners. In the west Mr. Galliher of course gets his share of credit for the changed condition. I have known him for years and anticipate for him higher honors in the political world.

"I also regard the election of another friend, Mr. Duncan Ross of Greenwood, B. C., the liberal candidate in Yale Cariboo, as a foregone conclusion. Mr. Ross is the editor of the Boundary Creek Times and very popular with all classes. He received enthusiastic receions everywhere during his recent tour of the riding, which by the way, embraces more area than England and Scotland combined. His journalistic experience, popularity and wide knowledge will soon bring him to the front at Ottawa.

"No," emphatically replied Mr. Stewart to a pointed question. "I am not using or going to use any undue influence with my employees during the campaign. Many of them are on the voters' list. I assume that they have enough common sense to realize the difference between the general policies of the respective parties. Any voter will think twice before supporting the conservatives because he will be voting against his own self-interest and would be contributing his share towards shaking the foundations of the prosperity that has been established in Canada largely by the wise policy and statesmanlike administration of the liberals under Sir Wilfrid Laurier."

NOTICE.

A special meeting of the Board of Licence Commissioners for the Boundary Creek Licence District will be held at the Police office, Grand Forks, on Thursday, October 13th, 1904, at the hour of seven o'clock in the afternoon, to consider the application of Alex. McPherson and George Wellwood for a liquor licence under the Licence Act, 1900, for the Queen's Hotel at Boundary Falls, B. C., situate on lots No. 12, 13, 14 and 15, in Block B in the Christianson addition to Boundary Falls.

Grand Forks, October 3rd, 1904.

J. A. DINSMORE,
Chief Licence Inspector.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

"Barnato" and "Barnato Fractional" Mineral claims, situate in the Greenwood Mining Division of Yale District. Where located: Horseshoe Mountain.

TAKE NOTICE that we, Victor R. Swanson and Samuel T. Larson, Free Miner's Certificate Nos. B80579 and B80320, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of Improvements, for the purpose of obtaining crown grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such certificates of improvements.

Dated this 20th day of September, A. D., 1904.

VICTOR R. SWANSON.
SAMUEL T. LARSEN.

MINERAL ACT

Certificate of Improvements.

NOTICE.

"Boston," "St. Louis" and "Toronto" Mineral Claims, situate in the Greenwood Mining Division of Yale District. Where located: On Cranberry creek.

TAKE NOTICE that I, A. E. Ashcroft, acting as agent for John N. Greden, Free Miner's Certificate No. B80547, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 1st day of October, A. D., 1904.

ALBERT E. ASHCROFT, P.L.S.

Mail Contract

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 7th October next for the conveyance of Her Majesty's Mails, on a proposed Contract for four years, twelve times per week each way, between Anaconda and Greenwood from 1st November next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Anaconda and Greenwood and at this office

POST OFFICE INSPECTORS OFFICE,
Vancouver, B. C., 26th Aug., 1904.

JOHN R. GREENFIELD,
Post Office Inspector

NOTICE

IN THE MATTER of the Railway Act, and Amending Acts, and In the Matter of the Columbia and Western Railway Company and portion of Lot 534, Group 1, Osoyoos Division, Yale District, British Columbia.

NOTICE IS HEREBY GIVEN that the said Railway Company is the owner and in possession of its Right of Way over the subdivided portion of the West Half of the above described lot, as shown on the map or plan of the main line of the Columbia and Western Railway, on file at the Land Registry Office at Kamloops, by virtue of an agreement in writing dated the 5th day of August, A. D., 1898, made between Edward Ruckle and Francis Ruckle of the one part and the said Railway Company of the other part, according to the provisions of the Railway Act, 51 Vict., Chapter 29, and Amending Acts, an authentic copy whereof is filed in the office of the Clerk of the County Court of Yale, at Greenwood in the said County.

AND FURTHER TAKE NOTICE that the sum of $262.40, the amount of compensation for the said lands, and interest thereon, has been paid into Court, and all persons claiming an interest in or entitled to the said lands or any part thereof are required to file their claims to the said compensation or the portion thereof to which they may claim to be entitled, in the said office.

Dated this 9th day of September, A. D. 1904.

A. M. WHITESIDE,
Solicitor for the Columbia and Western Railway Company.

To Edward Ruckle, Francis Ruckle, the Grand Forks Townsite Company and to all others whom it may concern.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date. Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

NOTICE OF FORFEITURE.

TO DAVID BEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district.

You are hereby notified that I have expended the sum of $1000 for surveying the above mentioned claim and $2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, $51.25, together with all costs of advertising, your interests in said mineral claim shall become invested in me, [your co-owner] upon filing in the proper office in that behalf the affidavit required by section 4, of the Mineral Act Amendment Act, 1900."

Dated this 9th day of June, 1904.

LIBERAL ORGANIZATION.

The first Liberal rally in Greenwood was held at the party's rooms on Friday evening last. A large number was present and general enthusiasm prevailed. The following committee was elected to have charge of the pending election struggle: J. R. Brown, M P P, president; H. W. Falconer, secretary; G. R. Naden, Kenneth McKenzie, Dr. Mathison, Edward Pope, S. Barry Yuill, C. Scott Galloway, Charles Gouvereau, Angus Nicholson, Alex. Robinson. The committee rooms are open every evening, well warmed and lighted, and an abundance of up-to-date literature is spread on the tables.

THE WAR.

The latest from the seat of war shows no substantial progress being made by the Russians in the much vaunted attack they were to direct against the Japs. Several bloody clashes appear to have ensued within the last few days but the general advantage appears to have been with the Japs. Today's despatches say:

No appreciable progress has been made in the projected advance southward of the Russian armies under general Kouropatkin, since the initial success of the movement on the capture of Bentsioputze. Fighting of the most stubborn description continues along the entire front. Field marshall Oyama reports the capture of 30 guns from the Russians. General Kouropatkin's report to emperor Nicholas is couched in guarded words and claims nothing in the way of accomplished results. Reports from the military commanders at Port Arthur show that the Japanese have brought a shell fire to bear upon the inner fortress. The garrison, however, is represented to be hopeful of the outcome of the seige.

Gorman West has taken over dining room of the Pioneer hotel and will serve first class meals.

Certificate of Improvements.

NOTICE

SNOWSHOE, DIAMOND, and TOLEDO, Mineral Claims, situated in the Greenwood Mining Division of Yale District. Where located: At Camp McKinney.

SMITH & McRAE

GREENWOOD. B. C.

Wise and Otherwise

Miss McLean has been promoted to a position in the office of P. Burns & Co., Nelson.

Fred. H. Oliver, whilom manager of the Morrison, came in on Sunday evening's stage.

Mrs. H. V. Fuller went to Portland, Oregon, for a short visit among friends on Tuesday last.

Capt. McMann has sold his comfortable residence and is planning to return to his former St. John home.

Messrs. Madden and Heenan of Chicago, stockholders in the Providence mine, were in town this week.

Mr. W. M. Law went to Rossland on Monday last on business connected with the Providence Mining company.

A session of supreme court will be held in Greenwood on the 17th inst. Chief Justice Hunter will probably be in attendance.

Philip Wells, late of the C. P. R. telegraph office here, is now in the local office of P. Burns & Co., while Arthur Prout takes his former position.

Frank Lewis of Bannerman & Lewis has returned from a prolonged visit to Oregon, where he went to secure horses for the increasing business of his firm.

Mr. A. B. Clabon of Vancouver is in Greenwood this week inquiring into the fortunes of the high grade properties hereabout, that have so rapidly come to the front recently.

We are glad to see Gabriel Eustis out again after a siege of fever at the hospital. It is understood that the position of master mechanic at the Montreal & Boston Consolidated Co.'s smelter awaits Mr. Eustis on his complete recovery.

Miss Martin has recovered sufficiently from her illness to admit of her return to school work. Her pupils were delighted to have her with them again on Wednesday last.

Mr. H H. Morris, inspector of the Canadian Bank of Commerce, is making the local branch a visit this week.

John Lucy has secured a bond on the Boundary Falls mineral claim near Boundary Falls, and has begun work thereon. This property yielded some fine ore in the olden days and Jack wants some just like that, and he'll get it too.

Mr. Duncan Ross, Liberal candidate for Yale-Cariboo, is out in the western part of his riding preaching the doctrine of the final preservation of the saints. The people are reported to be flocking to his standard and believing his gospel.

Our old friend James Greer who formerly flourished here, and who some months ago went with rush to Poplar Creek, has suspended the publication of that bright little sheet. the Poplar Nugget. The Nugget plant is being removed to Fernie where it is reported it will be again set up under the overseeing eye of Ledge Lowery.

It is understood that a contract has been entered into between the Montreal & Boston Consolidated and W. P. Tierney, contractor, for the construction of a short piece of road from the Rawhide, one of the M. & B.'s big things, to the Phoenix branch of the C. P. Railway.

Grand Forks has recently received two bits of encouraging news, both important to that city and to the Boundary. The first is that the head office of the great Granby company will be at Grand Forks hereafter. The second is that Grand Forks will be the Boundary divisional point of the Great Nortnern Railway. Work on the company plans to that effect have already begun.

The Harold Nelson company played here two nights this week, Wednesday night in "Heart and Sword," Thursday night in "Faust." The best that can be said of this company is none too good, and that may best be said in this way. The company played to bumper houses on both nights, the audience on the latter occasion being as large and as enthusiastic as that on the former.

Business continues to increase for the Canadian Pacific in the Boundary. A new train has been put on for handling Brooklyn, Rawhide and Athelstan ores to the smelting plant of the Montreal & Boston Consolidated.

Tracklaying on the Great Northern into the Boundary is being rushed. The outlook is good for trains into Phoenix before the end of 1904.

What might have been a disastrous fire at the Auditorium Thursday evening was prevented by the coolness and ready work of the Harold Nelson Co. Although some damage was done to the scenery and one drop curtain burned, few in the audience knew that there had been a blaze. Harold Nelson has blistered hands to-day as a result.

NEW ROUND HOUSE.

Material is arriving for the new Canadian Pacific roundhouse at this point, and work on the construction will speedily follow.

REMEMBER THE DATE.

The date is fixed for Oct. 26th, and you better make a note of it now.

The Greenwood band had planned to give a concert some weeks ago but postponed the same indefinitely out of respect to the death of their friend and comrade, Herbert Redpath. They think now that the time has come when the people of Greenwood should have the privilege and the pleasure of testifying their appreciation of the effort the boys have made to give this city a band worthy of the name. Very many people have repeatedly urged a concert by the band for this purpose and as the organization is very much in need of funds, and that at once, it has decided to gratify the demand and will endeavor to make the occasion an enjoyable one.

Paste the date in your hat now, Oct. 26th, and don't let anything else interfere therewith. Remember you are engaged for that evening.

JUSTICE OR JUDGMENT.

A recent American visitor to British Columbia is reported in a Butte paper as making some very severe criticisms on the Judiciary of British Columbia. He evidently had it in his mind that the self-attached importance of a client ought to weigh with a court. That seems to be the case in Iowa where the same court sentenced a banker to 18 months in the pen because he robbed his depositors of $54,000, but gave an ordinary thief six years for swiping a chicken. If the chicken were worth 25c, and the same ratio maintained, a man would need to steal over a million to get clear with a month sentence.

SERENADE.

The boys were out in force Monday evening with all kinds of musical instruments senerenading Phil McDonald, recently returned with his bride. Phil recognized the occasion as worthy of his usual liberality and the boys went home feeling that the world was a pretty good place.

METHODIST CHURCH.

The pastor who is spending the week in Grand Forks, will return before Sunday and will conduct the Sunday services at 11 a.m. and 7 p.m. The Epworth League will meet at 8 p.m. on Monday and the weekly prayer meeting will be held on Thursday evening at 8 o'clock.

HOME AGAIN.

Mrs. F. H. Parker returned on Monday from a two months trip to St. Louis, Denver and other cities. She reports having had a most enjoyable time among former friends and relatives.

NEW SCHOOL DISTRICT.

The latest issue of the British Columbia Gazette announces the creation of a school district at Boundary Falls, and calls for tenders for the erection of a school building there.
