Boundary Creek Times.

Vol. 10 GREENWOOD, B. C. FRIDAY, APRIL 25, 1902. No. ~~25~~ 33.

THE PROGRESSIVE

A New Factor in British Columbia Politics.

PREAMBLE AND PLATFORM

The Big Labor Convention Recently in Session at Kamloops.

The recent convention of the reform forces at Kamloops was marked by enthusiasm and harmony. Intense interest was manifested in debate and everything appears to have been conducted with the thought of preferring party to persons. The idea of the convention was to thoroughly organize the forces before the next provincial election and to make their influence felt in the next provincial parliament. It was even suggested that nearly one fourth of all the seats in the legislature could be captured by the new party. It is since reported that Chris. Foley, the president elect, is to remove from Rossland to Vancouver and take up his permanent residence there. This would seem to imply that he is to become a dominating organizing power in the new party.

The following is the preamble and some of the more suggestive planks in the platform of the new party:

PREAMBLE.

That this Provincial Progressive Party lays it down as a first principle that they will nominate, endorse, or support only such men as will place their signed undated resignation in the hands of the convention which nominates or endorses them; that this resignation be sworn to; that this resignation may be handed in to the Lieutenant-Governor-in-Council whenever a majority of the convention shall consider such action advisable.

PLATFORM.

That we gradually abolish all taxes on the producer and the products of the producer, shifting them on land values.

Government ownership of railways and means of communication.

That the Government establish and operate smelters and refineries to treat all kinds of minerals.

That the franchise be extended to women.

The abolition of property qualifications for all public offices.

Farm improvements, implements and stock, not to be taxed, and wild lands to be assessed at the price asked for them by speculative holders.

No land or cash subsidies. Lands to be held by the actual settlers.

Ten per cent of all public lands to be immediately set aside for educational purposes, and the education of all children, up to the age of 16 years, to be free, secular and compulsory. Text books, meals and clothing to be supplied out of the public funds when necessary.

Compulsory arbitration of labor disputes.

Municipalization and public control of the liquor traffic.

That all transportation companies be compelled to give free transportation to members of the Legislative Assembly and Supreme Court and County Judges.

THE LITERARY—CONCERT.

The concert given last Wednesday evening in the Presbyterian church, as the closing of a season's series of entertainments by the Greenwood Literary club was a highly creditable affair. There was not an indifferent number on the program. Places much larger than Greenwood might well be proud of the exhibit of local talent. Much of the credit is due to Mrs H. McCutcheon, the leading spirit in the frequent drills necessary to such a result.

PCOGRAMME.

1. Chorus.
2. Solo "Leonore" .....Mr. Harris.
3. Reading "Lasca".....Mrs. Dill.
4. Quartette, Pro Phundo Basso Miss Fisher, Mrs. McCutcheon Messrs. Maynard and Hodge.
5. Solo, "A Dream"....Miss Fisher.
6. Piano solo .....Mrs. Farrow.
7. Chorus "Spring's delights are now returning."
8. Duett "Oh that we two were Maying." Miss Fisher and Mr. Hodge.
9. Double quartette "Oh hush thee my Babie."
10. Reading "Cardinal Wolsey's speech" .....Mrs. Dill.
11. Solo "Asthore".... Miss Flesher.
12. Chorus "O Italia, Italia Beloved" God Save the King.

New goods direct from Great Britain just arrived at Mitchells the Tailor.

THE FRAZEE CASE.

The Frazee case which has been before the court for several days past reached final decision at 3 o'clock this afternoon. This was a case where A. D. Hallett, city constable laid information against Frazee for keeping open his business house after hours prescribed by the "Early Closing By-Law." The city solicitor appeared for the prosecution and J. P. McLeod of the firm of McLeod and Brown for the defence. The defence set up the claim that the By-Law was invalid for several reasons. After taking the matter under consideration the judge decreed the By-Law valid and imposed a penalty of five dollars on the defendant. The judge's decision involved much careful research, and quoted legal opinions at length.

Don't overlook the vaudeville for April 26th, at the Auditorium. High-class in every respect.

The Providence Mine

Next week we shall be able to make some statement about the Providence mine, adjoining the townsite, that would make a room in any country but Boundary Creek. Men rush to Thunder Mountain on much less glowing reports than can be made about this great property A deal is in progress of completion today which will come in the nature of a surprise to even the best informed.

Two shifts are now at work on the property and another car of $300 ore awaits shipment.

Watch the Providence.

NUMBER SEVEN

Another Property Looking Very Well.

BIG LEDGE HIGH GRADE ORE

What One Company is Doing up in Central Camp.

The No. 7 mine owned by the No. 7 Mining Company, Limited, of New York, a corporation largely indentical with that controlling the Mother Lode property has been steadily working for several months. A large amount of work has been done and the latest development shows the property in most encouraging light.

A crosscut at the 300 foot level cut the lead which is strong and of high value in gold, silver and lead. About 2000 feet of work have been done on the property of which about one-third consists of sinking and raising and the balance of cross-cutting and drifting.

At the 60 foot level about 440 feet of drifts and stopes have been run and at the 120 foot level as much or more. A crosscut of 40 feet at the 200 level cut the lead and one of 70 feet cut it again at the 300 level.

Mr. Holman is in charge of the property and his work in proving the company possessed of a very valuable property must be gratifying to the owners.

The mine equipment consists in part of a Class A Ingersoll-Sergeant straight line air compressor, rated at five drills, six one-man machine drills, air receiver, 100-horse power boiler, 25-horse power hoisting engine and a Cameron sinking pump.

The company has shipped by wagon nearly 1000 tons of rich ore to the rail way siding between Greenwood and Midway. Most of the ore was railed to the Greenwood smelter, part however going to Nelson where the character of the ore makes it very desirable for mixing with other ores.

PERSONALS

A. H. Sperry has returned from his trip to Spokane

Mr. Campbell of the Hall Mines smelter, Nelson, was in town the early part of the week.

T. Q. Butler has removed part of his heavy stock of saddlery to Grand Forks and will open a branch there.

Mr. and Mrs. McKay of Anaconda have left on a prolonged outing trip. They headed for the Okanagan valley.

Harry Shallenberger now in camp leaves in a few days for Arizona to look after some mining interests there.

Messrs. Smailes and McIntosh left on Saturday for Victoria. They were sent as a Greenwood delegation in the interests of the V., V. & E.

Mr. A. Munroe of Montreal, largely interested in the Sunset is in town. His confidence in the Sunset is sure to bring rich reward to himself and associates.

O. H. Hahn, mining engineer of New York has been recently touring the Boundary and taking a look at its mines and smelters. His verdict is gratifying to all concerned.

Mr. Whitbeck and family recently left Greenwood to the regret of a large circle of friends. Mr. Whitbeck goes to Boise to accept a position and his family will remain temporarily in Spokane.

LOCAL AND VICINITY.

Word comes from Victoria that an appropriation sufficient to complete the West Fork road has been provided by the government. The pioneers of the West Fork have waited long, if not patiently for passable means of communication with the outside world.

A fine new school house in Greenwood is one of the long-needed improvements now appearing likely to be realized the coming summer. It ought to be first-class, and a first-class school must be maintained therein when completed.

Since the completion of the railway bridge at Nelson the C. P. R. has been running through trains between Nelson and the Boundary.

Odd Fellows Social.

The Odd Fellows are getting ready for a great social event in Their Hall next Tuesday evening.

The Kirchner Company are preparing an evening of high-class amusement for you at the Auditorium, tomorrow (Saturday) evening.

THE SNOWSHOE

And Dominion—Another Report Gains Circulation.

WHAT SOMEBODY IS SAYING

New Amalgamation Story About the Dominion.

Two of the big properties in Phoenix camp are the Snowshoe and the Dominion Copper company's mines the Brooklyn, Stemwinder, Idaho and Rawhide.

The Snowshoe people have plenty of money and a great property and for some time have been experimenting in London with different smelting processes. They have brought their mine up to the shipping point and can easily produce 500 tons of ore daily. In fact they have reached the place where they may realize on their expenditure to date but to do so must have a smelting plant of their own.

The Dominion Copper people are in the same position. The prospect they at one time had has dissolved by the elimination of James Breen their smelting man from the combination. McKenzie and Mann are large holders in this property and they are railway, not mining men, in fact they are so little concerned about the working of their mining interests that their large holdings in the Boundary have been a detriment locally.

Many stories have been circulating for the past twelve months about their plans and the latest one may or may not be any nearer the truth than any of the former ones. For some time negotiations have been pending between the B. C. Copper Co.'y and the Dominion Copper company for a union of interests at the Greenwood smelting works of the former. Nothing seems to have yet crystallized.

It would hardly seem likely however that the Snowshoe and Dominion would unite in originating a smelting plant that will take many months to mature unless negotiations had failed for uniting the Dominion and B. C. Copper company in a plant already in most successful operation.

Something will happen we believe and that soon, and we trust that something will be the bringing of Brooklyn and Stemwinder ores down to Boundary creek rather than to the farther away Kettle river. Either plan however is preferable to the present state of inactivity and every one in the Boundary will hail the advent of an active stage in the company's plans.

50 Pants patterns to choose from at Mitchells.

V., V. & E. HISTORY.

1. Mr. Hill desires to build a railway into Kettle River Valley and Boundary Creek.
2. Mr. Manly wants to sell a farm on the right-of-way.
3. Mr. Manly appeals to the courts to help him make sale
4. Mr. Hill buys farm, paying $50,000 to secure 24 acres right-of-way.
5. The "Hot-Air" people don't want Mr. Hill in the Valley.
6. More law, more injunctions, more delays.
7. Mr. Hill applies at Ottawa for Charter.
8. Mr. Stratton and the incubator folk oppose the charter
9. The Railway Committee favorable to the bill.
10. The entire country favorable to Mr. Hill.
11. The pull of the few defer the demands of the many.
12. The electors get "hot" too.
13. .....
14. .....
15. .....
16. The Great Northern builds into the country and makes Greenwood its headquarters,

Record to April 16th, inclusive, of the B. C. Copper Company's Smelter, at Greenwood.

Began operation February 18th 1901.
In operation since 409 1-2 days.

Ore smelted in 1901	117 565 tons.
Ore smelted since to April 16th	43 789 tons.
Total	161 534 tons.
Nominal capacity of furnace	240 tons daily.
Average for first month	237 tons daily.
Average in October last had reached	400 tons daily.
Average to date since beginning	394 tons daily
Average since January 1st last	435 tons daily.

A second furnace of equal capacity now ready for operation.

Of the above total the Mother Lode Mine alone has supplied 137,965 tons.

FRIDAY, APRIL 25, 1902.

WHO ARE YOU, ANYWAY?

Good people of the Boundary who are you anyway? What have you got to say about V., V. & E. or anything else? Nothing that counts to all appearances. This sea of mountains is a sacred preserve. Trails are good enough for you. Wagon roads you may have gradually, but railways never. The American people must not invade this sacred spot and American capital must not come here to steal your glorious birthright. Of course American railways are all right for the effete east. New Brunswick may charter the Vanderbilts for an overland road, the New York Central may extend its influence into Quebec and Ontario, Manitoba may open its portals to the stranger, but you dear people of these blessed Kootenian hills must be shepherded and watched and kept from harm. Sit at the doorway of your tent prospector and thank heaven for snow-clad hills and blue skies and be content.

Rest on the barrow at the mouth of your tunnel miner and as you smoke dream that some day long after you are dead these conditions will have passed and prosperous towns will nestle in the valleys and paying mines be paying toll to the railways which have made them possible, but for the present just keep on paying taxes and voting.

Who are you anyway that you have any right to think about a railway. You must not think, you must not talk, you must work away and let the brains of the coast do your thinking.

CLIQUES.

Small towns cannot afford cliques in social functions of a semi-public character, and we trust they will never be introduced into Greenwood.

In the home each lady is supreme, dictating her guests and associates. In public events broader privileges may be enjoyed without compromise or loss of dignity. A concert or ball under the anspices of a Citizen's Band or Fire Department, for example, ought to be free of the disgusting clique rule. True such functions should be under the guidance of a committee of worthy ladies and gentlemen and possibly entry thereto should be supervised by such a committee, but too much self constituted class distinction is both disgusting and hurtful.

There is little room for self-considered aristocracy in new towns of the west and we hope to see the noxious weed make slow growth in this region. If character constitute class all right but other standards are cheap things. Of course the regulation of these things lies chiefly with the ladies. It rests with them to help or to discourage the young man of intellect and character. Many a young man possessed of no dress suit, but endowed with fine mental qualities and clothed about the heart with the garments of virtue hungers for the home that is open to the more polished rake.

The refined patrons of vice should not command the premium they do over the unrefined patrons of virtue, and when the ladies so admit and act much has been gained.

A HOT ROAST.

The editor received a letter recently from Phoenix signed by J. F. Freemantle that was the warmest thing of the season. It roasted the Times, the acting editor, the celebration committee, the celebration event, Greenwood and her citizens generally, and the C. P. R as a finish. We have made several inquiries of Phoenix people but have not been able to locate the author. We beg to acknowledge the roast however in this public way and to refer any one looking for the real thing to the above. If the author sheds his caloric in Phoenix as he might, the climate up there ought to grow milder.

NEW SUBSCRIBERS.

We are getting quite a number of new subscribers to the Times these days for which we are truly thankful. The Times is not the newspaper it ought to be and we trust will be soon. The temporary management has been doing the best it could with the means at its disposal, at least aiming to keep the paper from retrograding during the absence of its owner. The paper ought to have news gatherers at a dozen different places in the district it serves and it would have should we continue in charge. To make this departure in policy with its incidental expense is hardly within our power but we trust to see the policy adopted on return of the editor in a few weeks.

Dancing, singing, boxing, by specialists at the Auditorium, April 26.

REWARD.

Wanted to know the whereabouts of David Henderson of Greenwood, B. C. Last heard of December, 1901. Reward given by communicating with T. H. HENDERSON, Fairview, B. C.

FOR RENT.

3 or 6 rooms partly furnished for housekeeping, Silver street, Fisher's addition, formerly occupied by Frank Miller. Enquire on premises of Miss Brooks.

WHAT THE PRESS IS SAYING.

Hon C. H. Mackintosh has interested Scotch capital for the operation of the Giant mine at Rossland.

The Canadian Pacific in anticipation of a tremenduous increase in traffic to and from the North-West during the coming summer, has just placed orders to the value of $5,000,000 for additional locomotives and cars. Delivery must be made before the end of August.

Mr. FitzPatrick recently introduced a bill in the Railway Committee at Ottowa providing for the way in which the $32,000,000. increase in Capital stock of the Canadian Pacific shall be used.

The bill provides that no part of this stock shall be issued at less than par. It also provides what way money is to be used. It further provides that the increase of stock shall not in any way affect the rates. One of the provisions of the bill will be that the C. P. R. must spend $9,000,000 in rolling stock.

Mr. Price Ellison wielded his whip to some purpose upon the shoulders of the ministers when they were preparing the estimates. East Yale secured an appropriation of $27,250. Rossland riding, one of the largest in the province, has been granted $14,500, and Alberni, another one of the largest, $5,000.

The Kirchners, the well-known musical experts will appear at the Auditorium Saturday 26th inst.

The finding of values in the lower workings of the War Eagle will be welcome news, not only here but all over Canada. The stock of the company has just doubled in price as a result of the latest news, and if the rumor is officially confirmed in detail the shares should stiffen and raise much higher than they are at present. —World, Rossland.

The Katzenjammer Kids hold the boards at the Auditorium to-morrow evening.

PROVINCIAL SECRETARY'S OFFICE,

His Honour the Lieutenant-Govenor has been pleased to make the following appointment :

14th April, 1902.

AINSLEY MEGRAW, of Camp McKinney, Esquire, J. P. to be a Deputy Mining Recorder for that portion of the Kettle River Mining Division situated on the Upper West Fork of Kettle River, with Sub-Recording office at Beaverdell.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday the 30th May, for the conveyance of Her Majesty's Mails on a proposed contract for four years, twelve times per week each way, between the Greenwood Post Office and Columbia and Western Railway station, from the 1st July next.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the Post Office of Greenwood and at this office.

NOTICE OF FORFEITURE.

To
George D. Edwards, and to any person or persons to whom he may have transferred his interests in the "Uncle Sam" mineral claim and "First Chance" mineral claim, both situate in Skylark Camp in the Kettle River Mining Division of Yale District, British Columbia

You are hereby notified that I have caused to be expended $205.00 to hold the said mineral claims under the Mineral Act, that the proportion you should contribute for your undivided one-third interest in each of the above claims is $68.33, and if within ninety days from the first publication of this notice you fail or refuse to contribute the said sum of $68.33, which is now due, with all costs of advertising, your interest in each of the said mineral claims will become the property of me, the undersigned, one of your co-owners, under section four of an Act entitled the "Mineral Act Amendment Act, 1900."

Dated at Greenwood, B. C., the 25th day of March, A. D., 1902.

WAYS OF WORLD

The "World" of Vancouver a Great Newspaper.

IGNORANT OR DELIBERATE?

How the World Tries to Boast Its Chosen Ones.

If the Vancouver World will turn back over its files for a few days it will find there something that the citizens of Greenwood would be pleased to have it explain. On April 18th the mayor of Greenwood sent the following telegram to that paper:

GREENWOOD, April 18.—(Special)—At an enthusiastic mass meeting of citizens held here on Thursday evening, a resolution was unanimously passed expressing sympathy with the V. V. & E. Railway in its efforts to construct a road into the Boundary and praying the provincial and federal governments to do everything in their power to facilitate the construction of the road. G. R. NADEN, Mayor.

This telegram appeared in the World the next day under heavy black display lines thus. "GRAND FORKS LOYAL TO THE V., V. & E." The Grand Forks MICROBE must be getting its deadly work in on the World staff in great shape. The germ has been working rather insidiously for a long time but the disease appears to be breaking out rather badly. Vancouver has never shown much interest in this part of British Columbia in a commercial way, and several of the coast papers appear to have entered into a conspiracy to boost one point of the Boundary at the expense of another, but Greenwood can afford to patiently plod along in her own way. Greenwood has neither money nor scrip to trade off for notority. She prefers to stand or fall on merit. Her people however ought to read the papers that are fair to her and her merchants ought to buy goods where her trade is appreciated.

SMELTER AND STOPE.

One shift of four men on the Providence is taking out about $500 worth of ore daily.

The Waterloo property, Camp McKinney, is reported by the secretary as looking well.

The Morrison people report an early resumption of work probable.

The Butcher Boy deal is likely to prove a go. Watch for good news from this corner.

The Elkhorn has been showing up some free gold recently. May Smith and Longley win.

The Highland Chief near Beaverdell is in the race for the bonanza cup.

W. Y. Williams of Phoenix and associates have sold their claims adjoining the Nickle Plate, on Copper Mountain for $52,000 cash.

A ledge of gold bearing quartz recently uncovered on the Jewel, Long Lake camp, is looking well and ore therefrom being shipped to the Granby smelter.

BOUNDARY CREEK PLACERS.

Fourteen Chinamen are reported to have made good money placer mining on Boundary Creek, near Midway, the last year.

George Cunningham finds profitable and pleasant engagement for his leisure hours in taking dust and nuggets out of Boundary. He is looking for mates to the big nugget he wears on his chain and which was found on the creek.

THE NELSON NEWS.

Mr. F. J. Deane recently of the Kamloops Sentinel has assumed charge of the former Miner of Nelson and will publish it as the News.

Odd Fellows.

The anniversary Services of the Odd Fellows, Boundary Valley Lodge No 38, will be held in the Presbyterian Church Sunday evening next. Dr. McRae will preach a sermon appropriate for the occasion.

NOTICE is Hereby Given that within sixty days from date I intend to apply to the Honourable Chief Commissioner of Lands and Works for permission to purchase the following described land, situate in the Osoyoos Division of Yale District: Commencing at a post planted on the North-west corner of John A. Coulson's pre-emption, thence North twenty chains, thence east forty chains, thence South twenty chains, thence West forty chains to the point of commencement, containing [80] acres, more or less. JOHN A. COULSON,

Dated. March 16th, 1902.

First publication April 4th, 1902.

For sale No. 5 Hydraulic Ram 6 to 10 gallons water per minute, 2 inch drive, 1 inch discharge. See A. L. White 2nd Hand Man.
