

# Boundary Creek Times.

## Great Northern Work Soon to Begin

### P. Welch & Co., Have Received Instructions to Begin Immediate Construction of Grand Forks-Phoenix Branch & Road Will Be Continued to Curlew Through Greenwood and Midway.

J. J. Hill has at last decided to encircle the Boundary district with his line of railway. P. Welch & Co. have received instructions to begin the immediate construction of the road from Grand Forks to Phoenix and it is semi-officially announced that the road will be continued down the Boundary Creek valley, through Greenwood to Midway and on to Curlew where it will connect with the Republic branch. In this way the road will encircle the Boundary Creek district and tap every mining camp in it.

The Great Northern Company will build under the V. V. & E. charter which was acquired some years ago and under which the road has already been built from Cascade to Carson.

The forerunners of railway construction are appearing. Wednesday's train brought in a number of sub-Italian contractors whose familiar faces had not been seen here since 1899 when P. Welch & Co constructed the C. & W. railway. Railway men are clamorous and whether P. Welch & Co. are operating in British Columbia,

Montana or in the East, the same sub-contractors can generally be found working for them. Tony Scarpella was among the first to return to the Boundary. He was here with P. Welch in 1899 and has since been with him on various contracts in other points.

Mr. Welch returned this week to Spokane from St. Paul where he received instructions to carry out the contract awarded his firm some time ago. It will be remembered that when Mr. Hill began the construction of the road from Marcus to Republic through B. C. from Cascade to Carson, it was then announced that the Phoenix branch would be built and that the contract for the same had been awarded P. Welch & Co. Construction on the main line was interrupted by litigation and by the time Mr. Hill had got rid of various forms of litigation which clever lawyers had instituted to impede his progress, the money market was so unsatisfactory that it was decided to postpone further building. It was thought that the adverse decision in the merger suit would further

delay construction but evidently Mr. Hill has decided to go ahead with his Boundary railway at once.

The branch from Grand Forks to Phoenix is an important one since it will put the Great Northern in touch with the Granby enterprises. It will admit of that company competing for the hauling of the Granby Company's ore from its mines at Phoenix to its smelter at Grand Forks, hauling coke from the Crow's Nest Pass coal fields to the smelter and hauling the product of the smelter to the eastern markets.

This branch will follow the Fourth of July Creek to a point near the Athelstan mine, it will then diverge eastward toward the North Fork and creep along that divide until a low pass is reached, thence westward to Eholt and will take the eastern slope of the Boundary Creek watershed to Phoenix. The road through Greenwood and Midway to Curlew will tie on to the Phoenix road at a point near the Oro Denoro mine. The latter road will also be rushed in order that the Great Northern may reach the Green-

wood smelters. This work will be hastened should the Montreal & Boston Company's deal for the purchase of the Dominion Copper Company and other big properties be successfully floated. The Great Northern would then be in a position to haul the ores of Phoenix camp to the company's smelter at Boundary Falls.

Whether Mr. Hill has decided to continue his road westward through the Similkameen has not yet been announced. Word comes from the coast that Premier McBride gives as an excuse for not holding the summer session, that his government is negotiating with Great Northern officials to aid the construction of a Coast-Kootenay line by that company and should these negotiations be successful the necessity of holding a special session to discuss railway matters would be removed.

The announcement that work would be commenced immediately in the Boundary is the best bit of news received here since the days of the C. & W. construction. Old timers remem-

ber the business boom that soon followed the advent of railway contractors. They also remember that P. Welch & Co. had the contract for the construction of the C. & W., that this firm paid its bills promptly and did everything possible to encourage local trade. The members of the big railway firm will be cordially welcomed back to the Boundary. It is understood that Mr. Welch will have personal charge of the work in this district.

While the Great Northern is preparing to invade what has heretofore been C.P.R. territory the C.P.R. is arranging to get into Spokane. D. C. Corbin recently returned from Montreal and while there discussed the construction of the road from Coast to Spokane with the officials of the C.P.R. The survey for the road is being made and active construction is likely to commence this summer.

## A QUESTION OF TIME

### Movement to put the Boundary a Head an Hour

## RAILWAY TIME INCORRECT

### Object to Afford Longer Evenings After Day's Work.

Greenwood is nearly an hour behind time. It is not Greenwood's fault. People don't make their own time in this country. Years ago when we went to school, we were taught how the earth revolved on its axis and how old Sol did his turning in an opposite direction so that when it was high daylight in one part of this earth, it was night somewhere else. The geographies of our school boy or school girl days explained the matter so clearly that every child knew how it all happened. This explanation we once knew, but breathe it not Gath, proclaim it not in the streets of Aske-ton, we have forgotten just how it worked out. This we do know that 24 hours is gained or lost in travelling around the world. Railway companies practically control the time in this country; there are other things controlled by the same railway companies but these need not be discussed here. Now the railway companies regulate time in chunks. As they travel westward they let the minutes take care of themselves and cut off time by hours only. For instance the C. P. R. leaves Montreal on one time and as it gets to Fort William it cuts off an hour, proceeds under the Fort William time to Brandon, cuts off an other hour and goes to Donald where another hour is cut off. Time is not interfered with unless by slides until the coast is reached. The time east of Donald is known as mountain time and the time west of Donald as Pacific time. The change in the South is made at Kootenay landing.

Now all this is doubtless very interesting, but what application has it to Greenwood? Let us see, Greenwood is much nearer Kootenay Landing than it is to the Pacific coast. The earth and the sun arrange things differently from the C. P. R. In the work of re-

volving, time is gradually changed either backward or forward according to the longitude from Greenwich whence time is calculated. It can be

our correct time is nearer mountain time than Pacific time.

The drawbacks of being nearly an hour behind time are many. One is that the evenings are almost wiped out. We sleep in the mornings, the most perfect part of the day and quit work at six o'clock; by the time dinner is over, night comes and the evening is lost. Those who want outdoor recreation during the summer months find no time after dinner.

Ald. Caulfield has discovered a remedy. He suggested that the mining, smelting, commercial and financial centre of the Boundary should set a good example to other parts of the district and make time not for slaves but to suit ourselves. At the regular meeting of the city council Ald. Caulfield brought up the matter and pointed out that by beginning the day an hour earlier work could be suspended an hour earlier and leave a reasonable long evening. The plan met with the approval of the council and a committee consisting of Ald. Caulfield, McKenzie and McNeill was appointed to interview business, mining and smelter men to ascertain their views regarding this matter.

Other towns in different parts of the country have made time for themselves with satisfactory results.

Under the new system six o'clock would come at five of the railway time and seven o'clock in the morning would mean six, railway time. This would get people out a little earlier in the morning but bed time would also come earlier and no one would be cheated out of their share of sleep. If the people here agree to the change, an effort will be made to get other towns in the Boundary to adopt the new time.

Keep your eye on that \$60.00 cash prize at Hunter-Kendrick's.

### A Noted Horseman's Experience.

Mr. Antoine Wendling, owner of Deveras 211½ and proprietor of the Clifton House, Brockville, says no liniment compares with Nerviline for general use around the stable. For strains, sprains, swellings, internal pains and especially for affections of the whirl bone Nerviline is unequalled. Mr. Wendling believes Nerviline is indispensable as a horse liniment; it has strength, penetrating power and works thoroughly. Every horse and stock owner should use Nerviline. Sold in large 25c bottles at the Thomas Drug Co. store.

## HEDLEY SMELTER SITE

### Question Settled Satisfactorily to all

ating the Nickel Plate mine in the Similkameen district. A report from the Dominion government, a smelter site on the Chuchawya Indian Reserve adjoining Hedley City. Duncan Ross, the Liberal candidate in Yale Cariboo returned from Hedley City last Saturday and reports that during his visit there, he arranged on behalf of the Dominion government for the immediate surrender of 148 acres of the reserve to the Daly Company. It is now some time since Mr. M. K. Rogers the manager of the company made application for 194 acres of the reserve. The minister of the Interior felt however that this was more land than was required for smelting purposes and the interests of property owners in Hedley and also other companies who are likely to develop properties in that locality had to be considered. Mr. Ross arranged with Mr. Rogers to accept a lesser acreage and to give an undertaking that none of the land would be used for townsite purposes. The settlement of the difficulty is satisfactory to the people of Hedley and the company, and it is now confidently expected that extensive operations will now be resumed both at the Nickel Plate mine and at Hedley where the company has already erected large reduction works.

## MIDWAY CELEBRATION

### Splendid Program of Sports For Tuesday Next.

As in former years Midway will celebrate Victoria Day. The enterprising citizens of that town have completed arrangements for a grand gala day on Tuesday next. Five hundred dollars has been collected for prizes and some events will be keenly contested. There will be some fast horse racing, base ball matches and athletic sports. The Greenwood citizens' band will be in attendance. Excursion trains will run from all points in the Boundary.

Midway is a delightful spot for a day's outing and there is sure to be a large attendance from the Boundary towns.

On May 24th the dining room of the Crowell House, Midway, will be open from the time of arrival of the special train. Meals and ice cream, made from pure cream, will be served at any time during the day. Visitors from Greenwood will find plenty of room to be all served at once.

## THE COURT OF ASSIZE

### Chief Justice Hunter Presides at Sitting

## IMPORTANT CIVIL CASES

### Are Being Tried—True Bill Found Against Ah Sue.

His Lordship, Chief Justice Hunter, lost no time in getting into motion the rather ponderous machinery of the Supreme Court, sitting as a Court of Assize, Nisi Prius, Oyer and Terminer and General Gaol Delivery. Promptly at eleven o'clock on Thursday last, the Chief Justice took his seat on the bench, accompanied by his honor, Judge Leamy as a guest. After the Grand Jury had been sworn in and had chosen C. Scott Galloway as their foreman, His Lordship briefly congratulated them on the absence of serious crime in a mining community adjacent to the international boundary line, and still more briefly instructed them on their duties with regard to the indictments presented. The Grand Jury retired and applications were then heard by the learned Judge.

The Grand Jury were: C. Scott Galloway (foreman), J. A. Russell, W. Allison, R. D. Kerr, J. G. Laing, S. M. Johnson, T. A. Garland, of Greenwood; J. R. Jackson, Midway; W. W. Craig, Boundary Falls; J. W. McKinnon, Eholt; and Norman McLellan, W. J. Cook and J. C. McGregor, Grand Forks. H. C. Shaw represented the Crown in the criminal cases and the other members of the bar in the Boundary were present to represent various clients. Miss Harris of Rossland was sworn in as official Court stenographer while Registrar McMynn, his deputy Birnie and police officers Dunsmore and Darragh were present in their official capacities.

H. C. Shaw, for H. C. Hanington of Grand Forks, applied for a foreclosure order on behalf of the Standard Loan Company against H. L. McIntyre, Thos. E. Birkbeck and Lionel Birkbeck, an infant. Order granted.

McLeod & Brown, on behalf of Hunter-Kendrick Company, applied for judgment on a claim against Robert

Clark, Ella Clark and the Royal Bank of Canada for principal and interest on a mortgage on lot 717. Order granted.

was stood A. Mac-

A. C. Sutton, on behalf of David Woodhead and A. L. Rogers owners of the Crescent Mineral Claim on Eagle mountain, applied for an injunction against the Hunter-Kendrick Co., B. Lequime, Yale-Columbia Company and others to restrain them from cutting timber and railway ties on the said mineral claim. The learned Judge granted the injunction; the defendants to have the right to apply to dissolve the injunction by giving 48 hours notice.

A. M. Whiteside, on behalf of Price Bros. of Quebec, secured an additional order in connection with the foreclosure proceedings against the Western Copper Company, Ltd.

The Grand Jury not being ready to report in connection with the indictments, an adjournment was then ordered until 2.30 in the afternoon.

When Court resumed at 2.30 the Grand Jury brought in a true bill against Ah Sue but Mr. McLeod, who defended the accused, asked for an adjournment to enable witnesses to get here from Rock Creek. An adjournment was granted until ten o'clock today. The Grand Jury also found a true bill against Louis Dubray but as he failed to appear Mr. Shaw applied to have bail estreated. Mr. McLeod pointed out that Mr. Dubray came all the way from Montana last fall to stand trial, but no assize court was held, that he had returned to work in Montana and that he didn't know whether the accused had been informed of this sitting of the Court, in any case the bail bonds were irregularly drawn. The learned Judge said he would further consider the application on Saturday morning.

In the civil case of Pastillo vs. Albi for the amount of \$798 for work done, the learned Judge held that as the amount was within \$1000, it should have been tried in the County Court and transferred it to that court, the defendant to have the right to select either the June or the August sitting. Mr. Shaw for plaintiff and J. R. Brown for defendant.

An adjournment was then taken until ten o'clock today.

A number of civil cases and the case against Ah Sue were still to be tried when court adjourned yesterday afternoon. Some of the civil cases are lengthy and important and as both Monday and Tuesday next are holidays in all probability it will be late next week before the docket is cleared.

**STOOKE BROS**

Having something else in view offer their well known

**STOCK RANCH For Sale**

**706 Acres**

150 acres suitable for cultivation balance pastures and range.

100 foot hay and cattle sheds. First class fencing.

Extensive Hog pasture—creek running thro—well fenced—pig proof.

Young Orchard just coming into bearing stock at option of purchaser.

50 acres Timothy-Clover-Brome Grass.

Barns all floored—chicken and root houses.

Current prices paid ranchers for dressed meats, etc. Pork 8 to 10c. Beef 8 to 10c. Eggs 35 to 60c dozen. Butter 35c lb. Oats 50c bushel, wheat \$1.00 bushel.

There's Money in Ranching at the above prices—you can't get away from it. There is no section so well adapted to stock raising or fruit growing (as Boundary Creek) that produces so little of what it consumes. Market at your door. The Freight is yours.

The Boundary for the rancher is an empire of its own.

Our market is protected on the East by the C. P. R., on the south by the Custom House, on the West and North by Land limited and undeveloped.

**THE PRESENTMENT.**

The Grand Jury Congratulates His Lordship—Local Needs.

When Court resumed this morning the Grand Jury made the following presentment:

May It Please Your Lordship:

The Grand Jury desire to extend to you a cordial welcome on this, your first visit to Greenwood, and to express our satisfaction at the fact that the Sittings of the Court are being held in such a building as we are now in.

We have examined the building and find that the accommodation provided for the work to be done, and the provision made for prisoners, to be ample, and the whole reflecting much credit on those in charge for the very efficient manner in which it is kept. The grounds around the building are in a very uncompleted state and we would respectfully suggest that a sum be provided sufficient to complete the outside in a manner corresponding with the building and the fact that it is the official home of your Lordship while in the Boundary country.

We have examined the school building and find the same in excellent condition and well fitted for the work which is being efficiently carried on.

The hospital is undergoing extensive alterations and repairs, the authorities in charge taking advantage of the small number of patients at present there; the number is only five, which is a good index of the healthfulness of the district. These alterations and repairs when completed will make the building more suitable for the care of the sick, and the Sisters of St. Joseph of Peace express themselves as being satisfied with the arrangement at present existing between themselves and the Government.

The main thoroughfare or highway of this section follows Boundary Creek, from Greenwood to Midway, and portions of this road have been improved, and are now in good condition. But we beg to draw your Lordship's attention to the section between Boundary Falls and Mr. R. D. Kerr's farm. In this two miles there are no less than six crossings of the Canadian Pacific Railway, some of which are of a dangerous nature, and we would request that, if the ordinary grant is insufficient, an amount to obviate these crossing be recommended.

We would like to draw your attention also to our proximity to the International Boundary Line and the consequent ease with which criminals may escape to a foreign country. We would recommend that Provincial Police

Officers be granted maintenance for their horses, as was the custom a few years ago, so that fugitives from justice may be more readily apprehended.

We trust that your Lordship's stay in the Boundary may be a pleasant one and that you may have an opportunity of seeing the wonderful mineral resources which are responsible for the development that justifies us in calling attention to the requests that appear in this presentment.

C. SCOTT GALLOWAY,  
Foreman of Grand Jury,  
On behalf of self and fellows.

His Lordship thanked the Grand Jury for the satisfactory manner in which they had performed their duties. He appreciated the cordial welcome and hoped that when he laid down the wand of office, that it could be said he had performed his duties in a manner befitting the high position with which he had been honored. He would refer the matters to the proper authorities and then formally discharged the Grand Jury.

The trial of Ah Sue was further adjourned this morning. Mr. McLeod who is defending the prisoner, raised the point that the Grand Jury had been improperly summoned and that consequently the indictment was bad. He held that during the absence of Deputy-sheriff Elkins, J. G. Birnie served the summons and that he was not duly authorized to do so. His Lordship gave H. C. Shaw, the Crown prosecutor, until 2.30 this afternoon to look up authorities on the point raised.

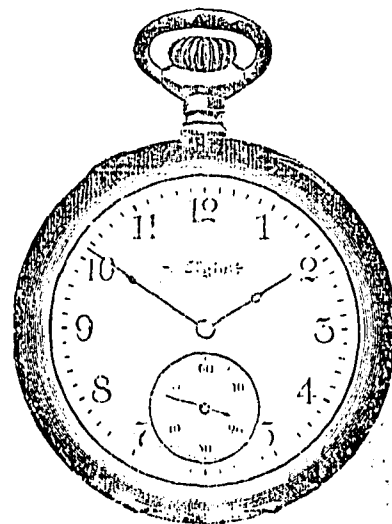

On account of the amount of work to be done here, His Lordship arranged with the solicitors on both sides in the case of Lequime vs. Powers vs. R. A. Brown, to hear the case at Grand Forks on Wednesday next. A large number of witnesses were present from Grand Forks and as the case could not be reached until that date, His Lordship felt that the public convenience would be better served by hearing the case where all the parties interested and witnesses reside.

**A Chance of a Lifetime.**

I have just sold my ranch, and have for sale a number of my choice laying hens, thoroughbred Brown Leghorns and Barred Rocks, also Pekin ducks and turkeys. They are going quickly, get in line while they last. Shall also sell my implements and live stock, (Horses and milch cows.) J. J. Banerman, Boundary Falls.

**SEALED TENDERS**

addressed to the undersigned, and endorsed "Tender for Drill Shed, Rossland, B.C." will be received at this office until Thursday, May 26, 1904, inclusively, for the construction of a Drill Shed at Rossland, B.C., according to plans and specification to be seen at the Public Building, at Rossland, B.C., and at the Department of Public Works, Ottawa, and at the office of Mr. William Henderson, Clerk of Works, Victoria, B.C.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,  
FRED. GELINAS,  
Secretary.

Department of Public Works,  
Ottawa, April 26, 1904.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

**NOTICE OF FORFEITURE.**

TO DAVID BEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district. You are hereby notified that I have expended the sum of \$100 for surveying the above mentioned claim and \$2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, \$51.25, together with all costs of advertising, your interest in said mineral claim shall become invested in me (my co-owner) upon filing in the proper office in that behalf the affidavit required by section 4 of the Mineral Act Amendment Act, 1900.

Dated this 25th day of January, 1904.  
ROBERT WOOD.

**PROVINCIAL SECRETARY'S OFFICE.**

HIS HONOR the Lieutenant-Governor in Council has been pleased to make the following appointment:—  
15th March, 1904.

ARTHUR C. SUTTON, of the City of Grand Forks, Esquire, Barrister-at-Law, to be Official Administrator for that portion of the County of Yale comprised within the Grand Forks and Greenwood Electoral Districts, vice Mr. A. D. McIntyre, whose jurisdiction for the County of Yale is curtailed accordingly.

**Corporation of the City of Greenwood.**

NOTICE is hereby given that the Assessment Roll for 1904 has been returned, and can be inspected by any person having an interest therein until the sitting of the Court of Revision. The first sitting of the Court of Revision on the said Assessment Roll will be held in the City Hall, Greenwood, City, on Monday, the 25th day of April, 1904, at 10 o'clock a. m. Any person desiring to make complaint against his or her assessment must give notice in writing to the Assessor, stating the ground of his or her complaint, at least ten days before the said date.

Special For \$15.00

Special orders taken, six hundred samples to choose from.

## RENDELL & CO.

## DEVELOPING OLD CLAIMS.

B. C. M. & M. Co.'s Properties Among First Located

## IN BOUNDARY DISTRICT.

Will Again Be Developed by Mr. Haas and Associated.

The pioneers evidently knew what they were doing when they located high grade mines near Greenwood. It is now 12 or 13 years since the first prospectors made locations in the Boundary and in those days high grade veins were attractive. Later on mining investors wanted large bodies of low grade copper ore and the high grade claims were overlooked. During the last two years, after William Fowler demonstrated that the quickest and surest way of securing dividends

the Times last week he has bonded the properties on behalf of himself and associates and has already begun work on the property.

The following description of some of the claims was published in the Times in January, 1897, and should prove interesting at this juncture:

On the "D. A." as shown by the plan, are two shafts, one 20 feet deep and one 12 feet deep, and a cross-cut 25 feet long by 12 feet deep, from which ore was shipped to the smelter at Everett and gave a return of \$440.69 for 8,653 lbs., after paying all freight charges, railway and smelter, showing a clear profit of \$110 per ton.

The "G. A. R." has a 20-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silver glance. The finest pieces of silver wire found in Boundary Creek were taken from this shaft. Average assays from different places across the vein gave \$8.00 in gold, 50 ozs. silver; also \$8.00 gold, 150 ozs. silver; and one, the latest return—\$15.05 gold and 196 4-5 ozs. silver per ton. On the "Big Ledge" is a 10-foot

gave, gold \$1.50, silver 16 1-4 ozs., copper 11.96 per cent., or \$40.44 for all values.

The "Fred. D." was located in December, 1895, more as ground for a basis for mining operations for other claims than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

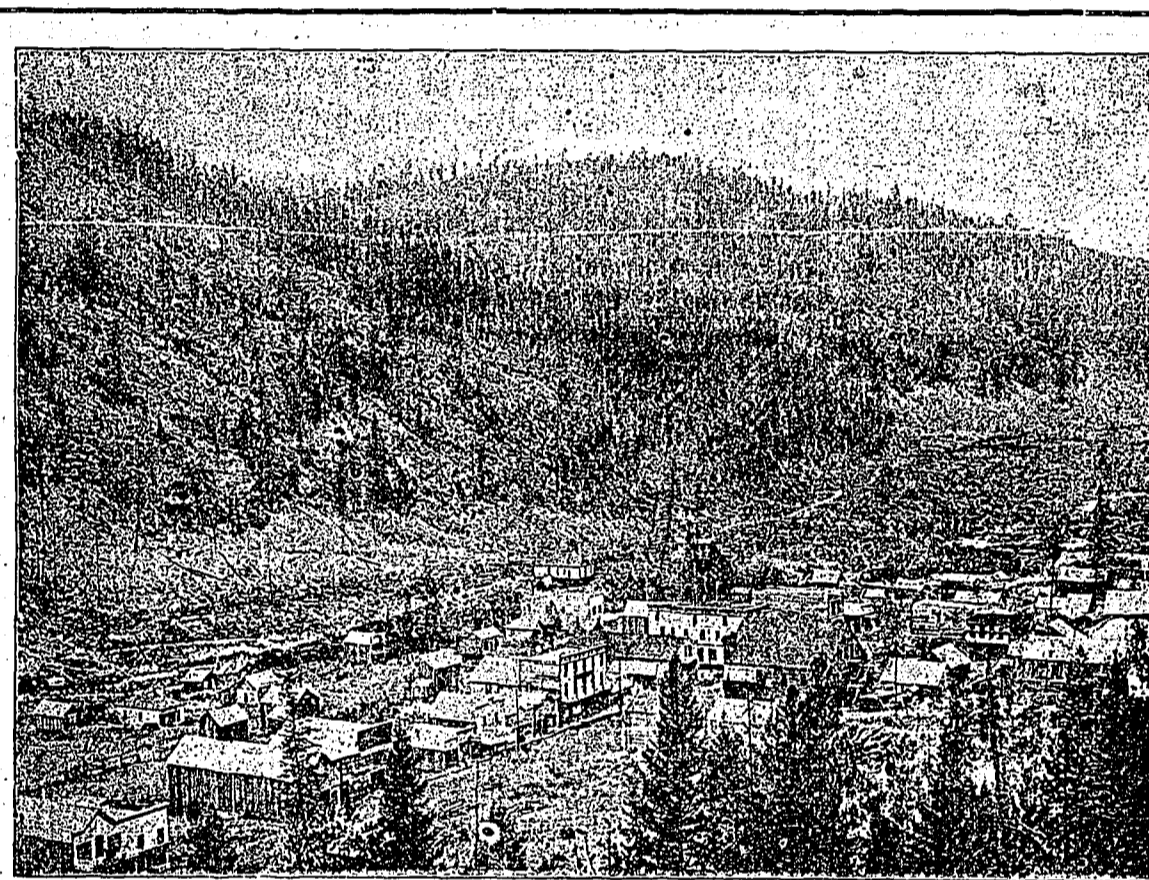

The "S. F." lies between the G. A. R. and D. A., in the direction of the strike of the G. A. R. vein. The location has been made on a vein of pyrrhotite.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet on the latter claim. The ore carries a considerable percentage of copper, and \$10 in gold.

### When You Need Physic

Get a box of the old reliable Dr. Hamilton's Pills of Mandrake and Butter-nut, which loosens the bowels without causing griping pains. No remedy is half so satisfactory as Dr. Hamilton's Pills. Price 25c. at Thomas Drug Co.

The Providence Mining company has authorized the payment of a third dividend of ten cents a share. As the par value of Providence stock is \$5.00 this will give a 2 per cent dividend.

GREENWOOD IN THE EARLY DAYS.

The above cut of Greenwood was taken years ago or at the time the B. C. M. & M. Co. was incorporated. The properties of the company are on the hill above the city.

in the Boundary was by developing high grade mines, there has been a brisk demand for properties of this class and several near Greenwood are being worked with gratifying results.

It is now over seven years since the Boundary Creek Times ventured an opinion that the Boundary Creek Mining & Milling Company would become a dividend payer. This statement was based upon the fact that there were some splendid showings on the several properties of the Company and conditions were favorable to the profitable exploitation of the Company's mines. That was an honest expression of opinion on the part of the Times, but like many another honest opinion in reference to mining ventures, it did not bring dividends to the shareholders in the B. C. M. & M. The Company passed through several financial crises and changes of control until finally its claims became the property of the bank to satisfy a judgment.

But in mining the properties are not always to blame for disastrous financial conclusions. The B. C. M. & M. Co's properties are still as promising as they were eight years ago and one of the pioneer mining men, J. C. Haas, M. E., has decided to give them another chance. As was stated in

quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and runs into the main ledge as a spur. Average assays gave \$33 gold and 1 1-2 ozs. silver, and \$49.35 gold, 17 1-2 ozs silver, and 2 per cent. copper. The "O. B." has two distinct veins; one 25-foot wide which, from its strike and general character, would seem to be the same vein as that on the Big Ledge, although sufficient work has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from \$4.00 to \$170.53 while a conservative sampling by Mr. S. S. Fowler, M. E., gave \$20 in gold.

On the "D. A." is a vein about 20 inches wide, with a pay-streak of 4 to 12 inches; from this the 8,653 lbs. of ore was shipped to the smelter, giving \$103.15 gold per ton, silver 74 7-10 ozs., and 2 per cent. lead. On the same property is a larger vein (quartz) carrying galena and pyrites, on which no work has been done.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay

### THE STRONG AND WEAK.

Conservatives who are still hopeful that their party has a chance to win in the next general election should visit Ottawa during the session of parliament and they would soon become convinced that only by the miraculous intervention of Providence could the once great party become dominant in this country. The first thing that impresses the visitor to parliament is the strength of the Liberals under Sir Wilfrid Laurier and the apparently hopeless weakness of the Conservatives under Mr. Borden. One cannot listen to the debates nor watch the proceedings of the house, without becoming impressed with the remarkable contrast between the two parties. Sir Wilfrid has fully recovered from his illness and is stronger physically today than at any time in recent years; and never had he a stronger grip on his followers. The affection for the leader after seven years of power is remarkable. It is natural to suppose that during that time there should be some malcontents but they cannot be found on the government side of the house. This was demonstrated in the closing debate on the Grand Trunk Pacific bill. During the long night the speakers were backbenchers who were anxious that their constituents through Hansard should have the benefit of their views on this project. The members were surfeited with opinions on this question and were anxious for a division. Only a bare quorum was present in the house until Sir Wilfrid rose to close the debate. Then the seats were rapidly filled and for three-quarters of an hour there were such scenes as are seldom witnessed in the House of Commons. The speaker was no sick man. It was the happy, buoyant, eloquent Sir Wilfrid of the olden days when he could rouse his hearers to the greatest enthusiasm by his matchless eloquence. No wonder his supporters went wild with

delight, no wonder that men like big "Bill" Galliher and equally big Bill McCreary, whose recent sudden death is lamented by the people all over Canada, serious men like Frank Oliver, reverend men like Dr. Douglas, solid business men from Ontario, enthusiastic Frenchmen from Quebec and hardened veterans from the Maritime provinces should use their desks for thumping tables and cheer to the echo the utterances of their leader. Even the galleries where demonstrations are vigorously tabooed by the uniformed officers of the house, would have applauded if they dared. The subject matter of the Premier's speech and his inimitable delivery would have been sufficient to stir the blood of his followers but this was not the chief cause of the remarkable demonstration. Intentionally or not the Conservatives had been exploiting the Premier's illness for party advantages. "Sir Wilfrid is a doomed man" could be heard in tones sympathetic, it is true, followed by "there is no other man who can so successfully lead the Liberal party." The graceful form, the strong distinct voice, the subtle sarcasm, the powerful argument and the lofty sentiment gave the direct lie to this suggestion. The men behind him were convinced that here was a man who could lead the party to victory, here was a man who had not lost his grip on the party nor on the people of Canada and who could again sweep the country with policy that means so much in the developing of its natural resources and the upbuilding of a great Canadian nation. No wonder then that his followers should go fairly wild in the exuberance of their enthusiasm and be responsible for a demonstration such as is seldom seen in the house.

On the other side, the Conservatives are weak in numbers, weaker in leadership and still weaker in debating ability. Mr. Borden is a nice man but the party is still under the blighting influence of the nest of traitors. There are men on the Conservative side of the house who believe that they could make better leaders than Borden and who are not giving him that cordial support that is so necessary in the building up of a great party. The majority of the Conservative members and possibly Mr. Borden himself is cursing the ill fortune that placed them in opposition to national projects, such as the people enthusiastically supported in the days of Conservative strength. They know that Canadians like big undertakings, big schemes for the development of the country and they realize that the people will heartily endorse the Grand Trunk Pacific scheme. Mr. Borden and his followers find themselves driven into opposition

to a national project by their political bedfellows, the friends and directors of the Canadian Pacific Railway, who are in the house and they realize that their antagonism is only postponing the day of their return to power.

The House of Commons reflects public opinion of the country. The Liberal government is stronger today than in 1900 and its return to power is absolutely assured.

### VACANT SENATORSHIP.

In a few days the Government will probably announce the appointment of Hewitt Bostock to the vacant senatorship. While a number of good men are applicants for the position, the Government cannot pass over the claims of Mr. Bostock. He it was who first won Yale-Cariboo for the Liberal party and after four years of good service he voluntarily retired to private life. Mr. Bostock was one of the hardest working members of parliament and never lost an opportunity to advocate the interests of the large constituency which he represented. Ingratitude is not unknown in political life but it is scarcely possible that faithful service such as Mr. Bostock gave the country and the Liberal party will be rewarded by the appointment of some one else to a position which he has earned and in which he can continue his good work for the country and particularly for the interior of British Columbia.

### HEDLEY.

The final settlement of the smelter site difficulty at Hedley means much for that busy town and the Similkameen district. The Daly Reduction Company has already expended over a million dollars in the development of the Nickle Plate and adjoining mines and in the construction of large reduction works. Now that the Company has secured a good smelter site adjacent to the town of Hedley, it will continue extensive operations. The Nickle Plate mine is easily one of the richest in the Province and as the Company owning the mine has unlimited capital and a management accustomed to carrying on mining on a large scale, the outlook for Hedley and the Similkameen district is very bright.

Just arrived, a nice new lot of Spaulding's Sporting goods. Baseballs, bats and mits, etc. At A. L. White's, the Second Hand Man.

### Bedding Plants

Mrs. Isaac M. Bernard will have for sale after May 1st, all varieties of Bedding Plants, suitable for this climate, also a nice variety of house plants. Orders may be left at the Greenwood Fruit Co., Copper St., or at residence.

**A Case of Partizan Politics**

**Phoenix Has No Municipal Council Thanks to McBride Government.**

The introduction of partizan party politics by the McBride government even in the appointment of license and police commissioners has created much trouble for the government and engendered bitter municipal strife in several of the cities of the province. This is particularly true in Phoenix where five of the aldermen resigned as a protest against the action of the government in connection with the administration of police affairs. As the government persists in accepting the advice of a small clique of partizans in Phoenix, rather than the advice of the great majority of the electors who gave the government candidate loyal support in the recent campaign, in all probability no council will be secured and the city will suffer in consequence.

The circumstances leading up to the present unfortunate state of affairs are briefly as follows: The Chief of Police of Phoenix was accused in the police court of a breach of the peace. The magistrate who is also a police commissioner, dismissed the case. The majority of the aldermen who heard the evidence, insisted on the dismissal of the Chief of Police and the resignation of the police magistrate, but the police magistrate and the mayor refused to carry out the wishes of the council. Five out of six of the aldermen resigned and protested as strongly as they could to the government but the government listened to the representations of the mayor and took action in accordance with his views.

The aldermen who resigned are backed up by public opinion in Phoenix, three of them are Conservatives and supported Mr. Fraser in the last campaign. They refuse to accept office until the wishes of the people of Phoenix are complied with and as there are but few other residents of Phoenix duly qualified for the office, the present ruinous state of affairs is likely to continue until the government sees fit to meet the wishes of the public rather than pander to prejudices of a small political clique.

Had the government followed out the old policy of accepting the recommendations of the council in the appointment of police commissioners, it could have saved itself much trouble; the administration of police affairs in several British Columbia towns would not have fallen into disrepute and places like Phoenix where the members of the council worked as one family in the interests of their town, would not be cursed by bitter municipal strife.

Steve Irwin, who was superintendent of construction in the Boundary for the V. & N Telephone Company, has been appointed manager at Rossland for the Company. Steve knows the telephone business in all its details and as he is obliging and popular with the public, he is sure to make as many friends in Rossland as he leaves in the Boundary.

Geo. C. Hodge, general superintendent of the V. & N. Telephone Company, was over from Nelson this week.

Sullivan and M. McMynn, Free Miner's Cer-  
tificate Nos. B80,266; B80,265, and B80,182 re-  
spectively, intend, sixty days from the date  
hereof, to apply to the Mining Recorder  
for Certificates of Improvements for the pur-  
pose of obtaining Crown Grants of the above  
claims.  
And further take notice that actions, under  
section 37, must be commenced before the is-  
sue of such Certificates of Improvements.  
Dated this 7th day of September, A.D., 1903.

**West Fork Railway**

Ralph Smailes, the representative of the West Fork Railway  
company who was in England during the winter is at present in  
New York. It is understood that he has arranged for the im-  
mediate construction of the railway from Midway to Vernon. Par-  
ticulars of the arrangements made are not yet to hand, but more  
definite information will be made public upon the return of Mr.  
Smailes from the east. The railway will be 115 miles in length  
and will open up the rich West Fork mining district besides con-  
necting Okanagan farming district with the mining district in the  
South. The road has been subridized by the Provincial govern-  
ment for \$4,800 per mile and by the Dominion government, for ap-  
proximately \$6,400 per mile.

The construction of this road and the Great Northern will  
certainly make busy times in the Boundary during the coming  
summer.

**Progress in Merger.**

H. T. Pemberton, general manager of the Montreal & Boston  
Company, returned yesterday from Spokane. He reports that the  
details in connection with the big merger are being successfully  
worked out and that the lawyers are now engaged in making the  
necessary transfers and inquiring into titles. He hopes to be able  
to report the final completion of the big deal at an early date and  
the resumption of operations at the smelter and mines of the  
Company.

# Items of Town and Country...

What is Going on And Being Done by People Who Inhabit the Great Boundary Country. e e e e e

Fresh bread daily at Galloway Bros. Mr. Thurston of the Carmi was in the city this week.

Alex. Robinson is doing some work on the Tribby claim in Skylark camp.

The best oranges, lemons, and fruit in season at Galloway Bros.

It is reported that Major Megraw is going to start a weekly newspaper at Hedley city.

The Provincial Government has gazetted Monday 23rd a public holiday as well as the 24th.

H. B. Munroe left on Tuesday last for St. Louis where he will join the Canadian Exhibition staff.

The McGill University students who are studying B. C. mining under the direction of Dr. Porter are expected here tomorrow.

F. M. Elkins has returned from a holiday trip to California. Mrs. Elkins who accompanied him, remained in Vancouver to visit friends there.

The announcement is made that the West Fork road is to be completed. This is the tenth time this announcement reached those anxious to see the work completed.

A. D. McLennan of Rock Creek was in the city this week. He reports that the farmers have enjoyed first class seeding weather and that the most of them in his district have finished this important work.

The Roderick Dhu which has been under bond to a local syndicate composed of Dr. Spankie, Dr. Gordon, Dr. Simmons, Thos. McDonnell and others has been rebonded to the B. C. Copper Company. Considerable work was done on the claim last fall and a fine showing of high grade ore was uncovered. The B. C. Copper Company desired the ore for converter linings and rebonded the property at a higher figure. The ore will be hauled to the railway at the old Burns' slaughter house siding. Four men have been put to work on the property.

A. Portman of the Elkhorn Brewery is enjoying a holiday at Halcyon Hot Springs.

Frank Richler of Keremeos has returned from Pullman, Wash., where he purchased a beautiful Pecheron stallion for his fine ranch.

Good progress is being made in the erection of the converter at the B. C. Copper Company's smelter. Additional machinery is being put into place.

"A Thoroughbred Tramp" amused a large audience at the Auditorium on Wednesday last. The play itself is full of funny situations and the specialties were clever.

New line just received, "selling cheap": bird cages, child's baths, graniteware, "screen doors," poultry netting or anything else to a litter of kittens. See A. L. White, New and Second Hand Store.

For Sale—Good saddle horse and cheap pack horses also a good 2700 pound work team, light and heavy wagons, carts and a black dress with 2nd hand marriage license. A. L. White, 2nd Hand Man.

Delicious cream puffs, cakes and pastry at Galloway Bros.

Karl Nelson an old time resident of Greenwood returned this week from Whitefish, Mont., where he is engaged in business. Mr. Nelson has valuable mining interests in the Boundary and after arranging to have assessment work done on some claims will return to Montana.

Mr. and Mrs. M. E. Frazee and Miss Laona left this week for Vancouver where Mr. Frazee will engage in business. He was one of the pioneer merchants of the Boundary and by careful attention to business made considerable money here. Their many friends in the Boundary will wish them every success in the larger city.

New drop-head Singer sewing machine, \$50.00, at Clint's, Copper st.

J. M. McCloskey, the Phoenix miner who lost his eyesight in an explosion in the Knob Hill mine and who gave entertainments in various towns in the Boundary, has organized a strong Comedy Company who will appear here on Monday next. The Company is said to be a very clever one and has received flattering notices wherever it appeared. The entertainment itself is well worth the prices of admission and a full house is expected as the Boundary has never been slow in showing its sympathy for the man in making a brave struggle to make a living notwithstanding the terrible calamity which befell him in one of the Boundary mines.

Boundary Valley Lodge, I. O. O. F., were at home to a large number of friends and outside visitors in their lodge room last evening. Mayor Naden presided. Refreshments were served and a programme of songs, instrumental music and short speeches was carried out. In addition to brief addresses from local men, J. D. Spence and J. A. Dunsmore of Grand Forks, congratulated the lodge on its success and thanked its members for their wholesouled hospitality.

Among the barristers attending the sitting of the Court are J. A. Macdonald, Rossland; W. H. P. Clement, J. D. Spence, A. Harrington, A. C. Sutton, Grand Forks; R. B. Kerr, Phoenix.

Mr. John H. Peet, one of the directors of the Providence mine near Greenwood, has just returned to Spokane from a trip to the property, and reports that work is moving along rapidly and the mine is looking in the best shape, says the Spokesman-Review. Mr. Peet said: "The shaft is now down about 325 feet and we are drifting off, and have just struck some more and better ore than we had before. The vein has widened about 10 inches, and is now about two feet wide. The property is showing up much better than we expected. We have just let a contract to sink 100 feet more, and are figuring on putting in electric drills. We have electric air fans, and the mine is lighted with electricity. We have a big blower in the blacksmith shop and all the machinery to run the mine until we get to the 500 foot level, and this will be increased as we see fit. The ore we are now in is a very high grade and will assay about \$500. The camp never looked better than now, and Greenwood will see a good year. The E. P. U., the Tribby and the De-fiance have started work, and all the properties will begin as soon as the weather will permit."

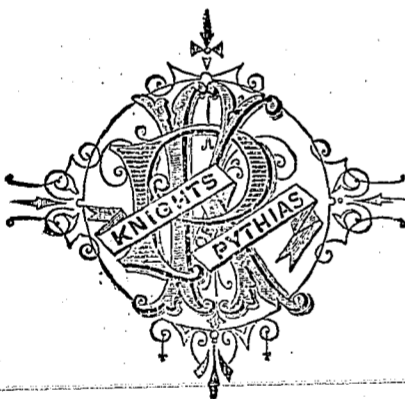

### Young Ladies, Read This.

If you are bothered with pimples, rashes or ugly blotches on your face, if your complexion is sallow, it's an evidence that you require Ferrozone to tone up your blood. One Ferrozone Tablet taken at meals makes the complexion like peach bloom, cheeks soon become rosy, eyes bright, you'll be the picture of health. Thousands of ladies keep up their youthful appearance with Ferrozone, why not you? Price 50c. For sale by the Thomas Drug Co.
