SEPTEMBER SALE

We are putting on a Special Sale commencing

SATURDAY, SEPTEMBER 5th, making big reductions in many lines of

DRY GOODS, BOOTS & SHOES

Don't fail to take advantage of this Money Saving Proposition.

Terms of Sale - - - CASH,

See Handbill for particulars.

RENDELL & CO

Dry Goods. Millinery

The New Lid

Mallory Cravenette Hats are favorites with men who take a self-respecting pride in their personal appearance. They always look well for they are fashioned in the newest and most stylish shapes, are made of the best hat material by skilled workmen, and are rendered weather proof by the famous cravenetting process.

That is why Mallory Cravenette hats not only look well when you buy them, but they stay that way. They do not spot from rain drops nor run in the wetting of a downpour; and they do not fade and look shabby from sunlight. They please the most fastidious and most economical by their double qualities of look well and wear well.

Mallory Hats are Union made.

The price of a Mallory Hat is $4.50.

You can secure one from

P. W. GEORGE & CO.

The only Exclusive Dealer in Men's Wear in Greenwood

CITY COUNCIL.

The regular bi-weekly deliberations of the city fathers were held on Monday evening with the chair of Ald. Meyer vacant.

A letter was read from the Pacific Coast Association of Fire Chiefs requesting the attendance of the head of the Greenwood fire company at their annual convention. Received and filed.

The application of J. B. Desrosiers and others was referred to the chairman of the waterwork's committee, he to ascertain the cost of the extension asked for, and to inform the applicants as to the amount they would be required to pay to guarantee 15 per cent on the outlay.

It was recommended that E. W. Bishop be paid $100 on account and balance to be referred back to Mr. Bishop for further information.

The Mayor reported that the Phoenix Water Supply Co. were repairing the damage on Providence Creek.

The fire and light committees reported that the fire chief recommended that the insurance for men be laid over for the present. He also reported that all buildings would be inspected this week.

Alderman Mortimer asked leave to introduce by-law 132, which was granted on motion of Aldermen Fleming and Gulley.

On motion By-law 132 was giving its first and second reading.

It was moved that the council go into committee of the whole to consider By-law 132. The council rose and reported By-law 132 complete as amended. Moved by Ald. Mortimer seconded by Ald. Fleming that the By-law be read a third time—carried.

Ald. Sutherland asked leave to introduce a Streets Regulation By-law 133; and on motion of Ald. Fleming and Gulley leave was granted. The By-law was read a first and a second time.

The council went into committee of the whole to consider By-law 133. The committee rose reported progress and asked leave to sit again.

A Useful Life Ended

A. F. Adrian Meyer, customs officer at Vernon, and father of Alderman Meyer, of Greenwood, passed away at his home in Vernon on Sept. 1st.

Mr. Meyer was a travelled and cultured man and had spent many years in the Orient.

For services in connection with the educational system of Japan he was honored with the title of Count of the Empire. He is survived by a widow and three sons.

Cricket Match.

The Myncaster Cricket club who visited Greenwood on Saturday and Sunday last were entertained by the local club at a very enjoyable smoker on Saturday evening and played the Greenwood boys a well put up game the following morning.

The score of 53 to 78 was in favor of the home team, though they had their work cut out for them to make it.

Morey of the visitors is an exceptionally good bat, and the bowling of Somer in the first innings was effective.

However, the stalwart batting of J. L. Coles and the sharp work of the Greenwood field showed the visitors that they need more practice.

The Myncaster boys are a fine looking bunch of men, and are quite capable of giving the Greenwood team or any other local cricket eleven a hard race in a game.

It is reported that W. A. Galliher, M.P. for Kootenay, Hon. Thos. Greenway, of Manitoba, and Darcy Scott, Mayor of Ottawa will be the additional appointments to the board of Railway Commissioners.

FARMERS ORGANIZE

CORRESPONDENCE.

The ranchers in the Boundary district are realizing the value of co-operation, and taking a leaf out of the book which their cousins across the line have found it so profitable to follow, are forming associations for the advancement of their several localities.

Mycaster led the way and on Wednesday night Bridesville followed suit, and on Saturday week a meeting will be held at Rock Creek (which is between the two) with a similar object in view.

Despite the fact that it was called on short notice the Bridesville meeting was well attended by the ranchers of the neighborhood, and it was decided to institute a Bridesville branch of the Farmers' Association of the Boundary country.

Mr. Ed. Stiles was elected to chair and Mr. A. B. Sowter, the founder of the Myncaster branch (who attended with Mr. G. N. Leach to represent Myncaster), explained the objects of the meeting.

They wanted, he said, co-operion among the ranchers in the Boundary district in order that they might buy in the cheapest market and sell in the dearest, and they hoped to form kindred associations in other parts of the country. Farmers labored under many disadvantages in this part.

When the line was taken through they would have a permanent market; but they must induce the Railway Commissioners to revise the present classification on lines parallel with those in operation in the State of Washington.

The Boundary district had the mountain rate, which if maintained will leave them unable to avail themselves of the future coast market or those to the eastward because the American by reason of his better rate could knock their prices even taking into consideration the duty, and when the elections came they must fight for an alteration of that state of things.

The formation of such an association would enable them to unite in the purchase of agricultural implements. Most of them had to buy their things through territorial agents, but, when banded together they would have a financial standing which would enable them to get better terms.

That principle might be applied to groceries and other commodities. Already Americans from around Chesaw had cut into the local markets, and had they of the Boundary district been banded together, they might have secured certain contracts which they had lost.

Mr. R. W. Taylor, a prominent rancher in the district, was unanimously elected president of the local branch, with Mr. Stiles, secretary pro tem. and committee as follows:

D. McBride, C. Charlton, M. Charleton, Mr. Kingsley, J. Johnston, J. Ingram, F. Schorn.

A discussion followed in the course of which the vicinity of the revision of the freight rates was emphasized, the opinion being expressed that this should be one of the first objects of the association.

Mr. C. Charlton urged the necessity of getting a duty on grain and hay equal to the American duty.

It was mentioned that it was cheaper to ship hay from Oroville to Ferry than from Midway to Greenwood.

Mr. Case said that the farmers in the district could make good prices but the profits were taken away from them in various ways and largely by the middlemen.

The merchants dictated the prices and that was where the advantage of an association like that would come in.

All people who owned land should be belong to the association, and one of its objects should be to do away with the intermediary.

It was decided to hold a general meeting of the club at Bridesville on Saturday, September 12.

Still at Large.

During the past week many and varied rumors concerning the capture of the Midway murderers have circulated through the daily press.

Beyond the fact that posses are still out on the hunt there is nothing to those reports.

Here on the ground, those who are familiar with the situation have sifted things down, and it is their opinion that when the highwaymen are caught and brought in, which it is earnestly hoped will happen, it will be found that they might have been captured in their beds in Greenwood hotels days after their first deeds of violenee were committed.

Presbytery of Kootenay

The Presbytery of Kootenay is in session this week at St. Paul's church, Nelson, with the following personnel in attendance:

Rev. J. F. Ferguson, Moderator; the Revs. J. M. Millar, Nanaimo, Moderator of the Synod of B. C.; G. A. Wilson, Home Mission Superintendent; Mr. Lundie, Phoenix; Mr. McLeod, Grand Forks; H. R. Grant, Fernie; W. R. Ross, Midway; M. D. McKee, Greenwood; Mr. Kenmure, Slocan; Mr. Chalmers, New Denver; Mr. Simpson, Kaslo, and student missionaries, Messrs. Rose, Cascade; Leslie, Hosmer, and Kerr, Ainsworth.

Boundary is Best Yet

Spencer Bennerman and Fred Moser who left here last spring to prospect in the Sturgeon Lake country in New Ontario, have returned to the Boundary.

Mr. Bennerman reports very little activity in mining in that section.

He says that Mike Kane is doing development work on his iron properties near Sturgeon Lake.

Mr. Bennerman brought back some very fine specimens of gold ore from his own claim in the Ontario mineral belt.

C. P. R. Strike.

A crisis is approaching in the mechanics strike on the Canadian Pacific Railway. It is understood that the committee now in session in Montreal, representing all the orders and unions to which the employees belong, have given the company this week to decide whether it will meet this committee in conference with the object of settling the strike or the entire system is to be tied up.

The committee in Montreal represents not only the mechanics, boilermakers and carmen on strike but also the engineers, trainmen, conductors, and firemen.

Former Master Mechanic Cross, of Winnipeg, is now in England, having been sent there by the company to hire mechanics.

It seems to be a fight between the unions and the Canadian Pacific, the company having made up its mind to test its stregth.

Ash Kennedy, representing the Brotherhood of Railway Engineers, is the head of the committee. He is a man of great influence with the unions, having been instrumental in settling the strike on the Canadian Northern Railway a year ago.

MINES RESUME, TO SMELT NEXT WEEK

The Brooklyn, Rawhide, Mountain Rose and Sunset mines of the Dominion Copper Co. are all working.

At their smelter at Boundary Falls they have received 15 cars of coke from Nelson and a few cars from the coast.

They have 1,500 tons of coke on the road, and will blow in all their furnaces early next week.

It is expected that a steady supply of coke from the Crow's Nest ovens will very soon be resumed, and fair winds will again prevail for all the smelting interests in the Boundary.

1860-1908.

Mr. James Copeland, rancher and miner of Bridesville, was a guest at the Pioneer hotel on Monday.

Mr Copeland came to the Boundary Creek in 1860 along with 600 other argonauts, and he is still in the mining business, being the owner of the Le Roy claim on the Forks of Rock Creek.

In those early days the nearest post offices were at Walla Walla and old Fort Hope, and placer gold was all that appealed to the daring frontiersman.

Since the advent of the railroad with the consequent settling of the arable areas by the farmer and the fruit grower, the district is experiencing a rapid change, and it is interesting to hear the old-timer drift away from the reminiscent to the practical developments of the present, and enthusiastically dilate upon the crops of hay and grain and vegetables and fruit that are now produced on the sunny slopes and valleys of the Boundary country.

Smashed the Rig.

While on the war-path after the highwaymen, Constable Aston, of Midway, tied his horse to a fence a short distance below Anaconda.

A passing train frightened the animal with the result that the buggy was demolished and the horse was slightly injured.

Remember the close season for Willow Grouse during the month of September. Prairie chicken are protected until next year.

Police Protection.

C. L. Thomet is dead. One of the bravest of the brave, he died trying to defend his own against a couple of murderous bandits from across the line. Under the boasted protection of the British flag, Charlie Thomet should have had a fair show for his life but under the police protection furnished by a paternal government in this province he never had a chance. Charlie Thomet's life seems a terrible price to pay in order that attention might be called to the criminal neglect on the part of the authorities in this province. At one time we had along the international Boundary line a police force that upheld the majesty of British law, and the lawless kept on their own side. Under the police system today the good men have been starved out and those that remain are given no encouragement.

No greater crime could be committed against Southern British Columbia than to allow the impression to go abroad that violence can be committed here with impunity.

The death of Charlie Thomet is but the culminating event in a long series of crimes all of which went unpunished through the inefficiency or inadequacy of the police force.

A brave man tried to do what the police should have done months ago. It is an awful price to pay but the cost will not be too great if Charlie Thomet in his courageous death has taught the authorities of British Columbia that law and order must be maintained in this country without regard to the cost entailed.

Labor Day at Phoenix.

The Labor Day celebration at Phoenix promises to be the most important athletic event of the season. There will be putting the shot, the broad jump, a drilling contest, and many other features.

With the stalwart miners representing the four corners of the earth, not forgetting Nova Scotia and The Island, the Phoenix games should be a competion of athletic prowess that will be remembered in the Boundary country.

BOUNDARY ORE TONNAGE

September 4, '08

The following table gives the ore shipments of Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 as reported to the Greenwood Times—

FRIDAY, SEPTEMBER 4, 1908

The depression of business which has been so severely felt all over the civilized world is slowly but surely passing away.

In Canada the wheels of business have already resumed their normal speed.

In some of the principal centres the bank clearings have even exceeded the figures attained during the days of unexampled prosperity.

Our exports and imports have commenced to expand in harmony with the general tendencies of trade.

The Federal revenue is increasing and will show a satisfactory surplus at the close of the fiscal year.

The splendid harvest and the continuation of the great works of development has placed the country in a position that commands the attention of the world, and the future of the Dominion looms bigger and brighter at the present time than it ever did before.

The Nelson Daily News says: "La Patrie, the Montreal organ of Sir Wilfrid Laurier is the first to enter the field as a prophet with regard to the coming elections. This paper prognosticates that the result in British Columbia next time will be, not a solid seven, but three liberals and four conservatives! This is all very well for a starter, but they will have another guess coming later on."

We are inclined to think so, too. A presbyterian elder would take that bet, Bro. News.

Any back-east editor who doesn't know that British Columbia will send at least five Liberals to the next Federal Parliament is not acquainted with the situation.

The undignified and ridiculous squabble between the Minister of Education and various school boards over the design of the flags to be flown over school-houses in B. C., has, it is hoped, come to an end through the practical withdrawal of the minister's mandate. A custom has grown up in Canada of using the flag of the merchant marine plus the national coat of arms—a design which is so natural and graceful that it has been adopted by common consent, but which violates in some mysterious way the silly pedantry of heraldry. The minister essays to correct what is, from the point of view of heraldry, an offense to propriety; but the design has become too firmly established to be easily displaced. His best course now would be to quietly close an incident that is sure to give rise to misunderstanding abroad and to create a mild scandal in the eyes of the world—Keremeos Trumpet

---

The rains of the past week have put the forest fires under control, and no further trouble is expected from that source during this year.

While they lasted they played havoc with the standing timber of the Boundary country, and we would urge those who have charge of such matters to be in readyiness to prevent a recurrence of the misfortune when the next dry season comes around.

It is a regrettable shame that fire should be let destroy more timber than the logger's axe.

A more efficient system of forest patrol is badly needed in British Columbia.

THE ROSS RIFLE.

The British newspapers report with surprise the very notable successes with the new Canadian Ross rifle and ammunition in the hands of a hitherto unknown marksman, F. W. Jones, of the National Rifle Association, of London. He carried off first in the Edge match for prizes aggregating $250 contributed by Major Edge. This is the stiffest of the long-distance matches, the contestants firing fifteen shots at 1,000 yards. Jones scored 73 out of a possible 75 at each range, his total being six points above the best previous record. In the Halford Memorial match he won first with fifteen bulls, or a possible 75 points at 900 yards, and 72 points out of the same possible at 1,000 yards. In the Waldegrave match at 800 yards he won second with 98 points out of a possible 100. Quite the most important victory of the contest was the winning of the Hopton challenge cup, which is given for the highest aggregate score in six matches—the Edge, Halford, Waldegrave, Albert, Bass and Wimbledon. In these Jones made an aggregate of 716 points out of a possible 750, beating the previous records by 20 points.

The Times, Daily Express, Daily Mail, Chronicle, Standard, and Daily News all speak in enthusiastic terms of what they call the victory for the Ross rifle from Canada, which made an unexpected and altogether successful appearance and excelled all the field of the world's rifles, so that as the Morning Post says, "our own Lee-Enfield is apparently lagging behind in the great race of modern small arms," and the Times adds: "It is a pleasure to refer to a rifle that has been much in evidence and can claim to have been designed, manufactured and used as a service weapon within the limits of the empire."

DEEPENING CHASE'S RIFFLE

The Dominion Government dredge, which has been stationed at Salmon Arm for several months dredging the channel to the new wharf just constructed there by the federal government, was towed down to Chase's riffle, Shuswap, last week and will at once be set to work to improve the conditions existing at that point so as to ensure safe and easy navigation at all stages of water. It is intended to cut two channels through the gravel, the full length of the riffle, each cut being 60 feet wide and giving a depth of eight feet at low water.

The need of this work is apparent to all who have made the trip up the South Thompson, and it is easily one of the best and most useful moves made by the department concerned in this section. The work will be carried on by Jos. Johnson under the direction of F. W. Aylmer, dominion engineer.

The riffle and the Little river, the latter connecting the Little and Great Shuswap lakes, constitute the most serious obstacles to navigating the South Thompson during low water, and it is satisfactory to note that Duncan Ross, M.P., is seeing that the money appropriated for improving the navigation of the Thompson rivers is being used to good advantage.—Inland Sentinel.

Provincial Items.

The new converter building of the Granby smelter is now under construction.

The Covert estate, Grand Forks, will this year produce twenty-five car-loads of fruit.

Recent reports from the new placer diggings in the Ingenika country are unfavorable.

Miss Megraw, of Hedley, is on a holiday trip in the East.

Mr W. W. B. MacInnes will contest the city of Vancouver in the interest of the Liberal party.

No. 1 tipple of the Middlesboro Collieries, Nicola Valley, was destroyed by fire, the loss approximating $15,000.

Rev. G. A. Wilson, of Vancouver, Superintendent of Missions, will open the new Presbyterian church at Keremeos on the first Sunday in October.

The many friends of Mr. and Mrs. B. A. Shatford, of Penticton, will sympathize with them in their loss of their two little baby girls.

A valuable strike of free-milling gold quartz has been made on the Granite-Poorman group five miles west of Nelson.

Wm. C. Gates, Swiftwater Bill, has made another stake. He is said to have made about half a million in Nevada and to be busily engaged in paying off his debts.

It seems probable that the gold output of Alaska will this year show an increase over that of 1907. Much the greater part of Alaska's gold comes from Nome, Fairbanks, and the Treadwell mine on Douglas Island.

The Vernon Fall fair will be held on September 16, 17 and 18.

The Vancouver World has entered an action for $50,000 damages against the Province newspaper of that city.

The provincial government has decided to grant $25,000 towards a new school building at Fernie, $5,000 for streets and sidewalks and $5,000 towards the cost of municipal buildings. The bridges over Elk River and Coal Creek will also be re-built immediately.

Mr. John P. McConnell, editor of the Vancouver Sunset, has purchased the Edmonton Journal. Mr. McConnell wields a facile pen, and ought to make the Journal a conspicuous success. He is entitled to congratulations likewise upon having taken to himself a wife. This was surely enough glory for one day.—Ex.

Hefferon, the man who ran under South African colors and won second honors in the Olympic Marathon, is a Bruce County boy. He hails from Walkerton and went to South Africa with one of the Canadian contingents. His name is Heffernan, not Hefferon, and he is a son of the late Harry Heffernan, of Walkerton. Have you ever heard of Bruce County?—Cranbrook Herald.

A novel scheme for the rebuilding of Fernie has been adopted by the executive committee on the recommendation of the Fernie Miner's Union.

The plan as outlined in the resolution of the union and adopted by the executive is as follows:

"Be it resolved that immediate measures be adopted to assist those who desire to rebuild their homes in Fernie.

"We therefore set aside the sum of $60,000 for that purpose. That we issue a call for tenders for $50,000 worth of lumber, suitable for building purposes, and also tenders for $10 000 worth of building supplies, and that lumber and supplies be furnished to those requesting them, at cost price; the cost of which is to be repaid by instalments extending over a period of six years, free of interest. F. H. Sherman, U. M. W. of A."

It is hoped by the above scheme to enable those who were left destitute by the late fire to rebuild their homes before winter sets in. It is a sort of co-operative scheme, as other mechanics who will be engaged on the work will be paid out of the $10,000 set apart and out of the instalments paid in on account of the loan.

It is very often said that "Eve" had the best husband in world—at that time.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Dr. Pierce may be consulted by letter *free* of charge. Address Dr. R. V. Pierce Invalids' Hotel and Surgical Institute Buffalo, N. Y.

Everybody Agrees

that **COD LIVER OIL** and **IRON** are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of **FERROL**, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed **FERROL** and used it largely in their practice. **FERROL** is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

"You Know What You Take"

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 214

SHILOH

This remedy should be in every household.

Copper HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.

Scope: The Copper Industry of the World.

Covering; Copper History, Geology, Geography, Chemistry, Mineralolgy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regardi Geology, Mining, Copper Deposit Copper Mines.

The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelti g, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits Can you afford not to see the book and judge for yourself of its value to you?

Fruit Industry

Copying Canada's Example.

The International Apple Shippers' Association, in session at Niagara Falls, by unanimous vote asked the United States Congress to enact a law providing for a uniform standard in apple grading and the placing of an official seal on the package on request of shippers.

While the association in question is called international, it is practically confined to the United States, the number of Canadian members being very small. The organization is really the mouthpiece of the apple dealers on the other side of the line. This being so, the action taken is all the more noteworthy. What has been done is equivalent to an official request to Congress from those who handle the commercial apple crop of the neighboring states, to provide for a system of government inspection similiar to that now enforced in Canada. The request made is not cause for surprise to people who have watched the trend of recent discussions among those interested in the American export apple trade. United States consuls in Great Britain have frequently pointed out that apples from New York, Maine, Michican, and other apple producing states were being passed over by British buyers in favor of similiar fruit from Canada, and the reason given was that Canadian goods had been packed subject to government inspection, while those from the other side of the border had not. American dealers have at last concluded that if they are to hold their own in the British market they must provide for official supervision similiar to that already in force in Canada.

The moral to those interested in the Canadian export fruit trade is obvious. When our commercial rivals are preparing to copy our example in the matter of public control over the quality of the goods put up, it is hardly the time to suggest a lessening of the restrictions which are now in force in this country with a view of making sure that the contents shall agree with the label.—Toronto Star.

Marketing Fruit.

Mr. Maxwell Smith, Dominion Fruit Inspector of Vancouver, is making a trip through the province and incidentally making an inspection of the fruit at the stores and at the ranches. According to reports Mr. Smith finds considerable improvement in the way in which fruit is packed and marked, since his last trip, although he claims there is room for further improvement in the way in which some of the fruit is handled. There seems to be no difficulty in growing the fruit, but education is badly needed from a commercial standpoint. Unless the fruit-grower can market his fruit in such a condition that it will compete with all other fruit, the fruit-grower's labors are in vain, for he falls down at the most critical period of the industry. It is noteworthy that Mr. Smith took several of the fruit-growers aside and gave them a few pointers. It is to be hoped that these pointers will in turn bear fruit, as it has long been felt that education along commercial lines was required and if the conditions in this respect can be remedied even to a slight extent, Mr. Smith's trip will have been eventful.

General Notes.

Sir Louis Jette, retiring Lieutenant-Governor of Quebec, will return to the Bench.

There has been a surplus of harvest hands taken to the prairie provinces this year.

Detectives in New York discovered over $15,000 worth of jewels, silks and furs in the house of Mrs. Minnie Curtis, whom they arrested for complicity in several robberies.

A. O. Brown & Co., one of the largest brokerage houses of New York, have announced their suspension on the Stock Exchange.

At Tilbury, Ont., a burglar entered the home of Thomas Mero, through a parlor window, chloroformed the family and took $27 and a bank book from the clothes of the pater-familias.

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 150 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior

Zam-Buk

The old Roman charioteers, and heroes wounded by wild beasts in the now ruined Colosseum at Rome, anointed their wounds with secret balms made from the roots and herbs of the field. Instinct tells us to rub a place that hurts, and in Zam-Buk, the great herbal balm, is found the ideal substance with which to rub. Zam-Buk differs from ordinary salves, ointments, etc., in the important fact that it contains no trace of any mineral substance, and is also free from animal oil or fat. It is composed of the finest herbal essences and juices, and is so refined that the most delicate skin can absorb it with beneficial effect. It is at one and the same time healing, soothing and antiseptic. It does more, does it better, and does it in less time than any other known balm.

ECZEMA, SCALP SORES AND ERUPTIONS CURED.

Mr. Henry Harvey, of Cataraqui, Ont., says:—"I am glad to state that Zam-Buk in my case has done all it was recommended to do. I had some sores on the scalp, which at times caused me such acute pain that I could not bear to touch the part. This continued for nearly two years, and defied all remedies I tried. Zam-Buk was recommended to me and, after a fair trial, I am glad to report the sores are quite cured. I can strongly recommend Zam-Buk for scalp diseases."

Mr. T. Bull, of Cooksville, Ont., says:—"I consider Zam-Buk splendid value. I have used it on Burns, Pimples, Cuts and Sores, and have found it to contain more healing qualities than any preparation used before, and can recommend it."

Mrs. Nellie Campbell, of Inverary, Ont., writes:—"I think Zam-Buk a splendid healer. I had a bad spot of Eczema on one of my fingers that bothered me terribly. I obtained a supply of Zam-Buk and, to my delight, it healed the Eczema very speedily. I shall keep a supply of Zam-Buk handy, as I think it such an excellent remedy. I would not be without it in the house."

WHAT ZAM-BUK CURES:

Cuts, bruises, burns, scalds, eczema, pimples, running sores, sore feet, poisoned wounds, festering sores, piles, bad legs, diseased ankles, abscesses, boils, ringworm, sore backs, scrofula, itch, sore breasts, barber's rash, and all injured or diseased conditions of the skin. From all druggists, 50c per box, or from Zam-Buk Co., Colborne Street, Toronto, upon receipt of price. 6 boxes for $2.50.

FREE SAMPLE BOX.

Send this coupon with your full name and address and one cent stamp (to pay return postage) to the Zam-Buk Co., Colborne Street, Toronto, and a free sample box of Zam-Buk will be mailed you.

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Salatone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

Save One Third Your Tailor's Bill

And yet have your clothes made to order by the modern

Campbell's Clothing

made to order method

We have specialists to make each part of the suit. Coat, Vest and Trousers, instead of one tailor to do it all.

We know and guarantee that we can dress and fit you as only the high priced tailor can, and that we can save for you a third of what he would charge. We do it for others, let us do it for you.
