MINES AND MINING

The eleventh annual meeting of the Canadian Mining Institute met last week in Montreal. Dr. Miller, provincial geologist for Ontario, who was elected by acclamation for another term as president, gave an address in which he pointed out the value of the institute.

The chaotic condition of the mining laws in some of the provinces is one of the matters on which the members of the institute hold strong views, and resolutions have been passed favorable to the unification of the mining laws throughout the Dominion.

The Echo group on Sheep Creek has been sold.

Fourteen men are employed on the Swayne group of claims near Vancouver.

Because of their withdrawal from the Provincial Workmen's association of Nova Scotia to become members of the United Mine Workers of America, the employees of the Dominion Coal company alledge that the company threatens them with dismissal, and have applied to the labor department for the appointment of a board of investigation and concilliation. The men have nominated Daniel McDougall as their representative on the board.

Travel to be Heavy.

Steamships for sale and charter are at a premium on the Pacific Coast and the Alaskan transportation lines are sending agents into the Great Lakes country and along the Atlantic to negotiate for craft to be used this summer in carrying tourist parties from Seattle to Alaska.

The Alaska-Yukon-Pacific Exposition, which opens in Seattle on June 1, is of course attracting hundreds of thousands to the Northwest and that many of them are going to take advantage of the opportunity to see also Alska's magnificent glaciers and other splendid scenic beauties, is made evident by the fact that excursion reservations on the regular boats of the lines are already made to the full capacity No less than a half dozen other large steamers are either now on the the way to Puget Sound, or shortly will be, and these will handle the balance of the traffic. As it now stands, no less than thirty large crafts will be engaged constantly throughout the summer in carrying excursionists back and forth on the six day Alaskan Coast trip.

The traffic officials of the Hill system of railroads and the Chicago, Milwaukee and St. Paul estimate that no less than 1,000,000 passengers, bound for the Exposition and the Pacific Northwest generally will be handled through St. Paul during the Exposition period. The Harriman system puts a similar estimate upon its business over the Oregon Short Line, Union Pacific and Southern Pacific.

All of these roads are making exceptionally low round trip rates and granting stop over privileges heretofore unheard of. Under the privileges offered it will be possible for the Exposition-bound tourists to see every scenic wonder that lies between the Mississippi and Seattle, including the Grand Canyon of the Colorado and the Colorado Rockies, Banff on the Canadian Pacific, Yellowstone Park, Southern and Central California, with the Yosemite valley, and all the rest.

On March 1st the Exposition was ninety-five percent complete, so that no question remains, if ever there was one, that the big fair will be opened on the day first announced, June 1 with everything in place.

OPPOSE APPLICATION

Board of Trade Takes Action Against V.V. & E.

The Greenwood Board of Trade represented by J. P. McLeod before the Dominion Railway Commissioners last Friday at Nelson, opposed the application of the V. V. & E. railway for authority to build a branch line to Myncaster in the Boundary district.

Mr. Mc Leod contended that "first, this track had already been built and worked for some months; second, that the railway were charging higher freight between Myncaster and Midway than they were between Ferry on the Washington side and a point beyond Myncaster on the American side; and, third, that this discrimination tended to build up the towns in Washington at expense of the cities on the Canadian side of the border.

The evidence given by the railway represented by A H. McNeil tended to show that the goods were shipped from the American side in bond over Canadian soil back again to Ferry in the United States The railway denied that the line had been in operation for the period stated by the Greenwood board of trade and contended that the spur under discussion was an advantage rather than a disadvantage to British Columbia. Their lordships ruled that they had no power to give permission for the building of a railway track which was already constructed, and pointed out that there was a proper and legal procedure to be followed out by railways wishing to construct extensions of existing lines. The applicant had omitted to take the necessary steps and the permission asked for must therefore be refused. The importance of this decision lies in the fact that the railway though having the spur constructed cannot legally make charges for carrying freight or passengers over it

THOUSANDS TO BE DISFRANCHISED

Opposition Struggles for Justice to the Electorate

Victoria, B.C., March 9.—The Provincial Legislature has been sitting 24 hours in a determined effort on the part of the Liberal and Socialist members to prevent Attorney-General Bowser forcing on the people of B.C. a repetition of the Roblin methods in Manitoba in connection with the Elections Act. The Government is engaged in an iniquitous attempt to get the franchise into their own hands notwithstanding the protests of the opposition members and telegrams from labor and other organizations outside.

Bowser some time ago introduced Bill no. 9 to amend the Provincial Elections Act so as to permit striking off names of persons who had ceased to reside in the electoral district in which they were registered. Macdonald, leader of the opposition, proposed an amendment intended to safeguard the electors and clear up uncertainties in the old Act. This amendment contained a proviso that the name of no one should be struck from the list who had not ceased for a period of at least one year to reside in the riding. Bowser accepted the amendment, but insisted upon striking out the one year limitation. McInnis, Socialist, also moved an amendment that no person's name should be struck from the list unless he had ceased to reside in the district for a period of one year. In order to get his amendment, Macdonald consented to strike out "year's limitation" in his amendment, but stated that he would insist upon McInnis' amendment being taken up after his, Macdonald's, own amendment was passed, with change being indicated.

McInnis' amendment came up for debate about two week's ago and was vigourously supported by the Liberals and Socialists. The committee rose without completing debate, and Bowser did not bring it on again until yesterday, when debate was resumed.

The Liberals and Socialists content that without the protection of this amendment thousands of voters in the province will be disfranchised. That Bowser's bill is an attempt to repeat what happened in Manitoba, and that if allowed to pass without amendment above mentioned, the government will have so manipulated the lists through their partisan appointees as to insure, as they think, their safe return at the next general election.

They are seeking to load the dice in anticipation of that election.

Obituary.

Joseph Olivier Bedard, father of Rev. Father J. A. Bedard, of Greenwood, died at his home in St. Eugene, Ont., on the 6th inst. at the advanced age of 89 years.

A solemn requiem service was held for the repose of his soul at the Church of the Sacred Heart on Tuesday morning, Rev. Father Bedard being the celebrant.

The choir under the direction of A. A. Frechette, sang Mozart's Requiem Mass, Mrs. S. Oliver presiding at the organ.

James Cronin has planned extensive developments on his silver-lead properties in the Babine region this summer.

Newman in Greenwood Gaol.

Chief Bunbury of the Boundary police, arrived home on Monday evening bringing with him Cleve Newman who is wanted on a charge of complicity in the Bridesville hold-up on the 19th of December.

Newman was allowed to escape from custody by Constable Myers of Oroville, and it has been a matter of considerable trouble to again apprehend him.

He came across the International line without formalities and will have a hearing at the Greenwood Courthouse this afternoon.

The following account of the capture, from the Oregon Journal of Portland, will be of interest to the Boundary people, and reflects a good deal of credit on the successful activities of Captain Bunbury:

"Bunbury, captain of the border police, started on the trail of the escaped prisoner and after much investigation learned that he had a sister living at or near Portland. He came here and sought the aid of the Portland police department. After having searched for several days it was found that Newman was near Cazadero and when this word was brought in Bunbury wanted to go after his man at once. This was after ten o'clock at night.

"We will have to wait until morning, the cars will stop running in an hour or so," said the Portland sleuth who was aiding Bunbury.

"Can't we get a special car?" asked the Canadian. The sleuth had not thought of that. Bunbury called on the electric railway company.

"Will $100 get me a car to Cazadero and back," he asked. He was informed that $27 would do it. "Hurry it up," directed the man from the north.

It required three hours to go to Cazadero, stay there half an hour and return to Portland. The trip was made in an Oregon City car and 15 miles of the distance was traversed in 12 minutes. It is 41 miles to Cazadero, making 82 miles for the round trip.

Newman was found at a farm house near Cazadero and taken into custody without trouble.

Deputy United States Marshal Tim Hammersly aided Bunbury in making the arrest.

BOARD OF TRADE

A large and enthusiastic meeting of the Greenwood Board of Trade was held on Wednesday, March 10th.

Mr. Broadbent spoke to the meeting regarding the mineral exhibit to be shown at the Alaska-Yukon Exhibition On motion of Mr. Mc Intosh seconded by Mr. Gulley a committee consisting of Mr. Keffer, Mr. Russell and Mr. McIntosh was appointed to assist in collecting suitable exhibits of minerals to be forwarded to the Alaska-Yukon Exhibition to be held in Seattle.

The following were duly elected members of the Board of Trade. Messrs C. J. Mc Arthur, I. H. Hallett, J. M. Millar and Charles Mc Clung.

Mr. McLeod, Solicitor for the Board of Trade reported regarding a petition which the Greenwood Board of Trade had brought before the Board of Railway Commissioners ot Nelson re V. V. & E. Railway Company. This was laid over to be dealt with at the next general meeting.

At the election of officers Mr. E. G. Warren was again elected president of the Board of Trade with Mr. J. A. Russell, Vice-President and Mr. F. W. McLaine, as Secretary Treasurer.

The following members were also elected members of the Council, Messrs J. E. McAllister, H. Bunting, C. J. Wilson, J. P. Mc Leod, D. McIntosh' J. T. Beattie W. T. Hunter, T. M. Gulley and H. F Stow.

Fatal Explosion

Freight engine no. 1381 exploded while taking water at Farron station about half-way between Grand Forks and Nelson on Tuesday morning, fatally scalding fireman Cecil Glover and Donald McQvarrie.

The cause of the accident has not been stated. Mr. McQuarrie, who was 22 years of age, lived in Nelson and is survived by his wife to whom he was married 18 months ago.

Fireman Glover's home was at Trail.

Saturday last the semi-annual election of Greenwood Miners' union No. 22, W. F. M., was held. Following are those elected:

President—Chas. Birce.

The Alaska-Yukon-Pacific exposition at Seattle will bring a tide of 2,000,000 people to the Pacific slope this year.

The Boundary people should take advantage of all possible means to lay before this great multitude the possibilites of the Boundary.

Sir Wilfrid Laurier has declared that the pressure of international correspondence has made it necessary to create a Department of External Affairs, and the proposal has been endorsed by parliament. Hon. Charles Murphy will probably be the head of the new department.

An increase of $25,000 in the Dominion customs revenue for February. Compared with the same month last year is an encouraging sign, it being the first increase shown for more than a year.

J. D. Taylor, M. P., has repudiated a despatch which appeared in his paper, the Columbian, in regard to the Miner escape. Mr. Taylor claims that the article did not originate with his paper, but was clipped from the News-Advertiser.

If the contention be true that a canal down the Nelson river from Lake Winnipeg to Hudson's Bay would be a feasible route for ix months of the year, a new avenue of commerce will be opened up that will put Winnipeg in the front rank among the commercial cities of the world.

During the present session of the House of Commons Mr. Foster has asked 55 questions, as many as all the Liberal members together.

His request for a return showing the prisoners paroled since 1896 cost the government $1000 to answer, and is absolutely of no use to any one.

The amendments to the Medical bill allowing homeopaths and osteopaths to practice were carried, but the five years university qualification for doctors was defeated.

Many people who have the mail order habit often actually pay more for goods than they would have to pay to a local dealer.

Ex-President Roosevelt has retired from his seven years' reign of the great American republic, and the "Big Stick" has given place to the sunny ways of diplomatic President Taft.

The ancient colony of Newfoundland is suffering from the inconveniences of a political deadlock.

The time has about come when this wealthy, but backward, island should enter the fold of confederation as a full-fledged province of the Dominion of Canada.

In commenting on Mr. Hawthornthwaite's idea as to what should be done with the local option movement the Victoria Times remarks:

The merits of the Gothenburg system have been the subject of investigation by reformers seeking for a practical solution of the liquor problem. The fact that it has not been adopted, except in a modified form, by any country outside of that in which it originated, seems to indicate that there are defects inherent in the scheme which render it objectionable to advocates of temperance in this and other English-speaking countries.

In the Commons at Ottawa, Mr. Oliver, replying to Mr. Ralph Smith said that the number of Orientals in British Columbia on January 10 last was 38,258. Of these 17,129 were Chinese, 5,131 Hindoos, and 15,846 Japanese. The number of Orientals who had been naturalized was 7,442. During January the total arrivals of Orientals were 55.

Neil Black who for several years has kept a store at Spuzzum was found dead on the track three quarters of a mile West of Spuzzum station. The cause of death is thought to have been heart failure.

Mr. Black helped to build the Cariboo road years ago and has since resided at Spuzzum.

5,000 Facts About Canada.

The public will welcome the 1909 revised edition of this valuable booklet, which has been happily described as a tabloid encyclopedia of Canada. It is unique and clever in its arrangement as worked out by its compiler, Mr. Frank Yeigh, of Toronto, the well-known writer and lacturer. 30,000 copies have already been sold. The resources wealth and business of the country are given in a concrete form—a fact in a sentence. Mr. Hamar Greenwood, M.P. for York, Eng., says: "It is an eye-opener to even a keen Canadian like myself." A copy may be had for 25 cents from the Canadian Facts Publishing Co., 667 Spadina Ave., Toronto.

March Home Journal

The Home Journal for March contains a most startling article on the "White Slave Traffic," by Hon. E. T. Sims of Chicago, in which the inner working of this nefarous trade in young girls is laid bare. "Western Women and the Dower" is the subject of a most interesting discussion by Lillian K. Beynon of Winnipeg, and this with a quaint description of the Life of a Prairie Settler by an Englishman, gives an insight into conditions in the great west. The March number is of course Irish in tone and contains in addition to two of Thomas Moore's Irish melodies, an historical refeference to St. Patrick, Ireland's patron saint. There is interesting departments on Fashions, Fancy Work, Sick Room, Women's Institutes, Household, etc. For the boys some interesting coin tricks are explained. An increase in size and an advance in subscription price is announced for June 1st, but in the meantime subscriptions are being taken at the old rate of 50 cents. The Home Journal has developed wonderfully and is a credit to Canadian journalism.

The Winnipeg bond issue of $2,500,000 has been disposed of in London at par.

There are 110 Chinese laundries in Winnipeg which are to be refused licenses if they do not comply with a new set of regulations which calls for radical changes in sanitary arrangements.

The G.T.P. Shops to be built at Winnipeg will cost $5,000,000.

FELL DOWN STAIRS WITH CHILD

The following testimonial proves once again the superiority of "Nature's Healing Balm," Zam-Buk. Mrs. L. Spalding of 505 Erie St., Stratford, Ont., says: "Some time back I met with a peculiar accident while descending the stairs with a child in my arms. I slipped, falling heavily on my left arm and elbow, receiving a flesh wound. My arm was inflamed, swollen and very painful. I tried different preparations, but the wound kept discharging and refused to heal. About this time my brother suggested using Zam-Buk. I acted upon his advice. Zam-Buk thoroughly cleaned the wound, stopped all discharging and soothed the pain and in four weeks the wound was perfectly healed. I have had perfect use of both elbow and arm ever since and owe this good luck to the wonderful healing balm Zam-Buk and would advise others to use nothing else." Zam-Buk cures cuts, bruises, burns, eczema festering wounds and all skin diseases—of all druggists and stores—50c. box or post-paid from the Zam-Buk Co., Toronto. Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine OF KNOWN COMPOSITION and with a record of *40 years of cures*. Accept no substitute—there is nothing "just as good." Ask your neighbors.

Tortured by Rheumatism

Zam-Buk will Give You Ease!

Just at this season when the cold dry winter is giving away to a milder yet more humid season, the germ of rheumatism, sciatica, and alied ailment come upon their victims with renewed force.

As soon as you feel any deep-seated pain in the joint, back, wrist, or elsewhere, place a liberal supply of Zam-Buk on the fingers or on the palm of the hand, and rub it well into the part affected. The penetrating power of this "embocations-balm" is exceedingly great, and once having reached the seat of the pain it removes it speedily. It also ends the stiffness which is so unpleasant.

Frequent rubbings of the afflicted parts with Zam-Buk will not only drive out all the pain, reduce swelling etc', but will strengthen the skin and tissues and enable them to resist cold and damp The following case will show how Zam-Buk brings ease to those tortured by rheumatism.

Mr P. G. Wells, of 338, Ogden Street Fort William, Ont., says:—"Following my duties in attending to passanger I often get wet through with rain and steam (the latter in winter). This with hours of duty in icehouses in summer was no doubt the cause of my contracting of rheumatism in both knees, left arm, and shoulder. This got so bad that I could no longer work, and was laid off on three different occasions for several weeks, during which I was under the treatment of my dodtor. I seemed to get little or any better, no matter what I tried, and this was my state when Zam Buk was recommended to me I laid in a supply, and to my great joy it began to cure me. I rubbed it well in every night, and when a few boxes had been used, found i was free again from the pain and stiffness of rheumatism I have had on more trouble from the disease and unhesitatingly recommend Zam-Buk to all who suffer from rheumatism, muscular stiffness, etc"

Zam-Buk is also a sure cure for eczema ring-worm, ulcers, abscesses, piles, bad leg, suppurating wounds, cuts burns, bruises, chapped hands, cold cracks, and all skin injuries and disease. All druggists and stores sell at 50c. per box, or post free from Zam Buk Co, Toronto, upon receipt of price.

WORTH TAKING

One ounce Fluid Extract Dandelion;

One ounce Compound Salatone;

Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles.

This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home.

If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

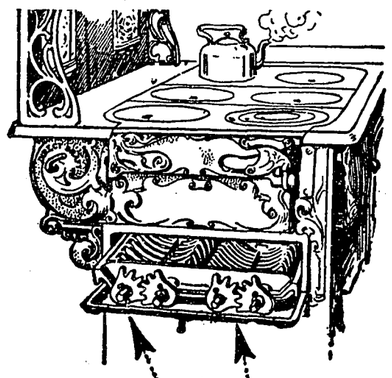
The oven does the baking, the fire-box controls the oven heat, and the grates hold the coal or wood that produces the heat, so THE GRATES are important.



Sask-alta Range

Double Duplex Grates

"Sask-alta" Double Duplex Grates are made in four pieces, each grate shaken separately. Ashes over one grate can be shaken without wasting good fuel over other grate. No poking necessary, thereby saving fuel. Dampers at both ends of fire-box secure perfect drafts. When grates are inverted for wood a patent clamp retains them in position. The easiest-working way is the surest-serving way—and that's "Sask-alta" way.

HOME-MADE MEDICINE

Said to Relieve Kidney Trouble and Rheumatism

One ounce Fluid Extract Dandelion;

One ounce Compound Salatone;

Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary afflictions, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

Everybody Agrees

that **COD LIVER OIL** and **IRON** are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of **FERROL**, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed **FERROL** and used it largely in their practice. **FERROL** is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

Dumas' Masterpiece Here Soon

That tremendous drama of the Napoleonic period "Monte Cristo" will be presented at the Opera House on Tuesday March 16th with Frederick Clarke as the Count, and an excellent company.

This play is under the direction of E. Willis, and no expense has been spared to make the production complete in every detail. The beautiful story of Alexander Dumas, is splendidly staged and and the cast chosen with an eye to make this production the best that has ever been through Canada. It is perhaps one of the most expensive productions that has ever been through this province The costumes are in keeping with the Napoleonic period, and strict attention is giving to every detail. No one should miss this rare dramatic treat.

The memorial east window presented to St. Jude's church, was unveiled on Sunday morning last in the presence of a large congregation. A short description of the window may be of interest.

The centre panel represents the Ascension of Jesus Christ into Heaven, with the Apostles gazing upward at the ascending figure. The side panels are inscribed with the words taken from St. Luke's Gospel, "This same Jesus which is taken from you into heaven, shall so come again in like manner, as ye have seen Him go into heaven." The two small panels at the top corners of the window contain respectively the emblems of the Cross and Crown and the Crossed Keys. The window being a memorial bears the inscription customary in such cases, and reads: "To the glory of God, and in memory of Samuel McAllister, of Toronto, Can."
