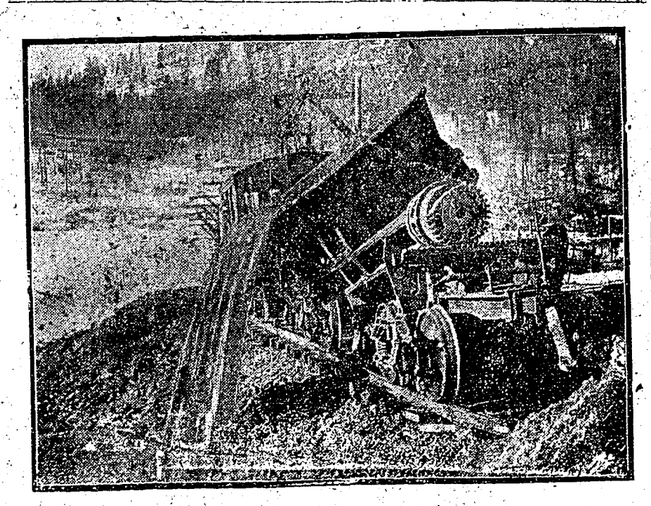
Dry Goods. Millinery

W. C. Thomas, manager of the Dominion Copper Co., left this morning for Salt Lake City, to meet the company's engineer, M. M. Johnson, who was unable to come to Greenwood as announced. Mr. Johnson's inability to come north will, perhaps, delay the beginning of work a few days, but Mr. Thomas, when spoken to last night, stated that everything was good, and he was more confident than ever of a full reopening of the company's properties, although he could not say definitely whether he would have to remain in Salt Lake City one day or several days.



DUMPING SLAG AT THE B. C. COPPER CO'S SMELTER.

SMELTER SHIPS BLISTER COPPER

First Car on Monday Last---Treatment 12,215, Bigger to Come.

The first car of blister copper shipped from the B. C. Copper Co's Smelter since the resumption left the yards on Monday morning. Since then the converters have been turning out nearly a car a day, a record that will be beaten just as soon as the new compressor at the Mother Lode is in running shape and the big tonnage from the Mother Lode starts It is expected that they will turn the Compressor on Sunday but it will be a few days after that before it is in working shape.

At the Smelter there are about 175 men at work and with the operation of the new Crusher at the custom ore bins, a force will be put on amounting to about 20 men to handle the sample mill. At present the delay in starting the sample mill arises from the C.P.R. not having laid the necessary trackage. This will be completed by Monday.

The shortage in coke, feared because of difficulty in obtaining a sufficient supply of cars, and from the general tieing up of business resulting from washouts on the Crow's Nest, is now quite done away with and coke is coming in regularly and the supply is plentiful.

The smelter of the B. C. Copper Co. this week treated 12,215 tons of ore, which was distributed as follows: Mother Lode, 9,423 tons; Oro Denoro, 2,625; Napoleon, 145, and Lone Star, 21 tons.

GRANBY EULOGY BY G. L. WALKER

G. L. Walker in the Boston Commercial has the following to say of the Granby Consolidated:

Granby Consolidated directors have declared a dividend of $2 per share. This is the first dividend since September of last year when $3 a share was paid. The company is now producing more copper than at any previous time in its career, its output being at the rate of 30,000,000 pounds annually. As its copper now costs about 8 cents, the company must be earning at the rate of $1,400,000 annually, or better than $10 per share for its stock. It is quite probable, therefore, that the company will continue the quarterly payments of $2 a share uninterruptedly in the future.

Improvements which are now under way on the Granby Smelter will be completed in September, and will enable the company to produce 36,000,000 pounds of copper annually thereafter at a cost of 8 cents per pound. This will give it earnings of $1,620,000 or $12 per share with copper selling at 13 cents. At present the company is running 7 of its 8 furnaces, and treating about 100,000 tons of copper monthly.

Recent diamond drilling has proved that the great ore body of the Granby extends entirely through the ¾-mile of intervening space between the Old Ironsides and Knob Hill mines on one side to the Gold Drop on the other. This ore body is from 100 to 400 feet thick, and in the area mentioned contains tens of millions of tons of ore.

The statement published recently that the Nichols Copper Company and American Metal Company are making profits out of the handling of the Granby product, while true literally, was evidently intended to convey an entirely erroneous impression. These companies aim to make a fair business profit out of all the bullion they refine and all the copper they sell, but there is absolutely no basis for the assertion or suggestion that any more money is made out of Granby or higher rate charged it than is charged any and all other companies served.

The management of the Granby is above reproach. Indeed, it is one of the most magnificently managed mining enterprises in the world. The company is in splendid condition financially, and its available ore deposits are practically inexhaustible.

Scandinavians Organize.

Scots people have their St. Andrew's Society, Englishmen their S. of E. Benevolent Society, and Protestants their P. P. A. lodges, so the Scandinavian peoples of America are organizing for fraternal and benevolent purposes as the Scandinavian Aid and Fellowship Society of America.

Chas. Erickson, of Rossland, who is organizer for the entire society, organized a Greenwood branch of the order in the Miners' Union hall on Sunday night last. The organizer was not superstitious, and after 23 members were admitted, the following officers were elected: President, Pete Benson; Vice-Pres., Oscar Johnson; Fin. Sec., Lars Danielson; Treas., W. Nelson; Rec. Sec., Anton Pearson; Marshal, Arthur Johnson; Chaplain, George Swanlund; I. G., Peter Sten; O. G. Nelson Haug; Trustees, Messrs. Amerstedt, Karl Johnson, Sjalund and P. Nelson. Meetings will be held twice a month.

There are 54 lodges of the order now in America, some of these, at Nelson, Moyie, Wardner and Jaffray, having been recently organized by Mr. Erickson. Other lodges in this part of the country are in Coeur d'Alene City, Idaho, and in Rossland and Phoenix. Quite a number of visitors from the Phoenix lodge attended the meeting here on Sunday night.

WILL CELEBRATE DOMINION DAY

Big Preparations Made for Monster Celebration on Canada's National Holiday---$2,500 Purse

Greenwood's Monster Celebration on Dominion Day will be bigger, brighter, better than ever. Canada's forty-first national birthday deserves the recognition of all her people. To the appeals of the Committee the residents of Greenwood have responded and are responding liberally. And Greenwood's holiday is to be the best ever held in the City.

Every necessary arrangement will be made to have this Celebration remembered as the best Greenwood has ever had. The race track will be put in good condition so that the best horses in the country will have an inducement to appear. Liberal prizes will be offered and a varied and unusually complete program of sports provided.

The celebration will begin on the morning of Dominion Day with a grand Calithumpian parade with Jas. Cameron and Ald. W. B. Fleming as Marshalls. Just how the sports will be divided during that day and the next is not yet determined but two brass bands will be all the time in attendance and on the evening of the first, one of Greenwood's unequalled dances will be held.

The finance committee have met with really phenomenal success and at least $2,500 will be disbursed in prizes, etc., during the celebration.

The meeting called by Mayor Bunting on Monday to arrange for a Dominion Day celebration drew a large and enthusiastic attendance.

R. J. Sanders was elected Secretary, and W. B. Fleming, Treasurer, of the Committee. The following were elected as a General Committee: I. Crawford, E. B. Dill, Paul Meacham, A. D. Hallett, J. D. McCreath, C. E. Summers, K. McKenzie, R. C. G. White, A. Logan, H. T. Hunter and A. D. Macfarlane.

It was decided to have a two day's celebration, July 1st and 2nd.

The following special Committees were then elected:

Baseball—Dill, Meecham, and A. F. Thomas.

Horse Racing—Fleming, Wellwood and Hunter.

Caledonian Sports—Bert Logan, J. D. McCreath, K. McKenzie.

Hose Reel Racing—Crawford, Summers and Mortimer.

Advertising and Music—A. D. Hallett, Grier and Sanders.

Finance—White, Fleming, and Macfarlane.

Transportation—Redpath, C. J. Wilson and Bunting.

Marshalls of Calithumpian Parade—W. B. Fleming and James Cameron.

Parade Committee—Evans, Hassard, D. O. McKay and Charles Russell.

A further meeting will be held Tonight in the City Hall when the Committees will report and other details of the Celebration will be arranged.

Address all communications to the Secretary,

R. J. SANDERS, GREENWOOD, B. C.

Chief Dinsmore.

The Grand Forks Gazette has the following in reference to Constable Dinsmore, who assumes his duties as Chief of Police in Greenwood next Tuesday:

"It will be learned with much regret that I. A. Dinsmore, provincial police constable for the Grand Forks district, is about to sever his connection with the city. Mr. Dinsmore, who has been a resident of this city for the past fourteen years, thirteen of which have been spent in the government service, has accepted the post of Chief of Police of Greenwood.

"Mr. Dinsmore has always led a most active life. His district has been large, and during the first six months of his thirteen years as provincial constable he filled the office of road superintendent. He has always taken a prominent part in all social life in the city. Continuously since 1897 he has been a member of the board of school trustees. He is Captain of No. 3 fire hall, Captain of Kettle River Rifle Association, Senior Woodward of the high court I. O. F., trustee of I. O. O. F. hall and member of the K. of P.'s.

"Mr. Dinsmore leaves to fill his new position on the 16th inst., and Greenwood is to be congratulated in obtaining the services of an officer of such efficiency.

ESTIMATES FOR 1908 $32,185---RATE 10 & 14

At the Council meeting on Monday night there were present Mayor Bunting, Aldermen Wilson, Mortimer, Meyer, Fleming, Sutherland and Gulley. In the absence of the City Clerk, J. P. McLeod, City Solicitor, acted as clerk.

The minutes of the last meeting were read and approved.

After the reports of committees the Council passed the annual by-laws, arranging for a temporary loan to cover disbursements until the taxes are received, fixing the rate of taxation, and providing for the appropriations.

The Temporary Loan By-Law gave the Council power to borrow from the Bank of Montreal $7,500 at an interest not exceeding 7 per cent.

The rate By-Law fixed the ordinary rate at .10 milis, and the special rate for interest, sinking fund and hospital, at 14 mills.

The appropriation By-Law embodied the estimates for the current year, and was as follows:

Whereas, the revenue of the Corporation of the City of Greenwood, from all sources, is estimated at $35,182.67 for the year 1908, and it is expedient to provide for the appropriation and expenditure thereof:

The Municipal Council of the Corporation of the City of Greenwood enacts as follows:

There shall be appropriated and expended from the general revenue of the City of Greenwood for the year 1908 the following sums for the following purposes respectively, namely: For

Fire Alarm System	$4,265 00
Waterworks	1,100 00
General Expenses	1,100 00
Cemetery	100 00
Office Expenses	1,770 00
Legal Expenses	650 00
Charity and Indigent Poor	100 00
Fire and Light, City Hall	210 00
Board of Health	460 00
Advertising and Stationery	300 00
Interest	360 00
Street Lighting	1,526 60
Schools	6,541 00
Indemnity to Mayor and Aldermen	782 00
Streets	1,260 00
Loan Account	2,500 00
Police Magistrate	300 00
Police Department	1,940 00
Interest on Debentures	5,040 00
Sinking Fund	4,313 15

This By-Law may be cited as the "Appropriation By-Law," 1908."

The council concluded its business by passing a vote of $200 in aid of the Dominion Day celebration.

NOT INTERESTED EVEN IN ONTARIO

Of the interest shown in the the Ontario elections, Toronto Saturday Night, the most independent paper in Canada has the following to say:—

In many years Toronto has not shown so little interest in a provincial election as in the present one. It excites no real interest except among the few who are running for office, their intimate friends and paid workers. The chief reason, of course, is that the general result is considered certain. It is conceded that the Whitney Government will return to office with a majority slightly, if at all, reduced. Another cause of the local indifference is that the four Conservative members who sat for Toronto in the last legislature are, by the ingenious A and B system of candidature left without serious opposition. There is none of the uncertainty that would have existed had the city been divided into eight ridings. One hears an astouishingly large number of men say that they will not vote at all.

JUDGMENT GIVEN CITY

Finding of Mr. Justice Clement in Portmann v. City of Greenwood.

The decision of Mr. Justice Clement in the case of Portmann v. the city of Greenwood, was received here on Tuesday, the action being dismissed with costs. The action was a suit for possession of water rights on Providence creek for which both Messrs. Portmann and the city held what purported the Crown grants. It will be noted in the judgment given below that Mr. Justice Clement holds that the record held by Messrs. Portmann can stand good only as an interim record, and that the city was within its rights in diverting the water.

PORTMAN ET AL. VS. THE CITY OF GREENWOOD—JUDGMENT.

In my opinion the plaintiffs are estopped from setting up the invalidity of the defendants' record. Both parties have what purport to be grants from the Crown of the usufruct of certain waters and the plaintiffs' grant was deliberately taken by their predecessors in title on the basis of an existing prior grant to the defendants, out of which the plaintiffs' grant was in a sense carved. It was open to the plaintiffs' predecessors in title to take in 1900 the position the plaintiffs now take in 1907-08, and to urge upon the Crown the invalidity of the record held by the defendants. Had this position been taken it is altogether probable that the Commissioner would have retraced his steps in such position as to place the validity of the defendants' record beyond cavil. Be that as it may, the plaintiffs' predecessors in title chose to accept from the Crown a grant based, as I have said, upon the defendants' record, that record being good by estoppel as against these plaintiffs. The record relied upon by the plaintiffs can stand good only under Section 44 of the W. C. C. Act, 1897, as an interim record entitling the holders thereof to use the water "until the same shall be actually diverted by the Municipality under the record." It is on that actual diversion, and that alone, that the action is based as against the plaintiffs. The defendants were within their rights, and the action must be dismissed with costs.

(Signed.)

THE ELECTIONS.

The elections on Monday in Ontario and Quebec will bring very little satisfaction to any of the people of either of these provinces, outside a few hard-shelled partisans who can consider only the momentary glory of their own parties. In Quebec, the evil of a negligable opposition was partly taken away, while in Onario it was increased. In the lower province the opposition had been altogether too weak. The increase in the holdings of the Conservatives should have a beneficial effect in keeping the Gouin government up to the mark, as should also the election of the brilliant but erratic Mr. Bourassa. Mr. Bourassa's vigorous and extended parliamentary experience should be of great value in the legislature at Quebec.

In Ontario, the record of the Whitney government has, on the whole, been fair. It is true, that the school book contract was fraudulently awarded, that the partisan interference with the license commissioners in the various districts, and particularly in East Toronto, was highly reprehensible, and that, in its last days, the government succumbed to the persuasive arguments of Messrs. McKenzie and Mann, the Electrical Power people and others who had fat purses of campaign funds with which to buy a nullification of the vital points of the government's municipal power policy to which Hon. Adam Beck had so untiringly educated the people. But this is where Mr. Whitney's cleverness came in. The vigorous educational measures had had their effect, and the impression of the government's progressive policy—which has never been carried out—remained with the people, and Monday's vote shows the result. Mr. Whitney's ebullient temper has clothed him with a personality of some vigor, so that the reputation of his government has not lacked strength. Under the circumstances, he might have been more generous with his opposition in the gerrymander, which, after the manner of new governments, was railroaded through the House. Particularly is this true of Toronto, where Mr. Whitney adopted the very dubious device of giving the seats a double representation. In Toronto, in its present provincial constituencies, no Liberal ever dreams of being elected, and majorities of 3,000 for Conservative candidates who make no pretence of having political ability are not unusual. It is safe to say that no other division of the city that Mr. Whitney could have made would be able to continue stifling the Liberal voice, so the old boundaries were retained, and each seat given two members. In the long run, it certainly would have paid Mr. Whitney to have been fairer.

Mr. McKay, it must be admitted, put up a strong, if not an effective fight. He is a young man, left in the leadership of the Liberal party because all his superiors had gone to strengthen the government of Sir Wilfrid Laurier. Mr. McKay is today, however, a very much stronger man than two years ago, and by the time another election comes, should be able to make an impression on Ontario that will count. The large majority of the Whitney government will, no doubt, help him, as it will hinder the provincial Premier.

A great deal is being said in British Columbia of the influence of these elections on a probable Dominion election. In Ontario, if anything, it will bring a reaction. Ontario people do not like governments with large majorities. But people in British Columbia must not jump at the conclusion that the feeling in Ontario regarding politics is as it is here. No other government in the Dominion, unless it is the Conservative government of Manitoba, has ever devoted so nearly half its time to an unreasonable attempt to fret and harass the Dominion government as has the McBride government. The election in Ontario was fought on provincial issues, and on provincial issues purely. The provincial government did not concern itself with the Dominion government's business, or vice versa. For a great many reasons it is safe to argue that the result in Ontario will work favorably rather than otherwise to the Laurier government.

More From John Houston.

The Nelson Daily News, since it has become Independent C. P. R.-Conservative, makes statements that will not bear investigation. One of its statements is that "the procedure in making up voters' lists in British Columbia is simple, and because of its simplicity no complaints of unfairness are heard." Yet the Daily News is printed in a small city where an attempt was made to disfranchise 485 residents of the district, all because they were supporters of a candidate who was not running as a Conservative. The attempt did not succeed because the Supreme Court of British Columbia said it was wrong to disfranchise hundreds of men merely because one or two or three irresponsible individuals raised technical objections to the names being placed on the voters' lists at a time when it was not possible for the men whose names were objected to to get a fair and speedy hearing. If 485 residents of one district could be deprived of their right to vote because of "the simplicity of the procedure in making up voters' lists in British Columbia," is it not about time that the procedure be changed?

If the procedure in making up voters' lists in British Columbia is so fair as the Conservative newspapers would have their readers believe, why is it that the men who have been appointed commissioners for taking affidavits under the Elections Act are all of one political party? It may be stated that 500 men have been gazetted in the last two years as commissioners to take affidavits, none of whom are Liberals. Of course, if the assertion is true, that Liberals are not to be trusted in British Columbia because members of that party are crooked in Ontario, then the people of the province should feel grateful to the Conservatives for protecting the good name of the province. But, somehow, such an assertion will not be accepted by people who have had dealings with Conservatives who got their political schooling in Manitoba. —Prince Rupert Empire.

Provincial Items

The B. C. Provincial government has subscribed $10,000 towards the nationalisation of Quebec battlefields.

The incorporation of the Phoenix Mining and Development Co., capital $1,000,000, in shares of $1, is gazetted this week.

Archie Clements, formerly C. P. R. agent at Grand Forks, was made on June 1, general freight agent at Vancouver.

Phoenix Knights of Pythias have elected the following officers: F. C. Graham, C. C.; R. J. Gardner, V. C.; W. X. Perkins, Prelate; J. W. Hannam, M. of W.; S. J. Matthews, M. at A.; R. H. McCracken, K. R. S.; F. S. Lundie, M. of F.; G. W. McAuliffe, M. of E.; Jas. Bateman, I. G.; G. L. Elkins, O. G.

According to the results of Commissioner King's investigation, the Vancouver riots will cost Canada $50.000, of which $25,000 will go to Chinese and $8,000 to Japanese claimants.

Revelstoke is getting excited over the possibility of the route from there north via the Big Bend and Canoe rivers to the G. T. P. line, being chosen as a supply route. Revelstoke is 180 miles from the new line, and 140 miles of the distance is good water transportation.

Nine million feet of lumber belonging to the Patrick Lumber Company, in boom on the Slocan river, went out and down the river on Saturday last. The loss is said to be about $60,000. The boom was situated about four miles from the junction of the Slocan and Kootenay rivers, and about twelve miles from the Columbia river. There are several mills on the Columbia river, and it is hoped that their booms will catch most of the logs as they go down.

The Registrar-General has issued his report on vital statistics for the year 1907 under the Births, Deaths and Marriages Acts, statistics which do not include Indians. The returns are, among other things, noteworthy for the very considerable excess of births over deaths, which is remarkable in a new country containing more than the usual proportion of unmarried persons. In 1907 there were 3,047 births registered, 2,396 deaths and 2,025 marriages. These figures show a very appreciable advance since 1906, when the figures were 2,470 births, 1,778 deaths and 1,587 marriages.

The Fruitful North.

The Department of the Interior recently issued an interesting map of Canada, on which it superimposes the Siberian province of Tobolsk, in its correct position as to latitude. The entire province falls several degrees north of Edmonton, Alta., and covers the Peace river, Great Slave lake and the eastern side of the Great Bear lake district. In 1900 Tobolsk had a population of 1,438,484 people. Its grain yields in that year were;

Wheat	6,480,000 bushels
Rye	3,130,358 bushels
Barley	172,916 bushels
Oats	10,617.823 bushels

It also has about 3,000,000 head of live stock and an annual export of butter exceeding $1,500,000.

MINING

The Poland-China mine, near Molson, Wash., has been closed.

The Japanese company operating the copper-gold mines at Ikeda bay, near Jedway, Q. C. I., will increase their shipments from 200 to 2,000 tons monthly next month. The ore goes to the Ladysmith smelter and runs 12 per cent. copper, $5 in gold and 60 ounces of silver per ton. The vein varies in size from 5 to 11 feet, the narrower vein carrying a higher grade ore. The superintendent of this mine is a white man. There are 87 men employed.

The Swede group at Jedway, a large low grade ore body, is said to possess the magnitude of the Granby with a higher grade of copper. It is owned by Johann Wulfsohn, of Vancouver.

Work on construction of the Golden Zone stamp mill near Hedley, has been progressing satisfactorily. The owners of the Golden Zone are cutting a trail from the mine to connect with the end of the wagon road.

Hydraulic mines on Downie creek, on French creek, and on McCullough creek in the Big Bend district north of Revelstoke, will be worked this year. Fifteen men are already at work on French creek.

Sales were completed last week of 40,000 shares of Diamond Vale coal stock at 25 cents, in two lots of 20,000 each. It is expected that the townsite of Diamond Vale, located close to the mines, will be put on the market shortly.

Work has been completed upon the two tramways at the Hewitt mine, Silverton, and the mill is now being fitted up to treat the ore in the same neighborhood. The Fisher Maiden is to be reopened in the beginning of this month by Spokane capitalists who acquired the property some years age.

Sam Hunter, of Kaslo, and Ole Larsen, of Whitewater, who own the Mayflower and Hilltop on Sheep creek, near Salmo, have some good ore. Assays have given 16 ounces gold, 64 ounces silver, and as high as 7 per cent. copper.

W. Fleet Robertson, Provincial Mineralogist, is on his way to visit the new placer strike on the Findlay river. He left Vancouver on the 4th of June and will go directly to McConnell creek, going from there to Thutake lake, on the headwaters of the Ingenika, and down thence to the Findlay river. Mr. Robertson's visit will be appreciated, as it will do a great deal to give reliable information about the geological conditions of the country as well as accurate data of the much advertised strike on McConnell creek. The Findlay river country has, of course, never been properly explored. Mr. Robertson will be away probably three months.

A Razor new every morning is what you can have with one of A. L. White's Everyman's Wet or Dry Hones, price $1.50.

MRS. MURRAY, graduate in vocal and instrumental music, is prepared to receive pupils in piano, organ and voice. Latest Conservatory methods taught. Class in Greenwood, Monday, Tuesday and Wednesday; Midway, Thursday; Phoenix, Friday and Saturday. For terms and further particulars apply at room 34, Pacific Hotel.

Fruit Industry

Profits from Fruit.

Two hundred and forty dollars per acre is the return from fruit growing, estimated by Prof. W. S. Thornber, of Washington State Agricultural College, for what he calls the inland upland region of that state east of the Cascade mountains, which is very similar in character of the soil, in climate and in altitude to the Kettle valley fruit lands. The following description will explain:

"The inland upland region is east of the Cascade mountains and is characterized by an altitude of from 1,000 to 3,000 feet, an annual average rainfall of about 19 inches, a deep, rich soil, retentive of moisture, cool nights, clear days. Besides peaches, pears, and apples, these inland valleys are adapted to apricots, cherries, European as well as American grapes, and all kinds of small fruits.

"The commercial fruit growing of this region is confined almost entirely to the production of winter apples and pears. Sweet cherries, peaches and apricots may be grown in favored spots, but the sour cherry is one of the marvels of this region, and as soon as the dryers and evaporators get to handling this fruit, the upland regions will produce dried and evaporated cherries for the world's markets. The following data was secured from two distinct sections of this region and illustrate what is possible:

"A small unirrigated orchard of King of Tompkins County apples, in the vicinity of Spokane, yielded at the rate of 32 boxes of marketable fruit a tree, which was sold in Spokane markets at $2 a box. Estimating 40 trees an acre, which is ten less less than the average orchard, this would total $240 an acre.

"The possibilities of the land in the immediate vicinity of Spokane may be shown by mentioning that the gross receipts for an acre of dewberries, grown under irrigation, were $1,650, and that nearly a third of an acre of strawberries yielded $200 worth of fruit in the spring crop, and more than $100 in the fall, making a gross yield of $900 to the acre."

Growing Potatoes.

Few things seem so simple of cultivation, and few things reach the market in a worse condition than potatoes. The irrigation or the drainage of the land seems to be the great difficulty. Too much water before the tubers are set, leaves the plant open to attacks of disease which will result in serious injury throughout the growing season. If the tubers have a chance to form in a comparatively dry soil, the majority of them will be formed at one time; then when water is applied all will have an equal chance to develop; the result should be a crop of even-sized potatoes.

In irrigating the water should always run shallow in the furlow in the furrows, never deep enough to stand around the tubers, but a sufficient amount applied so that the moisture may seep up into the ridges. In this way the soil about the growing tubers may be kept damp but not soggy. This is the ideal condition for the potato plant, but unfavorable for the growth of potato diseases.

An effort should be made to keep the soil moisture uniform by frequent light irrigations. If the ground is allowed to become dry, the growth of the tubers is checked; then when water is again applied, second growth starts in, which results in nobs and irregular growths. The tubers of some varieties crack badly under this treatment.

It is essential that the potatoes should mature in comparatively dry soil. If the soil is kept wet until harvest time, the tubers contain an excess of moisture and this necessarily results in poor quality. Then, too, potatoes dug when the soil is wet present a poor appearance on the market, because of the quantity of soil that is bound to stick to them.

In order to have the soil in proper condition at digging time, and the potatoes of the best quality, it is necessary to stop irrigation three or four weeks before the usual time for frost.

FOREST PRESERVATION

Important Factor in Harboring Natural Resources.

The following suggestions were held out by G. O. Buchanan, of Kaslo, in a recent lecture on forest preservation:

That the acquisition of timber lands even under 21 year licenses, is likely to be a good investment.

That B. C. should have a forestry commission, and that every acre of timber lands, the title of which remains in the province, should be turned over to the control of such commission.

That fire protection should be under the supervision of a body of men of the training, discipline and freedom from political influence of the Northwest Mounted Police.

That the first department of the B. C. University to be equipped should be—not one of mining, nor agriculture, nor of law, nor even of arts, but of forestry. That the endowment lands should be turned over to such department. That funds should be provided (chargeable against the lands), for their protection against fire, and for the beginning, at least, of the work of forest improvement. Such work to be carried on by the staff and students of the forestry school.

That all lands in B. C. in the interior above 4,000 feet in altitude, and on the coast above 3,000 feet, should be at once and forever reserved from every form of alienation of title. Mining and lumbering under strict supervision as to forest protection, to be provided for.

That the cutting of immature timber should everywhere be prohibited. That the use of hewn ties by the railways be at the earliest possible moment discontinued, and sawn ties be substituted.

That the manufacture of lumber in advance of requirements be in every way discouraged.

That, the Indians be bribed by bales of silk to cease the stripping of cedar trees on Vancouver island, and by barrels of sugar to cease the girding of pines in East Kootenay.

That the balance of timber on provincial lands be for some time to come retained by the government (or by the forestry commission if formed.) That the government be advised to offer liberal terms for the surrender of existing licenses and leases. That the largest possible amount of timber be withdrawn and kept off the market, the government retaining it, with a view to future revenue possibilities, and also to prevent the acquisition by middlemen of a monopoly, such as may easily in the near future become one of the most oppressive that can be imagined.

That the Dominion government be advised that the present is a most inopportune time for the enforcement of an order recently made by them, requiring lessees in the 40-mile belt to cut their timber, and that the operation of such an order should be suspended.

That nothing contained in this paper is to be construed as intended to deter any person present from making investments in such timber berths as are in the open market.

PIMPLES AND BOILS

Healed by Zam-Buk.

Mr. Joseph Arsnault resides at Caseumpec, P. E. I., and says: "About five months ago sores broke out on my body. They came in the form of small pimples which discharged. These sores would grow until they got as large as a nickel. I used carbolic salves without effect. I saw Zam-Buk advertised in the papers and secured some, and daily applications of this healing balm for one week effected a permanent cure. Since then I have recommended Zam-Buk to my brother for boils on his knee, and also used it again myself for a poisoned finger, in both cases with marvelous results. I cannot recommend Zam-Buk too highly."

Zam-Buk, the great skin healer, can be obtained at any drug or general store for 50 cents a box, or post paid from the Zam-Buk Co., Toronto.

Copper HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.

Scope: The Copper Industry of the World.

Covering; Copper History, Geology, Geography, Chemistry, Mineralolgy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.

The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

HORACE J. STEVENS

453 SHELDON BUILDING, HOUGHTON, MICH., U.S.A.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely *free* if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

Fanny Joe Mineral Claim, situate in the Kettle River Mining Division of Yale District. Where located: Wellington Camp (South)

HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 150 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

B. A. Isaacs, of the Nelson Iron Works, Nelson, was in town yesterday.

R. J. Sanders spent Sunday in the metropolis of the Inland Empire.

Mr. and Mrs. T. F. Sutherland of Greenwood, are on a visit here.—Vancouver Province.

James Dale returned from Spokane on Wednesday, and goes up the West Fork tomorrow.

Duncan Curry returned last week from Molson, where he was working on the Poland-China.

Mrs. Leo J. Stalls and Mrs. L. Y. Birnie, of Phoenix, were Greenwood visitors on Wednesday.

Jas. S. Birnie leaves Saturday for Victoria to attend the Masonic Grand Lodge, which meets on the 18th.

J. McDermid, who has been at his home at Bonners river, N. S., since January, returned to Greenwood this week.

A. E. Braithwaite takes a position in the store of P. W. George & Co. today, having come in from Bridesville yesterday.

Rev. Father McCullough, of Rossland, was the guest of Rev. Fathers Bedard and Hartmann on Tuesday of this week.

BORN—At the Sisters' Hospital, Greenwood, on Thursday, June 11th, to Mr. and Mrs. Geo. Pratt, of Mother Lode, a son.

Duncan McIntosh went to Spokane on Monday to meet Richard Armstrong. Both are expected to return to the city tonight.

John R. Reed, Canadian Westinghouse Co., Vancouver, is in the city. Mr. Reed is now manager of the Vancouver branch.

Howard Logan returned yesterday from Enderby, to take his old position in the Hunter-Kendrick Co.'s grocery department.

A. Harry Hook is fruit ranching near Robson. While assaying at the Nipissing mine, Cobalt, he contracted arsenical poisoning.

Marsh Miles, of the Greenwood Steam Laundry, returned Wednesday from Spokane, where he has been since the closing of the laundry.

J. I. Feeny and J. D. McCreath returned this week from a trip up the Kettle river. They went as far as Copper creek, about 75 miles from Greenwood.

Morgan Lewis, first violinist of Greenwood Orchestra, has arrived in the city and will be a welcome addition to musical circles here.—Forks Gazette.

Mrs. Stanton, formerly in charge of the boarding house at the Crescent mine, has taken over the dining room at the rooms of the Greenwood hotel and will provide clean board and fresh rooms for the people. Mrs. Stanton's reputation is for excellent housekeeping.

Miss Minnie Hart, who came to Greenwood from Burton-on-Trent, England, last fall, leaves tomorrow to take a position with a large music firm in Cranbrook. Miss Hart has furnished the music for a great many of the entertainments of this vicinity since her arrival here, and will be missed at them. Miss Hart is a graduate of the London College of Music, Marlboro street, London, Eng.

A Double Wedding.

A double wedding, which will be of very great interest to Greenwood people, was celebrated in Trail on Tuesday of this week. The contracting parties were Rev. S. Lundie, Presbyterian minister of Phoenix, and Miss Clarke, sister of James Clarke, of Gulley & Co.'s undertaking business, Greenwood, and James Dewar, of the Hunter-Kendrick Co., Phoenix, and Miss Lundie, sister of Rev. S. Lundie, who has also been residing with her brother. Miss Clarke's mother is living in Trail, so that both weddings were celebrated at her home.

TOWN TOPICS

The Rebekahs last night had a social evening, with dancing, in Miller's hall.

Quite a number of Midway people attended the baseball match, Chesaw v. Greenwood, on Sunday.

The Boys' Brigade turned out in full parade on Tuesday night. The boys are doing splendidly and should be encouraged.

The Eastern mails have been delayed this week, several days' mail having been held up by the floods on the N. P. and G. N. in Montana. Part of the mail came in last night.

At the meeting of the License Commissioners held on Tuesday, all existing licenses were regranted and the license of the Victoria Hotel transferred to the name of James Cameron. Mayor Bunting and Alderman Sutherland were present.

The election returns from Ontario and Quebec were received in the city by special service on Monday night, and were posted in the Rendell block. The interest excited here was about the same as, perhaps, a little more than, in Ontario.

If you want to rent or buy a Piano or Organ see A. L. White. He has 'em.

An Ice Cream and Strawberry Festival will be held in Anderson Bro.'s old store on June 18. Doors open in the afternoon from 3 to 6. Admission free. In the evening doors open at 7:30, when the orchestra will be in attendance Admission, 25 cents.

J. J. O'Malley, R. O., the Eyesight Specialist, of Grand Forks, B. C., will be at the Kootenay Hotel, Monday to Saturday, June 15th to 20th. As I am permanently located here you are guaranteed first-class work at right prices. Save your eyes for me.

Fishing Tackle, Rods, Reels, Lines, Flies, etc. It pays to deal at McRae Bros.

Notice has been received at the postoffice that the mails will, starting next Monday, leave Greenwood for the east via. C. P. R. at 3:55, instead of at 3:20 p. m. The mail from the east is due here at 3:55, which means that the trains to and from Nelson will cross at Greenwood.

An excellent topographical map of Rossland camp, issued by the Geological Survey branch of the Department of Mines, was received at this office this morning. The map gives most minute details of the development of the camp, along with particulars of altitude, geological formation and a verp accurate description of the contour of the hill.

A reduction of 25 per cent. on last year's Wall Paper looks good to many. How about you? This reduction means money saved. McRae Bros.

The Windsor Hotel was purchased this week by Chas. McClung and Harry Goodeve. Mr. McClung has been manager of the hotel for nearly two months now and has had a previous experience of several years in the hotel business in Phoenix. Mr. Goodeve is also an experienced man at the business. They should be able to add another to the list of Greenwood's superior hotels.

Low prices combined with high quality conduce to economy. This combination is pre-eminent in our new 1908 Wall Paper stock —McRae Bros.

Kinney & McDonald have secured the services of one of the best horseshoeing experts in the northwest, to take charge of this part of their business. A. A. Luke of Spokane, is the man, and is now doing all the horseshoeing at their shop on Copper street. Mr. Luke has been doing the shoeing for Spokane's best horsemen and is considered to be away up in the game. As a result more satisfaction than ever ought to be received by the public from Greenwood's horseshoery.

A dance will be given at the Mother Lode tonight. It is just a social dance, where a real good time is expected. There is also a dance of a similar kind tonight in Sam Larsen's Riverside Hall, at Rock Creek.

Granby's Dividend.

After passing two dividends, in December and March, on account of the low price of copper, the Granby Consolidated has declared a dividend of two per cent. upon the 135,000 shares of the company's stock outstanding. The dividend is due and payable out of the net earnings of the company on June 13th, 1908. The dividend amounts to $270,000.

This will be the ninth dividend declared by the Granby Consolidated. With the exception of the first, paid in December, 1903, all previous to this dividend have been paid at the rate of three per cent.—a dividend of two per cent., and an extra dividend of one per cent.

The dividends paid are as follows:

No. 1—December, 1903	$133,630
No. 2—January, 1906	405,000
No. 3—February, 1906	405,000
No. 4—September, 1906	405,000
No. 5—December, 1906	405,000
No. 6—March, 1907	405,000
No. 7—June, 1907	405,000
No. 8—September, 1907	405,000
No. 9—June, 1908	270,000
Total	$3,238,630

AT THE CHURCHES

PRESBYTERIAN—Services will be conducted morning and evening, 11 a.m. and 7.30 p.m. Rev. M. D. McKee, Pastor.

METHODIST—Rev. F. J. Rutherford B.A., will conduct services as usual at Methodist Church morning and evening Services every Sunday, morning and Sunday School at 3.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. J. A. BEDARD, O. M. I. pastor.

CHURCH OF ENGLAND (St. Jude's)—Morning and evening. Matins, 11 a.m. Evensong, 7:30 p. m. Sunday school, 2:30 p.m. Holy Communion, 1st, 3rd and 5th Sundays at 8 a.m; 2nd and 4th Sundays after Matins at 11 a. m. Saints' Day services as announced in Church. Rev. F. Vernon Venables, Vicar.

LICENSE ACT, 1900.

TAKE NOTICE that I, Evan O. Lewis, of Boundary Falls, intend applying to the Superintendent of Provincial Police, at the expiration of one month from the date hereof, for a renewal of my hotel license for the premises known as the Smelter Hotel, at Boundary Falls

Dated at Boundary Falls, the 7th day of May, 1908. Signed, E. O. LEWIS

Application for Liquor License.

In thirty days from date, I intend to apply to the Superintendent of Provincial Police for a renewal of Liquor License for the premises known as The Riverside Hotel, Rock Creek, B.C., to commence on July 1st, 1908.

S. T. LARSEN, Applicant,
May 1st, 1908. Rock Creek, B.C

They retain all the good features of Fit, Finish and Quality of

Campbell's Clothing

but ABOVE ALL, they are ABSOLUTELY FAST COLOR.

This is one of the most important items for you to consider when you think of buying a serge suit.
