## DOMINION OF CANADA

Forty-three years ago Canada came into being, a series of inharmonious communities, with little in common and many bones of contention. Ontario celebrated the occasion joyously. Quebec was non-committal. The Maritime provinces were almost rebellious. Many of their newspapers were published with mourning borders on Canada's first natal day.

Forty-three years ago the Canadian west was an almost unknown wilderness inhabited by fur traders, Indians and buffaloes. At that time there was no means of communication between eastern and western Canada except through the United States. Canada was a struggling, discordant series of settlements stretching from the Great Lakes to the Atlantic.

Today she is a growing young giant among the nations. With a second and third transcontinental railways nearing completion, with her tremendous areas of wheat land which have barely begun to be tilled, have advanced Canada to the fifth place among the wheat producing countries of the world; with great busy cities springing up all over the map; with the old towns now swarming hives of industry; with commerce growing in leaps and bounds, population pouring in from Britain, Northern Europe and the United States, Canada is now the pride of the eyes of the world.

The dreams of Macdonald, Tupper, Cartier, Brown and all the other "fathers of confederation" of the future of Canada, are even now being realized. And every year sees a giant stride of progress. Canada is becoming the home of a contented and happy people, under the most liberal form of government in the world, a land where personal liberty is sacred, where the laws are as just as human men can make them and where they are enforced.

Canada enters upon her forty-fourth year in high hope, earnest in purpose, optimistic of the future. Surely we are a people blessed by Providence with the privilege of living in this the most glorious country in all the world. No other land looks so good to the people who live in Canada. With her thousand leagues from sea to sea and every kind of land between, from British Columbia's grand old mountains, across the waving prairie, down to old Ontario, land of the maple leaf; Quebec with her quaint, old-fashioned home life, and on down to the Atlantic; every province with a charm of its own, all united into one splendid Dominion, Canada is a country of which to be proud; it is a glory to have been born in it, a privilege to live in it and a joy to work for it.—Saturday Sunset.

## GREENWOOD CITY COUNCIL

The City Council met in regular session Monday evening, July 5, at 7:30 p. m. Aldermen D. Sutherland, McKee, Craig and Buckless being present.

Moved by Alderman Dixon, seconded by Alderman Craig, that the minutes of the previous meeting be adopted as read. Passed.

An estimate of the cost of repairing the South End bridge, amounting to \$269, was received from Kenneth McKenzie.

The quarterly report of receipts and expenditures was read and ordered filed.

Committee on fire, water and light reported that the \$20 ordered was paid to the B. C. Copper Co. for repairs to the South End bridge.

Moved by Alderman Craig, seconded by Alderman Buckless, that Kenneth McKenzie's estimate be handed to the Street committee, and the matter of repairing the South End bridge be left entirely with the committee. Carried.

Moved by Alderman Dixon, seconded by Alderman McKee, that the Health committee have the gate at the cemetery repaired and to interview T. M. Gulley & Co. in regard to the lots. Carried.

The Finance committee reported the following accounts as correct:

C. Gauvreau, \$3; City Water Works, \$123.25; E. W. Bishop, \$43.75; Kinney & McDonald, \$6.50; M. Craigie, \$100.50; Russell-Law Co., \$13.20; J. W. McNeil, \$26; C. J. McArthur, \$6.75.

Moved by Alderman Sutherland, seconded by Alderman Buckless, that the report be received and the accounts paid. Carried.

Alderman Dixon in the absence of Alderman Sater, asked leave to introduce Bylaw No. 5, 1910, an amendment to the Revenue bylaw.

Moved by Alderman Buckless, seconded by Alderman Sutherland, that leave be granted. Carried.

Moved by Alderman Dixon, seconded by Alderman Craig, that Bylaw No. 5, 1910, be read a first and second time. Carried.

Moved by Alderman Sutherland, seconded by Alderman Buckless, that the council go into a committee of the whole to consider Bylaw No. 5, 1910. Carried.

The committee rose and reported progress and asked leave to sit again. Moved to adjourn until 8 p. m. Monday, July 11th. Carried.

## CLOSING EXERCISES

The closing exercises of the public schools were held on the morning of June 30th. The school trustees and many visitors were present. The regular classes were conducted and their work observed. The manual work on exhibition in Divisions II and III was much admired by the visitors. Honor rolls for proficiency, deportment, punctuality and regularity were distributed in each of the divisions.

Miss MacKenzie, who is leaving to take a position in the Nelson public schools, was the recipient of several presents from her class. Much regret was expressed at the loss of such an efficient teacher.

Five pupils from Greenwood public school, Mrs. McArthur, Gertrude McIntyre, Gladys Pickard, Frances Rowe and Lottie Sutton are in Grand Forks this week writing on preliminary examination of the high school courses.

## GREENWOOD'S CELEBRATION

Favored with beautiful weather in the morning, but unfortunately was ruined by showers of rain during the afternoon, a large influx of visitors from our surrounding towns had a most encouraging effect, and gave our sporting events lively enthusiasm. The following sports were carried out:

The football match between Phoenix and Mother Lode teams was well contested and the play was very close. Phoenix winning by 3 goals to 1. It is understood that the Mother Lode team has challenged for a return game.

In the baseball tournament Grand Forks won the bye, Phoenix and Greenwood playing first at 2 p. m.

Rain partly spoiled this game. The home team took an early lead and won, 7 to 3. Strutzel for Phoenix and Brown for Greenwood both pitched good ball, and Phoenix could not hit with men on bases.

The second game between Grand Forks and the home team was a very pretty and exciting game, going 11 innings. Greenwood lost the game in the last half of the ninth. With the score 4 to 4, two out and two on bases, Brown hit a long fly which Lamb failed to hold, and stupid base running by the home team lost the chance to score and the game, as Brown showed the effects of pitching 18 innings, and the Forks scored on two hits and two infield errors. Score 8 to 4.

Wright for Grand Forks pitched a good game, and was well supported by Lang, Reid and Haverly.

Brown, Thompson and Russell played good ball for Greenwood. Thomas made a pretty one-handed catch of a fly in short right field.

All the teams were pleased with the treatment received here, and want to come again.

Bert deWeile refereed the football match and showed an intimate knowledge of the rules of the game.

Jake Sanders and Bill Fleming umpired the ball games to their own satisfaction. Both had a few friends before the games and none after.

## TEN YEARS AGO

D. A. and Mrs. Cameron leave tomorrow for Seattle, where Mr. Cameron assume charge of the of the Canadian Bank of Commerce.

A fine assortment of ores from the different mines, collected by Mr. E. Jacobs, is being boxed up for the display at Winnipeg exhibition.

## CHANGE OF LAND LAWS

Donation Lands Railway Belt British Columbia. The date for the coming into force of the new regulations has been changed, and a new date will be set later. Until further notice no entries to be granted in the New Westminster district and east of range thirteen west of sixth meridian inclusive.

The Zeppelin party sailed north to arrange preliminaries of a balloon trip to the pole.

## HARD LOT OF EASTERN LABOR

"The position of the average workman in the New England states today is one of almost semi-starvation; a bare living, a sordid existence, this is the lot of the great mass of the workers in the Land of the Pilgrims."

In this manner spoke Mr. W. G. Walker, of the old-established firm of the Confectioners' Machinery and Manufacturing Co., Springfield, Mass., to a Vancouver World reporter recently.

"Indeed," continued Mr. Walker, "if some change does not take place it looks as if a revolution will be the only result which can grow out of such a state of affairs. The men have tried strikes, but the fact is the average New England Workman cannot keep the wolf from his door long enough to make his effort effectual, and therefore his endeavors in this respect but render his condition the more difficult."

"The cost of living has risen rapidly in the United States during the last few years, and still continues to rise, while the wage scale remains practically where it was a decade ago. The consequence is that the laborer—the man who really needs substantial food, is forced to exist on a shamefully low grade diet."

## DOGS POISONED

Another slaughter of the canines has been effected by the brute in human shape, who has added half a dozen more to the list of poisoned dogs this week. He will have a hot time when caught, and they are hard on his trail now.

King George has pardoned all deserters from the British army.

## TOO FEW MAIL CLERKS

Because there are too few mail clerks handling the business on the government mail cars on Canadian Pacific trains in the West, British Columbia people are just now getting a poor service in portions of their Eastern Canadian, American and British country mail.

A train which arrived recently in Vancouver brought 100 sacks of mail destined for various places in British Columbia from Field west, and which should have been handled east of the British Columbia boundary line. The railway mail clerks are supposed to handle all mail destined for this province before the train reaches Field. Thus a package for that place is put off as the train comes through. But on this occasion, as on several others recently, all the mail is sent to Vancouver in bulk and there sorted. A letter destined for Field gets back there about three days late.

## THE PRIZE FIGHT

The issue of our paper being many days after the contest, makes it unnecessary to give the performance in detail. The remarkable publicity given this event is now familiar to all.

Johnson appears to have been "it" from the start or drop of the hats and to the large percentage of the onlookers, the decided failure of Jeffries to make good, was a bitter disappointment to a vast multitude of present as well as absent partisans. Every dog must have his day. Jeff has had his, and his retirement now for good is in order, and he had better do so and cry quits.

A great strike is threatened on the Pennsylvania railroad.

GREENWOOD

Criticism of the management of our town's affairs by our city council is very generally indulged in at present by those affected by recent license laws and by their friends who sympathize with them.

The cutting down of the hotel licenses from twelve to five means a terrible shrinkage of revenue to the city's finances, but who to hit and who to allow to go on, is a most vexed and mighty hard to determine matter.

gary and Vancouver has only one line running through it. Of course, I understand that the Grand Trunk Pacific and Canadian Northern Railway are pushing their lines to the coast as rapidly as possible, but as yet that vast country is only connected by one line.

"In conclusion," said Mr. Bullen, "I would like to correct the impression of the old country which is so prevalent in Canada today and which vulgarly is: 'The old country is no good except to borrow money from.' Canadians must not judge the old country by the remittance man or the Cockney immigrant.

OUTLINES OF CURRENT EVENTS

The Pope has declined to accept the resignation of Cardinal Merry Dal Val.

Theodore Roosevelt will take part in the New York political campaign in the fall.

Dr. Hyde, who murdered Col. Swope, the Kansas millionaire, has been sentenced to imprisonment for life.

Bush fires at Moyie have done considerable damage. One item is 200 cords of wood which was ready for shipment.

Jack Griffiths, of Phoenix, who was recently shot in the head while hunting in the Boundary, is improving and will soon leave for Wales.

Vancouver stands a full chance of having the dry docks there, which, when completed, will afford facilities for docking of the Dreadnaughts.

A bull and cow moose were seen swimming the river at Fort George the other day, but they were not molested, not even by the real estate agents.

After all, the touring of the country by the University site commissioners, it looks like a foregone conclusion that Victoria was to have the university.

The False Creek bylaw which was passed at Vancouver by a large majority, gives assent to the agreement between the city and the V., V. & E. railroad.

Italy demands the extradition of Charlton from the United States to face trial in Italy for the murder of his wife at Lake Como. The indications are that this is going to cause strained relations between the two countries.

The conference between the government and the opponents on the veto question of the house of lords has apparently proved a failure, which will necessitate an autumn session to deal with these relations between the two houses.

A new cot at the Charing Cross hospital, London, Eng., which was dedicated recently, will be supported by Boy Scouts. The necessary amount has been guaranteed by W. G. Whitby, chief scout commissioner, but the boys themselves will raise the money.

At Stewart, on Portland canal, there are about 1,000 people in the camp, but only about 500 actually working. Miners draw \$4 a day, and the wage for a man and team is \$12 a day. Hay is \$28 a ton and oats 80 a ton by the car-

load. Carpenters draw \$5 and \$6 a day, and board is \$8 50 a week.

Within two weeks from June 27 the installation of railway telephones in all Great Northern stations between Seattle and St. Paul, a great task begun two years ago almost to a day, will be completed and the old Morse telegraph key and the telegraph system of hauling trains and train orders will disappear forever from the Hill system.

ENGLAND VS. GERMANY

The kaiser and kaiserina are said to be planning to marry their only daughter to the Prince of Wales. A marriage with the future king of England would suggest political advantages of far-reaching proportions. Close dynastic ties between Great Britain and Germany have, of course, not been able to prevent strained relations and bad blood between the two countries, but it is believed in Germany that if the kaiser's daughter should become Great Britain's future king's consort, the danger of Anglo-German hostilities would become remote to the vanishing point.

WELL KNOWN ACTRESS

Joan Sawyer, a clever handsome actress, has this to say of Parisian Sage: "To whom it may concern: Have tried most every hair tonic available, and at last Parisian Sage was recommended to me, and, as a last recourse, used it to entire my satisfaction. My hair has stopped falling, dandruff stopped, and my hair has grown two inches in the last seven months. It is the best and only cure for thin and short hair I know."

The conference between the government and the opponents on the veto question of the house of lords has apparently proved a failure, which will necessitate an autumn session to deal with these relations between the two houses.

A new cot at the Charing Cross hospital, London, Eng., which was dedicated recently, will be supported by Boy Scouts. The necessary amount has been guaranteed by W. G. Whitby, chief scout commissioner, but the boys themselves will raise the money.

TROUBLE SETTLED

The commercial world will note with relief that there is no probability of any disturbance in the telegraph business for a long time to come. The announcement was made recently that the wage dispute between the Canadian Pacific railway telegraphers and the company has been settled. The company made an offer of an all round increase of \$5 a month per man, to go into effect at once. This was by way of a compromise, and was accepted by the representatives of the men who have already returned to their homes. The increase amounts to about 7 per cent, and will effect several thousand men.

**MINES AND MINING**

Eight car loads of machinery were received at the Hedley gold mines recently.

A total of 1,384 tons of zinc was shipped last week from the Kaslo mines.

J. B. Tierney, a railroad contractor, has organized the Portland Canal Nelson Mining company.

The Brooklyn, a property of the C. Copper Co., is being unwatered with a view to diamond drill exploration of the ground.

Harry Johns is superintendent of the Rawhide mine at Phoenix. This mine will soon be shipping 1,000 tons of ore daily to the smelter at Greenwood.

Of the mammoth gold reef find at Stewart, it is said that a thousand stamps could be used for a hundred years. It is many miles in extent and over 200 feet wide.

The first annual meeting of the New Dominion Copper Co. was held in New York on June 6th. A report covering the fiscal year showed a balance of \$307,502 on hand.

The famous Highland mine at Ainsworth, at one time the largest shipper in Canada, has been acquired by the Kootenay Silver-Lead Mines, Limited, a new company, that has been incorporated with a capital stock of \$2,000,000 by leading capitalists of Vancouver.

Thirty thousand dollars' worth of ore was stolen recently from the Lucky Godfrey mine, at Cobalt, by employees. The ore was stripped from the vein matter and refuse and placed in bags. The theft was discovered upon the arrival of a shipment at a smelter.

The four mile aerial tram at the No. 7 mine is now completed and the ground tram between the tunnels

of the mine is now under construction. The new ten-drill compressor was put in operation last week, and mine development will now be actively carried on. There are about 50 men employed, and within a short time the property will be producing.

An occasional ore strike has recently been made in the vicinity of Camp McKinney. A short time ago W. Younkin, when digging a well on his pre-emption ran on a nice vein of quartz and galena ore of fair values, and a similar exposure opened Ed. Hollinge and Jim Campbell on the Lulu claim. A fine section of country lies between McKinney and the forks of Rock creek, which a few years ago was covered with mineral claims, but since the old camp was deserted and capital could not be coaxied to look at likely prospects on the outskirts some of the old guard who would not desert them, have turned the ground covered by the mineral claims into pre-emptions. By the irony of fate the fickle goddess of Fortune, which was ever ready to flout them when they sought her offerings by means of the prospecting pick, is now ready to guide their blind footsteps on to ore ledges, when, like other backwoods ranchers, they got to dig a well. —Hedley Gazette.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested, causing numerous diseases. The Stomach and Liver must be restored to a healthy condition, and Chamberlain's Stomach and Liver Tablets can be depended upon to do it easily, safely and most effectively. **FAMOUS PEOPLE**

EARL GREY  
Photo by Russell & Sons, London

**Canada's New Governor-General**

Earl Grey, the brother of Lady Minto, does not come to Canada as a stranger, for he has been a frequent visitor at Ottawa during Lord Minto's régime. He was born in 1851 of an old Northumberland family living at Howick since the sixteenth century. His grandfather, the second Earl Grey, was the Whig Prime Minister who carried through the Reform Bill in 1832.

Alfred Henry George Grey, the new Governor-General, does not need to fall back upon a family tree for a record, as he has made his own name secure. He was educated at Harrow, Trinity College and Cambridge, taking high degrees in history and law, and at an early age entered politics, being for six years a member of Parliament. In 1894, while he was making an extensive tour of South Africa, word came to him of the death of his uncle, to whose title and estates he succeeded.

Earl Grey was a close friend of Cecil Rhodes, and was the one man who knew how to manage him; and on more than one occasion when the Colossus of South Africa threatened to cut loose from the mother country and make Rhodesia an independent republic, the gentle firmness and influence of Earl Grey made the threat fade into thin air. He is one of the executors of Rhodes' will, and has an influential voice in the Rhodes scholarships.

After the Jameson raid in 1896, he succeeded to the administration of Rhodesia, and here his strength of mind and purpose, his knowledge of men and methods, his tact, diplomacy and personal magnetism enabled him to ride bravely over many obstacles. He has the courage to take the initiative whenever it seems right to branch out into new lines of effort, and is a strong lover of humanity. On his large estates he has successfully carried out his ideas of cooperative partnership; he is the organizer of the Public House Trust Company, which takes over and manages the saloons of England in the public interest. At a labor meeting in Scotland a few years ago he stated his belief that the gigantic trusts of the United States could be checked only by a cooperative plan, limiting the interest to five per cent. and prohibiting the sale of shares in the open market.

Earl Grey has clear-cut features; dark eyes, a slight patch of hair, making an oasis in the desert of his baldness, a military bearing and a quick, energetic, decisive manner. His family consists of his wife, his son, Viscount Howick, and his three daughters, Lady Victoria Grenfell, Lady Sybil Grey, and Lady Evelyn Alice Grey.

Entered according to Act of the Parliament of Canada, in the year 1904, by W. G. Mack, at the Department of Agriculture.

**ARE GOOD DETECTIVES**

The Mounted police of the west have a well established reputation for tracing criminals and bringing them to justice. A notable case was that of the Skagway murderer, whose capture, trial and conviction cost \$150,000. It was worth the money as a notification to the criminally disposed that the chance of escape will for them be worth very little. Recently they have, after a similarly persistent but less difficult inquiry, brought home the crime of murder to a man who murdered his comrade in the wilderness north of Edmonton. By skillful detective methods, the chain of circumstantial evidence was wound about him till the time came for his arrest. He has been sentenced to death by hanging at Fort Saskatchewan. Evidently the Mounted Police cannot be dispensed with for some time to come. It pays the country in the long run to make the administration of justice certain.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by all druggists and dealers.

**DIVISION AT PENTICTON**

Penticton is to become the principal division point of the Kettle Valley railroad, according to an announcement made at Vernon by James J. Warren, the president of the company. Mr. Warren stated that he was ready to put in gangs of men on construction work at Penticton as soon as he could make arrangements for lake shore frontage and right of way. Mr. Warren's proposal is thought to be a very liberal one. He asks for a deed to about 1,100 feet of lake shore for the depot. He will purchase the right of way through the town and also the necessary ground for a round house and yard. A wharf will be built 900 feet in length at a cost of \$50,000. Mr. Warren stated that the Penticton pay roll would probably amount to \$60,000.

**CANADA YEAR BOOK**

Our thanks are due the statistical department at Ottawa for the receipt of the Canadian Year Book for 1909. This most excellent work is really one that fills an every day want with information pertaining to every department of Dominion affairs.

All old people suffer from attacks of sudden exhaustion, weak heart action and prostration. The best aid in such cases is Ferrovim, the invigorating tonic which is prepared from fresh lean beef, Citrate of Iron and pure old Spanish Sherry Wine. It stimulates the digestion and strengthens the whole body. \$1.00 a bottle.

**VETO ON BRIDGE WHIST**

Representative de Rouen of the Louisiana lower house has given notice of a bill for "the absolute suppression of the playing of bridge whist."

"I am introducing this measure," declared Mr. de Rouen, "for the benefit of the children of my state, who rarely have an opportunity to know their bridge playing mothers. It also is for the benefit of husbands who hardly have a speaking acquaintance."

**SIGNALS OF DISTRESS**

**Greenwood People Should Know How to Read and Heed Them**

Sick kidney give many signals of distress.

The serious are dark, watery sediment.

Passages are frequent, scanty, painful.

Backache is constant day and night. Headaches and dizzy spells are frequent.

The weakened kidneys need quick help.

Don't delay! Use a special kidney remedy.

Booth's Kidneys Pills cure sick kidneys, backache and urinary disorders.

Mrs. M. R. Parr, of 262 John Street, St. Louis, Ont., says:

"I have found more actual relief after using Booth's Kidneys Pills than I did from any other remedy I used. I had suffered for several years with kidney and bladder trouble and after a short course of treatment with this medicine I have been cured. Miserable pains across my back which would extend up my spine and into the back of my head, frequent headaches and dizziness and kidney secretions that were scanty and contained a heavy sediment had me all run down. These troubles have all left me and I am pleased to give Booth's Kidney Pills my best wishes for success and my hearty endorsement. For sale in Greenwood by J. L. White.

**AFTER A WHILE**

The mother, tired, with aching head, from sweeping floors and baking bread, called to her daughter: "Susan, dear, I wish you'd help a little here." Fair Susan, in the parlor dim, was playing o'er a tender hymn; methinks it was "The Maiden's Prayer"—a melody beyond compare. She cried, while playing on, in style: "I'll help you in a little while." Her lover blew in unawares—a fine young man with princely airs. His heart was free from sordid strains; his head was full of high-class brains; most any girl would give her eyes to gather in so big a prize. He heard the mother's weary cry; he heard the damsel's flip reply. His bosom swelled with noble ire! His tawny eyes flashed streaks of fire! He cried: "Miss Susan Sarah Brown, it's up to me to turn you down! While ground hogs live and comets shine, you'll be no blushing bride of mine! The healthy girl who doesn't jump, and on her system get a hump, when her mother calls, I do not want; so get thee hence! Aroint! Avault! I'll hunt me up a damsel fair who passes up 'The Maiden's Prayer' when she has got a chance to chase the troubles from her mother's face!"—Walt Mason.

**REFUSES RECOGNITION**

Continuing his argument for the United States before the Hague tribunal, former Senator Turner pointed out that only Bolwering, Von Liszt and Jellinck had combatted the doctrine of international servitude, while the vast majority of authorities and the practice of nations confirmed the theory. The territorial sovereignty of England, he continued had been limited so far as its jurisdiction over fisheries was concerned, for the exercise of American fishing could not be hindered or hampered by English fishing laws.

**TOWN TOPICS**

D. R. Ackerman, of Phoenix, was a visitor to our city.

S. H. Stockman, of Spokane, was a visitor to town this week.

P. Pentecost, of Rock Creek, guardian of peace, was in town Monday.

Andy Sater, of the Norden hotel, is at present at Kendrick, Idaho, on a visit.

Duncan Campbell and John McInnis, of the No 7 mine are stopping at the Pacific.

E. E. Gibson, of the Kootenay Power Co., Grand Forks, is registered at the Windsor.

J. A. Tuzo, resident engineer of the K. V. lines, Midway, was booked at the Imperial Monday.

Archdeacon Beer, of Kaslo parish, conducted Episcopal services at St. Jude's church last Sunday.

Miss Alice McMynn, daughter of W. G. McMynn, has returned from Toronto, to spend her vacation.

S. Dahl, of Nicholson creek, also Edwin Hall, of Farron, were both registered at the Norden this week.

Mrs. Roy, of Midway, who has been ailing for some time was removed to the Sisters hospital Tuesday.

Leonard Vaughan, a fruit rancher, formerly of Grand Forks, has bought the Metcalf place at Hammond, B. C.

Miss D. C. Coldwell, of Cranbrook, sister of Mrs. Bert Taylor, is visiting and taking in the beautiful climate of Greenwood.

Thos. Morley, representing Mason & Risch piano house Vancouver, paid his regular business trip to Greenwood on Saturday last.

The Rev. Mr. Hilton, who will assume the position as rector of St. Jude's parish, succeeding Rev. Mr. Venables, will leave England for Greenwood about the 11th of August.

The following were registered at the Imperial hotel this week: A. C. McCorkie, of Vancouver; L. Kulyser, of New York; Fred Knight, of Grand Forks; A. H. Noyes, of Greenwood.

Greenwood Lodge of Free and Accepted Masons will attend divine service at St. Columba church, on Sunday morning, Bro. Rev. J. A. Petrie officiating. A cordial invitation is given to all sojourning brothers to take part.

Miss Cunningham, one of our popular city school teachers, left on Saturday last for a long hike to her Nova Scotia home. The change of diet from meat to fish will we trust make good, the strain upon her brain capabilities while pursuing her education of tender shoots at school.

There is on view and for sale at Russell-Law-Caulfield Co., store, a very beautiful black bear skin, mounted by Scott McRae, of Deadwood, and it is an excellent piece of work. It measures from tip of nose to tail 7 feet and 4 1/2 feet across. Take a look at it. It is well worth inspection.

Much regret is felt at the necessity of Mrs. Wm. Barnett to take her son Leo to the coast for treatment to his arm, which although broken some three years ago, appears not to have recovered its usefulness, but rather the reverse, as to render it quiet useless to him. They will consult the most eminent doctors at Vancouver and Victoria specialists in

in this department of surgery. We trust it will prove a perfect cure. Leo is wanted by his chums for his good work with the baseball intermediates this fall.

Our town looked on the 1st as we hope it may at an early date, look the same daily. A fine lot of fellows, their best girls, matrons and babies from Phoenix, Forks, Mother Lode and other suburbs, responded to the invitation to spend the day with us, and we feel much pleased to add upon their departure for their respective homes. They all spoke well of their treatment and they had an enjoyable day of it.

An enthusiastic rally of the Greenwood Liberal association took place last Thursday evening June 30th. The attendance was most satisfactory. The business of the meeting was principally to elect officers of the association and incidentally to take stock of matters of importance and to place affairs in shape and to be ready for any emergency. The following officers were elected: Sir Wilfrid Laurier, honorary president; J. D. Spence Esq., president; D. A. MacDonald Esq., vice-president; Dan MacDonald Esq., secy-treasurer.
