FRIDAY, FEBRUARY 19, 1909

Leader Borden has yet to explain his conduct in taking three months to repudiate that alleged despatch of his which was the direct cause of the great Tory victory in British Columbia.

That Mr. Borden remained silent while Liberal candidates in this province went down to defeat before a storm of unmerited abuse, and that he held his secret until it was dragged out of him on the floor of parliament three months after the falsehood was perpetrated, is a matter which places him in a most unenviable position.

Had Mr. Borden pursued the manly course and exposed the fraud at once the Canadian parliament would have been saved from the disgrace of a member holding a seat won by a forgery; and would also have been spared the spectacle of the crocodile tears so lavishly shed by the ridiculous demagogues who represent the British Columbia Conservatives in the House of Commons.

It is probable that there will be another investigation in the matter of the escape of Bill Miner from New Westminster penitentiary.

Ex-Deputy warden Bourke claims that he possesses information that would show connivance of officials at the escape.

Why Mr. Bourke did not tell his story when he was examined under oath before the commission

of inquiry is another matter of interest to the people who will wonder if the ex-deputy is not actuated by mercenary motives in his belated move.

The Montreal Witness calls attention to the greatly increased bank clearings for the month of January and predicts a season of unexampled activity for 1909.

The expenditure of millions of dollars by the railroad companies will mean the constant employment of large armies of men.

Supplies are being contracted for ahead, and where a year ago they were curtailing expenses in every way possible they are now buying rails, track supplies, cars and engines and this is being done with every confidence in the future.

"The Colonist has never assumed the right to dictate to any constituency as to the course it ought to take in any emergency."—Victoria Colonist.

Ottawa Free Press: No, it merely circulates forged telegrams in order to carry a close election.

That the value of the total catch of our Canadian fisheries has reached the huge annual sum of \$25,500,000 shows that the resources of the country are being developed to a surprising degree.

When a man pays road taxes until he is sixty years of age he is entitled under a provincial law to be relieved of the \$2 levy.

By taking advantage of this he loses his vote in municipal matters.

And if that isn't a case of handing a man a lemon we would like to have a suitable name for the procedure.

Montreal Herald: The Victoria Colonist's explanation of the falsified Borden telegram is equally interesting for what it confesses and what it obviously refrains from confessing. It shows Mr. Borden how much some of his most active followers think of him

The terms of the Order-in-Council approving the increase of \$50,000,000 of the C.P.R. capital stock provides that the issue of the new stock shall not be exempt from the operations of the Railway board.

Hamilton Times: Does Mr. Barnard, M.P. for Victoria, B.C., by virtue of the forgery of that Borden telegram, admit that "the receiver is as bad as the thief?" An honorable man must find Barnard's position rather humiliating.

**PROVINCIAL ITEMS**

Rcv. Father Fay, the first parish priest of Vancouver, died suddenly last week.

Mrs. Ralph Smith delivered an able address to a fashionable audience at Ottawa in favor of woman suffrage.

Hon. Mr. Templeman will urge upon the Dominion Government the need of considerable public works in Comox-Alberni.

The Vancouver Power Co. has asked for permission to raise the height of the Coquitlam dam from five to sixty feet.

The Canadian Northern Railway has reserved lands at Kamloops for round-houses and shops and real estate is active in that city.

Up to January 18 the royal mint at Ottawa had coined over \$300,000 in silver purchased from the Consolidated Mining and Smelting Co., of Trail, B.C.

Over six hundred gold sovereigns were coined.

Special officers Watson and Bellaway located Peter Gunanoot, the brother and accomplice of the Indian murderer on the Upper Naas river but were unable to take him away in the face of his tribe.

The Nelson Board of Trade has asked the Dominion Government to place a duty of \$2 per thousand on fir, cedar, spruce, tamarack and pine lumber coming into Canada and also an impost on shingles.

All of which will certainly be opposed by the purchasers of lumber in the prairie provinces.

A deputation of lumber men waited on the provincial government with a request that the recent 21 year leases of timber land be made renewable at the end of that period, and were promised the consideration of the administration.

**C.P.R. Declares Dividend.**

The Canadian Pacific Railway Co., has declared a dividend of two per cent on the preferred stock and three per cent on the common stock for the half year ended December last, paying on April 1st next. It was also decided that at the same time a further sum equal to one-half of one per cent be paid on common stock, to be paid out of the interest of the land sales. After the payment of working expenses, fixed charges and the dividends now declared, there is a surplus for the half year of \$4,813,232.

Liberal whips were named by Sir Wilfrid Laurier as follows: Chief whip, W. S. Calvert; Nova Scotia, A. K. McLean; New Brunswick, Dr. McAllister; Quebec, L. Lavorgne and Victor Gouffron; Ontario, G. E. Pardee and H. McGiverin; Saskatchewan, J. G. Turfiff; Alberta, Dr. McInyre.

CHAPPED FROM FINGERS TO ELBOW

Boy's Agony Relieved by Zam-Buk. If you are suffering from badly-chapped hands you will be able to comprehend a little of the agony which Henry Walker, of 14, Manufacturers Street, Montreal, endured before Zam-Buk gave him relief.

"Henry works with his shirt sleeves rolled up above his elbows, and passing from a warm room to the biting cold, as he was obliged to do, he got the worst case of chapped hands and arms I have ever seen. From his fingers to his elbows was one mass of raw flesh, with bad cracks here and there. Whenever he washed, it brought tears to his eyes, the pain was so acute. He tried several kinds of salves, but nothing relieved him really until he tried Zam-Buk. This balm seemed to take away the burning and smarting almost at once. The cracks began to heal, and a few applications of the balm cured him. His hands and arms are now smooth and soft."

"We have also used Zam-Buk for other emergencies. I sustained a burn on one of my fingers. Zam-Buk took the fire out and healed up the sore. It really seems a wonderful household preparation."

"On one occasion my son Harry had his foot frozen. It was very swollen and discolored, but Zam-Buk both relieved the swelling and removed the discoloration. Zam-Buk is so handy and so effective that we shall always keep a supply handy."

Miss Hattie Bertrand, of Salisbury, Ont., says: "Every winter I suffer from chapped hands, but I have found a cure in Zam-Buk. Applied at night, it heals the cracks by morning, and takes away all the soreness."

Similar effects follow its use for eczema, scalp sores, blood-poisoning, ulcers, ringworm, children's sores, cuts, burns and bruises. It also cures piles. All druggists and stores sell at 50c a box; or post free from Zam-Buk Co., Toronto, for price.

MRS. MURRAY, graduate in vocal and instrumental music, is prepared to receive pupils in piano, organ and voice. Latest Conservatory methods taught. Class in Greenwood, Monday, Tuesday and Wednesday; Midway, Thursday; Phoenix, Friday and Saturday. For terms and further particulars apply at room 34, Pacific Hotel.

Wanted—A situation by a reliable and experienced woman as housekeeper, chambermaid, dining-room work or assistant cook. Apply to M.C., box 1, Denoro, B.C.

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS. ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less. Entry must be made personally at the local land office for the district in which the land is situated. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader. The homesteader is required to perform the conditions connected therewith under one of the following plans: (1) At least six months' residence upon and cultivation of the land in each year for three years.

HOME-MADE MEDICINE

Said to Relieve Kidney Trouble and Rheumatism. One ounce Fluid Extract Dandelion; One ounce Compound Salts; Four ounces Compound Syrup Sarsaparilla; Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expelling these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism. The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home. Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL, and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and "You Know What You Take"

Dominion Copper Company

To the Bondholders, Creditors and Stockholders:

On Nov. 30th, 1903, the National Trust Company of Toronto, which is the Trustee under the mortgage given to secure the outstanding issue of \$800,000 of bonds, convened a meeting of bondholders in New York City after publication and mailing of notice of the meeting to all known holders. Upwards of \$500,000 of the bonds and large holdings of stock were represented.

The security holders were then informed of the pending proceedings for the foreclosure of the mortgage under which the property will shortly be sold, and that meantime a Liquidator had been appointed by the Canadian Courts to wind up the Company.

A Committee was appointed at that meeting from among the bondholders and stockholders then present with power to add to its number, to investigate the affairs of the Company and to formulate a Plan of Reorganization on behalf of all interests concerned. Pursuant to this request and appointment, the undersigned consented to act as such Committee.

The Company has a number of promising mining claims and the probabilities are in favor of the development of a large tonnage of low grade ore, but the outcome of development is accompanied by the uncertainties incident to every mining venture. If the development work which is proposed to be done, uncovers a large tonnage, it will be necessary either to make extensive alterations in the present smelter, or preferably, to construct an entirely new one on modern lines and in a better locality. Your Committee is advised that negotiations have been under way from time to time with one or more of the successful operating mining companies in the District, to acquire all or part of the properties of the Company, but at a price which would not have satisfied the claims of the Bondholders and would have left nothing for the Stockholders. Your Committee is of the opinion that having regard to the large amount of additional capital which would be required to develop these properties and construct a proper smelter, to the low grade of the ore which renders the enterprise at best strictly a manufacturing proposition with a narrow margin of profit under the most advantageous conditions of management, and assuming the price of copper at not less than 15 cents per lb., it may be advisable to sell the undertaking rather than to continue it, and to that end they ask authority as part of the accompanying plan, from the security holders to make such a sale if in their judgment it is found to be for the best interests of the security holders.

Table with 2 columns: Description of financial items and Amount. Includes Principal of outstanding Bonds, Interest unpaid from June 1st, 1908, Debts, Present outstanding share capital, etc.

Total \$5,928,000

To this must be added Trustees' Fees, Liquidator's fees and legal and other expenses incident to the liquidation of the Company and the mortgage on the property.

Your Committee after due consideration of the subject in all its bearings hereby recommends the following PLAN OF REORGANIZATION. The property and undertaking of the present Company to be acquired by the Committee at the forthcoming foreclosure sale, if in the judgment of the Committee it is deemed advisable. The Committee either to hold the property so purchased, pending a sale thereof by it, or transfer the property to a new Company to be organized under the name of the NEW DOMINION COPPER COMPANY (hereinafter referred to as the new Company), which shall issue the following securities:

Table with 2 columns: Description of securities and Amount. Includes 6 per cent 10-year income bonds, 250,000 shares of common stock, etc.

Total securities of the new Company \$1,750,000. (As against the present capital stock, debts and obligations of about \$6,000,000 of the present Company, or less than one-third the securities of the present Company.)

The interest on the bonds will be payable annually, but only out of the net earnings of the year. The bonds will be retired annually at par by setting apart and applying annually twenty per cent of the net earnings of the Company for that purpose, subject to the right of the Bondholders at any time within five years to convert their bonds into stock at par. Any bonds called for payment may be converted into stock within 90 days after such call.

In order to furnish the necessary working capital for the development of the mines, the reconstruction of the smelter and to cover the expenses of foreclosure, reorganization and the underwriting of the requirements of the new company, the stockholders will be required to subscribe for the Income Bonds at par to the extent of \$300,000, and only those stockholders so subscribing will participate in the securities of the new Company. The bonds will be in denominations of \$100 and each stockholder will be asked to subscribe for one bond of the par value of \$100, with respect to each 100 shares of the Company now owned by him. Every stockholder so subscribing will receive in addition to the new Income Bond, one share of common stock of the new Company for each 10 shares now held by him.

The cash requirements of this plan have been underwritten.

The Committee or members thereof may become underwriters or subscribers to the securities of the new company and may participate in the benefits thereof free from restriction as though they had not assumed any trust relation to this plan.

Under this Plan the depositing holder of— 100 shares of present stock of par value of \$10 each upon subscribing and paying at par for \$100 of new income bonds, would receive such bonds and 10 shares of new stock of the par value of \$5 each; Each holder of \$1,000 par value of the present bonds would receive for the bonds and accrued interest, 210 shares of new stock of the par value of \$5 each; and

Each \$100 Creditor's Claim would receive 20 shares of new stock of the par value of \$5 each.

Under this plan 168,000 shares have been set apart in exchange for the present issue of \$800,000 bonds and interest—stockholders who subscribe for income bonds will receive 50,000 new shares; as to those who do not so subscribe, the Underwriters will receive the stock applicable to the non-subscribing stockholders. Creditors will receive 20,000 new shares and underwriters will receive 12,000 new shares as an underwriting commission, which will absorb the entire stock issue of 250,000 shares.

The Committee are expressly empowered at any time after any deposit of securities has been made under this plan or after the sale of the property or after organization of the new Company or the transfer of the property to it, to sell the entire property, assets and undertaking of the present Company or the securities deposited under the plan, representing such property and assets, or the securities of the new company, but in no event for less than \$300,000 in cash. The proceeds of such sale shall be distributable among the depositors of securities and claims in the proportions in which such depositors are entitled to participate in the securities of the new Company.

In view of the impending sale of the property under foreclosure, the security holders who desire to participate in this Plan are required to deposit their securities with the Hungarian American Bank, No. 32 Broadway, New York City, not later than February 25th, 1909.

Certificates of stock in order to be entitled to deposit must be endorsed in blank and must be accompanied by the payment of the first installment on account of the new Income Bonds. The payments by stockholders are to be made in four installments as follows:

Table with 2 columns: Percentage of payment and Date. Includes 25 per cent of par value of new bonds, 25 per cent within thirty days thereafter, etc.

For all amounts of less than \$100 payable by stockholders on account of new bonds subscribed hereunder, the Committee may issue scrip or such other form of security exchangeable for bonds in denominations of not less than \$100 as they may determine. Arrangements have been made with the Underwriters by which holders of less than 100 shares of stock may acquire additional Bond scrip by purchase at par, to entitle them to a \$100 bond, to the extent, if any, to which the Underwriters would be otherwise entitled to such Bonds, provided such stockholders will apply for such additional scrip at the time of their subscriptions hereunder.

Negotiable temporary receipts will be issued for the securities deposited. All depositors will be deemed to have assented to the terms of the Plan and Agreement, copies of which may be had on application to the Hungarian-American Bank, or to the Chairman of the Committee.

Sharp, of Sharp and Irvine, Spokane, was in the city this week selling McGillivray Creek coal stock. Harry Swan, of Hedley, who is in charge of the work on the new trestle bridge, was in Greenwood this week. J. Meggitt, who has been officiating at Hunter-Kendrick's dry goods counter left for his home at Grand Forks on Monday. F. W. Wilcox, formerly in the dry-goods business in Greenwood, was in the city this week in the interests of Marshall Field & Co., Chicago. Rev. J. G. Shearer, of Toronto, preached in the Presbyterian church last Sunday afternoon for Nelson on Monday. Mr. Shearer is acting on behalf of the Presbyterian general assembly committee on education, which has engaged the Chapman band of Boston to give a series of meetings in Greenwood and surrounding places, beginning about the end of April. Planes, sewing machines, stoves, etc., for sale or rent. The O. I. C. second-hand man, W. A. White. Phone 16. For Sale or Rent, immediately, Two-story 10-room House on Kimberley Avenue, property of R. S. McNeil. Apply H. Mortimer. For Sale - A 5-room cottage in good location, with chicken coop and woodshed. Easy terms. Apply to L. Daignault, Anaconda.

TOWN TOPICS

Mr. Shearer is acting on behalf of the Presbyterian general assembly committee on education, which has engaged the Chapman band of Boston to give a series of meetings in Greenwood and surrounding places, beginning about the end of April. Planes, sewing machines, stoves, etc., for sale or rent. The O. I. C. second-hand man, W. A. White. Phone 16. For Sale or Rent, immediately, Two-story 10-room House on Kimberley Avenue, property of R. S. McNeil. Apply H. Mortimer. For Sale - A 5-room cottage in good location, with chicken coop and woodshed. Easy terms. Apply to L. Daignault, Anaconda.

The Ladies of the Maccabees held a very enjoyable social at the Eagle's Hall on Tuesday evening. Mrs. Oxley of Phoenix won the ladies' prize at progressive whist and A. Gillis for gentleman. Mrs. Bessie Buckless and Wm. Barnett captured the booby prizes. The young ladies of the Four Leaf-Clover club of the Presbyterian S.S. gave a successful tea and candy fest last Friday in aid of the funds. The candy buffet was very prettily decorated and the goods on sale reflected credit on the ability of the manufacturers.

A DECIDED TREAT

The following taken from the Creston Review will be of interest. "The Stutz Big Theatre Co. performed here on Friday and Saturday last, and they left the impression that it will be a long time before an aggregation of travelling Thespians can produce a bill-of-fare as spread by them. For a small town Creston must consider itself singularly fortunate in having the opportunity of witnessing the performance as put up by the Stutz Co. The performance was quite up to the advertised production, and many there were who went away with the impression that the company were deserving of a bumper house than they got here. On Friday the company produced "Was She to Blame," an evident adaptation of "Bertha" and "Clara" and "A Bitter Almond." The company is an evenly balanced one, and the audience was given a treat such as it never bargained for. The company comes along the "Crow" again it is to be hoped they will stay in Creston."
