LIST DUTY FREE ARTICLES

Following is a list of the principal articles to be admitted into each country from the other free of duty, when they are the growth, product or manufacture of each country respectively, viz:

Live animals, poultry dead or alive, wheat, rye, oats, barley, buckwheat, dried peas and beans (edible), corn except into Canada for distillation, hay, straw and cow peas.

Fresh vegetables and fruits in their natural state, dried fruits (apples, pears, peaches and apricots), dairy products, eggs, honey, cotton seed oil, oil seeds, grass seed, and garden, field and other seed not provided for.

Fish of all kinds except sardines and other fish preserved in oil, shell fish and seal, herring, whale and other fish oil.

Timber hewn, sided or squared otherwise than by sawing, and round timber used for spars or in building wharfs, sawn lumber, paving posts and telephone, trolley, electric light and telegraph poles and railroad ties, wooden staves and stave bolts, pickets and palings and extracts of hemlock bark.

Natural mineral waters not in bottles or jugs, salt, mica, feldspar, asbestos, flourspar, glycerine not purified, talc, sulphate of soda, soda ash, coke and carbon electrodes.

Brass in bars, strips, sheets or plates, galvanized rolled iron or steel sheets or plates, No. 14 guage or thinner, crucible, cast steel wire, galvanized iron or steel wire, galvanized fencing wire of iron or steel and round rolled wire rods of iron or steel not over 3/8 of an inch in diameter nor smaller than No. 6 wire gauge.

Cream separators of every description and parts thereof for repairs, and type-casting and type-setting machines for use in printing offices.

Pulp wood mechanically ground, chemical pulp of wood, news print paper, etc., are made free of entry into the United States on the condition precedent that no export duty or other export charge of any kind has been imposed thereon in Canada or any of its provinces.

Reciprocal rates of duties to be imposed by each country are provided for at reduced rates in Schedule B, and special rates in Schedule C. and D.

It is estimated that the result of the agreement, if brought into operation, would be on the basis of last years' business a reduction of Canada's taxation by an amount of $2,260,000.

HOBSON PREDICTS UNITED STATES AND JAPAN CLASH WITHIN YEAR

War with Japan within the next ten month was predicted in the house at Washington by Representative Richard P. Hobson. During a speech in favor of definite constructive policy of defence, he declared that Japan now is financially prepared for war, and that the United States before long will be forced to make an exhausting struggle with the Japanese, ending in probable disaster.

RUSSIA WILL SEND TROOPS TO THE CHINESE FRONTIER

Late dispatches from St. Petersburg state that Russias near-ultimatum to China and the reply from China is unsatisfactory, and that the Czar has ordered troops to the Chinese frontier with the object of of at once seizing the Kuldja district in Chinese Turkestan.

The Chinese reply falls far short of the Czar's demands. China says that the granting of Russia's demands would give the latter a commercial monopoly of Mongolia, even excluding Chinese trade. Russia demanded "freedom to trade and liberty to travel and residence to Russian subjects in Mongolia and the territory behind the Great Wall." China contends that this is unwarranted and not provided for in the treaty of 1881.

In her reply China agrees to the establishment of Russian consulates at all the points mentioned by Russia except Chenguasua, but insists that article 12 of the treaty providing for the withdrawal of traffic exempting whenever trade warrants the establishment of a Russian consulate be adhered to. This denies Russia's general contention for freedom from Chinese tariffs.

The Times Would Like to See

Better mail service with the States.

Frank Hines elevate himself on stilts.

All the dogs in Greenwood in one bunch.

Archie Aberdeen cut his crop of alfalfa.

An electric light over the bridge of sighs.

Fred Holmes elected Mayor next spring.

A busier man in town than Walter Watson.

A large audience at the hockey match Saturday night.

The Sisters' hospital receive the support it deserves.

A more dignified looking individual than Chef McKay.

A more aldermatic looking personage than James McCreath.

A Greater Greenwood and all the citizens pull together to that end.

The "marble heart" given the gang of "moochers" that infest Greenwood.

The Miners' Union give one of their popular balls on St. Patrick's Day.

The town in B. C. that can produce more pretty girls than Greenwood.

R. A. McCracken follow the example of the birds in the spring and mate up.

A more genial, quiet, perfect gentleman of the old-school stripe than Mr. Parry of the Imperial hotel.

A hothouse in Greenwood so that a girl's best fellow could give her a bouquet at any season of the year.

A voice-tight muzzle on the dub that brays all night and keeps the guests from their peaceful slumbers.

Old Sol take a long distance shot at the 18 inches of the "beautiful" that it may come rolling down the mountain side.

Spring, with its exhilarating chinook breezes, blessed sunshine, and the robbin with his song of gladness, entitled, "Spring Hath Come."

Any stable in B. C. that can turn out "toppier" horses or more handsome vehicles than can F. C. Buckless of the Palace Livery Stables.

A more home-like hotel than "The Norden," with its genial proprietors, Messrs. Sater and Johns, whose latch-string always hangs on the outside.

Why? Why? Why?

Can any supporter of the reciprocity agreement answer the following questions propounded by Stephen Leacock of Montreal:

Why are our chosen rulers contriving this thing? Our chosen rulers of the fallen bridges and the water lily canals, our double-pivoted, face-the-whole-compass, pro-British, Pan-American rulers of the people? Why do they contrive?

What was it that was wrong?

In what were we suffering?

Were we not well enough?

Was our trade failing, was our treasure declining?

Look at it fairly.

Every year more and more; since we laid our foundation deep in 1879, since we first made our national policy, when were we ever better than now?

Our farms, broad and wide, the grain that ripened, the crops that sold, each bushel better than the last—was anything wrong there?

Or was it our cities—strong and solid in the east and rising on the horizon of the west, with the meteor gleams of coming greatness?

Surely not.

Was it our industries?

They were never better than now.

Our people never happier. Our prospects never brighter.

See how we have grown and prospered under the sturdy system of self-reliance that we had marked out.

For 30 years past we had been setting our faces steadily northward. We had looked away from the grim smoke of Pittsburg to the silver snows of New Ontario, from the cornfields of the Mississippi Valley to the sleeping meadows of the Valley of the Peace, from the orange groves of Los Angeles to the sunlit valley of the Okanagan.

Step by step we have been winning our way farther and farther from the frontier, into the heart of our own country, into the north, the country that alone makes men.

But now our water-lily rulers turn shivering to the south again.

What is it that is wrong?

Is it not perhaps some poison that lingers in their blood—the smarting of the old defeat—the virus of the platform of 1893, that cannot be conjured from their veins?

The spite of unforgotten defeat; a vengeance wreaked upon the past.

Oh, silver-headed rulers of the people.

Soothed with all the spoils of office, does the old sore rankle still?

Get of the Track

This is the season of the year when the bear has it over the deer in the matter of the cost of living. The bear sleeps considerably and takes its nourishment by osmosis but the deer has to rustle its keep by devious and uncertain ways. Nowadays, the rustling is poor and there is no such thing as rapid transit. The deer sinks in snow to the second button on its vest at every step and prefers the barren trough of the railway track to the fastnesses of the hills. The local trains met them frequently in the right of way and whistle them off the track. On Monday the west bound train stirred up five near Morrissey and had to slow up in order to observe the game laws.

On Wednesday the M. F. & M. train nearly ran into a couple just above the city. The two animals struggled onto the cemetery hill where they were for some time perfectly helpless in the snow. No one molested them.—Okanagan.

If you are a subscriber of the Times and not paid up, $2.00 from you would be very acceptable.

Canadian Capital Abroad.

While Canada is seeking fresh capital abroad and is getting it in large quantities from England and France, Canadian banks and financiers are backing heavily traction, power and other enterprises in foreign countries, more particularly Mexico and South American republics to say nothing of the concerns in the United States which is using a lot of Canadian capital. Mr. Rudolph, Forget, M. P., thinks this is all wrong, and he voices his sentiments in the course of reasons why another bank would be a good thing in Canada. He says there are lots of good propositions at home, and that Canadians should have faith enough in their own country to put their money in them instead of expecting outsiders to do it while they go off to some other place with their capital.

The bank Mr. Forget is organizing is the Banque Generale du Canada but the word "Generale" will be dropped if a charter can be secured for one designated the Bank of Canada. Its capital will be $10,000,000, and of this amount the promotor states that French capitalists are willing to put up $7,500,000 and Canadians the balance. Mr. Forget leads the public to believe that his new bank will set the other banks a good example and that as a result there will not be such an outcry about the tight money market in future.

The Home Maker

Smiles should be the legal tender in ever family for the payment of all debts of kindness and each member should be willing to take this currency at its face value.

There are six secular nights in each week. Out of the six some men spend one at home and five at lodge, while others spend five at home and one at lodge. In which class shall we register your name?

The world is full of women who can amuse the ordinary man Can sing, dance or recite for him; can write and decorate in a manner most pleasing, but the poor man often goes begging for a woman who can sew on buttons or mend his clothes; who can cook his food with economy and flavor to his taste.

The wages of women were never so high as now, yet it is almost impossible to secure the service of a young women at any price, for reason that labor is looked upon as degrading. Young women turn to all sorts of office work, where snares and temptations beset them, because they can dress better and keep their hands whiter than they can when doing kitchen work.

Mackenzie's Coal Deal.

Not much is likely to come out of the pother and smoke raised in the legislature by Dr. McGuire's resolution on the question of the price of coal. If the government were really sincere in this matter in the public interest and were not trying to hocus pocus the people in the Mackenzie & Mann interests it could very quickly arrive at the facts without laying the case before the Dominion government and at the same time protect the interests of the watered stock in Mackenzie's coal mines.

Mackenzie acquired control of those mines by the very simple expedient of taking an option on them for $11,000,000. While the option was in force he bonded them for ten million, which he used to pay for them. He and his associates still have ten millions stock in them which cost them around a million dollars. Even if the bonded price is not an inflated one, which is more than probable, it is a certainty there is about nine millions of watered stock in the concern.

It was to pay dividends on this vast inflation that Mackenzie tried to get other coal companies to raise the price of coal a dollar a ton to consumers. However, the other operators knew the temper of the public better than McKenzie did, and refused to go into the arrangement —Sunset.

A Light on Maternity

The late Williams James Harvard's famous psychologist, would often illuminate a misty subject with an appropriate anecdote.

Discussing motherhood in a lecture on psychology, Prof. James once said: "A teacher asked a boy this question in fractions:

"Suppose your mother baked an apple pie and there was seven of you—the parents and five children. What part of the apple would you get for your portion?"

"A sixth, ma'am,' the boy answered. "But there are seven of you,' said the teacher. Don't you know anything about fractions?'

"Yes ma'am,' said the boy, 'I know all about fractions, but I know all about mother, too. Mother'd say she didn't want no pie!"

5000 Facts About Canada.

The 1911 edition of this indispensible collection of concrete, crisp Canadian Facts, edited by Frank Yeigh, of Toronto, the well known lecturer and writer, and author of the new book, "Through the Heart of Canada," has been issued and is filled with fresh data of a most interesting and illuminating character. It is a marvel of condensation, presenting in small space striking figures relating to every phase and department of Canada's resources, trade and national life.

Its popularity and large sale can easily be understood, in fact, it is, as has been said, "worth its weight in Cobalt silver or Yukon gold." The booklet may be had from the leading newsdealers, or for 25 cents from the Ganadian Facts Publishing Co., 667 Spadina avenue, Toronto.

If you are a subscriber of the Times and not paid up, $2.00 from you would be very acceptable.

Children Scalp Sores are Healed by Zam-Buk

Mothers are well aware how frequently children contract scalp sores, ringworm, etc., at school. Some little sufferer is sent to school with a sore of this nature. At play the children change caps, and right there the infection is spread—the damage done.

Some children are particularly liable to scalp sores, etc., and often these break out with annoying frequency. Such a case was that of the daughter of Mrs. Albert Gaedike, of 485 Amherst St., Montreal. Mrs. Gaedike says: "My little three year old daughter suffered frequently from scalp disease, and try as we would, we could not rid the little one of this. We tried everything we could think of, but failed to effect a cure, until we were advised to try Zam-Buk. This balm seemed entirely different to anything we had ever tried before, and from first applying it there was a marked improvement. The sores became less inflamed and less irritable. After a few days, they ceased to trouble the child; and in less than a fortnight from first commencing with Zam-Buk, they were completely healed. In view of these facts I feel it my duty to let mothers know how beneficial Zam-Buk is."

There is no doubt that for scalp sores, ringworm, ulcers, abscesses, cold cracks, chapped hands, frost bite, and similar sores, Zam-Buk is absolutely without, equal. It is just as good for piles varicose sores, poisoned wounds, cuts, burns and scalds. Rubbed well in over the affected part, it cures rheumatism, sciatica, etc., etc., and rubbed into the chest it relieves the tightness and feeling of weight due to contracting a bad cold. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse imitations.

ROSSLAND CARNIVAL.

Greenwood and Phoenix Play Second Game of the Series.

The Rossland Miner has the following to say about the second game of hockey, which was played between Greenwood and Phoenix:

"The Greenwood combination was the only one in the Carnival to play their usual line-up, the other teams being considerably strengthened. Certain Nelson players telephoned asking if they could come to Rossland to play for Greenwood, but the Boundary team informed them there was nothing doing.

"As Phoenix were the champions of the Boundary league they were favorites, although general sympathy lay with Greenwood. The line up was:

Phoenix	Position	Greenwood
	GOAL	
Lang		C. McCarthy
	POINT	
Neill		Cliff Russell
	C. POINT	
McWha		E. McCaugherty
	ROVER	
Saunders		G. MacDonald
	CENTER	
Lynne		F. McCarthy
	LEFT WING	
Ouilett		D. J. MacDonald
	RIGHT WING	
Thrasher		Clerf

A. E. H. Clark, Missoula, referee; Mercer, Rossland, judge of play.

"Right from the face-off the Phoenix team attacked and Ouilett scored, well within 15 seconds. This sudden reverse did not have any bad effect on Greenwood, who pressed strongly and McCaughtery put in a shot which just missed the goal. Another breakaway by Phoenix was negatived by off-side, but eight minutes from the start Lynne scored the second for Phoenix, and three minutes later added a third. It looked at this time as if it wer going to be a runaway for Phoenix, for, try as they would, the Greenwood team could not penetrate the strong defense. Just at the close of the first period Greenwood did get the puck through, but as the referee had rung the bell on account of a man being hurt, as he thought, it was not allowed.

In the second period, in spite of the fact that they were three goals behind. Greenwood went at it finely and in two minutes D. McDonald scored with a lightning shot. The cheers that greeted this success urged them on and Phoenix had all they could do to keep their opponents out. Then, from a sudden breakaway, Mr. Thrasher added the fourth for Phoenix and the second portion ended in favor of Phoenix by four to two.

Fast as the game had been during the first two periods it was nothing to what the spectators witnessed in the closing period. competent judges said it was the fastest game they had seen on any ice, and certainly it was brimful of excitement. Indeed, there was not a dull moment all through and the honors this time was nearly all with Greenwood. McCaugherty put on a goal for Greenwood with a long shot and sometime later F. McCarthy added a third. Phoenix retaliated with one from Saunders and Cliff Russel gave Greenwood their fourth. Not for a single moment was there any letup and at the close Greenwood were attacking vigorously. It was a brilliant game in which both teams were to be congratulated. Phoenix won by five goals to four.

The Real Estate Fever.

The recurrence of the speculative fever is responsible for an awakening in the western real estate market, and a great deal of noise is being created by certain interested elements for their own benefit. There is, no doubt that the prosperity and continued development will give increased value to land in all parts of the country. Opportunities for legitimate investments will be offered, and healthy profits will be secured.

There is a limit to real estate investment, however, and an effort should be made to check the fever which is now breaking out. Many people know to their sorrow that success in land deals requires close attention to market conditions and an intimate knowledge of values. Men who specialize in that branch of business activity are the only ones who are in a position to form accurate opinions. Others should leave the speculative field and attend to their own business.

Warnings without number have been issued to merchants about the dangers of real estate gambling, and most of these have been disregarded. The temptation to "take a flyer" at an attractive proposition usually overcomes the scruples based on obligations to creditors. The situation is not hopeless, and it is possible that the dangers may seen in time to be avoided. If a merchant intends to speculate in real estate, let him abandon the arena of retail trade. He cannot give the proper attention to both lines of activity. By giving up his mercantile connections he may make room for some man whose heart will be in his business and who will not neglect his opportunities for the sake of prospective profits in land gambling.—Winnipeg Commercial.

What To Do
—FOR—
Sickly Children
Letters from Mothers

"I wish I could induce every mother, who has a delicate, sickly child, to try your delicious Cod Liver and Iron Tonic VINOL. It restored our little daughter to health and strength after everything else had failed."—MRS. C. W. STUMP, Canton, Ohio.

Mrs. F. P. Skonnard, of Minneapolis, Minn., writes, "I want to recommend VINOL to every mother who has a weak or sickly child. My little boy was sickly, pale, and had no appetite for two years. I tried different medicines and doctors without benefit, but thanks to VINOL, he is a well and healthy boy to-day."

C. Allen, of New Bedford, Mass., writes, "My two puny children gained rapidly in flesh and strength in a very short time after taking VINOL."

We positively know VINOL will build up little ones and make them healthy, strong and robust. Try one bottle, and if you are not satisfied, we will return your money.

J. L. White, Druggist, Greenwood

Coal and Oil Notice

Notice is hereby given that 30 days from date I intend to apply to the Chief Commissioner of Lands for a license to prospect for coal and petroleum on the following described lands in the Similkameen District: commencing at a post planted at the northwest corner Lot 422; thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to point of commencement, containing 640 acres more or less.

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY.
It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

New Scale of Advertising

The newspapers of Phoenix, Grand Forks and Greenwood have adopted the following scale of prices for legal advertising for the year 1911:

Application for liquor license, 30 days, $4.00.

Certificate of improvement notices, 60 days. $7.50.

Application to purchase land, notices, 60 days, $7.50.

Delinquent Co-owner notice, 90 days, $10.00.

Water notices, 30 days, $15.00.

All other legal advertising not included in the above, 12 cents per single column line for the first insertion and 8 cents a line for each subsequent insertion.

Before you take your departure from Greenwood subscribe for your home paper, $1 for six months, or $2 a year. You will find it full of interest to you wherever you are.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

THE INVESTOR

CONDENSED NEWS ITEMS

After declaring dividends and providing for all expenses the Canadian Pacific will carry forward a surplus of more than $10,000,000 on the half year's business ending December 31st last. This is remarkable. It testifies eloquently to the manner in which that great enterprize is managed, but even the best of management could not make such a showing if it were not that the whole Dominion is in the enjoyment of exceptional prosperity.

The relations of Russia and China are strained to the breaking point. Russia notified the governments of Great Britain, France and Germany of her intention to make a military demonstration on the Russia-Chinese frontier owing to China's persistent violation of the St. Petersburg Treaty of 1881. Russian troops will be sent forthwith to the district of Ili. The extent of the demonstration, it is added in the diplomatic note, will depend entirely on the attitude assumed by China. The vital question involved are free trade in Mongolia, the extra territorial concession of Russians in China, and the establishment of a Russian consulate at Keobdo, Mongolia.

Mr. Champ Clark may be several things. He may be "the most influential man in the United States, not excepting the President," but we "but we "ha'e oor doots" In any case, he's several other things that politeness prevents us from characterizing. "The disappearance of the British flag from this continent wil be the end" of more than Mr. Clark seems to dream of. But he may be only champing. Horses do; asses may.

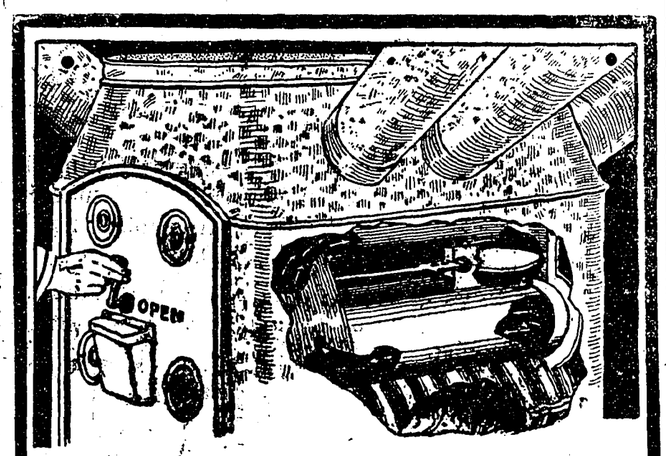
Rev. T. Albert Moore and Rev. Cannon Inglis left Toronto for Ottawa to interview the Minister of Justice regarding the ammendment of the criminal code. The department of Temperance and Moral Reform of the Presbyterian and Methodist churches with the assistance of the Anglican church, will seek to have the age of consent raised and the practice of men and women living together unmarried made a crime. They will also seek some change in the law so as to prevent fallen women who are convicted before a magistrate, and appeal from his judgement, going before another magistrate and securing bail.

"Resolved by the House of Representatives, the Senate concurring, that the President of the United States be requested to enter on and to prosecute, from time to time such negotiations with the British government as he may deem expedient for the annexation of the Dominion of Canada to the United States of America."

An increase of 22 in the number of cases of typhoid fever at Ottawa brings the total number registered at the city hall up to 601. The fever continues to develop at an alarming rate, and in Water Street hospital, death claimed its twenty-second victim since the outbreak of the epidemic. At the emergency hospital there are 89 cases of typhoid fever. The nurses' quarters are being moved to the annex and their rooms will be used as wards making rooms for about 40 more patients.

The visit of the Grand Forks Ladies' team was quite one of the features of the Rossland carnival. They were a jolly bunch of girls and thoroughly enjoyed the Carnival. Rosslanders would like to see them again in another game with the local ladies.

Sydney, N. S. Record: Very many people harbor the belief that newspapers are eager to publish derogatory things. It's a mistake. There isn't a newspaper that could not spring a sensation in the community at any time by merely telling what it knows. There is not a newspaper that does not keep under the lock of secrecy scores of derogatory things which never meet the public eye or reach the public ear. Deciding what not to print is the most troublesome part of newspaper work.



The Damper Lever of a MAGNET Wood Furnace

is where it ought to be—at the front, readily reached without groping in the dark or taking unnecessary steps. A turn of the lever instantly changes the draft so the fire is quickened or checked, at will. Turned on, McClary's Magnet Wood Furnace produces the strongest heat in a few minutes; and the nickelled steel tubes radiate this heat for hours after the draft is shut off. Because of this *stored* heat McClary's Magnet Wood Furnace is economical and a continuous roaring fire is unnecessary. The heat that goes up the smoke pipe of ordinary wood furnaces, goes into the register pipes of the Magnet. Like the position of the damper, the Magnet Wood Furnace is *right* all through. Right in principle, right in construction; right in materials. See the Magnet at the McClary agent's in the nearest town. Write to nearest McClary branch for booklet, giving a detailed description. Free, postpaid.

McClary's 511

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, Hamilton, Calgary.

MINES AND MINING

The easier money market in this country, the growing demand for new investments, the expressed determination of several large railroad corporations to make heavy expenditures on construction this year, and the activity in electrical circles encourage the belief that the general business situation will undergo a very decided improvement in the coming few months, and that with it will come a heavier consumption of copper. While the outlook for the metal market is somewhat depressing, as viewed at short range, future prospects are even brighter than they were three or four months ago.—Boston Commercial.

The Con. Co. will commence shipping from its Rawhide property this week. The diamond drilling that this company has been doing on the Ironclad and Fairplay claims has been stopped for the present.

The Phoenix Mining, Smelting and Development Co. has raised a sum of over $12,000 from the sale of stock and will soon resume operations on the Woodburn group.

At the Midway coal property of the Boundary Mining & Exploration Co. the engineers have decided that the work has now reached a stage where they are in a position to put in an initial plant and begin work of a permanent character. The work so far done has developed No. 3 vein about 500 feet. There are six veins on the property to be developed, which the new shaft will provide means of working. The management is looking forward to placing the property on a steady producing basis in the near future. A contract has been let for 50 feet of tunnel work on the Myers creek coal property.

The Granby Co. has now bonded a group of mineral claims on Copper mountain near Chesaw, Wash. This deal will involve an expenditure of over $100,000 if the bond is finally taken up. Diamond drilling is to be started at once.

In America, the British appear to lead in the amount of money invested by foreign countries in mining ventures. The French public, which has the reputation of investing prodigious amounts in enterprizes abroad, and which has in fact contributed largely to American industrial corporations seems, comparatively, to have neglected the mining industry in this country. The English funds tied up in the mines in the United States reach the sum of £21,500,000, or $107,500,000, approximately. This does not include funds, probably exceeding $50,000,000, invested by the British in the steel corporation, smelters, mining lands, and in similar investments only indirectly, though inseperably connected with mines. All in all, British capital invested in the United States reaches the monster total of £688,000,000, of which nearly £600,000,000 is in railway securities. In Canada, the visible investments of British capital reach £373,000,000, with an additional yearly influx of over 30,000,000 in progress. Of these sums it is safe to assume that 10 per cent, or a little more, are invested in the mining ventures of Ontario, British Columbia, the Yukon, and eastern or maritime Canada.

Germany is without doubt the largest foreign consumer of American refined copper, her importations last year totaling approximately 350,000,000 pounds. France is second with approximately 110,000,000 and England third with 86,000,000 lbs.

Japan produced approximately 2,000,000 bbls. of petroleum in 1910.

Dam Across St. Lawrence

The Senate Committee on commercial trade, decided a favorable report on Senator Oliver's bill authorizing the Long Sault Development company of New York to construct a power dam across the St. Lawrence river, south of the international boundary line, near Long Sault Island, New York. It is understood the bill is designed to enable a manufacturing concern of Pittsburg to obtain power from a plant on the Canadian border.

After the age of 50 people find that their strength is not what it used to be and they frequently suffer from sudden exhaustion, and weak heart action. To all such we recommend the invigorating tonic Ferrovim, composed of fresh lean beef, Citrate of Iron and pure old Spanish Sherry Wine. Nothing could be more beneficial in such cases. $1.00 a bottle.

An impossible thing to find a plaster equalled to "The D. & L." Menthol and it is being imitated. Get the genuine. For side aches, backaches, stitches, nothing equals it, Made by Davis' & Lawrence Co.

You can't dodge them all. Mosquito bites, sunburn, bruises, skin injuries. Some of them will attack you this season sure. Have a tin of Davis' Menthol Salve on hand. 25 cents.

Stopped One Awful Blow

Bat Nelson gave Owen Moran one awful punch. It was a swing to the little Briton's left ear, and it started a cauliflower. Moran's left ear was unmarred until he met the Dane. Cauliflower ears are the result of several years of hammering as a rule. "That is just about the hardest swing I ever stopped," said Moran.

FAMOUS PEOPLE

BY FANNIE M. LOTHROP

Photo by Notman, Montreal

SIR THOMAS SHAUCHNESSY

President of the Canadian Pacific Railroad.

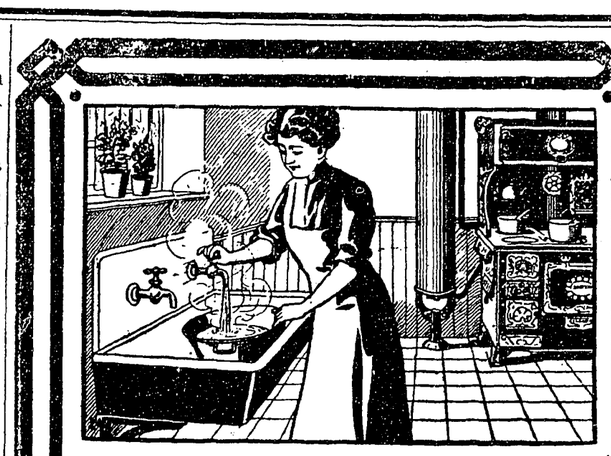
To be the guiding spirit of a great railway company, with a firm hand on the lever of a thousand phases of the work, requires long, practical, thorough experience, splendid executive ability in choosing and handling men, and a quick mind to decide vital issues on the moment if need be. Sir Thomas G. Shaughnessy has these essentials and more; he is a tireless worker, a man of energy and enthusiasm, a keen common sense that cuts Gordian knots of difficulty with ease, and a prodigious memory that is always ready on the instant.

He was born in Milwaukee, Wis., of Irish parentage in 1853, and after taking the usual course in the public schools had a little supplementary smoothing down and polishing in a business college, and was then ready at sixteen to begin the battle of life. He entered the kindergarten of railroading in his first position in the purchasing department of the Milwaukee and St. Paul road, and it was not long before it was recognized that he had a good business head firmly set on his broad shoulders; and with constant purpose and undaunted determination he worked his way, never looking at the clock nor stinting his efforts, until in 1879, at the age of twenty-six, he was general store-keeper of the road.

In 1882, Sir William Van Horne, another alumnus of this railroad which was a splendid college of training and experience, resigned from the Milwaukee and St. Paul to assume the management of the Canadian Pacific. He had been keeping close tally on Mr. Shaughnessy's work; he realized his possibilities and was confident that the young man was broad-guage enough to be equal to larger opportunities, and took him to Canada as general purchasing agent. Two years later he won, by his ability, the post of assistant general manager, later becoming assistant to the President and in 1891 was made Vice-President and elected a director, and in 1898 when Sir William Van Horne retired from the presidency, the opportunity of his life, the climax of the rosiest dreams of his ambitious years to Mr. Shaughnessy when he was made President—the kindly arrangement of the Canadian Pacific.

In October, 1901, his old folks at home in Milwaukee were roused from sleep one night by a messenger with a telegram. In trembling fear his father opened the envelope and with wonder and delight read aloud these words from one of the great railway kings of the western hemisphere: "You may be glad to know that His Majesty has conferred on me the honor of knighthood. Owe a great deal to a good father and mother. T. G. Shaughnessy."

Entered according to Act of the Parliament of Canada, in the year 1904 by W. G. Gage at the Department of Agriculture.



Piping Hot Water Always Ready

for every occasion, with the Kootenay Steel Range, without "driving" the fire or wasting fuel. The generous firebox is built so that the water heats very rapidly as it passes through the water front, and gives a plentiful supply. One bath usually empties the boiler heated by an ordinary range with the result that the rest of the family must wait for more water to heat. Not so with the boiler attached to the water front of a

KOOTENAY Steel Range

because the Kootenay never fails to heat as much water as is required and as fast as it is used. The nearest McClary Agent will make clear to you the reasons why you ought to *own* a Kootenay. 56

In buying baking powder examine the label and take only a brand shown to be made with Cream of Tartar

Dr. PRICE'S CREAM BAKING POWDER

A pure, wholesome, reliable Grape Cream of Tartar Baking Powder. Improves the flavor and adds to the healthfulness of the food.

No Alum—No Lime Phosphate

Both Reduce the Healthfulness of the Food.

"I am quite positive that the use of alum baking powder should be condemned."
—Prof. Vaughan, University of Michigan.

Read the Label and remember that

"Alum, sodium alum, basic aluminum sulphate, sulphate of aluminum, all mean the same thing—namely, BURNT ALUM."—*Kansas State Board of Health.*

The Liquor Law.

One feature of the provincial liquor law which has been somewhat of a dead letter is that prohibiting the sale or gift of intoxicants to minors a minor being defined as a person under 21 It is understood that steps have quietly been taken of late to emphasize that the law as enacted is meant to be obeyed, and carelessly in their dealings with this particular feature of the law may mean the payment of heavy penalties by the thoughtless licensee or the loss of license. The trade cannot deny that ample warning has been given, and it will be well for licensees throughout the province to remember that any sale or gift of liquor to a minor in British Columbia is an infraction of the law; that a minor is any person under the age of 21, and that the burden of proof is upon the accused.

Object to Being Excluded.

The London Associated Chambers of Commerce has resolved to make representations to the Colonial office regarding the new law of taxation of commercial travellers in British Columbia as a consequence of which large numbers ceased to send representatives to the extreme west.

The Colonial office points out as there have been several occasions when the Dominion government has complained of the legislative acts of British Columbia, it is possible that the offending act may come before the Privy council for review.

The Speech of a Statesman

While Champ Clark's opinion that the ultimate destiny of the United States and Canada is to become one people will receive very little attention in diplomatic circles in Europe, the reply of the United States Secretary of State will be regarded as of the utmost importance. Mr. Knox has gone farther in his expressions of friendship and esteem for Great Britain and Canada than either John Hay or Mr. Root could have done. When it is remembered that only fifteen years have elapsed since Mr. Cleveland's notorious Venezuelan message, with its threat of war, the change in the outlook of the political leaders of the United States seems little short of marvellous.

Mr. Knox in the course of his Chicago speech said: "If there should be any great world movement involving this continent, Canada and the United States would, as a matter of course, act in the most perfect concert in defence of the common rights of a common blood and civilization. The United States recognizes with satisfaction that the Dominion of Canada is a permanent North American political unit, and that her autonomy is secure. The United States appreciates the addition to the common welfare of the continent that Canada contributes in her own strength plus the strength of Great Britain."

Mr. Knox is right. Canada is a permanent political unit. Her place on the American continent is not that of a hostage for the continuance of good relations between Great Britain and the United States. but of a free nation proud of her position as the greatest of the oversea States of the Empire. It is well that men so influential in the moulding of public opinion in the Republic as Secretary Knox understand the national aspirations of the Dominion and make them plain to their fellow-citizens. The speech of Mr. Knox was the speech of a statesman

The Panama Canal

The completion of the Panama Canal means a tremendous increase in the Pacific coast trade of British Columbia.

California has appropriated $47,000,000 to finance and to prepare for the Panama-Pacific International exposition in 1915. The people of the state have given $17,500,000 to build the exposition itself, and November 8th they authorized, with a tremendous majority of votes, the insurance of $18,000,000 in highway bonds that California in 1915 may be good to look upon when the exposition visitors crowd toward the Golden Gate. At the same time $11,500,000 in bonds was voted to make sure that the harbor of San Francisco and San Diego are in condition by 1915 to handle the increased shipping that must result from the opening of the Panama canal. Altogether $47,000,000 has been provided for improvements and the glory of the world show.

Subscribe to your town paper—the Boundary Creek Times and keep posted on all that is happening—only $2.00 a year in advance; $1.00 for six months.

GREENWOOD GRIST

Items of Interest Picked Up Here and There For The Times Readers.

Love in Mexico, Brothers Fued, Shooting Mania and other selections at the Star Theatre tonight.

Fishing in the South Sea Islands, an interesting film for young and old at the Star Theatre tonight.

The Greenwood hockey team went to Grand Fork on Thursday to play the second last game of the series

Jas. Kerr, and old timer well and favorably known in our burg, was a visitor from Midway on Tuesday last.

The B. C. Copper smelter and Mother Lode mine was closed down for a few days, pending an overhauling.

Owing to Rector Hilton having a severe cold there will be no service this Friday evening at St. Jude's church.

Rev. Mr. Pike, of Nelson will preach in the Methodist church on Sunday Morning next, February 26th at 11 o'clock.

The trial of Bian Sung the Hindo arrested for assault and robbery took place on Thurdsay, result not known up to going to press.

Duncan Ross Esq., came in on Tuesday evening from the coast and registered at the Imperial. He will remain a few days.

The last hockey match of the series will take place at the local rink tomorrow night, (Saturday) between Phoenix and Greenwood.

The finals in the Warren cup contest was completed on Tuesday evening last, with victory for Skip J. A. Russell defeating Skip Birnie. The cup going to Skip Russell.

Miss Beldon has partially recovered from an attack of la grippe. Her young gentlemen friends have shown great solicitude in her case and smile to see her once again behind the P. O. wicket.

M. A. Trehune, who has a brother residing in Greenwood committed suicide in Spokane by jumping out of a hotel window breaking his back, dysoon afterwards.

P. W. George, of P. W. George & Co., is renewing acquaintainces with his many old tillicums of Greenwood. He purposes paying a visit to his brother at Springdale, Wash., before returning to his own home at Bellingham, Wash.

Geo. T. Moir, C. P. R. agent at Grand Forks, who was summoned to Greenwood to give evidence in the Hindoo case was with us Wednesday and Thursday.

The bachelors of Rock Creek will give a ball on March 3 at the Riverside hotel. Music will be furnished by the Bush orchestra and admittance with supper will be free.

The Star Theatre will not be open Saturday evening, Feb. 25th, owing to the Phoenix and Greenwood hockey match at the local rink on that date.

Mr. Roy of the National hotel, returned on Tuesday from his vacation of a couple of months in the east. He states his fur coat was his warmest and constant friend while in the far east.

The St. Jude's Guild social at the Hall, Wood Block, for Tuesday, Feb. 28th. Entrance 25c. Doors open at 8 p. m. Games, contests, and amusements and refreshments included.

Mr. and Mrs. K. M. McAllister, of Winnipeg, stopped in town a few days to visit their son Robert who is in the employ of Kootenay Power Co, on their way to Princeton where they will reside in future.

Mr. and Mrs Strickland son and daughter, of Nicola, who have been visiting Mr and Mrs. E G. Warren for a number of days returned home on Tuesday's train.

The Hockey match between the Grand Forks and Greenwood intermediates, at the local rink last Thursday, resulted in a tie, 3—3.

The final hockey match between the Mother Lode and smelter took place at the rink on Friday last. The Mother Lode team winning by the score of 2—1.

The Rush For Canada

The imigration rush to Canada for 1911 is on. The advance guards from England will arrive some time this week. Scouts have already put in their appearance to look over the ground. The Grand Trunk, the C. P. R., and the Canadian Northern have all carried on an unprecedented campaign this winter to secure immigrants in Great Britain for their respective territories in Canada, and this already showing its effect in the tremendous rush of bookings for all the boats coming to Canada this spring.

The starting of the grand rush of immigrants the first week in February is eloquent of the popular feeling in England for Canada as a land of opportunities, for the immigration agents discourage as much as possible the coming of new settlers to this country before March.

Thousands Are Dead.

The viceroy of Manchuria estimates the fatalities in Manchuria of bubonic plague at 65,000, while the foreign office believes that inside the great wall there have been 1000 more deaths. It is the belief, however, that the number of deaths will be nearly double the official estimates.

The success which the anti-plague commission working below Mukden has achieved has been a surprise and a cause of great gratification to the foreign legations generally. The Chinese railway, though it is losing heavily, continues its curtailment of traffic.

Many of the people in the famine district of Anhui are being employed by the government in building levees. The financial drain on the government is most severe, and it is believed it will be forced to negotiate more extensive loans than has been contemplated.

According to advices received at Washington from the American consul, none of the plague-stricken people recover.

The Japanese have checked the plague in South Mukden, but the remainder of Manchuria is being ravaged. The pestilence is now spreading in Shantung. A dozen doctors are dead. Reports from Harbin show 250 deaths daily. The frozen ground makes burial impossible. The people have finally consented to the cremation of 4000 bodies.

Massacred in New Guiena.

Word has been received at Brisbane, Aus., from Paupa, a division of the island of New Guiena, of the massacre of Staniforth Smith, the British administrator of Papua, two white officers and a party of natives by inhabitants of the interior. Smith, accompanied by the officers, twelve native police and fourteen carriers, left Port Moresby, the capital of Paupa, on Nov. 18 to explore the interior. The party was last heard from Dec. 7. Subsequently searchers were sent out and these have failed to return.

Two natives who accompanied the Englisnmen arrived at Gouribari with the tidings that all the rest of the party were killed by the natives.

Slowing Passing

Can any broad-minded man look over this situation with a keen, open mind, and not come to the conclusion that Canada is slowly passing from the list of protectionist countries? We are not arguing against protection, or in favor, but simply trying to face the facts squarely. We are simply repeating our warning, that the advocates of free trade are doing broader and more effective work than the advocates of protection. If Canada moves towards free trade as fast in the next five years as it has in the past five years, there will be a tarriff for revenue only instead of a tarriff for protective features. When the Democrats came into power in the United States Congress, as they likely will shortly, what is to prevent their enlarging the present reciprocity arrangements so as to include many other lines of manufactured goods? Is there any reason to believe that the farmers of Canada are likely to be content with their present victory.

Langford Defeats Bill Lang

One of the largest crowds which ever witnessed a prize fight in London was on hand last Tuesday when Bill Lang, the Australian champion, and Sam Langford, the Boston "Tar Baby" entered the ring for their 20-round contest. Both fighters looked fit and with the added incentive of a probable battle with Jack Johnson for the world's championship each was confident of victory. The fight was for a guaranteed purse of $15,000 at Hugh McIntosh's Olympia annex. Langford ruled favorite before the fight, odds of 10 to 7 being offered on the negro.

Lang restorted to rough tactics in the sixth round and fouled the American scrapper. He was disqualified and the fight given to Langford. He slipped down while making a swing at Lang and the Australian punched him before he got on his feet.

Guests at the Hotels

Windsor: G. H. Jernberg, Vancouver; J. F. Venables, Seattle; Max McSweeney. Nelson; G. C. White, Midway; Sergt Major Wheeler, H. W. Ewan and wife, Grand Forks; W. Swain, Prince Rupert.
