GREENWOOD 6 GRAND FORKS 1

The above was the most happy result of the hockey match at Greenwood skating rink on Monday night last. The Grand Forks team came over in a special C. P. R. train with a host of their admirers and friends.

The game was really excellent, the ice was keen and the crowd in good humor. Few penalties had to be imposed. E. G. Warren acted as referee, most satisfactorily. The play was swift for the entire game, and the cheering loud and long. J. McDonald played an extraordinary game, in spite of having a lame foot, and has three goals to his credit. George Clerf, H. Cameron and J. Bloomfield, each scored a goal, and had it not been for the magnificent defence of the Grand Forks goal keeper each of the other members of Greenwood Hockey team might have had goals to their credit, too. Bloomfield never played better in his life than on Monday last. The game was a good test of what our boys can do. This victory, with the protested game at Grand Forks, places Greenwood at the head of the Boundary Hockey league.

PLAY UNDER PROTEST

Last Thursday evening a C. P. R. special took a large number of Greenwoodites to Grand Forks, together with the Greenwood Hockey team, to play the seventh game in the Boundary Hockey league series.

The match was somewhat delayed owing to a protest being made by Greenwood against a new member of the Grand Forks team. The game was played under protest, and as such does not count in the series against Greenwood. The ice was extremely swift and a good game was witnessed by a crowded rink full.

[illegible] a double disadvantage. Only the night before they had played at Phoenix, and they were minus their star player, McDonald. The game was won by Grand Forks with a score of 5 to 1.

Some 488 paid admission to the rink. The train returned with its tired out passengers at 2 o'clock a. m.

RESULTS AT NELSON

The Bonspiel closed Saturday. The Burns trophy was won by Somerville's rink of Trail, which defeated Wilson, of Cranbrook, 11 to 8. The Hudson's Bay trophy goes to Buchanan, of Nelson, who defeated Somerville, of Trail, in a close fight. Judge Wilson's rink, of Cranbrook, captured the Tuckett after a hot contest with Judge Forin, of Nelson. Wolly takes the British Columbia Curling, and Richards the Corby. At a successful smoker G. A. Hunter was presented with a handsome traveling bag by the curlers.

WAS SHE TO BLAME?

One of the actresses of the J. G. and Aggie Marion Stuttz theatre company was taken ill from a severe attack of lagrippe and was unable to take part in any of the preformances here. A severe cold contracted in the drive over from Penticton was the prime cause.—Hedley Gazette.

FLY OVER PYRAMIDS

Egypt's aviation week opened at Heliopes last Monday. The Khedive was present. Among the principal events will be a speed contest to the Pyramids and return.

CONCILIATION BOARD SITS

The three members of the Conciliation board appointed by the Dominion government, to hear the evidence in the dispute between the B. C. Copper Co. and the Greenwood Miners' union, arrived in Greenwood on Tuesday last, and the first day's sitting of the board commenced at the court house on Wednesday at 10 o'clock.

The members of the board are: John McInnis, for the Miners' union; J. A. Mara for the B. C. Copper Co., and J. H. Senkler, of Vancouver, for the government, chairman of the board.

Mr. McInnis objected to the evidence being taken down by Mr. Loucks, the stenographer of the B. C. Copper Co.

The board adjourned till 4 o'clock to try and obtain another stenographer.

Walter Dewdney arrived on the afternoon train from Grand Forks to act as court stenographer during the sitting of the conciliation board, being chosen by the board.

Wednesday evening was taken up with the presentment of statements by the B. C. Copper Co. and the Union.

Several witnesses will be called by both sides.

Thursday was taken up with cross-examining witnesses, and as there are many more subpoenaed it will be some time before the evidence is all in. The Union claims that they have the right to insist on all employees at the smelter and the mines of the B. C. Copper Co. being members of the Western Federation of Miners. The company denies this and the Board has this one question before it.

The Union threatened to [illegible] unless this condition was [illegible] January 11. The company [illegible] Conciliation Board [illegible] the dispute.

FORESTRY ASSOCIATION

Upon the invitation of the Government of New Brunswick the eleventh annual convention of the Canadian Forestry association for the consideration of Forestry problems, will be held in the Legislative buildings, Fredericton, N. B., on Wednesday and Thursday, February 23rd and 24th. The sessions will be opened at 10 a. m. on the 23rd by addresses from the representatives of the government, municipal, educational and commercial institutions, etc.

In addition to the president, Mr. Thomas Southworth, and the vice-president, Hon. W. C. Edwards, the following are expected to take part: Hon. Clifford Sifton, chairman of the Commission of Conservation; Hon. Jules Allard, Minister of Lands and Mines, Quebec; Hon. W. C. H. Grimmer, Surveyor General of New Brunswick; Dr. B. E. Fernow, Dean of the Faculty of Forestry, University of Toronto; Mr. E. A. Sterling, Forester of Pennsylvania railroad; Mr. W. C. J. Hall, Supt. of the Bureau of Forestry, Quebec; Prof. Gordon Tower, of the University of Maine; Prof. R. B. Miller, of the Uniuersity of New Brunswick, etc.

It is expected that the Forestry work of the dominion and of the provinces will be well represented. The railways have granted special rates and a large attendance is expected. Further information may be had by addressing the secretary of the Canadian Forestry association, Mr. James Lawler, who will be at Fredericton till after the close of the convention.

MIDWAY NOTES

Joe Davidson, of the C. P. R. depot here, has returned from a trip to the coast.

Alex. Hardy started work on the 1st inst., as an assistant in the Great Northern shops at Oroville.

Mrs. E. Small, of Wilcox, Sask., and her daughter, of Chicago, are visiting Mr. and Mrs. A. Letts,

Joe. Frank, who has been spending a couple of months at Vancouver, is expected to return very soon.

Miss Ava Black, of Spokane, intends leaving for her home next Monday, accompanied by Miss Sadie Mesker.

Mr. and Mrs. Wagner, of Enterprise, Ore., are spending a few weeks with the latter's aunt, Mrs. S. A. Crowell.

ROCK CREEK NEWS

D. R. Tait is visiting Vancouver on business.

H. Nicholson J. P. has returned from a tour of the neighboring towns.

The roads are in bad condition for traveling just now—neither good wheeling nor sleighing.

The dance at Pittendrighs hall on 5th was a great success. The hall was well filled and the music by the Bush orchestra was good.

On the evening of the 2nd the home of Mr. and Mrs. Farmer was invaded by a "surprise party." Nearly 20 "raiders" kept things lively until the early hours.

FLOODS SUBSIDE

Foreign subscriptions to the flood relief fund now exceed $800,000.

The River Seine has fallen 16 feet from its crest. More caveins in the streets and falling houses are reported as the receding waters withdraw the supporting pressure. The cabinet has decided to ask parliament for $4,000,000 more as additional credit for the relief of victims of the flood.

Turkey red is made from the "madder" plant, which grows in Hindostan. A cloth dyed in this color will make a bull madder, too.

JUDGE TURNER APPOINTED

Former United States Senator George Turner, of Spokane, left on Monday last for Washington for a final conference with President Taft and Attorney General Wickersham, before sailing for The Hague, to act as chief counsel for the United States in the arbitration of the long-standing dispute with England as to the construction of the Newfoundland fisheries treaty of 1818. Turner was placed in charge of the government's case by ex-President Roosevelt nearly 18 months ago, and has given much of his time to the matter since. His researches in the files of the case have caused him to overhaul legal data and opinions compiled by such statesmen as Daniel Webster, as the dispute over the fisheries treaty has continued with more or less vigor for 75 years. The case will be presented to The Hague tribunal in May, and England will be represented by some of its foremost lawyers. Judge Turner was a member of the commission that negotiated the treaty over the Alaskan boundary.

LOCAL OPTION

The official count of the ballots cast in the recent local option plebiscite was completed February 4th before Deputy Provincial Secretary A. Campbell-Reddie, the review of the Skeena ballots adding two to the local option total, and reducing the margin by which the proposals failed to score the required 50 per cent. of the available vote to approximately 1,100.

The deputy provincial secretary proposes to personally revise all the figures before officially acquainting the public with the result. Dr. Spencer, the secretary movement in British Columbia, concedes that, taking all his claims into consideration, local option on the present occasion has failed by 560 or thereabouts.

"Cohen's ill in bed, I hear." "Yes. He smoked a cigar from the wrong pocket."

OUR PAYROLL INCREASING

Yesterday was the British Columbia Copper Co.'s pay day and $45,000 was distributed, which is what our town of Greenwood has to exist on. But the payroll is slowly increasing.

We have now the No. 7 mine in operation, the E. P. U., Bay, Tip Top, Combination and Dynamo mines working, besides the Greenwood-Phoenix tunnel and the Argo tunnel, all employing men, and these smaller payrolls, added to the larger amount distributed by the big copper company each month, are building up the business of the town. The year 1910 promises to be a propitious year for Greenwood.

THE BALL

There was a large attendance at the Fancy Dress Mask ball on February 4, at Greenwood Auditorium.

The prizes for the most popular costumes went to Mrs. P. Roosa, as an Egyptian lady, and Mr. W. C. H. Wilson as a French marquis.

There were many notable dresses, and altogether the evening was greatly enjoyed. The music might have been better, but the very tasteful decorations and excellent supper made up for a lot. There were so many attractive costumes that it is impossible to enumerate them all. The Times reporter was too busy attending to his back hair to make any notes at all.

THE SUNDAY MAIL

The Vancouver Sunday Mail is getting better each issue, and as an independent newspaper for independent people it is an honor to B. C.

FRIENDSHIPS

The quays of some mighty port, witnessing sad farewells each day, as the leviathans of the deep, carrying their passenger cargoes, ply from port to port, are the saddest places on earth. But the small C. P. R. depot of this little mining town, far from the giddy whirl of the world's commerce, is sad enough. Since the Station was built, some ten years ago, it has seen many come and many go. The new-comers are the bright side, the good byes to those who leave the sad side, and of late years the good byes have been so frequent. It takes years to know each other, and somehow the old friendships are not easily replaced. Whatever be the number of friends we have, there are always times when they are too few; while of enemies we all must have some, but one is too many.

In this so uncertain existence the one asset that has real value is friendship; and when the exigencies of fortune, the betterment of conditions draw away from a so small community, one by one, the old crowd, the familiar faces, the Station becomes a very sad place indeed to those who are left.

Life is not all beer and skittles by any means, but the friendships formed along the way, are the greatest boon that comes to us mere mortals. Each good bye takes someone away whom it took years to know and appreciate. We must make the best of it and welcome the new arrivals, make them at home, and sticking to the old friends, wherever they are, add new friends to our list, while we are not too old to form new ties or too callous to care.

R. I. P.

The members of the Central Farmers' Institute, of Victoria, have decided that the Crow is more of a nuisance than a benefactor, and will ask the government to place a bounty of 5 cents a head. That may help to deprive some of the pests of a livelihood and put some easy money into the hands of small British Columbians. Poor old Crow! It's certainly hard lines to be only worth 5 cents, a mere nickel, and to be hounded by every small boy who has visions of a sack of candy or peanuts in his little brain. But you will become a nuisance, so something had to be done.

EDITORIAL COMMENT

We had to send Martha to the Lions. But our minds are easy, the Lyons will be good to Martha.

The new steam plant arrived last week for the school building and is being installed by E. W. Bishop and his assistants. It cost a lot of money, but it is cheap at any price, for the teachers and school children must be kept warm, and since the plant arrived the weather has moderated and Spring is here—almost.

The Provincial Land Surveyors at their recent meeting raised their own wages from $15 to $20 per day. It is claimed that the same rate of wages has prevailed at the coast for some time past. How long will they maintain this? Some cheap surveyor will undercut rather than lose a job. They should stand pat and fine the members of their union who do not keep the rules.

Arthur Edward McKenzie, the woman beater, who resisted arrest and broke jail when caught, got six months at hard labor on Monday morning, Judge Hallett presiding, at the court house. The six months is only a fractional part of what the man deserved for thrashing a woman, but it may serve to teach him a lesson, and at any rate the police are instructed to arrest the prisoner should he ever put his nose into Greenwood again, and that is good work.

Looters and ghouls receive scanty measure of pity when caught in Paris. They are shot or hanged as most convenient at once. The authorities are using every effort to prevent an epidemic when the waters recede after the flood, and Paris is putting on a smiling countenance in spite of its troubles.

The Lords Day Alliance has succeeded in its attempt to have all post offices in Canada completely closed on Sundays. Orders to this effect have been issued by the post office department and have been received in Nelson and in all the other towns and cities of British Columbia as well as the rest of the Dominion.

The many Boundary friends of Geo. McL. Brown will be pleased to learn that he has been appointed European manager of the C. P. R., to succeed the late Archer Baker. The appointment was made swiftly owing to fact that Sir Thomas Shaughnessy, president of the C. P. R., and G. M. Bosworth, fourth vice-president, were both in charge of the steamship service. Mr. Brown left Montreal in 1908, when he went to London to succeed Allan Cameron, as general traffic agent. At that time Mr. Brown was general passenger agent of the C. P. R. steamship service.

"And what," asked the anxious parent, "would you advise in my daughter's case?" "She must stop all piano practice at once," said the physician, firmly. This seems a strange cure for a cold, but it must be remembered that the doctor lived in the next flat.

Asiatic Turkey had a civilization thousands of years ago. The interior of that country is populated today by farmers, to whom modern knives and forks are unknown; the spoons they use are of wood and each family makes its own.

A few minutes delay in treating some cases of croup, even the length of time it takes to get a doctor often proves dangerous. No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a *secret* nostrum as a substitute for this non-alcoholic medicine OF KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

MINES AND MINING

The Van Anda smelter is to be remodeled and the ore will be treated by the oil-burning process.

The Rawhide, the principal mine of the New Dominion Copper Co., will be on the list of shippers next month. The mine has been systematically prospected by diamond drill.

The annual meeting of the Le Roi Mining Co. was held in London January 18. The balance sheet shows a surplus of assets over liabilities of £29,758 6s 3d, exclusive of the mine and smelter.

Although not a record month in point of dividends paid by American mines and metallurgical works, The Mining World is able to show that 36 of these totalled $8,528,485 in the first month of 1910. In addition to this amount are the declarations of four securities holding corporations, of $1,620,781, making a total for the month from all sources $9,803,767. In comparison with the same period in 1909 this shows an increase of three in the number of mines and works paying dividends and an increase of $931,518 in the total amount paid. As compared with 1908 the 1910 disbursements show an increase of 14 in the number of companies paying, an increase of $3,730,082 in the amount paid.

Forty-two coal claims in the Telkwa and Bulkley valleys, owned by the Cassiar Coal company, an eastern corporation, of which Samuel Barker, M. P., Hamilton, Ontario, is a prominent official, have been "jumped" for alleged non-compliance with the mining regulations. It is alleged that while the company paid the annual license of $100 per claim, every year continuously, development was not prosecuted as required by law. A big fight is pending, and the matter has been referred by the Hazelton mining recorder to Premier McBride as minister of mines. Locations were made about five years ago. The company applied for crown grants a few months ago. The property is very valuable as the area embraces valuable lands in the Bulkley valley at the junction of the Bulkley and Telkwa rivess, and also comprised several prospective townsites.

An attack of grip is often followed by a persistent cough, which to many many proves a great annoyance. **Chamberlain's Cough Remedy** has been extensively used and with good success for the relief and cure of this cough. Many cases have been cured after all other remedies had failed. Sold by all druggists and dealers.

NOT HER FAULT

When Rob Mabry and his associates in the Republic Mines Corporation took a party of investors to Republic a couple of weeks ago, they were accompanied by their wives and Mr. Mabry's daughter Hope, a pretty little girl about eight years old. A friend of her parents seated Miss Hope on his knee and began to tease her, calling her "Dutchy." She protested indignantly, saying: "I'm not Dutch. I'm English-Scotch-Irish-American." "Dear me, what a mixture," teased her tormentor. "How on earth did you get so mixed up?" "I didn't get mixed up," she responded. "It was my ancestors." —Inland Observer.

While it is almost impossible to prevent an accident, it is never impossible to be prepared—it is not beyond any one's purse. Invest 25 cents in a bottle of **Chamberlain's Liniment** and you are prepared for sprains, bruises and like injuries. Sold by all druggists and dealers.

DICKINSON—McCREA

Miss Margaret McCrea and Harcourt P. Dickinson were united in the holy bonds oi matrimony in Coeur d'Alene City on Tuesday. January 25th. The bride is the daughter of Mr. and Mrs. Robert McCrea and is a handsome, charming and accomplished young lady. Mr. Dickinson is well known in this city, being a general agent in the Kootenays of the Giant Powder Co., a member of the Rossland club, and a holder of a commission of Captain of the Corps of Guides. He is a generous whole-souled gentleman who enjoys the friendship and esteem of a large number of the residents of Kootenay, who will be pleased to learn that he has become a benedict. Mr. and Mrs. Dickinson have gone to Hawaii, where they will pass two months of their honeymoon amid the smiling sunny skies and tropical verdure of these "Beautiful Isles of the Sea." Mr. Dickinson has been promoted to a higher position with the company for which he has for so many years been the Kootenay representative, and this forces him to take up his residence in Vancouver. As soon, therefore, as he and his bride return from Hawaii, they will settle down in a pleasant home in Vancouver.—Rossland Miner.

If troubled with indigestion, constiptation, no appetite or feeling bilious, give **Chamberlain's Stomach and Liver Tablets** a trial and you will be pleased with the result. These tablets invigorate the stomach and liver and strengthen the digestion. Sold by all druggists and dealers.

As the result of doing her husband's cooking for over a month, the wife of a prominent citizen is wearing a beautiful sealskin sacque. And as the result of a similar experiment another one stands a good chance of wearing a beautiful crepe veil.

ST. VALENTINE

Next Monday is February 14, St. Valentine's day. Whoever St. Valentine was, he is reputed to have been a Roman Bishop way back in 271, A. D., he left us a charming legacy in his very name and the old, old custom of "choosing a valentine." Whether you send a picture postcard, an old time valentine, or a box of bon-bons, the idea is the same, it's just another of the good old excuses to show someone you like that you do like.

ISLE OF UNREST

The British battleship Duncan, flagship of Rear Admiral Sir George Astley Callagan, second in command of the British Mediterranean fleet with the cruisers Lancaster, Minerva and Barham, and four torpedo boat destroyers, has left Malta for the Piraeus, the port of Athens, Greece, to be ready to uphold the authority of the powers, who are responsible for peace in the isle of Crete.

JEFFRIES—JOHNSON

The great battle for the championship of the world between Jeffries and Johnson, will be decided in the Coliseum at Saltair Beach, 15 miles out of Salt Lake city. It is rumored that the Mormon church wants the big fight there in the hope of paying the $40,000 debt on the structure. The Coliseum was built in 1908 and cost over $50,000.

King Edward, it is said, can pick out an American woman by looking at her back. Probably none but an American woman would dare turn her back to the king.

COMET A, 1910

Comet A, 1910, has a tail 50,000,000 miles long, is the decision and description of astronomers and scientists on Mount Wilson, who declare the tail of the comet peculiarly constituted and thirty degrees in length. Thirty degrees is commonly interpreted at 50,000,000 miles in astronomy. The first photos of the comet have been obtained and are largely satisfactory. Fifty millions of miles would reach from the evening star, Venus, to the earth and two-thirds of the way back at the present date. Just now Venus is little more than 30,000,000 miles away. When it gets on the other swing of its orbit it will be 120,000,000 miles away. The vagrant of the skies has, as far as is at present known from photographs taken, three tails. Two of them form the brilliant appendage of great length and are long and slim. To ordinary instruments and to the naked eye these two tails look as one. The scientific instrument shows another tail three times as broad as the other two combined and not more than two degrees in length. It will remain in the heavens for two weeks longer.

LOST IN ALASKA

Lost for 16 days in the Koyukuk valley, Alaska, with the temperature 54 to 60 degrees below zero, without food, matches, axe or knife, Vernon Brewster, an old time prospector and miner, was forced to kill three of his dogs in order to escape destruction in the frozen wilderness. Recently Brewster reached Nome, where he told of his terrible experience.

SUFFRAGETTES

The militant suffragettes of old England have decided to quit their militance. Opposition to the government will be continued however, and suffragettes [illegible] to take the field in every [illegible] to urge the election [illegible] against the government.

PORTLAND CANAL MINER

MESSINA REVIVES

The city of Messina, which was destroyed by an earthquake December 28, 1908, has taken on a new lease of life. The city has 70,000 inhabitants, four-fifths of whom were living there at the time of the disaster. The University was reopened February 1. Great activity prevails.

COSTLY STATION

The new C. P. R. station at Regina will cost $600,000, and will be the finest building of the kind between Winnipeg and the coast. The length of the new depot will be 480 feet, and a portion of it will be four stories high.

ZAM-BUK CURES PILES

Evidence from all Sources

There are so many so called "remedies" for piles that sufferers are often at a loss what to try. Piles are caused by distension of the hemorrhoid veins, and the tissue becomes highly inflamed, dry and sore. Zam-Buk cools and soothes the inflamed tissue and the healing essences in Zam-Buk penetrate the diseased parts, giving ease quickly and eventually curing the most obstinate case of piles,

Mr. George Harris, of Virden, Man., says: "I suffered acutely from piles, but I am glad to say Zam-Buk gave me ease and brought about ultimate cure."

Mrs. S. Cooke, 468 Pacific Ave., Winnipeg, says: "A month ago I was cured by Zam-Buk of a bad attack of bleeding piles, to which I had been subject for a long time."

Mr. Wm. Kenty, of Upper Nine Mile River, Hants Co., N. S., says: "I suffered terribly from piles. The pain from these was at times almost unbearable. I tried various ointments, but everything failed to do me the slightest good I was tired of trying various remedies, when I heard of Zam-Buk, but thought, as a last resource, I would give this balm a trial. I procured a supply and commenced with the treatment. In a very short time Zam-Buk effected what all the other ointments and medicines had failed to do—a complete cure."

Whereever there is inflammation or ulceration, there Zam-Buk should be applied. It heals ulcers, abscesses, festering sores, cold cracks, scalp sores, cuts, burns, scalds, bruises and all irritated, inflammed or diseased conditions of the skin and subjacent tissue. All druggists and stores, 50 cents a box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes.

CHINESE NEW YEAR

Last Tuesday was Chinese New Year's Eve. This does not always fiall on the same date of the year. It depends on the sun and the date of the Celestial Emperor's birthday.

Like our own New Year, it is a time of rejoicing for the subjects of China, all over the world, and thousands of firecrackers pronounce the fact that Mr. Chinaman, when he wants to celebrate, does so with a vim and will and with no close fist, either. This New Year is 2461 in the Confucian Era, and the second in the reign of His Majesty Soon Houng.

A LARGE HOSPITAL

The new Sacred Heart hospital in Spokane will be opened in March. It cost $800,000 and took five years to build. The hospital is six stories high, and covers two blocks. It has 240 rooms and 32 wards, each with a capacity of 200 beds.

MINISTER OF DEFENCE

It is rumoured that the British Cabinet will consider the amalgamation of the admiralty and war office under a single minister, to be styled the minister of defence, with a view to ensuring greater co-ordination between the two services.

THE TRUNK ROAD

In development of the interesting and progressive policy of the present chief commissioner of public works, Hon. Thomas Taylor, looking to the establishment of a through inter-provincial trunk road extending from the coast, by linking up various existing road systems, to connect with the main road system of Alberta, a special report has just been presented to the government by Lewis Hind, A. I. M. M., who was some time ago selected to investigate geographical and engineering conditions between Princeton and Hope. Mr. Hind was a Boundary pioneer, and was for some years located at Anaconda. His report is very full of detail and will enable the government to decide on the best route for the trunk road,

FUTURE OF LORDS

Opinions differ as to what is the future in store for the British House of Lords.

Laborites want to abolish the upper house entirely.

Others want the veto rights of the House of Lords on financial legislation done away with.

The Moderates, such as Sir Edward Grey, are for doing away with the hereditary principle and substitute popular election.

Proportional representation from equal electoral areas is advocated by the Spectator.

Some change is iminent, but it is hard to fortell its scope.

BARTLETT MINE
