The Store of Quality.

Next Door to Post Office.

Residence Burned.

The residence of J. H. Macfarlane, Gold street, took fire from the kitchen stove, shortly before six o'clock on Wednesday evening. As the family were all out at the time, the blaze had gained great headway before it was noticed, and the alarm not giving the proper signal at first, it was found impossible to save the property which is almost a total loss. The house and furniture were valued at about \$4,000 and were insured for \$1,400.

Election Protests.

Sixty-six protests have been entered against the return of that number of members elected to the House of Commons on Oct. 26th. Thirty-five of these are in Quebec, and Winnipeg, Victoria, and Nanaimo are also on the list.

In Alberta all but Victoria riding are in contest; Manitoba has eight, while Saskatchewan has only one.

Many of these cases, it is said, will not come to trial, though in Quebec where party feeling is running high it is expected that nearly every case will be hotly contested.

Going to South America

It is stated that J. E. Griffith gold commissioner at Golden, will shortly resign his position to go to South America to design and build the snowsheds to be constructed across the Andes by the English company which is providing South America with a transcontinental railway. Mr. Griffith was one of the leading engineers responsible for the design and construction of the snowsheds and avalanche breaks which have successfully served the C.P.R. in maintaining their highway across the Selkirk mountains.

The Australian Cabinet

The New Labor Ministry of the Australian Commonwealth is composed of moderates rather than extremists and includes all the available members of the last government. Mr. Fisher, the premier, was formerly a miner, Mr. Hughes a school teacher. Mr. Pearce a carpenter, Mr. Bachelore an engineer, Mr. Tudor a hatter, Mr. Thomas a miner, Mr. Mashon a journalist, and Mr. Hutchinson a journalist. Mr. Tudor, Mr. Bachelore and Mr. Pearce are Australian born. Mr. Deakin's followers will support the new ministry.

The announcement is made that the last link in the National Transcontinental railway between Montreal and Winnipeg is in the hands of the contractors. It is a stretch of 204 miles through the clay belt of New Ontario, beginning at a point ten miles west of Lake Nipigon. It may be said, therefore, that the whole line from salt water on the Atlantic to salt water on the Pacific is in hand, and the prospects of completion by 1911 are good. The completion of the Temiskaming and Northern Ontario track to the intersection with the track of the National Transcontinental and the coming into operation of the Lake Superior Junction line contribute to the rapid construction of the main line.—Nelson News

The Granby tonnage has passed the million mark for 1908.

During the past week the B.C. Copper Co's smelter treated 13,618 tons of ore, 10,623 from the Mother Lode, Oro Denoro 1,143, others 543 and custom ore 1,306 tons.

GENERAL MINING

Johannesburg Group

Development work is steadily proceeding on the Johannesburg group of claims comprising the Croesus, Johannesburg, Dover fraction, the Eureka, and the Royal, which embrace a continuous area of 240 acres of mineral bearing ground, all of which is ready for crown-granting. The property overlooks the city and the B.C. Copper Co's smelter at Anacosta, and the workings show a tremendous body of low-grade ore which has been shown up for a distance of 2000 feet and which is at least 350 feet in width.

On the Croesus the 115 foot shaft with 78 feet of cross-cutting has been abandoned owing to the quantity of water met with at a time when results were most encouraging the ore carrying good values in copper-sulphides and gold.

Two 30 ft. shafts and a series of holes 10 or 12 feet in depth have been sunk along the lead for 2000 feet which demonstrates the continuity of the deposit across the Croesus and the Johannesburg.

A tunnel is being driven on the Johannesburg which is now in 60 feet, all in ore, and gives great promise that another big boundary ore deposit has been discovered.

The ore is a mispickel strong in iron, and assays have given values in gold, silver, nickel and copper, one test on the Johannesburg having given as high as \$80 principally in gold, though the wealth of the property will probably come from the great deposit of low-grade copper ore which has been clearly shown up at so many points over the area embraced in the Croesus-Johannesburg group.

Dominion Copper.

A meeting of the bondholders of the Dominion Copper Co., of which Mr. P. F. Roosa is the provisional liquidator, held a meeting in New York last week, and the following is part of the report as given by the Boston Commercial:

"After the appointment of a receiver, our general manager visited the mines at Phoenix and the smelter at Boundary Falls, and inspected the machinery, plant and stores.

"The assets consist of the following: mining properties, Rawhide, Idaho, Brooklyn, Stemwinder, Montezuma, Standard, Mountain and Jackpot mining claims, owned by Dominion Copper company at date of the trust mortgage, together with mining claims formerly owned by the Montreal and Boston Copper company, the Morrison Mines, Limited, and the Athelstan Gold and Copper Mining Co., Ltd., and transferred to the Dominion Copper company, including among others the Sunset, C. O. D., and Crown Silver mineral claims and the Florence and Athelstan fractional mineral claims; machinery, plant, tools and equipment; smelter at Boundary Falls and machinery and plant connected; stores having book value of approximately \$50,000.

"It would appear, that in addition to bonded indebtedness of \$800,000 and accrued interest there are outstanding claims for about \$75,000, inclusive of wages for August and September, aggregating \$20,000. The miners have filed liens against the properties. Pending sale the receiver has been authorized to borrow \$20,000

in priority to the trust mortgage securing the bond issue to defray expenses of the receivership, the principal item being cost of power and labor in keeping the mines pumped out. The receiver estimates that his expenses will aggregate \$4,000 per month.

"It is not possible to say what time will be required to bring the properties to sale."

It has developed that the Granby Consolidated Mining, Smelting and Power company, which operates in the same district as the Dominion has offered the latter company \$300,000 for its properties, including the smelter, which has recently been equipped at an expense of about \$300,000.

The British Columbia Copper company, the third producer of importance in the Boundary district, has also made an offer to the Dominion companies for its properties, but this, we understand, was not sufficiently large to consider.

The original issue of \$1,000,000 bonds was put out against improvements made to the property.

The Rawhide mine is stated to be the one which the Granby company is most desirous of obtaining.

The British Columbia Copper company has recently had an examination made of the Dominion mines by its engineer.

It is reported that the owners of the Tip Top in the high-grade belt of Greenwood camp will resume operations at the first of the year on that well-known property.

Work on the Bonanza, a free-gold property on Sheep Creek, is progressing favorably, the work in hand being a cross-out to reach a lead of from 4 to 6 feet of ore.

The Centre Star is constructing a spur from the C.P.R. to facilitate shipments.

Two miners have come out of Iagencia with 57 ounces of \$17 gold.

The final payment of \$2000 has been paid on the Laura group, Kamloops camp.

An engineer of the Amalgamated Copper Co., of Butte, Montana, is making an examination of extensive copper deposits between Ashcroft and Nicola.

Work is being steadily prosecuted on the big showings of low-grade sulphide copper ore in the Telkwa section by three or four companies.

The True Fissure and Mining and Milling company have completed their purchase of the True Fissure, St. Elmo and Blue Bell mines at Ferguson.

It is reported the Eva mine, at Cambourne, has been sold to a Washington syndicate who will adopt a big plan of development and increase the mill to sixty stamps.

METALS.

New York, Dec. 9.—Silver, 49; copper, 14 to 14½, dull.
London, Dec. 9.—Silver 21½; lead, £13 6s.

COPPER QUOTATIONS.

Granby	100.00	106.00
B. C. Copper	7.75	8.00
Dominion Copper	.50	.75

Dec. 9.—Closing quotations on the New York curb and Spokane exchange:

	Bid	Asked
B. C. Copper	\$7.87½	8.00
Dominion Copper	.50	62½
Granby	104.00	107.00
Snowshoe	05½	05½

The Big Tunnel.

The promoters of the big tunnel which will traverse the high-grade properties of Greenwood camp and eventually tap the great Phoenix mines at a depth of 2,000 feet, announce that the money for the undertaking has been secured and that they have the machinery with which to commence operations.

The financiers of the proposition are expected in Greenwood before the holidays, and it is quite likely that a commencement will be made in the course of a very few weeks.

This will be the finest thing that could happen for Greenwood camp, and will mean much for the city, which is prepared to show its good faith in the undertaking by a grant of \$50,000 in instalments as the big hole is driven into the hill.

LOCAL ITEMS.

A meeting will be held in the Presbyterian church, Wednesday evening, December 16th, at 8 45 p.m., for the purpose of organizing a Local Option League. All citizens interested in the local option movement are earnestly requested to be present.

On Tuesday afternoon Ernest W. Kingsley and Mrs. Ida Terry, both of Molson, Wash., were united in the holy bonds of matrimony at the Methodist Parsonage Greenwood, by the Rev. F. J. Rutherford, B.A., and returned by the C.P.R. to Midway and the Great Northern to their home.

A. L. White has the largest, best and cheapest line of new and second-hand goods in the Interior. See him for he's there with the goods. Phone 16, the O.I.C. Second-hand Man.

The Thompson Stationery company, Vancouver, had a representative soliciting orders for printing in Greenwood last Saturday. The young man neglected the little formality of taking out a license and left just previous to an intended interview with the man with the star.

The carlers held a meeting on Monday night and have things in a very satisfactory shape. Applications have been coming in rapidly, and it is expected that the club will have a membership of 55 or 60. Intending members should send in their names and fees at once as the rinks will be scheduled next week.

Board of Trade

The annual general meeting of the Board of Trade was held on Wednesday evening.

The secretary-treasurer's report was presented and a committee consisting of J. E. McAllister, F. W. McLaine, H. Bunting, Duncan McLutosh and T. M. Gulley, was appointed to go into the matter of freight rates.

The committee will report to a special meeting on Wednesday evening and this report will be laid before the Associated Boards.

Land Lookers.

A party of Nelson lumbermen who recently purchased a group of eleven timber claims on the Kettle river from John H. East and associates have secured a site for a saw-mill at the mouth of Ingraham creek from F. Richter, and will probably build a mill at that point in the near future.

A. J. Abernethy, of Dakota, Eugene Hibbert, of Idaho, and Mr. Stubbs, of Stubb's and Pitts, Nelson, came in with Mr. East this week and went out to look at land in the Kettle Valley with a view to locating and purchasing.

Hockey.

The Greenwood hockey-players have organized for the season with Dr. W. L. Spankie as manager, and will begin practice as soon as the rink is in shape.

The Boundary hockey teams—Phoenix, Grand Forks and Greenwood, will play a series of four matches in each town for a cup, the money for which is to be raised by friends of the teams in all three cities.

Phoenix already have their contributions in hand, and it is expected there will be no trouble in securing the support asked for in Greenwood.

We can look forward to some first-class exhibitions of the game during the winter if the necessary encouragement is given.

There are 450 men employed at the St. Eugene mine at Moyie and the pay roll today amounts to \$46,000.

The outlook for Kamloops camp next season is bright and there is a revival of talk concerning a custom smelter.

BOUNDARY ORE TONNAGE

December 11, 1908

The following table gives the ore shipments of Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 (as reported to the Greenwood Times)

PUBLIC LANDS.

The Victoria Week tells us that one G. M. Davis, took an option on 30,000 acres of good agricultural land situated in the Nechaco Valley, from F. M. Rattenbury, and that Mr. Davis has disposed of 11,000 acres of this to a Seattle man for \$140,000.

Besides, the Week says that there are others who have corralled large tracts of farm lands in the Valley of the Nechaco, for example, the Appleton Investment Syndicate, of Seattle, acquired 70,000 acres.

And the Week declares that "no better method has yet been devised of settling up a new country," and that "this makes it easy for the settler."

Has the Week never heard of the "Homestead Regulations" of the Dominion Government with the free grant of a 160-acre homestead?

In what possible way can it "make it easy for the settler" to have the titles to these lands pass through the hands of two or three different speculators before the settler is allowed to build his cabin?

For half a century the arable lands of British Columbia have been apportioned to companies and to favored individuals in

blocks ranging in size from a cattle ranch to the colossal Dussmair estate on Vancouver Island. The Columbia-Western grant of 800,000 acres was handed over by the present administration, and the sloughing process still goes on; while the actual settler may come and go without being able to find a quarter-section where he may dare to plant a stake.

The "reservation of the land for the actual settler" was never a part of the program at Victoria, and the land-grabber has been the very greatest hindrance to the progress of the country.

The Victoria Colonist claims that "the Colonist defeated Mr. Templeman," and in the same breath accuses the Victoria Times of a desire to deprive B.C. of cabinet representation.

The eulogy of Ralph Smith, M.P., in the Victoria Colonist is very proper and very pleasant reading, but in a straight fight between Mr. Smith and Mr. Hawthornthwaite, which man would the Colonist support?

The Vancouver Province has already declared for the Comrade.

The Grand Forks Sun tells us that one may now take a trip around the world for only \$600. It's no use, you will have to come again before we'll be ready to start.

Since Carnegie says that the steel industry in the U.S. no longer requires the protection of the high tariff, and the sugar refiners and the furniture manufacturers have also advised the U.S. tariff committee that the duties should be reduced, there seems to be a probability of some more Byran legislation being adopted by the American government.

It is refreshing to read the incitements to Mr. Templeman in the Provincial Tory press even if they do come after the tribute paid to the work of the former Minister of Mines by the Mining Institute of Toronto. Spilled milk, gentlemen—but you were bound to do it.

In rejecting the Licensing Bill the British House of Lords have again shown how difficult a matter it is for the Old Countries to get away from customs long established.

The barmaid handing out booze on a Sunday afternoon while the church chimes call the people to their prayers is a matter which may not seem incongruous to a British peer, but is quite impossible in the land that once was known as "the wild and woolly west."

It is not generally known that we have laws against the "profession" of fortune-telling, and we would judge from advertisements in Coast papers that the law is not enforced.

The death of John Cameron, founder of the London Advertiser and a former editor of the Toronto Globe removes one of the ablest journalists of Canada and a man whose greatest concern was the good of his country and his fellow-men.

The Nelson News expresses the hope that Mr. Sifton will never be allowed to address a B.C. audience.

O pshaw! just get the celebrated F. C. McLaglen, of Winnipeg, and G. H. Cowan, of Vancouver, on the job, and you may be reasonably sure that it will be busted up all right.

The Cranbrook Prospector has come to the conclusion that the deportation of the Hindus from B.C. to Honduras would be a blessing to all concerned.

We are anxious to know what the Grand Forks Gazette thinks about all this.

The action brought against J. W. Dafoe, editor of the Winnipeg Free Press, by F. C. McLaglen for criminal libel, and which was prosecuted by the Attorney-general's department of Manitoba, has resulted in the acquittal of Mr. Dafoe.

"Hooliganism" was proved to have been rampant in the Winnipeg campaign, and the Attorney-general of Manitoba has placed himself in an unenviable position by espousing the cause of the notorious party-heeler who was the target of the editor's denunciation.

GENERAL NOTES

The Custom's fees at Calgary for November amounted to \$39,434.65.

Chief of Police Maloney, of Simcoe, is charged with shooting Constable Wilkins with intent to murder.

Great Britain has undertaken to insure the territorial integrity of Holland, putting another barrier in the course of the Germans' march to the sea.

Navigation on the Great Lakes has closed for the season 1908.

Lord Strathcona has voiced his objection to free trade between Canada and the U.S. unless Great Britain be included.

Germany and the U.S. have arranged a two-cent postal rate between those two countries.

The car-shortage has assumed serious proportions on the prairies.

Trade navigation returns show that Canada's trade with the U.S. now exceeds that with Great Britain.

Nord Alexis has left Hayti in disgrace protected by the flag of France. His successor will probably be Gen. Simon leader of the revolutionary forces.

Black Watch Men should look for this Tag on Cheiving Tobacco. It guarantees the high quality of Black Watch The Big Black Plug.

Ninety-thousand head of cattle have been exported this year to Great Britain, averaging \$50 a head.

The committee of peers appointed in 1907 to consider reforms in the Upper House is expected to recommend the reduction of the number of Peers by one-third; that the right to sit shall be dependent upon distinguished services to the country and not on heredity alone, and that a certain number of life Peers may be elected.

The Fort Vermillion district 700 miles north of Edmonton has produced a good crop of wheat this year for which the Hudson's Bay Co. pays \$1.25 a bushel.

John McKay, who came to the Red River in 1815, and the last but one of the Selkirk settlers has died at Toronto.

The visit of Sir Hibbert Tupper to the east has given rise to interesting rumors bearing on the question of the leadership of the Conservative party.

Dorando and Longboat will run the Marathon course at Madison Square Garden on Dec. 15th.

Tuesday, December 1st was the 64th birthday of Queen Alexandra.

Frank H. Hitchcock will be postmaster-general in Mr. Taft's cabinet.

The eleventh parliament of Canada will be opened on January 9th.

Copper HANDBOOK.

(New Edition issued March, 1908.) Size: Octavo. Pages: 1228. Chapters: 25. Scope: The Copper Industry of the World.

Covering: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding geology, Mining, Copper Deposits, Copper Mines. The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: \$5.00 in Buckram with gilt top, or \$7.50 in full library morocco. Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you? WRITE NOW to the editor and publisher,

Fire Chief Deasy, of Nelson, has resigned.

Kamloops hockey team will have a rink 160 ft. long by 70 ft. in width.

ZAM-BUK AS A CURE FOR PILES

Impressive Cures for Women Sufferers

Our readers should note these cases

Wherever there is suffering from piles, Zam-Buk should be applied. There are lots of reasons for this, but one of the best is that in practically all cases of piles where the use of Zam-Buk is preserved with complete cure—not mere relief—is the result.

Mrs. Wm. Hughes, of 253, Hochelaga Street, Hochelaga, Montreal, says: "I suffered from blind, itching, and protruding piles for years. Sometimes they were so bad that I could hardly bear to move about. The inflammation, the burning smarting pain, the throbbing, aching, the overpowering feelings of fullness and dark despair which allment brings; the shooting spasms of agony—all were so terrible that only sufferers from this awful ailment can understand!"

Bad as this case was, Zam-Buk triumphed, and Mrs. Hughes suffers no longer. It needed a little perseverance Zam-Buk certainly, but in the end it cured.

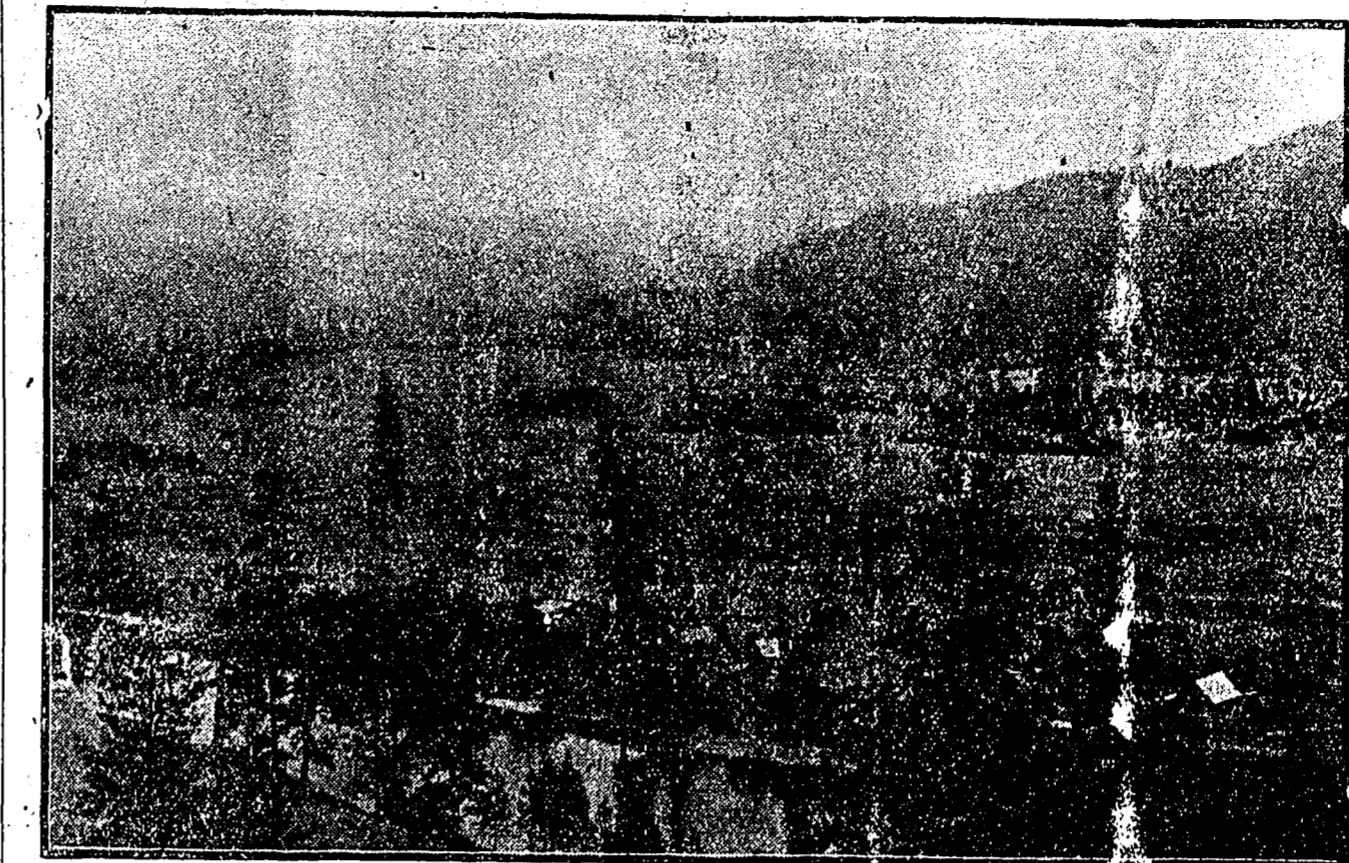

Mrs. E. Boxall, of Scott Street, St. Thomas, says, "For months without cessation I endured a great pain from bleeding piles. For as many months I tried everything which I thought would give me ease, but in the end, dispirited and still suffering, I gave in." Then it was she heard of Zam-Buk, and she adds: "Although I feared Zam-Buk would be like the ordinary remedies—useless—I am glad it was not. It soon proved itself to be very different. It rapidly gave me relief, and after a time cured me completely. I would like to let all sufferers from piles know what a grand thing Zam-Buk is."

So one could go on quoting case after case, and it is by working such cases that Zam-Buk has earned for itself its great reputation.

Now if you suffer from this terribly painful ailment just be guided by the foregoing cases.

For internal piles melt a little Zam-Buk and thoroughly soak a wad, made of clean but old linen. Then apply to the part. If the piles are external, application of Zam-Buk is still more sim-

Synopsis of Canadian North-West HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting Band 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 159 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

DUTIES.—1. At least six months' residence upon and cultivation of the land in each year for three years.

2. A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions joint ownership in land will not meet this requirement.

3. A homesteader intending to perform his residence duties in accordance with the above provisions, while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.
