GREENWOOD CITY COUNCIL

A regular meeting of the City Council was held on Monday evenig, Mayor McIntosh and all the aldermen being present.

The minutes of the previous meeting were read and passed.

A letter from E. W. Bishop, re water system, was ordered filed.

A letter from the C. P. R., re water rate, offering a flat rate of $450 per year for 20,000 gallons per day, was read.

Moved by Alderman Craig, seconded by Alderman Sutherland, that the council is still of the opinion that $600 per annum is a reasonable rate for 20,000 gallons per day, and that the letter be received and filed. Carried.

The finance committee reported the accounts of the B. C. Gazette, $5, and Crane Co., $4.65, correct.

Moved by Alderman Sutherland, seconded by Alderman Buckless, that the report be received and accounts be paid. Carried.

Fire, water and light, reported repairs to several breaks in the water main.

A special committee on B. C. hotel repairs, recommended that the building be shored up on the inside at the south end, and that the dirt be removed from the north end. Mr. McKenzie being present, estimated that the cost for his part of the work would be $40 or $50.

Moved by Alderman Craig, seconded by Alderman Buckless, that the committee on the B. C. hotel be instructed to make the repairs they think necessary. Carried.

On motion, the council adjourned.

TEN YEARS AGO

(From Boundary Creek Times of April 29, 1900)

Robertson and G. Smith Curtis and James Dunsmuir pitted against each other politically.

The interment of Mrs. Lennan took place last Sunday afternoon, Rev. Father Palmer officiating.

Paul Johnston's residence is in the hands of the painters. He is expected back from Spokane this afternoon.

The building of British Columbia Copper Co's smelter started, with a capital staff of managers and officers. There is great rejoicing in Greenwood.

Married—At Middletown, on the 11th inst., Duncan McIntosh of the Winnipeg Mining Co., and Miss Irene Stewart, by the Rev. A. McDonald. Mr. and Mrs. McIntosh are expected in Greenwood this week.

ENORMOUS LOSSES

The blizzard that raged on April 23rd. Estimated to have caused damage of $30,000,00 in the middle western states and the total destruction of the fruit crop. Further snow and frost is predicted by weather forecasters. Experts estimate the losses in the ten states as follows: Illinois, six million; Iowa, ten million; Indiana, two million; Michigan, four million; Wisconsin, one million; Kentucky, one million; Kansas, one million; Missouri, two million; Ohio, five hundred thousand; Nebraska, one million five hundred thousand.

On the lakes the storm caused much damage, but details are not yet at hand. The blizzard effectually blocked all lake traffic while it lasted.

SHOTGUN CLUB

The following is the score of the initial Meet of the Greenwood Shotgun club last Sunday:

	Shot at	Broke
A. Logan	25	21
J. L. White	25	19
A. J. Logan	25	19
R. J. Sanders	25	17
A. J. Morrison	25	18
A. W. Davis	25	20

A woman is like an army, if she has no reserve she is lost.

HALLEY'S COMET NOW VISIBLE

Halley's comet is now plainly visible from the summit of Mount Wilson, Cal. Prof. Adams, who has charge of marking the observation said recently that the spectrum showed the comet to be surrounded by cyanogen gas, which is a combination of carbon and nitrogen. The tail is composed of hydro carbon gas, a mixture of carbon and hydrogen. In some parts, one gas will prevail, while in others the other is predominant.

Extensive preparations are being made on Mount Wilson for observing the electrification of the eastern atmosphere on May 18, when the comet will cross the sun, and the earth will pass through the tail of the wanderer.

It is belived that the electrification of the earth's atmosphere will be disturbed, but how much or in what way is not known. On the eve of May 17, and also on the eve of May 19, according to Mount Wilson scientists, there will probably be a wonderful display of shooting stars. This will occur just before the comet crosses the sun on May 18 and just after. On that date it will be impossible to see the comet from Mount Wilson, but it will be visible in the middle of the Pacific ocean. After May 19 the comet will be faintly visible in the evening for a few days and then it will pass out of sight for another 75 years.

A TESTIMONIAL

Hon. W. S. Fielding, on Tuesday evening last, was presented with a [illegible] investment of [illegible] his behalf by [illegible] Members of the [illegible] mons and some [illegible] viduals formed [illegible] the purpose [illegible] tions for a testimonial [illegible] ister, in recognition of [illegible] service as a member of parliament and minister of finance. The respone to the call of the committee was most satisfactory and was not limited by party affiliation. Sir Wilfrid Laurier, who was present at the presentation, expressed his delight with the honor paid his hard working colleague.

ST. ELMO

The preformance of St. Elmo last Thursday, at Greenwood Auditorium, was a most pronounced success. In spite of there been a strike declared, the opera house was well filled. The caste was a particularly strong one. St. Elmo is a Belasco attraction, which speaks for itelf. The work of Edgar Sinclair, Bellew Baldwin, Ralph Bell and Chas. E. Gunn was exceptional brilliant. The ladies of the company were all stellar attractions, the acting of Miss Gerda Nelson as Edna Earl called called for repeated applause. Greenwood has seen few finer productions

PUBLICATIONS RECEIVED

The following publications have been received at this office:

The British Columbia Building News, published at Vancouver, B. C., $2 per year.

The National Builder, published at Chicago. Price, $2 a year.

The Home Journal, published at Toronto. Price, $1 per year.

The above publications are of great value to architects, builders, etc. Copies can be seen at the office of the Boundary Creek Times.

HOOK WORM MALADY

This very peculiar disease has made its appearance in our town, but the case is an isolated one, and although of a painful and disagreeable nature, is not contagious. The patient is doing well and indicates no serious results.

MIDWAY COAL LOOKING WELL

Work at the coal property of the Boundary Mining and Exploration Company, west of Midway, is steadily progressing. The tunnel, now some thirty-five feet beyond the first seam encountered, has cut a body of sandstone, full of coal blossom, and is now entering black shale. The shale is supposed to be the roof of the second seam and that seam should be cut in the near future.

It is proposed to begin the erection of coal bunkers at once, and some necessary buildings are also contemplated. It is possible that in connection with continuing the crosscutting some development work may be done on the first seam. Coal from this seam sent to the Granby for assay showed carbon, 73.2; volatile matter, 16.1; ash, 9 1; water, 1.6.

As a result of the successful issue of the work on the company's property many coal areas have been staked in the vicinity of Midway for license. It is now generally believed that the entire country for some miles is underlaid with coal measures, and apparently the coal is second to none in the province. The citizens of Midway are already replacing their wood stoves for those in which they can burn the local product.

BECOMING ALARMED

We are told that Washington is getting alarmed over the emigration of United States farmers to Canada, and the authorities are wondering how to stop the exodus. We are of the opinion that it would be a difficult matter for Uncle Sam to form a plan that would prevent a United States farmer from selling his acres [illegible] the line for thousands [illegible] in Western [illegible] of dollars. [illegible] United States had better [illegible] steps to prevent the multi-millionaire trusts from making money by fleecing the people before trying to prevent her farmers from becoming wealthy by moving to the Canadian prairies Our neighbor was not a bit worried when thousands of Canadians were annually crossing the border to live on the other side. It is estimated that there are two million Canadians and their descendants in the States.

PASSED AWAY

There passed away at 834 Pandora avenue, Victoria, in the person of James Boyd, one of the old time pioneers of this province. Deceased was a carpenter by trade but has been living a retired life for many years. He was born in Dublin, Ireland, and had reached the advanced age of 80 years.

Mr. Boyd came to this province in 1860, being attracted here by the Cariboo gold. He went to that district and was successful in accumulating a competency. After spending several years in the Cariboo he came to Victoria, where he has resided ever since. He was well known throughout this city. He was unmarried and had no relatives in British Columbia.

SELLS HOTEL

The Hotel Colin, Grand Forks, has been sold for $13,000 by P. D. McDonald to Gus Eastman and Charles Peterson, two well-known hotel men. The new owners take immediate posession. Mr. McDonald intends to take a vacation trip to Honolulu. On his return from that place he will make his home in Victoria.

"Yes, we thought he would reach the landing all right, but he sank and was drowned almost with in reach of it." "Strength gave out, eh?" "No, he appeared to be strong enough, but when he had almost reached safety the six o'clock whistle blew."

THE TROUBLE IN CHINA

Late advices state that all foreigners in Chang Sha are safe on foreign cruisers, but that more rioting is kept up in the disturbed districts. The suppression of the trouble by the Chinese government has proved much more difficult than it was at first anticipated. The U. S. cruiser Cleveland remains at Hankow in case of emergency, in company with the English cruisers.

A number of the leaders of the Chang Sha uprising were executed recently by order of the Chinese Admiral Sah.

The principal cause of the uprising is attributed to resentment on the part of the Chinese to the exploitation of resources by foreigners, and not, as before, owing to the Boxer element. It is feared that the riots will spread.

HURT IN SAW MILL

John Leith, a native of Woodstock, N. B., was badly injured last Monday, while working at the sawmill of Steeves & Co., on the West Fork, by coming in contact with the rotary. He is now in Greenwood under the doctor's care. Jack was the lucky finder of a gold pocket in the Cariboo district, a few years ago, which netted him $2,800.

BADEN-POWELL SCOUTS

Drop in to the Barricks and see the Boy Scout go through their evolutions. Flag or arm drill also instructions given in the knowledge of first aid to the wounded etc. A visit will prove most interesting, and give interest, and your presence most pleasing to Scoutmaster Hargreaves.

The government of British Columbia, on payment of $208.55, has received from the Dominion government 208 acres of mineral land in the railway belt, comprising the Flora Bell, Morning Star, Eureka anb Eastern Star mineral claims, in Revelstoke mining division,

THE STRIKE SITUATION

The result of the referendum vote by the Greenwood Miners' union was 81 to 86, thus defeating the proposition to return to work. A large number of the men have left for other camps, noticeably Republic, Wash., where mining matters appear to be very healthy. In the meantime no time is being lost at the B. C. Copper Co.'s smelter, where they are having a thorough house cleaning preparatory to resuming operations at an early date.

A DENIAL

Refutation of the reports in the coast papers of Phoenix and also Granby miners striking in sympathy with the Greenwood miners, is now in order. Reports from both these camps are to the effect that with them, all is going along amicably and that there is no truth in the reports sent out. It is too bad, and very annoying to those concerned, the publication of false reports. It is certainly regrettable enough when a fact, but more so, when there is nothing in it.

DISSATISFIED

Copies of all papers in reference to the granting of the minimum tariff rate to various foreign countries was called for by a resolution acted upon by the house committee on ways and means in Washington recently. It was introduced by Representative Underwood, of Alabama. Mr. Underwood contends that these papers will show that Canada and other countries have been [illegible] advantages un- [illegible] reciprocations in return.

Mrs. J. T. Beattie will not receive again this season.

Mr. J. Duthie, of the Bank of Commerce is confined to his room by tonsilitus.

One cubic foot of bituminous coal weighs from 47 to 50 pounds.

CLOUDY WEATHER

It is very regrettable, from economic as well as business points, the frequent interruption of business by strikes and other unfortunate events consequent upon the inability of those directly the cause, failing to arrive at an amicable settlement. Trade relations at present times are so demanding in their requirements that any curtailment of the means of progress is a very vital matter both for the trader as well as the laborer, the recipient as well as the dispenser. It is most unfortunate these set-backs occurring, but it is as natural as anything. We have to take the bitter with the sweet. We are built that way. This is a good time for the merchant as well as the householder, to think over matters a bit. On his part to try and push biz. by more and judicious advertising, for it is the time when such is more urgently needed. Advertise in every possible way and push for all you are worth.

On the part of the householder or purchaser, make it a point to give all the spare cash you have to your local merchant. Do not send away for goods that can be had at home—be loyal to your town. By helping him out you are doing yourself a a turn, for invariably there comes a pinch, or low water period with us all, and it is to the merchant we look for the assistance to tide us over Consequently, by all pulling together, these breaks in our commercial existence can be much ameliorated or much less felt. We trust the predictions are true that our present cloudy business atmosphere will be soon replaced with a bright [illegible] day, and [illegible] again.

MARK TWAIN

The passing of this universally known, thoroughly good, natural humorist, is not only a national bereavement, but almost the world over will respond with genuine sympathetic feelings. The publication of "Innocents Abroad" was a happy and very clever hit. This was followed by a number of others, very enjoyable. but not up to the first-named work in its originality. His death was a happy one, for a frame actually worn out, and it was rest that was the boon most desired. He was born in 1835, making him 75 years of age. He has occupied a pedestal strictly his own in the literary wold. It will be a long time before we have another, a thoroughly clever writer, who was born with the humorous characteristics, and not acquired. Poor, old Mark! Many a happy hour from his pen work was given to us mortals.

EDITORIAL COMMENT

The Minneapolis Tribune wonders if one of the reasons why the United States is losing so much of her population to Canada may not be that the laws are better here than there as is shown by the absence of lynchings. There may not be much in this, as an inducement to migration to Canada, but undoubtedly the manner in which the laws are administered in this country serves to make immigrants satisfied to live here.

The whole world will watch with keen interest the manner in which the tariff question will be dealt with by the people at the congressional election to be held this autumn. The protective policy of the United States was the principal factor on the spread of protectionist principles, and if it is abandoned to any considerable extent, the other nations will have to some extent to recast their fiscal systems. It was John Bright, we think, who said that the real peril to British commerce and industry would come when the United States adopted free trade, and while we do not suppose that we will witness that event, any material reduction in the tariff of that country will have an exceedingly important effect upon the policy of other protectionist countries. For these reasons we look upon the election referred to as one of very great interest. It may be the beginning of a movement that may become an economic revolution.

Not generous of praise himself, coals of fire have been heaped on Lord Kitchener's head in the course of his journey through the United States. Though at his own wish he is not being received formally by distinguished people along his line of march, he is not permitted to go on his way without receiving many proofs of the admiration in which he is held by American military men and the deep interest that the general public takes in his every word and gesture. Had he so desired, he might have had some such reception as Col. Roosevelt is undergoing in Europe. It is worth noting that while Col. Roosevelt protests loudly that the attention he attracts and the rumpus he is creating are repellant to him, his hosts do not desist. In a land of hero worshippers, where military genius is the rarest kind of genius, one of the greatest of all generals passes through quietly—requests that he shall be received as a private citizen—and carries his point.

OUTLINES OF CURRENT [illegible]

Rossland pays its City Auditor $12.50 a month. We all can have autos at that income.

Joseph A. Chisholm, K. C., was re-elected mayor of Halifax, N. S., by acclamation.

John McInnis formerly Socialist member for Grand Forks, has settled in Fort George.

A Montreal man was arrested at Boston for using a United States mailbag for a valise.

Mr. Balfour has altered his tariff policy, abandoning all thought of a tax on colonial grain.

Wm. Balfour McDonald son of Senator W. J. McDonald has been given command of H. M. D. G. S. "Niobe."

The Prince of Wales has contributed 2,500 pounds sterling towards the Archbishop's Western Canada fund.

L. A. Campbell, manager of the West Kootenay Power & Light company, was through the Boundary on a tour of inspection last week.

Rome dispatches announce unofficially that Mons. Pignatelli, the papal nuncio at Vienna, has been recalled for welcoming Theodore Roosevelt.

This year's Canadian Bisely team will have as commandant Lt, Col. Edwards of St. John, N. B., while Major J. E. Hutchinson, of Ottawa, will be adjutant.

J. P. Graves, vice-president and general manager of the Granby Consolidated Mining Smelting and Power company, was a visitor in camp on Wednesday. He arrived with Superintendent R. E. Morgan of the Great Northern Tuesday evening, accompanied from Grand Forks by Treasurer G. W. Wooster, leaving at 11 a. m. Wednesday by special.—Phoenix Pioneer.

Attempts were made on the life of Baron Motono, en route from St. Petersburg to Japan by Koreans who were foiled by the Russian police set to guard the ambassador.

A prisoner convicted of second degree murder at New York has complained that the police extorted a false confession from him by driving him to distraction through hunger, thirst and want of sleep.

The Board of Trade has taken a stand in opposition to the City Council's move in Victoria, to close all saloons and hotel bars at 11 p. m. The closing hour now is midnight. Resturants and hotelkeepers protest that the new law would result in a great loss of business.

The report that the Canadian Pacific Railway will electrify the Crow's Nest Pass line is revived by the incorporation of a company capitalized at a million dollars to develop power from the Pend d'Oreille river at junction with Salmon river.

D. O. Lewis, a mining engineer and capitalist, left for the north recently, where he will take charge of the engineering and construction work on the Portland Canal railway. The railway is one of the private enterprises of Mr. D. D. Mann, of Canadian Northern fame, and will extend 12 miles from Stewart City to mining properties contig[illegible], affording transportation [illegible] not only for Mr. [illegible] but for those [illegible] line.

Chamberlain's Stomach and Liver Tablets assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by all druggists and dealers.

A woman loves best when she loves first; a man when he loves last.

To some people the goal doesn't matter so long as they can keep up the pace.

WOMEN'S BEAUTY

It Can Never Be Perfect Without Luxuriant Hair.

A head of luxuriant hair is sure to be attractive. But nature has not crowned every woman with glorious hair. Some very lovable women she has treated rather scantily in this respect.

For instance, there are tens of thousands of women in Canada today who have harsh, faded and lusterless hair, who are unattractive simply because they do not know that nowadays even the whims of nature can be overruled by the genius of science.

If you are a woman without beautiful hair, do not permit your attractions to be hidden because of this slight misfortune.

Go today to J. L. White and buy a large bottle of Parisian Sage for 50 cents, use it each night, and you will notice the harsh, repulsive hair disappear, and in its place will come soft, silky, bright and luxuriant hair.

Parisian Sage is guaranteed by J. L. White to cure dandruff, itching of the scalp, and stop falling hair in two weeks, or money back.

J. L. WHITE, Druggist.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 13th May, for the conveyance of His Majesty's Mails, on a proposed contract for four years, six times per week each way, between Greenwood and V., V. & E. Railway station at Midway, from the 1st July next.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tenders may be obtained at the postoffices of Greenwood, Anaconda, Boundary Falls and Midway, and at the office of the Postoffice Inspector.

Postoffice Inspector's office, Vancouver, B. C., 1st April, 1910.

JOHN R. GREENFIELD, Postoffice Inspector.

34

TEDDY

By the time ex-President Roosevelt gets through with the round of hospitalities which he is now suffering. He will either have increased in bulk to such an extent that it will require two warships to convey him to the land of the free, America. He will, if he takes it all in. in the blooming country of England, feel that he has outclassed even the British lion and maybe would feel it a relief to face the native of Africa for a pot shot as a change-off from daily feasting and entertainment, those little differences he has been up against will be as a fillup and make present surroundings all the more enjoyable. Teddy is a lucky fellow to have so much hospitality shown him.

Most cases of baldness are due solely to neglect. The hair often becomes dry and dandruff forms because the hair glands do not supply enough natural oil. Nothing overcomes this deficiency so effectively as that delicately perfumed, refreshing hair pomade, Bearine. Avoid baldness; apply Bearine to your hair occasionally. All druggists, 50 cts. a jar.

DAVIS' MENTHOL SALVE

A thick adhesive ointment, combined with Japanese Menthol and Vaseline, two of the most wonderful healing drugs known.

It soothes, heals and tends to restore those who suffer from **Piles, Earache, Rheumatism, Chafing,** irritated and other skin troubles.

The word "Salve" literally means be well or in good Health. Try Davis' **Menthol Salve** and you will be relieved.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

THE INVESTOR
THE SPECULATOR
THE METALLURGIST
THE CONSUMER
THE MINER

Price is $5 in Buckram with gilt top, or $7.50 in genuine full library morocco.

TERMS are most liberal. Send no money, but order the book sent to you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

WRITE NOW to the editor and publisher,

MINES AND MINING

It is computed that the actual stock of marketable copper of all kinds on hand at all points in the United States April 1, 1910, was 123,824,874 lbs.

Construction work on the aerial tramway from Boundary Falls to the No. 7 mine is being actively proceeded with, a large number of men being employed.

A one-stamp quartz mill, The Prospector's Friend, as it is rightly named, is an automatic-fed, one-stamp mill, manufactured at Los Angeles, Cal. It is intended to meet the wants of the ordinary prospector or miner and weighs about 1,200 pounds. It is highly spoken of by prospectors.

Promotion, properly carried on, is a necessary and legitimate part of mining. It is unfortunate, but true, that mine promotion offers an unusually attractive field for the swindler. A promoter must be optimistic or he could not convince anyone of the value of a property as an investment. Optimism is not dishonesty, however. If a prospective investor would exercise a little common sense and use ordinary good business judgment in making an investment in a mining company the number of victims taken in by dishonest promoters would be surprisingly reduced. It is never safe to be off guard for a moment. All extravagant stories should be taken with the proverbial "grain of salt." Highly colored word pictures should be sufficient to make one suspicious. Although famulously rich mines are possibilitie, they are so rare that they are not commonly before the public in search of financial support. We not long ago heard a promoter telling of a rich district (unknown to but one or two men), where the rocks were yellow with free gold, and he had the samples with him to "prove it." This region is not at all what he represented it to be; had it been, he could have taken out gold enough in one day with a pick to have financed a good-sized company without the necessity of calling for outside aid. No man of sound buisness sense would be misled by such yarns. A plausible story may be far from the truth, so in any event the only safe course is to make a thorough investigation before investing. As most investors are non-technical men they should call into consultation some reputable mining engineer, who, by examining the property, will be able to report its probable true worth, and to advise on the course to be pursued in its development to a paying mine. In addition to having a good property it is equally important to have on the board of directors men who are not only competent to deal with financial matters, but who have also a knowledge of mining. An incompetent directorate can wreck a company in a short time by ill-directed effort.—Mining World.

Your tongue is coated.
Your breath is foul.
Headaches come and go.
These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective. Sold by all druggists and dealers.

ELECTION OUTLOOK

Rumors are current here that the government intends to appeal to the people this autumn Color is given to these reports by the fact that Sir Wilfrid Laurier has decided to make a tour of the west in July and August, accompanied by Mr. Graham and possibly Mr. Fielding.

You need a good salve in the house. Davis' Menthol salve is the best. It cures sunburn, mosquito and insect bites and stings, piles, old sores, skin diseases, etc. 25c. per tin.

When interest pulls against honor, man usually trusts himself to chance.

If your hair is thin, brittle or poorly nourished, apply Bearine (made from Canadian Bear Grease). It saves hair. 50c. a jar.

A NON-PERSONAL LIABILITY

Now running a tunnel (in 200 feet) under valuable claims adjoining Greenwood Townsite on Skylark Mountain.

OLA LOFSTAD, President. A. S. BLACK, Secretary.

A SAFETY DEVICE

The following from the report of the Department of Trade and Commerce, is interesting:

"The chief inspecting officer of railways for the board of trade, and one of his colleagues, exhaustively tested upon the Midland railway siding an ingenious safety device. The mechanism not only warns an engine driver 800 yards before he reaches it whether a signal is at 'danger' or 'clear,' but prints a record on a tape machine on the cab, showing how each signal has stood during the run.

"The inspectors first ordered a signal to be set at 'danger.' Then, leaning from the engine cab, they directed the driver to approach the signal at a fast pace. At a point far enough away from the signal for a train to have been pulled up without overrunning it, a small wheel, projecting from a lever below the engine, touched a rod on the permanent way. Immediately a red label with the word 'danger' upon it, appearing in a small brass box before the driver's eyes, a small red lamp above flashed out, and the whistle of the engine sounded. The label showed, the lamp remained lighted, and the whistle continued to blow until the driver touched a lever and released the mechanism. Then the signalman was ordered, 'give us "line clear".' When the engine approached the lowered signal a green label marked 'clear' came into view in the engine, a green light showed, and an electric bell rang. Then the box in the cab was opened, and the tape machine examined. To record the condition of the signal when it stood at 'danger,' two dots, side by side, has been punctured in the tape. For the 'clear' signal the instrument had pierced a single dot.

"It is one of the most ingenious pieces of mechanism yet seen, and should be tested under ordinary running conditions on a main line section. It was pointed out by experts of the Locomotive Signal company that the adoption of the device would prevent accidents caused by oversight, sudden loss of memory, or drowsiness on the part of a driver, would remove the element of danger in fogs, and obviate the use of fog signal men. It would also provide infallible proof by means of the recording tape on whom the blame for an accident rested"

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by all druggists and dealers.

CONDITION OF JEFFRIES

Bill Delaney, the man who is given the credit of discovering Jim Jeffries and making him champion of the world, is still croaking in New York about the coming fight. The burden of his tale is that Jeff is suffering from "internal weakness"—whatever that is—and cannot "come back!" Jeffries takes Delaney's talk easily and with some amusement. He does not worry, or even get mad at some of the things Billy says about him.

Convalescents from fevers and injuries that have kept them bed ridden for some time and all people run-down and below par generally, will find a treatment with **Ferrovim**, the invigorating tonic, just the thing to put them on their feel again in good shape. Ferrovim is composed of fresh, lean beef, Citrate of Iron and pure old Spanish Sherry Wine. $1.00 per bottle.

BOY SCOUT'S THANKS

Mr. Haynes, the commissioner and Mr. F. S. Airey, on behalf of the Baden-Powell Boy Scouts, of Vancouver, take this opportunity of thanking Mr. A. K. H. McFarlane for granting the use of his property at Roberts creek, Howe Sound, to the Baden-Powell Boy Scouts for their camping ground this summer.

In union there is sometimes divorce.

AT THE CHURCHES

METHODIST — Rev. I. B. Hibbert will conduct services in the Methodist Church every Sunday. Morning, 11 a. m.; Sunday School, 3 p. m. Evening. 7:30,

PRESBYTERIAN—St. Columba. Services will be conducted morning and evening, 11 a. m. and 7.30 p. m. Sunday School 2.30 p. m. Rev. J. A. Petrie, minister.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. J. A. BEDARD, O. M. I. pastor.

RAILWAY CONSTRUCTION

The program of the Kettle Valley Railway company for this summer is to build a ten mile extention of new road up the north fork of Kettle river; complete the work on the west fork ten-mile stretch from Midway (where grading has already been done,) and build and additional ten miles further up the valley, and, starting probably from both ends build from Merritt up the Coldwater," said W. P. Tierney, head of the railway contracting firm of Tierney & Co.—Phoenix Pioneer.

Diarrhoea should be cured without loss of time and by a medicine which, like Chamberlain's Colic, Cholera and Diarrhoea Remedy, not only cures promptly, but produces no unpleasant after effects. It never fails, and is pleasant and safe to take. Sold by all druggists and dealers.

THE WEDDING RING

In the Isle of Man the wedding ring was formerly used as an instrument of Torture. Cyril Davenport in his book on "Jewelry," remarks that there once existed a custom in that island "according to which an unmarried girl, who had been offended by a man could bring him to trial and if he was found guilty she would be presented with a sword and the ring. With the sword she might cut off his head, with the ring she might marry him. It is said that the latter punishment was that invariably inflicted."

The migration from the United States to Canada worries our neighbors; but it is a condition that is easily explained, according to the Mail and Empire. Land in the United States is dear; land in Canada is relatively cheap. The man who can sell the farm he got for a few dollars an acre for $80, and can buy as good and perhaps better land across the border for from $5 to $10 an acre, makes the deal that is open to him, and comes out with a good heap of money into the bargain. It is an economic condition that is bringing about the che change.

Trading on a good name and deceiving the public is what the imitators of the well-known "The D. & L." Menthol Plaster are doing. Don't be fooled. Insist on the genuine, "The D. & L."

Little Girl—"Mother, that's such a nasty little boy; whenever he passes me he makes a face." Mother—"Very rude of him. I hope you don't do it back." Little Girl—"Oh, dear, no! I simply turn up my nose and treat him with despisery."

Visitor—"I saw your husband in the crowd down town today. In fact, he was so close that I could have touched him." Hostess—"That's strange. At home he is so close that nobody can touch him!"

Every family, and especially those who reside in the country, should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all druggists and dealers.

He who would please women must be true to one woman.

THE NEW NAVY

The bill providing for the creation of a new Canadian navy, which took six weeks' talk to get its second reading in the commons, was put through the committee stage in the house with comparative ease under the pilotage of Sir Wilfrid Laurier and Sir Frederick Borden. The members spent all day going over the bill clause by clause. Criticism from the Opposition benches was comparatively mild and perfunctory, centering mainly on the clause providing for the participation of the Canadian navy in any war in which Great Britain may be engaged only on authorization of the governor in council. The Opposition again took the stand that the navy should be placed automatically at the disposal of the admiralty whenever England declared war. There could be no holding back, for when the Empire was at war Canada was at war, and Canada's naval forces should be automatically at the disposal of the king.

RAILROAD ACTIVITY

It is reported that next fall the C. P. R. will begin constructing the Arrowhead and Kootenay railway to connect the main line at Revelstoke with the Crow's Nest road via the Lardeau. It is stated that the work will be rushed to completion in order to have it available as soon as possible as an alternative route in case the main line becomes blocked by snow slides, as has been the case this winter.

FELL ON THE STOVE.

Baby is Badly Burned.

The young daughter of Mrs. T. S. Dougall, 523 Flora avenue, Winnipeg, [illegible] arranging some of her doll's wash- [illegible] clothes rack, beside the stove, [illegible] fell, and her hand, being [illegible] to try and save herself, [illegible] the side of the [illegible]. She sustained a serious [illegible] and her screams brought her [illegible] quickly to the spot.

"I sent to the druggist for the best remedy he had for burns," she says, "and he sent back a box of Zam-Buk. He said that there was nothing to equal it. I applied this, and it soothed the pain so quickly that the child laughed through her tears. I bound up the hand in Zam-Buk, and each day applied Zam-Buk frequently and liberally until the burn was quite cured.

"The little one was soon able to go on with her play, and we had no trouble with her during the time the burn was being healed. I would recommend all mothers to keep Zam-Buk handy for emergencies of this kind."

All druggists and stores sell Zam-Buk at fifty cents a box. Post free from Zam-Buk Co., Toronto, for price, and you are warned against harmful imitations.

NOTICE is hereby given that, thirty days after date, I intend to apply to the Hon. Chief Commissioner of Lands for a license to prospect for coal and petroleum on the following described lands, situate in the Similkameen district: Commencing at a post at the southwest corner of Lot 2,337, pre-emption, thence west eighty chains, thence north eighty chains, thence east eighty chains, thence south eighty chains to place of commencement and containing 640 acres.

Dated this 25th day of April, 1910.

Cure that Cough—Prevent Another

There is a double benefit in using Mathieu's Syrup of Tar and Cod Liver Oil. It *cures*, it *fortifies*; it removes the immediate trouble, drives away the cough, soothes the irritated surface, heals the inflamed membranes and at the same time, owing to its tonic properties, builds up the system as a whole.

Its results are marvellous.

A bottle in the house is a wise precaution.

TOWN TOPICS

E. Williams, of the No. 7 mine, is at the Norden.

Pacific hotel is full of guests up to the ridge pole.

Harry Hook left on Tuesday's stage for Portland Canal,

John Barclay left on Thursday morning's stage for Spokane.

F. W. McLaine left on Monday for Nelson and other points.

Mrs. Cummius and daughters left on Monday for Bonnington Falls.

A. W. Davis, of Snowshoe mine, intends rushing matters on No. 7.

J. R. Jackson, M. P. P., from Midway, had a hand shake coming to him from him friends.

The Ladie's of St. Jude's Guiid will meet at the residence of Mrs. Bunting on Tuesday next.

Alex Robinson of the Kettle Valley Lumber Co., of Grand Forks, was a caller at this office on Monday.

The Ladie's Aid of the Presbyterian church will meet at the residence of Mrs. Malcolm on Tuesday next.

The Midway stage line required three rigs to carry its passengers on Thursday to Midway to connect with train.

Work on the Greenwood-Phoenix tunnel is progressing very satisfactorily, averaging 6 feet of boring each day.

The waltham watch picked up on road to Jewel mine, is still at the office of the Boundary Creek Times, unclaimed.

R. Grubb, of the Hamilton Powder Works, is renewing acquaintance with the many custumers of that concern.

The Argo reports all going along smoothly and indications good, for the continuation of the work without interruption.

R. H. Stewart, of P[illegible] manager of the Canadi[illegible] & Smelting Co[illegible] operated on for appendi[illegible]

W. J. Wells, the n[illegible] pointed, C. P. R., district [illegible] anger agent, with headquarters at Nelson, was in town a few days.

G. W. Patterson, of Vancouver, has acquired 300 acres in Midway district, and who contemplates putting in a irrigation plant at once.

E. E. Gibson, of Grand Forks, representing the West Kootenay P. & L. company is among the guests on the register at the Windsor.

The spring assizes will be attended to by Chief Justice Hunter for Nelson and Fernie. Greenwood assize cancelled on account of no cases on the docket.

I. M. Doyle, district manager of P. Burns & Co., who lately returned from a three months trip to Los Angeles, Cal., is taking a look through the branches. His looks indicates he has not suffered any from his trip.

Ernest Miller, M. P. P., of Grand Forks, came in on Wednesday train, his presence here coupled with that of J. R. Jackson, M. P. P., looks ominous May be only trying the Boundary Creek fishing.

Fred Knight of Grand Forks the irrepressible general hustler for insurance as well as mining affairs was a visitor from Saturday till Monday morning returning to Grand Forks by Great Northern from Midway.

A stabbing affray occured at the smelter last Friday. A Swede partially intoxicated persisting encrossing a portion of the grounds, which he was distinctly forbidden to do, upon being forcibly compelled to obey, drew his knife upon the person of Mr. Boak, but was quickly disarmed. He was arrested, but upon trial, it being found that the act was done by an intoxicated person and really not reaponsible, He was let go on a suspended sentence and to leave Greenwood within 24 hours.

Last Sunday services at St. Jude's church, was largely of the character of a rector bidding adieu to his flock. Consequent upon the departure of Rector Venables for his new sphere of duties in the vicinity of Quebec. His statement of Stewardship, and the church's present standing, from a membership as well as financial point was most satisfactory. We shall certainly miss the genial rector not only in his clerically capacity, but socially also. His ministration of affairs has been most successful in building up St. Jude's church, and we bespeak for him a warm welcome in his new field of labor. He left last Monday. It is not known yet who his successor will be.

OLD FAVORITES

Everyone in Greenwood will be delighted to hear that the Juvenile Bostonians are once more coming back after a long absence. The thought of once more hearing these sweet-voiced girls sing brings a thrill of anticipation to all lovers of the theater, while the mere mention of Babe Mason's name brings a smile to the face of the most crabbed. The management have spared no expense in putting out the company this season and the attraction will be better than ever, but as an old theater goer was heard to say when he learned that they were coming back: "If the young ladies are as good this time as they have always been before they are good enough for anybody." After a short tour of the principal cities of the West they will make a tour of the Orient.

The Juvenile Bostonians, with their pretty faces, sweet voices and winning ways are to be with us again for a limited engagement of one night on May 3rd. New songs, new quips, new wardrobe, scenery and Babe Mason at the head of the company. Miss McClaire is still with the organization [illegible] will be heard to advantage in [illegible] of the latest musical hits of the [illegible] Berta's Billion is the name [illegible] of the new musical comedies [illegible] ll be a scream from beginning [illegible] d, as one can imagine with Babe [illegible] ason as Berta, the German girl.

A WISE MOTHER

The old tradition in Europe that princes must follow the military profession is not to apply to the Danish royal family. It is settled that Prince Erik, nephew of the King of Denmark and the King of Greece and the Queen of England, shall be a farmer.

He will go soon to Fionie, to join a farmer's family, and there learn to be an agriculturist. This was the desire of the Prince's mother, who died a few months ago.

She also desired that her younger son, Prince Viggo, should be employed by the East Asiatic company, a shipping firm in which the Princess had a large money interest.

Camping is one of the ways to learn to get used to the discomforts of home.

The beneficial effect of iron upon the system weakened through illness, overwork or anemia, is well known. Ferrovim is a preparation which supplies the valuable element in the most efficient way, combining with it the nourishing qualities of beef and the mildly stimulative effect of sherry wine. Ferrovim costs $1.00 a bottle at druggists.

"The D&L" MENTHOL PLASTER

FOR BACKACHE,
SCIATICA, PLEURISY,
STITCHES, CRICKS,
NEURALGIA, RHEUMATISM

Each 25c. in air-tight tin box; yard rolls $1.00, can be cut to any size.

Beware of worthless imitations.

PERPETUATING THE PAST

How few of us there are, who have not hidden away in some bureau or closet, some almost forgotten, almost faded picture-memories of dear ones who have passed to the Great Beyond.

Possibly, too, we have been fearfully watching, as the years go round, the steady but relentless fading that promises, ere long, to make these dear treasures but a memory indeed. Why not perpetuate these old picture-memories while there is yet an opportunity? A few years hence even the faintest outlines may have vanished forever.

Modern methods and modern papers will give you a lasting copy of such pictures, and skillful work will preserve to you the portraits that you have almost despaired of and give them to you in most cases even clearer and more reminiscently than the faded copies you now have.

Why not bring these old pictures to me? I at least will truthfully tell you whether it is too late to save them.

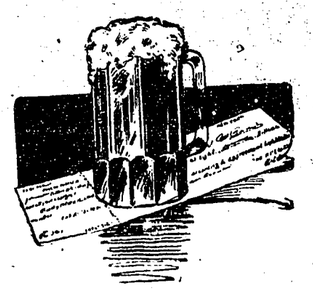
3 for One Dollar.

A Glass of Pabst Beer

with your dinner will aid digestion and give zest to your appetite



Let us send you some that your physician would endorse. It is perfectly pure, bottled at the brewery and thoroughly sterilized. It has been properly aged and every step in its making has been marked with almost "finnicky" cleanliness. It's real beer, not a chemical concoction.
