PROGRESS ON THE FARM

The Growth in Some Features of Farm Work Showing Surprising Results.

Bulletin No. 10, issued by the Bureau of Provincial information, contains much to show the advance the province is making of late years in an agricultural and horticultural way. For example, the tons of fruit shipped abroad in 1902 was 1,956, and in 1905 it was 4,357 tons, a gain in three years of over 120 per cent. The amount of fruit consumed at home must have been correspondingly increased, and more so, because of larger population and decrease in amount of foreign fruit shipped in. The quality of the B. C. fruit is recognized at home and abroad. The prairie provinces and even England have attested to the same, and now that the industry is on an acknowledged basis it is up to our shippers to maintain its standard. A few careless shipments of poor fruit, or even good fruit poorly packed, can quickly undo the work done.

The acreage in fruit is rapidly growing, particularly in the Okanagan country, and many thousands of trees recently come into bearing will steadily increase the yield, and the profits to come from this industry are bound to be very considerable.

In the Okanagan the profits from fruit growing are phenomenal, in instances reaching $500 per acre. For example, on the Coldstream ranch, near Vernon, 20 acres of Northern Spy apples yielded $10,000 worth of fruit. Peaches and pears do equally well, and tomatoes have proved a remunerative crop.

In butter making great strides are also being made. A few years ago all the butter used in the Boundary came from Manitoba or Washington. Today a large part comes from the creameries of the province, chiefly west of the mountains. Sixteen creameries last year yielded nearly a million and a half pounds of butter at a selling price of from 25 cents to 30 cents, and producing a creamery value of $400,000.

In other departments of farm work the growth is also satisfactory. But the opportunities for the farmers are not yet all availed of. The province imports annually over a million dollars worth of hog products. This market is open to the farmer and at highly profitable prices. But the farmer is awakening to his opporunities and the progress he is making is very satisfactory.

ANTI TUBERCULOSIS

Dr. Fagan, of Victoria, who for some time has been keenly alive to the necessiy of some advanced method of systematic treatment of the great "white plague," and who has been foremost in bringing before the British Columbian public the establishing at some suitable place a sanitarium for the treatment of tuberculosis, was in Greenwood during the week. He addressed a public meeting in the Presbyterian church on Tuesday afternoon at 4 o'clock, and steps were taken for furtherance of so benevolent a scheme.

A committee consisting of Mayor Naden, Dr. Spankie and one member to be chosen by the city council, one by the Board of Trade, and one by each of the city churches, was named to take in hand the matter locally. The object aimed at is to secure a grant from the municipality of $30 per annum for each thousand of inhabitants for the maintenance of such a sanitarium as proposed. The committee will incidentally look after local contributions for the cause.

SMELTER TROUBLE

Dissatisfaction at the Big Plant.

SMALL AT THE BEGINNING

Develops Into a Strike and Men Are Called Out Wednesday Noon.

For two weeks past there have been street rumors of impending trouble at the smelter. Men who claimed to have been treated unfairly by the management in the matter of wage put their grievance up to the local union. The mistake is, in certain instances, admitted by the management, but the same, they claim, was inadvertent, and purely the error of the office department. If this be so, the pity is that the wronged men did not go direct to the management and discuss the matter. The explanation, doubtless, is that said men felt the wrong was a violation of the wage scale, and as such ought to go before the organized body.

Last May, after a consultation with a committee of its employees, the company adopted a scale of wages, which was acceptable to the men, but which they claimed their federation foroad their signing. Their acceptance of the same was, however, assented to and confirmed by their returning to work thereunder. Although they felt that in some instances the scale was low, the local organization claims that the men would have lived up to the same for the life thereof, until May, 1909, if the company had not violated the same in the instances referred to.

This having been done, the men felt the time opportune to seek a general readjustment, and so notified the company. The time chosen to open the question was unfortunate for the company, owing to the illness of Manager McAllister. Mr. F. Keffer, however, with his characteristic devotion to his company, and with his usual courtesy, in the absence of the manager, used his best endeavors to heal the breach. When the union's demands were fully set before him, however, it was apparent that the solution of the question rested with the company's directorate, and so the entire matter was referred to New York.

On Saturday last the company made a statement of its view of the case and submitted the same to the public in a Times' special.

The local union, chafing under delay, submitted an ultimatum to the company, stating that unless their demands were conceded before noon of Wednesday last, the men would then walk out. Wednesday morning a telegram to the local management of the smelter came from New York, stating that a meeting of the directors was being held that day in New York to consider the entire matter. This telegram was submitted to the secretary of the union, and although he was not formerly requested to delay calling the men out until after the result of such meeting was known, it was doubtless with the expectation that such a course would follow.

The company's request to meet a committee of their employees and discuss the matter, which at this juncture seemed for a moment likely to be gratified, failed, however, and at 12 the men walked out, and the fires were banked.

On Wednesday evening the company addressed a letter to the union, of which the following is a copy:

NOVEMBER 21st, 1906.

Robert Matheson, Esq., Financial Secretary, Greenwood Miners' Union, Greenwood, B. C.:

DEAR SIR—Referring to your communication of the 20th inst., with enclosures, we would say that we are always ready to meet our employees, or their representatives, who are likewise our employees, to discuss their requests, and we will give such requests careful consideration, and redress any just grievances.

We have an agreement with our employees for a period of three years, which has still more than two years to

DIED IN SLEIGH

James McQueen Dies from Heart Failure This Morning.

James McQueen died this morning, while driving between this city and Rock Creek, where he was employed by Denmark Johnston. Death was due to heart failure, caused by alcohol. McQueen, who is well known around the Boundary, had been in the city for several lays and had been drinking heavily during his stay here. He left this morning about 10 o'clock, and when near the Lancashire house at Midway, died almost instantly. Dr. Newcombe, at Midway, was called, but after an examination decided that an inquest was unnecessary. Deceased was 46 years of age.

SLAUGHTERING DEER

The report is current that one hunter got six deer in one day recently in the vicinity of Midway. We trust that the report is exaggerated, because the number is in excess of the law's allowance. Moreover, they have hitherto been considered sporthmen around Midway and not pot hunters.

BRITISH COLUMBIA FRUIT

The fruit sent from British Columbia by the provincial government in charge of R. M. Palmer, of the department of agriculture, already has won recognition. Although it only arrived in the Old Country about a fortnight ago the display that Mr. Palmer entered at the Scottish Horticultural exhibition at Edinburgh captured the first prize—the gold medal of that organization.

This gratifying news was cabled to the minister of agriculture. The information, while meagre as to detail, definitely states that the premier place at this fair, one of the largest held in the old land, has been awarded the fruit grown in British Columbia and shipped over thousands of miles by rail and steamer.

A REMARKABLE ACHIEVEMENT.

When the conditions under which the exhibit was made are considered the extent of the achievement can be better realized. One of the first difficulties with which Mr. Palmer had to contend was the keeping of the fruit in good condition. He had to exercise the greatest care in transportation. In this he was assisted by the government and the C. P. R., cold storage facilities being provided en route. Upon arriving at his destination he had very little time to get the display in place. It had to sent with the utmost care to Edinburgh, Scotland, and then placed in position. With his usual energy and judgment, Mr. Palmer overcame all these difficulties and had the British Columbia exhibit ready before the judges made their rounds. The result could not have been more satisfactory.

A HAPPY CHOICE

Took an Earl Instead of a Duke and Got a Man.

Before the happy selection of Earl Grey as governor general of Canada, an effort was made by the English press to boom the little Duke of Marlborough for the position. It was said that he was a young man of large ability, had been a member of the British cabinet, had fought in South Africa, and that he had a charming and rich American for a wife who would know how to administer the hospitalities of the Ottawa government house according to new world ideas. The Canadians were not to be caught by such chaff. They wanted a statesman, not a figurehead, a man with brains who owed his position to his ability, not to the accident of birth; a man who, even if he had been born born to the people, had held his own by the force of intellect and the industrious application of his wits. The boom failed. The British government withdrew Marlborough's name from the list of probable appointees and sent out Earl Grey. And now the duke is in a sea of matrimonial trouble. His rich American wife has tired of him and sent him adrift. He got $5,000,000 with her as a dowry, and raised a great hubub because her father saw fit to marry again. That was the final cause of trouble. Besides, the duke, who is short of stature but not at all ill looking, is accustomed to look on the wine when it is red. He is also fond of the opposite sex and there is a fair American girl mixed up somewhere in the tangle. The two boys remain for the present with the father at Blenheim. If the departing wife should pay a sufficient sum she will get the children. If not, not.—Exchange.

BANDFAIR

WINDSOR CAFE

ANNOUNCEMENT

ADDITIONAL LOCAL

For nice fresh flowers for funerals decorations and weddings, write or telephone Spokane Florist Co., Main 5, Spokane. 5-30

We are glad to see Mr. E. Lentier again on the street, almost recovered from the very severe accident of several weeks ago, since which he has been in the hospital.

Ernest Mills arrived in town Thursday evening. Mr. Mills was for a long time secretary of the Miners' union here, and exerted a powerful influence in all labor questions It is trusted that he may be able, by careful methods, to restore harmony in the smelter situation here.

The dance given by the Greenwood Concert Band, in the Reliance block, on Thursday evening last, was a great success. A large number of people were present and a good time enjoyed. At midnight a nice supper, prepared by J. Jaynes, was spread in the upper hall. The affair was most enjoyable and a neat sum netted by the band to apply on its instrument purchase account. The band was assisted in its music by Mrs. Oliver and Mr. Biner of Phoenix.

Chapped Hands.

Wash your hands with warm water, dry with a towel and apply Chamberlain's Salve just before going to bed, and a speedy cure is certain. This salve is also unequalled for skin diseases. For sale by all druggists.

The occurrence of gold ore depends neither on the geological age nor the petrography of a district, but upon local structural conditions and upon an eruptive activity often identified with specific periods of geological time.

From eight to nine gallons of wood alcohol can be produced from one cord of good wood.

MONDAY LAST DAY

In order to accommodate those of our readers who were not able to examine the stock of publications of the Monroe Publishing Co. of San Francisco, bankrupt, and secure a set of books most desired, we will give them a few more days in which to participate in this great book sale. No more fitting present could you give your wife or mother for Christmas than a set of THE WORLD'S BEST POETRY or SETON THOMPSON'S NATURAL HISTORY, or else a set of SCOTT, DICKENS, BULWER, LYTTON, THACKERY, RUSKIN or a SHAKESPEARE For the children or household no more valuable work is published than **The Encyclopedia Britannica Americanized,** and a set in keeping with same is the New Science Library, so valuable and much sought for by miners generally. Remember, these books are sold at less than one-half price, and in many instances at less than cost of binding. If you have not had a visit from Col. I B. Quin, who is conducting this sale for us, telephone Hotel Imperial or drop him a postal card, giving address, and he will call. This sale positively closes next week, and this is the last chance you may ever have of placing so rare, valuable and handsome books in your library at so low a price.

PAY ORE COLUMN

The E. P. U. tunnel nears the 200 feet point.

Work is to be resumed on the Athelstan by the Dominion Copper Co., a settlement of disputed matters having been reached.

About a million dollars worth of ore has been shipped from the Greenwood high grade mines since development began thereon in 1903.

On Monday last the bond on the B. C. was taken up by the B. C. Copper Co. The company has been shipping considerable ore from the property, taken out in the process of cleaning up the mine.

Word has been received that work is presently to be proceeded with on the Moreen claim in Deadwood camp. The plans of the management embrace the installation of an electric compressor and electric hoist.

The Golconda tunnel is now in 115 feet, leaving 60 yet to go on the present contract, Satisfactory progress is being maintained although considerable water is being encountered. Prospects of striking the lead at the point indicated are good.

About twelve tons of high grade ore have been taken out of the Mavis, in the preliminary work of development now being carried on by the bondholders. A car of ore will be shipped within the next few days.

Mr. Records, who recently bonded the Tip Top, is in town to begin work on the property. The bond calls for 50 days' work per month on the claim.

While working on the road being constructed by the government between Anarchist mountain and McKinney, a stringer of very rich ore was opened up and a claim thereon immediately staked. This is in the vicinity of Dayton camp, from which such rich gold ore was taken a few years ago.

Work has begun on the Caberfel claim recently bonded by a local syndicate. The claim is near the No. 7 in Central camp, and is owned by Messrs. Flett and Buchanan. The Caberfel is believed to be an excellent property. The bond also includes the Canada Fraction adjoining, on which considerable work was done last summer and a large body of ore exposed.

Try This for Your Cough.

To relieve a cough or break up a cold in twenty-four hours, the following simple formula, the ingredients of which can be obtained of any good prescription druggist at small cost, is all that will be required: Virgin Oil of Pine (Pure), one-half ounce; Glycerine, two ounces; good Whisky, a half pint. Shake well and take in teaspoonful doses every four hours. The desired results can not be obtained unless the ingredients are pbre. It is therefore better to purchase the ingredients separately and prepare the mixture yourself. Virgin Oil of Pine (Pure) should be purchased in the original half ounce vials, which druggists buy for dispensing. Each vial is securely sealed in a round wooden case which protects the Oil from exposure to light. Around the wooden case is an engraved wrapper with the name—"Virgin Oil of Pine (Pure)"—plainly printed thereon. There are many imitations and cheap productions of Pine, but these only create nausea, and never effect the desired results, 11-24

Both gold and silver coins in circulation in the United States contain 90 per cent of pure metal. The silver coins contain 10 per cent of copper, and those of gold 10 per cent of copper alloy, not more than one tenth of which can be silver.

In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all druggists.

Sewing Machines

The fall of 1906 is here, and with it the fall sewing. Your neighbor is busy, so do not bother her, but call at the Singer Sewing Machine Co. office, Greenwood, and see their stock. You can have a Singer or a Wheeler & Wilson, the two best machines made, on your own terms. $3 per month will rent or buy the drop head machines. . . . . .

BELL PIANOS AND ORGANS

Now that the long winter evenings are coming on you need a Piano, and you want the best, so call and see my stock, the largest in the Boundary. I will quote you terms that will surprise you.

EMPLOYER AND EMPLOYED

The relations existing between employer and employed ought to be friendly and sincere. The employer ought to be urbane and the employee ought to be manly. The former should recognize in the latter a man his peer many times in everything that goes to make manhood, and the latter ought to regard the former as worthy his confidence and respect. When the employer finds something wrong in his employee he owes it to him to talk it over patiently and calmly, and when the employee is dissatisfied with his employer he owes it to him to present his grievance for adjustment rather than to make it matter for public discussion, It may appear business heresy to teach that a long-time faithful employee has a vested interest in the business his brain and brawn have helped to create, but to us it seems that way, and the relations that bind corporations and workmen ought to be sacred. Neither should arbitrarily disrupt these relations if at all preventible consistent with the preservation of the well being of all concerned. Of course the employer has a duty to himself and his business interests to secure satisfactory return for money paid, and just so the employee has the duty to himself to secure fitting returns for his devotion and labor. Testy employers and and unjust employees make an ill-assorted partnership, and such a partnership can no more make success of a business enterprise than it can hope to win public confidence, and after all, the day has come when both parties to an undertaking need public confidence to succeed.

EDITORIAL NOTES

THE Boundary Creek Times is informed that censure is being passed, in some quarters, on Duncan Ross, M. P., for the appearance of last Saturday's special. No censure is deserved by anyone connected with the Times for said special, least of all by Mr. Ross. The special was bought by the British Columbia Copper Co. for the purpose of publishing its signed statement which appeared on the first page. The Times is a commercial undertaking and its space is open for any person or any organization which desires to do what the Copper Co. did.

IN presenting the story of the trouble at the B. C. company's works here we have striven to state the case from a historical standpoint without favor or prejudice, for or against either side to the controversy. If we have erred in any way the same has not been intentional, but the result of misinformation on the part of others or misapprehension on the part of ourselves. With the salient facts presented, it is for others to form judgment. The Times is not the retained mouthpiece of either party, and leaves the matter with the newspapers' proper jury—the public.

JUST remember the day of our first fall of snow—November 19th—and when the hot water bag man rolls in with his doleful tale of nine months winter and all that, call him down. We have watched the winter in the valley of Boundary creek pretty close for the last eight years, and we think we may safely put our winter in the valley as averaging from November 15th to March 15th, taking one year with another.

GREENWOOD is becoming famous as a winter resort. Our tourist colony now embraces men from Aldermere, Telkwa, Yellowhead Pass, Death Valley, Cobalt and other summer spots. Hither they flock from the snow fields of the north and the burning sands of the suth.

ALTHOUGH Xmas is five weeks away the merchants are getting ready. The Xmas season makes liberal patrons, and good patrons make good stocks of goods. The merchants of Greenwood have few peers in any western town when it comes to display of stock.

ROOSEVELT says "no third term for me." Heart, "never again a candidate." And so the sky clears. Vice President Fairbanks on the one hand, and W. J. Bryan on the other, are feeling pretty well these days.

THE amenities of life due by man to man, should obtain between employer and employed.

SIMON GUGGENHEIM for the senate is now the word. The senate of the United States is a unique collection of millionaires, now likely to be added to by the election of Guggenheim from Colorado.

WE don't like the sulphur fumes, but just as soon as, for any cause, the smoke ceases to come from the tall chimney apprehension of the deadly kind seizes us.

EVERY man who can afford it ought to own his home. An owned home is generally kept in better condition inside and out than a rented one. It is quite natural.

RAILWAY promoters need a patience that would have made Job ashamed of himself. Hereafter let us not say "as patient as Job," but as patient as a railway promoter. They are it.

MRS. RUSSELL SAGE isn't dealing out her troublesome millions to suit the fancy of her many callers who believed she was just pining for opportunities to get rid of her lucre.

COLD churches, like cold playhouses, are not attractive to their patrons. The season has come to warm up if you want to fill up.

OF TWO evils choose the least, but of two lawyers choose the best, unless you do even better and keep out of litigation.

WINTER appears to have come to stay, and the small boy and the wood merchants are correspondingly happy.

LOOK well to your stove pipes, or else increase that insurance policy.

The Almaden quicksilver mines in Spain have been worked almost continuously since 1645, more than 4,000 miners have been employed, and the production to date is valued at over $50,000,000.

COLUMBIAN COLLEGE
New Westminster, B. C.
Receives both ladies and gentlemen as resident or day students. Has a complete bnsiness or commercial course. Prepares students to gain teachers' certificates of all grades. Gives the four years' course for the B. A. degree, and the first year of the of the School of Science course, in affiliation with Toronto University. Has a special "Prospectors' Course" for miners who work in B. C.
Instruction is also given in Art, Music, Physical Culture and Elocution.
Term opens September 17, 1906. For calendar, etc., address COLUMBIAN COLLEGE.

IMPORTANT ANNOUNCEMENT

It affords considerable gratification to announce to Times readers and the public in general, that we have secured from the creditors of the J. E. R. Munro Publishing Co., bankrupt, of San Francisco, a limited number of those handsome, valuable and superbly bound de luxe books—many of which are limited editions. The prices at which we are enabled to offer these works are in most cases less than cost of binding, and consist of the NEW ENCYCLOPEDIA BRITANNICA, Americanized, Seton Thompson's Natural History, the most profusely illustrated and complete work on Nature extant; the New Scenic Library, that invaluable publication; Makers of History, Modern and Ancient Classics, Balzac, Bulwer, Cooper, Carlyle, Dickens, Dumas, Motely, Shakespeare, Ruskin, Thackray, Voltaire, also the World's Best Poetry, Modern Eloquence, and many others

We have secured the services of Col. J. B. Quin to conduct this sale, and those who would like to take advantage of the sale will do well to telephone to the Imperial, and samples and prices will be submitted for inspection.

Gleanings From the Throng of the Metropolis

Dr. Mathison, dentist, Naden-Flood block.

Repairs are being made to the Greenwood street flume.

W. Anderson of Cascade, made Greenwood a visit early in the week.

Frank Lewis, formerly in business here, is back from a trip as far north as Edmonton.

Mr. A. H. Hallett, who has leased the skating rink for the winter, is getting the ice ready.

C. J. Leggatt, barrister, of Midway, was looking his Greenwood friends up Wednesday last.

L. W, Moffatt, of Rossland, who is operating the Greyhound in Deadwood camp, is visiting in town.

The Knights of Pythias will open the New Year with a dance in the Reliance block. Make a note of the day, January 1, 1907, and of the event.

P. D. McTavish of the International Correspondence School's staff of ambassadors was at the Imperial this week.

J. C. Haas, mining engineer of Spokane, who has charge of the work on the Golconda, was in town a few days ago.

Three cars of machinery arrived in the railroad yards this week for the light company's new plant at Boundary Falls.

Messrs. Wood, Paton and Meyer, who have been up the North Fork on a prolouged hunting trip, returned early in the week.

R. P. Williams, who never overlooks the wants of the community in a machinery line, is in town on one of his periodical visits.

J. L. White, of the firm of White Bros., has sold out his Victoria business and will return here at the end of the present month.

J. W. McKay, proprietor of the Greenwood-Carmi stage route, has returned from a pleasant visit to his old Ontario home. He is looking his best.

Frank H. Parker, for many years with P. Burns & Co. here, is now superintendent of all the firm's branches between Calgary and Edmonton.

The winter schedule at the C. P. R. went into effect on Monday last. The east bound leaves an hour earlier and the west bound arrives an hour later than hitherto.

He was glad to get back to town, and in a burst of confidence confessed to his friends that he would never again wander farther away from Greenwood than the West Fork.

W. T. Smith, one of the Boundary pioneers, is still in the east, where he recently underwent a surgical operation. His friends will be glad to know that he is recovering rapidly.

John Gaffey of Boundary Falls, was brought to the Greenwood hospital Tuesday last. He is suffering from what has the appearance of lung trouble, but it is hoped that serious results may be checked by prompt treatment.

The Odd Fellows will give their Christmas tree on Thursday, December 22nd, in the Eagles' hall. The committee requests that the members of the order will send in the names of the children and their ages to Fred B. Holmes by the end of this month.

A. T. Kendrick, formerly of the firm of Hunter & Kendrick Co., in business here, was a visitor in town this week. Mr. Kendrick is in the general merchandise business in Ritzville, Wash. Ritzville is the center of a very prosperous country.

Game has been very scarce about Greenwood this year. Birds were reported fewer than usual, and now the hunter claims that deer are not to be found. In the early days, moreover, wildcats were quite plentiful, but they died off during the hard times. He who seeks birds must go far into the hills; he who wants deer may find them up West Fork, and he who wants a shot at a wildcat will have to try some other camp.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings.

We congratulate Mr. and Mrs. E. H. Mortimer on the arrival of an additional member of the family.

LOST—Fox terrier dog, age about two years, white with tan markings, answers to to name Max. Finder will be suitably rewarded upon returning the dog to A. M. Whiteside.

A slight fire in a house on Gold street at noon on Thursday gave the fire company the second quick run for the day. No damage resulted from the fire, which was found to be a burning chimney.

Mr. J. T. Beattie, accountant in the Bank of Commerce at Nelson, arrived in town Thursday to relieve Manager Allison of the local branch, who is going up West Fork for a well-earned rest.

Owing to the shut-down at the smelter, the B. C. Copper Co. was obliged to close the Mother lode mine on Wednesday. A large number of the miners left on the afternoon's Canadian Pacific for outside points.

A chimney in the residence of Philip McDonald, on Kimberley avenue, caught fire Thursday morning about 10 o'clock, causing small loss but much inconvenience to the occupants. The fire department was promptly on hand and turned on water.

A. C. Falconer has leased the dining room of the Windsor hotel and will conduct that popular eating place in the future. Mr. Falconer is no stranger in the Boundary as he has on different occasions been connected with the best dining rooms in the city. Frank Mosher is presiding over the kitchen which is a guarantee to the public of first class service.

In arranging for your evenings next week, don't overlook setting aside Thursday for the entertainment and sale of work in aid of St. Jude's church. The management will see to it that you have various ways to invest your surplus cash, and that while doing so a pleasant time will be enjoyed. Entertainment in the evening will embrace the presentation of the farce comedy "My Turn Next," by the Greenwood Amateur Dramatic Co., and the Auditorium has been engaged for the occasion.

On Sunday morning the fire department was called out in response to a fire alarm from Gold street. The fire team was making a fast run down Greenwood street unconscious of the danger that lay ahead. At Silver street Chief of Police McKenzie halted the team, and pointed out to the driver that the bridge across Boundary creek was occupied by a house, moved thereon late Saturday. The house, belonging to A. L. White, was being removed to Silver street by Charles J. McArthur. What might have been a serious accident was narrowly averted.

The Dominion Copper Co. has just received from the Nelson Iron works a very fine casting in the shape of a copper breast jacket, the first ever made in British Columbia. The material of which the jacket was made was 97 per cent copper, and to make such a casting of such quality of material is considered delicate work. Hitherto the local companies have drawn on the large eastern firms for work of this character. The Nelson Iron works, it may be added, is the parent concern of the plant now going in here.

BEARS AND OTHER BIG THINGS

If the Grand Forks correspondent of the Spokesman-Review and the Canadian doesn't let up a little on those wonderful bear stories he has been telling so persistently of late, he will be having a rush of hunters into the district rather than of mining men, and that ore on Hardy mountain that runs 24 per cent in copper and $5 in gold per ton will be entirely overlooked. We may warn the gentleman, moreover, that if any of his bears wander over here somebody will take a shot at them, but his immensely rich ore is safe as this is a low grade copper camp.

LOOKS PRETTY GOOD

Somebody grown wise by New York dispatches is trying to buy Midway & Vernon time checks.

NEW BAKERY

G. Swayne has leased the premises of Bannerman Bros., next door to Holmes & Kennedy, and will open up a first-class bakery Everything will be new throughout. The building is now under the carpenters' and painetrs' care and will be thoroughly renovated throughout. Mr. Swayne has secured the services of a first-class baker and you can expect everything to be right up to metropolitan style. Mr. Swayne will make his opening announcement through the columns of this paper.

A DASTARD'S DEED

The Canadian hotel at Niagara, a small town on the North Fork, was the scene of a most dastardly crime early Sunday morning last. From the best of advices obtainable it would appear as if the miscreant responsible fer the crime, prompted by feelings of jealousy and revenge, stole a box of dynamite from the warehouse of W. P. Tierney, contractor on the Hot Air line, with which to accomplish his terrible deed.

The house was badly wrecked, and Miss King, reported to be the daughter of the proprietor, and an Italian sleeping in the house, were killed and nine others wounded.

The coroner went up to the scene of the crime on Monday. The party responsible for the crime is believed to be known, but so far has escaped arrest.

The wounded men were taken to the Grand Forks hospital for care.

DRAMATIC COMPANY

The Greenwood Amateur Dramatic company presented "Our Boys" in the Auditorium Friday evening last to a large and appreciative audience. The cast, as presented, was as follows:

Sir Geoffrey Champneys, a county magnate.....F. W. McLaine
Talbot Champneys, his son.....Randolph Stuart
Perkyn Middlewick, a retired butterman.....N. F Kendall
Charles Middlewick, his son.....C. A. Thomas
Kemster, a butler.....A. E. Duchesney
Violet Melsose, an heiress.....Mrs. A. W. English
Mary Melrose, her poor cousin.....Miss Oppenheimer
Clarissa Champneys, Sir Godfrey's sister.....Miss Beldon
Belinda, a lodging house slavey.....Miss Stark

There was not a weak part to the play and the entertainment went smoothly from start to finish. The characters were all nicely and tastefully costumed and the stage was appropriately set.

The music was good, but a trifle loud, it seemed, due doubtless to the presence of the entire band rather than a selected orchestra. The gods of the gallery appeared to be on their best behavior, although an occasional fire was lighted and a few cigarettes burned. It would add to the comfort of the patrons of the house if a smoking room were convenient for the use of those who can't wait until the play is over.

The play was given under the auspices of the Roman Catholic church, and a nice sum must have been realized for a worthy cause.

The company played to a Grand Forks audience on Saturday evening. Although the amount of work and expense involved must be considerable in getting up these amateur performances, we trust this excellent company may appear before the public again during the winter.

NOTICE.

"The Cairngorm Fractional" Mineral Claim situate in the Greenwood Mining Division of Yale District. Where located: In Long Lake Camp.

TAKE NOTICE that I, M. J. M. Wood, Agent for the Vancouver and Boundary Creek Developing & Mining Company, Ltd. Lty., Free Miner's Certificate No. B93038, and Charles L. Thomet, Free Miners' Certificate No. B6589, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 22nd day of June, A. D. 1906.

42-50 M. J. M. WOOD.

Now is the time to bring in your job printing and avoid the holiday rush. All work done in first-class style.

BETTER FACILITIES

OTTAWA, Nov. 20.—Mr. Lemieux, postmaster general, has made a somewhat important announcement in referring to the surplus in his department last year. He said it was his intention to utilize it in giving improved postal facilities to the metropolis of the dominion and to the country at large. It would also, he observed, be his pleasure at no distant date to give protection to the Canadian prsss against the "yellow" press of the southern republic. It would likewise be his privilege before long to give the country intellectual preference, by giving British periodicals and newspapers a preference, that was to say, cheaper postage, in order to disseminate in this country good and sound literature, and give those in the west who were coming from the British Isles a little of what happened in the old country, the old homes and among the old folks,

Jade occurs in its finest form in China, where it is held in high esteem, being wrought into trinkets and ornaments.

MINERAL ACT

Certificate of Improvements

NOTICE

"London" Mineral Claim, situate in the Greenwood Mining Division of Yale District.
Where located: In Deadwood Camp

TAKE NOTICE that I, Arthur Murdoch Whiteside, acting as agent for F. F. Ketchum, Free Miner's Certificate No. B93037, and George M. Foster, Free Miner's Certificate No. B6554, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of Improvements, for the purpose of obtaining a Crown Grant of their interests in the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of Improvements.

Dated this 15th day of June, A.D. 1906.

42-53 A. M. WHITESIDE.

NOTICE OF APPLICATION TO PURCHASE
Nov. 14th, 1906.

NOTICE is hereby given that sixty days after date, I intend to apply to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands:

Beginning at a post marked Mrs. Avis Poole's location post, on the West side of the Main Rettle River about 3½ miles above the Forks at Westbridge; running south 80 chains, along the bank of the River, West 40 chains, North 80 chains, thence East 40 chains to point of commencement.

Dated November 14th, 1906.

(Signed) MRS. A. POOLE,
by her agent Yale Columbia Lumber Co.

THE ORE TRAIN

TIN DISCOVERY.

VANCOUVER, Nov. 21.—N. Gerhaut, prospector, has just returned with a partner, reporting the discovery of deposits of tin near Desolation inlet. Gerhaut is reticent as to details until legal formalities have been complied with.

NELSON NEWS.

NELSON, Nov. 22.—A contract has been let by the Highland mine of Ainsworth, to G. Barnhardt for $15,000 for a thousand feet of drifting to crosscut the veins. The crosscut will cut the Krao vein, which property was recently sold in New York for $250,000.

A good strike has been made on No. 1, to the west of the Krao vein. No particulars are at hand.

The last car of Donald ore, paralleling the Krao vein, ran 37½ per cent lead and 62 ounces silver.

BATTLEFORD FIASCO.

W. G. McIntyre, of Grand Forks, was in the city last evening on his way home from a fruitless "gold rush" to Birling, 45 miles north of Battleford. The announcement made broadcast in all western Canadian papers of the fabulous discoveries, caused a local syndicate in Grand Forks to hurriedly dispatch Mr. McIntyre to the scene.

"I have experienced several gold rushes in Alaska and elsewhere," said Mr. McIntyre to a reporter of The Daily News last night, but while the Birling affair was comparatively a small matter, it was serious enough while it lasted. Over one thousand persons were drawn to the spot and they came from widely separated points. It was said that the 'gold' territory covered 26 square miles, and thousands of feet were located on all sorts of grounds. Notices were posted up in every direction, and land was 'located' for chicken ranches, fruit lands, ranches, and in every imaginable manner. Upon my arrival I was offered several 'valuable claims' for varying amounts of cash, but when I asked the vendors for their licenses I found they had not got that far and they did not seem to know that such documents were necessary.

"The way the affair started is almost laughable. The day pumpman at the railroad station tank found the supply pipe had been choked up and he proceeded to investigate, digging down some few feet. He announced that the pipe was filled with equal quantities of black sand and gold, and I understand, offered to sell a cupful for $500. The story got out and then the telegraph got in its deadly work and did the rest, and with the result that over one thousand people rushed in and began staking off claims and digging for black sand. There is plenty of fine white sand all over the neighborhood, but of gold, there is of course, no sign whatever, although on the Saskatchewan river near Prince Albert, a dredge is doing some good placer mining work. The whole thing was a rather stupid hoax, and if you ask me, I fancy whiskey was at the bottom of the pipe dream."

SOMETHING LIKE

The Times is in receipt of a package of Northern Spy apples grown in Kaslo, the thoughtful remembrance of Mr. A. T. Garland, a merchant there. The fruit was delicious, beautiful in color, and with the flavor of the back east fruit, where the Northern Spy is supposed to reach the limit of perfection. The Kootenay country is rapidly coming to the front as a fruit district, and of the excellence of its product we have had the proof.

WINTER EXCURSIONS

Maritime Provinces, Ontario, Quebec, the Old Country.

The Canadian Pacific Railway announce a series of low round trip rates first class three (3) months' limit from Kootenays to all points in Ontario, Quebec, Maritime Provinces and the Old Country.

Rate from Greenwood to Toronto, Montreal, Windsor and intermediate points is $83.55, Halifax or St. John in connection with ocean passages, $94.55.

Tickets will be sold daily November 24th to December 31st.

Corresponding rates will be quoted to all eastern Canadian points from all Kootenay stations.

This is an unusual opportunity to visit eastern Canada or the Old Country at Christmas at a low rate.

Detailed information sailing lists, for ocean steamers, first class or tourist sleeper reservations on application to local agents, or write

J. S. CARTER, D. P. A.,
Nelson, B. C.

Progress and Development

Progress and development are terms closely identified with life in the West. In a new country people are working daily for the upbuilding of town, city and district, and for the improvement of the conditions under which men and women are called upon to live. Every act of daily life that tends to bettering one's surroundings makes directly or indirectly for the improvement of society generally. In all this the local newspaper plays an important part. Among its local readers it stimulates an increasing interest in their home city, keeping them posted on all local happenings, and becomes a welcome weekly messenger, bearing bright and welcome tidings. Among its outside readers it forms a valuable advertising medium making known the merits, advantages and prospects of the city and attracting thither citizens who want employment, business firms looking for locations, and capitalists seeking investments. In the upbuilding of a town, city or district the local paper is an important factor.

BOUNDARY CREEK TIMES

The Boundary Creek Times aims to do its full and complete share in the upbuilding and improvement of Greenwood and the Boundary district. It is not handicapped in its work by any restraining obligations to any party, clique or corporation, but it is free at all times to rise up and promote the best interests of the City of Greenwood and its people. To do this most thoroughly and satisfactorily the Times must have the support and cooperation of the citizens of Greenwood.

Every effort is being put forth to make the Times the class of newspaper the people want. Increasing attention is being continually paid to mining news, especially of that nature that will interest those employed in the work as well as those whose capital is invested in the properties. With this end in view we aim to have

A Subscriber in Every Home

As a result of the efforts that have already been put forth, we believe that an increasing interest is already being taken in its news columns. We have evidences of this from the fact that the subscription list is already growing; the street sales are increasing weekly and the news dealers find more demand for each succeeding issue. This is a satisfactory condition of affairs that acts in two ways. It increases the revenue of the circulation department and it makes the paper a first-class advertising medium for local business men.

In handling local advertising every effort if put forth to protect the Greenwood merchant. The local page is reserved for them and foreign advertising has been repeatedly refused because the advertising manager refused to disturb the positions held by local advertisers.

Business men of Greenwood, we are here to protect and advertise you. We are protecting you! Do you advertise? Read The Times, subscription $2.00 per year.

FROM OUR EXCHANGES

ECONOMY NEEDED

TORONTO, Nov. 20.—J. M. Courtney, CV. M. G., ex-deputy of finance of Canada, in an address before the Canadian club yesterday, in referring to public expenditure, said that certain classes of expenditure properly regulated, are eminently desirable to be made and should be encouraged. He would even allow that in recent developments there had been no extravagance, but allowing all this, he was afraid Canada was spending too much. It seemed to him that Mr. Gladstone's favorite formula might be adopted.

Canada, out of its abundance, might redeem its indebtedness or might reduce its taxation, or it might, without adding to its debt, pay for its great national warks. At the present time every effort should me made to save. There are iarge maturing liabilities to be met of loans some 25 or 30 years back and it will require all the wisdom of the government to meet the future and preserve our high credit.

GOOD NEWS FOR BRYAN

NEW YORK, Nov. 19.—William Randolph Hearst, who is now en rout to Monteray, California, in discussing his future course in reference to politics in New York, said:

"I shall never again be a candidate However, I shall continue to reside in New York, and advocate and support the principles of reform which I have always stood for; but these principles are now sufficiently understood by the general public for it to be no longer necessary for me to be a candidate. You probably know it is by no means pleasant to be a candidate. I am glad in the future it is to be my privilege to stand for the principles of government which I have always advocated, without being a candidate for office, and on that account attacked with bitterness."

LE ROI DIVIDEND

ROSSLAND, Nov. 19. A cablegram received today from London states that at the annual meeting of the Le Roi Mining Co., held there, a dividend of two shillings a share was declared. The report of A. J. McMillan, managing director, was read and it gave a most favorable account of the condition of the mine. The present dividend is for $100,000. This, added to what has already been paid, $1,377,000, gives a grand total of $1,477,000. The condition of the mine, owing to the discoveries west of the Josie dyke, which makes the Le Roi practically a new mine, and owing to the important discoveries of ore in the old workings, is most favorable. There is more ore in the mine than ever in its history. Already its gross yield has been $18,000,000 and the possibilities are that in the next ten years it will yield twice that amount.

BANQUET TO FIELDING

MONTREAL, Nov. 20.—Hon. W. S. Fielding was tendered a most successful banquet by the Reform club at the Windsor hotel this evening. Discussing tariff reform at the approaching session of parliament, Fielding said that the new tariff would be ready to be brought down in the first fortnight of the session He did not expect that it would satisfy extremists of either party, but he felt that the people of Canada would approve of it. British preference would be retained and there would be another column of duties to be levied on goods coming from countries which discriminated against Canada.

GETS THE MAILS

MONTREAL, Nov. 15.—Halifax has got the Empress' mails. It was announced here this evening that the Empress steamers will leave St. John, N. B., Friday morning fortnightly on the arrival of the C. P. R. express leaving Montreal Thursday evening. They will then proceed to Halifax for the mails, leaving that port Saturday evening on arrival of the C. P. R. Friday train from Montreal. On the steamers' arrival at Halifax inward they will land mails and then bring passengers on to St. John, N. B.

ELECTIONS IN JANUARY

VICTORIA, Nov. 19. Tee decision has been reached by Premier McBride to hold the provincial elections early in January, as soon after the New Year as possible There will be no session of the legislature before the elections. Notice of dissolution may be looked for any day now. This information comes from an authoritative source and will be officially confirmed probably tomorrow, but at any rate before many days elapse unless some new and wholly unexpected incident arise to necessitate further delay.

MITCHELL DECIDES

MINNEAPOLIS, Minn., Nov. 10.—President Mitchell, of the United Mine Workers, today said that whatever the difficulties existing between the operators and miners in the Crow's Nest Pass bituminous coal fields of British Columbia, they were all over now, and that the men will go back to work

President Mitchell declines to say what side won in the strike, but says the men will work under their old agreement with the operators.

STRIKE FOR EIGHT HOUR DAY

VICTORIA, Nov. 19.—Members of Victoria No 191, Brotherhood of Boilermakers and Iron Shipbuilders of America, numbering 84, this morning struck for recognition of the eight-hour day at the current nine hour scale, viz: $3.50. The interests affected are the B. C. Marine railway, Victoria and Vancouver; the Victoria Machinery Depot, Ltd., and the Marine Iron Works Ltd.

HON. GEO. W. ROSS FOR SENATE

TORONTO, Nov. 20.—News of the death of Hon. Senator Vidal, of Sarnia, probably precedes the early announcement of the translation of Hon G. W. Ross, present leader of the liberal opposition in the Ontario legislature, to the Canadian senate.

THE

COPPER

HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Induetry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man.

It gives the plain facts in plain English without fear or favor.

Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics Hundred of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

SHILOH

SORE BACK

"The doctor told me my back was the worst he had ever seen," said Mr. Alf. Lillierapp, of Walthamstow, when telling of what Zam-Buk had cured him.

"It was covered with eruptions which came in the form of headless pimples, and spread until my back was one mass. The itching at night was so bad that at last I had to have my hands tied to prevent me scratching myself and making the eruptions bleed. I took internal medicines and tried various salves; but in vain. One night I read about Zam-Buk and bought a box. Well I hardly know how to express my gratitude for the benefit I derived! That first box gave me relief and a few more cleared the pimples and eruptions from my body."

Similar eloquent testimony comes from Manitoba.

Mr. R. J. Burgoine, of Harding, says:—"I had some very bad sores on my heel but Zam-Buk cured them in a few days. It also cleared my chest of an unsightly eruption."

ZAM-BUK NEEDED IN EVERY HOME.

Zam-Buk should be in every home. It cures cuts, burns, bruises, scalds, chilblains, cold sores, chapped hands. Heals ulcers, eczema, running sores, abscesses, may be safely applied to the delicate skin of babies and cures teething rashes. It also eases the pain of piles. It is good as an embrocation, and excellent for rheumatism and sciatica. All druggists sell it at 50 cents a box, or from the Zam-Buk Co., Toronto, upon receipt of price. 6 boxes for $2.50.

Zam-Buk

FREE BOX.

Send this coupon and 1c. stamp to Zam-Buk Co., Toronto, and sample box will be mailed you.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother,

(3 If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,00 pounds shall be collected on the gross output.

W. W. CORY,

Deputy of the Minister of the Interior

SOLVING THE PROBLEM

A telegram from Victoria to the Nelson Daily News, says;

"Twenty-gve thousand of the laboring classes of England will be brought to Canada nezt year through the Salvation Army. This announcement was made by a local representative of the organization.

"Commissioner Coombe is expected to arrive here early next month to enter into negotiations with the provincial government with the idea of arranging to bring a large proportion of their emigrants to British Columbia.

"Of the 12,000 that were given passage from the old country to Canada last year through the instrumentality of the Army, very few reached this province.

"Owing to lack of desirable laboring classes the provincial authorities are anxious that some of these homeseekers should find their way to the west. They wish particularly to bring trained agriculturalists as helpers for the farmers, experienced miners to augment the forces at the different mines of the interior and on Vancouver island and girls to take places as domestic servants, a class of labor needed all through British Columbia.

"The minister of agriculture is responsible for the move and hopes to arrange with the Army to induce as many as possible of these workers to come to this country. He is confident that several thousands could be accommodated here and proposes enlisting the help of both the Army and the transportation companies.

"His plans have not yet been definitely announced.

TO BUILD TO PACIFIC COAST

OTTAWA, Nov. 17.—Mackenzie and Mann will apply at the next session of parliament for permission to extend the Canadian Northern railway from Edmonton to the Pacific coast and to build from Strathcona to Calgary, from Regina to the international boundary line. from Athabasca and Macleod river to the headwaters of the Macleod, and from Saskatoon to south Saskatchewan river.

The average width of the veins proper at Cobalt, Ontario, is from two to six inches. In certain mines the vein is filled with an immensely rich silver ore containing generally silver, cobalt, nickel and arsenic in various combinations. In some places the silver is deposited in its native state and the whole vein will be one slab of native silver from two to three inches thick and from two to four feet in diameter.

The ores of Cobalt, Ontario, are frequently grown together. Arsenides of cobalt and nickel, for example, have native silver intimately mixed with them; at other times there is almost massive smaltite or niccolite Some of the veinlets which form junctions with the larger veins contain much silver in various forms. The chloanthite occurs characteristically in small spheroidal masses in calcite.

Four hundred and forty thousand pounds of copper and tin, mainly copper, were used in the casting of the greatest bell ever made, the Czar Kolokoi of Moscow, in 1733; it was about 19 feet in diameter and 19 feet high.

run, covering their rates of pay and conditions of service. We recognize, however, the present business conditions, and we are willing to deal liberally with our employees, and will pay as high wages as any paid for similar service in this province.

On this adcount we feel, that in justice to this company, that during any discussion of rates and conditions, the employees should return to their posts until the outcome of such discussion is known.

In view of the foregoing conditions, we are unable to deal with your organization as such.

Yours very truly,

THE BRITISH COLUMBIA COPPER COMPANY, LIMITED

What action the Miners' union will take in connection with the above remains to be seen, but if the men have the confidence in the company that their relations ought to inspire, the difficulty ought to admit of an early adjustment.

BILEANS A "WOMAN'S MEDICINE"

Grateful Wives and Mothers Testify to Their Value.

Bileans have been called "a woman's medicine" because of their exceptional fitness for the various ailments peculiar to the sex, as well as for liver disorders and stomach ailments generally. Unlike most liver and stomach medicines, Bileans coutains no bismuth, mercury or any mineral whatever. From coating to kernal they are purely vegetable.

Mrs. J. Whitfield, of Swan Lake (Man.), says: 'Bileans have done me a wonderful amount of good. I can hardly describe how bad I felt before took them. I could not eat but that it caused pain. There was a constant sensation of tightness in my side, and my liver was entirely out of order. I could not sleep at nights, suffered also from kidney trouble, and was altogether in a rundown and very serious condition. I had been ailing in this way for years, and it is gratifying to find that Bileans were equal to my case."

Mrs. Wm. Hall of Dean Lake, says: "I have proved Bileans very good for constipation, from which I suffered a great deal. They cured me."

Mrs. J. H. Thompson of Cleveland Park, says: "For irregularities and painful periods I can highly recommend Bileans. They proved a great blessing to me and restored me to health when I had become very ill and very despondent."

Bileans are absolutely unequalled for female ailments and irregularities, constipation, piles, anaemia, debility, rheumatism, blood impurities, etc. They tone up the system and enable it to throw off colds and chills, strengthen girls just emerging into womanhood, and speedily restore energy and strength to those who are run down. Of all druggists at 50c. a box, or post free from the Bilean Co., Toronto, on receipt of price. Six boxes for $2.50.

Native lead is almost a rarity. Sweden has produced the best specimens, in fact, the only ones wherein the grains are disseminated through the rock. Probably the only occurrence of native lead in the United States is at Franlin Furnace, New Jersey, where a few specimens have been found, showing the metal in small grains.

Some idea of what Sir William Henry Perkin has done for the coal tar industry may be gathered from the fact that now 420,000 men are employed throughout the world in manufacturing valuable products from what was once considered worthless, and that the coal tar products of Germany alone are sold for $50,000,000 a year.

A retired miner, who worked 35 years in Wales, and who now resides in Wyoming Valley, in Pennsylvania, says that while superintending the loading of cars with hard coal he discovered the perfect print of a boot or shoe on a bright chunk of coal mined 1,800 feet below the earth's surface. This piece of coal is now in the Royal museum, Londou.

Bilious Attack Quickly Cured.

A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H C. Bailey, editor of the News, Chapin S. C. These tablets are for sale by all druggists.
