Midway	367.81
Osoyoos	235.82
Total	$3871.05

The inland revenue collections for the month of November were $1093.56.

GRANBY POSTS WAGE SCALE

Mines, Smelter Start Saturday, Says Manager—Union Says No Reduction

A. B. W. Hodges, manager of the Granby smelter at Grand Forks, this morning confirmed the various interviews published in the Spokane and Nelson papers to the effect that the Granby mines were to reopen. Mr. Hodges said that after the closing down of the mines a great many of their employees had left the country and practically none of these men were now in their employ. If the men had been working for them they could have made a direct proposition to them, but under the circumstances the only thing they could do they had done, by posting the scale given in full in another column. Both at the smelter at Grand Forks and at the mines at Phoenix work will be started tomorrow with the men who are willing to come to work.

At the offices of the Miners' Union at Phoenix this afternoon it was stated emphatically that the telegram of W. J. Luthit to the Spokesman-Review was right and that the miners voted on Wednesday night, unanimously, not to take any reduction in wages.

The report that large numbers of men came into Phoenix after the announcement of Manager Graves is denied.

The immediate situation is one which the men alone can settle either by taking definite action or by taking no action. For the sake of the country and the workingmen who have permanent interests in the country, it is to be hoped that whatever action is taken by any and all parties concerned will be the result of careful consideration. It seems that if some definite information of every phase of the situation could be had, publicity and knowledge might do a great deal to bring about a settlement of the situation which would be satisfactory all round. It is sincerely to be hoped that when operations are resumed they will be commenced on an understanding which shall promise settled conditions for some time ahead.

As yet the question is not a local one except in so far as a settlement at Phoenix and Grand Forks might offer a basis of operations. Neither the Consolidated at Phoenix nor the B. C. Copper Co. here are at all involved in the matter. It seems, however, to be generally felt that if operations are resumed at the Granby it will mean a re-opening of all the Boundary mines.

Superintendent Biesel of the Snowshoe mine today stated that he knew nothing of the report that the Snowshoe would open at once to supply flux for the Trail smelter.

The following is the wage-scale as posted on Wednesday afternoon at the Granby office at Phoenix and at the Smelter at Grand Forks. The reductions which it involves will average at about 40 cents per day. Some few classes of men are not reduced at all, while reductions run all the way from 5 to 50 cents—the majority of them being 30, 35, 40, and 50 cents

THREE MILLION EGGS LAID

Hatchery Building Completed —Work Done Under Great Difficulties

Kenneth McKenzie and Isaac Goosney were the first of the local people to reach home from the difficult summer's work put in, in building the hatchery on Stewart lake. They arrived in Greenwood on Sunday last.

The conveyance of supplies into the north country by way of the Skeena river proved very arduous and the party were six weeks getting in to the lake. Heavy shipments were being made by the G. T. P., and for a time the passage of the river was interfered with and caused considerable trouble. At one place, at the canyon—100 Indians were employed to carry over the supplies. Inland, the Indians were employed to whip and saw the lumber for the buildings.

The hatchery on Stewart lake at the headwaters of the Fraser river was erected under the supervision or foreman Angus Nicholson. It is 40 by 80 feet, with a truss roof, and is fed by an underground flume which carries the water for a distance of 700 feet sufficiently protected to avoid frost. The water is delivered into the hatchery at a pressure of about 75 pounds to the square inch. The hatchery has a capacity of 10,000,000 eggs. About 3,000,000 were put in the Stewart Lake building this fall.

FURTHER REDUCTIONS

In addition to the reduction in the freight rates, published in The Times two weeks ago, and which came into force on Tuesday of last week, the following tariff from Nelson to Greenwood came into effect on Sunday, December 1st. The discrimination between merchants rates and the regular trade, it will be noticed are superseded:

NELSON TO GREENWOOD.

8.	.20	.24	.26
10.	16	.20	.21

AH WAH TAKES LIEE

Ah Wah, who had been since last May cook for Foreman Pemberton's work gang took his own life on Saturday morning last about 10.30. After having given the foreman his order for the next month's commissariat, the Chinaman went to his trunk, tied a short rope about the beam along the centre of the car roof and putting it around his neck, jumped to his death, breaking his neck. He was found a very few minutes after the foreman had left the car by Charles Moll, who worked on the car. E. R. Redpath, C.P.R. Agent, was notified and Dr. Spankie called but though the body was still warm, life was extinct.

Earlier in the morning, two strange Chinamen had been seen at the car door, holding an excited conversation with Ah. After they had left, he scrubbed up his car, put the dinner on and set the table.

He was a married man, aged about 51 years. He had three children in China. He was a well preserved Chinaman and did not appear to have been addicted to opium or habits of excess.

Local Chinamen refused to "savez" anything of him.

ROCK CREEK RIPPLES

Archie R. Galbraith of the Craige-Neuk stock farm, Spokane, Wash., was recently a visitor at the home of A. D. McLennan. From him Mr. McLennan acquired a black French Percheron imported horse, Toulon. Toulon was imported from France this year and is recorded in the French Percheson register, as well as in the American stud book. He is without doubt the finest horse that ever came into this part of British Columbia. Mr. McLennan believes that the Percheron is the horse most suitable for this section and also that the day of scrub horses here is past. In purchasing Toulon, he has spared no efforts to procure the very best horseflesh available and the people of Rock Creek and Bridesville apparently appreciate his efforts as he had no trouble in organizing a company under the name of the Rock creek and and Bridesville Percheron Association. Ten shares were sold at $300 a share. Toulon is now in Mr. McLennan's stables at Highland Farm, Rock Creek.

S. T. Larsen of Riverside hotel is holding a turkey shoot on Tuesday (December 10) next. In the evening a grand ball will be held at the new Riverside hall. Bush's orchestra will furnish music and a good time is guaranteed all who care to go.

ODDFELLOWSHIP BOTH AT HOME AND ABROAD

On Tuesday last Thos. Embleton, Esq., Grand Master of British Columbia I.O.O.F., paid his official visit to Boundary Valley Lodge. There were about 100 present including the members of the Rebekah Lodge. In summing up the work of the order the Grand Master said that it was in a flourishing condition everywhere and fast approaching the 2,000,000 mark in membership Last year over $5,000,000 was paid out in benefits. The local Lodge had a membership of nearly 125 while the Rebekahs numbered 60. The lodges are increasing their memberbership fast. The Boundary Valley Lodge is considered one of the most prosperous Lodges in his jurisdiction, its assets being in the neighborhood of $6,000.

Next Tuesday the initiatory degree will be conferred.

If You Wish to Buy COPPER STOCK

Wire us for Quotations

Our facilities for buying Dominion, B.C., or Granby Stocks on the curb in New York or Boston are unequalled Even our competitors acknowledge that we can buy these stocks cheaper than they. Why? Because our Eastern connections are of the very best.

The stock business is a sideline with us consequently we can afford to handle your business on a very small margin.

Give us your limit and we will fill your order at a lower figure if possible

We will wire you the New York opening quotations daily, if desired.

AMERICAN PRAISE.

In the December McClure's there is an interesting and careful exposition of the Lemieux Act by the President of Harvard University—one of the most scholarly and sympathetic students of social affairs in America. In these times when the attitude of the different forces in society towards one another is that of war rather than of peace, the advantages which President Eliot notes in the Lemieux Act are of special and peculiar interest. The greater part of his article is concerned with giving an impartial history of the workings of the Act but his conclusions are as follows:

"The advantages which this Canadian law has over any legislation existing in the United States may be briefly stated as follows:

1. There is no arbitration in it, compulsory or other.
2. It prevents sudden blows aimed by capital at labor or by labor at capital.
3. It prevents the sudden cessation of industries which have to do with such necessaries of modern life as fuel, the means of transportation and communication, the lighting of towns and cities, and water and power supplies.
4. It makes it necessary for the aggressor in an industrial dispute to have a well-considered case which will bear thorough publicity.
5. It informs the public, which ultimately bears in higher prices the burden of all industrial warfare, about the causes and issues of every industrial dispute.
6. At the same time it leaves unimpaired the right of any group of men to combine for mutual advantage and to lock out, or strike, after full public inquiry.
7. It tends to prevent or restrict secret machinations on the part of the employers and employees because both know that publicity must come at last.
8. It gives opportunity through the intervention of an impartial public authority for reasoning conciliation, the removal of misunderstandings and an amicable settlement.

All these favorable effects the Act produces without abridging the freedom of either employers or employees to maintain strong combinations and to make joint agreements without any intervention by a third party.

The short name of this act is the Industrial Disputes Investigation Act 1907, and this name correctly describes it for it is an act whose purpose is, not arbitration but conciliation, investigation, and publicity.

PUTTING ON THE SCREWS.

The time has arrived when public interest requires that the telegraph and telephone companies holding federal charters should be placed under government control. A bill will be introduced for that purpose.

Such is what is perhaps the most important announcement in the speech from the throne which marked the opening of the Dominion Parliament at Ottawa on Thursday last. It is a declaration of the government's satisfaction with the system of supervision and control inaugurated by the appointment of the Railway Commission and it doubtless foreshadows a long step forward in the direction of government ownership of public utilities, for government control of telegraphs and telephones can scarcely be regarded as other than one stage in the evolution which will some day place in the hands of the state, the ownership and operation of services performed for the whole people by virtue of franchises granted by the people. In Great Britain various measures of this kind have been taken. The telegraphs have long been owned by the people. The railways have always been under close control, although no movement to entirely nationalize them has ever made much progress. In Canada, it is to the Laurier administration that we owe the fact that Canadian railways are no longer able to do quite as they like and that whether they discriminate against a small community or kill passengers by negligence, a board with extensive powers may on the application of any party affected call them to account.

It is only in the natural evolution of reform that the Laurier government today finds itself able to bring the telephone and telegraph companies, with federal charters into line with this movement. Nevertheless, it marks out the way of progress and happily too, it means the elimination of a great deal of unfairness possible to be wrought by large combinations of capital. It means that the present system of affairs is capable of being so changed in the orderly progress of events as to finally provide for us a state of society where the conditions of life will be made as easy as it is possible for imperfect men to have them.

The New By-Law.

That the public may know what is required of them in the way of stove and chimney arrangements under the provisions of the new By-Law which is to be finally ratified by the Council at its meeting on Monday night next, the following summary of a few of the clauses which place obligations upon the people are given:—

1. No fire may be lighted in any building within the city limits "without having a properly constructed brick or stone chimney therein, commencing at least 30 inches below the ceiling of the lowest storey and continuing up through the roof for at least 30 inches."
2. Every chimney or flue shall be of brick or stone, at least 4 inches thick, all timber to be 6 inches below the base of said flue or chimney and every chimney to be so made that it admits of being cleaned.
3. Requires metal thimbles for pipes passing through partitions, ceilings, etc., and no pipe may pass through more than one partition before reaching chimney and must be always 4 inches from any woodwork.
4. Every stove shall stand on an iron or zinc plate at least two feet by three feet for an ordinary room stove.
5. Ladders must be kept firmly fixed on all buildings of two storeys or more for easy access to roof. Council may erect such ladder at expense of occupant.
6. Chimneys shall be cleaned once in every six months if in constant use, once in every twelve months if not used regularly.
8. Lighted candles or lamps may not be used in stables or other places containing combustible material.
9. Chief of the Fire Brigade and Chief of Police are appointed Chimney Inspectors and are invested with power to enter all buildings and enclosures, between the hours of sunrise and sunset, in order to see if the provisions of the By-Law are being complied with.
10. Any person refusing to admit the inspectors or refusing to comply with the requirements of the By-Law upon notice shall be subject to the penalties of By-Law.
11. In case where the Fire Brigade is called out and the provisions of this by-law have not been observed, in every such case the owner or whoever is in possession of the building shall pay the cost of calling out the Brigade.
12. The penalty for infraction of any of the provisions of the By-Law is a fine of not less than $5 and not more than $100, recoverable by distress and imprisonment for thirty days.

Shiloh's Cure Cures Coughs and Colds QUICKLY

Use Shiloh's Cure for the worst cold, the sharpest cough—try it on a guarantee of your money back if it doesn't actually CURE quicker than anything you ever tried. Safe to take,—nothing in it to hurt even a baby. 34 years of success commend Shiloh's Cure—25c., 50c., $1.

An Attractive Calendar.

One of the most attractive calendars that has been brought to our notice this year is that issued by the Pabst Brewing Co. in connection with their popular Malt extract, sold and known everywhere under the name of Pabst Extract, the "Best" Tonic. Like the preparation it represents, this charming calendar—of exquisite and appealing beauty—stands out in contrast and is exceptionally unique among art calendars for 1908.

The Pabst Extract Jewel Calendar, as it is called, rich in color, exclusive in design and strong in sentiment, appeals to both men and women and is beautiful as well as educational. It portrays a very handsome woman standing between two rich red portiers in such a position that the sun from the back throws rays of light across her shoulders and face, while the artistic arrangement and rich coloring of the draperies in which she is partly enshrouded produces an effect that is hard to imagine without seeing the original.

This beautiful work of art derives its name, the Pabst Extract Jewel Calendar, from the unique arrangement of the calendar pads, which portray the birthstones and their significance for each month of the year. This effect greatly enhances the beauty of the calendar, giving it originality and sentiment at once most interesting and pleasing.

A copy of the calendar, 7x36 inches, may be obtained by mailing ten cents in stamps or coin to Pabst Extract Dept., 918 Chestnut St., Milwaukee, Wis.

HOME-MADE MEDICINE

Said to Relieve Kidney Trouble and Rheumatism

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary afflictions, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

BOVRIL creates appetite

BOVRIL added to any dish gives it the delightful odor of roasting beef.

Makes your mouth water—puts your appetite on edge.

Its rich, beefy flavor, starts the gastric juices flowing, helping the digestive organs extract more nutrition from the food you eat.

BOVRIL is not a mere extract. It contains in concentrated form all the essence, substance and flavor of prime beef.

When tired out, try a little BOVRIL in a cup of boiling water, with a soda biscuit. 'Twill refresh and strengthen you.

All good cooks keep BOVRIL always on hand. There's not a day passes that it cannot help make some dish more palatable—more nourishing.

All good grocers sell BOVRIL. 13

FEW WOMEN ESCAPE

the pain or annoyance of rough or chapped hands during the winter season, and most outdoor or business people suffer more or less.

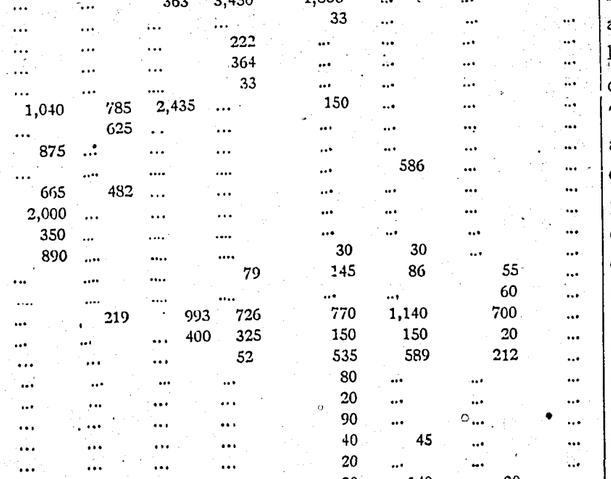
Hands that are suffering from the wintery weather may be restored to the smoothness of health by judicious applications of Zam-Buk.

The value of Zam-Buk either as a protective or a corrective, cannot be over estimated. A box should be on every dressing table.

CHAPPED FROM FINGERS TO ELBOW

Henry Walker, of 11 Manufacturer Street, Montreal, works with his shirt sleeves rolled up above his elbow, and passing from a warm room to the biting cold as he is obliged to do, he got the worst case of chapped hands and arms. From his fingers to his elbows was one mass of raw flesh with bad cracks here and there.

He tried several kinds of salve, but nothing relieved him until he tried Zam-Buk. This took away the burning and smarting almost at once. The cracks began to heal and a few applications of the balm cured him. His hands and arms are now smooth and soft.



ZAM-BUK CURES blood poison, cuts, bruises, old wounds, running sores, ulcers, boils, piles, eruptions, scalp sores, eczema, itch, chapped hands, barber's rash, burns, scalds, rheumatism, neuralgia, etc. Sold by all druggists and stores at 50 cents a box, or from Zam-Buk Co., Toronto. 3 boxes for $1.25.

FREE TRIAL BOX

A free sample box will be sent you on application. Just mail this coupon with 1c. stamp to Zam-Buk Co. Toronto 12 Z 2

Things Both Here and There

MINING AND FINANCIAL.

The dividend (quarterly) of the Calumet and Hecla, declared on Monday in Boston is $10 instead of $15—a reduction of one-third.

One of the most far reaching reforms in the development of society, seriously proposed in Canada, comes in the movement looking to municipal ownership of the daily papers of Toronto. Toronto has six daily newspapers and a representative of the Canadian Courier interviewed the proprietors, some of whom have given their lives to the building up of their papers. Mr. Flavelle, the President of the News was a "cinch" for the reporter. Mr. Flavelle is simply the owner of the News and as yet The News is supposed to be hardly on a paying basis. J. E. Atkinson who has built up the Toronto Daily Star by years of toil was willing that the public should take over his journal, if he is convinced the public interest demands it. The Globe and the Mail have no objections to the scheme but when the reporter came to J. Ross Robertson, of the Telegram, and Billy Maclean, of the World, their usual mania for municipal ownership had become a phantom and a shadow and there was no heart in them. Their arguments were very good but quite inconsistent with their usual attitude. Each has a paying newspaper which he is quite unwilling to relinquish but strangely enough they are the two papers that have for years advocated public and municipal ownership of public utilities. Now the shoe pinches.

Careful by-laws are being prepared to cover the question by the City Solicitor assisted by S. H. Blake, K.C., and Z. A. Lash, K.C.

In British Columbia it is said there are some newspapers that would be only too glad to sell out to the government. There are, however, two sides to the argument.

Provincial Items

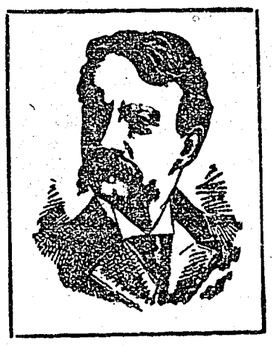
Revelstoke is the meeting place of the Provincial Postmasters, who convened there on Wednesday to form a provincial association. We wonder what mighty reforms they have up their sleeve?

The McBride Government reduced the loan with which it inaugurated its tenure of office in 1903 by half a million dollars last week. The province still has a debt of about eight million.

The business men and other citizens of Keremeos are pleased to learn that through the influence of Mr. Duncan Ross, M.P., Keremeos is to be made a port of entry and that steps are being taken to give us a daily mail service—Keremeos Notes, Hedley Gazette.

MEN

We Cure Every Case We Treat



OUR GUARANTEE: NO PAY UNLESS CURED

When You Need a Specialist, Consult One of Wide Experience.

We are just now completing our twentieth year as specialists in men's diseases. During these years of close application to a single class of ailments we have originated and perfected the only scientific and certain methods by which these diseases are cured. If we accept your case for treatment, a cure is but a matter of a reasonable time.

We guarantee every man a lifelong cure for Varicocele, Hydrocele, Urethral Obstructions, Blood and Skin Diseases, Prostatic Troubles, Piles, Fistula, Loss of Vital Power, Kidney, Bladder and Special Diseases. We especially offer our services to those who are afflicted with weakness as a result of their own follies or excesses.

Our methods are up-to-date, and are endorsed by the highest medical authorities of Europe and America. Hence our success in the treatment of Men's Diseases. Remember, our specialty is limited to the diseases of MEN and MEN only.

We cover the entire field of nervous, chronic, deep-seated and complicated diseases.

CONSULTATION FREE.

If you cannot call, write for Symptom Blank. Many cases can be cured at home. All correspondence confidential.

THE BRITISH COLUMBIA DISTILLERY CO., LTD.

New Westminster, B. C.

Synopsis of Canadian North-west Homestead Regulations.

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan an Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother,

(3 If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,

Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

NOTICE is hereby given that 60 days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described tract of land, situated in the Kettle River Valley West of Midway, commencing at a post planted at the angle on the south boundary of Lot 514, thence south 80 chains more or less to the Columbia and Western Railway right of Way, thence in a North Westerly direction along the said Right of Way 40 chains more or less to the south boundary of Lot 514, thence east along the south boundary of Lot 514 chains more or less to the point of commencement, containing 40 acres more or less.

Dated October 19th, 1907. C. A. E. SHAW

IMPORTERS GREENWOOD

Purely Personal

Dr. Mathison, Dentist, opposite the Post Office, will be absent from Greenwood for some months after the end of December

Mrs. A. D. McLennan, of Rock Creek, was in the city on Tuesday last.

W. H, Bullock-Webster of Nelson was in Greenwood on Monday and Tuesday.

Frederick Keffer left on Wednesday on a short trip into the Similkameen district.

C. de Bois Green, P. L. S., of Osoyoos, and Mrs. Green spent several days this week in Greenwood.

J. D. Gillis of Nelson, inspector of schools, completed his inspection of the Greenwood school on Thursday.

Forty miles to the next furniture store. Close out prices at A. L. White's Red Front. Phone 16—The 2nd Hand Man.

Thos. Embleton, of Rossland, was a visitor in Greenwood from Tuesday to Thursday. On Wednesday he visited some old friends at the Mother Lode.

John W. Frost, the second member of the Sturgeon lake party to return home, reached here on Saturday of last week.

F. M. Foote of Nelson is relieving J. T. Beattie, manager of the Bank of Commerce. Mr. Foote came in yesterday and Mr. Beattie leaves today for Nelson. The transfer is only temporary.

We have just received another shipment of Creamery Butter in bricks and in 14lb boxes specially packed for family trade. The Russell-Law-Caulfield Co.

W. C. Thomas of the Dominion Copper Co., and Mrs. Thomas left on Wednesday morning for Salt Lake City to spend Christmas and New Year's with their daughters who are at school there.

B. M. Snyder and Mrs. Snyder left on Tuesday for Pasadena, California, where Mr. Snyder will attempt to find rest. They will remain there probably a couple of months.

New Stoves and Ranges at cost. Just 2 of the old style ranges left sale price $45. House furnishings of all kinds. A. L. White (he's selling out.) Phone 16

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings

Mrs. Arthur Rendell, of Eholt, has been visiting Mrs. Dr. Spankie. She returned to Eholt last evening.

The children of the Sunday School of the Methodist church will give their annual Xmas Entertainment on Christmas night.

Rev. G. A. Wilson, of Vancouver, Superintendent of Missions of the Presbyterian Church in Synod of B.C., spent Tuesday and Wednesday at the Manse here.

E. S. Busby of Vancouver, who has been for nearly a month inspecting the customs offices of the Greenwood and Grand Forks division, arrived in Greenwood on Wednesday and is now going over the files of Messrs. McCutcheon and MacDonald. His secretary, D. M. Stirton, is with him.

Robert Wood, who has been up at Beaverdell at the Sally for the greater part of the fall, has been spending the week in Greenwood. Mr. Wood returns tomorrow to the mine, where some new work is now under way. He is on his return trip from Trail, where he went in regard to the last car of ore from the Sally.

How short the way to fairyland at Christmas time. In Coles' Bookstore you will find presents of every kind that will make everybody happy. Remember this

Ralph Smailes has been spending most of this week in the city. He came in from Seattle on Friday of last week. Mr. Smailes has learned to beware of newspaper men and mum's the word on Midway and Vernon railway affairs. The interior of British Columbia, however, shall yet be webbed with railroads.

Thomas Clark died in the Sisters' hospital on Sunday morning last after an illness of only a few days. Death followed a severe attack of digestive trouble. Deceased was well known about town as he had been working here in the kitchen of the Norden hotel for some time. The funeral was held Tuesday afternoon from the undertaking parlors. Service was read by Rev. M. D. McKee.

It will pay you when in need of anything in the Grocery line to look through our stock—The Russell-Law-Caulfield Co.

TOWN TOPICS

At the Bay Mine, a number of men are being set to work on a prospect. H. V. Fuller returned to Greenwood on Monday last.

We can supply all your wants and guarantee satisfaction because we guarantee all goods sold. The Russell-Law-Caulfield Co.

An order has been given in the court, in pursuance of notice published over a month ago, to distribute the estate of the late Ed. A. Hain.

Beautiful dolls, wonderful toys—a fairy land for the children is at Coles' Bookstore this week.

The sale of work by the Ladies' Guild of St. Jude's church on Wednesday was a great success. An exceeding pleasant time and a gratifying return of about $85 for the work of the church were the results.

No pen will write like Waterman's Ideal. They make beautiful, handy and useful Christmas presents. From $3.00 to $8.00—all kinds and sizes at Coles' Bookstore.

Greenwood Lodge No. 27 A.F. & A.M. last night elected officers for the following term. No particulars of the election are to be published. Installation will be held jointly with the Phoenix lodge on the 27th inst. Tonight a number of local Masons will go to Phoenix to be present at the ceremonies attendant upon the visit of Noble Binns, D.D. G.M.

For Rent, 6-room Furnished Cottage, up-to-date, by Capt. Swayne. A. L. White, phone 16.

Following the publication of the prices of groceries in Rossland, inquiry made into the prices of the same articles in Greenwood revealed the fact that for eggs, potatoes and flour, except in 50 pound sacks, the amount asked for these articles here is the same as in Rossland. Apples are a little higher here; apples in Rossland sell for $1.75. Here they have ranged from $1.75 to $2.00, holding mostly the latter price. It is claimed by the grocers here that apples of good quality cannot now be laid down in Greenwood at less than $1.85. These they are selling for $2.00.

KILLED BY FALLING ROCK

A fatal accident occurred at Hedley on Tuesday, John McKinnon, the foreman of the Nickel Plate mine being struck on the head by a falling rock which crushed his skull, killing him instantly. Deceased was well known at Fairview and Camp McKinney where he previously worked in the mines, and was universally respected. He was the sole support of his aged parents who reside at Hedley.

Dr. White, coroner, accompanied by L. W. Shatford, left for Hedley Thursday morning.—Penticton Press.

AT CRIPPLE CREEK

"Cripple Creek!" What thrilling associations the name brings to mind. What wonderful tales of mining camps on the frontier! What stories of real life as it was lived in the west when the gold fever was on the country! The population of Cripple Creek, at the time represented in E. J. Carpenter's new play "At Cripple Creek," to be presented at Greenwood Opera House, one night only, was made up of the flotsam and jetsam of North America. These people lived apart in a little world of their own. They made their own laws, had their own standards of right and wrong and defended them in their own way. They lived hard, fought hard and died hard—they loved strongly and hated deeply. Their lives represented almost every virtue and every sin. Stories of Cripple Creek furnish a vast amount of romance, and from one of these tales is woven the play "At Cripple Creek." This story of typical frontier life, filled with stirring situations and thrilling climaxes, calls forth every emotion we are capable of feeling—thrills, heart throbs, sadness and gladness. The scenery is true to life.
