Will it Wear? Will it Shrink?

The above are the questions asked every day regarding Stanfield's Underwear.

Stanfield's underwear will not shrink! If you can shrink it! We will present you with new garments.

One suit of Stanfield's underwear will out wear any two suits of underwear manufactured. If you do not believe this. Ask the man who has tried, and proved this statement. Stanfield's underwear can be purchased from us only. Don't accept the "Just as good"

Stanfield's Lines are as reasonable as ordinary underwear.

Heavy grey, all-wool elastic knit, $1.25 per garment
Heavy grey, all-wool elastic knit 1.50 "
Heavy black, all-wool elastic knit 1.50 "
Extra heavy brown, all-wool elastic knit 2.00 "
Fine ribbed grey, all-wool 1.75 "
Fine ribbed grey, heavy all-wool 2.00 "
Fine ribbed grey, extra heavy all-wool 2.75 "
Fine ribbed flesh, ½ silk & ½ wool 2.00 "

POLITICAL NEWS

Mr. Borden will look for some show of gratitude from Manitoba for having kept Roblin so long away in the east.

The arraignment of Conservative candidate Cowan in Vancouver by W. W. B. McInnes on the Asiatic question means the sure defeat of Mr. Cowan.

Geo. E. Foster stands declared against better terms for any province. What would we ever get if he were Finance Minister?

The ever-thoughtful Cranbrook Herald requests that every speaker through the campaign be given a fair hearing.

Oct. 2nd was the 150th anniversary of responsible government in Nova Scotia.

Conservative papers are publishing what they call a tribute to Mr. R. L. Borden from the New York Tribune.

And when was the New York Tribune ever a friend of Canada or Canadian ambitions?

L. W. Shatford has gone to Nova Scotia to take part in the Federal campaign.

Mr. Shatford failed to get the nomination for Yale-Cariboo and Martin Burrell must play the game without him.

Besides L. W. will be permitted to say things in Nova Scotia that he wouldn't dare to mention in Yale-Cariboo.

The Land for the People

The following is a contrast of the policies of the Conservative and Liberal Governments.

Land for the railway companies, 1888 to 1896—

Railway land grants	30,000,000
Earmarked for railway land grants	30,000,000
Homesteaded	10,000,000

Land for the settler, 1897 to 1908:

Railway Land Grants	Nil.
Withdrawn from railways and thrown open to free settlement	30,000,000
Homesteaded	35,501,600

Not an acre for the railroads.

Settlers are pouring in and great crops of grain are rolling outward. Cities, towns and homesteads are rising everywhere upon the prairie land.

The map of the empire rolls back to the northward and a network of railroads embraces the new-found fields of wheat

Inconsistent.

G. H. Cowan, city solicitor and Conservative candidate for Vancouver is trying to get a seat on the anti-Asiatic wagon by shouting "White Canada" and otherwise making a fuss over the matter.

W. B. McInnis landed a haymaker on him when he related the following:

"Mr. Cowan was a man who for some time had posed as an anti-Asiatic orator. Last October he had listened to Mr. Cowan's ringing tones in the Labor hall, denouncing Asiatics. At that time Mr. Cowan, as city solicitor, was engaged, with all the great brains his friends credit him with, in devising schemes for the occupation of the unemployed—for last winter we had white men walking our streets, homeless, penniless and hungry. Mr. Cowan was applying his mighty intellect to that, and while he was doing so he was having his own place at Bowen Island, fixed, cleared and put in shape by a gang of Japs, averaging from 50 to 75, "I say you have a right to demand from Mr. Cowan, as your candidate, a clear and definite statement on that matter."

The flood in the Hyderabad killed more people than the Johnstown disaster.

Police Protection.

The Vernon News after a recital of the failures of the provincial police to apprehend a number of dangerous criminals remarks that "there seems to be room for considerable improvement in this branch of the public service."

With this every citizen of the Boundary country will agree.

The Boundary pays large revenues to the provincial exchequer and gets but little in return—not even adequate protection of life and property.

The Boundary needs more policemen and better policemen, and must have mounted men.

Some of the police are competent, some are said to be otherwise, but in any case they are too few in number, improperly equipped and not sufficiently well paid for the duties they are expected to perform.

That is why they do not rise to the occasions that occur, and the matter must be remedied.

Protection of life and property is the first thing required of any government, and comes under the administration of the Attorney-general's department.

That distinguished official is back in Ontario telling the people of that well-ordered province what they need to make them happy.

It has been said that charity begins at home, and the Attorney-general should give us some assurance that the Boundary country will get better police protection.

That is the kind of civil service reform the people want first in this part of the world; the kind of better terms of which the Boundary stands most in need.

Obituary

We regret to chronicle the death of Miss Mackenzie, who died of typhoid fever Wednesday at the Sister's hospital.

Miss Mackenzie was a very estimable lady and will be greatly missed by her many friends.

She was a prominent worker in the Presbyterian church, and was secretary of the Sunday school, and was otherwise identified with matters relating to the good of the community.

In their sad bereavement her mother, and brothers have the sincerest sympathy of a large number of friends.

The funeral took place this afternoon from the Presbyterian church where service was held.

The funeral of the late Hugh Stevens on Saturday last was held under the auspices of the Boundary Valley Lodge, No. 38, I.O O.F., from the undertaking parlors of T. M. Gulley & Co., to the C.P.R. depot; the Rev. M. D McKee conducting the services.

The remains were accompanied to Rossland by Mr. Roy Stevens, a brother, and the large procession of fellow-miners and brother-Oddfellows was a beautiful tribute to the memory of the deceased who was esteemed by all who knew him.

Geo. D. Sankey, formerly president of the Greenwood Miner's Union died in Chihuahua, Mexico, on September 14th, from inhaling fumes of Cyanide of potasium. Mr. Sankey was a contractor in the Dolores mine.

He was a member of the Greenwood lodge Knights of Pythias, and was buried by the American brethern in the camp.

The first prosecution under the new Federal anti-Opium act was heard at Vancouver Oct. 1st and a Chinaman sent up for trial at the fall Assizes which are in session this week.

Busy Campaiging.

Duncan Ross, M. P., left Greenwood on Saturday last for Bridesville where he addressed a meeting of the electors the same evening. From there Mr. Ross is proceeding through the Similkameen and Nicola holding meetings at Keremeos, Hedley, Princeton, Tulameen, Nicola, Merritt and other points on the way to Spence's Bridge.

On his return Mr. Ross will speak at Phoenix on October 14th; at Riverside Hall, Rock Creek. October 15th; Grand Forks, October 16th and Greenwood. October 17th.

Mr. Ross will then proceed to the Okanagan and the main line of the C.P.R, addressing meetings every night until the end of the month.

LOCAL ITEMS

Charlie Frank has been doing nicely at the hospital since the successful operation for appendicitis by Dr. Spankie.

Rev. G. A. Wilson, Vancouver, Superintendent of Missions in B.C. addressed the Christian Endeavor Society of the Presbyterian church on Wednesday evening.

John Gopell has returned to his home in Vernou.

E. J. Travers. Nelson, manager Western lines, Canadian Car Service, came in Thursday. Mr. Travers has moved his office from Nelson to Vancouver.

Harry Johns came in from the Napoleon mine, Orient, Wednesday, and went up to take charge of operations on the B. C. Copper Co's recently acquired properties at Wellington camp.

John Carwell, general foreman at Boundary Fall's smelter left on Tuesday for Coram, Cal., where he has accepted a position at the Balakalala smelter in the Shasta County copper belt.

The Firemen's Ball on Monday, Oct. 12th will certainly be the event of the year. With good music, a good floor and a live committee a royal good time is assured.

Mrs. Dr. Spankie entertained her friends last evening in honor of her sister, Miss Mulligan, who will leave shortly for her home in New York.

Rendell & Co. have been taking stock this week preparatory to the transfer of the business to John Barclay. The present fine stock of goods will be augmented by new lines and Mr. Barclay's personal popularity and business reputation are a guarantee of a successful business.

A. D. Hallett gave a demonstratioh of the King chemical nozzle on Monday evening. A structure of highly inflammable material was built, and at the word of the judges the chemical extinguisher was brought into play on the burning pile. The result was entirely satisfactory. In ten seconds the blaze was out, and in 58 seconds the fire was completely extinguished.

September School Report.

DIVISION I—J. L. WATSON.

Pupils actually attending.....21
Average daily attendance.....13.38
Percentage of regularity.....87.52

Perfect attendance: Ernest Anderson. Evelyn Horton, George Redpath, Hazel Redpath, Bertha Smith, Gordon Smith.

DIVISION II—J. M. MACKENZIE.

Pupils actually attending.....26
Average daily attendance.....24.28
Percentage of regularity.....93.

Perfect attendance: Henry Anderson, Lena Archibald, Russell Hunter, Eileen Jakes, Judith Johnson, Charlie McArthur, Grace Redpath, Sutherland Smith, Robt. Smith, Ward Storer, Dick Taylor.

DIVISION III—C. M. MARTIN.

Pupils actually attending.....34
Average daily attendance.....29.90
Percentage of regularity.....87.94

Perfect attendance: Jack Eales, Arthur Eales, George Holt, Waldo Jordan, Francis Jordan, Harold Mackenzie, Daniel McKee, Celia McIntosh, Hall McIntyre, Tommy McFarland, Reggie McKernan, Vera Redpath. Bina Smith, Tom Taylor, Jack Wilson.

TELEPHONE SERVICE

G. H. Halse, superintendent of the B. C. Telephone Co., was in Greenwood last Thursday on his annual inspection tour of the company's lines.

The business men of Greenwood are very desirous that a perpetual telephone service be installed in the district, and advantage was taken of Mr. Halse's presence here to bring the matter to his notice.

The many important reasons why we should have such a service were laid before him, and an arrangement was made whereby the telephone Company agrees to give a continuous service to Greenwood district as soon as 150 phones are on Greenwood exchange. This embraces Greenwood, Eholt, Denoro, Deadwood, Boundary Falls and Midway.

There are 135 phones already on the list and there should be no difficulty in making up the required 150.

The offer of the company is reasonable and it rests entirely with the people of the district to see that the required additional phones are secured and continuous telephone service established between the city and the surrounding points of industry.

Coroner's Inquest.

At the Coroner's inquest relative to the death of the late Hugh Stevens at the Mother Lode mine on the 30th September, the verdict of the jury was that the casualty was the result of the failure of the engineer in charge to properly set the brakes.

The Dominion government has purchased the ground adjoining the new post office in Vancouver to the north on which to erect a new custom's house.

W. W. Leach, geologist of the department of mines, Ottawa, who spent the past season in the Copper river and Telkwa districts, is in Vancouver and brings news of the discovery and location of numerous coal sections on Morse river in that part of the province.

The report of Mr. Leach's work will be issued next spring.

Captain John Irving, who has returned from the north, says that shipments from the mines at White Horse will start in about a month, and that the shipments will amount to about 3,000 tons a month.

Laying Steel

Contractor W. P. Tierney, of Nelson, and his force of men are laying the steel on the new cut-off on the Mother Lode spur.

The improvements are in the way of a switch-back which will cut out the two big trestles, make the grade easier and safer, and will lower the cost of maintenance.

Another Suspect.

A. W. Jennings was arrested at Kettle Falls, Wash., on September 30th by Constable Dockstead-er and the Sheriff of Stevens County, on suspicion of being connected with the Midway murder.

He was remanded from Grand Forks on October 3rd to Greenwood gaol and will be given a hearing tomorrow.

Dominion Copper Co.

The mines of the Dominion Copper Co. have closed, only a sufficient force to attend to the pumps being retained. The company has gone into liquidation with Mr. Roosa as provisional liquidator.

It is said that arrangements have been made to reorganize the entire concern and that it will emerge from the present trouble with a sound financial footing.

That is what is required. The properties are good, the smelter plant is in fine condition and the management capable.

We have been informed on good authority that the reorganization will be speedily accomplished and that the smelter will blow in next month.

Curling

In preparation for the usual good season of the roarin' game the members of the Greenwood Curling Club held a well-attended meeting on Monday evening.

A general feeling of activity and anticipation was manifested, and amongst other business the managing committee was instructed to look into the matter of building a new rink.

The officers elected are, President, E. W. Bishop; Vice-president, H. McCutcheon; Sec.-Treas. G. B. Taylor; Managing Committee, J. S. Birnie, K. C. B. Frith, W. G. McMynn, E. B. Dill.

METALS.

New York, Oct. 6—Silver, 51¾; copper, 13⅛ and 13⅜.

London, Oct. 6—Silver, 23 15-16; lead, £13 11s. 3d.

BOUNDARY ORE TONNAGE

October 9, '08

The following table gives the ore shipments of Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 as reported to the Greenwood Times—

A SLENDER PLATFORM

Amid oceans of abuse for the Liberal leaders the Conservative papers and speakers occasionally make allusion to a desire to introduce what they call "adequate protection."

This can only mean one thing which is, if the Tories had the chance they would raise the tariff on goods coming into Canada from other countries, Great Britain included.

Add to this some remarks concerning reform in the civil service, and you have the platform of the once powerful Conservative party.

Outside of those who may be looking for office there are very few who are deeply interested in the civil service, but there are many thousands of Canadians who feel that the manufacturers have always had an adequate measure of protection and who will never vote to give them more.

High protection went out of date in '96, and while the Liberal party has control the tariff will be as near to tariff for revenue only as it is possible to make it.

IN BAD TASTE.

Martin Burrell's newspaper, the Grand Fork's Gazette, refers to our Canadian Government as a "nest of corruption."

To Canadian ears this sounds ill-mannered and offensive.

It is not convincing; neither is it original.

Doesn't it sound like an expression once used by the venerable Sir Mackenzie Bowell to one George E. Foster whom he called the leader of a "nest of traitors"?

Times have changed but the howl of the jackal may still be heard from the citadel of prosperity.

Not until the Conservative party has purged itself of the lugubrios defamers of our country, and made its ranks congenial to men of probity and ability, can it hope to again possess the confidence of the people of Canada.

Chinese warfare will never do to storm a modern fort.

BILL BOWSER'S BILL.

The B.C. Saturday Sunset ridicules the Conservative Anti-Asiatic legislation by referring to it as "the McBride government's comic opera Bowser bill."

It calls attention to the unanswered charges made by Duncan Ross that Mr. Bowser purposely drew up his Anti-Asiatic legislation in a way that made it ineffective; and that Mr. Bowser the Conservative Attorney-general of British Columbia, as solicitor for Gotoh drew up the contract by which the Jap coolies were brought to this province.

The Sunset wants Bowser to accept Mr. Ross' challenge to meet him on the public platform.

Bowser swore that he would do so, and that he would follow Mr. Ross throughout Yale-Cariboo and make him eat his words.

The chance is open and the time is slipping away and still no Bowser comes,

The charges are direct and definite, and unanswered as they are by Bowser or the Conservative press, are conclusive proof as to who are the friends of white labor in British Columbia.

A Tory paper says that the opposition is gaining in spirit and in unity. Not in Greenwood.

Roblin, the uncouth orator of Manitoba, has been contradicted by J. S. Willison, editor of Toronto News (Conservative), and left the Ontario campaign.

What does Martin Burrell mean by his hostile remarks in regard to the Grand Trunk Pacific?

Would the Tories if elected block the completion of our new transcontinental highway?

B. D. Wallace, Independent Conservative candidate for Brandon, says "I have become dissatisfied with the Conservative party for the last six years principally because of the underhand and dishonest methods of the party leaders in Manitoba."

The interior department reports that over one million acres in Alberta and Saskatchewan have been taken up by homesteaders during the past month since the odd numbered sections were thrown open for homesteading.

The Hedley Oazette says there is still plenty of time for Billy Bowser to come to Yale-Cariboo to explain his connection with the Gotoh contract to supply 50,000 Jap coolies to the C.P.R. and the Wellington Collieries.

In the meantime will Martin Burrell or the Conservative papers give an explanation of the matter to the waiting public.

"Sixty representatives of the Vancouver Trades and Labor Council attended a special session of the city council to protest against the employment direct or indirect, of Asiatic labor on city contract work.

The council directed the Solicitor to enforce the terms of contract on the subject on all work being done for the city." (Columbian).

G. H. Cowan, Conservative nominee for Vancouver has apparently left undone some of those things which he ought to have done as City Solicitor for Vancouver.

C. E. Tisdall who lost to Cowan on the Vancouver nomination is going to run in Comox-Atlin against Mr. Sloan.

That is just a little worse for the Conservative party than if they let Comox-Atlin go by default.

John Houston, editor of the Prince Rupert Empire, late M.L.A. for Nelson, and late president of the Provincial Conservative Association, says: "Were the editor of the Empire a resident of Kootenay he would vote for Smith Curtis, because he has brains, is a hard worker, and is right on most questions with which the common people are concerned."

The increase of population necessary for the prosperity of our province will be forthcoming with the completed construction of the projected railroads and great areas of land at present valueless, on account of the lack of marketing facilities will be then brought under cultivation and furnish homes, employment and prosperity to thousands of people. Mining propositions in bodies of low grade ore will then be operated by capital which today are unworkable owing to lack of railways. Much capital will also be attracted to the province and manufactures and industries hitherto untouched will flourish in British Columbia. — Ashcroft Journal

666 Miles Formally Opened.

President Hays of the Grand Trunk Pacific was reported at Winnipeg on the 18th, and the completed portion of the road between Winnipeg and Wainwright, a distance of 666 miles, was formerly declared open for traffic. Wainwright is six miles from Battle river and about 250 miles east of Edmonton. West of Edmonton, Foley, Welch & Stewart have a contract to grade 127 miles to Wolf Creek, and 1500 teams and over 3000 men are employed on the work. H. J Fetter, superintendent of construction for Foley, Welch and Stewart, says the grade will be finished to within 10 miles of Wolf Creek by the time the ground freezes so hard as to make grading impracticable, and that rails would be laid from Edmonton to Pembina river this winter. At the Prince Rupert end work is hampered by a shortage of men, but grading is being done all along the hundred miles of contract. It is not known whether President Hays is coming here or not.—Prince Rupert Empire.

GENERAL NOTES

D. C. Cameron is running as the Liberal nominee in Winnipeg

Settlers continue to pour into the Canadian prairies from the United States. Most of them are farmers who bring their families and have money and stock and are in every way the best of settlers for Western Canada.

A New Zealand physician has discovered a cure for leprousy.

It is pretty certain that McKenzie King will be Canada's first Minister of Labor.

In reply to the offer made by Premier Laurier in his Berlin speech to mediate between the C.P.R. and its employees if either side desired it, Vice-president McNichol said "We have absolutely nothing to say."

Seven strikebreakers were taken off the Soo train at Emerson, Man., and shipped back to Chicago.

The British Columbia government at the suggestion of the British authorities made through the Dominion government, has agreed to a mutual arrangement with the United States, by which both countries are to reserve a strip sixty feet wide on either side of the international boundary line This strip will be reserved from sale, settlement, or lease. Should any complications occur at any future time it will give that much land on either side to go or come on where no private interests will be affected.

Reserve Strength

is as necessary to men and women in ordinary life as to the Athlete.

The regular use of "Bovril" builds up a large reserve of strength, which makes sustained effort of mind and body possible, and enables the system to resist attacks of disease.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

A Bold Step

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them *Remedies of Known Composition.*

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, *in plain English*, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing *in the strongest possible terms*, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 314

SHILOH

This remedy should be in every household.

Copper HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.
Scope: The Copper Industry of the World.

Covering; Copper History, Geology, Geography, Chemistry, Mineralolgy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposits, Copper Mines.

The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

Will Prospect Coal Lands

The Moresby Island Lumber Company has taken a diamond drill to Skidegate on Graham Island, intending to use it on the company's coal lands about twelve miles from Skidegate.—Prince Rupert Empire.

Jimmie's Beautiful Dream

When Jimmie's turn had come to bat
He heard a mighty shout.
The bases were all nicely filled,
And not a man was out.

Jim gave the plate a sounding whack
And caught the pitcher's eye.
The pitcher turned all sort of shapes,
Then let the spit ball fly.

Jim swung the bat with giant force
And hit the ball just right.
You should have seen it split the air
And disappear from sight.

Then Jimmie started for his run—
He flew just like a bird—
But when he tumbled out of bed
He hadn't got to third.

Sample Boxes Free!!

The most powerful healer in the world is Zam-Buk, and we offer you a free trial box. Zam-Buk combines the knowledge of the ancients with the science of the moderns. The charioteers, gladiators, and wrestlers of ancient Greece seldom emerged from their contests without some gaping wound or severe bruise, and to anoint their injuries with secret balms was part of the day's program. In Zam-Buk you have the modern representative of these ancient healers. Ordinary ointments contain mostly rancid animal fat or poisonous mineral substances. Leave the lid off these ointments for a few days and note the result. Zam-Buk, on the contrary, is absolutely free from any trace of animal fat or mineral poison. It is made from purely herbal essences, is so concentrated and purified that it is suitable for the delicate skin of children, and yet so powerful as to be equal to the most stubborn sore, ulcer, or chronic wound. Zam-Buk never goes rancid. It always keeps clean, fresh, and sweet.

Nature has given man the instinct to rub a place that hurts. She has also given him Zam-Buk, Nature's own herbal healer, with which to rub.

Apply Zam-Buk to a sore, a cut, a scratch, a poisoned wound, a patch of eczema, and at once the healing process begins. It prevents suppuration, blood poisoning, etc. It draws out inflammation, ends pain and smarting, and heals. The best test is a personal test. Send in for a free box and let Zam-Buk prove its own case. See coupon below.

ZAM-BUK

THE GREAT SKIN-CURE.

POISONED WOUND COMPLETELY HEALED!

MR. WILLIAM MUMFORD of 12 Louise Street, Stratford, writes: "While walking about in sock feet I trod on a rusty nail, which penetrated the flesh deeply, leaving an ugly wound. I bathed this well and applied a lotion, but next morning my foot was in a shocking condition, very much inflamed and swollen, and I suffered acute pain. I had to lay off work, as I could not bear to put my foot on the ground. I feared blood-poisoning. For six days I suffered intense pain. Just at this time a friend brought me some Zam-Buk, and after using it a few days my foot was wonderfully improved. I persevered with Zam-Buk, and it soon worked a complete cure. It is a wonderful balm."

Zam-Buk heals sores, eczema, skin eruptions, ulcers, ringworm, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses, cuts, burns, scalds, and all skin injuries and diseases. Of all stores and druggists, 50c box, or from Zam-Buk Co., Toronto, for price.

TRY IT AT OUR COST

Send this coupon, the name of this paper, and a one-cent stamp to pay return postage) to Zam-Buk Co., Toronto, and you will receive a dainty sample box.

MINING

Another furnace was blown in last week at the Trail Smelter for the treatment of copper, being the first increase in the number of furnaces since last fall.

The mill at the Nugget Mine will begin operations next month.

Thos. Brown arranged the Nelson mineral exhibit for Spokane Fair. Over ninety mines of the Kootenay were represented in the display.

A compressor plant is being installed at the Queen Victoria mine.

John Ashworth, M.E., of Manchester, England, who has been touring the province as a guest of the Canadian Mining Institute, has been visiting the coal mines of the Crow's Nest and other properties in the Slocan.

A trial shipment of about 50 tons of Whitewater zinc ore is sacked and ready for shipment to Antwerp, Belgium.

M. K. Rogers has paid the final $30,000 on the $100,000 option on the Observatory Inlet copper properties. J. T. Hillis, manager of the properties conducted the negotiations.

James Cronin is developing the properties in Babine range near Hazleton, which he bonded a year ago.

RICHARD ARMSTRONG,
DUNCAN McINTOSH.
THOMAS A. WOODRUFF.

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Salatone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

Synopsis of Canadian North-West HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—1. At least six months' residence upon and cultivation of the land in each year for three years.

2. A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions, joint ownership in land will not meet this requirement.

3. A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior

Kenneth Mackenzie arrived in the city yesterday from Fernie. He states that buildings are going up very rapidly. Mr. Mackenzie has charge of the big brewery that is being erected, the biggest contract in Fernie.

Don,t forget to take in the firemen's ball, Oct. 12th, and show your appreciation of the excellent way in which your city and your interests are protected against fire.

Wm. George and Tom Edwards came in Tuesday from Wellington camp where they have done assessment work for the year on their claims there, and have gone up to Wallace Creek to perform their duties on the Silver Reef.

Bargains that are bargains in Dolls and Wool Animals. At one-third the usual price they are moving lively. Get in while the assortment is good. McRae Bros.

The many friends of Mrs. Charles Thomet, of Midway, will be pleased to learn that the life insurance policies of her lamented husband have been promptly paid through the local agent, F. W. McLaine.

One policy was for a $1000 in Ocean Accident and Guarantee Corporation, of London, Eng. The claim papers were received at the Toronto office of the company on Sept. 28th and the cheque was in on Oct. 5th. The other policy was for $1000 in the Mutual Life, of Waterloo, Ont., who received the claim papers on September 21st and forwarded the cheque the following day.

Work wanted—By the day, week or month, Mrs. Puybasset, Greenwood, near Midway Stage Stables.

The Quality Campbell's Clothing

This "Quality" about which we talk so much in

Campbell's Clothing

is our strongest argument why you should buy our clothing.

These days any man can be fitted perfectly in ready-made clothing of the better kind.

But besides Style and Fit—the honest wearing value—the point which makes a man buy the same brand again and again is specially featured in Campbell's Cloth ng.

The materials are as good as we can buy, the finishings and workman-ship of the highest quality. The result—the clothing—is sold to you over our guarantee of money back if all details of style, fit and wearing value are not as we represent them.
