MINES AND SMELTER RESUME WORK

Mines Already at Work, Smelter to Resume in About Three Weeks—Smelter Takes on Men Early Next Week.

It was good news that came on Tuesday morning in the announcement of General Manager McAllister that the B. C. Copper Co. would start engaging men on Wednesday, and its reception in the town showed that it was appreciated. A larger number of men than ever before is asked for by Company which corroborates the statement made often during the shut-down that the company's operations here being taken on every day, just as fast as room can be made for them. Yesterday 25 men were working and up to this morning early there had been over 125 applications at the Mother Lode alone. Everything is being put in shape rapidly and they will be breaking ore in the mine tomorrow (Saturday) morning. Drilling is being started this morning at Oro Denoro mine in Summit

The B.C. Copper Co. Smelter

Smelter but it might be nearly three weeks before the red metal would be running out of the furnaces. So far the C.P.R. has no ore trains here. These, however, can be put in at any time on a day's notice and a week from now will likely see the ore trains going up and down the grade and everybody happy.

The Mother Lode Mine.

BOUNDARY MINING.

Three feet of high grade ore has been cut into at the Little Bertha mine on the North Fork. The ore has been widening with each shot and it is expected that it will keep on widening until it reaches five feet, the width it was higher up in the shaft. It is also stated that two distinct ore samples of Bertha ore sent to Rossland a few days ago for special analysis have produced returns of \$560 and \$300 respectively in gold and silver to the ton.

At the Golden Eagle property at Volcanic mountain work is being steadily carried on. A new tunnel has been started which is being run on the ore lead. This property which now has enough ore in sight to make the earmarks of a paying mine will be fairly well demonstrated by the work done this summer. The ore of the Golden Eagle is reported to run \$40 per ton in gold and copper.

One of the mines in the high grade belt that has been steadily working along for some months, having little said about it, is the Tip Top, in Skylark camp. The property is located in the vicinity of the Bay, Mavis, Skylark, and other well known claims in that camp, and so far the development has been decidedly encouraging.

The main perpendicular shaft of the Tip Top is now down about 150 feet, and drifting has been started at the 125-foot level, the drifting being now in about 30 feet. Those in charge say that the face is in ore of a good grade, and they are confident that they have a property in the Tip Top that with adequate development, will join the steady shipping column.

H. V. Fuller, one of the large owners of the Bay, which has shipped such valuable carloads of gold ore, is also interested in the Tip Top, and is now in the east, in connection with Tip Top matters. A new company is being formed at Lincoln, Nebraska, to work the property and secure the capital necessary for development. The company will have a moderate capital, of about \$25,000. The Tip Top is equipped with an electric hoist, and the mining can be done in an economic and expeditious manner. Seven men are now employed on the property, two shifts being steadily worked.—Phoenix Pioneer.

Fish Association

The disciples of Izaak Walton arranged themselves pretty much in the shape of a fish-hook on Monday night and talked of everything in the district respecting fish. J. S. Birnie was in the chair.

It was reported that Mr. Taylor, the expert of the Dominion Biological department had been in the Slokan, and a committee composed of J. S. Birnie, G. B. Taylor, D.C. McRae and S. Oliver were appointed to meet him on his arrival here and assist him to reach the places he wished to see. D. R. Tai. was made representative on the executive from Rock Creek.

Some names mentioned were Graham Skene, Elmer Collier, Harry Pittendrigh, Jack Goodwin, Charlie Thomet, Ed. G. Smith, Wilfrid Cookston and Sid-Oliver.

James Dale, of Carmi, advocated the appointment of a Game Warden for the entire section but no action was taken. The Association, however, recommended the appointment of Deputy Game Wardens in every portion of the district from Echolt and Denoro to the upper waters of the Maia

Kettle River. Names of sportsmen were endorsed for every point and these will be forwarded after the provincial government for gazetting.

D. C. McRae, Secretary of the Association, tendered his resignation on account of his expected absence from the city during the summer. O. F. Hawtrey was elected to fill the vacancy and a vote of thanks was heartily tendered Mr. McRae for his services.

Board of Trade Meeting

Yesterday afternoon, the Board of Trade passed the resolution printed below. In giving it to the public through the columns of this paper, it is only necessary to say plainly that the passing of the resolution was opposed by the editor of this paper. The ground of his opposition was that the men having gone to work there was no need of the resolution. Everyone in the community and no one more than the writer wants good labor conditions here but we may disagree as to the means most effective in securing such conditions. The resolution which is being circulated today for signatures is as follows:

WHEREAS it has come to our attention through recent developments that we have in our midst those who seek to create dissension between employer and employee,

IT IS HEREBY RESOLVED; That we the undersigned members of the Greenwood Board of Trade and Citizens of Greenwood, while being in hearty sympathy with properly directed organized labor, wish to place ourselves on record as opposed to any further attempt to create such strained relations and we strongly oppose all efforts of the labor agitator and trouble maker tending towards industrial unrest and furthermore will do our utmost not to harbor such characters in our community,

F. W. McLAINE, ED. G. WARREN,
Hon. Sec. President.

 EDITOR A. D. MACFARLANE

The good news that came on Tuesday morning will be well appreciated throughout the camp. There is now absolutely no reason why Greenwood should not forge right ahead into the place which she should occupy as the leading city of the Boundary district. Only whole hearted co-operation will do this. It should be remembered from the first that we have here a very great country to develop and build up and that care should be taken at every step. The things best for the interests of the community must be constantly and energetically encouraged and the things not for its interest must be eliminated. The writer does not intend by this to refer to any particular condition but in every community which makes its way, things must gradually settle themselves into harmony with what that community's products are. In a mining country, boom days are always succeeded by quieter and then comes a time when everything like the rest of the world, must come to a purely commercial basis.
 The citizens of Greenwood can

do everything to make the town a real success. Let us go in and do it.
 The Nelson Daily News which for some six years past has been advocating the principles of Liberalism and at the same time providing a good daily paper for the Kootenays and the Boundary last week passed out of the hands of F. J. Deane and announced itself as an independent paper. Immediately the Daily Canadian ceased publication, its last issue appearing on May 2nd.
 Only very meagre particulars of the reason why this change has been made, are given, and the general supposition seems to be that from Mr. Deane's side the matter is largely a personal one. However, a despatch to the Daily Province says that the News is to be independent with Conservative leanings. If this is true, the step being taken by the News is a very regrettable one indeed. Independent papers with fixed leanings are pretty much of a farce everywhere for this simply means that they aim to fight their battle under a cover and to disarm opposition with deception.
 About independent papers, Joseph T. Clark of the Toronto Saturday Night had last week a few remarks which are worth wide publication. After exposing the uselessness of protestations of independence in politics, Mr. Clarke suggests that the proof of the pudding is in the eating of it and continues: "The way to give independent opinion is to give it. If a newspaper charges itself with the duty of ladling out political views impartially, a quart to one side and then a quart to the other—a roast for one party and then a roast for the other—saying nothing about one party without being careful to say quite as much about the other, it deserves nobody's respect. A newspaper to be independent should be guided by certain standards of right and wrong which it should endeavor to uphold no matter what politician or what political party is concerned. As between a party journal and a neutral one, the former seems to be infinitely preferable. It pools opinions with others and works in unison with them, yielding here and gaining there but on the whole advancing its beliefs in general; whereas the neutral paper shirks the hav-

ing of opinions."
 It is the intention of "The News" to ladle out just enough political opinion of either kind to make it nothing in a political way and to protect itself from local opposition, the change is to be sincerely regretted from the high ground of the virile education of the people on political issues. On the other hand, if "The News" can reasonably accomplish a purpose to discuss political questions without any relation to their temporary effect politically and from what might be termed an academic view point its change ought to be accepted by both parties in good spirit.
 One thing only remains to be said and it is that though this way of independence is everywhere strewn with wrecks, there is not existing in Canada today, one really independent daily newspaper. Too often they have retired to a pale and opinionless neutrality and to writing editorials on flies and flowers and insects all of which are very good in their place but daily newspapers are not supposed to be naturalist's journals. The consequence is that their life has been like the lives of the little creatures of the air really quite negligible and of short duration.
 The Nelson News following the line of the Province speaks of the unhappy stand taken by Mr. Ross re the Hodgins charges. A full and free investigation is being given the charges but the Conservative press are not hesitating meanwhile to try and make all the political capital possible out of the matter. Liberals, if they even express an opinion, the result of personal knowledge of the circumstances of Major Hodgins' disagreement with his superior, are immediately charged with sinister motives. Mr. Ross stated that he was in a position to know something of the case and we are fully satisfied that the Commission will fully corroborate his remarks.
Falls Down Badly
 The Hedley Gazette referring to the attempt of the Editor of the Vancouver Sunset to knock the prospects of railway connection to the coast for Southern British Columbia, says:
 "The last issue of the Saturday Sunset contains a sensational story of J. J. Hill's intentions concerning the V. V. & E. Whatever grounds the Sunset may have for claiming betrayal of McLean Bros., whose cause the editor has taken up, the article falls down badly when it enters the domain of prophecy and declares that Hill will not complete the road to the coast."
POLITICAL.
 W. A. Galliher, M.P., has denied that his name was in any way connected with the Dupont divorce case. The Province will be sorry it spoke.
 The early entry of the Hon. Clifford Sifton into the Dominion Cabinet was announced by Senator James H. Ross, of Calgary, last week. This will rather put the touch of scorn on John Hous-

ton's recent deliverances. It is well known that if Mr. Sifton cares to re-enter the Cabinet, he will be welcomed.

Probably there is no subject more discussed in mining districts and of which less is known to the public than the cost of mining and producing copper. Estimates from 8 cents to 13 cents have been circulated as the price at which the red metal can be put on the markets of the world. The cost of producing copper may and, of course, does fluctuate in every plant and is dependent on practically every incident of the management. Good supervision in the mines, the cost of carrying the ore, able and efficient and careful management—all these go to make up according to their quality, either an increase or a decrease in the cost of production. Perhaps a rough estimate for British Columbia low grade mines when carefully and efficiently managed is somewhere between 10 and 12 cents, and in a great many cases it must be nearer the latter figure than the former. In the face of these facts—if they are facts, it is very clear that careful management should be appreciated by every section of a community. If signs of retrenchment are shown, it is not well to jump to the conclusion that these things are inimical to the general interest. The sooner the fact that there is not an elysium in copper mining but a good square working living and a little to spare for a worker—the sooner this fact is recognized, the earlier will the great copper camps of Southern British Columbia find their real and true prosperity.

Two ventures in profit-sharing or "general welfare" co-operation between employers and employees have come to an end recently after having excited interest the world over. The man who was at the head of one of them, Alfred Dolge, of Dolgeville, N.Y., died with good faith still in the system although his former business had failed after twenty-five years of a growing existence. The other, Patterson, the Cash Register man of Dayton, Ohio, whose establishment has been a Mecca to all students of labor problems, has turned angrily away from the idea and declares that in future he will devote himself to straight business. Dolge started in 1874. His bookkeeping was by departments and often the men in one department drew profits when the busi-

ness as a whole, yielded more. There was a system of insurance, the benefit increasing with the length of service; there was an old age pension; also a pension for those meeting with accidents. If any man invented a labor-saving device, the saving thereby effected, accrued largely to the man himself. Eight years ago Dolge and he went to the wall but getting new backing he had started again in California when he died.
 Patterson's story is less tragic but not so pleasant. He had done the same things as Dolge. But now he asserts he has been persecuted beyond endurance by petty grievances. He charges his work-people with being unreasonable and discontented although he was paying them a wage of twenty-seven dollars a week. The employees reply in kind and say that Mr. Patterson is autocratic; that he has come under the rule of a favorite and so down goes the profit-sharing establishment at Dayton.
 The story illustrates the difficulty of handling large numbers of employees even when the government is philanthropic. The idea of benefitting in this way is distasteful to some. Others see in the method a good advertising medium and sometimes the idea that he is a benefactor works on the employer. The sphinx is not yet solved.

5,000 Facts About Canada.
 The 1908 Edition is out of that most useful and valuable booklet, "5,000 Facts about Canada," compiled by Frank Yeigh of Toronto, who is widely known throughout the Dominion as an authority on things Canadian. Nearly 25,000 were sold of the 1907 edition, the demand coming from every part of this continent and the British Empire. The idea worked out that of a concrete fact in a sentence, is an excellent one, the data being arranged under such self-indexing titles as area, agriculture, banking, commerce, finances, mining, railways, wheat fields, etc. The wealth of material contained in small space is a revelation to even a well informed Canadian of the standing and resources of the country. The book is published at 25 cents a copy by The Canadian Facts Publishing Co., 667 Spadina Avenue, Toronto, Canada, or may be had from newsdealers.

Better Cooking.

Every man appreciates good cooking and every woman takes a pride in doing it. "BOVRIL" can be used to advantage with all hot dishes. It greatly improves the flavor of stews, soups, roasts, fish, etc., and also increases their nourishing value. An economical way to get it in the 1 lb. bottles.

MINING

A substantial lead of high grade silver ore was struck last week at the Ottawa mine, one of the premier shippers of the Slooan. The ore is stated to be of the old time richness and thickness. The compressor plant is being restarted and the force of men increased.

A. D. McPhee and Walter Ross, Grand Forks, Geo. A. Macleod, Spokane and Jack Martin, Rossland, are outfitting at Ashcroft this week, intending to go into Findlay river via the Cariboo Road and Barkerville. They may also prospect in the Babine and Teiqua district.

Smith Curtis who is now living at Savona is credited in a report from Vernon with having made several valuable coal locations on Short's creek at a point five miles west of Okanagan lake. The group contains several bituminous coal seams, the largest of which has a thickness of eight feet. According to a recent analysis the coal runs 59 per cent. in fixed carbon and is well adapted for coking and steam purposes. Mr. Curtis has already received a number of offers from parties who are willing to provide money for development.

\$175,000 was the price paid William Waldie for the Queen mine at Salmo on Saturday last. The purchase was made for a syndicate of Wisconsin capitalists

who paid down \$50,000 the remainder to be paid by the end of 30 months. In the meantime Mr. Waldie receives 15 per cent of the mint and smelter returns, these forming instalments of the purchase price. Mr. Waldie seems to have pretty much dictated his own terms for the deal falls through and the property reverts if the payments fall in arrears or if the mine is closed down for a period of 60 days.

There are at present 38 men at work at the mine and a 10-stamp mill in operation. Ten other stamps are to be installed as soon as the roads open and then the mine will have a capacity of nearly 400 a week. Mr. Waldie has had the property six years.

CHILD'S SEVERE BURNS HEALED BY ZAM-BUK

The little girl of Mrs. Lewis Best, of Carlisle P.O., recently fell against the stove and burned her forehead very badly. Mrs. Best says: "The burn was about the size of a fifty cent piece and was near the bone. It made my little girl's eyes swell till it almost shut, and then she got cold in it. It began to run matter very badly, and I could not stop it, although I bathed good every night and morning. At last I sent for some Zam-Buk which soon stopped the matter and very quickly healed the wound. I have never seen a burn heal so quickly and I am sure Zam-Buk has no equal for curing cuts, or burns, and I shall always keep a box on hand in case of emergency." Every home needs Zam-Buk! All diseases of the skin quickly yields to it. It is also an excellent remedy for piles (blind or bleeding), rheumatism, etc. All druggists and stores 50 cents a box, or post paid from the Zam-Buk Co., Toronto.

Provincial Items

Grand Forks is organizing a Board of Trade. A meeting was held on Wednesday night for that purpose.

The capital stock of the Crow's Nest Pass Coal Co. has been increased from four to ten million dollars.

Saudon's brewery was burned to the ground on Thursday afternoon, last week. Loss \$15,000 Insurance \$6,000.

Sloean on Tuesday cleared up a couple of blocks of spare city lots for a park. It was done by a general united effort of the citizens. Why not Greenwood?

A regiment named after the Royal Dublin Fusiliers is being formed in Nelson. It has taken the number of the Fusiliers and is called the 102nd Regiment, having four companies, two at Nelson, one at Rossland, and one at Kaslo. Other changes will involve the formation of the Kootenay Rifles in Fernie and the Crow's Nest while the Kamloops and Revelstoke companies, together with Vernon will make up a cavalry corps.

There is a report from Grand Forks which says that J. J. Warren, president of the Kettle Valley Line railway, is going to England at once for the purpose of raising funds to continue the building of the North Fork extension of the Kettle Valley line to Franklyn camp. It is stated that work will in all probability be resumed on this line within the next six months. This is the only real definite information yet to hand respecting the building of the line to Franklyn camp. Already this railway has the rails laid to Lynch Creek, a distance of 19 miles from Grand Forks, the distance from Lynch creek to Franklyn being a further stretch of 31 miles.

The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root. Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torrid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts of the world. It is a **WATERPROOF OILED CLOTHING**. It is not a medicine, but a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood. The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home. If you have an suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

WORTH TAKING

One ounce Fluid Extract Dandelion; One ounce Compound Salatsone; Four ounces Compound Syrup Sarasaparilla; Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles.

This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home.

If you have an suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

CORPORATION OF THE CITY OF GREENWOOD

NOTICE is hereby given that the Assessment Roll for the year 1908 has been returned, and can be inspected by any person having an interest therein until the sitting of the Court of Revision. The first sitting of the Court of Revision on the said Assessment Roll will be held in the City Hall, Greenwood, on Monday, the 11th day of May, 1908, at 10 o'clock, a.m. Any person desiring to make complaint against his or her assessment must give notice in writing to the Assessor, stating the ground of his or her complaint at least ten days before the said date.

THE COPPER HANDBOOK

(New edition issued Nov. 15, 1906) Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Terminology, Uses, Statistics and Finance of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientist, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal. The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English. Price is \$5 in Buckram with gilt top; \$7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

F. C. BUCKLESS PROPRIETOR

Purely Personal

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings

Thos. R. Hanson was in the city on business on Monday.

J. D. Spence has been attending the Assizes at Nelson since Monday.

Mrs. C. E. Miller, of Nelson, spent Tuesday and Wednesday in the city.

Chas. Sangster, of the Canadian Rand Drill Co. Rossland office was in town yesterday.

James Dimmick resumed his work as chef at the Mother Lode dining hall on Wednesday.

James P. Blain and Miss Jennie C. Blain, of Chesaw, Wash., are Greenwood visitors this week.

W. J. Twiss, of Vancouver, was in the city yesterday. Mr. Twiss is general agent of the Mutual Life of Canada.

A. F. H. Meyer returned from his home at Vernon on Friday last. Mr. Meyer spent some time about Okanagan Lake.

John McKenzie, of Rock Creek, was a visitor in Greenwood on Saturday last. Mr. McKenzie left home last Tuesday for Port Simpson and the North Country. He may possibly take up some land there.

Provincial Constable Dinsmore was in the city yesterday keeping in touch with the friends of Francesco Cedio who are in this vicinity. He went from here to Phoenix where there are more of them.

Rev. M. D. McKee is attending the meeting of the Synod of the Presbyterian church which is in session this week in St. John's church, Vancouver.

Harry Simmons returned on Saturday last from Toronto, where he has been taking his first session's work in dentistry at the Royal College of Dental Surgeons. Dr. and Mrs. Simmons returned with him from their visit to Creighton.

Rev. John Leech-Porter leaves his parish here early next week to reside in future at Enderby. The services in the Anglican church on Sunday evening will be Mr. Porter's farewell to his congregation. He will be succeeded here by Rev. Mr. Venables of Enderby.

Rev. F. J. Rutherford left on Tuesday for Nelson to attend the district meeting of his church there. Mrs. Rutherford joined him yesterday, and went with him to Vancouver where the British Columbia Conference meets early next week.

A. A. Richardson, of Vancouver, was in Greenwood Monday appraising the loss of the Elkhorn Brewery. A full loss was allowed. Mr. Richardson represents the Guardian and the Law Union and Crown companies.

J. L. Martin, representing the Canadian Fairbanks Co., Ltd., came into town Wednesday on the trail of the Smelter smoke. There'll be more of his kind constantly now.

W. J. Mellor, of Victoria came to camp on Friday last. Mr. Mellor's name has been associated with certain buildings in Greenwood for some time.

Hugh Cameron of Camp McKinney, came to Greenwood on Saturday last, returning from Victoria where he has spent the winter. Mr. Cameron is one of the pioneers of the camp up on the mountain and though the climate of Victoria may be good for some people, there's no climate like Camp McKinney's for Hughie Cameron.

W. B. Willcox, whose retirement from the editorship of the Phoenix Pioneer was announced a month ago, went with his family to Spokane on Saturday last. Leaving Mrs. Willcox and their daughter, Elizabeth there, Mr. Willcox will spend a couple of months visiting friends in Coast cities.

If you wish to rent a piano, see A. L. White.

TOWN TOPICS

The Mother Lode stage started its regular trips on Tuesday night

Their will be a meeting of the Board of Trade next Wednesday evening at 8 o'clock.

First class Slot Machine---at a bargain. Coles' Bookstore.

More commercial travellers have been in Greenwood this week than in any week in the last six months. Strange, isn't it?

A. L. White has a fine stock of sewing machines - for sale or to rent.

The Court of Revision of the City of Greenwood Assessment Roll will be held on Monday at the City Hall at eleven o'clock.

A meeting of the Canadian Mining Institute, Western Branch is to be held at Rossland next Thursday and Friday.

Boundary Valley Lodge No. 38, I.O.O.F. has made a donation of \$10 to the funds of the Boy's Brigade in appreciation of the work being done for the boys and of the assistance given them by the Boy's Brigade band on Sunday night a week ago.

At Tierney & Co's camp at Deadwood there have been about 80 men all week. The right of way is being cleared but the main part of the work is being held up for some necessary materials which the C.P.R. should furnish. When these come the work will be shoved right ahead.

We have bargains in Wall Paper remnants that we wish to clear. Get busy before that tall chimney tarts spouting. McRae Bros.

Mrs. Isabella M. Parsons, of Minneapolis, who with Harry H. Shallenberger, of Spokane, owns the Moreen mine in South Deadwood camp has entered suit against Mr. Shallenberger for \$50,000 damages for letters written, she alleges for the purpose of injuring her. Mrs. Parsons was in Greenwood about six weeks ago and this suit apparently follows a threatened one for misrepresentation. Mr. Shallenberger is well known in camp, being one of the original owners of the Crescent mine.

Tie-makers complain that the C.P.R. are refusing to inspect more ties in the Boundary until September. Some of the men are being left with large quantities of ties on hand and being compelled to wait so long for money when they have to pay wages is creating a good deal of hardship

Two automobiles, a heavy touring car and a runabout made the dust fly on the Midway road on Sunday. They contained the families of Messrs. Hodges and Williams of the Grand Forks smelter. It doesn't take very long to find out where an unfortunate driver would be if he met a car on that new piece of road below Boundary Falls. The road as it stands there today is positively dangerous.

Mrs. F. M. Elkins gave her friends a very pretty and much enjoyed "At Home" on Wednesday night in the Eagles' Hall. The attendance was well suited to the size of the hall, there being about 40 couples present. Music for the dancing which was supplied by Mrs. Oliver at the piano, her son Jack, with the drums, and A. F. Jory, violinist, was very much appreciated by all the guests. The hall was prettily decorated and everything possible for the comfort and convenience of the dancers was provided. The affair was an unqualified success.

T. M. Gully & Co. are building an extension at the rear of their large store on Copper street which will be fitted up as a modern undertaking parlor. The new building is to be about 30 x 55 ft. and two stories high, the second storey being on a level with the main floor of the furniture store. The building will open on Silver street, the lot being graded off gradually from the entrance to the street level. The optimism of the firm is shown in the fact that the building was started before the mines were declared open

The Young Men's Club of St. Columba's decided at its meeting last night to broaden its work and in this attempt the members are requesting the co-operation of all young men interested in improving themselves and others. A discussion in this connection and some impromptu debating will be the program last night. Two weeks hence there will be a discussion on favorite poets of individual members. All young men are cordially invited.

The death of Mrs. W. S. Horton occurred on Wednesday night at the Sacred Heart Hospital. Mrs. Horton had been ill only one week and was taken to the hospital on Monday. Mr. Horton had been in Nicola and returned yesterday and the funeral will take place tomorrow at one o'clock from Gully's Undertaking Parlors to the Presbyterian church and thence to the cemetery. The services in the absence of Mr. McKee, will be conducted by Rev. S. Lundie, of Phoenix. In the bereaved family are six children, three of them still quite small. Mr. Horton and the family will have the very truest sympathy of the community in his bereavement.

J. L. Coles has a stock of wall paper that is unexcelled for tasty designs. Look 'em over.

Denoro a Post Office.

The men who go to work at the Emma mine will have a post office at their door. The Dominion Government has opened a post office at Denoro and the postmaster has been given to William Phillips who conducts the store there. Formerly all the mail for Denoro was directed to the Eholt office and had to be taken over by special messengers. The move comes very happily with the opening of the mine when it will be widely appreciated.

AT THE CHURCHES

PRESBYTERIAN---Services will be conducted morning and evening, 11 a.m. and 7.30 p.m. Rev. M. D. McKee, Pastor.

METHODIST---Rev. F. J. Rutherford B.A., will conduct services as usual at Methodist Church morning and evening Sunday School at 3.

CATHOLIC---Church of the Sacred Heart---Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a.m.; vespers and benediction at 7.30 p.m.; Sunday school at 2.30 p.m. Rev. J. A. BEDARD, O. M. I. pastor.

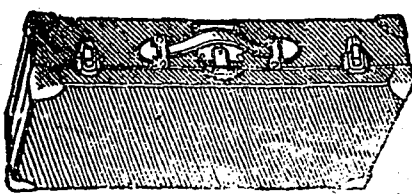

The services in the Anglican church will be in future as follows: On the first and third Sunday, at 8 a.m. and 7.30 p.m. On the second and fourth Sunday of each month at 8 a.m. and 11 a.m. Sunday school is held every Sunday at 12 o'clock noon.

Application for Liquor License.

In thirty days from date, I intend to apply to the Superintendent of Provincial Police for a renewal of Liquor License for the premises known as The Riverside Hotel, Rock Creek, B.C., to commence on July 1st, 1908. S. T. LARSEN, Applicant, Rock Creek, B.C. May 1st, 1908.

LICENSE ACT, 1900.

TAKE NOTICE that I, Ewan O. Lewis, of Boundary Falls, intend applying to the Superintendent of Provincial Police, at the expiration of one month from the date hereof, for a renewal of my hotel license for the premises known as the Smelter Hotel, at Boundary Falls. Dated at Boundary Falls, the 7th day of May, 1908. Signed, E. O. LEWIS
