## LOCAL MEN VISIT NORTH

Inspection of Moresby Island Limits Makes Pleasant Trip  
—All Boost for B.C.

From a trip up to the coast, lasting nine days, and including visits to Prince Rupert, Port Simpson and the Moresby Islands, W. C. Thomas, who had been a member of the party with W. T. Hunter, of the Hunter-Kendrick Co., and W. C. Thomas, of the Dominion Copper Co., returned to Greenwood last night. The outing was organized by H. F. Hunter, brother of W. T. Hunter and general agent of the Chicago, Milwaukee and St. Paul Railway and its object was the inspection of the 100 timber limits which the Moresby Island Lumber Co. own on Graham and Moresby Islands. In addition to this, it formed the occasion for a very enjoyable reunion between Mr. Hunter and his brothers, James Hunter, of Rossland, J. C. Hunter, of Fargo, N.D., and W. T. Hunter, of Greenwood.

The round trip occupied nine days. At Port Simpson, on the way north, Chief Dudewas gave the visitors a great reception. The Indian band escorted them to the chief's house, where many civilities were exchanged. An equally cordial reception awaited the party at Skidegate. The Indians there vied with the white residents in endeavoring to create a favorable impression respecting the resources of the islands.

Speaking of the result of their investigation, Mr. H. F. Hunter said:

"After examining a few of the limits our most sanguine expectations were surpassed. It did not take us long to decide to proceed this spring with the construction of a \$400,000 saw-mill. We hope to have it completed and in full operation next fall. The plant will also include a shingle-mill. If conditions later on warrant it we will keep on increasing the equipment from time to time. Of course our decision to start work on the mill this spring is contingent on the Grand Trunk Pacific proceeding with construction work at Prince Rupert this coming summer. We shall cut lumber for the export and domestic trade. Owing to our proximity we expect to do a big business in Prince Rupert as soon as building operations there get under way. The mill will be located at a point on Cumshwa Inlet. The exact site has not yet been chosen.

Experts in the party made an examination of semi-anthracite coal seams on Graham Island. These lands embraced ten claims held under option by certain individuals. The experts turned down the proposition. They advised that the seams are small and much broken up owing to the faulted formation. The options will not be taken up. We were told that better showings existed farther inland. We did not visit those places as there was considerable snow on the higher elevations in the interior of the island.

"Every member of the party was very favorably impressed with the great future in store for the Queen Charlotte Islands and the northern Mainland. Lack of time prevented us visiting the copper and gold camps on Moresby Islands, which this spring promises

to be the scene of great mining activity. I shall revisit the islands in May in connection with our saw-mill enterprise. Many other members of the party are likely to do likewise. Our visit, while for the majority a pleasure trip, pure and simple, will likely result in the investment of a large amount of American capital there and on the mainland. Every member of the party returns home an enthusiastic 'booster' for British Columbia.

"We were all favorably impressed with Prince Rupert. The harbor and townsite are excellent. I expect the Grand Trunk Pacific will lay out a model city, which owing to prevailing conditions, will grow more rapidly than other Pacific coast cities did, when first provided with railway facilities. I really believe that Prince Rupert has more resources tributary to it than any point between Nome and San Diego," concluded Mr. Hunter.

## Mining Progress

The ore at the Crescent is continuing to show up well and shipments will begin this month. An ore car will be sent out this month and two next month.

A specimen of ore, on exhibition at Bubar & McKay's was brought by this week's stage from Beavertail. The dimensions of the specimen are about 12 inches, of solid galena, with considerable native silver showing through it. It comes from the Rob Roy.

At the Diamond-Texas, this week, the men ran into some quartz with fine stringers of ore. The ground is improving steadily now and the owners are almost sure that they will break into the ore within a few feet.

Although nothing has been officially given out, it is understood that the bonds for which tenders were asked by the Providence Mining Company have been taken up and are being satisfactorily disposed of by the officers of the Company in Chicago.

In the Palmer Mountain tunnel, eleven leads have been cut and stock that a few years ago was for sale at any price, is now not on the market. See what the Greenwood tunnel may do for a few town lots.

The adjourned meeting of the Royal Victoria Mining Company is to be held this afternoon at five o'clock in the office of J.D. Spence, the head-office of the company. It is altogether likely that the bond offered by J. A. Thompson, of Spokane, on the Golden Eagle property on the North Fork will be accepted.

## CONSECRATION OF ST. JUDE'S CHURCH.

St. Jude's Church will be consecrated on Sunday, February 23. The Rt. Rev. John Dart, D.D., Bishop of New Westminster will preach at both the morning and evening service, 11 a.m. and 7.30 p.m.

A serious fire occurred at Ferry on Sunday morning about seven o'clock when the large general store of the Soule Mercantile Co. was completely gutted. The fire also cleaned out a saloon and the post office with a very heavy loss. The Mercantile Co. will lose at least \$20,000.

## TUNNEL GOES RIGHT AHEAD

City Ready to Bonus. Proposition—Board of Trade Enthusiastically Endorses It

At a special meeting of the Board of Trade held in the rooms of the Greenwood Club on Friday afternoon last, Richard Armstrong, representing a number of Chicago capitalists, outlined the tunnel proposition which has been in the air for the past month. The project was freely and favorably discussed and the scheme was given an enthusiastic endorsement by the largest meeting of the Board of Trade held in Greenwood for a long time.

It is proposed to use the tunnel to tap at depth all the high grade properties on the hill east of this city. It is well known that no finer ore can be found anywhere than that which the Strathmore, Freemont, Prince Henry and Crescent contain but the expense of working them by shafts on account of breaks and faults in the drifts has hitherto made their profitable development very discouraging. At present the Crescent is showing up well and it is understood will ship some ore next week, but if these veins can be cut where the ore bodies are larger, there is absolutely nothing to prevent Greenwood from becoming the richest high-grade mining camp in Southern British Columbia.

The tunnel which is to be run will be 9x9 and will have as its objective point, a station underneath the Granby mines at Phoenix. First it is expected to tap the Strathmore and Freemont veins and the completion of the third section will, it is considered, put it past the Crescent. It is, however, the opinion of many mining engineers, including Dr. S. Peacock, who was here with Mr. Armstrong, that these high grade veins will be met with every 300 feet or so and that the main tunnel will only be the beginning of many miles of tunnel work in the hill.

The following letter given by Mayor Bunting to the promoters explains very clearly and definitely the relation of the City to the scheme:

Greenwood, B.C., Feb. 8, 1908  
S. F. Johnson, Esq.,  
Chicago, Ill.

Dear Sir,  
I take pleasure in informing you that I am personally in favor of Mr. Richard Armstrong's proposition to build or construct a tunnel from Greenwood to Phoenix on the following terms and conditions—namely that the City of Greenwood is to bonus said tunnel proposition to the extent of \$50,000 in bonds of the City, payable as follows: \$5,000 of bonds on the completion of 2,000 feet of said tunnel, a further sum of \$10,000 of bonds on the completion of 2,000 additional feet or when in 4,000 feet, \$15,000 of bonds when the tunnel has been completed 6,000 feet and the balance of \$20,000 of bonds when the tunnel has been completed to Phoenix.

I have laid this proposition before the Aldermen in an informal way and they are all favorable to it. I, further, had the Board of Trade call a meeting and Mr. Armstrong laid his proposition before them and they unanimously

endorsed it. So I have no doubt that the by-law granting said bonus will be carried.

Yours truly,  
H. BUNTING, Mayor  
Some of the claims along the route of the tunnel are the Strathmore, Freemont, Prince Henry, Defiance, Last Chance and the Crescent. A lot of money has been put in these properties at various times by local people and it is estimated that nearly a million dollars worth of ore has been taken out of them. The men who are behind the scheme are men who are interested in these properties and have a good idea of what they are. It is expected that work will be started on the hill perhaps with a month and in a very few months some idea of what the tunnel will do for Greenwood will be known.

## C.P.R. CHANGES

The announcement of the transfer of Supt. D. C. Coleman of the Kootenay division of the C.P.R. has been recalled and a new slate of changes has been issued by the company. It is understood that the arrangement followed a protest from the railroad's heaviest shippers on this division, to whom Supt. Coleman's work has given much satisfaction. Difficulties of transportation on this division were for sometime a much discussed matter and it is creditable to Mr. Coleman to have such striking testimony to his efficiency. Allan Purvis who was to come here, goes to the Pacific division office, with headquarters at Souris.

G. Erickson of Cranbrook is transferred to the forestry department of the company. J. Brownlee, superintendent at Moose Jaw succeeds Mr. Erickson at Cranbrook; J. G. Taylor, superintendent at Fort William, goes to Moose Jaw; G. E. Graham, superintendent at Souris is transferred to Fort William.

## HOCKEY.

On Friday last the Greenwood Hockey Team played their second match of the series, this time with Grand Forks and with more satisfactory results, the score being 6-4 in their favor.

Owing to the hard practice the boys have been putting in since the former game they were able to make a much better showing, in the last half of the game, this was especially noticeable when they were able to out-skate their opponents in almost every instance.

The game was fast and clean, the latter due in part to the strict and impartial referee. With the splendid big rink at Grand Forks, the play was much more open and thus was much more interesting to the spectators. The player deserving of especial mention was Watson, goal-tender for the "Red and Whites" who for practically a green hand is making a splendid showing: Keep it up old man and you'll be a star.

The Grand Forks and Greenwood Intermediate hockey teams played a tie game on the rink here last night. In the first half the Grand Forks lads had things pretty nearly their own way scoring three goals. In the other half, by a rearrangement of the men Clerf coming up and McIntyre coming out of goal, the story was reversed and the game ended in a tie. At times there was good, fast, hockey but it was spasmodic. More training and more experience in matches will make the boys good hockeyists. In the latter part of the game, McIntyre received a bad swat

EDITOR A. D. MACFARLANE

FRIDAY, FEBRUARY 14 1908.

The annual meeting of the Board of Trade is to be held on Saturday afternoon. The main business of the meeting is the election of officers. It is particularly important at this stage in Greenwood's development that men should be chosen who will be persistent, capable and active publicity men. What Greenwood needs now is publicity. Only energetic, intelligent, continuous advertising of the resources and possibilities of the Boundary district of which Greenwood is the natural, the inevitable commercial centre, is needed to make this section a compact, thriving, busy district. The boosting spirit is contagious and if the Board of Trade can get in and keep Greenwood's resources before the public, if it can only introduce to the notice of the homeseekers the fertile land of the benches of the Midway district, there will be a development here that will stagger even the visions of the most optimistic of our people.

Continually now we are meeting men who are finding that particularly the benches of these low rounding hills of ours are fertile, well watered, and practically frostless lands which are capable of raising the most delicate of

northern fruits. With the growth of Greenwood there will be a good local market for these products and if these orchard lands can be worked as they are being worked without artificial irrigation, the fruit ranchers can certainly compete successfully in the markets of the world. The district's development is one with Greenwood's prosperity and the Board of Trade is the natural advertiser of the district.

A letter appeared in our issue of last week about the fruit growing industry. There is no doubt about it, five or ten years from now Greenwood is going to be the commercial centre not only of the mining industry, low grade and high grade of the Boundary, but it is going to be the market town for a fruit and ranching country, equalling the Okanagan and surpassing the wild wastes of the Kootenay. Grapes raised by a lady at Rock Creek took first prize at the Nelson Fair. Melons are being raised successfully there every year.

No more fertile land, no land freer from frost, is for sale in British Columbia than is to be found on the benches at Carmi, around Midway, including the land of the Kettle Valley Irrigated Fruit Lands Company. These stretches offer the most reasonable fruit land or ranching investment in the country today. Land can be bought on the benches in the Midway Country for \$10 an acre which is equal to land which either side either east or west will cost nearly ten times that amount. What we need is more people—people with confidence in the country and the persistence and care which is always necessary to make a success of special agricultural work. Don't forget that that part of the Boundary country south of us, is getting there more every year with the goods.

But this isn't to say that Green-

### SHILOH'S

**QUICKLY!**

wood's immediate surroundings have a bigger future in fruit than in minerals. Fruit can be grown here no doubt, and The Times doesn't discount the fruit industry for a minute. But what we're after just now is low grade and high grade ore bodies and let us not dissipate our energies. The tunnel scheme is the biggest thing in our midst today and a united and persistent Greenwood, back of it is bound to make it a go, if there's anything in the hills at all.

And who doesn't believe there is? Mining engineers from every part of the country have formed high opinions of the prospects there. It's now up to the citizens of Greenwood to stand behind the scheme, give it every encouragement possible, shove with all your might, and meanwhile don't forget that ore bodies up the other hill are there ready to do business on a cheaper scale than anywhere on the continent.

Over in the Similkameen, they know how to appreciate a good thing. This is what B. Stone Kennedy, of the Similkameen Star has to say of the work of the member for Yale-Cariboo:

"Duncan Ross, M.P. for Yale-Cariboo, is making a record at the present session of the Dominion House. His recent speech on the Asiatic question was one of the ablest ever delivered in the House. His more recent speech touching the McBride Government's trickery in dealing with the Oriental problem in this Province and Attorney-General Bowser's duplicity in this matter is a masterpiece."

Even in the frost belt, where one would think hot air would be appreciated, they appear to prefer even raw blizzards to the hot blasts of the B.C. Legislature. The Saskatoon Phoenix doesn't temper even its own language when it speaks of the McBride following: "That British Columbia bunch of legislators are the knottiest outfit of four-flushers that have ever been together in Canada. It is time the rest of the country ceased to take them so seriously."

### General Notes

Cranbrook is agitating for the University of British Columbia to be situated there. The "Old Man" has omitted one thing Cranbrook might confer above all other towns (except Greenwood in future) in British Columbia, on the youthful mind bent to learning. It could surround with the atmosphere necessary to inspire a booster. The University lad, needs it to keep him optimistic and cheery and if Old Man Simpson's hot air about Cranbrook, couldn't wake up any lad's cerebellum, he would have no right to his roll of parchment.

If the briar bushes refuse to continue to curl and twist themselves in the same old fashioned way in the hills of Sunny Italy, the day will come when a briar root pipe will be a luxury and your pipe dreams if you are a poor man will have to weave their fantastic ways from a bowl of common clay. An English Journal, "Tobacco," puts the thing this way:

"Briar root (Arborica erica), though a very common bush on all the hills and forests of the countries washed by the Mediterranean, is very rarely of commercial value, the proportion of its volume susceptible of treatment for the pipe trade seldom bearing any relation to the enormous bulk it is necessary to raise. The forests which were near the seaboard in Corsica, Calabria and Tuscany, and from which the

best results have hitherto being obtained, are now largely exhausted, for briar root is a wild growth not fit for use until at least 35 years old, and therefore quite unfit for cultivation. It is now necessary to go further afield, to prospect in districts difficult of access and expensive to work. The earthquakes in Calabria have also done their share by causing emigration and scarcity of labor. The combined causes have resulted in an increase estimated at 30 per cent. in the price of raw material within the last four months making it an increase of 100 per cent. in three years."

Canada and the U.S. have greatly increased the trade in briar root pipes and though every possible wood has been tried, no other combines the qualities which make Arborica erica the only possible material from which to make a sweet, cool and fragrant pipe.

Canada began the 20th century with the same population as the United States began the 19th.

Canada's population by first census of 1665 was 3,251; in 1763 was 70,000; at Confederation in 1867 3 1/2 millions; in 1891 5,371, 315; on June 30, 1904, was estimated 5,604,328.

### WATER WAGON SHOTS AND OTHERS.

The man who takes "just one more" before swearing off soon makes room on the water wagon for another.

When a woman gives you "a piece of her mind" she usually unrolls the whole bolt.

If you ride long enough the seat on the water wagon will be quite comfortable.

If you overlooked it on January 1 you might try making a good resolution today.

When a man fails to think that his home town is the best town of its size in the country it is time for him to seek another location.

A man's ideal woman is one kind of a pipe dream.

Straight whiskey maketh a crooked path.

### AT THE CHURCHES

ANGELICAN—St. Jude's. Rev. John Leech-Porter, B. D., pastor. Services at 8:30 a.m., 11 a.m. Sunday school, 12 p.m. All seats free.

PRESBYTERIAN—Services will be conducted morning and evening, 11 a.m. and 7:30 p.m. Rev. M. D. McKee, Pastor.

METHODIST—Rev. F. J. Rutherford B.A., will conduct services as usual at Methodist Church morning and evening Sunday School at 2:30.

CATHOLIC—Church of the Sacred Heart—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a.m.; vespers and benediction at 7:30 p.m.; Sunday school at 2:30 p.m. REV. J. A. BERNARD, J. M. J. pastor.

Get acquainted with **Black Watch** the big black plug chewing tobacco. A tremendous favorite everywhere, because of its richness and pleasing flavor.

Owing to the bettered condition of the metal market the rates on the smelting of silver lead ores have been reduced by the Consolidated company from that which has been in force since October.

The Greenwood Orchestra will hold a dance in the Masonic Hall, two weeks from tonight. The orchestra is now enlarged to ten pieces will furnish music. Show the boys that you appreciate their work by supporting them.

**Keep Zam-Buk Handy!** Accidents will happen to the best regulated families, and the necessity of keeping handy a box of Zam-Buk—the valuable "first-aid" cannot be too strongly insisted upon.

Mr. E. Webster, 519 Seigneur Street, Montreal, says: "One day as I was lifting a pan of water off the stove, my son Eddie ran toward me and knocked the pan upwards. The water ran over his neck and scalded him very badly. It was a very awkward place on which to keep a platter and several things which we tried failed to give him relief. We then applied Zam-Buk (which we had used some time before for a bad gathering on my little daughter's head and this acted like a charm. It drew away the pain and healed the scald. We have proved Zam-Buk an invaluable remedy."

**SEND FOR FREE SAMPLE**  
Acquaint yourself with Zam-Buk. Send this coupon with 10c. stamp (for return postage) to The Zam-Buk Co., Toronto, and possess a dainty sample box.

**Zam-Buk's Wonderful Way.**

Zam-Buk is absolutely unique in its composition, and must not be confused with cheap ointments containing caustic animal fat which the skin cannot absorb, and which consequently instead of cleansing the pores clogs them up. Zam-Buk has revolutionized existing methods of healing cuts, bruises, burns, scalds, chapped hands, cold sores, chafing, and treats in a new, scientific and effective way the worst case of eczema, piles, ulcers, bad legs, blood-poisoning, festering, psoriasis, scurf, ringworm, children's scalp troubles, sores on the back, and all those inflamed, burning, irritable and diseased conditions of the human skin that incapacitate and torture their thousand victims.

Of all druggists and stores, 50c. a box, or postpaid from the Zam-Buk Co., Toronto, on receipt of price. 3 boxes for \$1.25.

## Don't Take Milk at Night!

Milk in any form taken at night is apt to cause digestive disturbance. Your night's rest is not refreshing. To appease hunger, or merely for company's sake, "BOVRIL" in the form of a bouillon, or sandwiched between bread and butter, is excellent. After this light supper you will sleep well and awake refreshed.

## Provincial Items

Near Hector, and from there to Field, B.C., the C.P.R. are working on two tunnels, one 3,200 feet and one 2,800 feet in length. The tunnels are spiral in shape and one portal is 70 feet higher than the other. They are on opposite sides of the Kicking Horse River. In both tunnels there will be a ten degree curve and in both the train will turn completely around. These will be the first tunnels of the kind in America, though there are said to be three under the Alps. The dimensions of the tunnel will be 17 feet wide and 25 feet high. The contractors are employing some 500 men and expect to have the whole work finished next fall. Active operations are carried on from both ends of the tunnels and the work is progressing at the rate of 30 to 40 feet every day.

S. G. Blaylock, late manager of the Hall Mines Smelter at Nelson has taken up his new duties as superintendent of the St. Eugene mine. On the 2000 foot level of St. Eugene, a chute of ore 40 feet in width and 300 feet long has been opened up.

The Vernon Board of Trade is publishing a pamphlet descriptive of the country around Vernon. Publicity pays.

Placer Mining will be resumed on Hall Creek near Nelson this summer. These claims were worked as early as 1892. By means of modern hydraulic machinery,

which will handle 5000 cubic yards per day, the American and B.C. Hydraulic Placer Co. will work the district this year. To the value of the gold, is added that of black sands desirable as smelter flux, estimated at about 10 pounds to the yard and valued at from \$37 to \$200 a ton.

Over 40 delegates attended the meeting of the B.C. Fruit Grower's Central Exchange at Revelstoke last week. Handling their fruit cost the members of the exchange last year only five per cent of their sales.

The debenture holders of the Hall Mining and Smelting Co. have taken possession of the smelter and of the Silver King Mine and other such property of the company as is covered by trust deeds to them. It is understood that a new company has been formed to operate these properties for the debenture holders.

## "WESTWARD HO!"

The February number of Westward Ho! is by far the best illustrated and most entertaining yet attempted by the enterprising publishers. A two-color cover design of "The Lions" at Vancouver, by S. P. Judge; a superb frontispiece and a score of clever stories and departments including chat of the editor, "Men I Have Met," makes the midwinter issue a well-balanced number. Capt. Clive Phillips Wolley commences his serial "Shakmut," a tale of Sitka in the times of the Russians, the rights for which have been

acquired by the publishers. It is an intensely absorbing tale of the north, and will doubtless go a long way to popularize Western Canada's new monthly.

## IN 1908.

If you can neither sing nor dance, attend the Greenwood Concert Orchestra's dance on February 28 and listen to the good music.

Remember the Valentine Social at Judge Brown's residence, Valentine night. See advertisement.

## A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faintness with general weakness. If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cure. It is the most potent invigorating tonic and strengthening medicine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of women's ills. You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or know its composition, even though the dealer may make a little more profit thereby. Your interest in regarding health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for. Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago much imitated but never equalled. Little sugar-coated granules—easy to take and

Recently in England the mind of the public has been exercised as to the correct pronunciation of the word "Bovril" the name of the well known preparation of beef.

A consensus of opinion has been obtained by the proprietors of the preparation. As many as 90640 voted for "Bov-ril" and that seems to have been the favorite pronunciation. A Mrs. Brain of Sairehampton near Bristol secured a prize of one hundred pounds, by giving the exact number of the majority of persons voting for "Bov-ril."

Whether pronounced "Bo-vril" or "Bov-rill" the preparation is very acceptable at this time of the year.

## SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:  
Fluid Extract Dandelion one ounce;  
Compound Salicine, one ounce;  
Compound Syrup Sarsaparilla, four ounces.  
Shake well and use in teaspoonful doses after each meal and at bedtime.  
A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.  
This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salicine and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

## THE COPPER HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry. Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The Copper Handbook is conceded to be the

## WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal.  
The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English and the price is \$3 in Buckram with gilt top, \$7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

## LAND REGISTRY ACT

TAKE NOTICE that an application has been made to register James Henry Higgins as the owner in Fee Simple, under a Tax Sale Deed from George Birkett Taylor, Collector of Municipality of City of Greenwood, to James Henry Higgins, bearing date the Twentieth day of December, A.D. 1907, of all and singular that certain parcel or tract of land and premises situate, lying and being in the City of Greenwood, in the Province of British Columbia, more particularly known and described as Lot twenty-three (23), Block J, Map 46, City of Greenwood, B.C.  
You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first insertion of this notice, and in default of a caveat or certificate of the pendence being filed—and in default of redemption—within said period, you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register James Henry Higgins as owner thereof.  
Dated at Land Registry Office, Kamloops, Province of British Columbia, this Thirty-first day of January, A.D. 1908.  
W. H. EDMONDS, District Registrar.  
To EDWARD NASH, Esq., and WILLIAM H. ASQUITH.

## MEN

We Cure Every Case We Treat

OUR GUARANTEE: NO PAY UNLESS CURED

When You Need a Specialist, Consult One of Wide Experience.

We are just now completing our twentieth year as specialists in men's diseases. During these years of close application to a single line of treatment we have originated and perfected the only scientific and certain methods by which these diseases are cured. If we cannot cure your case for treatment, a cure is but a matter of a reasonable time.

We guarantee every man a lifelong cure for Venereal, Syphilitic, Urinary, Gonorrheal, Blood and Skin Diseases, Prostatic Trouble, Piles, Fistula, Loss of Vital Power, Kidney, Bladder and Special Diseases. We especially offer our services to those who are afflicted with weakness as a result of their own follies or excesses.

Our methods are up-to-date, and are endorsed by the highest medical authorities of Europe and America. Hence our success in the treatment of Men's Diseases. However, our specialty is limited to the diseases of MEN and MEN only.

We cover the entire field of nervous, chronic, deep-seated and complicated diseases.

CONSULTATION FREE. If you cannot call, write to Dr. Scott. Many cases can be cured at home. All correspondence confidential.

## Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.  
Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.  
The homesteader is required to perform the conditions connected therewith under one of the following plans:  
(1) At least six months' residence upon and cultivation of the land in each year for three years.  
(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.  
(3) If the settler has his permanent residence upon the land entered by him in the vicinity of the land entered for, the requirements as to residence may be satisfied by residence upon the said land.  
Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.  
Coal-mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 150 acres shall be leased to one individual or company. A royalty at the rate of five cent per ton shall be collected on the merchantable coal mined.  
W. W. COYLE, Deputy of the Minister of the Interior.  
N.B.—Unauthorized publication of this advertisement will not be paid for.

### TOWN TOPICS

Dr. Mathison, dentist, will be absent from Greenwood for some months.

John R. Jackson, of Midway, is building a dwelling in Victoria.

The annual meeting of the Board of Trade will be held on Saturday afternoon at four o'clock in the Court House.

Remember, when laying out your amusements for the month, the Leap Year Ball of the Greenwood Concert Orchestra—Feb. 28.

During the absence of Judge Forin, of Nelson, Judge Brown will look after a part of his division, including Rossland. The remainder will be in care of Judge Wilson, of Cranbrook.

Your chance to have harmony restored in the household is here now. E. O. Windsor, expert piano tuner will be in town next week. Leave orders at Coles' Bookstore.

Rev. F. J. Rutherford will preach on Sunday evening the second of his series of sermons on the calls and lives of the apostles. The Apostle John is the subject for this Sunday.

You have an extra day this month—one more than you had for four years in February—give up the night before to the Concert Orchestra Ball, Masonic Hall, an orchestra of 10 pieces.

H. Bunting has taken over the lumber yard opened recently in Anaconda by Loftus Bros., who have their mill on No. 7 Road. The lumber is being piled on the lots opposite Mr. Bunting's shop.

The deliveries were being made steadily at Greenwood all last week. It is estimated that the C. P. R. will use about 200,000 ties in the Boundary this year and will pay about 31 cents each.

R. D. Kerr, of Midway, A. B. Saunderson, Myncaster, Alan Eddy, Bridesville, and D. Coristine, Osoyoos, have been appointed sub collectors of Customs in place of acting sub collectors.

Sartor Resartus, which is according to Carlyle, properly a "Life and Opinions of Herr Teufelsdröckh," is the problem of the Women's Reading Club on Monday afternoon next. The sage of Chelsea in the early part of his book implores his readers to summon whatever metaphysical accumen and powers of meditation they are possessed of, to the study of his book. For mental exercise, Sartor Resartus is hard to beat and the Reading club is displaying ambition in taking it up.

A. J. McCool, of Fernie, organizer of the Owls, is in Greenwood with the intention of placing a nest of these creatures of Optimism and Laughter here. The Owls are caught with Hubbardeque language and their society they speak of thus: "It has become a great society of men, who love, laugh and enjoy life as it flies; who help the sick, bury the dead, brighten dark moments, light up gloomy places. Some are not saints. None are in Potter's Fields, country shrouds or poor houses, none are hungry. They do good, speak kindly, shake hands warmly and respect the honor of their women." They have organized recently in Phoenix and Grand Forks.

FOR SALE—Furniture for 4 rooms, Diningroom, Parlor, Bedroom and Kitchen. All new. Suitable terms to right party. Apply M., Times' Office.

## Moore's Cafe

Moved to the WINDSOR HOTEL. Our New Restaurant is newly appointed throughout. You have eaten your meals with us before. Try us in our new home. Anything you want, at any time you say. Everything of the best.

HOWARD MOORE, PROPRIETOR.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings

Born—At the Sisters' Hospital, to Mr. and Mrs. H. Stevenson, Midway, a son.

Born—At the Sisters' Hospital, to Mr. and Mrs. Francis Vanderbogat, a son.

The Granby Mines at Phoenix shipped last week 19,588 tons of ore, making their total shipments for this year 105,931 tons.

A fire in McIntosh & Heron's hardware and furniture store at Grand Forks on Tuesday destroyed the building but the stock was largely saved. The law office of MacDonald and Whiteside was on the second floor but they sustained only a small loss.

The return game in the Burns competition will be played tonight. McMynn and Dill go to Phoenix where they will play Morrin and McNichol. Frith and Birnie meet two Phoenix rinks here, O. B. Smith and Alex Strachan. The play last week resulted in three wins for Greenwood and one lost. The scores were Birnie v. Strachan 11-6; Frith v. O. B. Smith 9-8; Dill v. McNichol, 11-7; Morrin v. McMynn 22-10.

The first masquerade carnival of the season was attended by 40 people in costume and a good audience of lookers on. The prize winners were as follows: Best dressed gentleman, A. P. Augustine, as Santa Claus; best dressed lady, Mrs. Bert Lane, as flower girl; best dressed girl, Jean Crawford, as fairy; best dressed boy, Willie Medill, as Spanish bull-fighter; best comic character, W. A. Murray, as Cook; best hard times character, H. Herbst, as a tough. The judges of the carnival were, Alex. Greig and Mrs. Greig, E. R. Redpath and Mrs. Redpath and Miss Martin. Even after nine o'clock quite a few people in costume appeared on the ice and with the crowd of skaters made a jolly and good crowd.

### Purely Personal

John Barclay returned on Wednesday to Seattle.

Murdoch MacKenzie left on Monday last for Edinburgh, Scotland.

J. Devlin, Midway, has been hanging his hat up in the city all this week.

Patrick Hickey left yesterday afternoon for his prospects in northern Ontario.

J. Moe, D.P.A. of the C.P.R. at Nelson was a visitor in Greenwood Wednesday.

F. Keffer went over the hill to the Lone Star mine and back on Wednesday and Thursday on snowshoes.

T. A. Johnson and wife, of Weyburn, Sask., are visiting Mr. & Mrs. Greig at the Pacific. Mrs. Johnson is a niece of Mr. Greig.

Judge Hallett, who has been suffering for two weeks past from a very persistent cold left on Monday for Halcyon Springs to take advantage of the mineral baths there for a few days.

Duncan McIntosh returned from Spokane last night and says that everything is progressing favorably along the route of the tunnel. Mr. Armstrong is expected in on the afternoon's train from Grand Forks.

Andrew Sater left on Thursday afternoon for Vancouver on business in connection with the estate of the late Olaf Johnson, whose death occurred here a little over a year ago. Thomas Hough, foreman carpenter of the Mother Lode will go down with Mr. Sater, for a short visit.

J. L. McNiven, Fair Wages Officer of the Department of Labour, Ottawa, was a caller at The Times office on Wednesday. Mr. McNiven was formerly a member of the B.C. Legislature, and until a year ago was on the staff of the Victoria Times. Now he travels from Ontario west, to the coast, adjusting wages difficulties principally in the building trades.

C. A. E. Shaw returned on Saturday last from surveying the lands bought by the French Colony about Carmi. Twenty-five hundred acres have been laid out in two blocks and a similar amount will be measured off in the spring. It will be remembered that the intention of the people in charge of the colony is first to clear it of tie timber.

F. Spearing and Mrs. Spearing expect to leave for Vancouver in about a week where Mr. Spearing has accepted a good position. Mr. Spearing has been in Greenwood for several years and has built himself a splendid home here which is advertised for sale in this issue. He has made many friends who will miss both him and his wife.

### ABOUT TROUT.

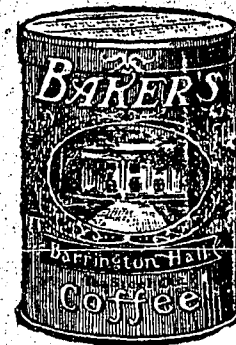

TO THE EDITOR: May I be allowed, through the medium of your valuable paper, to say a few words in advocating to the general public and to the fishermen of Greenwood in particular, to do their utmost to refrain from fishing in Boundary Creek and its tributaries till after the high water.

The fishing season opens on March 25, at which time Boundary creek is very low and comparatively little water coming down the creek. In consequence of this the fish are very greedy and bite at ground bait and worms freely. There are two principal causes for this: firstly, having lain in the deeper pools in a semi comatose state during the greater part of the winter they are naturally hungry; secondly, they are preparing themselves for the spawning season, which requires them to exert a good deal of energy. At this time of the year, by careful observation, it has been ascertained that it is usual for fish to move about considerably and as the water rises in the creeks and rivers and food becomes more plentiful they ascend to the higher reaches, where they ultimately spawn on the shallow rapids and in the smaller creeks.

I wish to lay great stress on the fact that by far the greater majority of the fish in Boundary creek do not spawn until the end of May and first week in June. By careful observation last year, I found that the fish were lying at the mouth of the smaller creeks running into Boundary creek for some considerable period before the 18th of May and that there were comparatively few fish to be seen in either Eholt or Wallace creek. On May 18th I observed fish to be running in Eholt creek early in the morning and they continued for some ten days. Every night and morning with an interval during the middle of the day the fish came up Boundary creek and lay on the shallow rapids of Eholt creek, where they ultimately spawned. There were two distinct runs; the morning run commencing about seven o'clock and lasting about three hours and a half; that in the evening about four continuing till dark. During the interval between the morning and evening runs fish were observed to be actually engaged in spawning. At no time during these periods were fish observed to be descending the creek—movement of the runs was always up stream.

On May 29th I caught a spent hen trout, being the first that season, but I noticed spawning operations going on for some considerable period after that date. When the fish are on the spawning beds and just previous to spawning I find that they will bite readily at any ground bait; such as white grubs and small pieces of meat, but will not rise to a fly.

One hen fish caught on the spawning beds means the destruction of hundreds, as a hen trout lays a tremendous number of eggs.

## Barrington Hall The Steel Cut Coffee

Sells at 50 cents per pound, but as a pound will make from 15 to 20 more cups of pure full strength coffee if ground the old way, it is economical.

It takes more than a pound of coffee berries to make a pound of Barrington Hall, as several ounces of chaff and dust are removed by a special process. The chaff contains the injurious element and its removal leaves only the best part of the coffee, which you can drink and enjoy without fear of ill effects.
