GREENWOOD CITY COUNCIL

A regular meeting of the City Council took place at the city hall last Monday evening, Mayor McIntosh and Aldermen Dixon, Sutherland, McKee, Craig and Sater present.

The minutes of the previous meeting were adopted as read. Two reports from the fire chief were read, one for supplies, one re stove pipes in P. Burns' building.

Graham & Parry re crediting \$10 paid for thawing, on water rate. Ordered tabled.

Quarterly statement of receipts and expenditures ordered filed. Moved by Alderman Sutherland, seconded by Alderman Dixon, that 250 feet of hose, 3 lanterns, 1 nozzle, 8 feet of hose for chemicals, and 1 pressure gauge be ordered for the use of the fire department, and the reports be received and filed. Carried.

Finance reported the following accounts correct: Fire department, \$132; Kinney & McDonald, \$5.65; Greenwood City Waterworks Co., \$133.25; J. L. Coles, \$3.50; Hunter-Kendrick Co., 85c.; Sing Lung, \$2.10; A. A. Frechette, 65c. Moved by Alderman Dixon, seconded by Alderman Sutherland, that the report be received and the accounts paid. Carried.

Fire water and light. Moved by Alderman Sater, seconded by Alderman Craig, that the C. P. R. be charged at the rate of \$600 per year, for 20,000 gallons of water per day. Rate to commence 1910. Carried.

Moved by Alderman Dixon, seconded by Alderman Craig, that residents of Anaconda be notified that their water rates, on and after June 1, 1910, will be placed on the same basis as the city of Greenwood. Carried.

Moved by Alderman Sutherland, seconded by Alderman McKee, that

water rate will be charged against the property, and that all rates must be paid on or before the 15th day of the month; if not, service will be cut off without exception, to take effect May 1st, 1910. Carried.

Street committee reported having given orders to clean up the streets. Health, cemetery and pound.

Alderman Sutherland reported having visited the cemetery ranch and instructed Mr. Jenks that all clearing be done across the creek, and the same be fenced, and recommended that the city solicitor be instructed to draw up the lease.

Moved by Alderman Sater, seconded by Alderman Dixon, that Alderman Sutherland's report be accepted and that the city solicitor be instructed to draw up the lease, between the city of Greenwood and Fred Jenks, to the approval of the Cemetery committee, and when approved by them to be signed and sealed by the mayor and clerk. Carried.

Moved by Alderman Craig, seconded by Alderman Dixon, that the assessment rolls, as prepared by the assessor, be received. Carried.

Moved by Alderman Sutherland, seconded by Alderman McKee, that a Court of Revision be held at the city hall on Thursday, May 26th, at 10 o'clock a. m., and that Mayor McIntosh and Aldermen Sater, Craig, McKee and Dixon be the members of the Court of Revision. Carried.

Moved by Alderman Sater, seconded by Alderman Sutherland, that the mayor appoint a committee to look into the matter of repairs to the B. C. hotel. The mayor appointed Aldermen Sater, Sutherland and McKee. Carried.

Moved by Alderman Dixon, seconded by Alderman Sutherland, that the sum of \$500 be donated toward the assistance of a Fall Fair, provided the same be held at Greenwood, and providing the citizens also subscribe to it in a reasonable manner.

Moved by Alderman Sater, seconded by Alderman Sutherland, that the mayor represent the council at a meeting of the Fall Fair committee, to be held at Midway on April 15th. Carried.

The Council then adjourned.

VICTORY FOR MOTHER LODGE

The second baseball match between Greenwood and the Mother Lode mine, which took place last Sunday at the Mother Lode mine, was a distinct improvement on the former game. Both teams showed the good effect of practice. A large number of Greenwood citizens convoyed the town team to the Mother Lode, and at a little after 2 o'clock the battle commenced to the accompaniment of vigorous tooting and encouraging remarks from the onlookers, both fair and masculine. In the first inning Geo. Thompson made the initial run for Greenwood, while Mother Lode succumbed to the magic twirls of the only McKelvie. The second inning Greenwood scored another run, to the credit of McKelvie, and with their townsmen two runs ahead, the Greenwood fans went wild. Mother Lode's opportunity came with their second inning and Tommy Lyons and Martin both made the home plate amidst the cheers of the brown and white, thus tying the city team. Then followed some more excellent ball and the game proceeded without a score for either side until the sixth inning, when Greenwood having failed to score, owing to Paddy's able twisters, Mother Lode led off with Lyons at the bat, and a procession of runs followed. Lyons, Martin, Addy, E. Mitchell, Smith and Patterson, all adding to Greenwood's discomfort. Thus ended a splendid game of good ball, a victory for Mother Lode of 8 to 2.

After the game B. Mitchell invited the teams to his hospitable home, and everyone did justice to the plates of repasts, a Dutch lunch.

The following is the lineup for Sunday's game:
Greenwood: Morgan, 2nd b.; McKelvie, p.; King, c. f.; Medill, l. f.; Russell, r. f.; Addie

Mother Lode: Thompson, c. s.; Merchant, s. s.; Anderson, 2nd b.; Morgan, 3rd b.; McKelvie, p.; King, c. f.; Medill, l. f.; Russell, r. f.; Addie

LAND NEAR HUDSON BAY

Homesteads are now open for entry in the Fort Churchill district and in the vicinity of Hudson's Bay. The Winnipeg land office has just been authorized to accept entries for lands that have been surveyed there, giving due regard to the claims of squatters and others whose right of entry has been recognized by the department. W. Beach, the first white settler to locate in that country, who has been living at Fort Churchill for some years, was the first to be granted an entry for a homestead there by the Dominion Government. All mineral rights are reserved by the Government for the present, no mineral locations being accepted.

FINE CONCERT AT ROCK CREEK

The concert given in Larsen's hall, Rock Creek, by the Dramatic society on Friday evening last, was a very successful affair. About one hundred were present and enjoyed the excellent program provided.

Among the most popular numbers was a delightful waltz rendered by Mrs. Hardy and Miss Kerr, while the former lady and Mr. Crawford fairly brought down the house with the "Crooked Bawbee."

A recitation by Paul Pentecost, chiefly notable for the wide range of voice displayed by that gentleman, was much enjoyed.

A recitation by T. B. Cave, in which he gave us the "Charge of the Light Brigade" in different dialects, was considered by the audience one of the best numbers on the program.

A dissertation on "School Discipline" by the Rev. Mr. Gillcrest, also had its full share of admirers.

Mrs. Hardy and Miss Kerr charmed us with that delightful duet, "Hunting Tower," while Mr. Crawford in his habitant recitation about the "Nile Expedition," showed the audience what imitation ought to be.

Finally, Mrs. Hardy's voice fairly rippled in "The Brook."

The second part of the program consisted of a play in three acts, entitled "When Your Wife's Away." Mr. Armstrong.....T. B. Cave Mrs. Armstrong.....Gladys Bell Dorothy Armstrong.....Jean Crawford Mrs. Percival Browne.....Mrs. Farmer Genevieve Browne.....Mrs. Shilcock Jack Dunlany.....H. W. Farmer Harry Scaram.....Mrs. Crawford Jane.....Mrs. Crawford Tootsey Wootsey.....Teddy Larsen

The admirable manner in which this play was rendered was a decided surprise to the audience. T. B. Cave as Mr. Armstrong, and Miss Gladys Bell as Mrs. Armstrong, showed dramatic ability of no mean order.

the part of Mrs. Percival Browne was highly appreciated by the audience. Miss Jean Crawford as Dorothy, and Mrs. Shilcock as Genevieve, sustained their parts well. H. W. Farmer and Mr. McArthur carried their parts in a very creditable manner. In fact, Mr. Farmer showed himself a comedian of no small ability. While Mrs. Crawford as Jane gave us as true a study of a Cockney girl as has probably ever been heard outside of London.

The show will shortly be seen in Midway.

THE MONORAIL

Transportation difficulties in Alaska are to be solved by the use of the monorail system. The Boyes system is to be used. Boyes' plan as demonstrated in his workings is not far different from the Brennan monorail. The cars run on one electrified rail, 11 inches wide and 22 inches high. Each car is built in five different sections and built in such a manner that the joints between the sections are movable and a much shorter curve can be made.

THE LE ROI

As it is understood that the diamond drill contract at the Le Roi is about completed, there is more or less speculation as to what the result has been, as the company has kept very quiet in the matter. Over 6,000 feet of work has been done in the lower levels of the property, and while it is known that considerable ore has been located, it is understood that it is of rather a low grade.

FINEST FIR

The Fraser River Lumber Co., have purchased 75,000 acres of timber from the Chemanius Lumber company in Comax valley, Vancouver Island. The consideration is \$4,000,000, and the tract is said to be the finest area of Douglas fir in existence at 5 billion feet.

A coquette takes the desire to please for the need of loving.

ACQUIRE TITLE TO NEW HOLDINGS

The B. C. Copper Co. have acquired title to the following mineral claims in Wellington Camp, three miles west of Phoenix: The Jack Pot, Windfall, Molly Pritchard, Athelstan Fractional and Ironclad Fractional. This gives the big copper company a large area of ore producing ground. Under the able management of Harry Johns these properties will shortly ship their ores to the Greenwood smelter. The enlargement of the three furnaces will shortly take place. A big tonnage can be expected from the Wellington camp group and the Rawhide mine at Phoenix, to augment the already large tonnage of the Mother Lode ore treated daily at the local smelter.

WEDNESDAY, MAY 4

Now that the Wednesday half holiday is an accomplished fact, commencing with the first Wednesday in May, a fitting celebration of that day, by way of having football and baseball matches at the Greenwood ball grounds and any other outdoor sports that can be arranged, is being spoken of as a probability. Excellent harmony prevails between the Smelter and Mother Lode teams, in spite of the beatings received by the smoke eaters at the hands of the mine whirlwinds, and a similar mutual regard exists between the town ball twirlers and the enthusiastic diamond exponents on the hill. So let there be a grand opening day, May 4, to further demonstrate the good work done by the local Athletic associations, on the first Wednesday half holiday of the year. It is up to the whole town to be there, to cheer and root, and encourage this excellent institution. It would be a good line for the

and drink in some fresh air after a night out, or buy an alarm clock at Logan's and get up when it goes off.

The ninth edition of the Copper Handbook is now obtainable from the publisher, Horace Stevens, and is a most excellent work. It should be in the hands of every one interested in copper mining.

TO HAIR DRESSERS

A Splendid Hair Tonic That Makes Beautiful Hair.

Every hair dresser should know about Parisian Sage, the quick-acting hair dressing, that does just what this paper tells you it will do. Parisian Sage is a most delightful and different hair dressing, a fact that will be recognized the moment it is applied to the scalp. There is not a particle of stickiness in it; it is not greasy; it has a delicate and refined odor, and is a truly invigorating tonic that will make the hair grow, if the hair root still shows the least sign of life. It will brighten up the hair in two days. Parisian Sage is guaranteed by J. L. White to cure dandruff, stop falling hair and scalp itch in two weeks, or money back. It is particularly in demand by women of refinement, who desire soft, luxuriant hair, that compels admiration. Price 50 cents a large bottle by J. L. White, or direct, all charges prepaid, from the Canadian makers, the Giroux Mfg. Co., Fort Erie, Ont.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.
If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

MINES AND MINING

A boom is predicted for Franklin camp.

The Yankee Girl, at Ymir, has resumed operations.

The Dundee mine, a promising Ymir property, is to be reopened.

D. D. Mann is expected to visit Stewart mining camp this coming month.

The Stewart Mining and Development Co. has struck a 7-foot lead. Their stock is selling at \$3.15 a share.

"Coolgardie" Smith, one of Rossland's former mining men, has been offered \$800,000 for an interest in the Red Cliff, in Portland Canal.

Sebastian Pickelmann, a mining engineer from New York, arrived in Greenwood last Saturday, and is investigating some of the many mining properties in the Boundary.

James Cronin, a well known mining man of Spokane, owning large interests in the Babine district of northern British Columbia, is in Vancouver. He will go north shortly.

Hector McRae, formerly a well known Rossland mining operator and who assisted ex-Governor Mackintosh in negotiating the purchase of the Le Roi mine, is now engaged in the oil business in California, making his headquarters at Los Angeles.

The Big Casino group of claims in the Portland Canal mining camp have been sold recently by the Mercantile Trust Co. to a local syndicate. The purchase price is not stated. These claims surround what is conceded by mining authorities in the Portland camp to be the richest showing claims in the locality—the Red Cliff mining property—and the purchasers have such unbounded faith in the quality of the ore that they do not intend to place any shares on the mar-

ket at present, but will endeavor to ascertain values at depth before doing so. The original Red Cliff shares were issued at 25c.; now they are in active demand at \$1.10. Owing to its close proximity to the rich holdings of the Red Cliff Mining Co., the local syndicate is exceedingly optimistic as to the value of the group of claims which they have just taken over and will proceed with the development work.

All old people suffer from attacks of sudden exhaustion, weak heart action and prostration. The best aid in such cases is **Ferrovim**, the invigorating tonic which is prepared from fresh lean beef, citrate of iron and pure old Spanish Sherry Wine. It stimulates the digestion and strengthens the whole body. 1.00 a bottle.

A PUZZLE

Can any member of Greenwood Rifle association solve the following: On a train which is traveling at the rate of sixty miles an hour is a gun which shoots a bullet at a velocity of sixty miles an hour. If the gun is discharged in the same direction as the train is going will the bullet leave the muzzle of the gun or not?

Diarrhoea should be cured without loss of time and by a medicine which, like Chamberlain's Colic, Cholera and Diarrhoea Remedy, not only cures promptly, but produces no unpleasant after effects. It never fails, and is pleasant and safe to take. Sold by all druggists and dealers.

DIAMONDS

A new syndicate, the third in the field, has been formed and taken over the new diamond mines in German Southwest Africa. The output of the mines is increasing rapidly. Jackryn and Walters is the chief New York firm interested in the syndicate and most of the members are in Antwerp.

Burns, bites, bruises and boils. Davis' Menthol Salve will soothe and heal them all. 25c. per tin at druggists.

He who has a thousand friends has not a friend to spare.

THE COPPER HANDBOOK

The ninth annual edition of the Copper Handbook, edited and published by Horace J. Stevens, Houghton, Mich., is just received. This work, which has become a standard authority on the subject, for the entire globe, has, in its latest edition, 1,628 octavo pages, containing considerably more than a million words, and, in addition to the miscellaneous chapters, lists and described no less than 7,751 copper mines and copper mining companies, in all parts of the world, descriptions ranging from two or three lines in the case of companies that have died recently, to sixteen pages in the case of one of the largest mines—a mine, by the way, that employs some seven thousand men, and has paid dividends of considerably more than a hundred million dollars. The mine descriptions are the same as in the preceding volume, except that upwards of eight hundred new titles have been added, covering descriptions not contained in any previous edition. The chapter of statistics, containing upwards of forty tables, treating of copper from almost every conceivable standpoint, has been fully revised, and brought as nearly as possible to date.

The miscellaneous chapters of the book, twenty-four in number, treat of the subject of copper from a great variety of view points, including the history, chemistry, mineralogy, metallurgy and uses of the metal, and this section of the book also has chapters devoted to substitutes, alloys, brands and grades, and a copious glossary.

The plan on which the book is sold remains the same as for seven years past, the publisher sending the book by mail, fully prepaid, to any address ordered, without advance payment of any sort, and subject to approval after a week's inspection. The price is \$5.00. That this unusually liberal plan has proved successful is shown by the statement of the publisher that net losses through returned copies and defaulted payments are less than four per cent. Anyone interested in the subject of copper, as producer, consumer or investor in shares, should write to Mr. Stevens for a copy of the Copper Handbook on the unusually liberal terms noted.

VALUABLE INFORMATION

The Provincial Police are circulating a letter from the Attorney General in regard to the Highway Traffic Regulation Act. The circular states that it is unlawful for anyone to draw or drive over a public highway in B. C. east of the Cascade mountains, any wagon or vehicle carrying a load in excess of the following:

On tires 3 inches wide, 2,000 pounds.

On tires 3 inches wide and under 4, 3,000 pounds; 4 inches wide and under 5, 6,000 pounds; 5 inches and over, 6,000 pounds and over.

It is unlawful to drag logs or timber over or along any public highway.

The above information will be of value to teamsters and other using wagons.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by all druggists and dealers.

Before the year ends, the construction of two immense dry docks in Canada will be commenced. They will be not less than 900 feet long, 100 feet wide and will have a depth of 35 feet on the sill. One of these docks will be located at Levis, Que. and the other at St. John, N. B.

There are some people so slow that they would not prove fit subjects for a moving picture photograph.

AT THE CHURCHES

METHODIST—Rev. I. B. Hibbert will conduct services in the Methodist Church every Sunday. Morning, 11 a. m.; Sunday School, 3 p. m. Evening, 7:30.

CATHOLIC—Church of the Sacred Heart.—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p. m. Rev. J. A. BIRDARD, O. M. I. pastor.

CHURCH OF ENGLAND (St. Jude's)—Every Sunday, Morning and evening. Matins, 11 a. m. Evensong, 7:30 p. m. Sunday school, 2:30 p. m. Holy Communion, 1st and 3rd Sundays at 8 a. m.; other Sundays at 11 a. m. Saints' Day services as announced in Church. Rev. F. Vernon Venables, Vicar.

HOW'S THIS, PADDY?

It may be that baseball teams will have no more pitchers. It may be that in place of the present idols like "Christy" Mathewson, of the Giants, and Mordcai Brown, of the Cubs, a gun may be placed in the pitcher's box from which a ball may be curved in, out, up or down to a greater degree than ever before. P. H. Lake, the inventor, is a warrant officer at Annapolis, Md. The ball is propelled by compressed air at a speed equal to that of the speediest of pitchers. By means of a strap of variable length, fixed at the breach end, the degree of the curve, which may be as much as the eight feet, is accurately determined. The gun is mounted on a swivel and can be pointed in any angle, vertical or horizontal. The operator in manipulating the gun goes through all the motions of throwing. As his hand shoots out he touches the trigger of the gun, thus releasing the ball. The striker has then time to position himself in position.

Every family, and especially those who reside in the country, should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all druggists and dealers.

GREEN LAKE MINE

A detailed examination of the properties of the Green Lake Mining and Milling company on the route of the Howe Sound, Pemberton Valley and Northern railway, 38 miles from Newport, will be made next month by W. Yolen Williams, formerly general superintendent of the Granby mines at Phoenix in the Boundary district. On account of the many points of similarity between the ore bodies at Green lake and at the Granby, especially in regard to magnitude, the directors of the former company determined to secure the services of the best expert available.

SLIGHT HOPE

The condition of Capt. R. G. Tatlow, injured in a runaway accident recently, remains unchanged. He has not recovered consciousness and remains in a state of coma. Slim hopes of his recovery are entertained.

MAY STEP IN

If Ecuador and Peru, who are now on the verge of war, do not settle their differences soon, Uncle Sam may step in as arbitrator to prevent war.

Avoid alcoholic and capsicum tonics which burn hair and scalp. Use Bearline, a bear's grease pomade, which feeds the roots and makes hair grow.

The plumber refused to pay the \$5000 damages which the jury awarded me. "How did you get it." "I garnished his week's wages."

MARCONI STOCK

"The Montreal Star is receiving letters from various parts of Ontario stating that Canadian Marconi stock is still being sold to people in the rural districts at \$5 a share. As is well known, Canadian Marconi can be bought in the open market at \$1.60 to \$1.70 a share, and there is reason to believe that the genius who is selling the stock to the hayseeds at \$5 is buying the stock himself at current prices. The purchasers are, of course ignorant of the fact that they are paying too much for stock, and it would appear to be the duty of every newspaper to publish daily the market price of Canadian Marconi. It is said that the artist who is selling the stock in Ontario is not connected in any way with George Munroe, who is one of the first to launch Canadian Marconi on the public at \$5 a share.

Your tongue is coated. Your breath is foul. Headaches come and go. These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective. Sold by all druggists and dealers.

SUN IN ERUPTION

Strange eruptions have appeared on the sun according to a statement by Prof. Frost, director of the Yerkes observatory at Williams Bay. The eruptions show from the surface of the sun like sky rockets. They are easily visible at the edge of the disc. One of them shot out to a length of 150,000 miles, as near as could be estimated. The mass is luminous, not dissimilar to a comet. Before it had disappeared it had reached a distance from the sun of about 250,000 miles. The eruptions are probably caused by the release of pressure on some particular spot on the sun.

Prof. Frost said the disturbances probably account for the brilliant displays which have been seen recently.

Zam-Buk in 3 Accidents.

It would seem that Zam-Buk, the famous healing balm we hear so highly spoken of everywhere, is particularly useful in the family circle. A report sent by Mrs. E. Davey, 786 Ellice Ave., Winnipeg, will illustrate this. She says: "My little boy, of three, while playing, fell from a high verandah to the ground, cutting his forehead badly. Instead of calling a doctor who would undoubtedly have put in a number of stitches, I bathed the wound well, and applied Zam-Buk. The little fellow, although suffering keenly, soon had relief from his pain. In the course of three weeks, by applying Zam-Buk daily, the wound in his forehead was nicely healed.

"Since then I have also used Zam-Buk for a boil which came on my cheek and which proved very painful and looked unsightly. Zam-Buk soon drew the boil to a head and it then quickly banished it.

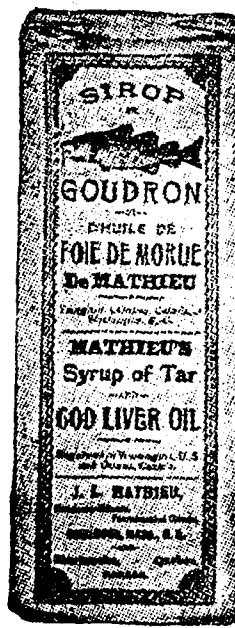

"Another time my baby was scalded on her left thigh and calf of leg with boiling water. This was a severe scald and the child suffered cruelly, screaming from pain. Directly it was done I thought to use Zam-Buk, as we had a box in the house, and spreading some on lint I wrapt up the baby's limb. Next morning she rested much easier and I applied a fresh bandage with Zam-Buk. I kept this treatment up daily and was rewarded by seeing a great improvement each time I dressed the wound. In a very short space of time the scalds were nicely healed.

"I cannot recommend this wonderful healing preparation too highly for family use, and I have such great faith in its healing powers that my house is never without a box."

For all skin injuries and diseases, piles, eczema, salt rheum and face sores Zam-Buk is absolutely unequalled. 50c. box all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Refuse all substitutes.

When you goes out in de world look fer happiness, you mustn't wear a countenance dat'll make happiness take ter de woods.
