Copper Street, Greenwood, B. C.

## GREENWOOD CITY COUNCIL

The City Council met in regular session Monday night, the mayor and all the aldermen being present.

The minutes of the previous meeting were read and adopted.

A letter was read from the license commissioner re reduction in the number of liquor licenses, and notifying the council that the number will total five only.

A letter was received from the C. P. R. re water rates.

Moved by Alderman Dixon, seconded by Alderman Craig, that the offer of the C. P. R. of $450 per year for 20,000 gallons of water daily be accepted, with the additional rates for the three houses occupied by their employees be paid for at the current city rates.

Alderman Craig gave notice that he would, at the next regular meeting of the council, ask leave to introduce a bylaw amending the Revenue Bylaw.

The finance committee reported the following accounts correct, and they were ordered to be paid:

K. McKenzie, $35.08; The Ledge, $10; E. W. Bishop, $134.55; Kinney & McDonald, $18.90; Laundry account, 95 cents; Greenwood Water Works Co., $123.25; Russell-Law Co., $8.85; J. H. McNeil, $26; Minto Craigie, $81.40.

It having been brought to the notice of the council that manure is being taken from the county farm, it was ordered that this be stopped at once.

Moved by Alderman Craig, seconded by Alderman McKee, that the sum of $25 be donated to the Memorial committee.

Moved by Alderman Craig, seconded by Alderman McKee, that the council adjourn to meet again on Friday, May 20th, at 1:30 p. m. Carried.

## TEN YEARS AGO

(From Boundary Creek Times of May 22, 1900)

A. J. Courson, of Denver, Col., was a visitor to the city.

War between Russia and Japan discredited, they may squabble but will not fight.

Governor McIntosh receives enthusiastic reception at Grand Forks and Greenwood.

A. L. McEwan, a London mining engineer, is in town sizing up the mining possibilities.

The Greenwood Dramatic Co., give preformances towards the relief of Sandon fire sufferers.

Rev. A. Robbins received a telegram announcing the relief of Mafeking, South Africa.

The mendacious Joe Martin is receiving a pretty tough scorching throughout the boundary.

A. Fisher, of Columbia Lum-Co., has organized the Okanogan Lumber Co., and will start a plant at Loomis, Wash.

## CHRISTINA LAKE

The Lindsay Launch & Boat company have just shipped a car load of the celebrated Peterborough boats and canoes to Mr. Johnson, of Fife, on Christina lake, this being the second car shipped to Christina.

Mr. Johnson has just built a new hotel, which is nicely laid out, including a dancing pavilion and boat house. The bar is separate from the hotel. A steam launch is operated in connection.

Fishing is good, and all the varieties found in the Kootenay lake are there. Black bass were stocked a few years ago and are now getting numerous.

## MEMORIAL MEETING

The Jews of Vancouver under the auspices of the Young Men's Hebrew association, will hold services in memory of the late King, at Vancouver, on Friday May 20.

## PARADE ON MEMORIAL DAY

The following is the order of parade for Memorial day:

Memorial service in the Greenwood Auditorium, Friday, May 20th, 1910, at 3 p. m.

Procession will leave the City Hall at 2:30 p. m. prompt, in the following order, and will march to the Auditorium:

Mounted advance guard.
B. P. Boy Scouts.
School children.
Government officials.
City Council.
Fire Department and other city employees.
Church ministers and speakers.
Masonic Lodge.
Oddfellows Lodge.
Knights of Pythias.
Other organizations.
General public.

Scoutmaster R. G. Hargreaves, Marshal of the Day.

General public to be in their seats not later than 2:45 p. m.

## MORE HORRORS

One hundred an thirty seven lives were lost in an explosion in the Wellington coal mine at Whitehead, near Manchester, England. Fire breaking out made rescue impossible, and practically no hope for those still entombed.

At Wilkesbarre, Penn., eight high school graduates, six girls and two boys, lost their lives while boating on the dam at Huntington mills.

At St. Louis, Mo., twelve people lost their lives in an attempt to reach shore, from the steamer Saltillo, which had struck a rock at Glen Park. A panic occurring from a badly carried out plan of rescue.

## WIRELESS TELEPHONE

Dr. Le De Forest the inventor of the wireless telephone, who lately had a most successful demonstration of its capabilites at Vancouver, is now at Victoria, practically testing his invention there. He states, that the possibilites of the wireless phone are limitless and it will not be long before every vessel of large tonnage, whether freight or passenger, that goes to sea, will be equipped with the wireless, and will thus be in constant communication, with sea ports, all over the world. Already sounds a distance of 600 miles have been demonstrated.

## SERVICES AT ST JUDE'S

Ven. Archdeacon Beer conducted services on Sunday at St. Jude's Episcopal church, morning an evening in a very acceptable manner. The attendance was very large. He returned coastwise on Monday's train, being unable to remain for the memorial services, which he was ingently requested to do, but other engagement made it impossible to do so. The resident prospective rector from Montreal district, is expected in a short time to carry on the work of this parish.

## DUAL DEATH PACT

At Winnipeg, two friend and fellow country men, left their respective homes in St. Boniface, at the same time and walked to death together, to carry out a prearranged dual death pact. The cause which prompted their distruction, was a three cornered love affair, the two men loved the same women. They decided to cut the gordion knot, by both destroying themselves by dropping into the Red river from the C. N. R. bridge and both drowned.

No man can serve two masters—some who have tried it are serving time for bigamy.

## INTEREST OF CANADA HURT

The old country view of immigration regulations holds that the Dominion is doing herself an injury, by which a good class of immigrants are barred by the stringent rules enforced by the Dominion, which stipulates that assisted immigrants must be willing to work on land. Sir Kinloss Cooke, M. P. is working assiduously to have this restriction removed, believing that it is depriving the Dominion of many artisans, who though assisted in their passage to Canada, will eventually prove most desirable inhabitants of that land. It is his desire to see labor exchanges, throughout the British empire. This will tend to do away with starvation and settle the unemployed question.

## STARVE IN THE NORTH

At Yakataga, Alaska, when the schooner Anita Philips put in there, being the first vessel to visit that point in eight months, the crew found thirty-five people on the verge of starvation. The inhabitants, principally miners, had lots of gold dust, but not any provisions. It was gold, gold everywhere, but not a bite to eat.

The vessel has supplied their wants, which will tide them along for another eight months.

## SIR WILFRID'S VISIT

The Premier will leave Ottawa about July 7, accompanied by Hon. Geo. P. Graham, E. W. McDonald and F. Pardee, M. P., for a sixty days' political tour of Western Canada. They will reach the Pacific coast about the first week in August, and will address meetings in Vancouver, Victoria and Prince Rupert.

## WANT CUSHING

At a meeting of the Liberal executive held at Calgary, Alb., the following resolution was unanimously adopted:

Resolved, By the executive, that in the opinion of the committee, Hon. W. H. Cushing should be called upon to form a government in this province.

## WANTS IT CHANGED

John Redmond, leader of the Irish Nationalists, writes to Premier Asquith in regard to the removal from the royal accession oath of the words contained in it so obnoxious to the Roman Catholics, and what must wound the feelings and outrage the faith of Catholics throughout the Empire.

## REMARKABLE CRICKET

In a cricket match at Sydney, Australia, between the Randwick and Leicthart teams, out of score of 99 a batter named Weatherlake made all but 6 of the score. A day or so previously another batter named Quinlan made a score of 100 to his own bat.

## GUNNING ACCIDENT

While out shooting gophers at Phoenix on Sunday afternoon, a man named Griffiths or Griffin was shot accidently by his companion, the charge entering his head. Dr. Dickson who is attending him, thinks his recovery is very doubtful.

## BRITISH OFFICERS COMING

Major Sir John D. French, inspector general of the British Army and Major General P. D. Henderson, left London on the 12th of May for Canada and will tour the Dominion.

The only reason why Lord Kitchener can say that the women of New York were the prettiest that he ever saw is that he did not come to Canada.

## EARL GREY'S SUCCESSOR

It is understood that the late King's brother, the Duke of Connaught, will succeed Earl Grey as governor-general of Canada. It has been the particular wish of King Edward that he should be appointed. The official announcement may be expected shortly. London papers express the opinion that no better appointment could be made, and speak in the highest terms of his qualifications.

We do not hear so many jokes this season about the big fish that got away. There is a reason. With food at the present price, the getting away of a fish is not a joke, but a calamity.

## PERPETUATING THE PAST

How few of us there are, who have not hidden away in some bureau or closet, some almost forgotten, almost faded picture-memories of dear ones who have passed to the Great Beyond.

Possibly, too, we have been fearfully watching, as the years go round, the steady but relentless fading that promises, ere long, to make these dear treasures but a memory indeed. Why not perpetuate these old picture-memories while there is yet an opportunity? A few years hence even the faintest outlines may have vanished forever.

Modern methods and modern papers will give you a lasting copy of such pictures, and skillful work will preserve to you the portraits that you have almost despaired of and give them to you in most cases even clearer and more reminiscently than the faded copies you now have.

Why not bring these old pictures to me? I at least will truthfully tell you whether it is too late to save them.

J. H. JAMES,

City Studio, Deadwood Street.

## REALIZING WHAT'S WHAT

The United States are waking up to the fact that Canada is fully competent to conserve her natural resources for the use of her own people. Time was when popular opinion in the United States tended to regard Jack Canuck as a hewer of wood and a drawer of water for Uncle Sam. But certain expressions of opinion of a contrary sort that are now continually cropping up in the American press show that this attitude towards Canada is fast giving way. Here is a sample from the editorial columns of the American Forestry Journal:

"Canada is measuring her timber resources and preparing to protect them by progressive and drastic measures against exploitation for the benefit of wasteful foreign countries, including her next door neighbor. We cannot look to the north for our salvation. We must husband all our remaining resources and plant trees wherever they can be grown more profitably than other crops, in order that our own future may be assured. This is the only way. Canada has not the resources for her own needs and ours too, and she is sufficiently wide awake and intelligent to guard her own. The only way that our timber resources and Canada's can be made inexhaustible is by the application of the highest scientific knowledge and the broadest common sense."

## CHURCH ATTENDANCE

The non attendance of members and adherents to the services on Sundays have become so regretably observable in all congregations alike, that it is about time strong efforts were being ing made to counteract the difficulty. Of all the different churches holding Sunday services recently there was not enough, combined, to make one fair-sized congregation. It is certainly up to the clergy and lay officers to trace out the cause and adopt some means for a cure at once. It is most discourteous, and also very discouraging to the clergy, and members should consider this rather than their own selfish inclinations. It is not a fair deal either to God or themselves, this sort of church service observance.

## PRACTICE CONSERVATION

Canada, being a nation of farmers, has to pay a very large seed bill each year. Last year our crops called for 33,000,000 bushels of seed grain—wheat, oats and barley, and we are constantly increasing our agricultural acreage. This being so, the economy of sowing good, clean seed is at once apparent. The advantages to be derived from it are like the proceeds of a sum of money laid out at compound interest—they are cumulative in their effect and grow in ever increasing ratio. Some years ago a competition was carried on in some 450 places in Canada to see just what the actual results of using clean, pure seed would be. If we reason from the results obtained from it, we find that our grain yield last year would have been increased by 190,000,000 bushels had clean, vigorous seed been sowed on every acre under cultivation. Now, 190,000,000 bushels of grain would fill 1,500 miles of railway grain cars. It is such a large amount that it is hard for the mind to comprehend, but, at any rate, it goes to show that it would pay our farmers to be particular about the kind of seed they sow.

While pride lasts defeat is impossible.

## EDITORIAL COMMENT

"If China is to be Christianized, it must be by Chinese," said a missionary recently. The Chinese will never be Christianized as long as they are Chinese. They have drunk drowsy syrups for which there are no names in any Western language. The Christian philosophy will never ryhme with the Chinese character. The Christian missionaries must reshape the Chinese; they must cause to happen some vast miracle of soul-transmigration or reincarnation.

The fact that Sir John Macdonald would have left his wife little except his memory, if his friends had not come to the rescue, that Sir Hector Langevin had to be helped by his political admirers, that it was necessary for friends to come to the assistance of the widow of Sir John Thompson, and that now Mr. Fielding has been given something that will keep the wolf from the door, leads a contemporary to say that cabinet salaries are too low, and that ministers ought to be paid according to what they are worth. If this principle prevailed some of them might come out in debt to the country at the end of their term. As a matter of fact, the ministerial salaries are not high enough, in view of the increased cost of living and what is expected from members of a cabinet. Canada can afford to pay her servants what they ought to receive for their services.

## OUTLINES OF CURRENT EVENTS

Princeton is to have a system of waterworks.

The Union Bank will open a branch an Kitsilas.

Cranbrook has formed a civilian rifle association.

Francois Lake now has a monthly mail service.

An electric sign costs but eight cents a month in Rossland.

There are 275 lumber and shingle mills in British Columbia.

The city council at Trail are planting trees in the smelter town.

The Wiley ranch, near Enderby, has found a purchaser at $45,000.

More than twenty men are now employed in the cigar factory at Kelowna.

The townsine of Tete Jaune Cache will shortly be placed on the market.

In June Fort George will have telephone connection with Blackwater Crossing.

Nelson veterans are arranging to decorate the graves in that city of British veterans.

Four hundred muskrats, trapped in a single week, sold for $200 in Kaslo recently.

The enlargement of the C. P. R. yards at Kamloops will give room for 700 more cars.

William Ellis is building a sawmill at Hazleton that will cut 1,500 feet of lumber daily.

One agent has sold 3,120 acres of C. P. R. land near Penticton during the past three weeks.

Messrs. C. D. Masset, John C. Eaton and E. R. Wood, of Toronto, gave jointly $200,000 towards a $600,000 Y. M. C. A building to be erected in that city. This is a very fine showing for the three gentleman named.

Rumor has it that Stirling & Pitcairn will shorly open a fruit packing plant at Summerland.

Scotty McCall, aged 26, was drowned near Trout Lake recently, while fishing from a raft.

Penticton has fixed its tax rate at 1 1-2 mills for general purposes and 3 1-2 mills for schools.

An up-to-date steel and cement block will be erected on the site of Empire hall, at Summerland.

Rev. George Smith, a pioneer resident of Alberni, for some time past on the superannuated list, is dead.

Fernie has made it an offence, punishable by fine or imprisonment, to dump tin cans, etc., on vacant lots.

Kaslo will celebrate Victoria day with horse and foot racing, trap shooting and other out-of-door amusements.

The death occured recently at Ladysmith, of Joseph Lewis, one of the best known residents of that city and Wellington.

At the meeting of the Canadian Pacific Railway directors, A. R. Creelman, general counsel of the company, was elected to the board, replacing the late Sir George Drummond. The resignation of Sir William Van Horne as chairman of the board was also accepted and Sir Thomas Shaughnessy was appointed to the position.

## COURT MOURNING

Orders for the court to go into mourning for his late Most Gracious Majesty, King Edward VII of blessed memory, viz.:

The ladies to wear black dresses trimmed with crepe and black shoes and gloves and black fans, feathers and ornaments.

The gentlemen to wear crepe bands on the left arm in uniform or court dress.

The mourning to commence from the date of the order. The court to change the mourning on Monday, the 7th of November next, viz.:

The ladies to wear black dresses with colored ribbons, flowers, feathers and ornaments. The gentlemen to continue the same mourning, and on Sunday, the 7th of May, 1911, the court to go out of mourning.

Every man hates a giggling woman.

## TRY THE MONEY BACK CURE FOR INDIGESTION

Nine times in ten stomach derangements are responsible for sallow complexion, dull eyes and thin body.

It is the stomach that supplies nourishing blood to the muscles, the nerves, and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment, and undigested, will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, or any other miserable stomach disturbance, you need Mi-o-na, and the sooner you get it the quicker you will be healthier and happier.

It will relieve any distressed stomach conditions almost immeniately. It will cure if used according to directions. J. L. White sells it for 50 cents a large box, and he thinks enough of it to guarantee it to cure indigestion.

**H.YOMEI**
(PRONOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by
J. L. WHITE, Druggist.

## NOT THE FISH HE CAUGHT

"Say," said Baitman, as he passed the fishdealer's stand, send up a couple of nice bass to the house tomorrow."

"All right, sir," answered the dealer.

"And be sure they are bass," continued Baitmain. "You see I'm going—er—out—of town for the, and—er— the last time I went I told my wife I was going trout fishing, and you sent up a salt mackeral. Another error like that on your part, and there will be strained relations in my family. See?—Chicago News.

Never hesitate about giving Chamberlain's Cough Remedy to children. It contains no opium or other narcotics and can be given with implicit confidence. As a quick cure for coughs and colds to which children are susceptible, it is unsurpassed. Sold by all druggists and dealers.

Wife—John, there's a burglar going through your pockets. John—All right. You will fight it out between yourselves.

**Effective, economical, pleasant.** What more can you ask. Davis' Menthol salve fulfills these specifications and is the best remedy for bites and stings skin diseases, piles, etc 25c. per tin.

"Why did you marry me if you did not love me?" "Because you were the only man I cared to be divorced from."

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. Sold by all Druggists and Dealers.

"Why was Strynglar voted to be the most peculiar man in your community?" "It was because he has a habit of censuring other people to their faces and praising them behind their backs."

It is well to have on hand a remedy, simple, effective and easily applied, for mosquito bites, insect stings, sores, bruises, sunburn, and injuries to the skin, and forty other ailments not always dangerous, but which can be cured by outward application. Such a remedy is Davis' Menthol Salve(TheD.&L.),which comes in tins for 25 cts. at druggists.

# Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

*It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.*

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

***It Makes Weak Women Strong, Sick Women Well.***

You can't afford to accept a *secret* nostrum as a substitute for this non-alcoholic medicine OF KNOWN COMPOSITION.

## Synopsis of Canadian North-West

### HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

## MINES AND MINING

Large deposits of bog iron have been located at Pemberton Meadows.

In the Nicola, the Diamond Vale coal mines will shortly resume operations.

Drifting operations are to be resumed on the cinnabar deposits near Sechart.

Coal has been found at Ground Hog mountain, 200 miles north of Hazelton.

Two companies have already expended $70,000 mining for cinnabar near Kamloops.

The contact group of eight claims at Tassa Harbor, Moresby island, has been bonded for $100,000 by Hugh Cannon, of Grand Forks, representing large Butte interests.

Two important mining deals in the Kootenay have just been put through. The first affects the Molly Gibson on Kokanee creek, one of the oldest mines of the East Kootenay, a property that in its time has shipped a great deal of ore, the chief value being a silver, though there also has been a good recovery of lead.

A big strike has been made in the mines of the Stewart Mining and Development company at Stewart. The third ledge for which the company has been crosscutting for some months, has been encountered at a depth of 225 feet, 300 feet in, and assays of ore taken from it have given higher values than any yet met with—$263 per ton in gold and silver. There was 8 ounces of gold to the ton.

After two months of work, the Phoenix syndicate that has a bond on the LeRoi-McKinney mine, located west of Rock creek and not far from Camp McKinney, has proved the existence of an exceedingly large ore body. Dan Patterson, chairman of the syndicate, came down from the property recently, and feels confident that they have what will, with time, prove to be one of the most important mining propositions in the Boundary. For the last two months the small force of men has been crosscutting the ledge on the surface, and find that it measures 90 feet in the clear from foot wall to hanging wall, lying between granite and diorite. Close to the hanging wall there are four feet of ore carrying free gold, which can be plainly seen. Next to this are eight feet carrying native silver, while the copper values are everywhere apparent. Samples are now being tested, but there is little doubt that high values will be found when the returns are received. A new shaft is being sunk on the LeRoi close to the hanging wall, which it is the intention to put down at least 100 feet, when crosscutting will be done and the extent of the ore body proved at depth. This shaft is now down some 30 feet, and it is planned to install some machinery before long to facilitate operations. There seems to be every evidence that the boys have a good thing in the LeRoi, and it goes without saying that the members of the syndicate are more than pleased with the result of the development thus far. About the middle of last May the bond was taken on the LeRoi from James Copeland, the owner, for $30,000, by ten Phoenix men interested, including Dan Patterson, Palmer Cook, John McKay, Walter Cook, Walter Ross, John Wilson, A. A. White and G. Kay. A peculiar feature of the bond is that $100 bonus per month must be paid during its life, in addition to the $30,000.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all Druggists and Dealers.

Dame fortune may knock at every man's door but really she seems to prefer those where there is an electric bell to ring.

## FAMOUS PEOPLE

BY FANNIE M. LOTHROP

Photo by Topley, Ottawa.

### COUNTESS OF ABERDEEN

**A Worker for the Good of Humanity.**

A warm-hearted, earnest woman, serene, simple, sincere and sympathetic, with a special talent for human helpfulness and inspiration to higher living—this is Lady Aberdeen.

In "Guisachan," the romantic Scotch estate in Invernesshire, Ishbel, youngest daughter of Sir Dudley Coutts Marjoribanks, later Lord Tweedmouth, was born in 1857. A right royal welcome was given to visitors in this hospitable home in the Highlands, and from the lips of the prominent statesmen that gathered there little Ishbel learned politics at an age when she should still have believed in fairy tales. When she was eleven, a young man of twenty-one who had ridden across the country, lost his way and unknowingly trespassed on the Marjoribanks estate. A chance interview with Sir Dudley proved him to be John Campbell Gordon, son of Sir Dudley's good old Parliamentary friend, Earl of Aberdeen, and he was invited to spend the night. The love at first sight between the two young people led to their marriage in 1877.

In 1886, Gladstone offered to his friend, young Lord Aberdeen, the post of Viceroy of Ireland. It was a delicate, difficult position, strewn with pitfalls which taxed the watchfulness, tact and diplomacy of the Viceroy to avoid. There was great distress in the country; the crops and fisheries had failed, the people grimly tolerated the occupants of Dublin Castle because protest was useless; but soon the sunshine and glow of affection from Lord and Lady Aberdeen melted the stolid, sullen reserve, and love reigned where force had proven worse than useless. Perhaps the Countess, herself a descendant of the old Irish and Scotch kings, struck some sympathetic chord that vibrated in kinship and unity. Her practical nature realized that the people should be helped to help themselves through their own labor, not pauperized by gifts. She devoted herself with great energy to reviving the domestic industries of Ireland—weaving, knitting, embroidery and lace-making—and made the wearing of Irish poplin an essential to admission to official functions at the Castle.

In Canada, where Lord Aberdeen was Governor-General from 1893-8 they endeared themselves to the people by their many acts of kindness. The Countess' first effort in syndicating sunshine and sweetness was her organization of the "Onward and Upward Society" among the tenants, domestics and the poor on the Scottish estates, which has spread over the world. The Women's Liberal Federation which she organized and led as President has over 80,000 members; but her club work and labors for humanity never for a moment eclipse her home, with her three children remaining in her loving care.

Entered according to Act of the Parliament of Canada, in the year 1905, by W. C. Macdonald, at the Department of Agriculture

## PULPWOOD EXPORTS

To meet the new conditions imposed May 1 by the province of Quebec on exports of pulpwood the United States treasury department has made a decision removing the countervailing duty of 35 cents a ton on print paper made from pulpwood cut from the crown lands in that province. Quebec was the one Canadian province which imposed an export tax of 25 cents a cord on pulpwood cut from crown lands. The recent action of the province in prohibiting the exportation of pulpwood naturally annulled the tax on such exports.

The treasury department's decision simply means that the new situation removes the countervailing duty of 35 cents a ton on print paper and leaves pulpwood, wood pulp and print paper in the same situation in Quebec as has been prevailing in the province of Ontario, which also prohibits the export of pulpwood. This decision means in effect that from both provinces print paper from pulpwood cut from crown lands pays a tax.

**Children must have good blood,** otherwise they will be puny, sickly and delicate. If your children are pale easily exhausted, given them **Ferrovim,** the invigorating tonic, which is composed of fresh lean beef, Citrate of Iron and pure old Spanish Sherry Wine. Nothing could be more beneficial in such cases. $1 a bottle.

## POLITENESS PAYS

The devotion of a nurse and the politeness of a bank clerk were well rewarded when the will of an elderly lady, Mrs. Annie Lincoln, of Boston, Mass., who leaves to her nurse, $50,000 and to the bank clerk for his uniform courtesy and politeness $10,000.

If there are any more of her sort, please send them west, we will make room for them gladly.

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief. Sold by all Druggists and Dealers.

## RAILWAY SITUATION

C. E. E. Ussher, of the Canadian Pacific traffic department, delivers himself as follows:

"My opinion of the railroad situation in Canada is that there is room enough for all possible railroads and that we cannot have too many. Railway corporations know how to take care of themselves and the question of competition is merely incidental.

"I have boundless faith in this country and particularly in the west. I think that any man who comes west and looks over the situation without an appreciation of its possibilities should go back to the place from which he came and stay there. His place is not here."

**Depend upon it,** whoever tries to sell you a substitute is doing so for the PROFIT and not for YOUR GOOD. "D. & L." Menthol Plaster for stiffness, etc., have many imitators. Beware of the substitute. Get the genuine, made by Davis & Lawrence Co.

## PROTECTION

"What makes you wear your automobile goggles to the theatre?" asked the carefully dressed young man.

"Those aren't automobile goggles; they're hatpin proof armor."

Some people do not always call a spade a spade—for instance, watch a society woman playing bridge.

It can truly be said of Edward Payson Weston that he is a man who is "known by his walk."

## AT THE CHURCHES

METHODIST—Rev. I. B. Hibbert will conduct services in the Methodist Church every Sunday. Morning, 11 a. m.; Sunday School, 3 p. m. Evening, 7:30.

PRESBYTERIAN—St. Columba. Services will be conducted morning and evening, 11 a. m. and 7.30 p. m. Sunday School 2.30 p. m. Rev. J. A. Petrie, minister.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, thirdand fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. Rev. J. A. BERARD, O. M. I. pastor.

## HE HAD TO QUIT

R. L. Page, Jr, who edits a weekly paper at Quitman, Miss., published an editorial on a dance of prominent folks in which he called the dancing "public hugging" and intimated that no virtous woman would participate in such a practice. Citizens forced him to eat a clipping of the editorial. Page later left town.

## FATAL ACCIDENT

The explosion of a large quantity of nitro glycerine stored in a magazine at Burgettstown, fourteen miles from Pittsburg, Penn., causing the death of an oilwell shooter, Frank McCullough. Not a fragment of his body has been found. Two horses driven by McCullough were also blown to bits.

When a man gets into trouble it is always said that there is a woman in the case, but Jonah was one man who got into difficulties without dragging a woman in after him.

The splendid work of Chamberlain's Stomach and Liver Tablets is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, billiousness, jaundice and indigestion. Sold by all Druggists and Dealers.

Most any man would stop talking domestic economy when his wife threatened to do the cooking.

A delicate pomade is the best form of hair dressing. **Bearine** is that and more; it makes the hair grow. 50c. a jar.

Mark Twain said that fortune knocked at every man's door once in a lifetime, but in a great many cases the man was in a neighboring saloon and did not hear it. Wonder where he would be in a local option town.

## HAVE YOU BEEN STUNG?

Some people have recently been badly "stung" by getting substitutes for Zam-Buk. When they have asked for a box of Zam-Buk, the dealer has produced some line on which he makes more profit, and talked about "just as good and cheaper," or "One of my own, and I know what's in it," or "Really, the same thing at half the price," etc., etc. When tested, this cheap substitute has, of course, failed to do anything like what Zam-Buk does, but the buyer has, nevertheless, parted with his money! You will have to get Zam Buk eventually! Don't waste money on useless substitutes. The name "Zam-Buk" is protected by law. See it on every packet before paying. If your local dealer should be out of stock, write "Zam-Buk, Toronto." We will mail it by return.

NOTICE is hereby given that, thirty days after date, I intend to apply to the Hon. Chief Commissioner of Lands for a license to prospect for coal and petroleum on the following described lands, situate in the Similkameen district: Commencing at a post at the southwest corner of Lot 2,337, pre-emption, thence west eighty chains, thence north eighty chains, thence east eighty chains, thence south eighty chains to place of commencement and containing 640 acres.

Dated this 25th day of April, 1910.

J. H. EAST, Agent.

## TOWN TOPICS

The Gun club had no shoot on Sunday last.

Mrs. Robt. Wood will not receive again till the autumn.

The Postoffice will be open from 2 to 3 p. m. today, for general delivery.

A. W. Davis, of Phoenix, has been taken in the town for the past few days.

H. R. Tuttle, commercial traveller representing Toronto houses is here after scalps.

Mrs. Harry Towns, of the National hotel is visiting Spokane, and is expected back this week.

Gerald Gault, mining engineer from Denver, Col., has taken a position with the B. C. Copper Co.

Government offices, both Dominion and Provincial will be closed tight and fast, all day Friday, May 20.

Rev. Father Ferroux, of Midway was a visitor to town this week, and returned to his parish on Wednesday afternoon.

Herbert Sadler, a diploma equipped piano tuner, will make his regular piano tuning trip to Greenwood during the coming week.

St. Jude's Guild will not meet on Tuesday next, but will do so on Tuesday following, at the residence of Mrs. Bunbury, Kimberly avenue.

Don't forget your Miner's Licence this month. They all run out on the last of May, and it costs a heap of money sometimes to rectify the little mistake of forgetting it.

Dan McDonald, our local brawney and genial son of Vulcan, is off on a well earned holiday, taking in the coast cities and probably as far as Prince Rupert. Good time to you old boy.

Mr. C. A. Mix, fire warden of Grand Forks, was at Greenwood this week, to consult with fire warden Oliver, to determine the dividing line between their respective districts, Greenwood and Grand Forks.

Work at the Midway coal mine is progressing favorably. Men are busy putting up coal bins, stables, etc., and getting all matter in shape for pushing work towards an output and shipping probably this fall.

A tree 12 inches through eaten off by a beaver, making a block about a foot and a half long, is on exhibit at Coles stationery store. Mr. Beaver, is a resident of Eholt creek and has not struck for his overtime work.

Our provincial constable Mr. Pentecost had the pleasure of acting as chaperon to the Nelson jail, of three undesirables who landed in Greenwood last week, with no apparent means of support or any inclination to work for a living.

W. Nelson, the irrepressible Remington Typewriter man is in town, and if he can by any means get a "writer" off on you, he will do it. He is about as insistent as a Life Insurance agent. He has the goods and does the business, none better.

C. E. Shaw, P. L. S., leaves the end of the week for Shingle Creek, where he has some surveying to do and will then proceed to the Cariboo country for a couple of months. On his return he will spend a few days in Keremeos, completing some work here.

A splendid specimen of work in the art preservative, a lynx skin dressed and mounted by Scott McRae, of Deadwood, is certainly a fine piece of his handy work. It is owned and open for exhibition at the National hotel, this city, and well worth an inspection.

The business houses, banks and the various residences in our city, have very impressive decorations, a memorian of the day of burial of our late king, and the appearance is decidedly creditable, and evinces a lot of very tasty work, and feelingly commented upon by the observers.

President Moyer, of the W. F. M. . . in the city and a meeting of the members took place on the 18th.

G. R. [illegible] & Co., now of Prince Rupert, formerly of Greenwood, in remitting for his Times for a year in advance, thinks Rupert is the place for trade and speaks very warmly of old associates at Greenwood, and still retains a warm feeling for the old burg.

WANTED—Girl for general housework. Good wages to right party. Enquire Mrs. R. J. Sanders, Kimberley av.

For Sewing Machine Needles and Oil see A. L. White, The Stove and Furniture man. Phone 16.

WANTED—One cook and one packer for survey party. Employment for five months on West Fork of Kettle river. Wages to be arranged. Apply to L. Reinecke, Imperial hotel, Greenwood, during third week in May.

TENTS! TENTS!

New shipment just received. See the line. The O. I. C. store, A. L. White, proprietor.

FOR RENT—A 2-room house, neat and nicely furnished, suitable for batching, located side of J. H. McNeil's residence. Other furnished houses for rent. See the Furniture and Stove man, A. L. White.

## Application for Liquor License

Take notice that I, S. T. Larsen, of Rock Creek, B. C., intend to apply to the Superintendent of Police, at the expiration of one month from the date hereof, for the renewal of a retail liquor license for the Riverside Hotel, Rock Creek, B. C.

Dated this 7th day of May, 1910.

SAMUEL T. LARSEN.
43 Rock Creek, B. C.

### WATER NOTICE

NOTICE is hereby given that an application will be made under Part V, of the "Water Act, 1909," to obtain a license in the Similkameen Water Division of Yale District.

a.—The name, address, and occupation of the Applicant: The Consolidated Mining & Smelting Company of Canada, Limited, a Mining Company incorporated under the laws of the Dominion of Canada, and whose Home Office is in the City of Toronto, in the Province of Ontario, and whose registered office in the Province of British Columbia is in the City of Trail.

Free Miner's Certificate No. B24042.

b.—The name of the lake stream or source is a creek known as McCarren creek, which arises in Central Camp and runs westerly and empties into Boundary creek—about 1500 feet below Boundary Falls, in the District of Yale.

c—The point of diversion is on Lot 2083, immediately above the Falls on said creek and near where the Road from Boundary Falls to Bravard's ranch crosses said creek.

d.—The quantity of water applied for, in cubic feet per second, is Four.

e.—The premises on which the water is to be used is a Mill Site forming a part of Lot 429, and lying between the Columbia and Western Railway right of way and Boundary creek, on the southwest part of Lot 429.

f.—The purposes for which the water is to be used are Mining and Milling purposes, and purposes incidental thereto.

g.—The character of the proposed works: A dam with a pipe line leading therefrom to the Applicant's concentrator building on said Mill Site.

h.—If the water is to be used for power or mining purposes, describe the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. The water is to be returned into Boundary creek about 1200 feet below Boundary Falls, and the difference in altitude between the print of diversion and point of return is about 250 feet.

i.—Area of Crown Land to be occupied by the proposed works. Not any.

j.—Give the names and addresses of any riparian proprietors or licensees who, or whose lands, are likely to be affected by the proposed works, either above or below the outlet. Mark Christenson, Lot 2083, Boundary Falls, B. C., Sidney T. Smith, Grand Forks, B. C., Isaac N. Hallett, Lot 2724, Greenwood, B. C., Robert Wood, Lot 821, Greenwood, B. C.

k.—The capital of the Consolidated Mining & Smelting Company of Canada, Limited, is $7,500,000, divided into 75,000 shares of $100 each, and 53,552 shares of said Company are paid up and issued.

l.—The following are copies of such parts of the Memorandum of Association of the Applicant as authorizes the proposed application and works:

"To acquire by purchase, lease, hire, exchange, or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights of way, water rights and privileges, mills, factories, furnaces for smelting and treating ores and refining metals, buildings, machinery, plant, or other real or personal property as may be necessary for or conducive to the proper carrying out of any of the objects of the Company."

"To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any trails, roads, ways, tramways, for the conveyance of ores and other goods of the Company, bridges, and reservoirs, dams, flumes, race and other ways, water courses, aqueducts, wells, wharves, piers, furnaces, saw mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works and appliances, warehouses, buildings, machinery, plant stores and other works and conveniences required by or conducive to any of the operations of the Company, and to buy, sell, manufacture and deal in all kinds of goods, stores, implements, provisions, chattels and effects required by the Company or its workmen or servants."

m.—This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1910.

THE CONSOLIDATED MINING & SMELTING COMPANY OF CANADA, LTD.
A. W. Davis, Supt. No. 7 Mine

I. H. Hallett, solicitor for applicant.

### WATER NOTICE

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Similkameen Water Division of Yale District.

(a.) The name, address and occupation of the Applicant: The Consolidated Mining & Smelting Company of Canada, Limited, a Mining Company incorporated under the laws of the Dominion of Canada, and whose Head Office is in the City of Toronto in the Province of Ontario, and whose registered office in the Province of British Columbia is at the City of Trail.

Free Miner's Certificate No. B24042.

(b.) The name of the lake, stream or source is a creek known as McCarren creek, which arises in Central Camp and runs westerly and empties into Boundary creek about 1500 feet below Boundary Falls in the District of Yale.

(c.) The point of diversion: On Lot 3284, at a point about 500 feet above Craigie's saw mill on said creek.

(d.) The quantity of water applied for, in cubic feet per second, is One.

(e.) The premises on which the water is to be used is [illegible] tion of said Lot 3284 purchased from the owner of the Lot for use as a site for a Compressor plant.

(f.) The purpose for which the water is to be used is mining.

(g.) The character of the proposed works is a small dam with a pipe line leading therefrom to the Compressor station.

(h.) If the water is to be used for power or mining purposes describe the place where the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. The water is to be returned into McCarren creek at a point approximately 100 feet above Craigie's saw mill, and above intake of flume to said mill, and the difference in altitude between the point of diversion and point of return is about 25 feet.

(i.) Area of Crown land to be occupied by the proposed works: Not any.

(j.) Give the names and addresses of any riparian proprietors or licenses who, or whose lands, are likely to be affected by the proposed works, either above or below the outlet. D. J. McDonald, the pre-emptor of Lot 3284.

(k.) The capital of the applicant Company is $7,500,000, divided into 75,000 shares of $100 each, and 53,552 shares of said capital stock is paid up and issued.

(l.) The following are copies of such parts of the Memorandum of Association of the Applicant as authorizes the proposed application and works:

"To acquire by purchase, lease, hire, exchange, or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights of way, water rights and privileges, mills, factories, furnaces for smelting and treating ores and refining metals, buildings, machinery, plant, or other real or personal property as may be necessary for or conducive to the proper carrying out of any of the objects of the Company."

"To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any trails, roads, ways, tramways, for the conveyance of ores and other goods of the Company, bridges, and reservoirs, dams, flumes, race and other ways, water courses, aqueducts, wells, wharves, piers, furnaces, saw mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works, and appliances, warehouses, buildings, machinery, plant, stores and other works and conveniences required by, or conducive to, any of the operations of the Company, and to buy, sell, manufacture, and deal in all kinds of goods, stores, implements, provisions, chattels, and effects required by the Company, or its workmen or servants."

(m.) This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1910.

THE CONSOLIDATED MINING & SMELTING COMPANY OF CANADA, LTD.

### WATER NOTICE

NOTICE Is hereby given that an application will be made under part V, of the "Water Act, 1909," to obtain a license in the Similkameen Division of Yale District.

(a.) The name, address and occupation of the applicant. The Consolidated Mining & Smelting Company of Canada, Limited, a Mining Company incorporated under the laws of the Dominion of Canada, and whose Head Office is in the City of Toronto in the Province of Ontario, and whose registered office in the Province of British Columbia is at the city of Trail.

Free Miner's Certificate No. B24042.

(b.) The name of the lake, stream or source is Boundary creek, a stream running through the towns of Greenwood, Anaconda and Boundary Falls, and emptying into the Kettle river at Midway, in the District of Yale.

(c.) The point of diversion is at the overflow of the dam of the Greenwood City Water Works company, at Boundary Falls, and which dam is situate about 1200 feet above the Falls on said creek; and during such seasons of the year as all water in the creek may be used by said Water Works company (leaving none passing over said dam), the point of diversion shall be at a point on said creek immediately below where the water used by the Greenwood City Water Works company is returned into said creek.

(d.) The quantity of water applied for, in cubic feet per second, is Four.

(e.) The premises on which the water is to be used is a Mill Site forming the southwest part of Lot 429, and lying between the Columbia and Western Railway right of way and Boundary creek.

(f.) Intakes with pipe lines leading therefrom to the Applicant's Concentrator on said Mill Site, and pumping stations and pumps.

(g.) The purposes for which the water is to be used are Mining and Milling purposes, and purposes incidental thereto.

(h.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. The water taken at the overflow of the dam is to be returned into Boundary creek about 1200 feet below Boundary Falls, and the difference in altitude between the point of diversion and point of return is about 100 feet; the water taken from Boundary creek below the point of return of the Greenwood City Water Works Company's water is to be returned into said creek at practically the point of diversion, and there will be practically no difference in altitude between the point of diversion and point of return.

(i.) Area of Crown land to be occupied by the proposed works. Not any.

(j.) Give the names and addresses of any riparian proprietors or licencees who or whose lands are likely to be affected by the proposed works, either above or below the outlet. None.

(k.) The capital of the Consolidated Mining & Smelting Company of Canada, Limited, is $7,500,000, divided into 75,000 shares of $100 each, and 53,562 shares of said Company are paid up and issued.

(l.) The following are copies of such parts of the Memorandum of Association of the Applicant as authorizes the proposed application and works:

"To acquire by purchase, lease, hire, exchange, or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights of way, water rights and privileges, mills, factories, furnaces for smelting and treating ores and refining metals, buildings, machinery, plant, or other real or personal property as may be necessary for or conducive to the proper carrying out of any of the objects of the Company."

"To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any trails, roads, ways, tramways, for the conveyance of ores and other goods of the Company, bridges, and reservoirs, dams, flumes, race and other ways, water courses, aqueducts, wells, wharves, piers, furnaces, saw mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works, and appliances, warehouses, buildings, machinery, plant, stores and other works and conveniences required by or conducive to any of the operations of the Company, and to buy, sell, manufacture, and deal in all kinds of goods, stores, implements, provisions, chattels, and effects required by the Company, or its workmen or servants."

(m.) This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1909.
