Development.

THIRTEEN HUNDRED OZ.

In Silver is the Latest Assay From
the Rambler.

J. W. Nelson returned Friday from a week's visit on the West Fork, where he is interested in a number of properties, among which is the well known Rambler. On this claim two men are at work taking out about a ton of ore daily. On the Rambler three shafts have been sunk—70, 18 and 15 feet respectively. From the 70-foot shaft a crosscut has been run 106 feet. At the 50-foot level a drift has been run 75 feet on the ore, from which stoping is now being done. The vein in the drift runs from 18 to 28 inches wide of almost solid galena, with a very rich paystreak of ruby and native silver on the hanging wall running from 8 to 12 inches wide. The latest assay from this paystreak gave 1,342.4 oz. in silver per ton, or a value of \$325.50. Owing to the distance to the railway at Midway—50 miles, and the difficulty in bringing the ore down from the mine to the government wagon road except when the snow is on the ground, shipments are only made during the winter months. A number of shipments have been made from the Rambler in the past three years. In fact, development has been paid for by shipments from the mine. The shipments made this year were two cars one in February, netting \$73 to the ton in silver, and one in March netting \$74.23.

Adjoining the Rambler is the Standard Fraction, owned by the same parties. On this claim a tunnel has been run 80 feet on a lead from 4 to 12 inches wide, running up in the hundreds of ounces of silver.

Mr. Nelson also visited the Duncan claim, and went as far as Carmi. On the Duncan, which adjoins the Sally, and is under bond to a Greenwood syndicate headed by C. H. Fair, two men are working. A 25-foot shaft has been sunk and the lead stripped for the full length of the claim. Another shaft is being sunk on the southwest end of the claim. The vein is about 14 inches wide, the latest assay from which gave returns of 633 ounces silver to the ton. At Carmi very little work is at present being done. The management of the Carmi still continues to do nothing. The Butcher Boy, another rich claim, will not be worked until the Midway and Vernon railway construction reaches the West Fork. This may also be said of the numerous holdings of J. C. Dale and others in the vicinity of Carmi.

Mr. Nelson was unable to visit the Sally, but the regular force of 25 men is at work developing the claim under Superintendent Vacher. Stoping is being done on the No. 1 lead, and a part of the force is employed developing the No. 2, which is much wider than at first supposed. On Cranberry, Kelly and Boomerang creeks only assessment work is being done.

At Beaverdell business is fairly good in the one store and two hotels. Gorman West, in his hotel at Bull creek, is doing a nice business. At Westbridge business is also good.

Throughout the West Fork much activity in mining need not be expected until construction work on the Midway and Vernon railway has passed Westbridge and the track has been laid to that town.

Fifty Indians will camp on the grounds of the Spokane Interstate fair throughout the time of the exposition this year. They will be present in all their native innocence and will live the simple life for seven days, where they and their peculiarities can be viewed and studied by all. They will live in their tepees, ride their horses, care for their papooses and eat their Indian meals as Indians did years ago when unmolested by white men. They also will contribute each day to the

entertainment at the fair. They will have races on their Indian ponies and each evening that strangest of all sights, an Indian war dance, will be given. The squaws will dance, too, and they will have their own races with their ponies. These sights year by year become rarer and for every one who has not seen an Indian war dance this will be an instructive sight. The Indians will come from Chelan. They belong to the Chelan and Spokane tribes. The war dances will be part of the evening entertainment which this year for the first time will be put on at the fair grounds instead of downtown. A fine programme of entertainment is provided for the night shows.

STRIKE ON THE EMMA.

Ten Feet of Ore at the 150-Foot
Level.

At the Emma mine the main ore body was struck last week. The new shaft was sunk to a depth of 150 feet, and a drift run 50 feet to the north. From this a crosscut was run to the west for a distance of 23 feet. At this point a narrow ledge of ore about two feet wide was struck. A second drift is being run on this ore body, and is now in about 20 feet. In the face of this drift the ledge appears to be about ten feet wide. However, only one wall is to be seen; the other side of the tunnel being entirely in ore. From the appearance of the lead in the beginning of the drift, it is in the shape of an opening wedge. A secondary ledge was struck in the beginning of the main (north) drift, and continued in for 50 feet to the end of the drift.

This was only three feet wide, being in all probability an offshoot from the main ledge. All the rock between the small vein and the recently struck main body is somewhat mineralized.

The ore in the main ledge is the best yet struck in the mine, and will be easy to take out, as the vein stands nearly vertical at this level. About two cars of first class ore have so far been raised from this part of the workings.—Anaconda News.

ROCK CREEK NOTES.

G. O. Guise, the Westbridge merchant, returned Wednesday from his trip north. About four months ago he and George McKenzie left for Hazelton with a band of horses. They arrived too late with their stock, another outfit getting in ahead of them. They cut hay and will winter the stock in Bulkley valley. The route traveled was via Nicola, Ashcroft, Quesnelle, and the government trail along the Yukon-Telegraph line. Frank Johnson, who accompanied them, will winter the stock not disposed of in the Bulkley valley. Geo. McKenzie is placer mining on the Omineca. Mr. Guise believes the Bulkley valley will become an important farming settlement. Development will be retarded, however, by speculators filing on the land with South African scrip.

Lloyd A. Manley of Grand Forks has invaded Similkameen district as well as Greenwood and Grand Forks. He is negotiating for a site on which to build a whiskey joint on McBride's ranch, Sidley mountain, and if he can secure a license, he will erect a place there. The Similkameen license board may not be susceptible to the Manly influence.

McLean Bros. have practically sublet the first ten miles of the Midway and Vernon railway, and sub-contractors have men at work along the entire distance. The work is easy, with very little rock.

On the V. V. & E. P. Welch has sublet all the work to the boundary line near Molson. About 700 men are now employed and within a month he expects to have 2,000 men on the work.

This will be a record year for the farmers of Kettle valley and on Sidley mountain. The crops were never better and a home market will be found with the railway contractors.

Chamberlain's Cough Remedy.

This is a medicine of great worth and merit. Try it when you have a cough or cold and you are certain to be pleased with the quick relief which it affords. It is pleasant to take and can always be depended upon. For sale by all druggists.

The
Boundary Creek Times

Issued Every Friday
DUNCAN ROSS.....MANAGING EDITOR
SUBSCRIPTIONS IN ADVANCE.
PER YEAR 2 00
SIX MONTHS..... 1 25
TO FOREIGN COUNTRIES..... 2 50

FRIDAY, SEPTEMBER 1, 1905.

TEN YEARS OLD.

With this issue the Boundary Creek Times completes its ninth year. During that period the residents of the Boundary were sometimes impatient at the slow progress made, but when one considers the district today and the district nine years ago, when W. J. Harber brought a Gordon press and a few pounds of type into Greenwood to start a paper in the then new town, one is fully convinced that the growth and development of the district has been remarkable. Nine years ago there were many prospects but no mines; today there are many mines and large smelters. There have been many changes in nine years. Some of the pioneers have crossed the Great Divide; others became discouraged and sought new fields. Taken all in all, nine years of development has demonstrated that Green-

wood is and will continue to be the best mining district in Canada. During the nine years the Times has had its ups and downs like all other business enterprises in a new mining camp. It starts its tenth year, however, confident that we are entering a prosperous era. The days of doubt have disappeared and the mining industry which, after all, is the backbone of this district, is now on a safe and permanent basis.

AN OBJECT LESSON.

Greenwood now has a supply of pure water, sufficient to meet all the requirements of the city for several years to come. The completion of the new waterworks system furnishes a striking illustration of what can be accomplished with good municipal management. A few years ago the city was heavily in debt, its credit was impaired and the floating indebtedness had exhausted the credit with the local bankers. After a few years of careful management the floating indebtedness was wiped out, the bonded indebtedness was reduced and all the money necessary to complete the waterworks was secured from the Bank of Montreal pending the sale of the debentures. Had the old order of things continued Greenwood could not boast of an abundant supply of pure water today. Injudicious extravagances may seem temporarily advantageous, but it is the wise, conservative administration which pays in the long run.

A LOCAL BOARD.

There is apparently no good reason why the provincial electoral district of Greenwood should not have a board of license commissioners of its own. It extends from Eholt on the north to the international boundary line and as far west as Westbridge. That three men from Grand Forks should have jurisdiction over this territory and enable party heelers to exploit liquor licenses in territory not tributary to that city, cannot be justified. Apparently the McBride government believes that Greenwood electoral district is hopelessly lost to the Conservative party and that its party friends in the district are entitled to no consideration. Premier McBride believes it better policy to offer up Greenwood district as a sacrifice to Geo. Fraser, M. P. P., and his hungry gang. If local Conservatives are satisfied with this treatment, they are even more impotent than their work during the recent elections indicated.

J. H. KENNEDY's trip to Ottawa recalls an amusing incident in connection with the V., V. & E. fight. Those connected with the Ollala company some years ago secured from the Dominion parliament an act to incorporate a company known as the Similkameen and Keremeos Railway company. The Ollala went the way of a good many mining companies and no one paid any attention to its railway charter. In April of this year a Toronto firm of lawyers filed plans for the Similkameen and Keremeos railway. The Canadian Pacific officials were furious and openly accused the Great Northern of having acquired this charter to obstruct their plans in the Similkameen. The Great Northern was equally strong in the assertion that the C. P. R. had secured this charter. It afterwards developed that neither company owned the charter. But since then the Canadian Pacific has bought the Similkameen and Keremeos charter and Mr. Ken-

nedly went to Ottawa to defend the V., V. & E. plans against those which the Canadian Pacific accused the Great Northern of filing in April last.

It is too bad that the Phoenix Pioneer hasn't been authoritatively informed regarding the truth or falsity of the charges against the license commissioners. The views of that journal on this momentous question are thereby lost to an anxious public. Possibly the editors of the Pioneer and Grand Forks Gazette could get together and arrive at some decision on the matter.

THE appointment of W. H. P. Clement as county court judge will be pleasing information to the residents of this district and particularly to members of the bar. In making this appointment the government has shown a bona fide intent to strengthen the judiciary of the province by the appointment of strong men.

THE Phoenix Pioneer knows nothing about the doings of the board of license commissioners for Boundary district, but knows everything about the dismissal of the postmaster at Penticton. Its great ignorance in the one instance and its great knowledge in the other do credit to its few years of Tory tuition.

THESE are fairly dull days in the editorial sanctum. The rich, full thoughts which influence readers do not flow freely. Under the circumstances it is hard to have the Nelson Tribune using without credit some of the very few good things which come.

WILL the attorney-general be good enough to authoritatively inform the Phoenix Pioneer what he thinks of the board of license commissioners of the Boundary district?

LOYD A. MANLEY was up Myers creek last week to select a site for the hotel for which one Dufour has already been granted a license.

Guns and tents for sale or rent. All kinds of ammunition at the O I C, New and Second Hand Store. A. L. White.

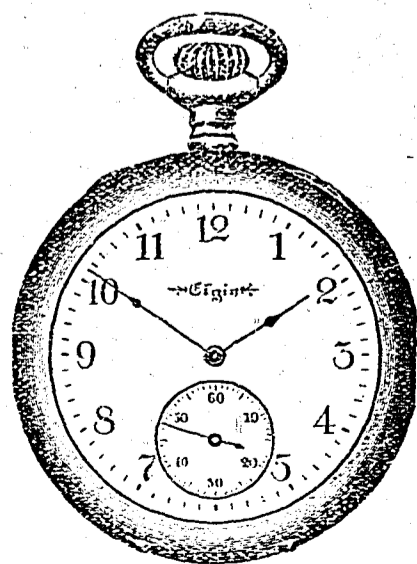

Cured of Lame Back After Fifteen Years of Suffering.

"I had been troubled with lame back for fifteen years and I found a complete recovery in the use of Chamberlain's Pain Balm," says John G. Bisher, Gillam, Ind. This liniment is also without an equal for sprains and bruises. It is for sale by all druggists.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand knows this to be a fact. For sale by all druggists.

VOL. 9, NO. 52, SEP. 1, 1905

THE NINTH FURNACE.

The Granby Will Add to Equipment of Mines and Smelter.

Spokesman-Review: Jay P. Graves, general manager of the Granby company, has returned from an inspection of the company's mines at Peenix, B. C. He was accompanied by Mrs. Graves. On the newly-acquired Monarch an ore quarry has already been opened and shipments of ore averaging a couple of cars a day are being made, the ore being hauled by wagons to the compressor siding on the Canadian Pacific railway.

It is the intention to push work on the opening of the Gold Drop, and a tramway will be built and ore bunkers erected at the Canadian Pacific railway tracks.

It will require about six months to manufacture and install the new machinery for the headworks for the main three-compartment incline shaft, including the 200-horsepower electric hoist. By the time the machinery is on the ground the shaft will be ready for it. Meanwhile the lower levels of the Old Ironsides mine are being thoroughly explored. From the bottom of the winze, running from the 300 to the 400 foot levels, the ore body has been crossed for upwards of 230 feet, and some of the best ore in the mines has been found here. Drifts from this crosscut are now being run in several directions.

In addition to this the winze is being continued to the 500-foot level, the explorations thus far proving that the average values are improving as depth is attained.

Six furnaces are once more steadily being operated at the company's reduction works near Grand Forks, and it is planned to have No. 7 furnace blown in by the 15th of September, No. 8 to follow in a short time thereafter.

It is also the intention to install a ninth furnace at the smelter at no distant date. As the two new furnaces are larger than any of the six old ones, so the ninth furnace is liable to be larger still, and will give the works a daily capacity of considerably over 3,000 tons of ore. The converter has already been enlarged, so that it can take care of the output of nine furnaces

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala. relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some sous meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by all druggists.

MSUICALARRANGEMENTS

Elaborate Band Stand for Royal Irish Guards at Dominion Fair.

Among the attractive additions to Queen's Park, where the 1905 Dominion Fair will open at New Westminster September 26th, is an elaborate band stand for the accommodation of the Royal Irish Guards band, which has been engaged at enormous cost. The musical feature of the big exhibition.

Although the Irish Gturds have not been long in existence, and up to their formation there was no particular Irish battalion forming one of the household regiments, it has yet gained a reputation for itself as a magnificent organization, so far as the rank and file are concerned, but more especially through the splendid band that C. H. Hassell succeeded in getting together. This band comprises forty-two of the finest musicians in any military organization in the British Empire. They have all been selected for their special ability on some particular instrument, and, in fact, each and every one is a soloist. In passing, it might be mentioned that it is a gratifying fact, and one considered very gratifying to the Royal Military School of Music, that all the bandmasters of His

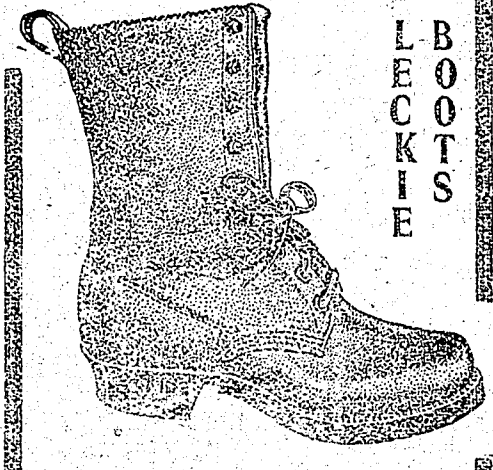

Majesty's Foot Guards received their training at Kneller Hall.

Mr. Hassell, although a comparatively young man, has been in the service for upwards of a quarter of a century, during which time he has been attached to several leading military musical organizations, and was selected for the bandmastership of the Irish Horse Guards out of one hundred candidates, because he was considered the ablest conductor in the service. His income is larger than that of any bandmaster in the service and his fame extends all over the United Kingdom.

Viscount Vespi, a direct descendant of the original Irish peer, will be the colonel in charge of the Royal Irish Guards during their visit to New Westminster.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse Schools of Telegraphy, in this issue, and learn how easily a young man or woman may learn telegraphy and be assured a position.

It is estimated that in the manufacture of umbrellas 6,000 tons of iron are

LECKIE BOOTS

IF YOU WANT THE "LECKIE BOOT"

and your dealer doesn't keep them, ask him to get them. Tell him that you want the "Leckie Boot" because it is all leather, and is made for the hard usage that Boots get in a rough country like British Columbia.

We are British Columbians and know all about the conditions that make it necessary to have extra strong boots for the Western man who works out of doors.

LIQUID VENEER
MAKES OLD THINGS NEW

Liquid Veneer instantly restores the brilliant newness and finish of Pianos, Furniture, Picture Frames Interior Woodwork, Hardwood Floors, and all polished, varnished or enameled surfaces. It renews and redresses everything it touches. Revamping is unnecessary, because scratches, stains and dirt instantly disappear, leaving a smooth, brilliant surface.

Liquid Veneer is not a varnish, but a surface food that is absorbed by the old finish, instantly restoring the latter to its original brightness. Easy to use—only a piece of cheese cloth is necessary. Dries instantly.

One delighted customer writes that it is worth \$100 per bottle. The price is only 50 cents.

Sold by
A. L. White, O I C

Land Registry Office, Kamloops, B. C., August 18, 1905.
W. H. EDMONDS,
District Registrar.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of \$5 per square mile is charged for all timber berths excepting those situated West of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—
Sawn lumber, 50 cents per thousand feet B. M.
Railway ties, eight and nine feet long, 1 1/2 and 1 3/4 cents each.
Shingle bolts, 25 cents a cord.
All other products, 5 per cent on sales.
A license is issued as soon as a berth is granted but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof. Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are \$1.50 per thousand feet B. M., for square timber and sawlogs of any wood except oak; from 1/2 to 1 1/2 cents per lineal foot for building logs; from 12 1/2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents per acre per annum.

Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of \$10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence on and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) or any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

MINERAL ACT 1896
Certificate of Improvement.
NOTICE.

"Gladstone" Mineral Claim, situate in the Greenwood Mining Division of Yale District. Where located: In Greenwood camp.

TAKE NOTICE that I, Isaac H. Hallett, as agent for George R. Naden, Free Miner's Certificate No. 188563, Frederick B. Pemberton, Free Miner's Certificate No. 188564, Howard H. Kennard, Free Miner's Certificate No. 182385, Elsie Phillips-Woolley, Free Miner's Certificate No. 189599, and Edmund T. Wickwire, Free Miner's Certificate No. 180427, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 25th day of July, A. D., 1905.
I. H. HALLETT.

MINERAL ACT.
Certificate of Improvements.
NOTICE.

Lucky Shot Fraction, Myrtle No. 2, and Northern Bell Mineral Claims, situate in Greenwood Mining Division of Yale District. Where located: In Greenwood camp.

TAKE NOTICE that I, Sydney M. Johnson, acting as agent for Edgar J. Smith, Free Miner's Certificate No. 188575, W. H. Hambury, Free Miner's Certificate No. 188577, Jos. Thompson, Free Miner's Certificate No. 191525, and C. H. Reeves, Free Miner's Certificate No. 191452, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 24th day of July, A. D., 1905.
SYDNEY M. JOHNSON.

COMMUNICATIONS.

Grand Forks, B. C., Aug. 27, 1905.
Editor Boundary Creek Times.

DEAR SIR: I notice in your paper, dated August 25th, an article entitled "A Few Pointers." As several serious charges are made in it against me as license commissioner for the Boundary district, I beg you will allow me this opportunity of stating "A Few Facts," as "Pointers" are sometimes misleading.

I do not think, Mr. Editor, that you have made these charges with malicious intent, but rather through lack of reliable information. In the first place you state that "Arthur H. Lawder was appointed by wire to succeed A. E. Rainey as commissioner. I certainly did receive a wire dated June 15th, from F. J. Fulton, provincial secretary, which read as follows: "You were appointed 14th inst., license commissioner for Boundary Creek district." On the same day I also received an official letter from the provincial secretary, dated 13th June. This proves that my appointment was made on the 13th June and not on the last moment by wire.

Secondly, you state that "Arthur H. Lawder, as a member of the board, was a party to illegally granting a license to Lloyd A. Manley in Midway." An examination of the minutes of the meeting will show you that nothing illegally was done as stated. Mr. Manley made his application under clause 14, Liquor License Act, in which it says: "A license may be granted for a building either in course of construction, or to be constructed, upon filing with the chief license inspector, plans and specifications of the proposed building." These plans were laid before the board by Mr. Manley at the meeting and the license was only granted subject to the inspection of the building by the chief license inspector.

On further examination of the minutes it will be found that Arthur H. Lawder was the one member who opposed the granting of said license on the grounds that Midway had already sufficient hotels to accommodate the public. Then a petition was handed in from the residents of Midway, backed by Mr. Whiteside, a lawyer of Greenwood, asking that only six licenses be granted in Midway.

There were four hotels running at that time, a fifth application was in for the Oakland hotel, and the sixth applied for by Mr. Manley. The other two commissioners agreed to grant Mr. Manley his license as it was the next application before the board.

Thirdly, you say that "Arthur H. Lawder was a party to illegally granting a license to one Dufour." With regard to this I would say that Mr. Dufour's application was also made under clause 14, in his own name and for himself and not, as stated, for Mr.

Manley, he having a lease of the premises which he produced in court. This hotel will be five miles away from any other licensed building and was granted for the accommodation of the traveling public.

Fourthly, I wish to say most emphatically that I am not at present in the employ of Lloyd A. Manley, as stated in your paper, nor have I at any time been in his employ, nor have I ever had a proposal from him to that effect. I would further add that the Grand Forks Liquor Co. referred to is an incorporated company and not the property of Mr. Lloyd A. Manley, though he is the manager of the same. I am not in the employ of the Grand Forks Liquor company, neither have I ever worked for them. For your guidance I would tell you that I am in the employ of the McKintley Mines, limited, and have been for several months, and am likely to continue as far as I know.

The letter referred to in your paper of above date from the attorney-general, was only received on August 18, and the Dufour license was granted on July 15th, subject, of course, to his compliance with the act.

I hope, Mr. Editor, that in the future you will make yourself cognizant of the facts before again using my name in a public manner. Trusting that you will give this letter the same publicity that you gave to "A Few Pointers." I remain, yours truly,

ARTHUR H. LAWDER.

[The Boundary Creek Times cheerfully gives Mr. Lawder's letter the same publicity as was given to "A Few Pointers." The editor of the Times refuses to be drawn into any discussion with any individual member of the board of license commissioners for the Boundary district. The Times made explicit charges against that body, acting in its public capacity, and referred to the improper position which Mr. Lawder occupied as a member of the board. These charges and his reference stand, so far as we are concerned, and members of the board cannot purge themselves of any stigma which may be attached by engaging in a newspaper controversy.—THE EDITOR.]

Chamberlain's Cough Remedy Aids Nature.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, aids expectoration, opens the secretions, and aids nature in restoring the system to a healthy condition. It is famous for its cures over a large part of the civilized world. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Sold by all druggists.

TOWN TOPICS

H. B. Madden returned to Oroville this week.
J. W. Hugh Wood left Saturday last for Beaverdell.
R. G. Sidley, J. P., was a visitor to the city the past week.
W. H. Norris, J. P., the Midway horticulturist was in the city yesterday.
B. N. Kerby of Chesaw was in town Monday with a band of saddle horses which he readily disposed of.

At the Auditorium Saturday night, September 2, the successful musical comedy, the "Richest Coon in Georgia."

C. A. Dempsey, formerly a resident of Greenwood, but now in business at Ferry, Wash., was a visitor to the city yesterday.

J. P. McLeod, barrister left on today's train for Vancouver, having received a telegram stating that Mrs. McLeod was seriously ill.

The drawing for the Robinson ranch on the West Fork will take place at the Pioneer hotel Tuesday evening next, September 5.

Considerable business was transacted in the police court this week in the way of arranging a scale of prices for drunks, assaults, etc.

Sweet singers and graceful dancers at the Auditorium Saturday night, September 2; \$1.00, 75c. and 50c. Reserved seats on sale at drug stores.

Curry White, of White Bros., druggists, who has been seriously ill for the past month, is expected to be out and attending to business next week.

The Boundary Club has been moved from the Pacific block to the building south of White Bros' drug store, and formerly occupied by E. A. King & Co.

C. H. Fair returned Tuesday from a trip to Wallace mountain on the West Fork, where he is interested in a number of mineral claims, among them the Duncan.

J. P. Graves has announced that the ninth furnace will shortly be installed at the Granby smelter. This will bring its capacity to upwards of 3,000 tons a day.

Chas. E. Williams (he of the water-melon mouth) is a natural born comedian. He will be seen in his funniest role at the Auditorium Saturday night, September 2.

Max Berger, for a number of years with the Greenwood Trading company, but lately residing in Idaho, returned to the city Saturday, and will remain here until the end of the year.

Percy F. Godenrath was in the city Tuesday and Wednesday. All arrangements have been completed for the publication of his book, "Earth's Hidden Treasure Vaults," which will appear about October 1st.

J. M. Petty, formerly with A. L. White & Co., has taken over the bar of the National hotel and is prepared to furnish the thirsty public with anything they may require in the line of liquid refreshments.

Two shipments of ore were made to the smelter from the Providence this week, a car of first class and one of second. The former is said to be the richest yet sent from the mine, being largely composed of ruby silver.

It is said that the citizens of Midway will shortly apply for incorporation. Already there are thirteen candidates for mayor and fifty-two persons who would accept the position of chief of police. The position of police magistrate was arranged for "in the beginning."

Word was received from Chicago this week that work would shortly be resumed on the Preston in Skylark camp. It has been decided not to place any stock on the market, but to assess the shareholders for the amount required to develop the mine to a shipping stage.

The ever popular musical farce, "The Richest Coon in Georgia," will be presented by Williams & Stevens and their company of New York

WHITE BROS.

colored stars, at the Auditorium Saturday night, September 2. During the action of the play all the latest popular songs will be sung by real singers.

J. M. Petty of the National hotel drew the lucky number for the \$500 diamond ring raffled at the Pacific hotel Monday night.

W. McIltony returned from the West Fork this week, where he had been working on the Sally for the past three months.

E. F. White, head bookkeeper for P. Welch & Co., has taken charge of the office work on the V. V. & E. construction at Midway. He is accompanied by Mrs. White and family, who will reside with him at Midway until the work is finished.

A heavy rain on Sunday night extinguished the forest fires which had become serious. They crept dangerously close to the town of Phoenix and all the powder was removed from the city to a safe place. C. J. McArthur

had two hundred cords of wood destroyed. Hugh McKee and several Chinamen were heavy losers in the same way.

A. E. Ashcroft, C. E., was in the city for a few days this week. Mr. Ashcroft is at present engaged in surveying the Columbia and Western land grant on the West Fork of Kettle river into townships. The townships are six miles east and west and twelve miles north and south in alternate blocks. The grant extends north fifty miles from the international boundary line.

Come on boys! Birds are ripe! See A. L. White for guns and ammunition.

The directors of the Nelson Fair were very lucky this year in arranging their dates, as the fair is to be one week ahead of the Dominion Fair at New Westminster; also ahead of the Spokane Fair and North Yakima Fair, and Secretary Annabie has been able to secure a number of good attractions that are engaged for the other big fairs that follow. A new grand stand is being erected and the performances will all be held in front of the grand stand.

Guns up to date, both high grade and cheap. We rent either. See A. L. White for particulars. A. Robertson, of the Yale-Columbia Lumber Co., at Nakusp, is in the city.

Watch Logic

An old worn out watch requires considerable expense to keep it in repair. After years of constant running the delicate parts become worn and weak, and will not do their work properly. The only remedy is to replace it with a new one that carries a guarantee.
