SHOES

NEWEST STYLES BEST VALUES

Our exhibit of new shoes is now nearly complete. Special attention is directed to the 'PORTIA' Shoe; one of the leading American makes of fine shoes for women. Also Bell's Fine Footwear—for men and women—and McCready's latest styles for men.

LADIES' Patent Blucher, extension sole, Cuban heel, dull calf upper; $4.50. Vici Kid, in two styles (walking and light sole) Cuban and Military heel-a high grade shoe, $4.50. The latest styles in Oxfords, exhibiting the Blucher cut and large eyelet.

GENTLEMEN'S Just received the following lines, with the flat-iron toe and Military heel. Patent Blucher, fancy cut, dull calf upper. An exceedingly dressy shoe for $5.50.

Patent Blucher Oxford, extension sole, $4.50

Light tan Oxford, very popular this season, excellent value at $4.00.

CHILDREN'S Our lines of children's, misses' and boys' is more complete than ever. Weston's school shoes have given good satisfaction in the past; they can't be beaten.

RUBBERS

Headquarters for rubber goods of all kinds. You will find our lines and sizes complete. Everybody is wearing the Granby Roll Edge.

THE BIG STORE

The Russell-Law-Caulfield Co.
LIMITED.

We have just received a nice assortment of

TRUNKS

FROM $6.00 TO $13.50

Suit Cases from $3.00 to $13.50. Grips from $2.75 to $5.00, and Telescopes from 60c to $1.50.

Our range of Gent's Furnishings, Hats, Shoes, Clothing, etc. is complete and at reasonable prices.

For fancy and staple Groceries, we make it a practice to order lightly, but often, thereby assuring you that our stock is always kept fresh.

PAY DAY BARGAINS

New Canadian Prints for ..... 8 cts yd.

Ladies' Shirt Waists for $1.50
Regular Price was $3 75

Children's Shoes, sizes 8 to 2, for ..... 95cts pr.
Regular Price $2.15

Men's Smelter Shoes for $1.50
Regular Price $2.00

Men's Fine Shoes in tan and black for $2.50
Regular Price $4.50

Men's Fine Shirts for ..... 75 cts pr.
Regular Price $1 50

New Wash Dress Goods For Spring.

New Shirt Waists For Spring.

New Muslin Underwear For Spring.

See Our Big Stock Before Buying the above goods.

RENDELL & CO.

SOURCE OF CITY WATER

Greenwood to Secure Lind Creek Water.

AGREEMENT WITH ANACONDA

Mayor Naden's Official Mission to Victoria.

An agreement has been entered into between the city of Greenwood and the land owners of Anaconda by virtue of which the former agrees to extend the waterworks and fire protection systems to Anaconda. The consideration is the transfer of the water record of Lind creek to the city of Greenwood. The agreement was ratified at a meetting of Anaconda property owners held last Friday night and has also been endorsed by the Greenwood city council.

Mayor Naden leaves today for Victoria to secure the assent of the lands and works department to the agreement and to authorize the grant of the water record to the city. He will be accompanied by John P. Jackson, who will represent the Anaconda property owners. Mr. Jackson will present petitions in favor of the agreement and asking the government to grade the streets which the water pipes will be laid.

Greenwood's part of the bargain is as follows: Provide and lay a 4-inch main along Second street from Everett to Tacoma avenues; 2-inch main along Tacoma ave from Second street to Fifth; 2-inch main along Fifth from Tacoma ave to Denver ave; 4-inch main on Denver ave from Fifth to Sixth street; 4-inch main on Sixth street from Denver ave to Everett ave; 2-inch main on Butte ave from Second to Sixth street; also install three fire hydrants; install key hydrants for domestic use at points along the above pipe lines where there are at least three applicants for same, not otherwise served; will connect said water system with the Greenwood system and will allow the residents of Anaconda the use of the said water free of charge for the term of one year from the date the water is turned on in the system; Greenwood fire brigade will respond to all fire alarms from Anaconda which will pay Greenwood $5 for each turnout and other actual expenses involved in said turnout.

That in the event of any of the existing pipe lines in Anaconda being available for distribution purposes, and being found in good condition and protected from frost, that Greenwood will take over said pipe lines and allow the cost of same on account of water rates, after the period of free water shall have elapsed; and that the rates thereafter shall be the same as in Greenwood, extend the proposed system to supply future consumers and those not directly served by the proposed work, whenever the applying consumers shall in revenue provide for 10 per cent. and sinking fund on the costs of the required extension; that the cost of water from a key hydrant, after one year, shall be 50 cents per month to each consumer.

A RAILWAY RACE.

Great Northern and C.P.R. About to Invade the Similkameen.

The railway situation has been greatly clarified during the past week. It now seems to be settled that the Great Northern will resume railway construction in the Boundary as well as make a start west from Midway on its extension to the Similkameen with the coast as the ultimate objective. The C.P.R, too, is not idle. The big corporation has its engineers in the field "keeping cases" on its rival. It may be fairly assumed that the first step made by the Great Northern towards building west will be the signal for the C.P.R. to rush construction west from Midway with the object of heading off its rival and preventing an American road from being the first to provide railway facilities for the people of the Similkameen and lower Okanagan.

Chief Engineer Kennedy, of the V. V. & E. R., the Canadian section of Hill's road, and three engineers have been busy at Midway since Tuesday "tieing up the loop" connecting the Curlew-Midway section with the survey extending up Boundary creek to the smelters and Greenwood, and beyond to its connection with the Phoenix branch of the Great Northern on Providence creek. It seems to be settled that the rails will be laid this spring on the completed roadbed between Curlew, Wash., and Midway and that the construction of the line up Boundary creek as far as Greenwood will also be undertaken this summer. Simultaneously the main line will be extended west towards Hedley with all possible speed. Hedley, where the Nickel Plate mine is located, is an important objective as it will provide a large tonnage.

The C.P.R. realizes that it must be prepared to abandon its waiting game and be ready to offset the Hill invasion. This is evidenced by the fact that Mr. Callaghan, a C.P.R. engineer from Winnipeg, has just completed a ten days' secret inspection of the Great Northern's survey made last fall. This survey was undertaken with the object of getting a more direct, witnal a more expensive route, to the mouth of the Similkameen river. It will also render unnecessary the construction of a sinuous line running in and out of American territory. It is known as the Whitcomb survey. It will, however, run in American territory from Sidley lake to the point where the boundary line crosses the Similkameen river, 16 miles below Keremeos. The grade will be 2½ per cent. across Sidley or Anarchist mountain. On his recent mission Mr. Callaghan was accompanied by R. G. Sidley, of Sidley, B.C. The new survey will necessitate a 700-foot tunnel at Similkameen Falls, Wash. It is significant that Capt. Robertson, a Winnipeg capitalist, who is close to Whyte, the C.P.R. general manager of western lines, was a recent visitor at Midway. The captain's appearance in any locality is a sign that something is going to happen.

The C.P.R. already has a survey from Midway west. It runs via Kettle river, Rock Creek, west fork of Rock creek, swings around Sidley mountain crosses the summit at Summit lake, and comes out at Incamwp Indian reservation on Okanagan river a little above and opposite Fairview, thence heads up the Similkameen. The grade in places is very steep.

THAT MUNROE FAILURE.

To The Editor:

Having closely followed the proceedings given such widespread notoriety through the press, regarding the affairs of Munroe & Munroe and in justice to all concerned, I wish to state my views.

The difficulties in which this firm became involved were brought about by extraordinary conditions of both the stock market and the price of copper and as a result, Munroe & Munroe were reluctantly forced to ask for a few days extension of time to make good their contracts, assuring all creditors that each and every one of them would receive one hundred cents on the dollar. At this meeting some of the creditors would listen to no reasoning, demanded cash and that promptly paid. What followed the public have been pretty thoroughly posted in through the press. A few vindictive brokers rushed the matter into court, demanded bankruptcy proceedings and the appointment of a receiver and practically tied the hands of the Munroe brothers behind their backs, cast them into a sea of trouble and asked them to swim out.

It is greatly to the credit of Munroe & Munroe, that they fought these proceedings to the bitter end, and came out with much honor and prestige, in the shortest time known in the history of Wall street. They made good all contracts and settled with their creditors at one hundred cents on the dollar, (this was just what they proposed to do on the day of their suspension, possibly in a more advantageous way to themselves, than they had offered their creditors on that day), and have now resumed business in the same suite of offices with a clean slate, having gained an experience which cannot but benefit and proved who their friends really are. The court has instructed the receiver to give Munroe & Munroe all money and securities turned over to him.

The ability shown by Munroe & Munroe have been productive of much envy and it was largely due to what followed in this affair. How dare these young Canadians come from Montreal and open an office on Wall street in New York! But they did—and furthermore proved themselves thoroughbreds in every sense of the word and not "squealers" as others have been.

Let us all in justice place credit where credit belongs.

Justice.

WILL MOVE APRIL 1st.

Messrs. Cameron & Huff, the blacksmith's, wish to notify their customers that after April 1st they will be located in the old Russell-Law building, next to the Kootenay Hotel, Copper street.

INTEREST IS REVIVED

Board of Trade Holds a Well-Attended Meeting.

LIVE TOPICS DISCUSSED

Terminal Freight Rate Into Boundary Needed.

For several months past there had been no meeting of the Greenwood Board of Trade until Saturday last. The secretary, who has been looking after the interests of the board, getting desperate, made an appeal to the members to attend a called meeting and assist in cleaning up a lot of important matters. It was a matter of general surprise to find so large and enthusiastic a gathering. Three hours of faithful work were necessary to clear the docket.

It was decided to hold meetings at least monthly hereafter. The next meeting will be the annual to be held on Wednesday, April 5th, at which officers will be elected for the ensuing year, accounts audited and membership roll revised.

At last Saturday's meeting the questions of the 2 per cent. mineral tax, of a bounty on copper, of a telephone line from Fairview to Midway, of a terminal freight rate into the Boundary were all discussed. In regard to the two per cent. mineral tax it was decided to request the government to exempt the mine payroll from the gross value of the ore as well as the freight and treatment rate.

Messrs. Hunter, Ehrlich, Law and the secretary were appointed a committee to gather data on the freight question and present the same to the railroads entering the Boundary with the view of getting a Boundary rate. Several other matters were discussed, some being district, some being provincial, and some of a Federal aspect.

The list of delinquents was called for and the secretary read the roll and arrearages of same.

A resolution prevailed, inviting any not now members to join at a $2.50 membership fee, and offering any delinquents the privilege of settling in full to Mar. 31st for $5.

The sense of the meeting was that the present time was opportune for some effective work by the board.

BOUNDARY-ELKHORN OFFICERS.

At the first meeting of the stockholders of the Boundary-Elkhorn Mining Co. held Thursday the following were elected directors: Phil McDonald, James Sutherland, Thos. Hardy, Dr. Spankie and H. V. Fuller. At a subsequent meeting of the directors officirs were elected as follows: President, Phil McDonald; vice-president and managing director, James Sutherland; sec-treas., W. G. Gaunce. It was decided to offer for subscription 20,000 shares at 50 cents per share. The proceeds will be utilized in installing a plant. Gaunce & Wickwire are the official brokers.

Jonas Bushell, of Seattle, who is making a tour of British Columbia in the interests of the temperance cause under the auspices of the I.O.G.T. will arrive in Greenwood on Saturday and occupy the pulpit of the Methodist church on Sunday morning and evening. He will also lecture for the Epworth League in the same place on Monday night. Mr. Bushell has been engaged in this work for a number of years and is a very forceful and intelligent speaker. The pastor of the local Methodist church had the privilege of his assistance a few years ago and assures the public that Mr. Bushell is an able exponent of the cause of temperance. The public is invited to attend. No admission will be charged on Monday night, but a collection will be taken to defray some expenses incurred.

Evangelist Jas. McDermid will preach at both services in the Baptist church, Sunday. An effort will be made to obtain a resident pastor.

FRIDAY MARCH 10, 1905

All indications now point to unprecedented activity in railway construction this summer in southern British Columbia. The C.P.R. and Great Northern have virtually prepared their plans for an extension of their respective lines west of Midway. The policy of the former company has hitherto been a waiting one, but circumstances will compel it to start work in order to offset the vigorous policy of its aggressive competitor. It has just transpired that the new survey made by Great Northern engineers last winter was undertaken with the object of securing a line which would render unnecessary frequent detours into American territory. The adoption of this route may placate the McBride government although it presents greater engineering difficulties than those encountered on the old survey which provides for a line with frequent crossings of the international boundary line between Midway and the mouth of the Similkameen river. The marshalling of the Great Northern engineering force at Midway this week, Chief Engineer Kennedy's hurried trip to St. Paul and the wintering of the railway contractors' horses at Sidley mountain all possess deep significance. Of equal import is the recent visit of a C.P.R. engineer to the Okanagan and Similkameen. Mr. Callaghan, the gentlemen referred to, must have been acting under instructions from headquarters when he occupied ten days in traversing the Great Northern survey. The C. P. R. engineer has no doubt reported that the Great Northern people mean business. It would be a great blow to C.P.R. prestige to permit a foreign and unsubsidized railway like the Great Northern to be the first company to extend its line into the Similkameen district. This the C.P.R. will probably have the good sense to avoid and for a variety of reasons. From its present terminals and connections at Midway and Penticton the C.P.R. is doing a very large and profitable business with the district farther west. This summer's race between the big corporations with Hedley as the first objective, will be watched with keen interest for it means better times, the influx of many people and a revival of interest in mining in the Similkameen district.

Dr. Osler, formerly of John Hopkin's university, has started a lively controversy in the press over his whimsical remark that all men should be chloroformed after sixty. His severest critics apparently could not see the point of his joke. Dr. Osler, who was recently appointed regius professor of Medicine at Oxford university, is much too careful a scientist to seriously pretend that age is the true measure of existence. The standard is arbitrary and, to group men according to the number of years they have been in the world is no more scientific than to group them according to their weight or their height, or to reckon the world's progress by centuries. Doctors themselves discovered this long ago, and set up the arterial standard. "A man is as old as his arteries," they said. In our everyday wisdom we have the proverb, "A man is as old as he feels, a woman as old as she looks." We hear much about "young old men," and "old young men," paradoxes well understood. Dr. Osler is aware of this, and also of the famous poetical passage which tells us that life is not measured by years, but by deeds, and thoughts, and aspirations. This is sound science and good poetry. Because Dr. Osler sticks to the years standard, we know that he does not seriously mean just what his words imply.

Local mining men assert that the industry will be throttled if the powder monopoly continues to advance prices. Their protest is timely. It is likely to take some effective shape as the project of establishing a powder factory near Greenwood is being strongly endorsed. To our knowledge ten mining men interested in this camp have agreed to take stock in the proposed enterprise. Relief they are determined to have as the industry cannot stand the arbitrary prices dictated by the Canadian trust. We are informed that three grades of powder are now selling at an advance of twenty per cent. over the prices that prevailed a year ago. The last few days have witnessed a further advance, and likewise caps have also been marked up from 90 cents to $1.25 per box. The last order for powder placed by a local high grade mine was at the rate of 24 cents per pound. The mining industry has had enough obstacles in the way of legislative burdens to face during the past few years without running the risk of being strangled by a trust, whose powers can soon be nullified if mining men only agree upon a policy of reprisals.

A meeting to be held in Eagles' hall Monday will further consider the proposition of providing the city with a public ambulance. A start has already been made and the funds now available, we understand, exceed $100. The idea is a good one. It has for its object the providing of facilities, which will alleviate the sufferings of the sick or maimed in transit to their homes or the hospital. The matter is one that does not concern any particluar creed or sect. Under the circumstances and in view of the frequency of accidents in the local smelters and adjacent mining camps there should be a large attendance at Monday night's meeting and a generous response on the part of our citizens and especially on those most vitally interested, the miners and smeltermen. However, the proposition is equally deserving of the support of the mining companies and business men generally.

At long range it looks as though the resignation of Hon. Mr. Sifton would result in giving British Columbia increased representation in the cabinet.

The Board of Trade is not dead. It sleepeth.

POWDER BILL.

At a public meeting held at the Windsor Thursday afternoon, W. M. Law presiding, a strong resolution protesting against the passage of a bill introduced in the local house by Mr. Tanner and relating to the regulation, manufacture, inspection and storage of explosives, was adopted. The resolution will be wired J. R. Brown, M.P.P., asking him to oppose the measure. H. C. Dickinson, of the Giant Powder Co., explained the provisions of the bill. He said it provided for the erection of expensive magazines, under government supervision, by the powder companies and mining companies. In regard to his own company the extra expense involved would be over $30,000. If the bill became law it would prove a hardship to small mines which would be compelled to buy direct from the mills at an extra cost of 3 or 4 cents per pound. An objectionable feature was the annual licence of $100 for each magazine. F. Keffer, general manager of the B.C. Copper Co, severely criticized the provisions of the bill. He said he had wired Mr. Brown, M.P.P., to oppose it; and he understood Mr. Hodges, of the Granby, had also wired a strong protest Mr. Keffer objected to the clauses respecting the location of and fireproof character of magazines, and the use of lightning conductors; likewise against the provision about storage limit, etc. The resolution as above outlined was then adopted on motion of W. G. Gaunce, seconded by J. J. Caulfield. It recited the fact that the proposed bill, if passed, would be inimical to the mining industry. LATER—The bill has been withdrawn.

Champion Liniment for Rheumatism.

Chas Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by all druggists.

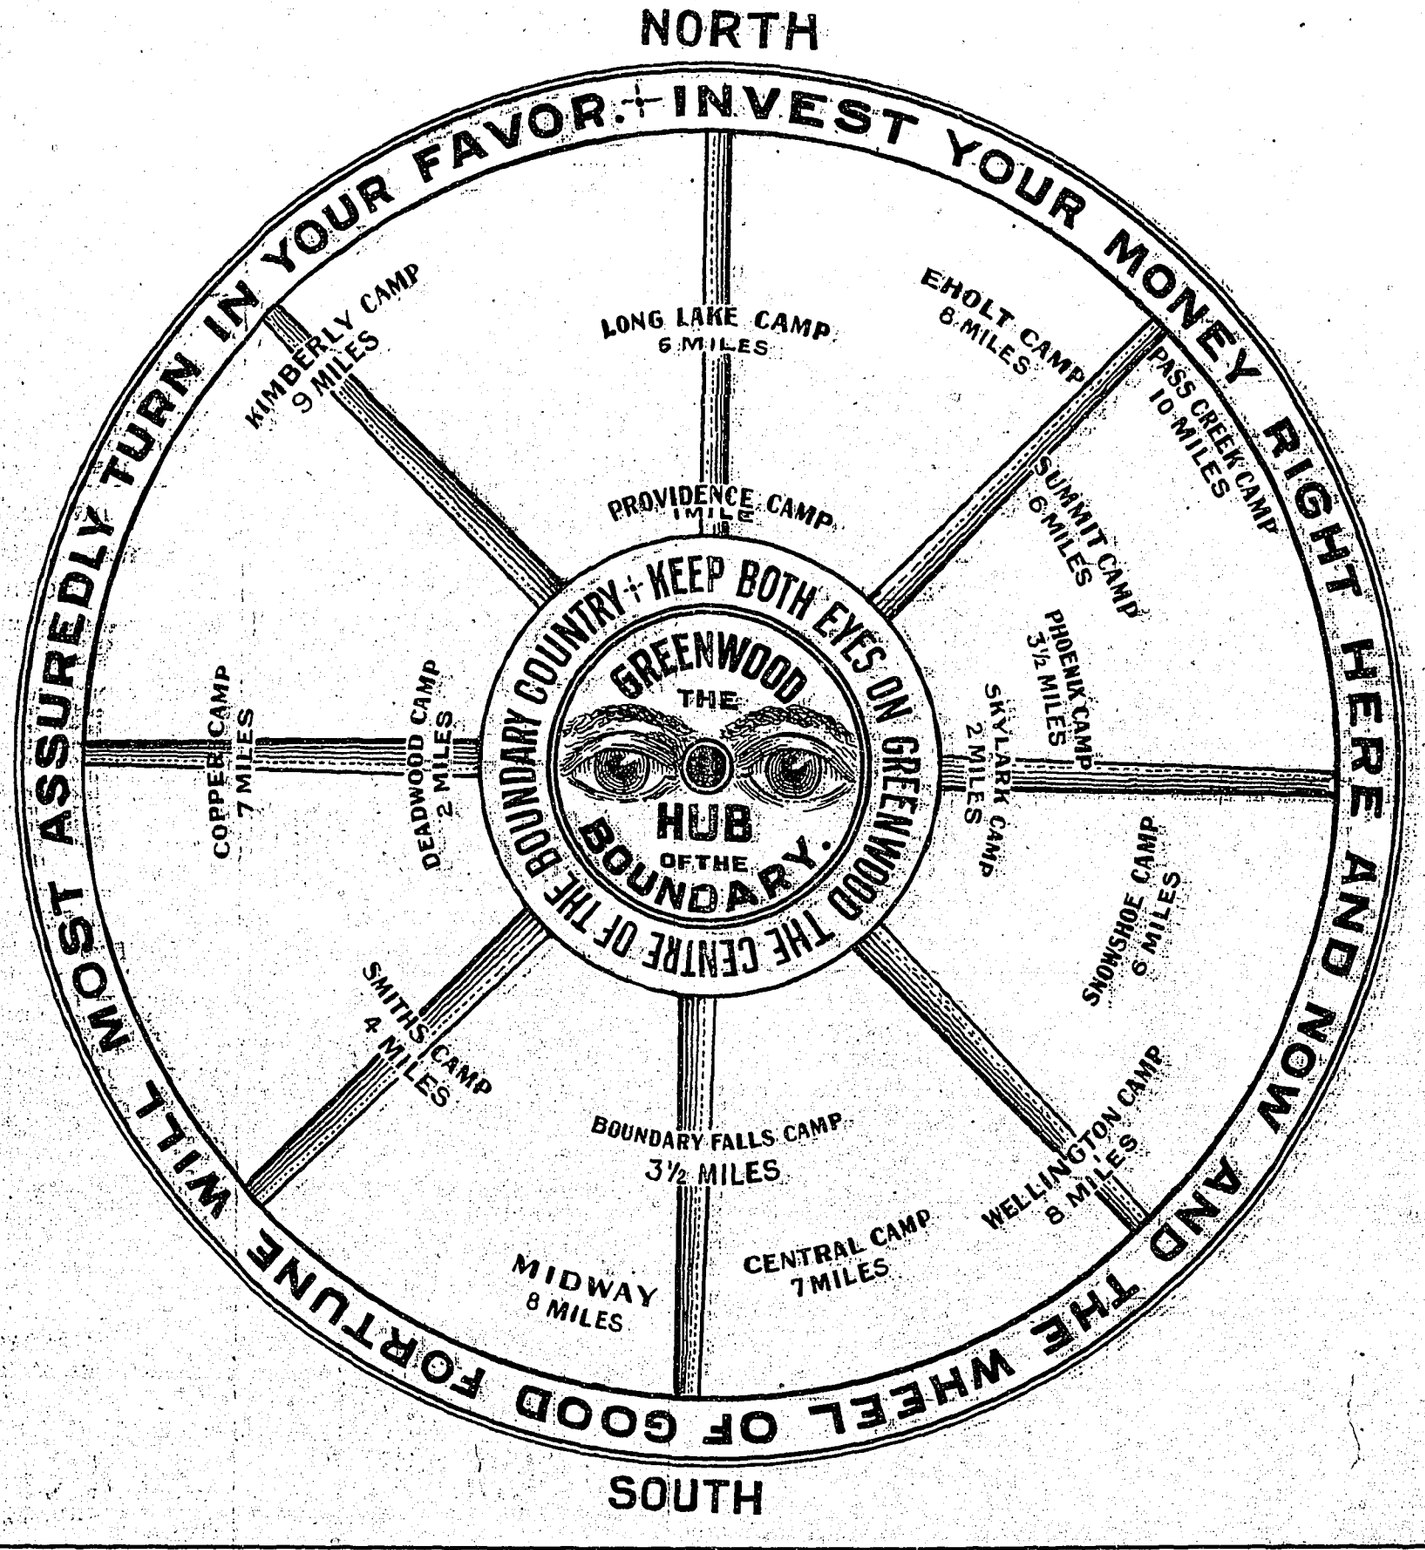
Job Printing
IS A WORK OF ART
Let us show you what we can do in that line for you.

No Time Equal to the Present



Never in the history of the Boundary has the district had a brighter outlook than today. With the successful development of the immense large bodies of low grade ore and the enlarged and much improved facilities for treating at a very small cost, the continued opening up of new high grade properties and their successful and profitable operation has made the Boundary famous as a mining centre, and every day adds more to the list of new finds and bigger values. It is readily admitted that Greenwood is the Eldorado of the Boundary with all roads leading thereto, and surrounded as it is, with such magnificent resources is destined in a few years to be a second Butte. If you therefore want to participate in its future prosperity, now is the time to invest both in mines and real estate. For **NINETY DAYS** we intend giving you a chance to make a safe and profitable investment. Every lot we own will be put on sale at rock bottom prices during the above period. Prices ranging from $50.00 up, at terms to suit the purchaser. Make your selection and make it early.

RALPH SMAILES,

AGENT FOR THE GREENWOOD TOWNSITE COMPANY.

A CLOSE CALL.

McBride Government Only Secures Two Majority on School Bill.

A motion to give the public school bill a six months hoist was only defeated Monday by 19 to 17, both socialists and labor members voting with the government.

Hall (Victoria), resumed the debate on the second reading of the bill Monday afternoon. He spoke for upwards of half an hour, and closed by moving that the bill be read the second time six months hence instead of now.

Carter-Cotton (Richmond), immediately moved an amendment to adjourn the debate. A vote taken on Cotton's amendment resulted as stated - 19 to 17, as follows:

For—Tatlow, McBride, Wilson, Cotton Clifford, Bowser, Fraser, Ross, Davidson, Ellison, Green, Fulton, Garden, Young, Shatford, Grant, A. Macdonald, Hawthorthwaite, Williams—19.

Against — McInnes, Drury, Hall, Cameron, McNiven Murphy, Jones, Evans, Tanner, Henderson, J. A. Macdonald, Oliver, Paterson, Wells, Munroe, Brown, King—17.

Absentees—Houston, Taylor, Wright, Gifford, McGowan.

A bill to amend the unrepealed provisions of the assessment act, introduced by a special message from the lieutenant governor, elicited a vigorous protest from the leader of the opposition. The bill proposes to subject mining companies to special regulations in regard to assesments and Macdonald contended it was unfair to impose upon mining industries conditions not enforced as against other property or income interests. The mining industry had been subjected to enough bad legislation he thought, without the government bringing down a measure of this kind, which was merely a case of class legislation, the proposed regulations not being enforced against personal property incomes. The bill read as follows:

The unrepealed provisions of the Assessment Act, being chapter 179 of the revised statutes, 1897, are hereby amended by inserting after section 16 thereof, the following sections:

"16a—At any time after making an assessment or accepting taxes based upon a return or returns furnished pursuant to section 14 thereof, should an assessor ascertain that said return is, or said returns are, misleading, incorrect, or did not furnish sufficient information upon which to arrive at the correct amount, at which the output of the mine in question should have been assessed, for the period covered by said return or returns, the assessor may, from such information as he may be able to obtain, notify the manager or other person to whom notice may be addressed of the additional amount payable in respect of the output of such mine for said period, and require payment thereof, and such notice shall state the date of a special meeting of the court of revision and appeal to be held not less than 14 days after the date of said notice.

"16b—Any person who is dissatisfied with the amount claimed by an assessor, acting under section 16a, may appeal to said court of revision and appeal against said assessment and he shall be entitled to have his objection heard by such court. The court of revision and appeal shall have power to sit from time to time specially to hear and determine such appeal which shall state the grounds of objection in detail, and must be given by the person making the same within ten days from the date of said assessment notice.

"16c—The powers conferred by section 16a and 16b shall apply to assessment and taxation in respect of the past as well as in the future output of mines, and to returns received before as well as to those that shall be received after the passage of this act.

"16d—All assessment hereafter made by assessors upon the output of mines after the assessment based upon quarterly returns that were misleading, incorrect, or which did not furnish sufficient information upon which to arrive at the correct amount at which the output of the mine in question should have been assessed for the period covered by said return had already been made, are hereby ratified and confirmed where no appeal has been taken against such assessments and where appeals have been taken against such assessments, then the assessments as fixed by the court of revision and appeal are hereby ratified and confirmed; provided, however, that this section shall not affect any litigation now pending regarding such assessments; provided further, that upon the termination of any such litigation, should any one such assessment be held to be invalid either in whole or in part, then the assessor may make a re-assessment or re-assessments under the powers conferred by sections 16a, 16b and 16c hereof."

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on sales.

A license is issued so soon as a berth is granted but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet, B. M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligable to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Ottawa, February 4th, 1905.

A Safe Cough Remedy for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by all druggists.

NOTICE OF FORFEITURE.

To John Nelson, J. A. Munson and H. Magnuson or to any person or persons to whom they may have transferred their interest in the Morning Glory and Rainstorm Mineral Claims situate on Cedar Creek, main Kettle River, in the Greenwood Mining Division of Yale District.

You are hereby notified that we have expended the sum of $400 for work on the above mentioned claims and $10 for recording the same for assessment work for two years, such being required and necessary to hold said claims for the years ending the 6th of June, 1903 and 1904, under the provisions of the Mineral Act and Amending Acts and if at the expiration of ninety days from the date of first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure together with all costs of advertising, your interest in said mineral claims shall become invested in us, your co-owners, upon filing in the proper office in that behalf the affidavit required by section 4 of the "Mineral Act Amending Act, 1900."

Dated 3rd March, 1905.

CHARLES E. JOHNSON.
JOHN BERGMAN.

Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism, not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm and without taking any medicine internally. Rev. Amos Parker of Magnolia, North Carolina, suffered for eight years with a lame hip, due to severe rheumatic pains. He has been permanently cured by the free application of Chamberlain's Pain Balm. For sale by all druggists.

CURLING CLUB DANCE.

It Proved to be The Social Event of The Season.

The second annual ball of the Greenwood Curling club in Masonic hall Monday night proved to be the social event of the season. There were upwards of fifty couples in attendance. Thanks to the excellence of the arrangements the affair passed off without a hitch. The music furnished by Bush's orchestra was excellent, while the programme comprised the most popular dances. An interesting feature was the presence of a number of ladies from Grand Forks. The visitors expressed themselves as delighted with the courtesies extended them and declared that the dance was one of the most delightful functions they had ever attended in the Boundary.

The ball room was prettily decorated with bunting and green and illuminated with shaded electric lights presented a most artistic effect. Sitting out places were provided for the chaperons, and cosy corners for the young people who cared to indulge in mild flirtations. A survey of the ball room thronged with merry dancers would have dispelled any lingering doubt that Greenwood society had not attained the stage of metropolitan culture. The dresses of the ladies were beautiful, many of them being triumphs of the dressmaker's art. Regret is expressed that the description of these dresses is not more complete

At midnight an excellent supper, provided by the wives of the married curlers, was served upstairs. The supper room was tastefully decorated. A long table laden with da nty salads, etc., extended down the centre, while the guests occupied smaller tables ranged on either side. A display of plants and cutflowers added to the aesthetic effect.

Among those present were: Mrs. McMynn who wore a handsome white taffeta; Mrs. Bishop, a dainty nun's veiling; Mrs. Allison, black net over silk; Miss Warren, a dainty white organdie over blue taffeta silk; Mrs. Mathison, a pretty black gown trimmed with honitan lace; Mrs. Rendell, black net over silk with sequins; Mrs. A. B. W. Hodges, Grand Forks, looked charming in cream etamine trimmed with silk cluny and sequins over Nile green taffeta, ornaments, pearls and diamonds; Mrs. T. H. Rea, Grand Forks, black net trimmed with sequins over silk taffeta, ornaments, diamonds; Mrs. W. A. Williams, Grand Forks, cream silk trimmed with real lace; Mrs. Elvie Taylor, Los Angeles, Cal., looked sweet in cream silk trimmed with cream satin ribbon and faggoted yoke: Mrs. Warren, grey voile over silk taffeta and looked decided smart; Miss English, crushed strawberry satin; Mrs. McAllister, pale yellow silk with black lace; Mrs. Fair, black net over silk; Miss West, wore a dainty cream gown and looked decidedly chic; Mrs. Elkins, black net over taffeta silk; Miss Wood, a dainty cream voile; Miss Goddard, white organie; Mrs. Shaw, cream with pale blue velvet shoulder straps; Mrs. Williams, white organdie with chiffon; Miss Martin, a dainty cream gown; Miss Whiteside, black net over taffeta silk; Mrs. McLaine, black lace over satin; Mrs. Ehrlich, pongee silk; Mrs. Keffer, black silk skirt and cream silk waist; Mrs. Gray, Montreal, a beautiful grey voile with lace to match; Mrs. (Dr.) Simmons, black voile over silk taffeta with silk to match; Miss Schon, black satin; Miss Schon, white organdie; Mrs. Grierson, black silk; Mrs. Coles, pink organdie; Mrs. W. T. Hunter, black silk; Mrs. Stephens, black voile over silk; Mrs. Hodge, blue cashmere with cream applique; Miss Courtney, cream silk voile.

NOTICE.

I have had stray animal on my place since middle of October last, viz. a red heifer coming three year old, no visible brand or mark of any description. If not claimed within three week from date of this insertion will be sold to pay expenses.

Dated this 3rd day of March, 1905.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY.

"COMPANIES ACT, 1897."

I HEREBY CERTIFY that the "Spokane Boundary Mining Company" has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Spokane, within the County of Spokane and State of Washington.

The amount of the capital of the Company is one hundred thousand dollars, divided into one million shares of ten cents each.

The head office of the Company in this Province is situate at Greenwood, and Arthur M. Whiteside, Barrister, whose address is Rendell Building, Copper Street, Greenwood, B. C., is the attorney for the Company.

The time of the existence of the Company is 50 years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 30th day of January, one thousand nine hundred and five.

[L. s.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been established and registered are:

The location, acquisitison and operation of mines and mining property, and dealing generally in mining claims, both quartz and placer; the working, operating and conducting mines, and acting as a miner under the laws of Washington, and when lawfully registered, under the laws of British Columbia; to lease, work as a partner or otherwise, own and hold and control all charter of mining properties, and to equip the same with all character of machinery and necessary appliances; to deal in and dispose of mines, and to let the mining property of this Company to others to work as lessees or upon royalty, or in any other manner deemed to be proper by the trustees; to build smelters, concentrators and reduction works, and means of transportation in connection therewith, including trams and railways; to acquire timber and timber lands, and real property of all kinds whatsoever; to smelt, refine, reduce and concentrate ores of all persons whomsoever; to deal in and dispose of real and personal property of all and every character; to equip electric plants and waterworks, and to supply electrical power and water to the public generally; to borrow money and to issue debenture and other bonds therefor, and all character of evidences of indebtedness; and to mortgage hypothecate or pledge by mortgage, deed, deed of trust or otherwise, any and all of the property of this Corporation to secure its indebtedness, and to acquire funds for any business deemed expedient, proper or necessary; and to do each and every act deemed by the directors of this Incorporation necessary to carry out the general purposes of this Incorporation as herein set forth.

"Pinto" Shell Cordovan

Used in H.B.K. Mitts, Gloves and Moccasins—tough as whalebone, flexible, soft, pliable, scorch-proof, wind-proof, boil-proof, crack-proof, tear-proof, rip-proof, cold-proof, almost wear-proof—certainly the greatest leather ever used in mitts and gloves.

Like buckskin it is tanned without oil, unlike buckskin it is not porous, it is wind-proof—will outwear three buckskins.

"Pinto" Mitts and Gloves never crack or harden, never get sodden, are always warm, pliable, soft and comfortable.

Sold at all dealers but never without this brand:—

I. H. HALLETT.

Our Mines

C. J. McArthur is engaged hauling a steam plant to the Bay mine.

It is understood that a new boiler will be installed at the Providence mine shortly.

Frank McFarlane, a well known pioneer of the Boundary district, has gone to Tonapah, Nev.

Last week saw a new record established by Boundary smelters, the total amount of ore treated reaching 20,274 tons.

Hardy brothers, of Grand Forks, have concluded a contract for lime with the Granby smelter company. It calls for delivery within ninety days.

Fifty men are at work enlarging the plant of the West Kootenay Power & Light Co., at Bonnington Falls on Kootenay river, the supplementary power to be distributed in the company's territory.

Ore shipments this week were as follows: E.P.U., 45 tons; Skylark, 60 tons. There are large accumulations of ore at the Last Chance and Bay mines which cannot be shipped until the roads improve.

A rich strike of grey copper is reported from the Athelstan fraction, Wellington camp. The shaft has attained a depth of 35 feet. The property is owned by P. B. Nelson, John Buckley and Forbes M. Kerby.

A small hoist was installed at the Skylark last week, for the purpose of continuine the sinking of the shaft. A night force of eight men was added to the crew at the property on Saturday. Some exceptionally rich ore was encountered this week in the regular course of stoping.

Work was discontinued last week at the Senator mine in Summit camp, and the last car of ore shipped to the Granby smelter. The property was under lease and bond to the Granby company and has been worked for several months, some 3000 tons of ore useful as a flux having been shipped from the glory hole of the property. The ore having given out, practically, work was stopped and foreman Rogers is now busy at the Winnipeg.

Saturday the new ore crusher recently installed at the Granby mines, was put into commission and is being run light for a few days, after which it will do regular duty. Like the one installed two years ago at the Knob Hill mine, it has a rated capacity of 150 tons of ore per hour or 3600 tons every 24 hours. The two big machines thus have a crushing capacity of 7200 tons each 24 hours if driven to their full capacity.

T. H. Rea, general manager of the Betts and Hesperus mine, Hardy mountain, was a visitor here this week. He reports that the compressor plant recently installed is working nicely. A tunnel being driven to intersect the main ore zone at depth has already been extended 150 feet and has crosscut an ore shoot fifteen feet in thickness. The mine will start shipping to the Granby smelter via the Great Northern railway early in May.

Negotiations are now pending whereby W. T. Hunter, of this city, will secure a bond on the Seattle mine, located ten miles north of Grand Forks on the North Fork of the Kettle river. The deal has not yet been completed, but it is expected that the papers in the transaction will receive the signatures of the interested parties in a day or two. The Seattle is owned by Robert Clark, the locator, and Hay, McCallum & Wright of Grand Forks.

The Boston Commercial says: British Columbia Copper company issued a statement of its condition at the close of business Nov. 30, 1904. It gives the surplus earnings for two years as $88,922, which would amount to about 15 cents per share annually on its outstanding 315,150 shares of stock. Within this two years the report says, 73,258 shares of treasury stock have been disposed of, and $320,780 have been expended upon additions to plant and in acquiring new mining interests. It is not stated whether or not the cash thus expended was the amount received for the stock sold. It is declared that the mines have quite as much more ore in sight and proved as at the time of the last report.

The Cascade Power Co.'s plant is likely to be enlarged this year.

The Lake Mining Co. will expend $750 per month as a starter in the development of its group in Skylark camp.

Diamond drilling still continues on the Monarch for the Granby Co., and in a short time development, in the way of stripping, will be started.

J. N. C. Jenckes, of the Jenckes Machine Co., Sherbrooke, Que., visited the Boundary this week. He was here Wednesday, accompanied by R. P. Williams, B.C. agent of the company. Mr. Jenckes inspected the smelters and big mines.

The recent strike on the Sally mine, West Fork, has proved to be remarkable. The carload of ore shipped from Midway yesterday to the Trail smelter sampled $250 per ton. Another car load will be shipped next week. The output is 2½ tons per day, the vein being 30 inches wide.

A 25 h.p. boiler and a Snow pump are being installed at the Bay mine. It is intended to begin the work of sinking forthwith. Since drifting and stoping were started from the 40-foot level about 70 tons of ore have been extracted. The ore house is filled, the first grade quality exceeding 35 tons. Piled outside are 25 tons of second grade ore. The Bay will be unable to ship until a wagon road is built. So far all efforts to secure aid from the provincial government have failed.

The Minnehaha Copper Mining company, operating near Danville, Wash., has concluded to develop that property on a large plan. Plans are now being made to extend the big tunnel from the foot of the hill to cut the Minnehaha vein at depth. The total length of the tunnel will be about 1000 feet, and will be the longest tunnel in that section of the country. The tunnel has been started and is now in a distance of about 250 feet. When completed the big hole will open up most of the veins on Minnehaha hill, and will be of inestimable value to the camp. The company has been steadily developing the properties for the past three years, and some good ore has been sent out. There is now considerable ore on the dumps, and more is blocked out. The company is said to be in good shape and to have sufficient funds to finish the work contemplated.

James H. Wells, of Chicago, returned home last week after a complete inspection of the high grade mines of this camp. As a result of his visit, it is likely that Mr. Wells will become interested in one or two propositions. Mr. Wells was shown over the camp by Alex Miller of this city. Before leaving for Chicago Mr. Wells stated that the high grade properties in the vicinity of Greenwood had impressed him very favorably; in fact he regarded the mining outlook as exceptionally bright. In his opinion all the camp needed was a little more publicity in American investing centres in order to divert here much of the capital that is now being invested in Mexico, Arizona and Nevada. Mr. Wells, accompanied by Mr. Miller, visited Phoenix and were shown through the Granby mines by Mr. Hodges, the general superintendent. He stated that the size of the ore bodies far surpassed his most sanguine expectations.

Operations were resumed last week at the Winnipeg mine, Wellington camp, after a close down of some sixteen months and the sale of the property to satisfy the labor leins against it. A couple of weeks ago W. T. Hunter, C. D. Hunter, James Hunter, S. Macy and A. B. W. Hodges made a bid for the property to Judge Leamy, of the county court, and it was accepted. The Granby Co. has made an agreement for a bond on the Winnipeg, the price not being made public, but it is believed to be in the neighborhood of $15,000. Several thousand feet of development has been done on the Winnipeg in the past, the mine having a 350-foot shaft, with much drifting. It has a small machinery plant, including air compressor, pumps, hoist, etc., with bunkhouse. A spur of the C.P.R. was built to the mine in 1899, and altogether some 5,000 tons of ore were shipped to the several smelters. The company, however, operating the Winnipeg, was always hampered for funds, and was unable to give it the development it was believed to be worthy of. Two or three cars of material have been taken to the mine last week, and three shifts will be employed in taking out the water.

AMBULANCE FUND.

A meeting was held at Mayor Naden's office Friday night, March 3rd, to consider ways and means for providing a public ambulance on behalf of the city and surrounding camps. After discussion it was decided to call a public meeting for Monday, March 13th at 8 p.m. in Eagle's hall. Everybody is cordially invited to attend. Steps will likely be taken to appoint a committee with authority to canvass for subscriptions throughout the district. The proposition is one well worthy of public support. Randolph Stuart, the acting secretary, has written the Vancouver City hospital enquiring for data respecting the cost of an ambulance, etc.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Skenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by all druggists.
