Simmer's Seeds

For Vegetables and Flower Gardens

The difference between these seeds and other brands is, we buy ours outright, stamp them with our name and date, and what we don't sell, we destroy. The seeds sold by other dealers are handled on a sell and pay basis, that is, what the dealer don't dispose of, he returns to the nursery, and you get them again next year, old seeds in new packages.

W. ELSON

THE ELKHORN MINE

After Varying Experiences Has Been

SUCCESSFULLY FINANCED

In Spokane, and Work of Development Will Be Carried on Vigorously—Property a Good One.

Through the influence of Dr. J. E. Spankie and H. V. Fuller of this city, the Elkhorn has been placed on a sound financial basis and the work of development will now be carried forward with despatch. The Elkhorn adjoins the Providence and has in it great possibilities. Latterly work has been carried on under the serious handicap of a shortage of funds. Its largest share owners have never lost faith in the Elkhorn and the public has waited full of belief in the outcome.

The former owners of the property, Sutherland and McDonald, were always enthusiastic over the property, and they had a right to be. They took hold of it after desultory work had been done on it by several people, and in a short time extracted nearly $75,000 worth of high grade ore therefrom, ores that were excessively rich in silver. Soon after merging the property into a joint stock concern the lead was lost. Differences of opinion appear to have arisen as to methods to follow, or directions to run for the ore, but shortage of money interfered with carrying on a well-defined and systematic plan of operation.

Now, however, with money for methodical mining a system of development in sympathy with the findings in the property and its relations to the Providence and other leads, will be inaugurated, and mining will begin. The company will proceed from known results, and with effective management there is little doubt that within a very short time the Elkhorn will again enter the shipping list.

MIND TABLETS

Be not disturbed about the future, for if you ever come to it, you will have the same reason for your guide which preserves you at present.

Always think twice before you speak once, and remember, one word of slander may do your neighbor irreparable injury.

The friends that wealth makes are as the quicksands, but the friends of poverty are like the fixed stars in heaven.

One secret of self-denial, one sacrifice of inclination to do duty, is worth all the mere good thoughts, warm feelings, passionate prayers, in which some people indulge themselves.

I hold not with the pessimist that all things are ill, nor with the optimist that all things are well. All things are not ill, and all things are not well, but all things shall be well, because this is God's world.

The habit of blaming others when things go wrong is an insidious and dangerous one. Far more is it to the purpose to inquire within whether the fault, or much of it, may not lie at home.

Live not for selfish aims. Live to shed joy on others. Thus best shall your own happiness be secured; for no joy is ever given that does not have quick echo in the giver's own heart.

Courage! Courage in everything! It is inseparable from all real worth of any kind. The average woman sees it not less than does the deep sea diver. It takes more courage to live and it takes still more courage to enjoy living.

RICH HAUL

Montreal.—United States officials in this city have been notified to look out for a New York diamond robber, who, according to the best information, has left Europe with a half-million dollars' worth of precious stones. Now that there is an import duty of 5 per cent. on diamonds coming into Canada the Dominion officials are also hot on the trail. The different Canadian ports are being watched, as the Washington authorities have learned that he has sailed or is about to sail for Canada.

Heredity is what a man blames his father and mother for, and environment what he blames his wife and children for.

PAY ORE COLUMN

Electric power has been applied to the big crusher on the Mother Lode.

The new electric compressor at the Emma mine is in commission and is working very satisfactorily.

The Granby Co. has installed a large crusher at the Gold Drop mine with a capacity of 3,000 tons in 24 hours.

The new compressor on the Idaho mine is to be operated by a 300 horse power electric motor recently arrived.

Work will be resumed on the Prince Henry next week. Some fine ore is on the 225 foot level, where drifting will begin.

SERVICES AT SACRED HEART

Ite Missa Est.....In Tempore Paschali

EVENING.

O Salutaris.....L. Bordese
Regina Coeli.....M. Labat
Tantum Ergo.....B. Hn
Laudate.....Gregorian Chant

CAN YOU SOLVE THIS?

We submit the following problem to those mathematically inclined, particularly to the fellows who figure for the Great Northern railway:

A certain American railway last year paid the Times a set price for a certain space, paying in railway transportation at regular rates. Beginning with 1907, the new commission law in the state of Washington made such an exchange illegal, decreeing that railways must pay in cash for their advertising and that newspapers must pay in cash for their transportation. For the year 1907 the said railway offers the Times half last year's price for same space. Query—Did the railway in 1906 charge us twice as much as the transportation was worth, or has the appointment of a railway law and commission doubled the value of their mileage?

C. P. R. GETTING BUSY

Some time ago it was reported that the C. P. R. had made the statement that Hill's invasion of Canada would be met by the Canadian's further invasion of the American field. The Canadian at present has virtual entrance into Spokane over the new Corbin road. Now comes the news that by May 1st next, the Canadian will be running trains into Portland, Ore., a contract for use of tracks between Spokane and the Webfoot capital having been made with the O. R. & N. Co.

WHAT IS A GENTLEMAN?

The question always comes up: What is a gentleman? Some say he is a man with a silk hat, and others a man with a smooth tongue. But men connected with the newspaper trade have a canon of their own. "Mr. Editor," said a patron one day, "how is it you never call on me to pay for your paper?" "Oh," said the man of types, "we never ask a gentleman for money." "Indeed!" the patron replied. "How do you manage to get along when they don't pay?" "Why," said Mr. Editor, "after a certain time we conclude he is not a gentleman, and we ask him."—London Mail.

JUST OFF THE BAT

The Honduran capital has fallen into the hands of the Vicaraguan enemy, and the war seems over. The sword is mightier than the mule.

Agrarian troubles in Roumania are resulting in the sack of farm houses and the slaughter of peasants.

Moyer, Pettibone and Hayward will be tried separately and at Boise.

France is having trouble again in Moroco, and Kaiser William is blamed for it.

Harry Wright was elected by acclamation on Monday last to fill the seat in Dewdney, left vacant by the resignation of Premier McBride.

Coppers, like railway stocks, appear to be settling down. The wise ones are buying B. C. Copper Co.'s shares these days.

This is the time of year when Mr. N. Stewart Dunlap, at the head of the floral department of the C. P. R., is busy sending out the flower seeds which will beautify a thousand spots along the line of the great transcontinental.

Call at the Greenwood Bakery for New England bread.

GREENWOOD IN FRONT

For Many Years Sub-Port to Grand Forks

BECOMES PORT OF ENTRY

Collector McCutcheon Will Have Several Sub-Ports Under His Control Henceforth.

Greenwood the centre of a large customs paying district and natural port of entrey to the growing country west is at last coming into its own, largely through the representations and good offices of Representative Ross. Greenwood has been designated as a port of entry. At least subports Midway, Bridesville, Sidley, Osoyoos and Keremeos will be tributary to Greenwood and Collector Hugh McCutcheon will have a promising field under his control. Last year Greenwood reported to the Grand Forks office collections of nearly $60,000, the exact figures being:

Customs	$37,618.42
Inland Revenue	20,708.53
Total	$58,326.95

The amount was collected in sums ranging from five cents upward. Hitherto the western sub-ports named have reported to Grand Forks, but now that they have been arranged as part of the Greenwood field, the importance of this port will be wonderfully increased.

It is believed that Myncaster will presently be made a sub-port as the natural Canadian inlet of the Chesaw country south and west. Inasmuch as the Great Northern is the natural outlet of all this Chesaw district fast coming into importance, and as that road for a long distance keeps within Canada a port of some importance will doubtless develop at Myncaster.

It is understood that attached to the staff of Collector McCutcheon will be D. A. Macdonald as Preventive officer in Greenwood and Robt. D. Kerr as Preventive officer at Bridesville. These appointments will command general approval.

EXPECTS SOMETHING

Finance Minister Tatlow has written to John Kirkup, the government agent to have the figures verified which were prepared by City Assessor John Gibson at the request of the city council and forwarded to the provincial government, in regard to the property of the several mining companies within the city limits, which, owing to the law, the city is not allowed to tax. This statement was sent to the government with a request that the city be allowed a portion of the two per cent. tax collected from the mining companies within the city limits. The fact that the Finance Minister is having the figures verified, taking in connection with the statement of Premier McBride that Rossland is entitled to something and that he would give the matter favorable consideration, it is thought indicates that the government intends to make the city a grant. A few thousand dollars a year from the government would be most acceptable to the taxpayers of the city.—Rossland Miner.

RILWAY SUIT

The suit between the Canadian Pacific and V., V. & E., involving a matter of trespass in the Myers creek canyon, and which caused such excitement at Midway about fifteen months ago, is being heard this week by Chief Justice Hunter. There is a large array of legal talent on each side.

Canada Booms

For the eight months ending with February, Canadian trade totalled $410,000,000, being over $51,000,000 more than for the corresponding period last year.

For the same period the revenues reached the $58,000,000 mark, a gain over the like period of last year of over $8,000,000.

Expenditures increased only half a million so the government's financial betterment for the eight months as compared with last year was seven and a half million dollars.

HALF HOLIDAY

Mr. J. H. Hawthornthwaite, M. P. P., has proposed in the Provincial legislature an amendment to the Shops Regulation Act of 1900, as follows:

"3. (1.) All or any classes of shops shall be closed and remain closed after six o'clock in the afternoon on each and every day of the week except Thursdays and Saturdays, and on Saturdays after nine o'clock in the afternoon, and on each and every Thursday all and any classes of shops shall be closed at one o'clock in the afternoon and remain closed."

BETTER TERMS

Premier McBride's Better Terms resolution carried by a vote of 20 to 10. Mr. J. A. Macdonald, leader of the opposition, introduced an amendment to the main resolution, but which was voted down. This amendment agreed with the vital part of the main resolution and asserted that the measure of relief proposed by the Dominion government was inadequate and could not be accepted as a final and unalterable settlement.

The debate was for the most part free from fireworks and tirade, although A. E. McPhillips appears to have lost the key to which the music was set. Unable to force an adjournment of the debate, or to get an amendment forward, the Socialists refused to vote and left the house.

THINGS DOING

A fruit cannery for Kelowna.

A $200,000 Canadian Pacific depot for Calgary.

A $300,000 Grand Trunk terminal station for Ottawa.

A $1,500,000 Grand Trunk hotel for Ottawa.

Floods in the south and threatened industrial troubles everywhere.

Major Wood, acting on orders from Ottawa, is cleaning up the dance halls in Dawson.

The eight hour day for smeltermen, twice defeated in the local legislature, passed last Saturday without a dissedting voice, amid great applause.

LONDON'S DISCOVERY

Since the utter rout of the Socialist party, otherwise the Progressives, in London, at the recent election, the new council has been making an inquiry into the financial status of the municipality. Already a floating debt of $25,000,000 bearing 5 per cent interest has been discovered, and the council stands committed to an outlay on projects that call for over $100,000,000 more.

The Progressives were certainly past masters in high finance, and talked and voted dollars by the million with an ardor and spirit that is refreshing, if not commendable.

The new council finds itself in immediate need of $35,000,000 to carry on the city government, and where it is to come from is now a serious concern.

MATRIMONIAL

In sending his yearly subscription to one of the Winnipeg newspapers, a Manitoba farmer wrote: "Dear sir—If you see any women that want to get married, send them this way. I want a wife myself, and a good many more."—Detroit News.

PRICES OF METALS

The prices of the metals continue very satisfactory, and with slight fluctuations, hover around the following:

Copper	25 cents
Silver	67 cents
Lead	5 cents

OUTPUT OF BOUNDARY ORES

The LOW GRADE mines of the Boundary, which first began shipment in 1900, sending out 100,000 tons that year, have been steadily increasing. The 1906 shipments were 1,161,537 tons, and that of 1907 will be a large gain thereon.

The HIGH GRADES, up to the end of 1906, had in the past four years shipped out over 10,000 tons with a value of over $1,000,000.

DIMOND AND TEXAS

Are Being Syndicated for Operation

NEXT THE PROVIDENCE

Admirably Located and from Reports Ripe for Operation and With Promising Results.

A syndicate has been formed composed of prominent mining and business men to carry on the work of exploiting the Dimond and Texas claims lying immediately east of the Providence.

Both claims are crown granted and have been bonded for the syndicate at favorable prices and terms. The Dimond abuts against the Providence on the north and east and it is understood that the workings of the latter extend to the former's line.

The Dimond was the cause of considerable litigation two years ago. The local owners of the Providence persuaded that the property was valuable and should be secured by them before too late acquired it by purchase giving in payment therefor $8,000 worth of Providence stock. The deal was objected to by the Chicago shareholders and a bitter law-suit followed, resulting in the court's decision being adverse to the local people. The sale being declared off the property reverted to its original owner, William Diamond, and the stock was ordered cancelled. But the value of the property has not been overlooked by shrewd people and after much negotiation a deal has been effected by which it and the adjoining claim will be merged and worked by a strong syndicate.

Plans for the immediate development of the Diamond are being matured. It is claimed that the ore on the lower levels of the Providence has been opened to the Dimond line, and that as a result the property has been prospected in the most effective manner. The syndicates plan of operation will apparently be to sink on the Dimond at a point near the Providence line and as that properties levels are reached to extend the same into the Dimond and take out ore. If the data as given are reliable, and they are so believed, the syndicate will on a few months' outlay of wages be in a position to take out ore to carry development at the property's cost. Some good ore has been found on the Texas and large iron showings abound, but the Dimond particularly is believed to be a duplicate of the Providence.

TOOK EVERYTHING IN SIGHT.

"A toast to politics," the speaker began. "A toast to politics and politicians."

"I know a man whose son is 10 years old. To find out what his son's tastes were, this man put in the boy's room one day a Bible, a bottle of whiskey and a five dollar bill.

"If he takes the Bible, the father said to himself, its a sign he going to be a preacher. If he takes the money he'll be a business man. If he takes the whisky he'll be no good—a drunkard."

"And he crawled under the bed and waited for the boy to come in.

"When the boy came in he was whistling. He ran to the table like a shot and took the money and put in his pocket. He took the Bible and put it under his arm. He uncorked the bottle of whisky, took a mouthful of it, smacked his lips and went out whistling again.

"By jingo," said the father crawling out from under the bed, "he's going to be a politician."

Do Not Crowd the Season.

The first warm days of spring bring with them a desire to get out and enjoy the exhilerating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in midwinter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by all druggists.

THE FREE READING ROOM.

We think that the word Free Reading Room is, in a sense, a misnomer, as applied to the one in the rooms of the Miners' union. The managers, doubtless, aim to make it such, but the fact that the room is the meeting place of the Miners' union and the Socialistic club, practically shuts it at certain times against the public. We think, however, that the writer of a recent article in the Ledge hardly did the case in hand justice in dealing with the question. He robbed his article of much of its force by introducing matter entirely irrelevant. However, our sympathies are with him and his associates in the matter. We think the institution deserves some public recognition and even support. What if some Socialistic papers were found there? Who has the right to censor the reading matter chosen by the committee, so long as it is neither immoral or treasonable?

We went through the Reading Room recently and examined the literature displayed, and although we found some literature Socialistic, we found much more that was not. We found there the Victoria, Vancouver, Seattle, Spokane, Nelson, Winnipeg, Toronto, New York and other dailies. We found among periodicals the Munsey, Everybody, Review of Reviews, Physical Culture, All-Story, and, strangely it may seem, the Christian Guardian.

We cannot separate ourselves from the thought that the city owes this institution some measure of support. This is a mining camp, pure and simple, and the life of the miner enters quite largely into the town's life. The town's prosperity and welfare are closely linked with the physical, mental and moral well-being of those who work in the mines, the men on whose toil depends primarily the material welfare of most of us. We think the city owes these men something, and we know no easier way to acknowledge it than to contribute in measure to the support of the room, which, to very many of them, is their leisure-hour home. A well conducted reading room is a good asset in any community making as it does for public welfare.

EDITORIAL NOTES

THE Nicaraguans tallied one in the battle of March 20th with their Honduran enemy.

WHY blame labor for turning to what we call a silly nostrum, when capital is eternally besieging parliament for tonics and galvanics?

MARK TWAIN may immortalize himself by his great attack on Christian Science, but we think some of its teachings will outlive the memory of Twain.

MAN lives, like the mariner who sails an unknown sea. He rises in the morning to sound the depths or scan the horizon for headland or harbor, and he lies down at night ignorant but that ere morning his boat may have drifted on shore.

DOWN east, whence comes all inspiration for good, the maple sugar workers are obliged to work these fine Sundays. Maple sugar is more valuable than copper matte, and anyway the 100 cents a day men can't afford to lay off. The law!

KENTUCKY has long been quoted as the home land of whiskey. Something is happening down there. Out of a total of 115 counties in the state 95 have declared for local option. No "moonshine" about this, evidently.

THE report of the Canadian Insurance Commission is too intense reading to be interesting. It disgusts man with the whole tribe. The commission thinks there's lots yet coming to the policy holders, but we think there's lots coming to the management.

THE housewife can go to church and be good under the new law, but no respite is given the house servant, who has to hustle seven days a week. Better close the mines of British Columbia than have the head of the house eat cold roast one day in the week.

THE Society for Prevention of cruelty to Animals might well get after that Ottawa saloon keeper who uses a 5-year-old son for an advertisement and allows him to drink 20 glasses of beer in an afternoon. We in the west are being told to look eastward for light.

WE doubt, almost deny, that Divine Intelligence could have pronounced the work of His Creation "good," if it embodied the idea that man made in His image should live subject to all the ills with which we make flesh the legal heir. If He did, we wonder why the first colony in Eden didn't include a physician.

JUST as the young man who has always lived on the levels is turned down in public favor when some reformed one claims attention, so we look to see Botha become the bright particular pet of the Colonial Conference. Many British dead lie under the veldt today as the result of his past, whose kin will hurrah for Botha.

COLONEL HAYES SADLER, governor of the British East African Protectorate, in making a journey among wild tribes in a distant hitherto untraversed district, found the gramaphone a most effective weapon, its sounds cowing them into polite servility. We have long since been tamed in the Boundary by those selfsame weapons and would advise the Colonel to apply here for a lot of second-hand ones, cheap.

NEW YORK has been outdone, and Boss Tweed as the great ring master of civic corruption is forgotten. Now the scene has shifted to San Francisco, and Ruef is in the center of the sawdust. Members of the council, supervisors, Ruef and Mayor Schmitz appear to have all been after the redemption of a stricken city. Money flowed like water, and officialdom got boodle drunk.

CANADIAN IRRIGATION

In a recent Winnipeg interview, Mr. C. W. Peterson, general manager of the Canadian Pacific irrigation, in describing what is to be the greatest irrigated region in the world, stated "that his company's operations in eastern Canada, Great Britain and the United States had been materially extended this season and he confidently looked forward to an unprecedented rush of people to the C. P. R. irrigation block during the coming summer and autumn. The company has been materially hampered in its work in the United States owing to the undesirable advertising western Canada has received in connection with fuel famines and 'blizzard' stories. The press south of the line made the most of every item unfavorable to Canada that appeared in our local papers, which, after being duly magnified, were paraded before the people of the United States. The various land companies and railways interested in Texas and the southwest are also conducting a vigorous campaign with a view to diverting the stream of emmigration from Canada to the southern states.

"Mr. Peterson's company also has local prejudices to overcome. The whole subject of irrigation is imperfectly understood by the average resident of western Canada. Very few people grasp the full significance of the gigantic undertaking which is now being rapidly pushed ahead by the Canadia Pacific Railway company east of Calgary under the able direction of Mr. J. S. Dennis, assistant to the second vice president of the C. P. R, who has devoted the best years of his lif to the cause of irrigation in western Canada.

"The time is, however, coming when the west will realize the fact that the introduction of irrigation on a large scale is the most important agricultural development that Canada has ever witnessed. By the time the Canadian Pacific project is completed, sunny Alberta will rank as the foremost irrigation section of the American continent. That province will then contain an area equal to one-fourth of the total irrigated area of the whole of the United States.

"Those unacquainted with irrigation entertain the erroneus idea that this system of agriculture can only be profitably practiced in southerly latitudes. Somehow irrigation is popularly associated with fruit growing and other expensive crops. As a matter of fact, the backbone and foundation of every irrigation enterprise on the American continent from the Gulf of Mexico to the most northerly latitudes where irrigation is practiced, is the feeding and finishing of live stock. In the state of Colorado, where the largest area of irrigated land is found out of a total irrigated area of 1,500,000 acres, only 35,000 acres are devoted to fruit growing. Seventy-five per cent of the area is devoted to the production of feed for live stock, principally alfalfa. This state of affairs amply demonstrates that alfalfa more than holds its own against fruit as a profitable crop under irrigation. Alfalfa can be raised to perfection in southern Alberta, and it is, therefore, a logical conclusion, that acre for acre, the irrigated lands of Alberta are worth every cent as much as the irrigated areas in any portion of the United States outside, perhaps, of the watered lands devoted to tropical fruits in the state of California.

"The task the C. P. I. C. Co. has in hand is one of magnificent proportions. This company is the largest colonization concern on the continent of America and maintains a world wide organization. Questioned as to the ultimate result of the company's efforts in the Calgary district, Mr. Peterson stated that the expectation of the company was that within the next ten or fifteen years 150,000 people would be colonized within a distance of 100 miles east of the city of Calgary. The bulk of the land sales now are in areas ranging from 40 to 160 acres. Twenty acre farms will not be uncommon. Owing to the enormous earning powers of irrigated lands, farmers could make a good living off a fraction of the area usually required on the western farm. This system of colonization will naturally lead to dense settlement, which again will give rise to high land values. Mr. Peterson has no hesitation in predicting that within a very few years the irrigated lands east of Calgary will be the most valuable and expensive lands in Canada. The development of the oriental trade will ensure markets for all cereal and dairy products that the irrigation blocks will produce at highly remunerative prices, and with the construction of the Panama canal, the cost of transportation from the irrigation block to Great Britain will be vastly less than via the eastern outlet. In fact, Calgary will then be closer to the British market than points in Saskatchewan and Manitoba, taking into consideration the cost of transportaton.

"The industrial development of the irrigation block will proceed at a rapid rate. Beet sugar factories, creameries and all industries kindred to agriculture will be plentifully represented and will furnish local markets for the products of the irrigated lands."

Chamberlain's Cough Remedy is Both Agreeable and Effective.

Chamberlain's Cough Remedy has no superior for coughs, colds, and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. S. Pelham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading Remedy for all throat troubles. It is especially successful in cases of croup. Children like it and my customers who have used it will not take any other." For sale by all druggists.

SUNDAY SERVICES.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. J. A. BEDARD, O. M. I., pastor.

ANGLICAN—St. Jude's. Rev. John Leech-Porter, B. D., pastor. Services at 8 a. m., 10:45 a. m. and 7:30 p. m.; Sunday school, 12 p. m. All seats free. Services alternate Sundays at Boundary Falls, at 4 p. m., and Eholt at 3 p. m.

PRESBYTERIAN—St. Columba, Rev. M. D. Mckee, pastor. Services 11 a. m. and 7:30 p. m.; Sunday school 2:30 p. m.

METHODIST—Rev. H. S. Hastings, pastor Services at 11 a. m. and 7:30 p. m.; Sunday school, 2:30 p. m.

They were out in a cutter. It was bitter cold.

She—Oh, my fingers are so cold!

He—Well, why didn't you bring a muff?

She—I did.

And he has been wondering ever since as to where she had it, and why she didn't put it in use.—Lippincott's.

The world is for the man who can stay awake longest.

Widowhood is about the only compensation that some women get out of marriage.

Nervous Prostration

IT IS WORRY THAT KILLS, NOT WORK

Work without worry usually tends to prolong life. On the other hand, worry, with or without work, is fatal, because it uses up what the Doctors call the "Lecithin," a phosphorized fat which is the chief constituent of the brain and nervous system—a waste which, if not stayed in time, means complete nervous wreck. The evident moral is "don't worry"—advice easy to give, and in these days of stress and strain practically impossible to take. The alternative is: find some way of replacing the wasted Lecithin—the phosphorized fat. This absolutely essential element will be found in its most perfect, palatable and assimilable form in

FERROL

an emulsion of Cod Liver Oil and Phosphorus (phosphorized fat) together with Iron, the recognized blood builder—making FERROL the ideal nutrient it claims to be.

For the prevention or treatment of nervous prostration FERROL is absolutely unequalled—it is safe, sure and speedy.

The formula of FERROL is freely exposed, consequently

Certificate of the Registration of an Extra-Provincial Company.

"COMPANIES ACT, 1897."

I HEREBY CERTIFY that the "Fremont Mining Company, Limited," has this day been registered as an Extra-Provincial Company under the 'Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Spokane, County of Spokane, State of Washington, U. S. A.

The amount of the capital of the Company is three hundred and seventy-five thousand dollars, divided into one million five hundred thousand shares of twenty five cents each.

The head office of the Company in this Province is situate at Grand Forks, and Charles M. Kingston, Physician, whose address is Grand Forks, B. C., is the attorney for the Company.

The time of the existence of the Company is fifty years from the 7th day of November, 1906.

The Company is specially limited under section 50 of the above Act.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 11th day of March, one thousand nine hundred and seven.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which said Company has been established and registered are:—

To work, operate, buy, sell, lease, locate, acquire, procure, hold and deal in mines, metals and mineral claims of every kind and description within the Province of British Columbia and elsewhere: to carry on and conduct a general mining, smelting and reduction business: to purchase, acquire, hold, erect and operate electric and power plants for the purpose of mining and treating ores, and for the purpose of creating power and furnishing lights needed in and incident to the Company's business and mining; to bond, buy, sell, lease, locate and hold ditches, flumes and water rights; to conduct, lease, buy, sell, build or operate railroads, ferries, tramways or other ways of transportation for transporting ores, mining and other materials; to own, bond, buy, sell, lease and locate timber and timber claims, and finally to do everything consistent, proper, convenient and requisite for the carrying on of the objects and purposes aforesaid in their fullest and broadest sense, within the territory aforesaid. 29-32

To Employers of Labor:

Are you conversant with the Workmen's Compensation Act. The only absolute protection offorded is a Liability Policy. The "OCEAN" Policies, (the largest accident company in the world, with assets of over Seven Million Dollars) provides a complete indemnity against all liability, relieving you from all responsibility, worry and trouble.

Let Me Sell You a Chatham Incubator —On Time

Do you know there is big money in raising poultry? Do you know there is more money in running a good incubator than in almost anything else you can do for the amount of time and trouble it takes? Do you know my incubator will pay you a bigger profit than any other thing you can have on your place?

Well, all these things are true, and I can prove it. Thousands of people all over Canada have proved it every year for the last five years.

I want to quote you a price on my Chatham Incubator, —sold ON TIME. I want to send you my Chatham book. This incubator book is *free*— I'll send it to you for just a postal card. It tells you a lot you ought to know about the Poultry business—it tells you how to make *money* out of chickens—it tells you how my Chatham Incubator will make you *more* money than you can make with hens—far more, and with less trouble.

This book tells you how my Incubators are made—why they are the best ever invented—and why I sell them ON TIME and on a 5-Year Guarantee.

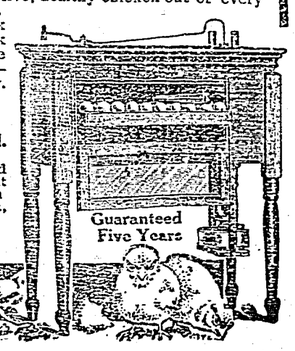
My Company has been in business in Canada for over 50 years. We are one of the largest wood-working factories in the country. We also operate a large factory at Detroit, Mich. We have the Incubator and Brooder business down to a science.

Chatham Incubators and Brooders will make you money, for a Chatham Incubator will hatch a live, healthy chicken out of every fertile egg put into it, in 21 days.

Will you write for my book today? Do it now while you think of it. Just say on a postal "Please send me your Incubator Book"—that's all. Address me personally.

Manson Campbell
President
The Manson Campbell Co., Ltd.
Dept. , Chatham, Ont.

NOTE—I carry large stocks and ship promptly from branch houses at Calgary, Alta., Montreal, Que.; Brandon, Man.; Halifax, N. S., Victoria, B. C., and factory at Chatham.



Guaranteed Five Years

The World Over
Told in Brief

The Anheuser-Busch labels of 1906, numbering over half a billion, if placed end to end, would circle the globe.

And now New Brunswick is asking for legislation that will enable the government to go into the telephone business.

According to a statement made by F. W. Morse, vice president and general manager of the Grand Trunk Pacific railway, that company will be prepared to give Edmonton a train service before the conclusion of 1907, by the new transcontinental line. It is the intention of the railway to carry out the original plans, which means that they will make full use of their agreement with the city, and enter by the right of way purchased by the city.

The outlook for a large number of immigrants this year is exceedingly bright. The department of immigration officials say that they expect about 300,000 immigrants this year. All the accommodation in the steamers is taken for some time to come.

The board of railway commissioners made a ruling recently of the utmost importance. The commissioners have the right to determine both freight and passenger rates, and in response to protests from the prairie provinces and from several bodies in Ontario and Quebec, the board has made an order reducing passenger rates to 3 cents a mile. This applies to the entire system from Calgary to St. John covered by the Canadian Pacific and the Grand Trunk.

The Nova Scotia legislature proposes to vote $300,000 at this session of the legislature to be expended this year in conjunction with amounts to be contributed by the counties on improving a number of the leading roads. The work will be carried out under competent supervisiors and will continue, with probably equally liberal government grants, for several years.

The rumor that the Grand Trunk is negotiating for the Canadian Northern is again in circulation. It is stated that Wm. Mackenzie was recently offered somewhere in the neighborhood of thirteen million for the property, but he refused the figure. President Mackenzie of the C. N. R., and C. M. Hayes of the Grand Trunk, are both in England at present and it is stated that the mattter has again been discussed.

Sir Thomas Shaughnessy, president of the Canadian Pacific railway, has recently gave out a statement in regard to the new lines that will be under construction this year by the Canadian Pacific railway, and for which allowances have been made in the appropriations. This statement shows that altogether the company has in hand extensions amounting to 958 miles of new lines, while the double tracking that is to be carried out comprises another 535 miles, making altogether nearly 1,500 miles, as compared with 1,000 miles under construction on the Great Northern, 1,900 on the Grand Trunk Pacific, and 1,500 on the Canadian Northern. The double tracking includes 426.7 miles from Winnipeg to Fort Williams, and 108 miles from St. Anne's to Smith's Falls.

News comes of a fatality which occurred at St. Simon, a small place between Caraquet and Shippegan, on Wednesday afternoon. During a heavy gale the roof and upper portion of St. John Comeau's residence was blown down. The family had to leave the house. Comeau took one child to the nearest house, a quarter of a mile distant, and returning for the rest of his family, got lost in the storm. He reached the house the following morning in a very exhausted condition, and found his wife and three children in the snow frozen to death.

The Montreal Star says: "The American Shipbuilding company is to have competition in the form of a Canadian plant to cost between $1,000,000 and $1,500,000. Chicagoans and other capitalists identified with the marine interests of the Great Lakes are at the back of the project. The new yards will be located at Fort William, and if the plans carry, the works will be ready for business in less than a year. The promoters will invest $500,000 as working capital, over and above the cost of construction, thus making the enterprise a two million dollar proposition. The company probably will be known as the Canadian-American Shipbuilding Corporation. Both stocks and bonds will be issued, but none will be offered for public subscription."

THE ORE TRAIN

Rossland—The Le Roi Mining Co. has taken an option on the group of claims owned by the Spitzee Mines, Ltd., which are located in the southwestern portion of the city limits and have an area of 110 acres.

Nicola—Nearly a hundred men are employed at the coal mines in the Coldwater and quite a little town has sprung up there during the winter. The Diamond Vale company is sinking a shaft and the Nicola Valley Coal & Coke company are drifting tunnels. It is said that another large company is getting ready to develop on a large scale. Arrangements have been made for the erection of coal bunkers at Spences Bridge, where the engines of the Western division will coal. This will provide a large output for the mines to start with. The valley is feeling the good effect of railway facilities even before the train service is put on, and what is wanted in there now is to see the C. P. R. built on down through Aspen Grove, and the V., V. & E. built up through Otter flat and up the Coldwater to the mines. This will give railway competition and at the same time develop some very rich timber, mineral and agricultural territory.

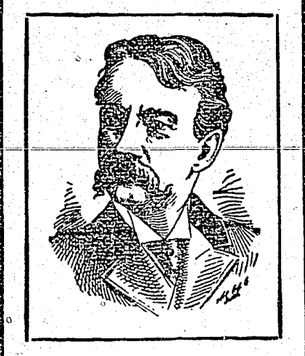
Fairview—Henry Lee, who is connected with the Stemwinder mine, at Fairview, B. C., was in Loomis last week, endeavoring to secure miners. He was not very successful, as there are no idle miners in camp. We found Mr. Lee a pleasant, intelligent gentleman and trust he may stray down across the border frequently in the future. He informed us that the Stemwinder is showing up fine bodies of ore that are being concentrated, and the tailings treated by the cyanide process, the property being fully equipped with the necessary plants to treat the ore. The experience of the Stemwinder is an illustration of the uncertainties of mining, and the reward that comes to persistent effort, where indications justify persistent effort. The Stemwinder was worked years ago, but suddenly the ore was lost. Work was suspended and the property remained idle for a long time. Then the company instituted a systematic search for the lost ledges, and after the expenditure of $40,000 the ore was recovered. A slip had taken place in the formation, thus displacing the ore bodies. Now the company has an immense ore deposit in sight with a good prospect of a richly paying mine. This same phenomenon was noticeable in the old Cariboo mine, at Camp McKinney, directly east of Fairview, where the ledges would cut off every few hundred feet, yet that mine, with a small stamp mill, put Jim Monahan, who went broke with thousands of others in the nightmare days of the early '90s, on his feet again, paying thousands of dollars to the owners. Slips are a contingency that may arise in any mine, and should not discourage owners to the extent of suspending operations.—Loomis Prospector.

Rheumatic Pains Relieved.

B. F. Crocker, Esq., now 84 years of age, and for twenty years justice of the peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by all druggists.

MEN

We Cure Every Case We Treat



OUR GUARANTEE:
NO PAY UNLESS CURED

When You Need a Specialist, Consult One of Wide Experience.

We are just now completing our twentieth year as specialists in men's diseases. During these years of close application to a single class of ailments we have originated and perfected the only scientific and certain methods by which these diseases are cured. If we accept your case for treatment, a cure is but a matter of a reasonable time.

We guarantee every man a lifelong cure for Varicocele, Hydrocele, Urethral Obstructions, Blood and Skin Diseases, Prostatic Troubles, Piles, Fistula, Loss of Vital Power, Kidney, Bladder and Special Diseases. We especially offer our services to those who are afflicted with weakness as a result of their own follies or excesses.

Our methods are up-to-date, and are endorsed by the highest medical authorities of Europe and America, Hence our success in the treatment of Men's Diseases. Remember, our specialty is limited to the diseases of MEN and MEN only.

We cover the entire field of nervous, chronic, deep-seated and complicated diseases.

CONSULTATION FREE.

If you cannot call, write for Symptom Blank. Many cases can be cured at home. All correspondence confidential.

SEATTLE, WASH.

People of Note
In Short Meter

Lord Curzon recently won the Chancellorship of Oxford, over Lord Roseberry, because he was known among the trustees as having been a worker when in college.

Dr. Daly, geologist for the Canada Boundary Commission, has accepted the professorship of physical geology at the Massachusetts Institute of Technology.

Commissioner Hermann appears to have been decidedly in on it in the Oregon land frauds. Thousand dollar bank notes are mighty persuasive documents to have on you when looking for things.

Francis J. Heney is making a great record in Oregon and California as a terror to evil doers.

President Hill says it is a mistake. He has no intention of resigning from the Great Northern.

In the suit of Peter Ryan versus the Bank of Montreal and J. D. Montgomery, the evidence of Geo. W. Fowler, M. P., read in conjunction with the findings of the Insurance Commission, is an unhappy commentary on some of our public men.

Captain W. Stephens, the recently arrived agent of the Salvation Army, says that his organization will bring 20,000 immigrants to Canada this year.

Sir Wilfred Laurier leaves on April 5th for the Colonial Conference, regardless of conditions in parliament.

Lady Pole-Carew, whose husband played a valorous part in the Boer war, has just been pronounced the handsomest lady in England. The vote was cast by all classes, from King Edward to the beggar, but a majority came from the middle and lower classes. As an evidence of how England's aristocracy mingles with the masses, it is estimated that at least 50 per cent of the workingmen of London knew Lady Carew by sight as well as the three other titled ladies who competed.

FROM THE DUMP

One grain of gold may be drawn into a wire 500 feet long.

The deepest shaft in Scotland is the Wemyss bore of 3,480 feet.

The world's deepest shaft is that of the Calumet and Hecla, Michigan, which reaches a depth of 8,100 feet.

One hundred Colorado miner's inches of water equal 19.5 United States gallons per second.

The largest diamond known was found in the Premier mine, Pretoria, South Africa. It weighed 3,025 carats, or about 1½ pounds.

In Germany there are about 100 Portland cement manufacturing plants, the annual output of which amounts to more than 25,500,000 barrels.

The Russian government allows a bonus of £20 ($100) per ton of metallic copper produced in Siberia.

The two deepest bore holes in the world are 6,700 feet—in Silesia—and 6,340 feet—in the Transvaal gold field.

Grease on the amalgamation plates of a stamp mill may be removed by energetic rubbing of a little caustic soda or soft soap over the surface.

A simple test for feed water containing copper, is to soak filings of soft iron in the sample, and add chloride of ammonia. The water turns blue if copper is present.

In Siberia, copper ore from the mines is hauled to the smelter by native carts and oxen in summer, and by camels and sleighs in winter, the cost being 12 kopecks per pood, or 6 cents per 43 pounds.

Calumet and Hecla stock is worth $1,000 per share. The par value of the stock is $25, on which only $12 was ever paid. Dividends amounting to more than $100,000,000 have been distributed up to date.

The Falun copper mine in Sweden, opened in 1288, is being worked by the oldest stock company in the world. In the 17th century it supplied the copper for the roughly-squared plates stamped with the value, the royal cipher and date, used as coins. The mine is 1,200 feet deep. The present small production is used for the manufacture of sulphate of copper. The deposit resembles that of the great Rio Tinto, in Spain, being an irregular mass of cupriferous iron pyrite, 500 feet wide at the outcrop and 650 feet long, but wedging out in depth. The ore carries 2 to 5 per cent copper and a small amount of gold.

Itching Piles.

If you are acquainted with anyone who is troubled with this distressing ailment you can do him no greater favor than to tell him to try Chamberlain's Salve. It gives instant relief. Price 25 cents per box. Sold by all druggists.

THE

COPPER HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man.

It gives the plain facts in plain English without fear or favor.

Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

HORACE J. STEVENS

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother,

(3 If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to esidence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,00 pounds shall be collected on the gross output.

PAGE OF PERSONALS

Dr. Mathison, dentist, Naden-Flood block.

Good Friday.

Winter persists in lingering in the lap of spring.

C. J. Lundy of Midway, was a Greenwood visitor this week.

Easter services in the Methodist church Sunday evening.

Easter services will, doubtless, bring out some good music in the churches.

The railway spur out at the new foundry is completed and the steel is laid.

J. W. Nelson has recovered from his recent illness sufficiently to be on the street again.

Visitors arriving in town Wednesday secured hotel accommodation with great difficulty.

Mrs. E. W. Bishop entertained a number of her friends at a musicale Monday evening last.

On Monday, April 1st, the Canadian Pacific will inaugurate a train service over the Nicola branch.

Electric power will be supplied by the Greenwood Power Co to operate the blower at the new foundry.

Arthur Rendell is going to remove his family to Eholt, where his business interests require most of his time.

Thos. Walsh has rented the Kootenay hotel to Morrison and Whalen, and will lead a life of leisure for a time.

C. J. Leggatt, barrister, of Midway, was in town Wednesday and Thursday discharging some professional matters.

For nice fresh flowers for funeral decorations and weddings, write or telephone Spokane Florist Co., Main 5, Spokane.

Judge Brown was busy in Chambers Thursday morning with the Blythe-Foulds land contest at Deep creek, on the West Fork.

An additional train crew has been placed in the Greenwood Canadian Pacific yards, consequent upon the expanding ore business.

Mrs. Thomas Jenkins, who has been very ill from pneumonia, is still in the hospital, but her friends are glad to know that she is improving.

The annual Beefsteak Pie dinner given by the ladies of the Methodist church has been postponed from Easter Monday to Thursday, April 11th.

Manager Drummond leaves next month for the Cobalt district, where some of his principals are interested, notably in the Nipissing property.

In St. Jude's, 7:30 p. m. this evening addresses will be given on the "Last Seven Sayings Upon the Cross." All are cordially invited.

It looks now as if the great labor question involving delay on five million dollars of building contracts in Seattle would be settled by arbitration.

"To him that hath it shall be given." Report credits George Rumberger with a nice little bunch of money as the outcome of a $100 grub stake last fall in Cobalt,

Mrs. A. E. Godenrath, for a long time resident in this city, passed away in Vancouver on the 18th inst. The deceased lady had many friends in Greenwood.

All stocks are panicky these days and some of the best have been pushed a long way down the line. The time now seems opportune for buying B. C. and Dominion coppers.

Contractor Bunting is getting repairs and enlargements of the Pacific under full swing, and in a few weeks a bigger, better hotel than ever will be doing business at the old stand.

We are pleased to observe that Mr. A. H. Sperry, who for years conducted a Copper street business, is now assistant general freight agent and passenger agent of the Spokane International railway.

S. T. Larsen, of the Riverside hotel, Rock Creek, is a Greenwood visitor this week. Sam is mayor of his village and is watching out for all the new things going, likely to benefit his home locality.

Thomas R. Hansen, who has, by close attention to business thereto, built up a very fine mercantile business at Rock Creek, has decided to extend his sphere of operations and is opening a store at Bridesville.

Henry B. Madden, formerly of the Pacific Hotel here was in town Tuesday. He reports Yakima very prosperous with a population of 11,000, and with great irrigation schemes in progress in the tributary district.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings.

"My Wife's Relations" at the Auditorium Wednesday evening was a very amusing entertainment. The play was full of absurd positions and their interpretation kept the audience in roars of laughter from beginning to end.

Geo. Findlay, James Hatch and Thos. F. Sutherland have, within the last few days, started for the Bulkley Valley, expecting to sail from Vancouver early next week, and catch the first boat of the season up the Skeena.

A Greenwood gentleman is in receipt of a letter from C. H. Norris, written at Aldermere February 12th. Mr. Norris reports that, at the time of writing, the weather was delightful, although December and January had been continuously severe.

James Mack is adding to his lustre as a song writer, having just had two new songs published in Chicago. "In the Ball Room Throng So Gay," and "She Is Dark as Gloom," are his latest melodies, and the former particularly is described as bright and catchy.

Mr. Macknight (member of the Professional Photographers association), City Studio, Greenwood, is prepared to photograph buildings, machinery, groups, etc., anywhere within 100 miles radius. Moderate charges. Work and material THE BEST. 28-31

Mr. and Mrs. S. L. Kilbourn of Deloraine, Manitoba, have been spending a few days with their newhew, Mr. E. W. Bishop, Jr. The visitors have been spending the winter in Victoria, and are very favorably impressed with British Columbia, its climate and opportunities.

John Huff has been taking a look at the metropolis of the Inland Empire. He hasn't been in Spokane for many years and was surprised to note its growth. He represents himself as having a good time and thinks he will make an excursn there at frequent intervals hereafter.

On Monday afternoon last an ore car got off the track just north of the trestle above town resulting in several hours delay to both passenger trains. The east bound was held at Greenwood until 8 in the evening at which hour the west bound arrived. A helping engine at the rear was responsible for pushing the car off the track, and cars like people resent too hard shoving.

The Free Reading Room acknowledges itself indebted to the kindness of G. R. Naden, M P. P. in the receipt of two copies of the daily reports of the house as well as some fine maps replete with valuable information. The management has been notified by the government stationery department that a box of books has also been forwarded for the reading room.

The Canadian Pacific Railway Co. announce the usual reduced rate of fare and one-third for the Easter holidays, March 29th until April 1st. Tickets will be on sale at all stations, Port Arthur and west, March 29th until April 1st. Final limit for return April 2nd. For full particulars, rates, folders, and tickets, apply to local C. P. R. agent or write J. S. Carter, D. P. A., Nelson, B. C.

A number of boys around town have been doing things that have brought them under the eye of Police Magistrate Hallett, who is determined to see that they make a new departure in their conduct. Three of them spent Wednesday night in the cooler, and unless reformation takes place in the behaviour of several soon, they will find that they have something worse to face than the discipline of a parent.

The meeting called for last week for the organization of a base ball club for 1907 was attended by quite a number and considerable enthusiasm was displayed. It was decided to start the season with a $200 guarantee subscription fund, those advancing the sum to be recouped out of the club's earnings. The club's officers for 1907 are: Hon. president, George R. Naden, M. P. P.; president, E. G. Warren; vice president, W. B. Flemming; secretary-treasurer, Jas. D. McCreath; captain, Paul Meacham; manager, George Mercer.

D. W. Holbrook of Chesaw, was in town this week. He reports business generally good, with prospects for a local mill and creamery assured. The Reservation is fast developing into a great grain producing district particularly wheat and oats, the former being much sought after on account of its excellent milling qualities. Some farm lands and some mining properties are changing hands. Work continues to improve the appearance of the Grant. On account of the condition of the roads ore hauling has been temporarily suspended. Mr. Holbrook was accompanied by Messrs. I. W. Price and Teddy Harrison, both of the Myers creek capital.

Itching Piles.

If you are acquainted with anyone who is troubled with this distressing ailment you can do him no greater favor than to tell him to try Chamberlain's Salve. It gives instant relief. Price 25 cents per box. Sold by all druggists.

TESTING THE FIR

Tests of the fir of the Pacific coast recently made at Victoria shows that a new value is to come to this product of the forest. A cord of fir wood, it is claimed, can be converted into 88 gallons of naptha, and 7 gallons of turpentine, worth $28.60 in all. If there is so much inflammable material in fir wood, no wonder it burns so fast, or, in other words, no wonder the cords seem to be short.

GUARDING AGAINST SMALLPOX

Owing to an epidemic of smallpox in various parts of Washington and several of the western states, the Dominion government is establishing quarantine stations at several places on the boundary line. Drs Kenning and McLean have been appointed inspectors to look after the immigration coming into Nelson and Rossland, and will begin their duties immediately. Incoming passengers must either be vaccinated on entering the province or must present a certificate showing that they have been vaccinated.

FAILED TO FINANCE

WINNIPEG, March 27.—Mayor Ashdown and John Aird of the Bank of Commerce, who have been several days in the east to secure a loan of $2,500,000, have met with little success. Both parties are reticent as to the success of negotiations, but it is understood that they have failed absolutely to secure the money from the Bank of Commerce, and the trip to Montreal to tap financial magnates there met with poor success. A definite announcement is to be made tomorrow night by Mayor Ashdown at a special council meeting.

AN ARGUMENT

One touch of nature makes the whole world kin;
One bunch of grafters takes the whole world's skin;
One touch of humor makes the whole world grin,
And food adulteration keeps the whole world thin.

- Kansas City Times.

Mrs. Hayfork (in country postoffice)—Anything for me?

Postmaster—I don't see nothin'.

Mrs. Hayfork—I was expectin' a letter or postcard from Aunt Spriggs, tellin' what day she was comin'.

Rural Postmaster (calling to his wife)—Did you see a postcrrd from Mrs. Hayfork's Aunt Sally, tellin' what day she was comin'?

His Wife—Yes. She's comin' on Thursday.—Tit-Bits.

A Missouri graduate in law wrote to a prominent lawyer in Arkansas to inquire what chance there was in that section for such a one as he described himself to be. He said: "I am a Republican in politics, and an honest young lawyer."

The reply that came seemed encouraging in its interest: "If you are a Republican, the game laws here will protect you, and if you are an honest lawyer, you will have no competition."
