Regular Price $1 50

New Wash Dress Goods For Spring.

New Shirt Waists For Spring.

New Muslin Underwear For Spring.

See Our Big Stock Before Buying the above goods.

RENDELL & CO.

RAILROADS TO RACE

Into the Similkameen This Spring.

BOTH BECOMING ENERGETIC

The G. N. to Extend From the East and the C. P. R. From the West.

It is now almost a certainty that both the C. P. R. and the Great Northern will commence extend their lines toward the Similkameen country this season. It is now a question of which of the two great systems can get there first and capture the trade of that district.

Contractors are taking supplies west for construction purposes. Monday last a load of tools was taken from the Greenwood station to a point between here and Midway, and it is thought actual construction will be commenced in a few days. The Great Northern appears to be the most active at present, having surveyors and outfits all along the proposed line but the C.P.R. will doubtless get a move on from the western end of the line, and may probably be able to keep pace with its apparently more energetic rival.

It is believed that the first construction work done by the G. N. will be through Greenwood in order to compete for the freight at this point.

The following in reference to the railway situation is taken from the VancouverWorld and if true will mean much to the prosperity of the Boundary and the country west of here:

According to advices from Princeton two great railway companies. the Great Northern and the C.P.R., are engaged in high strategy in the Similkameen and Lower Okanagan. There is reason to believe that the Great Northern will resume construction this spring in the Boundary as well as west from Midway towards the Similkameen and the coast. On the other hand the C.P.R. has had its engineers in the field and there is ground for the presumption that as soon as the Great Northern rails begin to stretch westward the C.P R. will push eastward from Spence's Bridge, in which event a most exciting track-laying race will be witnessed in the upper country.

Visiting officials of the Great Northern, who arrived on Wednesday, were interviewed about the up-country developments but no information was obtained. The party was headed by Mr. W. D. Scott. superintendent, with headquarters at Everett, whose private car was attached to the express. The others visitors were: S. G. Yerks of Seattle, western general passenger agent; F. L. Clark, jr., Spokane, general western agent of the Great Northern Express company; W. O. Chase of St. Paul, superintendent of Great Northern dining and parlor cars, and J. M. McLellan of Seattle, assistant dining car superintendent. The party was also accompanied by F. W. Parker of Seattle, Puget Sound agent of the Chicago and Northwestern railway.

To The World Mr. Yerkes said that the visit was for the purpose of inspection and was one of ordinary routine.

"You may say," he continued, "that we are highly satisfied with the results of the Vancouver-Seattle service which have quite come up to our expectations. We are giving the best service on the Pacific coast but we are keenly alive to the possibilities of improvement, and if we find that we can in any way better it either as to schedules or on the cars we shall most assuredly take the steps necessary to that end."

Headquarters for paints, Jap-a-lac and Alabastine. Hunter Kendrick Co.

TAKING A VACATION.

Government Agent McMynnWill Visit His Old Home.

Goverment Agent McMynn, Mrs. McMyn and their daughter Alice will leave Monday on a visit to the Old Country. They will stop over for a few days in Toronto and New York, and then go to Scotland where some time will be spent visiting relatives and friends of Mr. McMynn. They will also visit Mrs. McMynn's home in Ireland. Mr. McMynn's leave of absence is for four months.

Mr. McMynn came to the province in 1884, returning to the Old Country in 1886. In 1887 he returned to B. C. and settled near Rock Creek In 1892 he was appointed provincial constable and mining recorder for the Kettle river mining division, with headquarters at Rock Creek. In 1895 the office was moved to Midway and Mr. McMynn promoted to chief constable, registrar of the county court and clerk of the peace. In 1900 the office was moved to Greenwood, and he received promotion to gold commissioner and registrar of the supreme court; in 1901 he was appointed government agent, and in 1902 stipendiary magistrate, with power to hold small debts court.

This is Mr. McMynn's first vacation since taking office thirteen years ago. Like all men who put duty first in an official position, he has made enemies, but to counterbalance this he has made a host of warm friends in the district who wish him an enjoyable vacation.

First-class Timothy seed, 9c. per lb. Hunter-Kendrick Co., Ltd.

FIRE AT SIDLEY.

On Thursday, the 23rd inst., R. G. Sidley, J. P., had the misfortune to lose by fire his boiler house and a fine new two-story frame feed house, just built. Flames were noticed about 4 p. m. bursting out of the roof. The alarm was given and the men all gathered. A bucket brigade was formed and the fire got under control by dark. The engineer, Wm. Stephens, fell through the first story floor, which was on fire, and shortly afterwards Mr. Sidley fell through the roof, neither, however, being seriously injured. The blacksmith, Charles Rey, had his clothes burned. There was no insurance. The cause of the fire is unknown, as the engineer is positive there was no fire in the boiler at 12 m.

A crowded house greted the Harold Nelson company in the opera house last evening, and the performance was much appreciated by all.

ALL ALONG THE LINE

Continued Activity in High Grade Belt.

SHIPMENTS BEING INCREASED

New Properties Are Being Started Up Each Week.

Although the managers of the high-grade properties in the neighborhood of Greenwood are not saying much, development is going on steadily and regular shipments are being made. Owing to the wearing out of the boiler on the Providence, and the decision to install a complet new plant, very little work has been done for the past two weeks, and it will be another month before development is resumed and regular shipments commenced. That there are large reserves of ore in the mine is proved by the recent strike in the crosscut at the 400-foot level. During this month the Last Chance shipped one car of ore, and development is being systematically carried out. In another month this property is expected to become one of the heaviest shippers in the high-grade group. The Skylark has 125 tons to its credit for the month, and it is said that this, or even greater tonnage, will be continued each month. It is expected that the Coro-Canadian will join the ranks of regular shippers next month. Development is well forward, and the lead is one of the richest in the district, so, in another month, the property will doubtless become self-supporting, and before long a dividend payer. The Elkhorn shipped two cars this month This will be largely increased as development progresses. The stock is selling well and in another month the working force will have been largely increased. The E. P. U. also shipped 2 cars this month. This will be increased to 8 cars per month. placing the property among the dividend payers. The boiler and machinery has been installed on the Gold Bug, and work will immediately be started on the 300-foot tunnel, using steam drills. Development is being pushed steadily on the Barbara. Work was commenced this week on the Silver Cloud Fraction, and work is being done on the Silver Cloud.

Throughout the high-grade properties development is progressing favorably and extra men are being put to work as fast as they can be placed to advantage.

CARD OF THANKS.

I wish to tender my grateful thanks to those many friends who showed so much kindness and sympathy to my late husband during his illness, and to myself during the trying days of my affliction. MRS. J. C. DOUGLAS.

BOARD OF TRADE.

The regular annual meeting of the Greenwood Board of Trade will be held in the office of G. R. Naden on Wednesday, April 5 next, at 3 o'clock p. m. A full attendance is requested.

The annual report will be read, the roll revised and officers elected for the ensuing year.

Champion Liniment for Rheumatism.

Chas Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by all druggists.

NOTES.

Coleman, Alberta, is to have a church. Slowly and surely civilization is moving eastward.

The newspaper men of the province are to meet in Westminster while the Dominion exhibition is being held and fix things generally. J. Peck MacSwain is spoken of as a candidate for president of the association.

Railway legislation does not appear to be a long suit of the provincial legislature. The legislature has been in session over a month, and nothing yet done in the way of furnishing better railway facilities for the mining districts between the Boundary and the coast.

After all the school question is not of so much moment to the public as many of the politicians would have us believe. In fact, it is doubtful whether education is a benefit or an injury to a country. The importance given to "class consciousness" by many would imply that instinct might be an important factor in the legislation of the future in Canada.

H. Mortimer-Lamb, for a number of years editor of the British Columbia Mining Record, has been elected secretary of the Canadian Mining Institute. The members are to be congratulated on securing the services of Mr. Mortimer-Lamb, whose energy and business ability will do much to restore the Institute to its former position of usefulness.

A correspondent asks: "Can a person interested in the saloon business legally hold the position of chief license inspector of a district?" Ask the gold commissioner of the district, or the inspector of police for the district, or the chief of police for the province, or the attorney-general. If none of these can give a satisfactory reply, you may conclude that the question is not worth answering.

"The Irish," says a statistician, "never commit suicide. Practically never, I mean. That is to say, where you will hear of ninety suicides of Germans, Russians, Italians, Frenchmen and Yankees, you won't hear of more than one Irish suicide, and maybe you won't hear of that." And it is said the Irish are not fit to be intrusted with the task of governing themselves.

The effects of Jap-Russian war are being felt in Phoenix. Last week a couple of youths engaged in the bomb business, with the object of righting the wrongs of the much oppressed school boy. Although no serious injury was done to the school house, the tyrants of the education department have been given a warning, which they will do well to heed. In theory "moral suasion" appears very nice, but in the practical school education "lickin' and larnin'" go go very well together.

The Victoria Week, a society paper is endeavoring to decide which class of the civil servants in that city is the more intelligent—the young Britisher who wears bloomers, or the young Eastern Canadian who wears creased pants. In the interior we size up a man's intelligence by what he carries in his hat, but, of course, different localities have different standards of intelligence, and no fault can be found with the standard adopted in Victoria, so long as the "pant" guage of intelligence is not made general throughout the province.

It is true that the fame of Canada is attracting some few undesirable immigrants That is an inevitable feature of our position as the modern land of promise. Batches of people of peculiar views from Russia and parts of central Europe will continue to knock at our doors. But they can be met and the totally objectionable specimens turned back. Of the 130,330 immigrants entering Canada last year, 36,7000 were from England and Wales, 10,500 from Scotland, 3,130 from Ireland, and 45,000 from the United States. They will pass muster. - Victoria Times.

The Cardston Star in reply to the widespread reports that polygamy is practised among the Alberta Mormons and that an investigation will be held says in part:—"It is not true that there are a number of Mormons here who have two wives. It is not true that there are any here who have two wives. It is not true that "wholesale prosecutions" are about to take place. It is simply one of those wild reports that are flashed abroad occasionally in order to give the newspapers something to talk about. We shall welcome the closest scrutiny and investigation feeling assured that when the truth is known that the dominant church will rise free from taint or suspicion."

In the provincial legislature Wednesday last J. R. Brown asked the commissioner of lands and works how many acres of land the C. & W. railway had crown-granted to it under its subsidy? The answer was 794,440 acres. In reply to the question as to what further acreage the railway was entitled, the answer was 808,872 acres. Over one and a half million acres granted for building a railway about one hundred miles.

While the wearing of wigs and gowns may be of great importance to the lawyers in the house, there are questions of vastly greater importance to the people that should receive the consideration of members of the legislature. The people are more deeply interested in amendments to the mining laws, railway legislation, simplifying the statutes, lowering the assessment, and making it less expensive for pre-emptors of homesteads. If these things are done, it matters very little to the people if legislation is passed to fasten tails on every lawyer and judge in the country.

The city band furnished an excellent programme at the open air concert Sunday afternoon. It has not yet been decided wherthe or not a concert will be given next Sunday, but it is hoped that the band will continue to give the concerts every Sunday during the summer season.

REFININGS.

Coal is said to underlie fully two-thirds of the state of Illinois.

Some of the salt springs of New York produce a bushel of salt, by evaporation, from each forty gallons of brine.

A pound of native lead will bring as much as a pound of gold, that is, if the lead is attached to a matrix and sold as a mineral specimen.

It is said the largest lump of native silver ever found in Mexico was taken from the silver mines near Batopilas, and weighed 403 pounds.

The purest gold ever found was from the Ural mountains in Russia, it yielding 99.7 per cent. gold; 0.8 per cent. silver; 0.15 per cent. copper, and a trace of iron.

Gold and platinum are found native, or intimately mixed in essentially the pure state, with some metallic minerals. Telurium is the only acidic element that occurs combined with gold in nature.

Native coke is considerable of a rarity, though it is occasionally found. The old Edgehill mines near Richmond, Va., turned out a considerable quantity of native coke. Genth attributes the origin of native coke to the action of trap eruptions on bituminous coal.

Dynamite freezes at 40 degrees Fahrenheit snd remains frozen at a temperature much higher than this. If solidly frozen it cannot be detonated except with difficulty, and when frozen it is practically useless as a blasting agent and must be thawed for use.

Elaterite is an elastic asphalt-like mineral. It is brown to black in color and with specific gravity of less than 1. It looks much like India rubber. In composition it is carbon 85.5 per cent, hydrogen 13. It is found in a lead mine at Derbyshire, England, and to some extent in Utah. Its uses are as yet unproved.

Cosmic dust is the term applied to the dust of metdorites that undergo complete combustion on contact with the earth's atmosphere. An example of this has been found in the inland ice of Greenland, where small particles of magnetic iron and cobalt were found; also dust of the same analysis has been found on the snow of a number of northern localities.

F. X. Holl, of Seattle, special agent of the International Correspondence schools, Scranton, Pa., is in the city.

NOTICE.

I have had stray, animal on my place since middle of October last, viz. a red heifer coming three year old, no visible brand or mark of any description. If not claimed within three week from date of this insertion will be sold to pay expenses.

Dated this 3rd day of March, 1905.

THOS. WISTED, Rock Creek.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The great success of this preparation in the relief and cure of bowel complaints has brought it into almost universal use. It never fails, and when reduced with water and sweetened is pleasant to take. It is equally valuable for children and adults. For sale by all druggists.

Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism, not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm and without taking any medicine internally. Rev. Amos Parker of Magnolia, North Carolina, suffered for eight years with a lame hip, due to severe rheumatic pains. He has been permanently cured by the free application of Chamberlain's Pain Balm. For sale by all druggists.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY.

"COMPANIES ACT, 1897."

I HEREBY CERTIFY that the "Spokane Boundary Mining Company" has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Spokane, within the County of Spokane and State of Washington.

The amount of the capital of the Company is one hundred thousand dollars, divided into one million shares of ten cents each.

The head office of the Company in this Province is situate at Greenwood, and Arthur M. Whiteside, Barrister, whose address is Rendell Building, Copper Street, Greenwood, B. C., is the attorney for the Company.

The time of the existence of the Company is 50 years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 30th day of January, one thousand nine hundred and five.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been established and registered are:

The location, acquisition and operation of mines and mining property, and dealing generally in mining claims, both quartz and placer; the working, operating and conducting mines, and acting as a miner under the laws of Washington, and when lawfully registered, under the laws of British Columbia; to lease, work as a partner or otherwise, own and hold and control all charter of mining properties, and to equip the same with all character of machinery and necessary appliances; to deal in and dispose of mines, and to let the mining property of this Company to others to work as lessees or upon royalty, or in any other manner deemed to be proper by the trustees; to build smelters, concentrators and reduction works, and means of transportation in connection therewith, including trams and railways; to acquire timber and timber lands, and real property of all kinds whatsoever; to smelt, refine, reduce and concentrate ores of all persons whomsoever; to deal in and dispose of real and personal property of all and every character; to equip electric plants and waterworks, and to supply electrical power and water to the public generally; to borrow money and to issue debenture and other bonds therefor, and all character of evidences of indebtedness; and to mortgage hypothecate or pledge by mortgage, deed, deed of trust or otherwise, any and all of the property of this Corporation to secure its indebtedness, and to acquire funds for any business deemed expedient, proper or necessary; and to do each and every act deemed by the directors of this Incorporation necessary to carry out the general purposes of this Incorporation as herein set forth.

H.B.K. BRAND

A BIG ROOMY SHIRT

No other workingman's shirt is made so big or comfortable or so strongly as the H.B.K. Big Shirt.

Not a skimped, factory-made, cheap shirt but a shirt made of honest material and lots of it. As big and easy fitting as the ones your mother used to make with three yards and a half of goods. Every H.B.K. Big Shirt has three and a half to three and three quarter yards of material.

Ample room under the armpits, broad and spacious on the shoulders, full and long bodied, big sleeves, an easy wearing shirt and a long wearing shirt.

Every shirt is branded with this brand and guaranteed by the makers.

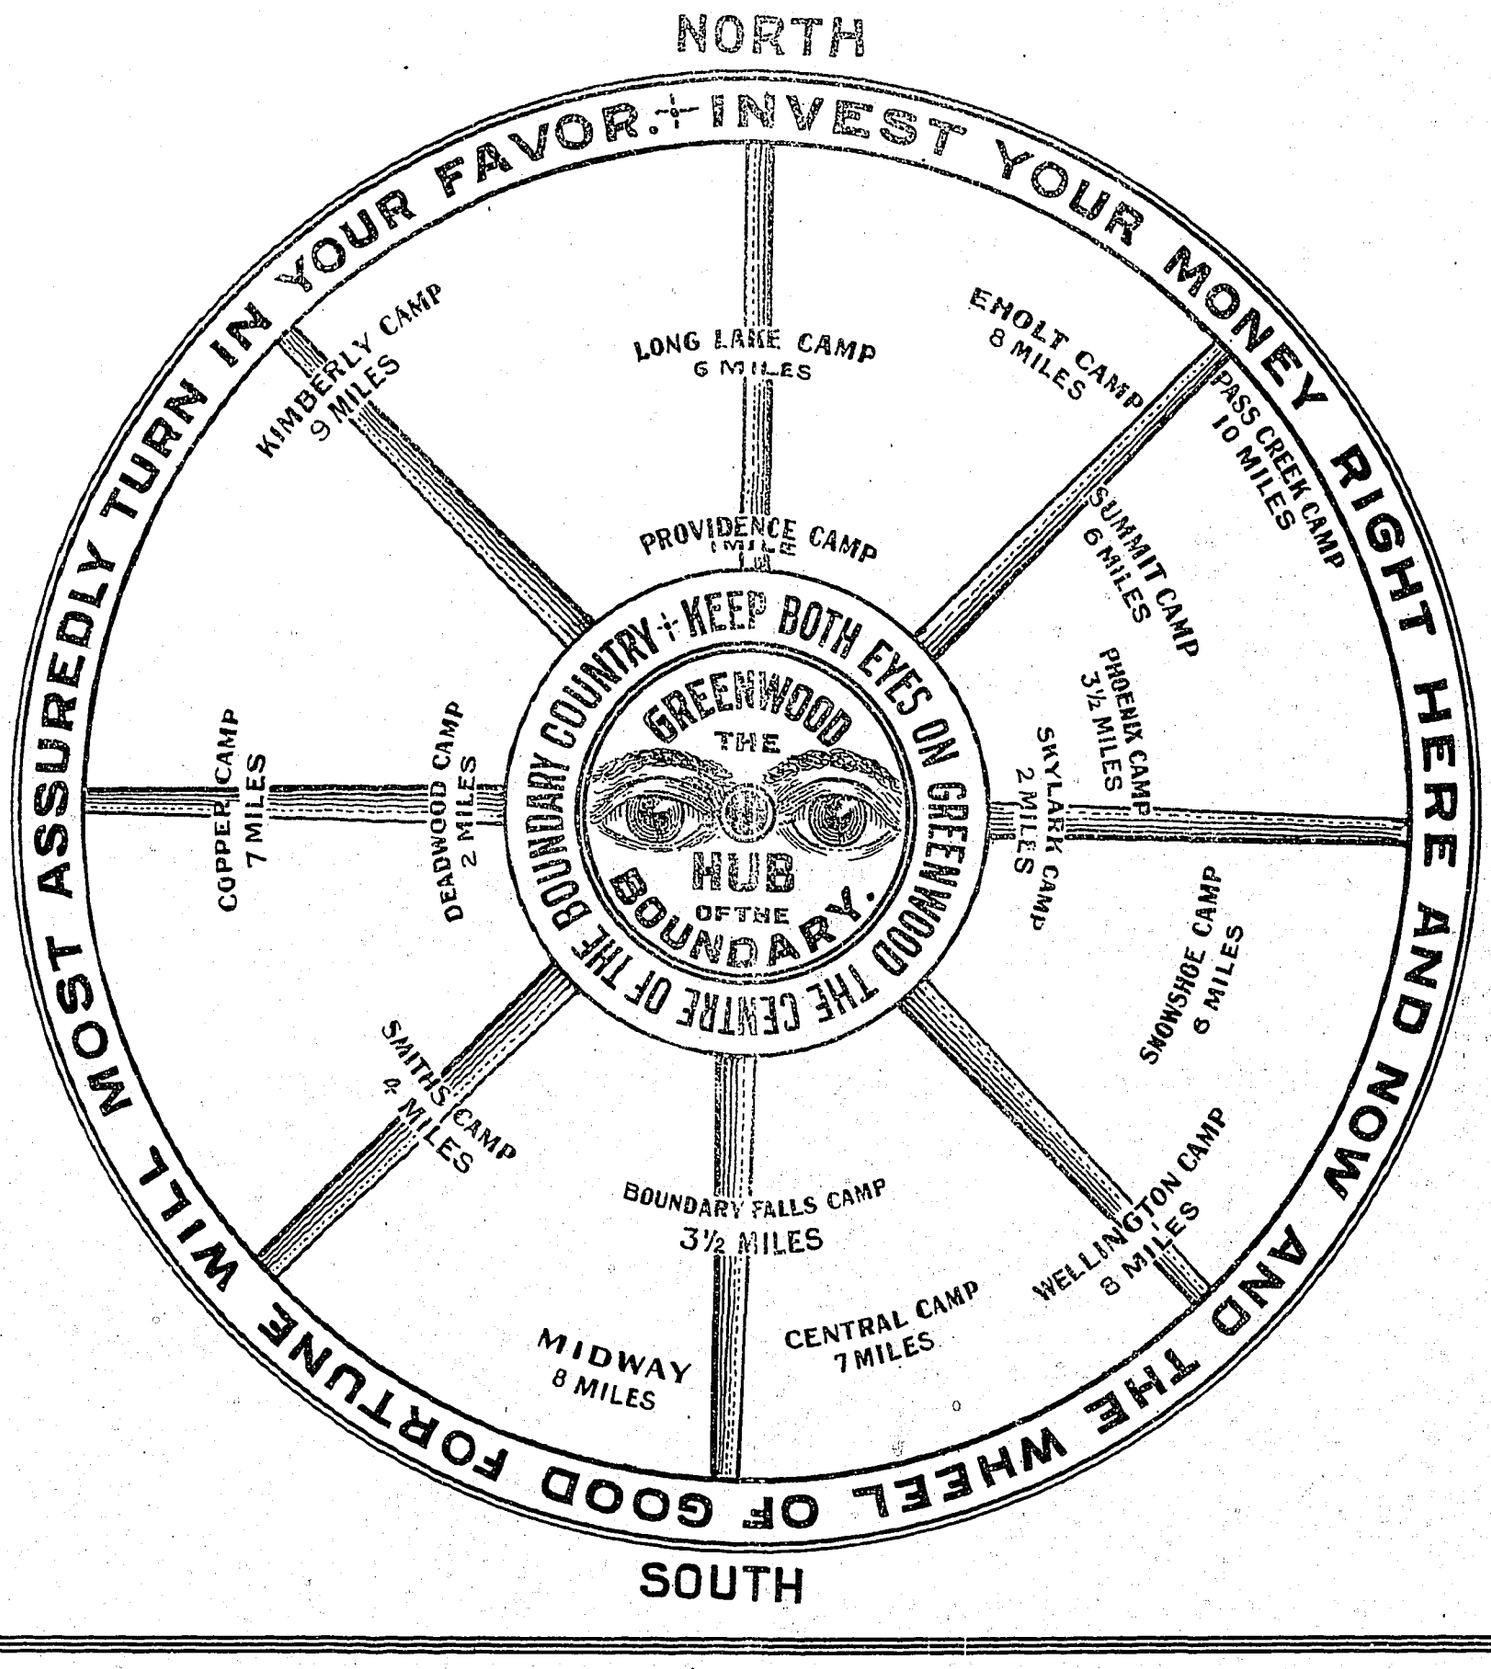
I. H. HALLETT.

No Time Equal to the Present



Never in the history of the Boundary has the district had a brighter outlook than today. With the successful development of the immense large bodies of low grade ore and the enlarged and much improved facilities for treating at a very small cost, the continued opening up of new high grade properties and their successful and profitable operation has made the Boundary famous as a mining centre, and every day adds more to the list of new finds and bigger values. It is readily admitted that Greenwood is the Eldorado of the Boundary with all roads leading thereto, and surrounded as it is, with such magnificent resources is destined in a few years to be a second Butte. If you therefore want to participate in its future prosperity, now is the time to invest both in mines and real estate. For NINETY DAYS we intend giving you a chance to make a safe and profitable investment. Every lot we own will be put on sale at rock bottom prices during the above period. Prices ranging from $50.00 up, at terms to suit the purchaser. Make your selection and make it early.

RALPH SMAILES,

AGENT FOR THE GREENWOOD TOWNSITE COMPANY.

THE WASTE DUMP.

(From Mining Reporter.)

Timberline in Colorado is between 11,000 and 12,000 feet above sea level, depending on the exposure of the mountain side. As a general rule, on the north side of a mountain, timberline will be encountered at about 11,000 feet. On the south side of a mountain timberline creeps a little higher and is a trifle less than 12,000 feet. At least this has been our experience in most cases when testing by the aneroid.

The age of an ore deposit bears little relationship to the age of the rock in which it is found. Thus a deposit found in an archæan rock does not mean that the deposit itself is of archæan age. The only rule in this connection is that the ore deposit is probably of later age than the rock in which it is found, although this rule is subject, of course, to modifications. A deposit in archæan rock may be of tertiary age. In Leadville the ore deposits are found in deposits ranging from the cambrian to the upper carboniferous. The deposits themselves are probably of tertiary age.

There are a number of gold ores which will not show free gold by panning. It is not altogether dependent upon the size of the gold particles, but rather on the character of the crushed material. For example, some limonite ores may contain comparatively coarse gold, and yet panning will not disclose such gold, owing to the fact that the hydrated oxide of iron forms a viscous mass with the water, raising the specific gravity of the latter, and preventing the gold particles from falling to the bottom of the pan. A slight calcination will in such cases, make it possible for the gold to be seen by panning.

The main arguments in favor of having the rock-breaking done outside and away from a stamp mill are that it mixes the fines and course material, and that by transportation in cars wear and tear is reduced to a minimum, and cars can be loaded and emptied quicker. In a stamp mill where there is a grizzly, the fines tend to accumulate in certain parts of the bin, thus there is irregular feeding, with consequent irregular work in the mortar. The fines may go through by themselves at one time, and at another the battery will be fed with large pieces of ore. This tendency is overcome, to a certain extent, by the handling of material between two bins; the car men can distribute the fines more equally over the mill bin. There is a tendency on the part of some mill men to use larger rock breakers and do without grizzlys for the same reasons

Just how far uniformity in keeping mine accounts is desirable, is a question very much open to argument. We cannot believe that a system of bookkeeping which would be found excellent, we will say, in the copper mines of Montana, would work at all well in the mines of Mexico, nor can we believe that the details of the system used in the Mesabi range, for example, would be at all adapted to the Kalgoorlie mines of Western Australia. These are extremes, it must be admitted, but between these extremes there are gradations which, if we are going to properly meet them, must require gradations or modifications in the method of keeping books. The idea of uniformity in bookkeeping is to allow comparisons to be instituted between the operations of different mines. This would be a very desirable thing, if it were possible, or if any good could come out of it, but we question very seriously whether comparisons and deductions might not be drawn, without full knowledge of other details than than those given by the books, that would be positively harmful. In saying this, of course, it must be understood we are strongly in in favor of every mine keeping a proper system of accounts, but these accounts should be kept in such a manner as to show clearly and exactly what the mine is doing, both from a commercial viewpoint and from the point of view of good engineering. That certain fundamental principles should rule in every case must be obvious, and this, in our judgment, is the only uniformity possible. There is an old saying that "every tub must stand on its own bottom." Applied to business this means that every business must be conducted according to the principles found necessary in each particular case. To take a set of books found desirable in one case and apply it without knowledge of all circumstances to another business, possibly very dissimilar, is bookish and, in our judgment, absurd.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged :—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on sales.

A license is issued so soon as a berth is granted but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B. M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligable to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Ottawa, February 4th, 1905.

A Safe Cough Remedy for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by all druggists.

NOTICE OF FORFEITURE.

To John Nelson, J. A. Munson and H. Magnuson or to any person or persons to whom they may have transferred their interest in the Morning Glory and Rainstorm Mineral Claims situate on Cedar Creek, main Kettle River, in the Greenwood Mining Division of Yale District.

You are hereby notified that we have expended the sum of $400 for work on the above mentioned claims and $10 for recording the same for assessment work for two years, such being required and necessary to hold said claims for the years euding the 6th of June, 1903 and 1904, under the provisions of the Mineral Act and Amending Acts and if at the expiration of ninety days from the date of first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure together with all costs of advertising, your interest in said mineral claims shall become invested in us, your co-owners, upon filing in the proper office in that behalf the affidavit required by section 4 of the "Mineral Act Amending Act, 1900"

Dated 3rd March, 1905.

BOUNDARY CREEK TIMES

Mining News of the Boundary.

W. T. Hunter has commenced a 100 foot tunnel on the Seattle, North Fork of Kettle river.

It is said that work will be resumed on the Greyhound in Deadwood camp the first of the month.

Work on the Coro Canadian is progressing on a 20-inch lead of very rich ore. The shaft is down 75 feet.

William Yolen Williams, formerly superintendent of the Granby mines, is making a tour of Italy and having a pleasant time.

Work was commenced Monday on the Silver Cloud Fraction by Penny & Baker. The claim lies between the Bay and Silver Cloud.

An option has been secured by local parties from Al. Sanderson on the Jack Pot in Wellington camp. Particulars will appear later.

Ed. Dunn is out of the bond on the June Bug. Fowler and Phoenix parties have taken the bond up and are pushing development.

The Boundary-Elkhorn stock is going like hot cakes. Persons wishing to secure stock should make application at once before the issue is all subscribed.

Robert Wood returned from Victoria this week. The railway situation is unchanged. The government is strongty entrenched, with an army of chartermongers led by the two companies besieging them night and day.

John Mack of Spokane is in the city this week. Mr. Mack was one of the old time investors in the Boundary district, having been interested in the Winnipeg and Athelstan in Wellington camp, in both of which he made a good clean-up.

W. H. Rambo left Thursday morning for Beaverdell, on the West Fork of Kettle river, to resume work on the Rambler. John Meyers accompanied him. Development work will be carried on continuously and regular shipments made from the mine.

J. W. Hugh Wood returned this week from Beaverdell, bringing with him some splendid samples of silver ore from the Sally, running $500 to the ton. This ore was taken from a depth of 135 feet and the lead is between 30 and 40 inches wide.

The Great Northern is now taking out about one thousand tons of ore per day to the Granby smelter. When the two new furnaces are installed it is expected that the C. P. R. and the Great Northern will each handle about 1,500 tons of ore a day.

While all arrangements have not yet been made for the bringing of power from Bonnington Falls to the Boundary, it is understood that the matter is practically in shape, and that there will be no more shortage in power at the mines and smelters in this district.

The annual assessment work has just been completed on the Morning Star, situated above the B. C. Copper company's smelter. A drift has been run about 35 feet from the end of a 30-foot tunnel run last year. The ledge is about four feet wide, with an 18-inch paystreak. Nearly half a car of first-class ore is on the dump.—Anaconda News.

Development will be commenced on the Silver Reef, Wallace creek, next month. Previous work consisted of a 29-foot shaft. This will be driven to a depth of 50 feet and a crosscut run to determine the width of the lead. The values are in silver, zinc and gold. Assays in gold run from $6 to $19. The claim is owned by W. George, T. Edwards and W. J. Nelson.

On the Little Home claim, owned by J. J. McDonald and adjoining the Dynamo on the north, while plowing this spring uncovered a lead of chalcopyrite. Information received is to the effect that the ore looked as rich as the best samples from the Big Copper shown in the early days. On the Mayflower, the adjoining claim on the west and owned by P. Hickey and O. Lofstad, this ore body is proved in the 20-foot shaft to be four feet between well-defined walls.

The bond on the Mavis in Skylark camp, given by E. T. Wickwire to D. B. Mockrill on the 11th March, is for $15,000, with payments of $1,500 on the 1st Sept., 1905, 13th Dec., 1905. the 13th March and June, 1906, and $3,000 on the 13th Dec., 1906, and 13th March, 1907. Work is to be commenced on the 1st April and to continue during life of bond. In each two calendar month work must be done equal to the labor of one miner for 80 days, and in each month not less than the labor of one miner for 20 days. In all shipments of ore Mr. Wickwire is to receive 12½ per cent. of the net returns.

There have been rumors innumerable during the past week that the Greenwood and Boundary Falls smelters are to be moved to Midway. On tracing the rumors to their source they were found to be only too true. Not only the smelters, but the daily hours of labor—twelve—are to be moved. In an interview D. A. Bannerman stated that he would move both smelters by dray Monday morning. The new combination smelter will get power from Bonnington Falls, and water from the Elk river in East Kootenay. Unless rumors are roped and branded when young they are difficulty to identify. The smelters will have to move pretty lively to keep up with the rumors.

James Cronin, manager of the St. Eugene, War Eagle and Center Star companies, when asked about the compressor plant that is to be installed at the St. Eugene said: "We have ordered an air compressor from the Jenckes Machine company. It will have a capacity of 3,000 feet of cubic air per minute, and will furnish power for 30 machine drills. It will be shipped from the manufacturers about June 20th, and will be installed in July, and we expect to have it running by August 1st. Boilers will also be installed that will have a capacity of 500 horsepower. This will give the mine a 50-drill equipment, there now being 20 machine drills in use. An addition to the building of 60 x 60 feet is now being erected. We are getting behind on development, and in order to catch up we have been compelled to increase the capacity of the plant. To do this development work we will probably have to add nearly one hundred men to the present number employed. The mill this month is beating all previous records. Up to March 23rd the concentrates shipped amounted to 2,600 tons, or an average of over 100 tons per day."

KEEP AWAY FROM HEDLEY.

The following letter, dated March 23, from J. K. Fraser, proprietor of the Commercial hotel, Hedley, needs no comment:

SIR—There seems to have been circulated in Greenwood information to the effect that a large number of men are wanted at or around Hedley. In the near future there may be considerable work here, but at present working men should stay away from Hedley, especially those who are broke and not able to remain until work starts. There is no other work within fifty miles of Hedley at present.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Skenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by all druggists.

COLUMBIA COLLEGE.

Founded 1892 Incoporated 1893

NEW WESTMINSTER, B. C.

Provides a Christian home for students of both sexes at Modern rates. Has a preparatory class for junior students, doing grade public school work. Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a practical business course and gives diplomas. Gives a liberal education in its collegiate course and in the ladies' college course for M.E.L. and M.L.A. in university work. Can take students through the complete arts course and the degree of B.A. can be obtained from Toronto University with which the college is in full affiliation.

For full information and terms write Rev. W. J. Sipperell, B.A., B.D., principal; or Rev. J. P. Bowell, bursar.

DOIN' LIGHT CHORES.

There is nothing mean about the provincial government. Once an applicant has received a civil service appointment he is sure of having sufficient work to keep him out of mischief. George Cunningham is mining recorder and provincial constable at Greenwood. During the vacation of Government Agent McMynn, Mr. Cunningham will receive an extra salary of $25 a month for "doin' light chores," a few of which are: Acting government agent, acting gold commissioner for the Greenwood mining district, registrar of marriages, Registrar of the county court of Yale holden at Greenwood, clerk of the peace for the county of Yale, registrar of the supreme court holden at Greenwood, recording officer under the Cattle Act, Greenwood cattle district, interpreter of the mineral act—no small job in itself, information bureau on criminal code, etc., etc. Besides these, there are certain social obligations incumbent on a person holding such a large variety of important positions. For instance, as govt. agent and gold commissioner he will have to occasionally air a claw-hammer, lead a cotillion and play bridge; as registrar of the supreme and county courts, he will have to train with a fork, to be prepared in the event of being invited to pork and beans with the judge; as registrar of marriages, he should be able to detect symptoms of insanity and offer advice and sympathy to the misguided young man; as recorder of cattle brands, he will be required to mingle with the punchers, take "hootch" raw, and dodge all sorts of missiles.

BOUNDARY VALLEY LODGE No. 38, I. O. O. F.

TOWN TOPICS

W. T. Smith returned from Spokane Sunday.

C. L. Thomet of Midway was in the city this week.

Mrs. Chas. Wilson of Fernie was a visitor in the city this week.

A force of men were put to work repairing Copper street this week.

Jos. Waxtel of Nelson was on a business trip to the city this week.

Wanted to borrow $400 on good security, for one or two years. Apply at this office.

Born—On Tuesday the 21st inst., at Eholt, to Mr. and Mrs. Chas. Rendell, a daughter.

Boundary Valley lodge, No. 38, I. O. O. F., will confer the Third degree next Tuesday evening.

The Anaconda News appeared in an enlarged form and much improved typographically this week.

Greenwood lodge No. 29, K. of P., will advance two candidates to the rank of Knight Wednesday evening.

Tuesday evening Capt. Swain opened his bowling alley to the public, and had a crowded house.

There is not a vacant dwelling in Greenwood. This makes it interesting for the married men coming into the city.

A. F. Thomas, of the Thomas Drug Co,, limited, is in Spokane this week on business connected with his company.

Jas. H. Smith returned Sunday from Spokane, where he had gone for treatfor his eye, which is now almost as well as ever.

Tomorrow, Saturday, 1st inst., Royer's stage will commence regular runs between Chesaw and Phoenix, connecting with all passenger trains.

Members of the city council have concluded to place the amount of the waterworks bylaw at $15000, the sum necessary for the extension of the system.

C. M. Crouse visited Midway Monday. Mr. Crouse believes that Midway real estate will take an upward move this season, and business will be better than ever before.

Work was commenced Monday on the dam for the waterworks extension, under the foremanship of Dan Stewart. Five men are at present employed in clearing the wash from the bedrock.

Chas. Wilson, formerly merchant tailor of this city, has accepted a position as traveler for F. J. Mitchell, of Fernie. Mr. Mitchell was also in business in Greenwood some years ago.

Why buy old stock when you can get 1905 styles in Wall Paper for less money at Smith & McRae's.

H. M. Fullerton, representing Wilson Bros, Victoria; W. H. Hill, Brandon; H. W. Robertson, San Francisco; D. D. Munroe, and C Mellish, Vancouver, were among the drummers in the city this week.

Dr. George C. Mathison of Winnipeg, is visiting his brother, Dr. R. Mathison of this city. The doctor is on a visit to the west for the benefit of his health, and will probably remain in B. C. until he fully recovers.

Gorman West leaves Saturday to reopen his hotel at Bull creek on the West Fork. He will make considerable improvements to the hotel this spring in order to have a first-class resort for hunting and fishing parties during the fall and summer.

Monday last James H. Smith received a telegram conveying the sad intelligence of the death of his mother, Mrs. Thomas Smith, at Ticonderogo, N. Y. His many friends in this district will sympathize him in his sad bereavement.

For Sale—A four-acre tract, well fenced and cleared, small frame house, good water, just outside of western city limits. Ideal place for market garden and orchard. Cash price $550, or $600 on terms. Apply at once to Josh Anderson, Grand Forks, B. C.

Last week Thos. Oxley and Thos. Watkin, two boys 14 and 15 years of age respectively, attempted to blow up the Phoenix school house with dynamite. Little damage was done to the building. The boys were lectured by Police Magistrate Williams and allowed to go on suspended sentence.

The last B. C. Gazette contains a notice of the appointment of Roderick Angus Nicholson of Greenwood to be a commissioner for taking affidavits in the supreme court, under the Provincial Elections Act, in the Greenwood electoral district, appointment to expire 31st December, 1905.

Thos. Pascoe arrived in the city Tuesday. He has been in the Yukon country for a couple of years, but believes the Boundary is as good as any of the mining sections of the West. The territory around Dawson is no longer a poor man's country, the principal output now being from hydraulicing.

Mr. E. W. Bishop of Owen Sound, Ontario, is visiting his son, E. W. Bishow of Greenwood. Mr. Bishop was one of the pioneer merchants of Owen Sound, having been in business in that town for upwards of thirty years. This is Mr. Bishop's first visit to the mining camps of the west, although he was for a number of years a resident of Manitoba. He will probably remain in this distiict about a a year.

Jos. Devlin arrived in the city last week from the north. Mr. Devlin was one of the original owners of the Minnie Healy at Butte, Mont., which he and his brother sold for nearly $100,000. Some years ago he came to this district and purchased W. J. Nelson's interest in the Black Diamond and Standard in Beaver camp, on the West Fork of Kettle river. After doing some work on these properties he went to Alaska. He expects to go north again this summer.

Mrs. W. B. Fleming was taken to the hospital this week suffering from appendicitis.

Geo. M Davis came over from Nelson Wednesday and will play a clarionet in the city band.

Twenty-five per cent. discount on last year's wall paper stock at Smith & McRae's.

D. D. Munroe, formerly of Grand Forks, but now with the Kelly-Douglas Co., wholesale grocers, Vancouver, was in the city Tuesday. Mr. Munroe while in the Boundary was a very prominent and energetic Odd Fellow, and while in the city Tuesday visited the local lodge and gave instructions in drilling for team work.

An article appeared last week in th Seattle Daily Times and copied in the Nelson News, stating that Jack Kirkup had run Jack Lucy out of Rossland some years ago. The article also stated that Jack was a bad man—especially with a gun. Jack has been in the Boundary district for eight years, and no one has yet seen him with a gun. Legal steps have been taken to make the papers either apologize or put up. It was news to the people of this district to read that Jack had ever paraded with a bad man's outfit.

Friday evening last a meeting was held in the office of the Windsor hotel for the purpose of organizing a baseball club. There was a large attendance and considerable enthusiasm. Following officers were elected: K. C. B. Frith, president; W. B. Fleming, vice-president; A. F. Thomas, secretary-treasurer; H. Madden, captain and manager; committee, Messrs. Dill, Coles and Haynes. The membership fee has been placed at $1. There will be a meeting this evening for the purpose of completing organization and outlining the season's programme.

New stock of Winchester rifles and shot guns, $5.00 to $25.00 at Hunter-Kendrick Co., Ltd.

There will be a meeting of the Midway Thirteen club—or the remnants of it—in Crowell's hotel tomorrow (Saturday) evening, at 8 o'clock. The club was organized in October, 1895. There never has been a stated time of meeting, the members coming together when occasion demanded. Of the original members of the club one is in Bisbee, Arizona, one in Port Arthur, Ont., one in Vancouver, one at Hedley City, two on the West Fork, one in South Africa, and the balance in the Boundary. All are this side of the "great divide." The meeting Saturday night is to give one of the members, who is leaving the district, the usual "send-off."

For Sale—First-class piano, less than half price. For particulars apply to Wm. Fleming.

On Monday of last week John Riordan, who has been secretary of the Phoenix Miners' union since its organization, nearly six years ago, left for Chicago, where he has accepted a position with the American Federation of Labor. Saturday evening previous to their departure a reception was tendered Mr. and Mrs. Riordan in the Union hall. To Messrs. Riordan of Phoenix and M Kane of Greenwood, is due the credit of smoothing over the differences between the Mine Owners' Association and the men, during the period when strikes were occurring in every other camp in the province, and not only the miners, but the mine owners as well, will feel that the district has suffered a great loss in the departure of Mr. Riordan. He has the best wishes of all for future success.
