—UNDERTAKERS AND EMBALMERS.—

ROBERT GRAHAM KILLED.

A fatal accident occurred in the Cariboo mine, Camp McKinney, last Sunday, which resulted in the death of Robert Graham, who, with his brothers Patric'k and Thomas—the latter being manager of the Waterloo mine—have for a long time been resident in that camp. From the evidence adduced at the coroner's inquest held by Dr. Jakes it appears that deceased was seen pass the 200-foot level station having on the platform cage with him an ore car containing steel. Immediately afterwards the car and deceased were heard to fall down the shaft, which is 400 feet in depth. The fall and the consequent injuries caused instant death. The unfortunate man's skull was badly crushed in and an arm and leg broken, besides other injuries. Seemingly the ore car was not fastened to the cage and by some unknown cause it ran off the platform, carrying deceased with it. As the shaft is not close timbered all the way up there was room for the car to leave the cage. The jury returned a verdict of accidental death.

The body has been taken to Colville, Wash., for interment there, the Graham home being in that locality. Deceased, who was a nephew of Mr. Jas Monaghan, of Spokane, formerly president of the Cariboo Mining company, was only 23 years of age, and his untimely death is much deplored.

WON THE GRAND PRIZE.

The James Cooper Manufacturing company of Montreal, Quebec, who constitute the Canadian Ingersoll-Sergeant company, have been advised by cable that the grand award for mining machinery has fallen to the Ingersoll Sergeant exhibit at the Paris Exposition. This award includes the gold medal and since it was won in open competition with the whole world the recipients of it may well be elated with their success. The excellence of the mining machinery manufactured by the James Cooper Manufacturing company is fully recognized in the Boundary district where their air compressors and other plant may be found at such leading mines as the B. C., Old Ironsides, Knob Hill, Mother Lode, etc.

For any old thing at any old price at I. O. C. 2nd Hand Store.

BOUNDARY MINING NEWS.

Mother Lode Developments---More Plant for the Cariboo Mine---Director of Geological Survey Visits the Boundary---Proposed New English Company to Acquire Properties Near Greenwood.

THE MOTHER LODE.

After a couple of days' shut down for necessary repairs to air compressor and for boiler cleaning, work was resumed at the Mother Lode mine this morning. Developments at the 300-foot level continue satisfactory. No. 1 crosscut from the south drift is now in about 60 feet, 25 feet being in excellent ore, which still fills the heading here. The north drift, now in about 220 feet from the shaft, has had ore coming up from under foot and rising three to four feet along some 30 feet of its course. In No. 2 north crosscut ore occurs similarly, whilst No. 1 north has ore both above and below along about 30 feet. The north drift at 20 feet or so farther ahead will be under the winze sunk 40 feet from the 200-foot level and in ore at that depth. A raise will be made for ventilation and some 50 feet more of work will give connection here between the 200 and 300 levels. In widening the drift at the 200 level for a double track some nice ore has been met with, but other work done in the vicinity suggests that it is too isolated to be of much importance. The ore now being exposed near the surface, in cutting out a site for the new hoist, looks so good that a drift will be run on it into the hill to ascertain what there is of it. Advices received from Montreal state that the 35-drill air compressor for the mine will be shipped on the 25th inst.

CARIBOO MINE PLANT.

Last Friday the Jenckes Machine company shipped from Rossland over the Columbia & Western railway to Midway at 60-horse power horizontal return tubular boiler, consigned to the Cariboo-McKinney Mining & Milling company's mine at Camp McKinney. This will furnish additional power required for extended operations.

The machinery already installed at the mine includes two horizontal return tubular boilers, a 60-horse power link motion hoist built by the Union Iron Works of San Francisco, and a 10-drill Rand compressor, in the house at the shaft. The mill is equipped with two 5-stamp batteries supplied by the Risdon Iron Works, and two more by the Jenckes Machine company; 60-horse power Corliss engine, two Johnstone vanners, a Wilfley table, one Blake crusher and one Gates crusher.

A DISTINGUISHED VISITOR.

Last week Dr. G. M. Dawson, C. M. G., L. L. D., F. R. S., deputy head and director of the Canadian Geological Survey, visited the Boundary district for the first time. He came west on this occasion in connection with the completion of details for the geological map of West Kootenay, which has been in course of preparation for some time past. This map will take in an area of about 80 miles, from the east shore of Kootenay lake to the vicinity of Christina lake on the west. It will be geographically colored and contoured and will give geographical and topographical data and other explanatory matter. Its scale will be four miles to the inch, this being the scale adopted by the Geological Survey in its efforts to systemize its work and keep it as uniform as possible. There will also be issued a topographical map, with special indications of the occurrence of economic minerals and glacial striae. The maps will be accompanied by a comprehensive explanatory report embracing the following information: Physical geography, general geology, descriptive geology, glaciation and surface deposits, minerals of economic value, petrographical characters of some of the rocks with notes of microscopic examinations, and numerous miscellaneous observations. It is intended to get these maps, etc., out during the ensuing winter. Geologists R. W. Brock and Jas. McEvoy each having an assistant, are still out with survey parties completing their examination of the country. Dr. Dawson hopes to next year give similar attention to the Boundary district. During his short stay here the distinguished visitor went up to Greenwood camp and was there shown through the Knob Hill mine. He continued his journey westward on Saturday, going via Camp McKinney and Vernon.

BOUNDARY CREEK M. & M. CO., LTD

A letter received from the secretary of the London & Canada Syndicate, London, England, requesting the directors of the Boundary Creek Mining & Milling company to ascertain whether the shareholders would be willing to accept fully paid stock in an English company with the management in London, if such were organized to take over and develop the local company's claims near Greenwood in exchange for that they now hold, was considered at a meeting of directors held last Monday. The secretary was directed to take the necessary steps to call a special meeting of shareholders for a convenient date next month to discuss this proposal and to meanwhile write to London for further particulars. The basis of exchange suggested is that shares in the local company be valued at 15 cents each, and that their equivalent in £1 shares in the new company be given them. The capital stock of the new company would be 75,000 shares of £1 each ($375,000), and of these some 45,000 would be applied in substitution for the existing B. C. M. & M. company's stock. It is proposed that at least $100,000 cash be provided for development purposes. There are some promising showings on several of the company's claims, and it is believed that if opened up some of these would develop into shipping mines.

PRIZES FOR MINERAL EXHIBITS.

It is announced that at the Spokane Industrial Exposition, to be opened on October 2, the chief prizes in the mineral department will excel in design and workmanship, as well as value, those of the past fairs.

The big gold medal prize offered for the best collective exhibit from a state or province will this year be in the form of a scroll. The design is stated to be one of the handsomest yet worked out for a mineral premium. The medal or scroll will be six or eight inches long and of a corresponding width. In the design will be used gold, silver, platinum, brass, bronze, with gold mainly in evidence. The medal will be engraved on the face of the scroll, with the name of the district winning it. It is valued at $125.

The second prize will be a silver medal, also of an appropriate design and valued at $50. The third prize will be a bronze medal, relieved with other metals, valued at $25. Three additional prizes are also offered for the best district exhibits and two for the best individual exhibits.

Messrs. W. H. Aldridge, manager of the Trail smelter; J. S. C. Fraser, manager of the Rossland branch of the Bank of Montreal; C. A. Molson, mining expert for the London Development company; J. W. Young, representative of the well-known machinery firm of Fraser and Chalmers, Chicago, and Ross Thompson are visiting the more important of the Boundary and Colville reservation mines. They arrived in Greenwood on Saturday night and have since visited the Mother Lode, Old Ironsides, Knob Hill, Snowshoe, Golden Crown, Winnipeg and B. C. mines. After looking over the Granby smelter they to-day proceeded from from Grand Forks to Republic. They will go thence to the Zala M., in Sheridan camp, and return to Rossland on Friday or Saturday via Midway and Greenwood.

Mr. R. P. Williams, agent at Greenwood for the Jenckes Machine company, received an advice a few days ago that blue prints of the foundations for the large hoist his company is manufacturing for the British Columbia Copper company's Mother Lode had been mailed at Sherbrooke, Quebec. These should reach the latter company's general manager, Mr. F. Keffer, M. E., this week, and so enable him to proceed at once with the foundations. These should be ready for the hoist by the time it arrives at the mine, which should be at the end of next month.

Mr. George B. McAulay, managing director of the Cariboo-McKinney Mining and Milling company, arrived in Greenwood on Monday night, 10th inst. Yesterday in company with Messrs. McMichael and Belton, of Toronto, and W. T. Smith, of Greenwood, they visited Copper camp, in which Mr. McAulay is interested. This morning the Toronto visitors left for Camp McKinney.

There are now 25 men employed at the City of Paris mine, White's camp, about half this number in getting out ore and the remainder in development work. The total quantity of ore shipped from this mine to the Granby company's smelter to date exceeds 3,000 tons. Shipments are at present restricted to between 30 and 40 tons per week. No work is being done just now on the neighboring claims owned by the Majestic Mining company.

A 30-inch by 10-foot air recciver, a 3¼ Little Giant drill and a 4½x2¾x4 Snow duplex boiler feed pump have lately been supplied by the Jenckes Machine company to the Morrison mine near Greenwood, Other plant at this mine includes a 30-horse power upright boiler, a 4-drill straight line Rand air compressor and a 3⅛ Little Giant machine drill.

Mr. R. Roberts, who is directing the development work now being done on the Ethiopia, in Long Lake camp, was in town yesterday. From him it was learned that the crosscut tunnel, now in more than 200 feet, has passed through one promising quartz vein and that another should be reached within 30 feet of the present face of the tunnel.

A car load of black sulphide ore, extracted from the newly-discovered vein in the Winnipeg mine, particulars of which were published in last week's TIMES, was shipped to the Grand Forks smelter on the 9th inst., also a car load from the railway ledge. Development work is proceeding at the 300-foot level of the mine.

The east crosscut at the 100-foot level of the War Eagle mine, Greenwood camp, is shortly to be extended with the object of cutting at that depth the ore body lately opened up in the prospect shaft mentioned in the Times last week.

It is not unlikely that arrangements will shortly be made to resume development work in the Oro Denoro mine, Summit camp. The management of the King Mining company, Rossland, owning the mine, are making efforts toward this desirable end.

Mr. A. Laidlaw, who recently bonded the Evening Star, in South Wellington camp, has put two men on prospecting the surface preparatory to sinking a prospect shaft after the best site has been decided upon.

The annual meeting of shareholders in the Brandon and Golden Crown Mining company will be held in Greenwood on Tuesday, 18th inst.

It is reported that some nice-looking copper ore has been met with in a crosscut at the 100-foot level of the Butcher Boy in Deadwood camp.

Mr. Andrew Laidlaw has four men at work clearing the trees and stumps off the site for the pyritic smelter near Greenwood, preparatory to putting on a numerous force so soon as the working plans shall have been received from Denver. The conveyance of the land has been duly executed by Messrs. C. A. R. Lambly and L. A. McCarren

ALL persons, old and young, should have their teeth examined once every six Months by a competent dentist. Decay will be present, and tartar forming, which nothing but a thorough examination will reveal. Professional service rendered in time means high-class work, less pain and great economy. A tooth filled when decay is slight will not be sensitive, the operation not long, and the filling lasting, because the operator has more and better structure to work on. He is enabled to make the walls of the cavity thicker and stronger, and with slight danger of exposing the nerve, the dread and fear of all when having teeth filled. Have your teeth attended to in time. Do not procrastinate. Give the dentist good tooth-structure to work upon, and he will render you excellent service. Many persons put off their visits to the dentist when sensitive teeth have given frequent warning. With mind excited, body in high nervous tension, and with excruciating pain and suffering plainly written on every feature, they come for relief. How can the dentist be expected to perform the best operation when the patient is in the worst possible condition to receive it? If your friend is sick do not wait until he is almost dead before you do something for him or send for the doctor. The doctor may save him by coming at the last moment, and should the patient recover he is liable to have bad health the remainder of his life on account of not having received proper attention at the right time. Likewise, a tooth that is neglected may be filled and saved at the last moment, but will probably have bad health the rest of its life. One person in a hundred has good teeth, ninety nine persons in a hundred could have good teeth with proper attention.

DUNCAN ROSS.....EDITOR.

WEDNESDAY, SEPTEMBER 12, 1900.

THE influential and representative deputation which last month waited upon the Provincial government to protest against the 100 per cent. increase in the tax on the ore product of metalliferous mines, submitted for the consideration of the government that there were in their opinion good reasons to believe that the gross output of ore for the ensuing year will yield at a tax of 1 per cent. about $25,000 more than the Finance Minister's estimate at 2 per cent. Their estimate, which they stated had been very carefully made, is that a 1 per cent. tax for the year will return $115,000 whilst the minister has placed the amount likely to be received from a 2 per cent. tax at $90,000. The contentions in support of the more liberal estimate of the mine owners are that the amount of the tax collected last year ($38,000) was largely kept down by extraordinarily unfavorable conditions, such as labor troubles in the Slocan and elsewhere, insufficiency of mining plant, etc., at Rossland, the financial difficulties of the Hall mines near Nelson, the almost entire suspension of shipping operations in East Kootenay and other causes preventative of a large output, and that these being removed, the tax at the old rate should yield a return of more than double last year's total. Then there are other districts, notably the Boundary, not previously included, that during the ensuing year will add largely to the ore production total of the province. The request was therefore most earnestly pressed upon the government that a trial be made for six months to determine whether or not mine owners' estimates are borne out, the tax to meanwhile remain at 1 per cent. It is to be hoped that the government will yield to this request, which is a perfectly reasonable one, provided the mine owners can give particulars that will show a fair prospect of their expectations in the direction indicated proving reliable. If it transpire that a 1 per cent. tax will yield more in the aggregate than the amount the Finance Minister now estimates 2 per cent. will bring, there surely can be no legitimate reason for adding unnecessarily to the already heavy burdens that the mining industry has to bear. Coming from such a source, the representations of the mine owners should at least have a trial, and it is to be hoped they will.

MR. W. C. MATTHEWS, general manager for Messrs. R. G. Dun & Co., in Canada, having just completed a trip during which he visited the different offices of the company from the Atlantic to the Pacific, lately gave a representative of the Toronto Globe his impressions of the trade conditions of the different parts of the Dominion. Speaking of this province he is reported to have said: "In British Columbia the drastic labor law, the various strikes and the political ferment of the past few months have had a depressing effect on business, and all classes have felt it. Things seem to be settling down, however, the changed conditions are being accepted, and the situation is improving." Of this particular district he said: "In the Boundary Creek country heavy stocks are the rule, and even with the early opening of the smelters and general activity in the mines tight times are likely to prevail for a season." Strictly true, as it must be acknowledged this brief summing up of the local situation is, it is but fair to add that the few weeks that have elapsed since Mr. Matthews was in British Columbia have witnessed here a change for the better.

ON April 12 last the President of the United States signed a proclamation appointing Oct. 10 next, as the date upon which the North Half of Colville Indian Reservation is to be opened for homestead entry. It is claimed that a conservative estimate of the area of first class agricultural land that will then and there be available for white settlement places it at 500,000 acres. This would admit of an apportionment of the customary 160 acres to each of more than 3,000 homesteaders. As a number of the homestead will be at a comparatively short distance from Greenwood it is quite probable that this town, the metropolis of the Boundary district, will in some measure derive benefit from the considerable accession of population shortly to be received by the districts lying immediately south of the International boundary line with some of the mining camps of which Greenwood already has business connections.

A HEALTHY sign of an improving condition of the mining industry in this district is to be found in the fact that machinery firms are receiving inquiries regarding mining plant and machinery, the placing of orders for which at an early date is contemplated by several mine owners. With a steady increasing output of ore and a growing disposition to make early provision for enlarged operations, the outlook for the future is getting brighter. Under these favorable circumstances confidence in the mines of the district is being more effectually restored, much to the satisfaction of all concerned.

OWNERS and agents report that residence property is letting more freely now than for several months. This is gratifying news and it betokens the coming again of better times than for the past two or three months. The more settled homes there are in the town the better for its trade and general advancement.

REPUBLIC-KETTLE RIVER RAILWAY.

Regarding the proposed railway from Republic, Mr. Clarence J. McCuaig, who recently returned to Montreal after visiting the leading mining camps of East and West Kootenay and Republic, is reported by the Toronto World to have said: "The Republic and Kettle River Railway company, is now being organized by New York and Canadian capitalists, to build a railway from Republic to Grand Forks, or rather to a point on the boundary line, with the anticipation that the Canadian Pacific railway will either build itself from Grand Forks to the boundary line, or permit the company to do so. If possible construction will be commenced this fall, but if the arrangements are not completed in time, work will be commenced as soon as weather will permit in the spring."

A press dispatch from Republic, Wash., states that the corporation papers were filed with the county auditor there by the Republic and Kettle River Railway company, for the purpose of building a railway from Republic to the international boundary line near the postoffice at Nelson, Wash. The capital stock is $1,000,000, divided into 10,000 shares of the par value of $100 each. The trustees are C. J. McCuaig, Montreal; Warner Miller, New York; Albert A. Ayer, Montreal; R. G. E. Leckie, D. F. Hallahan, A. F. Burleigh, of Republic; and J. C. Ralston, Spokane. It is thought that the compay intends to connect with the Canadian Pacific and run into Grand Forks. The road will be of the standard gauge. Surveyors are now on the ground locating a route. Warner Miller and R. G. E. Leckie are president and vice president respectively.

The Spokesman-Review remarks: "Those familiar with the indefatigable purpose of President James Hill can readily believe that he has stolen a march on the Canadian Pacific and won the long desired entrance to the Boundary country and Republic along the valley of Kettle river. Mr. Hill usually attains his ends. It is earnestly hoped that he has succeeded in this case, and that his success will call for the quick construction of an American line into the rich camps along the international border."

Says the Bossburg Journal: "There are lots of rumors in the air as to what point the Great Northern branch across the reservation will leave the Spokane Falls and Northern line, and which route will be taken. It is stated that surveyors are now on a route from Marcus up Kettle river to the mouth of Boulder creek, and thence across to Republic. But it is reported by people who claim to be on the inside that the road will be built from Northport to Cascade, via Flat and Pierre creeks. This route will give more ore tonnage and an easier grade. At Cascade the latter route will connect with the proposed electric road to Republic. There are several survey parties running lines across the reservation, and their presence at one point or the other is no criterion to go by until the grade stakes have been set."

FOR RENT—Sewing machines at O. I. C. 2nd Hand Store. tf

ENDURED DEATH'S AGONIES.

Only a roaring fire enabled J. M. Garrettson, of San Antonio, Tex., to lie down when attacked by asthma, from which he suffered for years. He writes his misery was often so great that it seemed he endured the agonies of death; but Dr. King's New Discovery for Consumption wholly cured him. This marvelous medicine is the only known cure for asthma as well as consumption, coughs and colds, and all throat, chest and lung troubles. Price 50c and $1. Guaranteed. Trial bottles free at Miller Bros. drug store.

CITY COUNCIL.

Mayor Hardy presided at last Monday night's meeting of the city council. There were two absentees—Aldermen Sharpe and Sutherland.

Correspondence received included the following, which was dealt with as stated:

Re land expropriated for street or alley: L. Bosshart, referred to city solicitor; J. A. Smith and M. Stooke, to be offered $1 per foot frontage as compensation.

From Mr. Smith Curtis, M. P. P., re Railway Assessment Act; received and filed. George A. Stimson & Co., Toronto, re time to which offers for debentures will be received; clerk to reply. Revs. B. H. Balderston, D. Campbell, W. A. Robins and W. Palmer, re ringing city bell at certain times for Sunday services at churches; permission given to ring the bell, applicants to provide ringer. Mrs. M. Kauffmann, re in sanitary condition of premises at rear of I. O. O. F. block; matter in hands of city health officer. Kamloops Board of Trade, re Good Roads convention; received and filed. A. Fisher, re grade Silver street, Fisher's addition; grade not yet established.

Application from Greenwood Electric Company, Ltd., and Greenwood and Phoenix Tramway Company, Ltd., for extension of six months from expiration of the year named in tramway charter within which to carry out undertaking. Extension granted to August 31, 1901, under same conditions as before.

REPORTS.

City engineer reported quantity of water passing through Deadwood street culvert to be 120 cubic feet per minute or eighty miner's inches, not including that flowing underneath and at sides of culvert: also completion by C. H. Norris of contract to build culvert. Medical health officer reported on sanitary condition of yard at rear of I. O. O. F. block and action he had taken in regard to same; also urging that council grapple with water service and drainage questions. J. Cropley reported work done at cemetery. Finance committee reported accounts correct, as under, and the same were passed for payment:

C. H. Norris, $1,000; Caulfield & Lamont, $34.77; A. H. Sperry Co., Ltd., $1.75; J. A. Leamy, $28.50; E. W. M. Lyons, $73.50; L. H. Wright, $2; D. D. Hardy, 75c and $49.55; Greenwood Electric company, Ltd., $100.45; Yale Columbia Lumber Co., Ltd., $3.67; H. Bunting, $8.20; Greenwood Produce Co., $1.50; Cunningham & Andersen, $4.80; C. F. Alston, $196; W. J. Wartman, $90.

By-law to amend by-law No. 14 (health by-law) considered in committee and read a third time. This by-law provides that no public laundry in the city shall be within 250 feet from Boundary creek and that proprietors of existing laundries affected thereby be given three months notice to remove same.

It was decided that tenders be called for cutting ditch to connect the old creek bed with Deadwood street culvert; street committee to act on same. Medical health officer to report as to general sanitary condition of streets and alleys of the town. Water pipe across Twin creek to be protected to prevent freezing. Time within which rebate will be allowed on payment of general taxes was extended until Oct. 10, prox. Clerk reported total tax receipts on account of 1900 taxes have been $6,578.23. Fire and light committee to make some necessary alterations to horsestalls in fire hall and to repair and paint tin roof of city hall. Collector to make special effort to get in dog taxes and where payment be not made, to prosecute. A committee was appointed to confer with city engineer with reference to his getting a provincial land surveyor to certify to the correctness of measurements shown in the map of the city now being prepared so that in case of need map will be received as evidence in a court of law. Fire and light committee was requested to obtain information from experienced persons re suitability of electricity for thawing frozen water pipes and effect of this process upon pipes. Council adjourned at 11 o'clock p. m.

LIBERAL NOMINEE IN YALE-CARIBOO.

The Liberal convention for Yale-Cariboo was held in Revelstoke on 5th inst. The delegates from the surrounding ridings, numbering about 50, met in the Liberal-Conservative rooms on that morning to nominate a candidate. Mr. W. M. Laurence, president of the Revelstoke Liberal association, was in the chair.

Mr. Smith-Curtis nominated Mr. Hewitt Bostock, M. P., seconded by Dr. Sinclair, of Rossland.

A motion was carried authorizing the chairman to wire Mr. Bostock, and the convention then adjourned until 2 o'clock to receive his reply. This, on arrival, stated that Mr. Bostock, after full consideration of all the issues involved, finds that it will be impossible for him to accept re-nomination, his answer to the convention being as follows:

The Chairman Liberal Convention,
Revelstoke, B. C.,

"I appreciate most deeply the generous and unanimous expression of the convention. I regret exceedingly that my desire to meet their views cannot prevail over circumstances which make it impossible for me to accept.

HEWITT BOSTOCK."

Mr. W. A. Galliher, of Nelson, was afterwards tendered a unanimous nomination, which he accepted. The convention was addressed by Messrs. Templeman, Curtis, Henderson, McLagan and Maxwell. A permanent organization was effected, with headquarters at Revelstoke.

There was a long list of resolutions adopted, including one thanking Mr. Bostock for past services, and others covering the following matters:

In favor of a British Columbia census every five years, to readjust the constituencies and the per capita grant; cabinet repesentation; division of the Yale-Cariboo constituency into three; all public charters to have a clause allowing the government to purchase the same; approval of the enforcement of the fair wage clause and the establishment of a Bureau of Labor Statistics and Board of Conciliation; doubling the per capita tax on Chinese and an act on the lines of the Natal Act; the establishment of a Dominion Bureau of Mines; and endorsement of the Laurier government, congratulating it on its preferential trade policy, penny postage, and the contribution of men and money in defence of the Empire in South Africa, and the action regarding homestead fees in British Columbia, and the following: "We recognize with approval the action of the government in the provision made for a free return into Canada of lead of Canadian origin, smelted in Canada, but refined abroad, and in view of the large production of lead bullion now going on in Canada (a production that a few years since did not exist), and in view of the great inequality of duties levied on the product and other material used in the manufacture of paints (such duties ranging from nothing to 35 per cent. of the value thereof) this convention would recommend that the tariff of customs on lead products and such other material used in the manufacture of paints coming into Canada, be revised and put on a parity with each other, and with the duties now levied for revenue purposes upon similar classes of goods."

PROVINCIAL LEGISLATURE PROROGUED.

The first session of the ninth Parliament of British Columbia was ended by prorogation on the 1st inst. by His Honor, the Lieutenant-Governor, who made the following speech from the throne:

Mr. Speaker and Gentlemen of the Legislative Assembly:

"I am pleased to express my appreciation of the earnestness and care you have manifested in dealing with various important subjects submitted for your consideration during the session. The liberal supplies you have granted for carrying on the administration of public affairs, and particularly for the construction of roads, and for other public improvements, cannot fail to have a marked result in the development of the resources of the province affected thereby.

"I am pleased to observe the substantial aid extended to agricultural industry. The measure of relief afforded to settlers by the Land Act Amendment Act is especially gratifying.

"The several amendments to the Assessment Act, and the act to levy a tax on coal and coke will result in a substantial increase in the revenue so as to more amply provide for carrying on necessary works of development in the future.

"I am pleased to know that special measures of relief have been passed in the interests of the municipalities of New Westminster and Sandon.

"It is gratifying to find that effective measures have been taken to protect our home labor, not only from unfair competition within the province, but from the immigration of undesirable classes of aliens.

"I note with pleasure that an act has been passed, and under it a judge of the Supreme Court of British Columbia has been appointed to proceed to Porcupine creek, Cassiar district, to settle up in an expeditious manner disputes which have arisen in that locality between miners by reason of the uncertainty of the boundary between Alaska and this province.

"The act to protect the mining interests of citizens serving Her Majesty in South Africa meets with my warmest approval.

"The presence in the province of His Excellency the Governor-General at the present time is a matter of congratulation, and I feel assured that His Excellency will be deeply impressed with the expressions of loyalty to Her Majesty, so conspicuous in this part of Her Majesty's dominions.

"In liberating you from your arduous duties it is with the feeling that your efforts will be amply rewarded by the increasing prosperity and the general advancement of the interests of the province resulting therefrom."

Immediately before prorogation the following acts were assented to in Her Majesty's name:

An act to amend the Evidence Act.

An act to amend the Notaries Appointment Act.

An act respecting the closing of shops and the employment of children and young persons therein.

An act to incorporate the Vancouver and Westminster Railway company.

An act to incorporate the Crow's Nest Pass Electric Light and Power company, Limited.

An act to incorporate the Western Telephone and Telegraph company.

An act to amend the Companies Act, 1897.

An act to incorporate the Kitimaat-Caledonia company.

An act to revise and consolidate the Vancouver Incorporation Act.

An act to amend the Vancouver, Northern and Yukon Railway Act, 1899.

An act to amend an Act to Incorporate the Anglican Synod of the Diocese of New Westminister.

An act to incorporate the Rock Bay and Salmon River Railway company.

An act to accelerate the incorporation of the city of Phoenix.

An act to incorporate the Pacific, Northern and Omineca Railway company.

An act to amend the Vancouver and Lulu Island Railway Act (1891) Amendment Act, 1897.

An act to amend the Investment and Loan Societies Act.

An act to amend the Rossland Water and Light Company Incorporation Act, 1896.

An act to amend the Columbia and Western Railway Subsidy Act, 1896.

An act to amend the Land Registry Act.

An act to amend the Judgments Act, 1899.

An act to amend the Mechanics' Lien Act.

An act relating to extra-provincial investment and loan societies.

An act to incorporate the Kamloops and Atlin Railway company.

An act to amend the Official Administrators' Act.

An act respecting succession duties.

An act relating to employment on works carried on under franchises granted by private acts.

An act to regulate immigration into British Columbia.

An act to confirm the assessment roll of the city of Greenwood for the year 1900.

An act to permit the use of voting machines in British Columbia.

An act to amend the law relating to costs allowed to mortgagees.

An act to incorporate the Grand Forks and Kettle River Railway company.

An act to authorize a grant to the corporation of the city of Vancouver of certain crown lands situate in said city.

An act to amend the Licences Act, 1899.

An act to amend the Water Clauses Consolidation Act, 1897.

An act to relieve the members of the Canadian troops serving in South Africa from the operation of certain provisions of the Placer Mining Act, the Mineral Act, and amending acts.

An act to amend the Railway Assessment Act.

An act to amend the Provincial Elections act.

An act to amend the Tramway Incorporation Act.

An act to amend the Mineral act.

An act to levy a tax on coal and coke.

An act to amend the Land Act.

An act to amend the Assessment Act.

An act to amend the Queen's Counsel Act, 1899.

An act to vest the title to the Discovery placer claim, Atlin Lake Mining Division, of the Cassiar Electoral District, in the discoverers of placer claims in the said district.

An act to amend the Municipal Clauses Act.

An act to amend the Municipal Elections Act.

An act to amend the Public Dyking Act, 1898.

An act to amend the Municipalities Act.

An act to further amend the Land Act.

An act for granting certain sums of money for the public service of the Province of British Columbia.

NO CABINET RECONSTRUCTION.

The frantic guess of the Vancouver World at the composition of a reconstructed government, wherein Messrs. Turner, Wells and Prentice should be no more, has occasioned no little amusement here—more particularly among those who are in the know. For the benefit of the World, as well as of the general public, it may now be said with confidence that there will be no reconstruction, for the present, at all events. Hon. Mr. Dunsmuir will in the interim between now and the calling of parliament together in regular session in the spring, formulate a policy which he will submit to his supporters, and on which he will meet parliament again with the same colleagues who were accepted as temporary by the pro-sessional convention in Vancouver.—Vancouver Province.

TO RE-CONSTRUCT THE PROVINCIAL CABINET.

The report is current in Victoria, and we give it for what it is worth, that the re-construction of the cabinet, as was agreed upon in the convention held in this city last June by the government and its supporters, will take place immediately, Hon. Messrs. Dunsmuir, Eberts and McBride will continue, while Messrs. Turner, Wells and Prentice will drop out, Mr. Turner taking the position of Agent-General in London. The intention is to make the government a purely Conservative one. Mr. Dunsmuir will continue to be premier, and Mr. Eberts attorney-general. Hon. Mr. McBride will become provincial secretary; Mr. Green, of Slocan, minister of mines; and Price Ellison, of Vernon, chief commissioner of lands and works.—Vancouver World.

J. A. KIRK.

CANADA AT PARIS.

The following references to Canada's exhibits at the Paris Exposition are taken from exchanges:

What sort of a figure do Britihs colonies cut in the Paris exhibition? That question is answered by a visit to the park of the Trocadero, where bunched together Canada, Western Australia, India and Ceylon, can be rapidly visited, and their wealth and significance contrasted with the conglomeration of dusky and diverse semi-savage tropicals who form the French group of colonies. The fine Indian exhibit gives but a faint idea of the wealth of our splendid dependency, even Ceylon with its unique display of spices, and its successful tea-house, so frequented by the better classes, is not what excites the admiration of Britishers most. It is when he steps into Canada that he feels the greatness and promise of the new empire beyond the sea, and gets the proper idea of a true colony. Here he meets in the Canadian commissioners a set of men who represent the colonial idea of sturdiness and love of work, without a trace of the glacial age or official starch about them. Around on both floors of the building are evidences of the immense material wealth and progress in the Dominion. The wealth of her fisheries, the richness of her vast grain fields, the enterprise of her farmers, the perfection and variety of her farm products, the range of her manufactures, the display of her gold and minerals, the extent of her railways and the generous scope of her education system, the evidence of all this lies before you, and even the dawn and prophecy of Canadian art. On Canadian shoulders has rested the main burden of showing to France the material and moral possibilities of a true British colony, and the result is astoning proof of the enterprise, wealth and organization in a colony that has responded so nobly in South Africa to her duties in empire building. The whole building is decorated with flags, and there has been no timidity in showing in the capital of France what Canada's flag is. The same is true of additional exhibits for which space could not be found here. At Vincennes she has a building filled with the newest and best types of farm machinery. In the horticultural display, Canada has spread her ripe harvests of fruits and decorated them with the same colors. In shipping you pass an admirable display of canoes, and it was Canadians who set the fashion in that building of flag decoration. In the great buildings in the Champ de Mars where her displays of machinery, carriages and forest products are to be seen. Everywhere the same story is told, Canada and all her resources a part of the British empire. In one respect she has done what no other nation here has done, she has applied the newest and most perfect form of cold storage for her farm produce, by which in this tropical heat, it is preserved fresh, whilst even the United States is laboring with old-fashioned ice methods.

A correspondent writes thus to a provincial paper:

If may interest your readers to learn the impression of a British Columbian visitor to the Canadian exhibiton at Paris. I visited the exhibition for the first time on the 17th of June and was very disagreeably surprised to notice a state of great disorder and chaos in the mining department. I found everything topsy-turvy. Specimens were arranged regardless of order and system, and I actually saw a mixed pyramid of galena and copper ores, the whole being labelled "galena." I was rather astonished to find Mr. A. K. Stuart, the B. C. representative, in the agricultural department, working like a beaver (by superior order). On my second visit, however, on July 26th, a change decidedly for the better had taken place. I was given to understand that after much wire-pulling and kicking Mr. Stuart had been placed in the position he should have occupied from the first, i. e., in the mineral section and in charge of the British Columbia exhibits for which purpose he was sent to Paris. Meanwhile the whole exhibit had been re-arranged by Mr. A. P. Low, of the Geological Survey, assisted by Mr. Stuart. Each specimen was labelled and classified and the whole presented a most creditable appearance. The great fault, however, to be found with our mineral exhibit is that it resembles too closely a collection of mineral specimens—a very excellent arrangement no doubt from the point of view of students of geology, but not attractive as an advertisement when compared with the exhibits from West Australia, Transvaal, Siberia, etc. The public cannot realize that each small sample represents a large mine. In an interview I had on the subject with Mr. Hume, Minister of Mines in 1899, I pointed out that the British Columbia government should purchase a car load of galena and sulphide ores which would make a most attractive feature of our exhibit of minerals from B. C. This of course in addition to collections of samples from principal mines. While our exhibit is creditable there is not enough of it for a display demonstrating the wealth of the country.

Canadian furs have taken the highest award and we have actually beaten Russia. Uufortunately the specimens are scattered all over the building. In forestry and lumber British Columbia and the other provinces have beaten the whole world and received the highest award, but poor judgment was shown in the failure to purchase adequate space. The exhibit is therefore piled against the wall occupying a space of about 25x25 feet. In front are two large show cases, containing the exhibit of an English cartridge factory. I am told that additional space was offered to the Canadian government, but not accepted. The Canadian building itself is very poor, while the exhibits are exceptionally good. Our representative, Mr. Stuart, is doing excellent work and has proved himself most highly qualified for the post.

In conclusion I will add that but for British Columbia's exhibits Canada would have come off badly in the mineral and forestry sections. The Paris exposition is much too large, the buildings are marvellous, but the undertaking itself is a financial failure.

LIBERAL-CONSERVATIVE CONVENTION.

A provincial convention of the Liberal Conservative party was held recently at New Westminister. On the last day it met Mr. Charles Wilson, Q.C., was re-elected leader of the party in this province by acclamation.

After an address from the newly-appointed leader, the question of the next place and date of meeting was discussed, Mr. C. Wilson, proposing Revelstoke, and Mr. Wentworth Sarel, Kamloops. On the vote being taken, Revelstoke was selected, it having secured 39 out of the 75 votes polled. The date of the meeting was fixed for the second Thursday in October, 1901.

The officers for the ensuing term were elected as follows: Honorary president, Sir Charles Hibbert Tupper; president, Hon. R. McBride; treasurer, T. S. Barnard; secretary, C. J. South.

NOTICE.

To John Empey of the City of Rossland, in British Columbia, and Robert E. L. Brown of the City of Victoria in British Columbia:

SIRS:—We hereby give you notice that on behalf of our clients, Messrs. George A. Rendell and George R. Naden, both of the City of Greenwood in British Columbia, the vendors of the lands and premises, lately contracted to be purchased by you, the said John Empey, by an agreement dated the 5th day of June, A. D., 1899, and which lands and premises are described in said agreement as being a certain portion of the Barbara mineral claim, being lot eight hundred and seventeen (817) situate in the City of Greenwood in British Columbia, and more particularly described as situate on the southeast side of Dundee street in said city facing Copper street, and the northwest corner of the lands agreed to be sold to be not more than thirty-five (35) feet from the northeast corner of lot one (1) in Block "E" in the subdivision of part of the Dundee mineral claim, being lot six hundred and one (601) and which said described lands were on the survey of the Barbara mineral claim platted and are known as lots seven and eight (7 and 8) in Block "A" in the subdivision of said Barbara mineral claim.

That the day hereby fixed for completion of the purchase is now long past and that the vendors are ready and willing to make and execute, and to procure the concurrence of the necessary parties, if any, to a conveyance to you, the said Robert E. L. Brown, to whom the said John Empey on the 28th day of November, 1899, assigned his interests in said lands, of the fee simple in possession of the premises comprised in the said agreement in accordance with the conditions and stipulations of th same; and that the vendors require you within twenty-one (21) days from this date to complete the purchase and pay the remainder of the purchase moneys with intetest up to the day of such completion as provided by said agreement; and we further give you notice that the vendors will hold you liabel for all loss or damage which may be incurred by them by reason of any delay or default on your part in completing the said purchase or otherwise in relation to the said agreement.

And we further give you notice that after the expiration of the twenty-one days, the vendors will enter into possession of the said lands and all buildings thereon and will declare the said agreement of 5th of June, 1899, cancelled and void without further notice.

Greenwood, B. C., the 9th day of August, 1900.

GREENWOOD, B. C.

City Gleanings

Dr. Mathison, dentist, over Bank of Commerce. Columbia 'phone 1-6.

Mr. H. C. Shaw is about again after several days' sickness which left him somewhat weakened.

The Inland Revenue receipts at the Greenwood office for the month of August totalled $1,114.53.

Mr. John Kirkup, provincial government agent at Rossland, was in town on official business last Friday.

About 30 cases are on the list for the sitting of the county court to be held at Greenwood on Monday 24th inst.

Mr. Wm. Gill, Inland Revenue inspector for British Columbia, is in the city inspecting the local inland revenue office.

Mr. H. A. King yesterday received a telegram notifying him of the unexpected death in Toronto of his father.

Mr. E. J. Muir, tailor, late of Midway, left by yesterday's train for Calgary, where he will start in business.

Rev. Ralph W. Trotter, of Columbia, will conduct fortnightly services in the Baptist church, Greenwood, commencing on Sunday next.

Rev. Ralph W. Trotter will preach in the Methodist church on the occasion of the anniversary services to be held on Sunday, Sept. 20th.

Mrs. Forin and child came over from Nelson last week to spend a few days in Greenwood with Dr. Forin, returning by Monday's train.

Mr. and Mrs. Henry Johns, of the Sunset mine, Deadwood camp, left Greenwood on last Wednesday's train on a short visit to Oregon.

A friendly cricket match will be played on the Greenwood grounds next Saturday afternoon, when sides will be chosen from local players.

Mrs. Travis, president of the W. C. T. U. of Greenwood, is attending the annual meeting of the provincial W. C. T. U.; opening at Chilliwack today.

Mr. J. Lonsdale Doupe, C. P. R. assistant land commissioner, Winnipeg, came to Greenwood yesterday on business connected with the C. P. R. land department.

Mr. Donald Stewart, United States customs officer stationed at Grand Forks, was at Midway on Sunday releasing bonded goods consigned to towns across the line.

The ball held at Midway on the night of 6th inst., in aid of the local brass band, though not so well attended as was hoped for, was a very pleasant function for those who were present.

Mr. W. G. Gaunce, secretary of the Greenwood Board of Trade, returned last Friday night from Seattle, where he had been on a visit to his family, in which there had been sickness.

Last Monday night's train brought in, among others, Mr. S. W. McMichael, chief inspector of Customs, and his secretary, Mr. F. S. Belton, who are visiting the Boundary district on official business.

The attention of those concerned is directed to the meeting of the Greenwood Presbyterian church, called for tomorrow (Thursday) evening, to considers matter of much importance to the congregation.

Noticeable at the recent prorogation of the provincial legislature was a silver mounted stock-driving whip tied to the desk of Mr. Price Ellison. It was a present from the ministers, and bore the inscription, "Price Ellison, Whip, 1900."

Mr. Henry Nicholson has been appointed sub-recorder for the Camp McKinney portion of the Kettle River Mining Division, in place of Provincial Constable Chas. Winter, whose police duties prevent his giving much attention to office work.

A band of 102 head of fine beef cattle from Mr. Thos. Ellis's ranges in the Okanagan country, were driven to P. Burns & Co.'s slaughter house at Eholt meadow yesterday. These are for the Boundary and Kootenay markets. Mr. Frank Ellis was in charge.

Mr. R. Marpole, superintendent of the Pacific division of the C. P. R., is reported to have stated that the management intends to build a bridge across the Columbia river at Robson, and that a commencement will be made at once with the work.

The last of the poles for the Columbia Telephone company's line to Brewster were put up last Saturday and now the wires are being strung, so it should not be long before telephone communication will be established between Greenwood and the towns of the American Okanogan.

It is stated to be the intention of the newly incorporated Western Telephone and Telegraph company to build lines through the Nelson and Slocan districts and to connect the Boundary country with the coast and Vancouver. The lines of the company will be operated in connection with those of the Columbia Telephone company.

Mr. R. A. C. McNally, of Rossland, general agent in British Columbia for the James Cooper Manufacturing Co., came in last week on a general tour through the Boundary. This was his first visit to Greenwood. He was shown around by Mr. H. R. Kirkpatrick, the company's local agent.

Messrs. C. Scott Galloway, J. J. Caulfield and C. Æ. Shaw., C. E., recently went over the road to Central camp and found it in good order, up to the No. 7 mine. Arrangements were made with Mr. Martin, of the City of Paris, to extend the road about two miles to the latter mine, in White's camp, and it is understood that this work is now in progress.

Mr. G. C. Hodge, manager in the Kootenay and Boundary districts for the Vernon and Nelson company, is engaged in putting in a direct telephone line between the Granby smelter, Grand Forks, and the Knob Hill and Old Ironsides mines, Phoenix. Additional wires and crossarms are required all through, so the line will be practically a new one.

Telegraphic despatches published in the eastern press mention, among other members of Strathcona's Horse recently wounded in South Africa, the name of R. H. Palmer. No other information has yet been received, but it is thought that "Bob" Palmer, who went from Greenwood to join the mounted force referred to, must be the man named as wounded.

Three Baptist ministers—Rev P. H. McEwen, superintendent of Baptist missions; Rev. G. J. Coulter White, of Nelson, and Rev. Ralph Trotter, of Columbia—were among last week's visitors to Greenwood. Messrs. McEwen and White remained over Sunday and conducted services morning and evening of that day in the Greenwood Baptist church.

Mr. Angus K. Stuart, late of Greenwood, commissioner for British Columbia to the Paris Exposition, has sent pretty souvenirs of the exposition to some of his numerous friends in the Boundary district. Among these are post cards with a tinted view of the bridge of Alexander III, Paris, and silk handkerchiefs with a general view of the exposition printed in colors and the sender's name worked in red above it.

A notice published in the B. C. Gazette intimates that the Council of Public Instruction has created the following tract of land to be a school district, under the title of "Camp McKinney School District." All that tract of land within a circle whose center is the central point of the Cariboo mineral claim, and whose radius is a distance of three miles from such center.

It is reported that Mr. Smith Curtis, M. P. P., for the Rossland riding of West Kootenay, may go to Europe this fall to receive treatment for his hearing, which handicaps him seriously in his profession and in the House. He has been encouraged to go and consult the specialists, so it is stated, by the success that has attended the treatment of Hon. Clifford Sifton, of Manitoba, whose hearing was much worse than his own.

Alderman Sharpe, of Greenwood, is mentioned in newspaper despatches as having assisted in putting out the incipient fire, supposed to have been lighted one night recently by an incendiarist with the object of burning the Crown Point hotel, Trail. The hotel is valued at $10,000 and is the oldest in Trail. Mr. Sharpe was a guest in it at the time of the dastardly attempt—fortunately unsuccessful—to destroy it.

Mr. W. D. McMillan came in last week from the Similkameen. He speaks favorably of that section, which he states has the most promising surface showings of mineral of any of the numerous mining districts he has visited. He is better acquainted with Keremeos creek, Olalla and Twenty-Mile creek than with other parts of the Similkameen, so of these he speaks particularly and thinks that some payable mines will be developed there.

The ball given last Friday night under the anspices of the Greenwood Fire Department was well attended. A long program of dances was gone through to excellent music from piano and violin. Supper was served in the Pacific restaurant and in Miller's building, the latter by E. R. Kerfoot. The night's receipts were satisfactory, leaving a balance above expenses of $40 towards the cost of fitting up the firemen's gymnasium.

At a meeting held last night in the Union hall, Greenwood, it was unanimously agreed to form a Cook and Waiters Union. Temporary officers were elected as follows: President, R. Lucas; vice-president, M. M Bungest; secretary, George Howe. The secretary was instructed to notify all cooks, waiters and kitchen helpers of the steps taken and the meeting was then adjourned until next Tuesday night when a permanent union will be organized.

The mayor, city clerk, city engineer and Mr. C. Æ. Shaw have been subpoenaed to attend before and be examined by Mr. J. P. McLeod, special examiner in the matter of Walter Waterland and the Corporation of the City of Greenwood, which is an action in the Supreme Court of British Columbia, to recover $5,000 damages alleged to have been sustained by plaintiff through flooding of his hotel by overflow of Boundary creek waters. Responsibility for this damage is imputed to defendants who, it is contended, improperly diverted the said waters from their natural channel.

When riding up to Greenwood last Monday, Mr. Ed. B. McMynn, of Rock Creek, met a team below Boundary Falls going at a pretty good pace down a grade. The driver did not give Mr. McMynn's horse enough room, but ran a wheel against it, causing an ugly wound, the size of the palm of a man's hand, on the upper part of the near side foreleg. Mr. McMynn states that the man, whose want of care caused the accident, drove rapidly on without waiting to see what injury he had done. The team was from Greenwood on its way to Camp McKinney.

There will be a grand promenade concert on Thursday evening, September 20, at 8 p. m., in the Masonic hall in aid of the funds of the Church of England. The concert will be followed by a dance. Light refreshments will be served. Admission to the whole, 50 cents; no extras.

A charge of gambling laid against a Chinaman was, after two or three adjournments, dismissed on Monday afternoon by Police Magistrate Hallett, the evidence being insufficient to warrant a conviction.

Late last Friday night a severe thunderstorm was experienced at Greenwood. Vivid flashes of lightning and loud reports of thunder were followed by heavy rain, which poured down for more than an hour. Showers fell at intervals on Saturday, the rain being welcome in places where the supply of water had previously been rather limited.

Mr. C. Æ. Shaw left for the West Fork on Monday, to mark out a route for a wagon road between Westbridge and Beaverton. Mr. E. H. Thruston, who is interested in the Carmi mine, above Beaverton, is stated to have undertaken to have the road completed before winter sets in and intends pushing the work to accomplish this. Mrs. Shaw and family accompanied Mr. Shaw for a fall outing.

FOR SALE—Cheap sewing machines at O. I. C. 2nd Hand Store.

FOR GOOD ROADS.

The following circular lettter has been sent out by the Kamloops Board of Trade: At a general meeting of the B. C. Inland Board of Trade, held in Kamloops on the evening of Friday, August 31st, it was unanimously resolved: That this board take the initiative in calling a convention, to be held in Kamloops at 10 a. m. on Thursday, September 27th inst., for the purpose of organizing a Provincial Good Roads Association. You are earnestly requested to attend this convention. Arrangements are being made for reduced transportation rates.

G. H. MUMM'S EXTRA DRY

Is the greatest leader of of all Champagnes. The importations for this wine in 1899 were 109,303 cases, being 72,475 more than any other brand-----a record never before approached.

The importations from January 1st to July 1st this year are 66,149 cases out of a total of 135,184, thus showing that the "G. H. MUMM'S EXTRA DRY" imports are about half of the total Champagnes.

Certificate of Improvements.

NOTICE.

TINTIC Mineral Claim, situate in the Kettle River Mining division of Yale district. Where located: In Deadwood camp.

TAKE NOTICE that I, Isaac H. Hallett, free miner's certificate No. 1910A, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 12th day of March, 1900.

I. H. Hallett.

NOTICE OF FORFEITURE.

To:

D. R. Campbell and A. C. McKenzie, late of Greenwood in the Kettle River Mining Division of the Province of British Columbia, and to any other person or persons interested or claiming any title to the "Queen Bess" mineral claim, situate in Long Lake Camp (formerly called Gold Drop Camp,) in the said Kettle River Mining Division.

You are hereby notified that Frank B. Goetter of Colville. Wash., U. S. A., and W. G. McMynn, of Greenwood aforesaid, have expended in labour and improvements the sum of one hundred dollars upon the said "Queen Bess" mineral claim, and $2.50 for recording the same as will appear by a Certificate of Work recorded on the 13th June, 1901, in the office of the mining recorder of said Mining Division at Greenwood aforesaid, in order to hold the said cloim under the provisions of section 24 of the "Mineral Act", such being the amount required and necessary to hold the said claim for the year ending the 1st day of July, 1901; and if at the expiration of ninty days of publication of this notice you fail or refuse to contribute your proportion of the expenditure required under the said section 24 of the "Mineral Act", together with all costs of advertising, your interest in said claim shall become vested in the said Frank B. Goetter and W. G. McMynn [your co-owners] under section 4 of the "Mineral Act Amendment Act 1900".

Dated ot Greenwood, aforesaid, this 8th day of August, A. D., 1901.

FRANK B. GOETTER,
W. G. McMYNN.

NOTICE OF FORFEITURE.

To J. A. Drain and C. Hoffman, both of the City of Spokane in the State of Washington.

Sirs:

You are hereby notified that I have expended $100.00 in labor and improvements on the "Alice Maud" Mineral Claim situate in Smith's camp in the Kettle River Mining Division of Yale District in British Columbia, to count as an assessment on said claim, as will appear by a Certificate of Work recorded 23rd March, 1901, in the office of the Mining Recorder for the said Kettle River Mining Division of Yale District, in order to hold said claim under the provisions of Section 24 of the Mineral Act; such being the amount required to hold the said claim for the year ending 23rd March, 1901.

And if at the expiration of 90 days of publication of this notice you fail or refuse to contribute your proportions of the expenditure required under Section 24, together with all costs of advertising, your interests in said claim shall become vested in the subscriber [one of your co-owners] under Section 4 of the Mineral Act Amendment Act, 1900.

Dated at Greenwood, B. C., this 26th day of July, 1900.

W. T. SMITH.

VANCOUVER, B, C.

LOCAL HAPPENINGS.

The Toronto Monetary Times publishes the statment that the mortgagees have foreclosed on the mining and smelting properties of the Standard Copper Company, Quebec Copper Company and Standard Pyritic Smelting company. The mortgagees are Messr. Price Bros & Co. of Quebec.

Geo. F. Stocker, resident agent at Cascade for the owners of that townsite, visited Greenwood on Tuesday and Wednesday. He reports business as having improved considerably at his home town. Progress with grading work along the Marcus-Republic railway where it passes Cascade is not so rapid as was anticipated it would be yet as many men as have been obtainable are employed along the line.

A provincial government advertisement in another column invites tenders for the erection of a bridge across Kettle river, at Ingram's. The location is stated in the advertisement, which appears as received, as being in the West Kootenay district, but this must be an error, since Kettle river does not enter West Kootenay. The old bridge at Ingram's is in the Boundary district, between Midway and Rock Creek.

The Montreal & Boston Copper company has ordered from Cunningham & Andersen, of Greenwood, an electric light plant of 150 light capacity. The order has been sent direct to the manufacturers, with instructions to send on the dynamo without delay. Upon receipt it will be installed, so as to be ready for use by the time winter sets in. Meanwhile mine workings and buildings will be wired for electric lighting.

A. B. Barker, of the staff of the Bank of Toronto, and A. J. Burnside, both of Rossland, reached Greenwood last Sunday evening on their way to the Similkameen. They continued their journey on Monday. Their intention was to ride in via Anarchist mountain and Osoyoos, and probably to return over the trail from Princeton to Beaverdell and thence down the West Fork and main Kettle river to Rock Creek and Midway.

Greenwood's brass band is being resuscitated. Last Monday night the boys had a go-as-you-please meeting, at least at times it sounded that way until they got the hang of the thing, and then they all pulled (or blew) together, and everything was lovely. More power—and wind—to the Greenwood band. For once the people over the way were out of the running and the hymn singers conceded the field to the crowd having the most brass.

A. T. Winters, of Colville, who is one of the shareholders in the Midway Trading company, is now temporarily in charge of the company's mercantile business at Midway. J. R. Jacobs, the late manager, has removed to California, the recent death of his father requiring that he shall give his attention to family business matters. E. B. Bird, at one time assistant to Mr. Jacobs in the store, will likely take charge after the return of Mr. Winters to Colville.

J. C. Haas and Walter Foster, when walking over a mineral claim up the mountain side from the Eholt meadow, last Tuesday, came upon the carcase of a big buck which apparently had been killed by a cougar. Part of the deer's head had been knawed off and his captor had also taken a few big mouthfuls from the body. The carcase was nearly buried, earth and leaves having been gathered about it by some animal, evidently with the intention of keeping it for later use.

G. Arthur Rendell is relinquishing the active management of the mercantile business of the Eholt Trading company, at Eholt. Mr. Rendell is retaining his interest in this flourishing concern but is, for health reasons, turning over its management to H. J. Bayly, well and favorably known in the district during a somewhat lengthy connection with Rendell & Co., of Greenwood, who with Robert Wood, whose store business was amalgamated with their's five or six years ago, were the pioneer merchants of the Boundary creek valley.

J. C. O'Neill, of Chicago, was registered at the Imperial hotel last week and this week until Tuesday, on which day he left for Spokane and more distant points. He is interested in the Chicago-British Columbia Mining company, owning the Lake group, in Skylark camp, and in neighboring mineral claims. Some time ago he organized a company in Chicago to acquire and operate the North Star mine at Silverton, Colorado, a valuable property already extensively developed and having its own large stamp mill and cyaniding plant.

THE CITY CEMETERY.

Mr. Ashcroft's application on behalf of the Church of England, for a deed for a portion of the cemetery draws attention to the unwise policy on the part of the city in dividing with churches and fraternal societies ownership in the cemetery. The result will be that, so far as the city is concerned, but little revenue can be secured from the sale of plots in the city portion. Nearly everyone that earns his living in the city belongs to one of the churches or fraternal socities, and should he desire a cemetery plot for either himself or his family, he will purchase from one of the societies or churches to which he belongs. The city will have an opportunity to provide burial ground for but few save those who cannot afford to pay for a plot. The result will be that if the cemetery is maintained and beautified as it ought to be, the responsibility must rest upon the different organizations holding ground in the cemetery or if on the city the expenditure must come from the general revenue. Had the city retained control of the sale of cemetery lots altogether, allowing different organizations to set apart portions for themselves, the proceeds from the cemetery could probably pay the expenses of a caretaker and the beautifying of the grounds.

Under the present circumstances the council must carry out promises made some time ago. We hope the committee appointed from the council will be able to arrange with the different organizations interested a plan whereby all will join together for the purpose of making the cemetery what it ought to be. All should take an interest in making it beautiful.

THE CAVE OF ABDULLAM.

Somewhere in the good book we are told that David took possession of the cave of Adullam and that a party gathered there. "Everyone that was in distress and everyone that was in debt and everyone that was discontented gathered themselves with him." History repeats itself and we find that a few thousand years afterwards a similar party gathered themselves with one James Dunsmuir. Political practices and political principles are sacrificed in the gathering together of the impecunious and the irreconcilable. Martin's conduct is not surprising. He is always ready to sacrifice party, pledge and policy to satisfy a selfish ambition and that he should prove traitor to his political friends is nothing more than was expected by those who knew him best and studied his political career. He is a fit subject for the modern cave of Abdullam. J. C. Brown was a power on the Lower Fraser in the early days but he became a victim of the blighting influence of Joseph Martin. Tempted by an office in that wonderful cabinet which Martin constructed, he sacrificed a comfortable living as postmaster at New Westminster that he might follow Joseph. When the people got an opportunity they put Martin's cabinet to a sure and sudden death and J. C. Brown was neither cabinet minister nor postmaster at New Westminister. He became a politician in search of a job and he entered the cave of Abdullam. W. W. B. McInnes was a young man of great promise. Elected by the people of Vancouver Island and an uncompromising opponent of the politics and policy which Dunsmuir represented, he went down to Ottawa and made an ass of himself. He endeavored to lead Sir Wilfred Laurier and the entire Liberal party and became disgruntled when it was pointed out to him that he was only an obscure follower. Willie returned to B. C. and by the aid of a glib tongue and a loud profession of sound political views he got into the local house. He soon showed that he could worship the golden calf and he now announces his willingness to enter the cave of Abdullam. And there are others. The poor, the discontented, the distressed are all surrounding a David whose chief qualification is wealth.

This playing battledore and shuttlecock with the electors cannot last. The present combination at Victoria will surely be defeated but what will follow. Unless strong political parties are organized in the province there is no surety that their successors will be any better. The truth is that the only practical way to secure strong government is through party lines. If the Liberals and Conservatives were strongly organized in the local house, the swallowing up of an opposition by the government would be impossible. The Liberals of the province have been too much afraid of such heads like Joe Martin. Had they organized before the last election, with a good leader, they could have [illegible] the province. We would rather see a straight Conservative government [illegible] than the present aggregation who are responsible to no one, who have no policy but to stay in office. A Conservative government is something that Liberals can fight against [illegible] contains the best [illegible] be and the Liberals [illegible] At present [illegible] hearing about [illegible] no-body [illegible] and the [illegible] a [illegible] but [illegible] for government [illegible] cities and [illegible] have [illegible] parties—Joseph [illegible]

MINERAL NOTES.

The [illegible] Review is responsible for the statement that if the Hon. D. W. [illegible] the same energy in [illegible] in the discharge of [illegible] y general, he has [illegible] his hands.

The thanks of the citizens are due to Mr. [illegible] succeeded in organizing [illegible] players are all adepts and with the [illegible] music and instrumental [illegible] public without much [illegible] With the Rhrlich [illegible] can be made [illegible] to live in.

a [illegible] is a good one. The site is very suitable for this purpose. By widening Boundary creek and damming it a lake could be formed. Nature has done much and with a little work on the part of the city and citizens, an excellent park could be made.

THE management of the Snowshoe mine may well exclaim "Save us from our friends." Last Saturday the Phoenix Pioneer had a prominent caption announcing that "60,000 tons will be shipped from Snowshoe mine." Then it proceeded to state that a contract had been made for the shipment of one car of ore daily. Such a contrast appears ridiculous. The Snowshoe gives much promise of [illegible] into a big mine. It already [illegible] ore opened up [illegible] treatment [illegible] e[illegible] g[illegible] profits its ore will yield, it will put out a comparatively large tonnage. Meanwhile no good purpose can be served by such boosting, which is not only contrary to the wishes of the management but has a tendency to bring its ore shipping policy—adopted for excellent reasons—into ridicule.

IF it be any satisfaction to the newspaper correspondent at Grand Forks responsible for the publication of the statement that King Solomon ore is not to be sent to the smelter at Greenwood but is to go instead to the smelter at Grand Forks, to know that the announcement made in this paper last month that the King Solomon ore would be shipped to the Greenwood smelter has this week been verified, the fact is here published for his information in particular and that of the public in general. During the current week King Solomon ore was received and sampled at the Greenwood smelter.

TO SAVE HER CHILD.

From frightful disfigurement Mrs. Nannie Galleger, of La Grange, Ga., adplied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in sores, Bruises, Skin eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by J. L. White, Miller Bros., and W. E. Anderson, druggists.

NOTICE TO CONTRACTORS

Kettle River Bridge at Ingram's, West Kootenay District.

SEALED TENDERS, properly endorsed, will be received by the undersigned up to noon of Monday, the 30th September inst., for the erection and completion of a bridge across the Kettle River at Ingram's, West Kootenay District, B. C.

Drawings, specifications, and form of contract may be seen at the Lands and Works Department, Victoria, B. C., and at the office of the Government Agent, Greenwood, on and after the 9th inst.

Each tender must be accompanied by an accepted bank cheque or certificate of deposit, made payable to the undersigned, for the sum of six hundred [$600] dollars, as security for the due fulfilment of the contract, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied and signed with the actual signatures of the tenderers.

The lowest or any tender not necessarily accepted.

W. S. GORE,
Deputy Commissioner of Lands & Works.
Lands and Works Department,
Victoria, B. C., 5th September, 1901.

LOCAL AND PERSONAL

Gilbert Mahon, manager of the Jewel mine Long Lake camp, was in town last Saturday.

A. J. McMillan and J. W. Astley came down from the Snowshoe mine on Tuesday afternoon returning next morning.

J. W. Boss, formerly of Spokane but now of Toronto, is at present on a visit to the Dominion Copper company's mines, in Greenwood camp.

The work of excavating for the foundations of the second furnace that will be due to arrive at the Greenwood smelter next month, is now in hand.

Sam Rossier, long known in Greenwood as the obliging and zealous clerk of the Hotel Armstrong, has gone into the Turkish bath business in Spokane.

E. J. Wilson, of the Pyritic smelter, has gone to Quebec, presumably in connection with the deal now on for the sale of the smelter to Chicago people.

W. B. Riskaras, of Midway, is reported to have obtained a temporary appointment on the coast. It is stated, though, that he will return to Midway later in the year.

[illegible] Patrick and Mr. [illegible]n, were guests at the [illegible] in the week. Mr. Peck went out on Monday's train on his way to Toronto.

The incorporation of the Grand Forks Driving and Athletic Association has been gazetted. The company has a capital of $[illegible],000. divided into [illegible] shares of $[illegible] each.

It is stated that Chief Justice McColl will preside at the first assize court to be held in the Boundary district, which has been set for October 22nd next, in Greenwood.

Certain of the instruments belonging to the [illegible] Fire Department are missing. It is hoped by any party in the city, having taken a fancy for a favor by returning [illegible] hall

[illegible] Constable Alan Forrester, of Rossland, has in this district a [illegible] duties of Constable [illegible] has not yet received [illegible] ness.

Rev. [illegible] Nelson, preached [illegible] anniversary [illegible] Methodist [illegible] and at which [illegible] ons.

[illegible] assistant manager [illegible] assistant. [illegible] smelter on [illegible] oft Greenwood [illegible] nix.

[illegible] Anaconda [illegible] himself" [illegible] and this [illegible]s. Never mind, [illegible] nadvance.

[illegible] people [illegible] Spokane to [illegible] them are R. [illegible], H. H. Shallenberger, W. T. Smith and [illegible]

[illegible], the result of four [illegible] recently been [illegible] Creek Placer [illegible]y's workings. More is expected shortly, pay dirt having at length been reached and sluicing operations commenced.

A report from Phoenix is to the effect that the Columbia telephone exchange in that town has been closed, and that the people of the dinner bucket town will have now to be content with the Vernon & Nelson exchange only.

H. F. Price, local manager for the companies owning the Standard Pyritic smelter and the Standard and Marguerite mineral claims, left this week for the coast whence he will go east. He may not return to Greenwood, at least for some time.

The provincial government is advertising in the Times auction sales of lots in the towns of Fairview and Eholt. The former sale will take place at Fairview on Saturday afternoon, September 21st, and the latter at Eholt on Wednesday, the 25th inst.

D. C. McRae, of the firm of Smith & McRae, returned this week from Rossland where he met representatives of wholesale houses from whom he bought for the Christmas trade. Mr. McRae secured a larger and more varied stock of Christmas goods than was ever brought to the city.

R. W. Brock, of the Dominion geological survey, is pushing on with some work on the higher points about Phoenix so as to make Greenwood his headquarters when the winter comes on. As mentioned in the Times last month, he has a party at work on a geological and topographical survey of the district.

An extraordinary general meeting of the Cascade Water, Power & Light company will be held at Nelson on Monday, 23 inst., for the purpose of considering, and if thought fit, passing a resolution authorizing the directors to raise the sum of one hundred thousand pounds (£100,000) by the issue of mortgage bonds, or debentures, or otherwise.

A. A. Munroe, managing director of the Montreal & Boston Copper company, left by last Monday's out-going train on his return to Montreal. It is understood that whilst here he obtained a deal of information relative to the producing capacity of the Sunset and Crown Silver mines and to several sites available in the district and suitable for the erection of a smelter. He was accompanied by his brother, Dr. Munroe.

J. E. Miller, collector of inland revenue, and Wm. Gill, inspector in the same department, were in Greenwood on official business on Tuesday and Wednesday, registering at the Imperial hotel. After inspecting the local office and bonded warehouse they drove up to Phoenix where there is another bonded warehouse. In the course of conversation with Mr. Miller, an instance of hale and hearty old age was mentioned, when he gave another in the case of his own parents, who are resident at Brockville, Ontario, and who on April 29th last celebrated the 64th anniversary of their wedding. Mr. and Mrs. Miller, Sr., are respectively 85 and 84 years of age, and at last accounts were in excellent health and enjoyment of their faculties.

BOUNDARY ORE SHIPMENTS.

The tonnage of Ore shipped by Boundary District mines during September to 11th inst., inclusive, so far as has been ascertained from the mines is as under:

BOLSTER, - - - WASH.

The Only First-Class Hotel in the Myers Creek District.

COOK & YOUNG, Proprietors

JAMES BREEN TO OWN HOTEL.

Buys Famous Gregson Springs Property Near Anaconda.

A Montana despatch says that James Breen of Spokane, acting through Con Hayes of this city, who will be his partner, has purchased the famous Gregson Springs property, 10 miles from Anaconda. Last July the hotel and baths there were burned. It is the intention of the new owners to construct a splendid new hotel with accomodations for 150 guests. A huge plunge and sanitarium, to be in charge of a noted specialist in rheumatics and kindred diseases, will be established. In a statement today Mr. Hayes says $100,000 will be expended, including the purchase of 640 acres owned by Gregson Bros., which will be consolidated with 820 acres owned by Mr. Hayes. The purchase price is private.

Mr. Breen is one of the best known mining men in the northwest. He was formerly manager and part owner of the Le Roi smelter at Northport.

AMONG THE BOERS.

Jack Stewart of Nelson, who enlisted for service in the South Africa constabulary, has written to friends in Nelson giving them his experiences in the brush which the constabulary force had with the Boers under Dewet in July last, when three of them were killed and several wounded and taken prisoners. The letter is written from Hout Kop, under date of July 25th, so that it is several days later than those which reached Nelson immediately after the skirmish, which occurred on July 11th.

Stewart was with the advance party which left Hout Kop at 5:30 on the morning of the 11th. He says they kept going until 10 o'clock, when they came upon an advance guard, or what they thought was a small party of Boers. Jack says the constabulary force thought they had an easy thing and galloped towards the Boers. They poured a heavy fire into the Boers for about an hour and a half when finding they could not dislodge them they decided to retire. The party of which Stewart was a member had been depending upon another contingent for support, but when they commenced to fall back they found that the supporting party had made tracks for camp, leaving them in the lurch. The result of this was that the Boers were able to completely surround them. When the boys saw there was no way out they made a fine stand and the Boer casualty list is the best evidence of it.

There were about twenty-seven men in the party of which Stewart was a member, and after three had been killed and several others wounded they decided to capitulate, but there was nothing disgraceful about it, as by this time there were but nine men and Captain Benett capable of bearing arms against a Boer force of from 600 to 800, which party was in a position to draw upon an equally strong force about a mile away. When Stewart and the rest of the prisoners were taken into the Boer camp they found that the Boer dead numbered 28, with 32 wounded and 20 horses disabled and killed, which was not a bad record for their small force. Stewart says the Boers were very short of supplies of all kinds, and he and the other prisoners were stripped of everything save their underclothing and forced to walk nine miles over the rough roads in their bare feet to the British camp. Stewart says he would not have missed the affair for anything, but would not like another of the same against the same odds for anything. Just how any of the party escaped alive is a mystery to him.

All those wounded in the engagement of July 11th were doing well on the date of Stewart's letter and several of them reported for duty again. W. J. Thompson and George Partridge were still in the hospital on the date of the skirmish and were not able to report for duty at the date of Stewart's writing.—Nelson Tribune.
