THE SNOWSHOE MINE.

While comparatively little is heard of the work of the British Columbia (Rossland and Slocan) Syndicate, Ltd., under Foreman Trevorrow and his 30 or 35 men the Snowshoe, owned by the syndicate, is rapidly being transformed into one of the best properties in the Boundary. The greater portion of the development for some months has been done in what is known as the railway tunnel, which has been driven under the track of the Phoenix branch of the C. P. R.

This tunnel is now in over 600 feet from the portal, and has penetrated two valuable ore bodies, and is still being driven. About 325 feet in a raise was started on an incline and is now up 130 feet, nearly half way to the surface. In addition to this a winze has been sunk 100 feet on the ore, and that body explored to that extent.

For a couple of months the Diamond Drill Prospecting company, of Spokane, has been doing some developing by means of the diamond drill; four or five long bores have been made and are still being worked upon. It is understood that the results are fully up to the expectations of the management. Owing to the use of power by the diamond drill, not as many drills for development can be used just now. Nevertheless three little giant drills are constantly pounding away in the mine.

A. J. McMillan, managing director of the Snowshoe, is in London, but will return probably in the course of a couple of months, when something will be known in regard to the 20-drill compressor which has been ordered for the property.—Phoenix Pioneer.

TAKING THE CENSUS.

P. T. McCallum has been appointed census commissioner for the Boundary country. He is appointing his enumerators and expects to have everything in readiness by April 5th. As the census gives the official standing of all places, the citizens of Greenwood should assist the local enumerator in getting a complete record of the population of the city.

TO THE DEAF.

A rich lady cured of her deafness and noises in the head by Dr. Nicholson's artificial ear drums, gave \$10,000 to his institute, so that deaf people unable to procure the ear drums may have them free. Address No. 14520C, The Nicholson Institute, 780 Eighth Avenue, New York, U. S. A.

The provincial secretary gives notice by advertisement appearing in another column that provision has been made for the registration of bills of sale at the following additional offices in the county of Yale: For the Vernon and Osoyoos mining divisions, at the office of county court registrar, Vernon, and for the remainder of the county of Yale (not previously gazetted) at the registrar's office Kamloops.

Souvenir Postal : : Cards : :

SOUVENIR of the B. C. Co.'s Smelter, blown in February 18th, 1901; and of the Standard Smelter which is slated to blow in shortly.

On the face of this card are excellent views of the smelters above mentioned.

They are selling at sight. You will miss it if you do not make it a point to see them at once.

Smith & McRae

Books, Stationery, Wall Paper, Office Supplies, etc. Phone, V. & N. 34.

THE CITY COUNCIL.

Business Transacted at the Regular Meeting.

In the absence of Mayor Jakes, Ald. Sullivan was voted to the chair at the regular meeting on Monday night and Ald. Naden, Caulfield, Sutherland and Ross were present. Among the communications read was one from the Building Trades Council of Seattle, stating that rumors and circulars to the effect that there was employment for numerous additional carpenters in that city were untrue. Tilsey & Bishop asked permission to connect the waste water from water wheel at Clarendon with the Greenwood street flume and permission was granted. A petition from ratepayers interested was read asking for extension of water works along Gold street to the Anacoda bridge. The petition was referred to water works committee to report.

The special committee on street lighting reported that the Electric Light company had agreed to a rate of \$2 per month instead of \$3 for 32-candle power street lights and the same committee were authorized to report the most suitable places for additional lights.

The council discussed the washing away of the banks of Boundary creek with P. Genelle, of the Yale-Columbia company, and the street committee was authorized to deal with the same.

Several accounts were paid, including \$40 to Ald. Ross, expenses connected with city business at Victoria, and \$30, three months' donation to Free Reading room. The health by-law and revenue by-law were considered in committee.

Ald. Naden gave notice to introduce a temporary loan by-law and Ald. Ross to introduce an amendment to the Sunday observance by-law.

The chief of police was instructed to collect road and dog taxes and the council adjourned.

COUNTY COURT JUDGE.

Government Promises One for the Boundary.

Duncan Ross returned on Friday last from the capital to which place he went as one of the delegates from the Associated Board of Trade to place the resolutions passed at the annual meeting before the government. The other members of the delegation were J. B. McArthur, Columbia; J. B. Johnson and Mayor Lalonde, Rossland; J. C. Drewery, Moyie; Ald. Beer, Nelson; G. G. Henderson, Fernie; F. J. Deane, Kamloops; G. A. Henderson, Vernon, and H. W. C. Jackson, secretary of the association. The government although kept extremely busy with numerous delegations and parliamentary duties, met the delegation three times and discussed at length the requirements of the interior. Among the matters of particular interests to the Boundary upon which the government promised to take action were the official recognition of the Boundary and the appointment of a county judge. It was announced that the new maps would have Boundary district shown thereon, and that a new county would be formed along the lines suggested by the Associated Boards when the Dominion government would appoint the additional judge.

The committee who took charge of the visitors during the annual meeting of the Associated Boards of Trade, are to be congratulated upon the manner in which they carried out their duties. After paying all expenses incurred, the committee found that they would not require the \$150 guaranteed by the citizens' committee—a reserve fund left over since the celebration of last year. The committee also voted \$20 to Secretary Gaunce for the efficient manner in which he carried out the arrangements for the banquet and other entertainment.

LOCAL ITEMS

At a meeting of the council of the Board of Trade held on Wednesday afternoon, the secretary was instructed to wire other boards in Eastern British Columbia, stating that the Greenwood board would not send delegates to Ottawa unless delegation was instructed to discuss all matters of a federal nature passed at the annual meeting of the Associated Boards. A letter from Smith Curtis, M.P.P., in reference to appropriations for this district, was considered and the necessary information sent to the member.

Madame Albani, the famous prima donna, will appear in Rossland on April 16th. A great many in the Boundary desire to hear the famous singer. In order to give them an opportunity to conveniently do so, the C. P. R. are ready to run a special train at single fare rates, provided 30 give their name to the local agent immediately. This will probably be the last opportunity to hear Madame Albani and an effort should be made to secure the special train.

Lieut. Jack Leckie, of Strathcona's Horse, passed through Winnipeg on Monday last and is daily expected in the city. His name has been frequently mentioned in the dispatches for bravery at the front. He was one of three to accept the colors from His Majesty the King, when he met the brave Canadians in London. Lieut. Leckie should receive a rousing reception from the citizens of Greenwood.

F. H. Moore, who has charge of the affairs of the Buckhorn Mining company, left on Tuesday for Sherbrooke where he will meet the directors of the company and discuss its affairs with them. Mr. Moore will report the advisability of resuming operations at the mine and the directors will probably carry out his suggestions. Mr. Moore expects to return to Greenwood in about four weeks.

Clement Vascher, superintendent of the Sally mine at Rendell, was in the city this week. He brought with him some splendid specimens of ore from this rich property. The roads, he states are in fairly good condition up to Rendell and he believes the temporary bridges will last for at least a month before the high water takes them away.

Chas. W. Wilson, the well known tailor and a popular member of the Greenwood fire department, was married at Republic on February 17th by Rev. Mr. Earnheart, the happy bride being Miss Agnes Ethel Avery of Phoenix. Now that the marriage has been announced, Mr. Wilson is receiving the congratulations of his many friends.

In acknowledging receipt of one of the cards showing the two local smelters, for which excellent advertisement thanks are due to Smith & McRae for their enterprise in this connection, the editor of the British Columbia Mining Record wrote to a local correspondent: "Many thanks for the souvenir post card which is indeed a splendid idea."

A. W. Ross died of paralysis at Toronto on Saturday last. The deceased was one of the best known men in the west. He represented Selkirk in the Dominion parliament for several years. He was closely connected with Winnipeg and Vancouver in boom days and more recently he had charge of the townsite at Columbia.

The Russell-Law-Caulfield company are making arrangements to build a brick and stone block at the corner of Copper and Short street. The building will have a 75-foot frontage on Copper. Their present premises will be removed to a lot recently purchased by them next to Thos. Walsh's hotel.

W. T. Smith has returned from a visit to Toronto, New York and other eastern centers. He reports that a keen interest is being taken in the mines of Boundary creek and believes that a large amount of eastern capital will be invested here this summer.

The Stratford Exploration and Development company, limited, have decided to resume work on the Bruce. S. W. Hall, superintendent of the Iron Mask mine, Rossland, visited the property last week.

A Masonic lodge will shortly be instituted at the Mother Lode where a neat and comfortable hall is available for that purpose. An Oddfellows lodge will also be instituted at the same place.

For the Easter holidays all Canadian Pacific railway agents will sell round trip tickets at fare and one-third, good going April 4 and 5; returning April 8.

W. H. Bullock-Webber, chief of the provincial police department, with headquarters at Nelson, B. C., is in the city on business.

WORLD'S RECORD

The Greenwood smelter on Monday broke the world's record. In the 24 hours 381 tons of ore was treated in the furnace. The capacity of the furnace is supposed to be 225 tons a day, but owing to the self-fluxing character of the ore and the merits of the smelter itself, this remarkable run—ons which has never been beaten by any other smelter in the world—was made within the 24 hours. The run is all the more remarkable since the smelter has been running but a short time and new smelters are generally supposed to run less smoothly than others.

LOVE'S DREAM SHATTERED

Italian Youth Elopes from Greenwood with Woman Much His Senior.

The Kootenay hotel saw the finish of an interesting romance yesterday when Chief of Police Jarvis ruthlessly tore Cassi Torretti, aged 17, from the arms of his beloved Teresa Bompelli, aged 40, and informed him that he would have to return to his mother today. The happy couple were enjoying a stolen honeymoon and the young man was terribly cast down when he learned that the strong arm of the law had stepped in to interrupt his dream. Cassi and Teresa had spent four or five days of unalloyed pleasure in Nelson and were coming to the conclusion that the Queen City of Kootenay suited them immensely. Now the youthful lover will have to return to his home in the Boundary and will probably pay up for the short period of bliss with an interview in which the slipper of his maternal parent will figure prominently.

The hero and heroine of the elopement to which the chief of police's appearance put an end, are Italians. Torretti is a good looking and sturdy lad of seventeen summers at the outside. His partner in the escapade is probably about 40 years of age and big enough to make four of the lad. Age and weight, however, cut no figure when love sets the pace, and thus it was that Cassi and Teresa hurriedly left their homes in Greenwood and headed for Nelson determined to find a sojourning place where nothing would interfere with the devotion they felt for each other. They put up at the Kootenay hotel and were enjoying the experience immensely, when Chief Jarvis put in an appearance. The officer had been notified by wire of what had occurred and was requested to see that the lad was sent home as soon as possible. Cassi didn't want to go back to Greenwood. The town would be a wilderness without Teresa,

and when the chief insisted the youth was badly broken up. Teresa may follow him if she likes, for the chief's instruction do not concern her and she is at liberty to go wherever her will may dictate.

This morning's train will carry to Greenwood a youthful Italian who has learned at a tender age that the course of true love runs amid rocks and that his guiding star is located over a boulder of large dimensions.—Nelson Miner.

CIGAR FACTORY

To Be Started in Greenwood in About Ten Days.

Greenwood is growing. The latest addition to its industries is a full equipped cigar factory. Fred Roy an experienced cigar maker from Winnipeg, arrived in the city a few days ago and after sizing up the situation decided there was a good opening for his business here. He leased a building near the Greenwood hotel and expects to have his plant and material here within ten days. Mr. Roy will manufacture a cigar suitable for the hotel trade and as he will use Havana tobacco and is a first class workman he expects a large sale in the city and district.

The following circular telegram has been issued by J. S. Carter, C. P. R. district passenger agent under date March 26th: To board of Trades and all mine operating associations: It is now definitely arranged that delegates to Ottawa will leave Kootenay Landing Thursday, April 4th. Round trip rates will be \$50 from all points, exclusive of sleeper and dining car. Privilege of visiting Montreal and returning via St. Paul. Agents will be instructed regarding tickets. All joining must be accredited delegates. Wire Kaslo Board of Trade the number going that arrangements may be completed.

WANTED—An office desk. Address P. O. Box 256, Greenwood, B. C.

RAILWAY SITUATION.

The bona fides of the V. V. & E. railway company has been established by the joint announcement of J. J. Hill and Wm. MacKenzie that the Great Northern railway and MacKenzie & Mann were equally interested in the stock of the V. V. & E. Railway company. This strong combination of capital are making all arrangements to build the road from the coast to Kootenay and as the C. P. R. are making equally strong efforts to hold the promising territory through which the road will pass, the chances for the early commencement of construction on this important railway are indeed promising. In reference to provincial aid, the local government have apparently retreated from the position they took at the outset of the contest. It was understood that Premier Dunsmuir and the C. P. R. had entered into an arrangement under which the influence of the C. P. R. was to be used in securing assistance for the extension of the E. & N. railway to the northern end of Vancouver Island and in return the opponents of the C. P. R. on the mainland were to be sidetracked by a royal commission to be appointed by the provincial government for the purpose of inquiring into the effect of granting railway charters on the mainland. The plan was prematurely made public with the result that supporters of the government in the house strongly protested against shelving plans for competitive railways in the province. So strong were these protests that the government was forced to cancel the arrangements and the applications for railway charters were considered by the railway committee on their merits. The Crow's Nest Pass Coal company's application for a charter has been reported favorably by the committee and will in all probability be granted by the legislature.

Messrs. Robert Wood and Jas. Kerr's application for a charter to construct a railway from Vernon to Rock creek met with no opposition. The government are seriously considering the granting of assistance to this road so as to secure its early construction in order that the Shuswap and Okanagan railway may have through connection with the Boundary, thus increasing its traffic and relieving the province of \$40,000 a year guarantee of interest on the cost of construction.

COUNTY COURT JUDGES.

The public generally do not give credence to the rumor that the appointment of county court judge for the Boundary will be given to a certain gentleman whose name has been connected with the position for several years. The press and the public are slow to say or do anything that might be considered a reflection on the bench of the province, but if the Dominion government will insist in appointing gentlemen to the bench who are unfitted for the position, then in the interest of the public, the attention of the government will be called to the lamentable weakness that exists in the judiciary of the province. Good appointments to the bench would raise its standard without recourse to what would be a disagreeable duty in the

public interest, but bad appointments would simply be an aggravation that will force the press into an attack upon a department that is usually so conducted as to be above criticism.

CHECKING RAILWAY CORPORATIONS.

In Hon. Mr. Blair, the Dominion has a strong man, always ready to protect its interests against the encroachments of railway corporations. The C. P. R. has at last discovered that it will no longer be permitted to treat this country as its special preserve and that further extensions of its system must be within reasonable time and with reasonable restrictions. This was illustrated at the railway committee in Ottawa last week when the C. P. R. sought power through its B. C. Southern railway charter to build branch lines throughout the province whenever authorized by the governor-in-council and to get a five years' extension of time to complete the road. Members from the west strongly protested against allowing the company to blanket the whole province with a charter and thus stifle the development of the country. Hon. Mr. Blair agreed with them and at his suggestion the power of the company was limited to the construction of a road from Fort Steele to Golden and was given only a year in which to begin work.

EDITORIAL NOTES.

SIR WILFRID LAURIER has announced his intention of paying British Columbia an extended visit next summer. Already Liberal associations and boards of trade have extended cordial invitations to the distinguished premier to visit their cities. Similar invitations should be sent from Greenwood as Sir Wilfrid's visit could not be complete without seeing the mining, smelting, financial and commercial center of Boundary district.

THE annual meeting of the Greenwood Board of Trade will be held in the city hall next Wednesday evening, officers will be elected for the current year and other business transacted. There should be a large attendance of members. Last year the Board of Trade did work of much value to the city and district and during the current year—the banner year in the history of Greenwood—there will be plenty of opportunities for the enterprising citizens to help his town along.

Among the guests registered at the Armstrong on Saturday and Sunday last were the following men connected with the mining or smelting industry: S. F. Parrish, manager B. C. mine; Wm. Yolen Williams, mining superintendent for the Miner-Graves syndicate; J. Hanly, manager of the R. Bell mine; A. Laidlaw, manager, and E. J. Wilson, superintendent of the Standard Pyritic smelter, and W. G. Stephan, engineer in charge of the Mother Lode sampling and sorting plant. R. A. C. McNally, of Rossland, provincial agent for the Jas. Cooper Manufacturing company of Montreal, and F. Batchelor, erecting engineer for the Robins Conveying-Belt company, of New York, who has just completed installing the Robins belt conveyor and other sorting plant for the British Columbia Copper company, were also at the hotel.

Dr. C. A. Fagan, secretary of the provincial board of health, visited the district this week.

Poultry and good steaks always on hand at the Gem restaurant.

W. L. Reddin, of the Reddin-Jackson company, Rossland, is in the city.

City engineer, Sydney M. Johnson, is away on a professional trip to Camp McKinney and will return on Friday.

A first-class French range has been placed in the Gem restaurant. A better service than ever will be given at this popular restaurant.

Blake Wilson, of P. Burns & Co., is over from Nelson.

The city of Grand Forks is offering \$1,000 reward for the arrest and conviction of the burglar who robbed Mayor White's jewellery store on March 1st.

Geo. L. Fraser, who was master mechanic at the Sunset and later at the Old Ironsides, has accepted a similar position with the Iron Mountain mine at Keswick, California.

Massam & Laidlaw have secured a working option on the Athelstan mine in Wellington camp, and that mine has commenced shipping to the pyritic smelter.

An excellent programme has been prepared for the Baptist church concert given in the church on Friday evening next.

There were thirteen members of the legal fraternity in attendance at the court. Of these nine practice their profession in Greenwood, two in Phoenix, and one each in Grand Forks and Rossland.

A special from Victoria says: "The advertisement of the government in Colonist, asking for proposals to build the Coast-Kootenay railway line, is causing great discussion. Speculation as to the object of the advertisement is rife." A prominent government supporter said that the fight for the railway was now practically over, that the line would not be constructed by the V. V. & E., but by a new company, whose charter was recently put forward by Mr. Hunter.

TAKING THE CENSUS.

The census, being taken according to the de jure system, will represent the population as it was upon the 31st day of March at 12 o'clock at midnight...

The country will be divided into census districts, to correspond with the electoral divisions as they existed for the last parliamentary election...

Census districts will again be divided into census sub-districts to correspond with polling sub-divisions for electoral purposes.

Every officer employed in the carrying out of the census is bound under oath to faithfully and exactly carry out his work. He is not permitted to disclose any information which may be gathered for the purposes of the taking of the census.

Interested in us to come around and inspect the place for yourselves; and, in fact, if there are any gentlemen present today who would care to go round, Mr. Hoare has expressed himself as only too happy to take you there after the meeting.

Other persons who only sleep in a house will be included in the household which carry on housekeeping for them, although they may take their meals elsewhere.

The races will be designated, white, red, black, and yellow. Only pure whites, will be classified as whites. Children born of marriage between whites and any other race will be classified as red, black or yellow.

THE BANK OF BRITISH NORTH AMERICA.

The yearly general meeting of the proprietors of this bank was held on Tuesday at the office, 3 Clement's Lane, E.C. under the presidency of Mr. Gaspard Farrer.

The secretary, Mr. A. G. Wallis, having read the notice convening the meeting.

The chairman said:—Gentlemen, this is the first occasion of our meeting in the present century, and it is also the last occasion on which we shall meet in this room.

Now, you may have noticed that I referred to the future as if our charter were perpetual instead of expiring as it does in July next. Well, you will be glad to hear we have no anxiety on that score.

BALANCE-SHEET, 31ST DECEMBER, 1900.

Table with columns for LIABILITIES and ASSETS, listing various financial items and their values in pounds and shillings.

We have examined the above Balance Sheet with the books in London, and the certified returns from the branches, and find it to present a true statement of the bank's affairs.

our thanks—and, if I may speak for the shareholders, their thanks—both to Sir Wilfrid Laurier, Prime Minister of Canada, and to his colleagues in the government, and also to Lord Strathcona, for the ready and valuable support which we have received from them.

Souvenir Spoons...

We have just received a full assortment of Greenwood Souvenir Spoons with the B. C. Copper Company's Smelter on the bowls. Come and get a souvenir of the event before they are all taken.
